Some comments were made concerning the 30-day time period for filing actions under § 110(b). Commentators objected that § 4.561(a) could not extend the 30-day period because it was jurisdictional, the Secretary had no authority to permit an extension, and, if such extension were permissible, the same opportunity should be extended to coal mine operators under § 105 of the Act. A recent decision of the Board of Mine Operations Appeals, *Baker v. North American Coal Co.*, 8 IBMA 164, decided September 30, 1977, made it clear that the 30-day period is not jurisdictional, but a statute of limitations. As such, this period is not automatically extended, but can be if the proper extenuating circumstances exist, as determined by the Administrative Law Judge or the Board. The Department believes it is proper to encourage miners to file § 110(b) actions, even after the 30-day period expires, particularly where the miner may have been misled concerning his right to file an action or where other extenuating circumstances exist. It was also felt that if a miner has initiated a grievance-arbitration proceeding or filed a complaint involving the same general subject matter with another agency within 30 days, the miner has indicated his intent to contest the validity of the action taken by the operator and, if the miner acts within 30 days after the other proceeding or complaint is resolved, should be allowed to pursue his action under § 110(b). Moreover, § 4.561(a) encourages the miner to pursue his grievance or seek his remedy in another forum which may make the relief sought by the miner under § 110(b) unnecessary. Concerning the comparison of the time periods in the Act, because these rules deal only with § 110(b) of the Act, it would be inappropriate to make any comment concerning their applicability to the time period set forth in § 105 of the Act.

Some objections were raised concerning a duplication of functions within the Department. These rules establish, however, a distinct separation of function. The investigative process will be primarily performed by MESA. The fact finding process is within the purview of the Office of Hearings and Appeals. An Administrative Law Judge within that office will conduct the administrative hearing and render the initial decision. While some commentators expressed concern about increased costs to the coal mine operators and to the agency itself, any additional expenditures should be minimal. For example, MESA already has personnel doing investigative work who will be utilized to conduct the § 110(b) investigations. It is intended that the investigative interviews be

conducted with a minimum of inconvenience and cost to the operators, consistent with the goal of obtaining a complete and objective statement of the facts surrounding each alleged act of discrimination.

While an objection has been made to the Solicitor's Office receiving copies of the applications filed under § 110(b), the purpose of this provision in § 4.562 is to facilitate MESA's conduct of the investigation, to allow the investigation to be initiated in the shortest possible time, and, therefore, the provision will be retained.

The report of the investigation is to be submitted to the Administrative Law Judge prior to the hearing as an aid in narrowing the issues involved in the case and to provide information to the Administrative Law Judge concerning the facts involved. Because the hearing provides to all parties the right to cross-examine those individuals whose statements are contained in the report and present relevant evidence, there will be no denial of due process by virtue of the inclusion of the investigative report as part of the record, as one commentator suggested.

It is not intended that these regulations have retroactive effect, as proposed by one commentator. It is recognized, however, that MESA can conduct investigations in those § 110(b) cases filed prior to the effective date of these rules, where MESA deems it advisable or necessary to conduct such investigations. The question of MESA's status as an intervenor in any discrimination cases filed before the effective date will be left to the discretion of the Administrative Law Judges.

Several commentators suggested promulgation of the amended regulations be deferred until the procedures under the new Federal Mine Safety and Health Amendments Act of 1977 go into effect. Recognizing, however, that there is a delay of 120 days in the effective date of the 1977 Act, the amendments will be operative during this interim period, until such time as the provisions of the 1977 Act and its regulations become effective. It is appropriate that MESA's functions to investigate and participate be guaranteed in the amendments, as they will be guaranteed in the 1977 Act. Regarding the contention that these changes be postponed until certain cases now being considered are decided, it should be noted that these rules will have no effect on the decisions in those cases.

Because the Federal Mine Safety and Health Amendments Act of 1977 has been signed into law by President Carter on November 9, 1977, to become generally effective in March of 1978, and because this new Act makes substantial changes in the procedures which will be utilized in processing mine health and safety discrimination cases, it should be under-

stood that nothing in these final rules is intended to conflict with any provisions in the new Act. It is intended that these rules will be in effect only until such time as the substantive regulations implementing the Federal Mine Safety and Health Amendments Act of 1977 can be properly published in final form.

#### DRAFTING INFORMATION

The principal persons responsible for preparation of these final rules are: W. Michael Hackett, Trial Attorney, Office of the Solicitor, and Kate O'Belrne, Attorney-Adviser, Board of Mine Operations Appeals.

Dated: January 11, 1978.

LEO M. KRULITZ,  
Acting Secretary of the Interior.

1. By revising the last sentence in § 4.513 to read:

§ 4.513 Intervention.

... The Administrative Law Judge or the Board of Mine Operations Appeals may grant or deny petitions for intervention or may permit intervention limited to a particular stage of the proceeding except as provided in § 4.560a for intervention by the Mining Enforcement and Safety Administration as a matter of right.

2. By adding § 4.560a to read:

§ 4.560a Intervention by the Mining Enforcement and Safety Administration under § 110(b) of the Act.

(a) Notwithstanding § 4.513, the Mining Enforcement and Safety Administration may intervene at any time in any proceeding brought to review an alleged discriminatory discharge or other act of discrimination pursuant to section 110(b) of the Act. Such intervention shall be deemed to be a matter of right and the Mining Enforcement and Safety Administration shall not be required to obtain permission to intervene from the Administrative Law Judge or the Board of Mine Operations Appeals. Such right of intervention shall include the right of the Mining Enforcement and Safety Administration to participate in discovery procedures to the same extent as would be allowed any party.

(b) *Provided, however,* That notwithstanding the time limitation set forth in 43 CFR 4.583a(a), and upon formal notification by the Mining Enforcement and Safety Administration that an operator currently under investigation pursuant to § 110(b) of the Act refuses to cooperate with the investigation by declining or failing to provide documents, data, witnesses, interviews, statements, or other information considered necessary for proper conduct of the investigation, an Administrative Law Judge shall permit the initiation of discovery procedures by the Mining

Enforcement and Safety Administration.

3. By revising § 4.561 to read:

§ 4.561 When to file.

(a) An application for review of an alleged discriminatory discharge or other act of discrimination shall be filed within 30 days after the alleged discriminatory activity has occurred. However, where the Administrative Law Judge or the Board of Mine Operations Appeals find extenuating circumstances exist, or where the applicant has, within the 30-day period resorted to grievance-arbitration proceedings under a collective bargaining agreement or filed a complaint regarding the same general subject with another agency, an application may be filed after the 30-day period, but shall be filed within 30 days after the completion of such other proceeding or the resolution of such complaint.

(b) An application for compensation shall be filed within 45 days after the date of issuance of the withdrawal order which gives rise to the claim.

4. By adding new § 4.561a to read:

§ 4.561a Where to file.

(a) An application for review of an alleged discriminatory discharge or other act of discrimination shall be filed with the Office of Hearings and Appeals, 4015 Wilson Boulevard, Arlington, Va. 22203. Such application may be delivered to any office of the Mining Enforcement and Safety Administration or to the Associate Solicitor, Division of Mine Health and Safety, which shall promptly forward the application to the Office of Hearings and Appeals for filing. Delivery to any designated office other than the Office of Hearings and Appeals shall operate to toll the 30-day period.

(b) An application for compensation shall be filed with the Office of Hearings and Appeals, 4015 Wilson Boulevard, Arlington, Va. 22203.

5. By adding paragraphs (c) and (d) to § 4.562 to read:

§ 4.562 Contents of application.

(c) Copies of all pleadings and papers filed shall be served by the parties on each other and upon the U.S. Department of the Interior, Office of the Solicitor, Associate Solicitor, Division of Mine Health and Safety, 4015 Wilson Boulevard, Arlington, Va. 22203.

(d) In the event the Office of Hearings and Appeals receives an application filed under § 110(b) of the Act which does not show distribution to the Associate Solicitor, Division of Mine Health and Safety, a copy of the application shall promptly be provided

by that office to the Associate Solicitor, Division of Mine Health and Safety.

6. By adding § 4.564 to read:

§ 4.564 Investigation and report in § 110(b) cases.

Within 60 days after service of an application for review of an alleged discriminatory discharge or other act of discrimination, or within such other period of time as may be designated by the Administrative Law Judge or the Board of Mine Operations Appeals, the Mining Enforcement and Safety Administration shall investigate the facts and circumstances surrounding the alleged discriminatory discharge or other act of discrimination and file a report of the investigation with the Office of Hearings and Appeals. Such report of investigation shall be included as part of the official record in the proceeding. Copies of the report shall be served on each of the parties.

(Sec. 508, Pub. L. 91-173; 83 Stat. 803 (30 U.S.C. 957).)

#### Title 49—Transportation

#### CHAPTER X—INTERSTATE COMMERCE COMMISSION

#### SUBCHAPTER A—GENERAL RULES AND REGULATIONS [Amendment No. 1 to Service Order No. 1270]

#### PART 1033—CAR SERVICE

Chesapeake and Ohio Railway Co. Authorized To Operate Over Tracks Abandoned by Grand Trunk Western Railroad Co.

AGENCY: Interstate Commerce Commission.

ACTION: Emergency order (Amendment No. 1 to Service Order No. 1270).

SUMMARY: Service Order No. 1270 authorizes The Chesapeake and Ohio Railway Company to operate over approximately 0.6 miles of track authorized to be abandoned by the Grand Trunk Western Railroad, between Ferrysburg, Michigan, and Grand Haven, Michigan. The trackage involved is owned by the Grand Trunk Western but is used as an integral part of The Chesapeake and Ohio's line between Holland, Michigan, and Muskegon, Michigan. The order also authorizes The Chesapeake and Ohio to operate over an additional 0.2 miles of tracks abandoned by the Grand Trunk Western in order to provide continued rail service to a shipper located adjacent to those tracks. The amendment extends the order for an additional six-month period.

DATES: Effective 11:59 p.m., January 15, 1978. Expires 11:59 p.m., July 15, 1978.

FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, Telephone 202-275-7840. Telex 89-2742.

SUPPLEMENTARY INFORMATION: The order is printed in full below.

At a Session of the INTERSTATE COMMERCE COMMISSION, Railroad Service Board, held in Washington, D.C., on the 13th day of January, 1978.

Upon further consideration of Service Order No. 1270 (42 F.R. 38379), and good cause appearing therefore:

It is ordered, that: Service Order No. 1270 is amended by substituting the following paragraph (c) for paragraph (c) thereof:

§ 1033.1270 Service Order 1270.

*The Chesapeake and Ohio Railway Company authorized to operate over tracks abandoned by Grand Trunk Western Railroad Company.*

(c) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., July 15, 1978, unless otherwise modified, changed or suspended by order of this Commission.

This order shall become effective at 11:59 p.m., January 15, 1978.

(49 U.S.C. 1(10-17).)

*It is further ordered,* That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Joel E. Burns, Robert S. Turkington and John R. Michael.

H. G. HOMME, Jr.,  
Acting Secretary.

[7035-01]

## SUBCHAPTER C—ACCOUNTS, RECORDS AND REPORTS

[No. 36645]

## PART 1203—EXPRESS COMPANIES

## PART 1241—ANNUAL, SPECIAL, OR PERIODIC REPORTS—CARRIERS SUBJECT TO PART I OF THE INTERSTATE COMMERCE ACT

## Elimination of USOA for Express Companies

AGENCY: Interstate Commerce Commission.

ACTION: Report and order.

SUMMARY: The present Uniform System of Accounts for Express Companies (USOA), was developed by the former express company REA Express, Inc. (REA), and adopted by the Commission after appropriate modification on July 27, 1973. REA was the sole user of the USOA and only express company subject to Commission regulation until it was adjudicated a bankrupt by the U.S. District Court for the Southern District of New York on November 6, 1975.

A successor company to REA has yet to emerge in the express industry and prospects for the emergence of a successor company in the immediate future are doubtful. If a successor company should emerge, substantial modification of accounting rules would be required to accommodate the management information needs of the successor company. Therefore, the Commission has decided to delete the USOA and related reporting system for express companies, Parts 1203 and §1241.31 respectively, of Chapter X, Subchapter C of Title 49 of the Code of Federal Regulations.

Part 1203 of 49 CFR is deleted:

## PART 1203—[DELETED]

Section 1241.31 of 49 CFR Part 1241 is deleted:

§1241.31 [Deleted.]

EFFECTIVE DATE: January 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. James B. Thomas, Jr., Director, Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, Phone: 202-275-7565.

Issued at Washington, D.C. January 3, 1978, by the Commission.

H. G. HOMME, Jr.,  
Acting Secretary.

[FR Doc. 78-1543 Filed 1-18-78; 8:45 am]

## RULES AND REGULATIONS

[4310-55]

## Title 50—Wildlife and Fisheries

## CHAPTER 1—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

## PART 33—SPORT FISHING

## Opening of Swan Lake National Wildlife Refuge, Missouri, to Sport Fishing

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to sport fishing of Swan Lake National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: March 1, 1978, through September 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Alfred O. Manke, P.O. Box 68, Sumner, Missouri 64681, Telephone: 816-856-3323.

## SUPPLEMENTARY INFORMATION:

§33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

Sport fishing is permitted on the Swan Lake National Wildlife Refuge, Missouri, only on the areas designated by signs as being open to fishing. These areas comprising 10,500 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 25486, Denver, Colo. 80225. Sport fishing shall be in accordance with all applicable State regulations subject to the following conditions:

1. During daylight hours only.
2. Boats without motors may be used on Swan Lake, Silver Lake, and that portion of South Lake immediately adjacent to No. 5 Levee.
3. Travel is permitted on all roads except those posted with "Road Closed" signs.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 33. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: January 11, 1978.

ALFRED O. MANKE,  
Refuge Manager.

[3510-22]

## CHAPTER VI—FISHERY CONSERVATION AND MANAGEMENT, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

## PART 611—FOREIGN FISHING

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Errata sheet.

SUMMARY: These amendments are a miscellaneous group of corrections to the comprehensive 1978 foreign fishing regulations which were published on November 28, 1977 (42 FR 60682).

EFFECTIVE DATE: These corrections will become effective on January 16, 1978.

FOR FURTHER INFORMATION CONTACT:

Richard Schaefer, Fishery Management Operations Division, National Marine Fisheries Service, Washington, D.C. 20235, 202-634-7454.

SUPPLEMENTARY INFORMATION: The foreign fishing regulations for 1978, which were published under authority of the Fishery Conservation and Management Act of 1976, 16 U.S.C. 1801, et seq., as amended, on November 28, 1977, contained a number of minor errors. Some of these errors were typographical; some stemmed from small oversights. These amendments are intended to correct those errors, and in that sense, this list should be viewed as an errata sheet. None of the errors which are corrected is substantive in character.

Signed at Washington, D.C., this 13th day of January 1978.

WINFRED H. MEIBOHM,  
Associate Director, National  
Marine Fisheries Service.

The telephone number given in the preamble under the heading, "FOR FURTHER INFORMATION CONTACT," is incorrect. That number should be 202-634-7454.

On Page 60682, correct Subpart A §611.3 on page 60682 by inserting word "foreign" between words "for" and "fishing", so it reads "Permits for foreign fishing."

On Page 60683, the heading for 611.93 in Subpart G should be changed to reflect corrected title: "Bering Sea and Aleutian Islands Trawl, Longline, and Herring Gillnet Fishery."

The heading for §611.94 in Subpart G should be changed to reflect correct title: "Directed Fishery for Sablefish (Blackcod) in the Gulf of Alaska."

In §611.2(f) correct Latin name for lobster in Crustacea column is "Homarus", not "Homarcus."

## RULES AND REGULATIONS

(1)(2) Strike "with", substitute "within".

(v) Strike "south", substitute "southern".

In §611.3(d) at beginning of the second sentence, strike the words "To allow time for review, comment and processing applications should . . ." and substitute the following: "To allow time for review and comments by the public, the involved governmental agencies, and appropriate fishery management councils, and the necessary processing, applications should . . ."

In §611.4 Table I, line 3, correct spelling of "California".

In §611.4 footnote frequencies for Table II should be corrected as follows:

Carrier Frequencies (kHz) as follows:

Letter	Shore transmit	Ship transmit
A.....	4428.7	4134.3
B.....	6506.4	6200.0
C.....	6765.4	8241.5
D.....	13113.2	12342.4
E.....	17307.3	16534.4

In §611.9(d)(3), line 13, and (e)(1), line 6. Change §611.20(d) to §611.21.

In §611.9(d)(4). Delete the word "Ocean" after the words "Northeast Pacific."

In §611.9 Appendix I, "Principal Groundfish (except Flatfishes)."

Delete footnote 1 from listing for red hake.

"Other Groundfish" column 1 change Latin name for Northern Puffer from "Sphoeroides" to "Sphaeroides."

"Other Fish" change Latin name for Rainbow smelt from "mardax" to "mordax."

"Invertebrates"—(Code 509) Both Latin names for squids (NS) should be capitalized.

"Species codes—Pacific Ocean"—(Code 003) Correct Latin spelling for flounders, other than yellowfin sole is "Pleuronectiformes."

In §611.9, Appendix II. Retitle charts on pages 60688 and 60689 by deleting the word "Divisions" from all three and changing the word "Area" to "Areas."

In §611.9, Appendix III. In the fifth paragraph, strike §611.20 and substitute §611.21.

In §611.9, Appendix IV, subparagraph (1)(D), line four. Insert "1/2 of a" between the word "nearest" and the word "metric," also in Appendix IV subparagraph (1)(E), third paragraph, line 5, strike §611.20(d), substitute §611.21.

Subparagraph (1)(E), fourth paragraph, line 1, strike words "Northwest Pacific Ocean," substitute "Northeast Pacific."

Subparagraph (2), line 11. "State" should be "state."

In §611.9, first table on page 60691 "Address" column changes as follows:

1. The ZIP code for the Director, Northwest Region should be 98109.

2. Strike fourth paragraph which begins "Director, Southeast Region;" substitute: "Director, Southeast Fisheries Center, National Marine Fisheries Service, 75 Virginia Beach Drive, Miami, Florida 33149."

3. Address for Alaska Director should read: "Director, Alaska Region, National Marine Fisheries Service, P.O. Box 1668, Juneau, Alaska 99801."

"Report Received by" column, line four. Add word "period" so that line reads "reporting period."

In §611.12(b), line 5. "An" should be "any."

In §611.15(c), end of second line. "Nation" should read "nation(s)."

In §611.50(b)(3)(ii), line 3. The word "billfish" should be changed to "all billfishes." This subparagraph should be further corrected by inserting the words "Atlantic herring" between "Atlantic cod" and "Atlantic menhaden;" "pollock" between "haddock" and "scup;" and insert between "Continental Shelf fishery resources" and the period at the end of the sentence the words "and other invertebrates except squids allocated in Table II."

In §611.50(c)(2). In second line insert word "pelagic" between words "any" and "rawl."

In §611.50(d)(1)(iii). Insert number "100" between "nearest" and "kilogram," add "s" at end of word "kilogram."

In §611.50(e)(2) fifth line, strike "327 MHz," substitute "472 kHz."

Add at end of subparagraph: "Broadcast is also made on 8502 kHz via simultaneous keying when necessary."

In §611.50(e)(2). In eighth line, strike "350 G.M.T.," substitute "1350 G.M.T."

In §611.70(b)(2). Subparagraph designators are incorrect. Should read (i) and (ii) respectively instead of (a) and (b).

In §611.70(b)(1), Table I under column headed "Rockfishes including Pacific Ocean Perch." The number "890" should read "710."

In §611.70(f)(1)(iii). Correct spelling of "starting."

In §611.70(f)(3). On last full line in subsection, number "611.70" should be inserted between "in" and "(f)."

In §611.80. Title of subpart should be corrected to read "Seamount Groundfish Fishery."

In §611.80(e)(2)(ii). Strike the words "in paragraph (a) of this section," substitute "in §611.2(f) of this Part."

In §611.80(e)(4). In lines 2 and 3, strike "Part 3.0 above," substitute "subsection (b)(4) above."

In §611.90(c)(2)(ix). Delete "to" in third line.

In §611.92, Table I, last column heading add an "s" on "Species."

In §611.92(b)(2), lines 2 and 3 change "area" to "areas." Line 4. Change "includes" to "include."

In §611.92(b)(3)(i)(A), line 2. Change the first latitude from "50°57'" to "56°57'."

In §611.92(b)(3)(i)(B), line 7. Change "50°30'" to "56°30'."

In §611.92(b)(3)(i)(C), line 2, last latitude. Change "56°44'U" to "56°44'N." on line 3, change longitude from "153° W. long." to "153°00' W. long."

In §611.92(b)(3)(i)(E), line 3. Change "150°00'" to "150°57'."

In §611.92(b)(3)(iii), second line. Change "fishing" to "trawling."

In §611.92(b)(3)(iv), line 3. Change "May 15" to "May 31."

In §611.92(b)(3)(v), line 4. The first word "December" should be changed to "November."

In §611.92(c), line 16. Insert the word "squid," between the words "mackerel;" and "any."

In §611.93. Change title to read: "Bering Sea and Aleutian Islands Trawl, Longline, and Herring Gillnet Fishery."

In §611.93, Table I on page 60698 requires three changes:

1. Title of Table should read: "Bering Sea and Aleutian Islands Trawl, Longline, and Herring Gillnet Fishery . . ."

2. The species column headed by the word "Pacific" between "Sablefish" and "Herring" should read "Pacific cod."

3. The initial TALFF for "Other Flounders" should be 139,000 instead of 105,000.

In §611.93(b)(1)(iii)(B). Delete the words "by means of trawling or gillnetting" in the third and fourth lines. Substitute "(as defined in §611.2(p)(1))."

Line 11, insert after "fishery" the words "for other allocated species."

In §611.93(b)(2), line 3. Change "area" to "areas."

Line 4, change "includes" to "include."

In §611.93(b)(2)(ii)(A), line 2. Change "and" to "to."

In §611.93(b)(2)(iii)(C), line 1. Delete "C" after "176," and substitute "00."

In §611.93(b)(3)(i)(A). At the beginning insert "From January 1, 1978 to December 31, 1978, inclusive."

In §611.93(b)(3)(i)(B)(1) At the end add: "(From Cape Sarichef Light to 54°00' N. lat., 170°00' W. long.; then due south along 170°00' W. long. to the Aleutian Islands)."

In §611.93(b)(3)(i)(B)(2) and (3) After "Area E" insert "(From Cape Newenham at 58°39' N. lat., 162°10'25' W. long.; to 57°15' N. lat., 170°00' W. long.; to Cape Sarichef light)."

In §611.93(b)(3)(B)(4) After "Area A" insert "(From Cape Sarichef light at 54°36' N. lat., 164°55'42' W. long.; to 54°00' N. lat., 170°00' W. long.; to 57°15' N. lat., 170°00' W. long.; to Cape Sarichef light)."

## RULES AND REGULATIONS

In § 611.94(a), line 3. Change as follows: " \* \* \* *plopoma fimbria*) by foreign \* \* \* "

In § 611.95(d), line 7. First word in line should be "month" instead of "mouth".

[FR Doc. 78-1399 Filed 1-18-78; 8:45 am]

## proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[7590-01]

NUCLEAR REGULATORY  
COMMISSION

[10 CFR Part 100]

SEISMIC AND GEOLOGIC SITING CRITERIA FOR  
NUCLEAR POWER PLANTS

## Reassessment of Current Criteria

On November 13, 1973, the Atomic Energy Commission published in the FEDERAL REGISTER (38 FR 1271) amendments to its regulations which adopted Appendix A, "Seismic and Geologic Siting Criteria for Nuclear Power Plants," to 10 CFR Part 100, "Reactor Site Criteria," as a rule to be effective December 13, 1973. In view of the experience gained in the application of the procedures and methods set forth therein, the difficulties encountered, and the rapid advancement in the state-of-the-art of earth sciences, the staff of the Offices of Standards Development and Nuclear Reactor Regulation of the U.S. Nuclear Regulatory Commission have initiated a reassessment of the appendix to determine the need for its revision.

To aid the staff in this reassessment, all interested persons are invited to submit information, comments, and suggestions. The staff is particularly interested in finding out about problems that have arisen in the application of Appendix A. Commenters are invited to state the nature of the problems encountered and describe them in detail. Corrective actions should also be recommended.

After comments, information, and suggestions have been received and considered, the staff will publish the results of its reassessment as a preliminary value/impact statement and, if appropriate, recommend to the Commission that rulemaking be initiated.

Interested persons should send information, comments, and suggestions by March 1, 1978 to Mr. Leon L. Beratan, Chief, Site Safety Standards Branch, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Copies of the comments received will be available for examination in the NRC Public Document Room, 1717 H Street NW., Washington, D.C.

(5 U.S.C. 552(a).)

Dated at Rockville, Md., this 11th day of January 1978.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,  
Director, Office of  
Standards Development.

FEDERAL ENERGY ADMINISTRATION<sup>1</sup>

[10 CFR Parts 205 and 303]

ADMINISTRATIVE PROCEDURES AND  
SANCTIONS

## Appeal From Interpretations

AGENCY: Department of Energy.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Department of Energy ("DOE") hereby gives notice of a proposal to amend its petroleum price and allocation procedural regulations to eliminate administrative appeal of formal interpretations issued by the Office of the General Counsel or Regional Counsels pursuant to 10 CFR Part 205, Subpart F, while preserving the right to seek modification or rescission of an interpretation at any time under Subpart F of Part 205. The DOE also proposes to revise the procedural regulations to permit applications for reconsideration of an interpretation to be submitted to the General Counsel of the DOE within thirty days of the issuance of the interpretation. A parallel change in the procedural regulations applicable to the coal program at 10 CFR Part 303, Subpart G, is also proposed.

DATES: Written comments by February 22, 1978, 4:30 p.m., e.s.t.

ADDRESSES: Written comments to Department of Energy, Office of Regulations Management, Room 2214, Box RG, 2000 M Street NW., Washington, D.C. 20461.

FOR FURTHER INFORMATION  
CONTACT:

Deanna Williams (DOE Reading Room), 12th and Pennsylvania Avenue NW., Room 2107, Washington, D.C. 20461, 202-566-9161.

<sup>1</sup>EDITORIAL NOTE.—Chapter II will be renamed at a future date to reflect that it contains regulations administered by the Economic Regulatory Administration of the Department of Energy.

Charles Cope (Office of General Counsel), 12th and Pennsylvania Avenue NW., Room 1119, Washington, D.C. 20461, 202-566-9070.

## SUPPLEMENTARY INFORMATION:

## A. BACKGROUND

The procedures which govern the issuance of formal interpretations by the DOE General Counsel or Regional Counsels, relating to the petroleum price and allocation regulations, are found in 10 CFR Part 205, Subpart F. These procedures include a provision, § 205.86, permitting administrative appeals to be taken from such interpretations in accordance with the general administrative appeals provisions found in 10 CFR Part 205, Subpart H. In addition, modification or rescission of such an interpretation may be sought under Subpart F (§ 205.85(d)) or, based on changed circumstances, pursuant to the general administrative modification or rescission provisions in Subpart J of Part 205.

Parallel procedures applicable to formal interpretations issued by the General Counsel under the coal program are found in 10 CFR Part 303. Subpart G of Part 303 establishes the procedures for issuance of such interpretations; Subpart H sets forth the procedures for administrative appeals generally, including appeals of interpretations issued under Subpart G; and Subpart K establishes the procedures for the filing of an application for modification or rescission of certain administrative actions including interpretations issued under Subpart G of Part 303.

Appeals of formal interpretations are heard at present by the Office of Administrative Review, Economic Regulatory Administration, DOE, the successor to the Office of Exceptions and Appeals, Federal Energy Administration (FEA).

B. DISCUSSION<sup>2</sup>

The DOE regards administrative appeal of formal interpretations unnecessary and inappropriate for the reasons outlined below. Therefore, it is proposed that such appeals be eliminated from DOE procedural regulations.

It appears inappropriate to permit internal appeal to an administrative appeals office concerning a matter which in most cases relates solely to a legal judgment rendered by the DOE's Office of the General Counsel con-

PROPOSED RULES

cerning the meaning of DOE regulations. Allegations of error or omission in the factual basis of an interpretation, as well as allegations of error in law, may be reviewed by the General Counsel under existing interpretations procedures at any time (§§ 205.85(d) and 303.95(d)). Administrative appeal as presently authorized under 10 CFR Part 205, Subpart H, and 10 CFR Part 303, Subpart H, is therefore inappropriate or unnecessary, or both.

It should be noted in this connection that no such administrative appeal of rulings (also issued by the General Counsel) is permitted under existing regulations. See §§ 205.154 and 303.154. DOE interpretations and rulings are both "interpretive rules" under the Administrative Procedures Act, 5 USC 551, et seq. A DOE ruling is an interpretation of general applicability whereas an interpretation under 10 CFR Part 205, Subpart F, or 10 CFR Part 303, Subpart G, is an interpretive rule of particular applicability. A ruling may affect the rights and interests of a particular firm as much as, or more than, a specific interpretation issued to that firm. The fundamental nature of a ruling—to provide a legal interpretation of what one or more DOE regulations mean in various contexts—is also the essence of DOE interpretations.

C. PROPOSED AMENDMENTS

The amendments proposed today would essentially delete various references to interpretations in DOE's appeals regulations (Subpart H of Part 205 and Subpart H of Part 303) and provide, as in the case of rulings, that no administrative appeal of an interpretation may be taken.

In addition, in order to provide appropriate flexibility with respect to the issuance of interpretations in the first instance and reconsideration of an interpretation in certain instances by the Office of General Counsel within the framework of interpretations procedures, it is proposed to amend the definition of "Interpretation" in §§ 205.2 and 303.2 to provide that an interpretation may be issued by the DOE General Counsel or his delegate. It is presently contemplated that the Assistant General Counsel for Interpretations will exercise this delegated authority in most cases. Conforming changes to §§ 205.80(a), 205.85(a), 303.90(a), and 303.95(a) are also proposed.

The proposed amendments also delete references to modification or rescission of interpretations in 10 CFR Part 205, Subpart J, and 10 CFR Part 303, Subpart K (i.e., applications for modification or rescission of an interpretation, based on significantly changed circumstances, filed with the Office of Administrative Review). DOE does not intend by this proposed

change to bar such applications. Rather, it is intended that petitions for modification or rescission will be submitted to and reviewed by the Office of the General Counsel pursuant to the procedures set forth in §§ 205.85(d) and 303.95(d). In addition, DOE also proposes to add a new § 205.85(f) and § 303.95(f) to provide for the filing of a petition for reconsideration of an interpretation with the General Counsel of the DOE within 30 days of the date of service of that interpretation. Any petition for reconsideration of such an interpretation will be reviewed by the General Counsel and will only be considered if it is determined that a prima facie showing has been made that the interpretation was erroneous or was issued in an arbitrary or capricious manner. It should be emphasized that the reconsideration procedure is not the equivalent of an administrative appeal, but merely provides a mechanism to insure that no inadvertent errors are made which affect the validity of the interpretation.

D. WRITTEN COMMENT PROCEDURES

Interested persons are invited to participate in this rulemaking by submitting data, views, or arguments with respect to the proposals set forth in this notice to the Office of Regulations Management, Department of Energy. Comments should be identified on the outside envelope and on documents submitted to DOE Office of Regulations Management with the designation "Appeal of Interpretations," Box RG. Fifteen copies should be submitted. All comments received by DOE will be available for public inspection in the DOE Reading Room, Room 2107, Federal Building, 12th and Pennsylvania Avenue NW., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The DOE reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

E. OTHER MATTERS

Since the proposed regulation is not a regulation affecting the quality of the environment, the provisions of section 7(a)(1) of the Federal Energy Administration Act of 1974, Pub. L. 93-275, as amended, have been determined to be inapplicable to this proposal.

NOTE.—It has also been determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

Pursuant to section 404 of the DOE Organization Act, Pub. L. 95-91, these

proposed regulations were referred to the Federal Energy Regulatory Commission.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159, as amended, Pub. L. 93-511, Pub. L. 94-99, Pub. L. 94-133, Pub. L. 94-163, and Pub. L. 94-385; Federal Energy Administration Act of 1974, Pub. L. 93-275, as amended, Pub. L. 94-385; Energy Policy and Conservation Act, Pub. L. 94-163, as amended, Pub. L. 94-385; E.O. 11790, 39 FR 23185; Department of Energy Organization Act, Pub. L. 95-91; E.O. 12009, 42 FR 46267.)

In consideration of the foregoing it is proposed to amend Parts 205 and 303 of Chapter II, Title 10 of the Code of Federal Regulations, as set forth below.

Issued in Washington, D.C., January 13, 1978.

WILLIAM S. HEFFELFINGER,  
Director of Administration,  
Department of Energy.

1. The definition of "Interpretation" in § 205.2 is amended to read as follows:

§ 205.2 Definitions.

"Interpretation" means a written statement issued by the General Counsel or his delegate or Regional Counsel, in response to a written request, that applies the regulations, rulings, and other precedents previously issued, to the particular facts of a prospective or completed act or transaction.

2. Section 205.80(a) is revised to read as follows:

§ 205.80 Purpose and scope.

(a) This subpart establishes the procedures for the filing of a formal request for an interpretation and for the consideration of such request. Responses, which may include verbal or written responses to general inquiries or to other than formal written requests for interpretation filed with the General Counsel or his delegate or a Regional Counsel, are not interpretations and merely provide general information.

§ 205 [Amended]

3. In § 205.82 the words "or his delegate" are added after the words "General Counsel."

4. Section 205.85(a) is revised to read as follows:

§ 205.85 Decision and effect.

(a) An interpretation may be issued after consideration of the request for interpretation and other relevant in-

formation received or obtained during the proceeding.

5. Section 205.85 is amended by adding a new paragraph (f) to read as follows:

§ 205.85 Decision and effect.

(f) (1) Any person aggrieved by an interpretation issued by the General Counsel or his delegate or by a Regional Counsel may submit a petition for reconsideration to the General Counsel within 30 days of service of the interpretation from which the reconsideration is sought. There has not been an exhaustion of administrative remedies until a period of 30 days from the date of service of the interpretation has elapsed without receipt by the General Counsel of a petition for reconsideration or, if a petition for reconsideration of the interpretation has been filed in a timely manner, until that petition has been acted on by the General Counsel.

(2) A petition for reconsideration may be summarily denied if: (i) It is not filed in a timely manner, unless good cause is shown; or

(ii) It is defective on its face for failure to state, and to present facts and legal argument in support thereof, that the interpretation was erroneous in fact or in law, or that it was arbitrary or capricious.

(3) The General Counsel may deny any petition for reconsideration if the petitioner does not establish that:

(i) The petition was filed by a person aggrieved by an interpretation;

(ii) The interpretation was erroneous in fact or in law; or

(iii) The interpretation was arbitrary or capricious. The denial of a petition shall be a final order of which the petitioner may seek judicial review.

6. Section 205.86 is revised to read as follows:

§ 205.86 Appeal.

There is no administrative appeal of an interpretation.

§ 205.100-§ 205.103 [Amended]

7. The words "or interpretation" and references to Subpart F, are deleted wherever they appear in §§ 205.100 and 205.101.

8. In § 205.102(a) the words "or an 'Appeal of Interpretation,'" are deleted.

9. Section 205.103(c) is deleted in its entirety.

§ 205.105 [Amended]

10. The words "or interpretation" are deleted wherever they appear in § 205.105.

PROPOSED RULES

§ 205.107 [Amended]

11. In § 205.107(a) the words "or interpretation" are deleted.

§ 205.130-§ 205.135 [Amended]

12. In §§ 205.130, 205.132(a), 205.132(b), and 205.134(a) the words "or interpretation" are deleted.

13. In § 205.135(b) the words "or interpretation" are deleted wherever they appear.

14. The definition of "Interpretation" in § 303.2 is amended to read as follows:

§ 303.2 Definitions.

"Interpretation" means a written statement issued by the General Counsel or his delegate, in response to a written request, that applies the regulations, rulings, and other precedents previously issued, to the particular facts of a prospective or completed act or transaction.

15. Section 303.90(a) is revised to read as follows:

§ 303.90 Purpose and scope.

(a) This subpart establishes the procedures for the filing of a formal request for an interpretation and for the consideration of such request. Responses, which may include verbal or written responses, to general inquiries or to other than formal written requests for interpretation filed with the General Counsel or his delegate, are not interpretations and merely provide general information.

§ 303.92 [Amended]

16. In § 303.92, the words "or his delegate" are added after the words "General Counsel."

17. Section 303.95(a) is revised to read as follows:

§ 303.95 Decision and effect.

(a) An interpretation may be issued after consideration of the request for interpretation and other relevant information received or obtained during the proceeding.

18. Section 303.95 is amended by adding a new paragraph (f) to read as follows:

§ 303.95 Decision and effect.

(f) Any person aggrieved by an interpretation issued by the General Counsel or his delegate or by a Regional Counsel may submit a petition for reconsideration to the General Counsel within 30 days of service of the interpretation from which the reconsideration is sought. There has not been an exhaustion of administrative remedies until a period of 30 days from the date of service of the interpretation has

elapsed without receipt by the General Counsel of a petition for reconsideration or, if a petition for reconsideration of the interpretation has been filed in a timely manner, until that petition has been acted on by the General Counsel.

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

[12 CFR Part 7]

BANK INDEBTEDNESS: LEASING TRANSACTIONS

Notice of Proposed Rulemaking

AGENCY: Comptroller of the Currency, Treasury.

ACTION: Proposed interpretive ruling.

SUMMARY: The proposed interpretive ruling states the circumstances under which leases involving national banks as lessees will be considered indebtedness for purposes of the limits imposed by 12 U.S.C. 82. The Comptroller believes that a new interpretive ruling is necessary because of recent changes in financial accounting standards and because existing interpretive rulings do not address the application of 12 U.S.C. 82 to such transactions.

DATE: Comments must be received by March 20, 1978.

ADDRESSES: Comments should be addressed to Mr. John E. Shockey, Chief Counsel, Office of the Comptroller of the Currency, Washington, D.C. 20219.

FOR FURTHER INFORMATION CONTACT:

Burton Barnes, Staff Attorney, Office of the Comptroller of the Currency, Washington, D.C. 20219, 202-447-1886.

SUPPLEMENTARY INFORMATION: In November, 1976, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 13, Accounting for Leases (FAS 13). FAS 13 describes the manner in which a lessee and lessor should record leases for financial reporting purposes. On November 11, 1977, through Banking Circular No. 95, the Comptroller incorporated FAS 13 by reference into the "Instructions for Preparation of Consolidated Reports of Condition and Reports of Income by National Banking Associations," effective with the December 31, 1977, reports.

FAS 13 lists four criteria for determining if a particular leased asset and related obligation must be capitalized

## PROPOSED RULES

## PROPOSED AMENDMENT

The Comptroller of the Currency proposes to amend 12 CFR Part 7 by adding a new § 7.7520 to read as follows:

**§ 7.7520 Bank indebtedness; leasing transactions.**

(a) *Lease obligations considered as indebtedness for 12 U.S.C. 82 purposes.* Capital lease obligations which are required to be reported as liabilities in call reports filed with the Comptroller of the Currency because they transfer ownership of the leased property by the end of the lease term, or include a bargain purchase option, or otherwise satisfy economic life or present value criteria, as described more fully in Statement of Financial Accounting Standards No. 13, Accounting for Leases, November, 1976, will be considered indebtedness subject to the limitations imposed by 12 U.S.C. 82, to the extent of the capitalized amount.

(b) *Leases not considered as indebtedness for 12 U.S.C. 82 purposes.* Operating leases, as defined in Statement of Financial Accounting Standards No. 13, Accounting for Leases, November, 1976, do not result in any indebtedness for the purposes of 12 U.S.C. 82.

Dated: December 23, 1977.

JOHN G. HEIMANN,  
Comptroller of the Currency.  
(FR Doc. 78-1533 Filed 1-18-78; 8:45 am)

[4810-33]

[12 CFR Part 7]

**INVESTMENT IN BANK PREMISES OR STOCK OF A CORPORATION HOLDING PREMISES**

**Notice of Proposed Rulemaking**

AGENCY: Comptroller of the Currency, Treasury.

ACTION: Proposed Amendment of interpretive ruling.

SUMMARY: This proposed amendment would amend 12 CFR 7.3100, an interpretive ruling relating to national bank investments in bank premises or in the stock of a corporation holding bank premises. The proposal states the circumstances under which leases involving national banks as lessees will be considered investment in bank premises for purposes of the limits imposed by 12 U.S.C. 371d. This proposal also changes the criteria by which Regional Administrators allow banks to invest in bank premises in amounts in excess of their capital stock. The Comptroller believes that this amendment is necessary because of recent changes in financial accounting standards and because of the inadequacy of the present interpretive ruling in dealing with investment in bank premises.

**DRAFTING INFORMATION**

The principal drafter of this document was Burton Barnes, Staff Attorney.

DATE: Comments must be received by March 20, 1978. Comments should be addressed to Mr. John Shockey, Chief Counsel, Office of the Comptroller of the Currency, Washington, D.C. 20219.

**FOR FURTHER INFORMATION CONTACT:**

Burton Barnes, Staff Attorney, Office of the Comptroller of the Currency, Washington, D.C. 20219, 202-447-1886.

**SUPPLEMENTARY INFORMATION:** In November 1976, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 13, Accounting for Leases (FAS 13). FAS 13 describes the manner in which a lessee and lessor should record leases for financial reporting purposes. On November 11, 1977, through Banking Circular No. 95, the Comptroller incorporated FAS 13 by reference into the "Instructions for Preparation of Consolidated Reports of Condition and Reports of Income by National Banking Associations," effective with the December 31, 1977, reports.

FAS 13 lists four criteria for determining if a particular leased asset and related obligation must be capitalized by the lessee. In general these criteria are: (a) the lease transfers ownership of the property to the lessee by the end of the lease term; (b) the lease contains a bargain purchase option; (c) the lease term is equal to 75 percent or more of the estimated economic life of the leased property; and (d) the present value of the lease payments equals 90 percent of the fair value of the property to the lessor.

**CAPITAL LEASES**

In the past, the Comptroller's staff has issued opinion letters which have indicated that when a lessee bank becomes the ultimate owner of the leased property at the expiration of the lease term or when a bank's lease contains a bargain purchase option, the lease obligation as shown on the bank's books must be included as an investment in bank premises for 12 U.S.C. 371d purposes. Prior to the adoption of FAS 13 there was no requirement that leases be capitalized because of economic life or present value criteria. Thus the Comptroller had no occasion to consider whether such leases should also be treated as investment in bank premises under 12 U.S.C. 371d.

The proposed ruling will continue the current practice of recognizing as an investment in bank premises for 12 U.S.C. 371d purposes any lease which results in a transfer of ownership or which contains a bargain purchase option. In addition, the Comptroller proposes to recognize as a 12 U.S.C. 371d investment any lease which would be capitalized under FAS 13 on

economic life or present value criteria. This is because in capital leases based on these criteria, the lease term is fixed and noncancelable and the leases transfer substantially all the benefits and risks incident to the ownership of property. In effect there appears to be no significant economic distinction between such lease obligations and other 12 U.S.C. 371d investments.

Operating leases will not be considered as investment in bank premises for 12 U.S.C. 371d purposes. This represents no change in present Office policy.

**APPROVAL OF REGIONAL ADMINISTRATOR**

The approval of the Regional Administrator must be obtained before a bank can invest in bank premises in an amount exceeding its capital stock. In the past, the Regional Administrator ordinarily approved an investment in fixed assets in an amount up to 50 percent of capital stock, surplus and undivided profits where a reasonable need for such investment was shown. However this formula has proved inadequate. Condition, earnings, capital structure, need, and other relevant measures should be considered. The standard which the Comptroller is proposing takes these factors into account.

The Administrative Procedure Act does not require notice and solicitation of comments in connection with interpretive rulings (5 U.S.C. 553(b)) and permits interpretive rulings to become effective upon publication (5 U.S.C. 553(d)). However, the Comptroller has elected to invite comment on the proposed ruling.

**DRAFTING INFORMATION**

The principal drafter of this document was Burton Barnes, Staff Attorney.

**PROPOSED AMENDMENT**

The Comptroller of the Currency proposes to amend 12 CFR Part 7, by amending § 7.3100 as follows:

(1) Paragraph (d) is redesignated paragraph (e) a new paragraph (d) is added and paragraph (e) is redesignated as (f) and revised, as amended § 7.3100 reads as follows:

§ 7.3100 Investment in bank premises or stock of a corporation holding premises.

(d) *Leases as investment in bank premises.—(1) Capital leases.*

Capital lease obligations which are required to be reported as liabilities in call reports filed with the Comptroller of the Currency because they transfer ownership of the leased property by the end of the lease term, or include a bargain purchase option, or otherwise

## PROPOSED RULES

satisfy economic life or present value criteria, as described more fully in Statement of Financial Accounting Standards No. 13, Accounting for Leases, November 1976, will be considered as investment in bank premises subject to the limitations imposed by 12 U.S.C. 371d, to the extent of the capitalized amount.

(2) *Operating leases.*—Operating leases, as defined in Statement of Financial Accounting Standards No. 13, Accounting for Leases, November 1976, do not result in any investment in bank premises for the purposes of 12 U.S.C. 371d.

(f) The approval of the Regional Administrator of National Banks shall be obtained before the consummation of any plans under which the bank's investment in bank premises will be increased to an amount exceeding its capital stock. The Regional Administrator of National Banks will consider capital structure, earnings, the bank's condition, future need and other pertinent factors in determining the aggregate limit the bank can invest in fixed assets.

Dated: December 29, 1977.

JOHN G. HEIMANN,  
Comptroller of the Currency.

[1505-01]

**DEPARTMENT OF TRANSPORTATION**

**Federal Aviation Administration**

[14 CFR Part 39]

[Docket No. 78-NE-1]

**AIRWORTHINESS DIRECTIVES**

Pratt & Whitney Aircraft JT3D Engines

**Correction**

In FR Doc. 78-781 appearing on page 1801 in the issue of Thursday, January 12, 1978, the text following the paragraph, SUPPLEMENTARY INFORMATION was inadvertently transposed. The text should read as follows:

The FAA has determined that forging laps, which are caused by folding over of metal during the blade forging process, have contributed to 16 first stage fan blade failures on JT3D turbofan engines. Nine of these failures were non-contained. Since this condition is likely to exist on other engines of the same type design, the proposed AD would require a one-time Blue Etch-Anodize inspection of the first stage fan blades to detect the presence of forging laps on all JT3D model engines. Since the time in service of indi-

vidual fan blades is not recorded, a compliance time based on usage is impractical. Therefore, a calendar date compliance was selected based on safety, availability of replacement blades and capability of the industry to affect the inspection.

**DRAFTING INFORMATION**

The principal authors of this document are Daniel P. Salvano, Propulsion Section, Engineering and Manufacturing Branch, and George L. Thompson, Office of the Regional Counsel, New England Region.

**THE PROPOSED AMENDMENT**

Accordingly, the Federal Aviation Administration proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following new airworthiness directive:

PRATT & WHITNEY AIRCRAFT. Applies to all Pratt & Whitney Aircraft JT3D turbofan engine models.

Compliance required not later than October 1, 1979, unless already accomplished.

To preclude failures of first stage fan blades due to forging laps, which could result in aircraft damage, perform a one-time Blue Etch-Anodize inspection of the blades in accordance with the procedures given in Pratt & Whitney Alert Service Bulletin 4733, dated May 5, 1977, or later FAA approved revision, and Special Instruction 2F-77 dated January 28, 1977, or later FAA approved revision.

Fan blades that exhibit blue etch linear indications in the inspection areas shown in Figure 1, of ASB 4733, must be reworked or scrapped in accordance with the forging lap repair limits established in Figure 2, of ASB 4733, dated May 5, 1977, or later FAA approved revision.

NOTE.—The AD does not change the present fan blade blend limits given in the JT3D engine manual.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Pratt & Whitney Aircraft, Division of United Technologies Corporation, 400 Main Street, East Hartford, Connecticut 06108. These documents may also be examined at Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803, and at FAA headquarters, 800 Independence Avenue SW., Washington, D.C.

## CONSUMER PRODUCT SAFETY COMMISSION

[16 CFR Part 1201]

## ARCHITECTURAL GLAZING MATERIALS

Proposed Testing Program and Certification Requirements

AGENCY: Consumer Product Safety Commission.

ACTION: Change in date of oral presentations.

SUMMARY: The Commission changes the date of the oral presentations on the proposed testing program and certification requirements for architectural glazing materials from February 15, 1978 to March 1, 1978. The end of the written comment period is not affected by this change and remains March 16, 1978. This action is being taken at the request of the Flat Glass Marketing Association whose national meeting conflicts with the date of the oral presentations.

DATES: *Written comments.*—Written comments should be received on or before March 16, 1978.

*Oral presentation.*—An opportunity for an oral presentation of data, views, and arguments on the regulation will be provided on March 1, 1978. Persons desiring to make an oral presentation must notify Richard Danca of the Office of the Secretary, 202-634-7700, 1111 18th Street NW., Washington, D.C. 20207, not later than February 13, 1978. A summary or outline of each oral presentation must be filed with Mr. Danca no later than February 20, 1978.

ADDRESS: Written comments should be sent to: The Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207.

## PROPOSED RULES

## FOR FURTHER INFORMATION CONTACT:

Allen F. Brauninger, Directorate for Compliance and Enforcement, Consumer Product Safety Commission, Washington, D.C. 20207, 301-492-6629.

## SUPPLEMENTARY INFORMATION:

In the FEDERAL REGISTER of December 16, 1977, 42 FR 63586, the CPSC proposed a testing program and certification requirements for architectural glazing materials subject to the Safety Standard for Architectural Glazing Materials, 16 CFR 1201. That standard became effective on July 6, 1977. It was announced in that notice that an opportunity for an oral presentation of data, views, and arguments on the proposed regulation would be held on February 15, 1978. By letter dated December 21, 1977, the Commission was notified by Counsel to the Flat Glass Marketing Association (FGMA), whose members are distributors, retailers and contract glaziers of architectural glazing materials; that the date of the Commission's oral presentations on the proposed regulation conflicted with the annual national meeting of FGMA. FGMA's counsel also pointed out that manufacturers of glazing materials would have representatives at FGMA's national meeting and they would be prevented from attending the February 15, 1978 Commission meeting.

In view of the foregoing, the Commission has rescheduled the date of the oral presentations on the proposed testing requirements and certification regulation from February 15, 1978 to March 1, 1978. The closing date for the receipt of written comments remains March 16, 1978.

All persons desiring to make oral presentations must notify Richard Danca of the Office of the Secretary, 202-634-7700, not later than the close of business on February 13, 1978. A summary or outline of each oral presentation must be filed with the Office of the Secretary by close of business February 20, 1978.

Written comments and any accompanying materials should be submitted, preferably in five copies, to the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207.

Comments received in response to this proposal will be available for public inspection in the Office of the Secretary, 3rd Floor, 1111 18th Street NW., Washington, D.C., during working hours, Monday through Friday.

Dated: January 13, 1978.

SADYE E. DUNN,  
Deputy Secretary, Secretary,  
Consumer Product Safety  
Commission.

## DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[23 CFR Part 625]

[FHWA Docket No. 77-4]

## DESIGN STANDARDS FOR HIGHWAYS

Withdrawal of Advance Notice of Proposed Rulemaking

AGENCY: Federal Highway Administration, DOT.

ACTION: Withdrawal of advance notice of proposed rulemaking.

SUMMARY: The Federal Highway Administration (FHWA) is withdrawing its present action on its proposal for amending geometric design standards for resurfacing, restoration, and rehabilitation (R-R-R) projects. This withdrawal is based on substantial adverse comments on the design guide upon which two of the proposed changes were founded.

EFFECTIVE DATE: January 19, 1978.

## FOR FURTHER INFORMATION CONTACT:

Seppo Sillan, Highway Design Division, Office of Engineering, 202-426-0321; Lee Burstyn, Office of the Chief Counsel, 202-426-0786, Federal Highway Administration, 400 7th Street SW., Washington, D.C. 20590. Office hours are from 7:45 a.m. to 4:15 p.m. e.s.t., Monday-Friday.

## SUPPLEMENTARY INFORMATION:

An advance notice of proposed rulemaking (ANPR) for establishing guidance on geometric design criteria for R-R-R types of projects was published in the FEDERAL REGISTER at 42 FR 42876 (August 25, 1977). The original due date for comments was October 25, 1977. That date was extended to November 22, 1977, by a notice published in the FEDERAL REGISTER at 42 FR 56751 (October 28, 1977).

All suggestions and proposals for establishing such criteria were requested. Additionally, three specific alternatives were offered for comment.

The first alternative provided for continued operation within the provisions of existing Part 625 of the regulation. This provides for exceptions to existing design standards on an individual project basis.

The second alternative would have incorporated by reference the American Association of State Highway and Transportation Officials' (AASHTO) "Geometric Design Guide for Resurfacing, Restoration and Rehabilitation (R-R-R) of Highways and Streets," as the acceptable criteria for Federal-aid R-R-R work.

The third alternative provided for the State highway officials and the FHWA Division Administrators to develop individual State criteria by using the "Geometric Design Guide for Resurfacing, Restoration, and Rehabilitation (R-R-R) of Highways and Streets," AASHTO 1977, and other guides, policies, and standards referred to in existing Part 625. Approximately 200 responses were received on the ANPR. Essentially all of the individuals and groups responding simply indicated a preference or criticized the three alternatives proposed without offering any substitute criteria. It can be concluded that the comments in total indicate that current criteria or procedures are not desirable and that some change is needed. However, it is believed that the number of severely adverse comments made on the specific criteria contained in the AASHTO "Geometric Design Guide for Resurfacing, Restoration, and Rehabilitation (R-R-R) of Highways and Streets," which is a part of alternatives two and three, precludes its adoption for use on Federal-aid projects and, consequently, the adoption of either of those alternatives as such.

Review of the legislative background indicates that the inclusion of "resurfacing, restoration, and rehabilitation" in the definition of Federal-aid highway construction was intended to provide greater flexibility in the use of Federal-aid highway funds for improving existing highways. The physical need for R-R-R projects is indicated by the fact that the existing highways are wearing out faster than they can be reconstructed. Since the funding levels are not now nor are they expected in the future to be sufficient to reconstruct all the highways to the current standards before they deteriorate beyond reasonable usefulness, some other intermediate level of improvement is needed. To assure that all factors, especially safety, are considered adequately and uniformly nationwide, some geometric design criteria, separate from existing criteria for new construction are needed.

Therefore, recognizing the apparent intent of the legislation and the need for separate national geometric design criteria for R-R-R projects, the FHWA has decided to take the following actions at this time.

(1) Because of some of the severe comments on the specific criteria contained therein, the FHWA has decided not to adopt the AASHTO "Geometric Design Guide for Resurfacing, Restoration, and Rehabilitation (R-R-R) of Highways and Streets," 1977, in its present form for Federal-aid projects.

(2) Using comments received in response to the ANPR, and other available information, FHWA will develop geometric design criteria for Federal-aid R-R-R projects.

(3) Until such time as separate FHWA criteria are promulgated, R-R-R projects will be handled under the

## PROPOSED RULES

current procedures contained in existing 23 CFR 625. These existing procedures permit the needed flexibility in the geometric design of R-R-R projects through approval of exemptions on a project-by-project basis. Although not considered an adequate long-term solution, this interim procedure can be used immediately to provide the latitude needed for implementing Federal-aid R-R-R projects.

(4) Emphasis will be given to the evaluation of the R-R-R program. Criteria that will be developed per item 2 above will be made available for review and comment by publication in the FEDERAL REGISTER according to normal rulemaking procedures. However, pending such publication, this docket is hereby withdrawn.

Issued on: January 13, 1978.

WILLIAM M. COX,  
Federal Highway Administrator.

## DEPARTMENT OF DEFENSE

Department of the Air Force

[32 CFR Part 832]

## EMPLOYMENT OF CIVIL AIR PATROL

Proposed Rulemaking

AGENCY: Department of the Air Force, Department of Defense.

ACTION: Proposed rule.

SUMMARY: The Civil Air Patrol is provided support by the Air Force under Title 10 statute (section 9441). This statute directs the Secretary of the Air Force to prescribe regulations applicable to the employment authorized for Civil Air Patrol. Air Force Regulation 46-5 is the updated regulation on Civil Air Patrol employment.

DATE: Comments must be received on or before February 24, 1978.

ADDRESS: Mail comments to: Special Assistant for Civil Air Patrol Affairs, The Pentagon, Washington, D.C. 20330.

## FOR FURTHER INFORMATION CONTACT:

Lt. Col. Hettinger, The Pentagon, Room BF655, Washington, D.C., 202-697-2463.

SUPPLEMENTARY INFORMATION: The Department of the Air Force proposes to revise Subpart A of Part 832 of 32 CFR, Employment of Civil Air Patrol. This subpart explains the use of Civil Air Patrol (CAP) services employed on Air Force noncombat missions. It applies to Air Force activities only and does not dictate or limit the private activities of CAP. This revision updates the Air Force agencies that employ CAP and types of missions involved, revises the reimbursement procedures, and identifies the revised accounting needs for reimbursing CAP. Interested persons are invited to participate in this rulemaking by submitting comments to the above contact person.

The legal authority for this subpart is 10 U.S.C. 8012, 9441. The revised subpart is proposed to read as follows:

## PART 832—CIVIL AIR PATROL

## Subpart A—Employment of Civil Air Patrol

- Sec. 832.1 Purpose.
- 832.2 Use of CAP services by the Air Force.
- 832.3 CAP mission employment by the Air Force.
- 832.4 Use of Air Force funds.
- 832.5 CAP accidents or incidents.
- 832.6 Procedures for reimbursing CAP.
- 832.7 Accounting procedures for reimbursement funding.
- 832.8 Cost estimates for CAP reimbursement.
- 832.9 Training and evaluation of CAP members.

AUTHORITY: 10 U.S.C. 8012, 9441.

## Subpart A—Employment of Civil Air Patrol

## § 832.1 Purpose.

This subpart explains the use of Civil Air Patrol (CAP) services employed on Air Force noncombat missions. It applies to Air Force activities only and does not dictate or limit the private activities of CAP.

## § 832.2 Use of CAP services by the Air Force.

Use of CAP services to support Air Force noncombat missions is provided for by law. CAP participates in these missions on a voluntary basis; therefore, the use of CAP services must be formally requested by a specific Air Force agency.

UMI

PROPOSED RULES

§ 832.3 CAP mission employment by the Air Force.

CAP members and their available equipment can perform light aircraft operations and provide mobile ground team support and local or long range radio communications from a mobile or stationary site. CAP resources are primarily used on these types of missions:

(a) *Search and Rescue.* CAP voluntarily supports the National Search and Rescue Plan. The Aerospace Rescue and Recovery Service (ARRS), Air Force commanders in Alaska and Hawaii and the Commander, CAP-USAF may request the assistance of CAP for search and rescue missions. These agencies authorize, coordinate, and assist CAP in the conduct of such missions.

(b) *Disaster Relief.* CAP resources may be used to assist in the relief of disasters that occur in the United States and Puerto Rico. CAP services are requested and coordinated by one of the numbered air force headquarters within the Air Force Reserve.

(c) *Civil Defense.* CAP resources may be used in the event of a Civil Defense Emergency. Tasks are assigned by Civil Defense agencies to CAP under the guidelines in Civil Defense Emergency plans. Examples of these tasks are: (1) Air radiological monitoring, (2) air surveillance and reconnaissance, (3) light air transport, (4) courier service, and (5) radio communications.

(d) *Test Missions.* The ability of CAP to perform search and rescue, disaster relief, or civil defense tasks is evaluated through test missions. These missions are requested by the Commander, CAP-USAF, and conducted by Air Force liaison members assigned to CAP.

(e) *Other Missions for CAP.* An Air Force commander who may need CAP services for other than search and rescue, disaster relief, or civil defense activities must coordinate the use of CAP services through HQ CAP-USAF/DO before any mission activity by CAP members. This is to insure that the requesting major command (MAJCOM) is fully aware of the policies, procedures, and limitations that apply to CAP when performing Air Force missions.

(f) *Basic Requirements for CAP Missions.* An Air Force agency that authorizes the use of CAP services on any Air Force mission must provide at least this information: (1) Written authority for the specific mission, (2) scope of CAP activity, (3) assignment of mission number or designator, (4) date and time of start and mission length, (5) Air Force point of contact for CAP mission coordinator, (6) CAP wings involved, and (7) release of information to news media.

§ 832.4 Use of Air Force funds.

(a) Air Force appropriated funds are authorized only to furnish or reimburse CAP for:

(1) Aviation and automotive fuel and lubricants used to perform an Air Force authorized mission.

(2) Communications expenses used to alert or control CAP resources involved with an authorized mission.

(b) Air Force appropriated funds are not authorized to:

(1) Reimburse CAP for depreciation of privately owned equipment.

(2) Set up indemnity provisions for damage to equipment, or for personal injury or death of CAP members as a result of participation on an Air Force mission.

(3) Set up indemnity claims for equipment or facilities used by CAP or its members that are obtained from private owners by loan, lease, contract, or otherwise.

(4) Pay for personal services or expenses of CAP members engaged in Air Force missions, except as identified in this subpart.

§ 832.5 CAP accidents or incidents.

A CAP accident or incident that occurs on an authorized Air Force mission and that results in damage to or loss of property, or personal injury or death, is reported to the Air Force liaison officer for the CAP wing performing the mission. Part 832 of this chapter, Claims Manual, explains the CAP provisions in these situations.

§ 832.6 Procedures for reimbursing CAP.

CAP members who participate on an authorized Air Force mission are reimbursed for aviation and automotive fuel and lubricants as well as the cost of communications used on such missions. If CAP members are not able to purchase fuel or lubricants during a mission, a local vendor may be used to provide fuel and lubricants to CAP and receive reimbursement by the Air Force.

(a) CAP Form 108, Reimbursement Document, is used to identify all claims for reimbursement by CAP members or vendors. AFM 177-102, Commercial Transactions at Base Level, paragraph 20844, states the certifications needed on any CAP claim for reimbursement. The statement from the CAP wing commander is entered and signed after the last entry on the CAP Form 108.

(b) CAP members or vendors submit all reimbursement claims to the Air Force liaison office that serves the CAP wing participating on the mission. The liaison officer reviews all claims and fills out a Standard Form (SF) 1034, Public Voucher for Purchases and Services Other Than Personnel, as outlined in AFM 177-102, paragraph 20884.

(c) The liaison officer sends SF 1034 and supporting documents for search

and rescue, disaster relief, or civil defense missions, as well as test exercises for these types of missions, to 375 AAW/ACFM, Scott AFB IL 62225 for payment. CAP reimbursement claims for other missions are forwarded to the accounting and finance office specified by the MAJCOM that requested and authorized the mission.

§ 832.7 Accounting procedures for reimbursement funding.

(a) The Military Airlift Command (MAC) is responsible for CAP reimbursement funding on search and rescue, disaster relief, or civil defense missions, as well as test exercises for these types of missions. The following procedures apply:

(1) *Search and Rescue Missions.* When the ARRS requests a CAP wing to perform a mission, ARRS provides a cost estimate to HQ MAC/ACB. This data includes: The CAP wing, mission number, mission purpose, and estimated cost by category of expense. When a mission is closed or suspended, a letter of authorization for the mission is sent to the CAP wing commander, with copies to HQ MAC/ACB and 375 AAW/ACFM.

(2) *Disaster Relief or Civil Defense Missions.* When an Air Force Reserve numbered air force headquarters authorizes a CAP mission, it uses the same procedures and data as for a search and rescue mission.

(3) *Test or Exercise Missions.* The Commander, CAP-USAF may task a CAP wing to perform an exercise or test mission to evaluate its ability to conduct an actual search and rescue, disaster relief, or civil defense mission. HQ CAP-USAF/DO requests funds to support these missions from HQ MAC/ACB, who provides the available funding by category of expense to HQ CAP-USAF/DO and 375 AAW/ACFM. HQ CAP-USAF, as the CAP mission manager, provides the same data as required for actual missions to HQ MAC/ACB and 375 AAW/ACFM.

(b) The Air Force liaison officer enters the proper accounting classifications on the SF 1034. The account classification for MAC-reimbursed missions is:

57(FY)3400 30(FY)6591 (RC/CC)  
09(EEIC)S25300

(1) Fiscal Year (FY)—use 8 for FY 78, 9 for FY 79, etc.

(2) Responsibility Center/Cost Center code (RC/CC).

RC/CC	Description
190901	Actual search and rescue missions.
190902	Actual disaster relief or civil defense missions.
190903	Search and rescue or disaster relief or civil defense test missions.

(3) Element of Expense Investment Code (EEIC).

EEIC	Description
49510	Official toll calls.
601	Aviation fuel and lubricants.
612	Automotive fuel and lubricants.

(c) Other MAJCOMS which use CAP services for noncombat missions must ensure enough funds are available to reimburse CAP for fuel, lubricants, and communications costs used on these missions. The using MAJCOM must also provide an account classification to HQ CAP-USAF/DO for liaison officers to complete an SF 1034 for the mission.

§ 832.8 Cost estimates for CAP reimbursement.

HQ CAP-USAF submits these estimates annually to HQ MAC/ACB soon enough for them to be included in the MAC budget request. The estimates identify the number of actual and test missions, their purpose, and projected cost by expense category.

§ 832.9 Training and evaluation of CAP members.

(a) Training for CAP members is the responsibility of CAP commanders and supervisors; however, the Commander, CAP-USAF, through the liaison program for CAP, may give training assistance to CAP members or coordinate training assistance from other Air Force organizations.

(b) The Commander, CAP-USAF, may authorize test missions or exercises as needed to evaluate the ability of the CAP to perform Air Force-requested missions.

FRANKIE S. ESTEP,  
Air Force Federal Register Liaison Officer, Directorate of Administration.

[8320-01]

VETERANS ADMINISTRATION

[38 CFR Part 3]

VETERANS BENEFITS

Character of Discharge

AGENCY: Veterans Administration.

ACTION: Proposed rulemaking.

SUMMARY: The Veterans Administration is amending its regulations concerning eligibility for benefits based on character of discharge or release from service. These changes are necessary in order to implement a new law, enacted October 8, 1977. The intended effect of these changes is fivefold. First, benefits cannot continue to be paid or granted based solely on an upgraded honorable or general discharge issued by a service department

PROPOSED RULES

discharge review board under one of the special discharge upgrade programs announced by Presidents Ford and Carter. However, this prohibition does not apply if the service department concerned states that the discharge would have been upgraded as a result of an individual case review under uniform published standards historically consistent with determining honorable service, and which do not contain any criterion for automatically granting or denying an upgraded discharge. Second, a service person who received an other than honorable discharge from service and was absent without official leave for a continuous period of at least 180 days is barred from receiving VA benefits unless there are compelling circumstances warranting the prolonged absence. No overpayments will be created when benefits currently being paid are terminated as a result of either of the foregoing provisions. Third, the decision of a discharge review board may no longer remove a statutory bar to benefit entitlement. Fourth, benefits may be granted to persons who honorably completed a period of service equal to the period of their initial obligation when they were not discharged or released at that time because of an intervening reenlistment which terminated under dishonorable conditions. Fifth, medical care may be furnished to certain former service persons with less than honorable discharges.

DATES: Comments must be received on or before February 21, 1978. It is proposed to make these changes effective October 8, 1977, the date of enactment of the new law, designated as Pub. L. 95-126, 91 Stat. 1106.

ADDRESSES: Send written comments to: Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420.

Comments will be available for inspection at the address shown above during normal business hours until February 28, 1978.

FOR FURTHER INFORMATION CONTACT:

T. H. Spindle, (211B), 202-389-3005.

SUPPLEMENTARY INFORMATION: The new law (Pub. L. 95-126, enacted Oct. 8, 1977), provides that no Veterans Administration benefits should be granted based solely on an honorable or general discharge issued by a service department discharge review board under the criteria set forth in any of the following programs:

(1) The President's directive of January 19, 1977, initiating further action with respect to Presidential Proclamation 4313 of September 16, 1974; or

(2) The Department of Defense's special discharge review program effective April 5, 1977; or

(3) Any discharge review program implemented after April 5, 1977, and not made applicable to all persons administratively discharged or released from active military, naval, or air service under less than honorable conditions. (Note: no such program now exists.)

These programs will be subsequently referred to as "the special discharge review programs."

This law also provides that effective October 8, 1977, the date of enactment, no Veterans Administration benefits shall be granted on an honorable or general discharge issued by a discharge review board unless the following conditions are met:

(1) The discharge is upgraded as a result of an individual case review; and

(2) The discharge is upgraded under uniform published standards which are historically consistent with criteria for determining honorable service and which do not include any criterion for automatically granting or denying an upgraded discharge.

These conditions will be subsequently referred to as "the new discharge upgrade criteria."

Pub. L. 95-126 directs the service departments to review every honorable or general discharge issued under one of the special discharge review programs to determine if the upgraded discharge would have been issued under the new discharge upgrade criteria. If the upgraded honorable or general discharge would have been issued under the new discharge upgrade criteria, then Veterans Administration benefits would be payable based on the upgraded discharge assuming that the 180-day (prolonged unauthorized absence) AWOL bar, discussed below, does not apply. If the upgraded honorable or general discharge would not have been issued under the new discharge upgrade criteria, then Veterans Administration benefits can not be granted or continued.

The Veterans Administration has sent to the service departments concerned the names of all persons who have received, are receiving, or are claiming benefits based on an upgraded honorable or general discharge issued by a discharge review board under one of the special discharge review programs. This will enable the service departments to promptly inform the Veterans Administration whether the upgraded discharge would have been issued under the new discharge upgrade criteria.

The new law adds another bar to those listed in 38 U.S.C. 3103(a); 38 CFR 3.12(c). Effective October 8, 1977, no Veterans Administration benefits may be granted based on a period of service terminated under other than honorable conditions if during that period of service the service person

was AWOL for a continuous period of at least 180 days unless the Administrator determines there are compelling circumstances to warrant such prolonged unauthorized absence. This bar applies to all other than honorable discharges issued on or after October 8, 1977. It also applies to all discharges issued under the special discharge review programs. This is true even though a discharge review board determined that the upgraded discharge would have been issued under the new discharge upgrade criteria. In addition, the 180-day AWOL bar applies to anyone who had not established basic eligibility to receive Veterans Administration benefits prior to October 8, 1977.

The law allows the Veterans Administration to determine what constitutes compelling circumstances. It is the belief of the Veterans Administration that two factors should be of utmost importance in making this decision comport with Congressional intent.

The first concerns the length and quality of service exclusive of the period of prolonged AWOL. The period of service exclusive of the AWOL period should be of such quality and length that it can be characterized as honest, faithful, and meritorious. The Nation must have received some significant benefit from the actual service performed before making an exception to the 180-day AWOL bar.

The second is the reason why the person went AWOL. The explanation furnished by the Claimant for going AWOL, e.g., terminal illness of family member, change in family responsibilities assumed by the service person, illness or other family problems, is going to be evaluated in terms of the claimant's age, cultural background, educational level and judgmental maturity. The Veterans Administration believes that consideration should be given to how the situation appeared to the person himself or herself. We are going to give consideration to the unfortunate individual who, for example, went AWOL to be with a terminally ill close relative.

In determining whether compelling circumstances exist the Veterans Administration believes that great weight should be given to overseas service, combat wounds or other types of service-incurred disability in evaluating the person's state of mind at the time the prolonged unauthorized absence (AWOL) began.

To assure that the criteria for determining whether the 180-day AWOL bar are applied uniformly and compassionately the Central Office of the Veterans Administration will review every case in which the Veterans Administration field office of jurisdiction holds that the 180-day AWOL bar is

for application. This review will continue until the Administrator of Veterans Affairs is assured that the 180-day AWOL bar criteria are being properly applied.

Another important change made by Pub. L. 95-126 limits the effect of action of discharge review boards under 10 U.S.C. 1553. Effective October 8, 1977, and upgraded honorable or general discharge based on the new discharge upgrade criteria removes only a bar to Veterans Administration benefit entitlement imposed by 38 CFR 3.12(d). Such an upgraded discharge no longer removes a specific statutory bar imposed by 38 U.S.C. 3103(a). No change was made in the authority of a board for correction of records. A decision of a board for correction of records under 10 U.S.C. 1552 still removes any bar to entitlement.

It is proposed to implement the foregoing provisions of Pub. L. 95-126 by the addition and/or amendment of 38 CFR 3.12(c)(6), (f), (g), and (h).

Proposed effective dates for termination of benefits now payable based on upgraded discharges which would not have been upgraded under the new discharge upgrade criteria are set forth in 38 CFR 3.12(i).

The statute provides that these benefits will be terminated the earliest of the following dates:

(a) The day on which a final determination is made by the service department that the upgraded discharge would not have been issued under the new discharge upgrade criteria.

(b) The day following the expiration of 90 days after a preliminary determination has been made by the service department that the discharge would not be upgraded under the new discharge upgrade criteria.

(c) April 7, 1978.

The proposed regulation does not follow the exact wording of the statute for two reasons. First, the Department of Defense cannot promulgate the new discharge criteria much sooner than 90 days after enactment (i.e., October 8, 1977). Thus, termination based on a preliminary service department determination cannot generally be made prior to April 7, 1978. Second, another character of discharge decision under 38 CFR 3.12(d) will have to be made since these claims involve other than honorable discharges, and due process procedures (i.e., notice and hearing) are applicable which will require additional time. However, the payment of benefits cannot be extended under the law beyond April 7, 1978.

Proposed effective dates for termination of benefits payable when the 180-day AWOL bar is for application are set forth in 38 CFR 3.12(j).

It sometimes happens that a service person reenlists for another period of service before completing the period

of service that the person was initially obligated to serve. In this situation the character of the whole period of service has been determined by the character of the final discharge or release. For example, service person enlists for 3 years on January 18, 1971. On February 2, 1972, the service person reenlists for 4 more years. On December 10, 1975, the service person is given a dishonorable discharge. In this example the character of the whole period of service was determined by the dishonorable discharge.

Under Pub. L. 95-126 the Veterans Administration will consider the service person to have been discharged on January 17, 1974, the date of completion of the initial period of obligation. If the person would but for the intervening reenlistment, have been eligible for discharge or release under conditions other than dishonorable at that time. This change will, therefore, permit granting of Veterans Administration benefits based on the satisfactory completion of the initial period of obligation.

The proposed addition of 38 CFR 3.13(c) will implement this change.

Pub. L. 95-126 extends medical care eligibility to certain former service persons with less than honorable discharges. The law provides that medical care can be furnished for any disability incurred in or aggravated during active service in line of duty. Medical benefits may not be furnished, however, for a disability incurred or aggravated during a period of service that was terminated by a bad conduct discharge or for one of the reasons in 38 U.S.C. 3103(a); 38 CFR 3.12(c). A dishonorable discharge is issued by sentence of a general court-martial and discharge by sentence of a general court-martial is one of the bars listed in 38 U.S.C. 3103(a); 38 CFR 3.12(c).

The proposed addition of 38 CFR 3.360 will implement this change in law.

#### ADDITIONAL COMMENT INFORMATION

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m. Monday through Friday (except holidays) until February 28, 1978. Any persons visiting the Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Services Unit in Room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in the Central Office and fur-

nished the address and the above room number.

APPROVED: January 13, 1978.

By direction of the Administrator.

RUFUS H. WILSON,  
Deputy Administrator.

1. In § 3.12, paragraphs (c) (6), (g), (h), (i) and (j) are added and paragraphs (c)(5) and (f) are revised so that the revised and added material reads as follows:

#### § 3.12 Character of discharge.

(c) Benefits are not payable where the veteran was discharged or released under one of the following conditions:

(5) As an alien during a period of hostilities, where it is affirmatively shown that the veteran requested his or her release. See 3.7(b).

(6) By reason of an other than honorable discharge if during the period of service so terminated the person was absent without official leave (AWOL) for a continuous period of at least 180 days. This bar to benefit entitlement does not apply if there are compelling circumstances to warrant the prolonged unauthorized absence. This bar applies to any person awarded an honorable or general discharge prior to October 8, 1977, under one of the programs listed in paragraph (h) of this section, and to any person who prior to October 8, 1977, had not otherwise established basic eligibility to receive Veterans Administration benefits. The term "established basic eligibility to receive Veterans Administration benefits" means either a Veterans Administration determination that an other than honorable discharge was issued under conditions other than dishonorable, or an upgraded honorable or general discharge issued prior to October 8, 1977, under criteria other than those prescribed by one of the programs listed in paragraph (h) of this section, provided the bar in paragraph (c)(2) of this section is not for application. The following factors will be considered in determining whether there are compelling circumstances to warrant the prolonged unauthorized absence.

(i) Length and character of service exclusive of the period of prolonged AWOL. Service exclusive of the period of prolonged AWOL should generally be of such quality and length that it can be characterized as honest, faithful and meritorious and of benefit to the Nation.

(ii) Reasons for going AWOL. Reasons which may be given consideration when offered by the claimant may include family emergencies or obligations, or similar types of obligations or

duties owed to third parties. The reasons for going AWOL should be evaluated in terms of the person's age, cultural background, educational level and judgmental maturity. Consideration should be given to how the situation appeared to the person himself or herself, and not how the adjudicator might have reacted. Hardship or suffering incurred during overseas service, or as a result of combat wounds or other service-incurred or aggravated disability, is to be carefully and sympathetically considered in evaluating the person's state of mind at the time the prolonged AWOL period began.

(38 U.S.C. 3103(a).)

(f) Prior to October 8, 1977, an honorable or general discharge issued under authority other than that listed in paragraph (h)(1), (2) and (3) of this section by a discharge review board established under 10 U.S.C. 1553 set aside any bar to benefits imposed under paragraph (c) or (d) of this section except the bar contained in paragraph (c)(2) of this section.

(g) Effective October 8, 1977, an honorable or general discharge issued through a discharge review board established under 10 U.S.C. 1553 sets aside any bar to benefits imposed under paragraph (d) of this section when the following conditions are met:

(1) The discharge is upgraded as a result of an individual case review, and

(2) The discharge is upgraded under uniform published standards which are historically consistent with criteria for determining honorable service and which do not include any criterion for automatically granting or denying an upgraded discharge.

(h) An honorable or general discharge awarded under one of the following programs removes any bar to benefits imposed by paragraph (d) of this section but not paragraph (c) of this section only when a discharge review board established under 10 U.S.C. 1553 determines on an individual case basis, subsequent to October 8, 1977, that an honorable or general discharge would be awarded under the standards in paragraph (g)(1) and (2) of this section. These programs are:

(1) The President's directive of January 19, 1977, initiating further action with respect to Presidential Proclamation 4313 of September 16, 1974, or

(2) The Department of Defense's special discharge review program effective April 5, 1977, or

(3) Any discharge review program implemented after April 5, 1977; and not made applicable to all persons administratively discharged or released from active military, naval, or air service under less than honorable conditions.

(i) No overpayments shall be created as a result of payments made after October 8, 1977, based on an upgraded honorable or general discharge issued under one of the programs listed in paragraph (h) of this section which would not be awarded under the standards set forth in paragraph (g) of this section. Accounts in payment status on or after October 8, 1977, shall be terminated the end of the month in which it is determined that the original other than honorable discharge was not issued under conditions other than dishonorable following notice from the appropriate discharge review board that the discharge would not have been upgraded under the standards set forth in paragraph (g) of this section, or April 7, 1978, whichever is the earliest. Accounts in suspense (either before or after October 8, 1977) shall be terminated on the date of last payment or April 7, 1978, whichever is the earliest.

(j) No overpayment shall be created as a result of payments made after October 8, 1977, in cases in which the bar contained in paragraph (c)(6) of this section is for application. Accounts in payment status on or after October 8, 1977, shall be terminated at the end of the month in which it is determined that compelling circumstances do not exist, or April 7, 1978, whichever is the earliest. Accounts in suspense (either before or after October 8, 1977) shall be terminated on the date of last payment, or April 7, 1978, whichever is the earliest.

2. In § 3.13, paragraph (b) is revised and paragraph (c) is added so that the revised and added material reads as follows:

#### § 3.13 Discharge to change status.

(b) Subject to the exception in paragraph (c) of this section the entire period of service under the circumstances stated in paragraph (a) of this section constitutes one period of service and entitlement will be determined by the character of the final termination of active service except that, for death pension purposes, § 3.3(d)(3) is controlling as to basic entitlement when the conditions prescribed therein are met.

(c) A service person shall be considered to have been discharged or released from active military, naval, or air service at time of completion of the original period of obligation when the following conditions are met:

(1) The service person served in the active military, naval, or air service for the period of initial obligation at the time of entry into service;

(2) The service person was not discharged or released from the service at the time of completion of the period

## PROPOSED RULES

of initial obligation due to an intervening enlistment or reenlistment; and

(3) The service person would have been eligible for discharge or release from service under conditions other than dishonorable at time of completion of the initial period of obligation except for the intervening enlistment, or reenlistment.

3. Section 3.360 is added to read as follows:

§ 3.360 Determinations of medical care eligibility for certain persons discharged under dishonorable conditions.

(a) *General.* Medical care and related benefits authorized by chapter 17 of title 38, United States Code may be provided to certain former service persons with less than honorable discharges. These benefits may be furnished for any disability incurred or aggravated during active military, naval, or air service in line of duty.

(b) *Discharge categorization.* With certain exceptions medical care and related benefits may be furnished for any disability incurred or aggravated during a period of service terminated by an other than honorable discharge determined by the Veterans Administration to have been issued under dishonorable conditions. Specifically, they may not be furnished for any disability incurred or aggravated during a period of service terminated by a bad conduct discharge or for one of the reasons listed in § 3.12(c).

(c) *Eligibility criteria.* In making determinations of medical care eligibility the same criteria will be used as is now applicable to determinations of service incurrence and in line of duty when there is no character of discharge bar.

DEPARTMENT OF HEALTH,  
EDUCATION, AND WELFARE

Health Care Financing Administration

[42 CFR Part 405]

FEDERAL HEALTH INSURANCE FOR THE AGED  
AND DISABLED

Fiscal Intermediaries

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Notice of decision to develop regulations.

SUMMARY: The Department plans to issue proposed regulations to establish standards and criteria for evaluating the performance of Medicare intermediaries. The proposal will also establish hearing procedures on provider assignments and reassignments made by the Secretary.

The regulations are required by Section 14 of the Medicare-Medicaid Anti-

Fraud and Abuse Amendments (Pub. L. 95-142).

FOR FURTHER INFORMATION,  
CONTACT:

John W. Jansak, Division of Contractor Operations, Medicare Bureau, 6401 Security Boulevard, Baltimore, Md. 21235, 301-594-8431.

Dated: December 27, 1977.

## [4110-35]

[42 CFR Part 405]

FEDERAL HEALTH INSURANCE FOR THE AGED  
AND DISABLED

Payment for Durable Medical Equipment

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Notice of decision to develop regulations.

SUMMARY: The Department will propose to amend current Medicare regulations to require purchase (on a lease purchase or other basis) of an item of durable medical equipment when purchase would be less costly or more practical than rental. The purchase requirement could be waived when it would be inconsistent with the purposes of title XVIII of the Social Security Act (Medicare) or if it would create an undue hardship on the individual who will use the item. The proposal will also provide for waiver of the 20 percent coinsurance for purchase of used equipment if the purchase price is at least 25 percent less than the reasonable charge for comparable new equipment.

The regulations are necessary to implement Section 16 of the Medicare-Medicaid Anti-Fraud and Abuse Amendments (Pub. L. 95-142). Prior to enactment of Pub. L. 95-142, Medicare beneficiaries had the option of either renting or purchasing durable medical equipment.

These regulations will help reduce undue expenses to the Medicare program and to beneficiaries who must pay annual deductibles and coinsurance when equipment is rented over an extended period of time.

## [4110-35]

[42 CFR Part 449]

## MEDICAL ASSISTANCE PROGRAM

Timely Processing of Medicaid Claims

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Notice of decision to develop regulations.

SUMMARY: This regulation will require States administering the Medicaid program under title XIX of the Social Security Act to provide in their State plans for claims payment procedures that will insure that States process 90 percent of provider claims within 30 days of receipt and 99 percent within 90 days. The new requirement applies to claims received in acceptable form for processing. This new State plan requirement will supersede the current regulation that prohibits Federal matching of claims paid by States more than 24 months after the date of medical services.

The regulation change is required by Section 2 of the Medicare-Medicaid Anti-Fraud and Abuse Amendments (Pub. L. 95-142).

Timely payment of provider claims will result in less use of factors by providers and reduce instances of fraudulent claims.

[42 CFR Part 450]

## MEDICAL ASSISTANCE PROGRAM

Assignment of Rights to Medical Payments

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Notice of decision to develop regulations.

SUMMARY: This rule will revise current Medicaid regulations on pay-

ments for medical care by a third party to: 1. Prohibit Federal matching funds for State Medicaid expenditures for an individual whose private insurer would otherwise pay for care but does not because the individual is eligible for or was provided Medicaid services.

2. Provide that, as a condition of eligibility, a State may require an individual receiving Medicaid to assign to the State his rights to medical care payments by a third party.

States may use child support enforcement agencies for medical support collection efforts. States and localities may be eligible for an incentive payment of 15 percent of amounts collected on behalf of other States or localities.

The rule is required by Section 11(a) and (b) of the Medicare-Medicaid Anti-Fraud and Abuse Amendments (Pub. L. 95-142). Section 11(a) and (b) is effective January 1, 1978.

[42 CFR Part 450]

## MEDICAL ASSISTANCE PROGRAM

Medicaid Claims Processing Systems Use of  
Explanation of Benefit Notices

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Notice of decision to develop regulations.

SUMMARY: Current Medicaid regulations will be amended to eliminate the requirement that States receiving 75 percent Federal matching for management information systems must send notices containing an explanation of benefits to all Medicaid recipients. The amendments will also prohibit the inclusion of information on confidential services in these notices.

Use of the notices will be on a sampling basis, thus permitting more widespread adoption by States of automated systems.

The regulations will implement Section 10 of the Medicare-Medicaid Anti-Fraud and Abuse Amendments (Pub. L. 95-142). Section 10 is effective on January 1, 1978.

## DEPARTMENT OF TRANSPORTATION

Office of Hazardous Materials Operations

[49 CFR Part 178]

[Docket No. HM-156; Notice No. 78-2]

## SHIPPING CONTAINER SPECIFICATIONS

Flattening Test Requirement for Seamless  
Cylinders

AGENCY: Materials Transportation Bureau (MTB), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed rule would amend the regulations in Title 49, Code of Federal Regulations, pertaining to flattening tests by deleting the requirement that certain seamless cylinders be hydrostatically tested prior to the flattening test and by requiring that the longitudinal axis of the cylinder be perpendicular to the knife edges during flattening testing. This proposed amendment is needed to eliminate the necessity of performing the hydrostatic test before the flattening test, since data indicates the order in which the tests occur is not a significant safety consideration. Modification of the flattening tests is needed merely to clarify the procedure used in that test. This proposed amendment would allow flexibility as to when the sample may be selected, and would assure uniformity in the procedures used in flattening tests.

DATES: Comments by March 20, 1978.

ADDRESS COMMENTS TO: Dockets Section, Office of Hazardous Materials Operations, Department of Transportation, Washington, D.C. 20590. It is requested that five copies be submitted.

FOR FURTHER INFORMATION  
CONTACT:

Mr. Alan I. Roberts, Director, Office of Hazardous Materials Operations, 2100 2nd Street SW., Washington, D.C. 20590, 202-426-0656.

SUPPLEMENTARY INFORMATION: This petition is based in part on a petition from the Pressed Steel Tank Co., Inc. (PST), requesting that the regula-

tions be relaxed by allowing the performance of a flattening test at any time after heat treatment for DOT 3A, 3AX, 3AA, 3AAX, and 3HT cylinders. The MTB believes the petition has merit based on the fact that the test data submitted by PST revealed no discernible difference in the results obtained from cylinders that had flattening tests performed before and after hydrostatic testing. This data indicates that hydrostatic testing produces no significant change on the useful material characteristics required for a completed DOT cylinder.

The proposal to align the longitudinal axis of the cylinder at approximately right angles to the knife edges is being proposed by the MTB to assure uniformity in the flattening test requirements for DOT specification seamless cylinders. This procedure is consistent with present industry practice.

Since the petition addressed only three specifications, only these specifications are being considered in this notice.

These proposals would not significantly affect the cost of regulatory enforcement, nor would additional costs be imposed on the private sector, consumers or Federal, State, or local governments. Primary drafters of this document are Jose Pena, Technical Services Branch, Office of Hazardous Materials Operations, and Douglas A. Crockett, Office of the Chief Counsel, Research and Special Projects Directorate.

In consideration of the foregoing, it is proposed to amend Part 178 of Title 49, Code of Federal Regulations as follows:

1. In § 178.36, § 178.36-15 would be revised to read as follows:

§ 178.36 Specification 3A; seamless steel cylinders or 3AX; seamless steel cylinders of capacity over 1,000 pounds water volume.

§ 178.36-15 Flattening test.

Between knife edges, wedge shaped, 60-degree angle, rounded to 1/4-inch radius; test 1 cylinder taken at random out of each lot of 200 or less cylinders. Axis of the cylinder must be at approximately a 90-degree angle to knife edges.

2. In § 178.37, § 178.37-15 would be revised to read as follows:

§ 178.37 Specification 3AA; seamless steel cylinders made of definitely prescribed steels or 3AAX; seamless steel cylinders made of definitely prescribed steels of capacity over 1,000 pounds water volume.

PROPOSED RULES

§ 178.37-15 Flattening test.

Between knife edges, wedge shaped, 60-degree angle, rounded to 1/2-inch radius; test 1 cylinder taken at random out of each lot of 200 or less cylinders. Axis of the cylinder must be at approximately a 90-degree angle to knife edges.

<sup>1</sup> Editor note: See title 49; section 178 Code of Federal Regulations.

3. In § 178.44, § 178.44-17 would be revised to read as follows:

§ 178.44 Specification 3HT: Inside containers, seamless steel cylinders for aircraft use made of definitely prescribed steel.

§ 178.44-17 Flattening test.

Between knife edges, wedge shaped, 60-degree angle, rounded to 1/2-inch radius; test 1 cylinder taken at random out of each lot of 200 or less cylinders.

Axis of the cylinder must be at approximately a 90-degree angle to knife edges.

(49 U.S.C. 1803, 1804, 1808; 49 CFR 1.53(e) and paragraph (a)(4) of App. A to Part 102.)

Issued in Washington, D.C., on January 11, 1978.

ACTION  
FOSTER GRANDPARENT AND SENIOR  
COMPANION PROGRAMS  
Income Eligibility Levels

This notice revises the schedule of income eligibility levels for individuals and families for the Foster Grandparent Program and the Senior Companion Program published in the FEDERAL REGISTER of June 20, 1977 (42 FR 31178). The revised schedule is based on (1) the Community Services Administration (CSA) Income Poverty Guidelines effective May 25, 1977, increased by (2) the percentage of increase in the Consumer Price Index between May and November 1977, plus (3) the amount which individual States have added to the Federal Supplemental Security Income (SSI) Summary dated September 12, 1977. Addition of the State SSI supplement to the CSA Poverty Income Guideline prevents ineligibility of low-income applicants to serve as Foster Grandparents or Senior Companions because they receive State SSI supplemental payment.

These ACTION programs are authorized pursuant to section 211 of the Domestic Volunteer Service Act of 1973, Pub. L. 93-113, 87 Stat. 402. Pursuant to section 421(4) of Pub. L. 93-113, 87 Stat. 414, the income eligibility levels are determined by the currently applicable guideline published by CSA pursuant to section 625 of the Economic Opportunity Act of 1974, as amended (42 U.S.C. 2971(a)), and increased by the amounts individual States supplement the Federal Supplemental Security Income, permitting ACTION, in accordance with sec. 421(4) of Pub. L. 93-113, to take into consideration existing poverty guidelines as appropriate to local situations. Section 625 permits the CSA poverty guideline to be adjusted for cost-of-living changes.

The income eligibility levels will be reviewed at least once a year, and similar schedules will be prepared to reflect any changes required as a result of that review.

Pursuant to section 420 of Pub. L. 93-113, this policy will become effective on February 21, 1978.

ACTION SCHEDULE OF INCOME ELIGIBILITY  
LEVELS FOR FOSTER GRANDPARENTS OR SENIOR  
COMPANIONS

State	Individuals	Family of 2	Family of 3

DEPARTMENT OF AGRICULTURE

Forest Service

MINERAL PROSPECTING IN THE BEAVER CREEK  
WILDERNESS

Notice of Availability of Final Environmental  
Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for Mineral Prospecting in the Beaver Creek Wilderness, Daniel Boone National Forest, USDA-FS-R8-FES (ADM.) 77-03.

The Forest Service proposes to acquire private interests belonging to Greenwood Land and Mining Co., on National Forest lands within and adjacent to Beaver Creek Wilderness located in McCreary County, Ky. The concerns of the Forest Service are to resolve conflict between public and private rights in the management of the Beaver Creek Wilderness.

This final environmental statement was transmitted to EPA January 10, 1978. Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3210, 12th Street and Independence Avenue, SW., Washington, D.C. 20250.

USDA, Forest Service, 1720 Peachtree Street NW., Room 804, Atlanta, Ga. 30309.  
U.S. Forest Service, Daniel Boone National Forest, 100 Vaught Road, Winchester, Ky. 40391.

A limited number of single copies are available upon request to Forest Supervisor, Daniel Boone National Forest, 100 Vaught Road, Winchester, Ky. 40391.

Dated: January 10, 1978.

ROBERT F. WILLIAMS,  
Regional Environmental  
Coordinator.

**CIVIL AERONAUTICS BOARD**

[Order 77-11-107]

**CALGARY TRANSPORTATION AUTHORITY,  
ET AL**

**Certificates of Public Convenience and Necessity; Order on Reconsideration of Petition and Applications**

*Correction*

In FR Doc. 77-34332 appearing at page 60935 in the issue for Wednesday, November 30, 1977, the bracketed heading should read as set forth above.

[6320-01]

[Order 78-1-41; Docket 21070, 31462]

**EASTERN AIR LINES, INC.**

*Order*

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 11th day of January, 1978.

By application filed October 3, 1977, Eastern Air Lines requests the amendment of its certificate for Route 71 so as to delete Binghamton, N.Y.<sup>1</sup> (Docket 31462). Eastern has filed a petition requesting that the deletion be accomplished through show cause procedures. Finally Eastern requests renewal of its authority to suspend service at Binghamton, N.Y., with certain modifications, until 90 days after final decision on its deletion application. This suspension authority, together with the replacement agreement, expired December 8, 1977.

Answers to Eastern's petition have been filed by the New York State Department of Transportation and by Commuter Airlines, Eastern's replacement in the Binghamton-Washington market. New York State DOT asserts that the application does not provide a sufficient basis for analysis and requests that a hearing be scheduled.

<sup>1</sup> Binghamton is an intermediate point on Segment 1 of Route 71. Segment 1, as it now appears in the certificate, reads: "Between the intermediate points Syracuse and Binghamton, N.Y., Scranton-Wilkes-Barre and Allentown-Bethlehem-Easton, Pa., and (a) beyond Allentown-Bethlehem-Easton, the terminal point Philadelphia, Pa.-Camden, N.J., and (b) beyond Allentown-Bethlehem-Easton, the intermediate point Baltimore, Md., and the terminal point Washington, D.C."

**NOTICES**

Commuter supports the grant of Eastern's petition, noting that the carriers intend to continue joint-fare agreements which benefit Binghamton travelers. We have decided to issue an order to show cause why Eastern's application to delete Binghamton, N.Y., should not be granted. We tentatively find that the public convenience and necessity require the amendment of Eastern's certificate for Route 71 so as to delete Binghamton for the reasons discussed below.

Eastern has not served Binghamton since 1969, when we found that Agreement 21074, providing for the substitution of Commuter Airlines, Inc. in the Binghamton-Washington market, was in the public interest. Order 69-12-39 determined that Eastern's services had been uneconomic; that the market was unsuited to trunk operations; and that Commuter could, given financial support by Eastern as provided under the agreement, responsibly serve the market with better economic results. Commuter's operations have not required financial assistance since the first year of operations under the agreement, and it now operates five nonstop weekday round trips in the Binghamton-Washington market, two more than required in the agreement. In addition, Colgan Airways also provides two weekday nonstop flights in this market in competition with Commuter. Binghamton also receives certificated airline service from Allegheny Airlines, with nonstop flights to Pittsburgh, Elmira, and New York City and one-stop jet service to Chicago. Other commuter carriers operate services between Binghamton and Buffalo, Rochester, Ithaca, Poughkeepsie, White Plains, Albany, New York City, Boston, and Allentown.

We can see no reason to force Eastern to reinstate a service it does not want to provide, absent a strong showing of public need. Here there is frequent and reliable commuter service in the principal markets of concern. The return of Eastern to these markets would lessen the financial viability of the commuters without providing a measurable increase in service. Eastern could not possibly provide the frequency of departures now available to and from both National and Dulles airports. It could not provide significant improvements in single-plane service, since most Binghamton traffic traveling south of Washington uses the more convenient Pittsburgh and New York gateways. Finally, it could not achieve a significant reduction in fares since the joint fare agreements between Eastern and Commuter already provide these benefits, and the carriers have indicated that their joint fare agreements will be continued.

Given, therefore, that we would not force Eastern back into the market, the question becomes whether any

public benefit can be achieved by retaining Eastern's suspended authority. We are aware of none. In the early years of the replacement service we desired Eastern's Binghamton authority as insurance against the possible demise of Commuter Airlines. However, given the financial success of Commuter's service and the support exhibited by the market, we tentatively conclude that Eastern's backup authority is no longer required. There are now two commuter carriers in the Binghamton-Washington market, and one in the Binghamton-Allentown market. Allegheny Airlines holds one-stop Binghamton-Washington and nonstop Binghamton-Allentown authority. With this assurance that significant disruption of service at Binghamton seems unlikely, we tentatively conclude that deletion of Binghamton from Eastern's certificate is in the public interest.

We have also decided to grant Eastern's request for renewal of its suspension authority, with modifications, until 90 days after final decision in Docket 31462. Since this authority would otherwise have expired December 8, 1977, we wish to maintain the status quo until the issue of Eastern's deletion at Binghamton is resolved.

As part of its request, Eastern desires that its suspension no longer be conditioned on the provision of replacement service by Commuter Airlines. In view of the high level of service provided by two carriers in the Binghamton-Washington market and the number of commuters serving other Binghamton markets, this request seems reasonable. Commuter has established its viability and Commuter and Eastern have stated their intention to maintain interline fare agreements. We will also grant Eastern's request to be relieved of the requirement under the agreement to submit data under either Part 205 or Part 213 of the Board's regulations.

Accordingly, it is ordered, That:

1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated here and amending the certificate of public convenience and necessity of Eastern Air Lines, Inc. for Route 71 so as to delete Binghamton, N.Y., from segment 1;

2. Any interested persons having objections to the issuance of an order making final any of the proposed findings, conclusions or certificate amendments set forth in this order shall, within 30 days of the date of adoption of this order, file with the Board and serve upon all persons listed in paragraph 8 a statement of objections together with a summary of testimony, statistical data and other evidence ex-

pected to be relied upon to support the stated objections;

3. Answers to such objections shall be filed 10 days thereafter;

4. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections, together with any answers timely filed, before action is taken by the Board;

5. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth in this order;

6. The authority granted in Order 73-2-95 be vacated;

7. Eastern's authority to serve Binghamton, N.Y., on segment 1 of Route 71 be suspended under section 401(j) until 90 days after a final decision is issued in Docket 31462; and

8. A copy of this order shall be served on Eastern Air Lines; Mayor, City of Binghamton, N.Y.; Colgan Airways; Commuter Airlines; Allegheny Airlines; New York State Department of Transportation; Counsel to the Commissioner of Transportation; Broome County Executive; Broome County Chamber of Commerce; Broome County Department of Aviation; Honorable Warren Anderson; and the U.S. Postal Service.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.\*

PHYLLIS T. KAYLOR,  
Secretary.

**Applications for Duty-Free Entry of Scientific Articles**

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Statutory Import Programs Staff, Bureau of

\*Since provision is made for filing of objections, no petitions for reconsideration of this order will be entertained.

\*All Members concurred.

**NOTICES**

Trade Regulation, U.S. Department of Commerce, Washington, D.C. 20230, on or before February 8, 1978.

Regulations (15 CFR 301.9) issued under the cited Act prescribe the requirements for comments.

A copy of each application is on file, and may be examined between 8:30 a.m. and 5 p.m., Monday through Friday, in Room 6886C of the Department of Commerce Building, 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 78-00016. Applicant: Connecticut Visual Health Center, Inc. (CVHC), 1177 Broad Street, Bridgeport, Conn. 06604. Article: Friedman Visual Field Analyser. Manufacturer: Clement Clarke International Ltd., United Kingdom. Intended use of article: The article is intended to be used to identify extent of visual fields under various conditions in a mass study of patients to detect abnormalities. The objectives of the investigation is to identify patients with ocular diseases so that treatment programs can be instituted as early as possible to prevent blindness. Periodic seminars on Glaucoma Detection will be conducted in which the article is a principle diagnostic tool. In addition, the article will be used daily in a clinical environment to teach the intern population at CVHC how to use the equipment and how to interpret its data. Application received by Commissioner of Customs: December 13, 1977.

Docket No. 78-00073. Applicant: The Oklahoma College of Osteopathic Medicine & Surgery, 1111 West 17th, P.O. Box 2280, Tulsa, Okla. 74101. Article: Nihom Kohden Model PC-3A, Continuous Recording Oscilloscope Camera with digital numbering unit, with accessories. Manufacturer: Nikon Kohden Kogyo Co. Ltd., Japan. Intended use of article: The article is intended to be used to record medical-biophysiological phenomena during research in neurophysiology. Such Neurological information as the electroencephalogram, electromyogram, electrocardiogram and single unit nerve activities will be recorded in the course of various physiological experiments. Investigations are planned in the areas of heart disease (myocardial infarction research), autonomic nervous system regulation of body temperature and blood flow, and viscerosomatic reflex studies. Application received by Commissioner of Customs: December 8, 1977.

Docket No. 78-00074. Applicant: University of California at Davis, University of California, School of Medicine, Department of Human Anatomy, Davis, Calif. 95616. Article: Electron Microscope, Model EM 400 HMG with High Magnification Gonimeter and Accessories. Manufacturer: Philips Electronics Instruments NVD, the Netherlands. Intended use of article:

The article is intended to be used for research in the following projects: (1) Studies of the nature of the placental surface and the cytology of placental function; (2) Studies of the interaction of trophoblast and uterine luminal epithelial cells at implantation; (3) Distribution of receptor groups on the surface of the trophoblast; (4) Studies on carcinogenesis, specifically, ones involving possible viral contribution to carcinogenesis in mouse and woman, and the nature of the interaction of macrophages and melanoma cells; (5) Studies on the basis of formation and modification of basal lamina, both in the developmental process and in disease processes, such as glomerular nephritis; and (6) Studies on the interactions of bacteria and cells, specifically the interaction between Nocardia and alveolar and peritoneal macrophages. The objectives to be pursued in the course of the investigations are those of basic biomedical sciences: To understand the mechanisms of both normal and abnormal cell growth and development; To interrelate cell structure with the function in normal and dysfunctional situations and in cases of carcinogenesis and infection; To elucidate the cellular mechanisms of normal cell function in order to better understand control mechanisms. Application received by Commissioner of Customs: December 12, 1977.

Docket No. 78-00075. Applicant: Institute of Forest Genetics, North Central Forest Experiment Station, USDA-Forest Service, Box 898, Rhineland, Wis. 54501. Article: Electron Microscope, Model H-300 and Accessories. Manufacturer: Hitachi, Japan. Intended use of article: The article will be used to study two problems of seed production in jack pine and white spruce. Specifically, the article will be used to compare the normal development of apical meristems with those treated by various chemical agents, such as gibberellic acid, that induce flowering. Through morphological, anatomical, and ultrastructural studies, a comparison of normal and aborting reproductive structures will be conducted so that the timing and causes of abortion can be identified. These studies include the relationship of the vasculature to the position of sterile and fertile regions of the flower and the relationship of pollination and fertilization to ovule and see abortion. Application received by Commissioner of Customs: December 12, 1977.

Docket No. 78-00077. Applicant: Denver Technical Support Center, MESA, Building 55, Denver Federal Center, P.O. Box 25367, Denver, Colo. 80225. Article: Electron Microscope, Model EM 400 HTG with High Tilt Gonimeter Stage and Accessories. Manufacturer: Philips Electronics Instruments NVD, the Netherlands. Intended use of article: The article is in-

tended to be used for studies of rock and mineral dust generated in mining and milling activities and consisting of any type of naturally occurring silicate, oxide, sulfide, carbonate, sulfate, halide, or other type of mineral. The size and shape, crystal structure orientation, grain growth and microstructure, defect structure and chemical composition properties of the materials will be investigated. The objective of the investigations is the identification of toxic minerals, such as asbestos and the identification of materials containing toxic elements such as arsenic in airborne dust in support of the enforcement of health and safety standards in the nation's mines and mills. Application received by Commissioner of Customs: December 15, 1977.

Docket No. 77-00372. Applicant: USDA-ARS-SR Tobacco Research Laboratory, Route 2, Box 16G, Oxford, N.C. 27565. Article: Particulate Matter Prediction Metering Equipment. Manufacturer: WD & HO Wills, United Kingdom. Intended use of article: The article is intended to be used in experiments to reduce tar levels in flue-cured tobacco. The objectives of the investigations being conducted is to reduce health hazards associated with tobacco by reducing tar levels. Application received by Commissioner of Customs: December 20, 1977.

Docket No. 77-00373. Applicant: North Carolina State University/Raleigh School of Agriculture & Life Sciences, Department of Crop Science, Box 5155, Raleigh, N.C. 27607. Article: Particulate Matter Prediction Metering Equipment. Manufacturer: WD & HO Wills, United Kingdom. Intended use of article: The article is intended to be used in experiments to reduce tar levels in flue-cured tobacco. The objectives of the investigations being conducted is to reduce health hazards associated with tobacco by reducing tar levels. Application received by Commissioner of Customs: December 20, 1977.

Docket No. 78-00076. Applicant: University of Hawaii, High Energy Physics Group, Watanabe Hall, 2505 Correa Road, Honolulu, Hawaii 96822. Article: Model 1 Sweepnik System and Accessories. Manufacturer: Lasen-Scan Ltd., United Kingdom. Intended use of article: The article is intended to be used for bubble chamber experiments which involve bombarding the 15' bubble chamber with multibillion volt neutrinos produced by the highest energy accelerator in the world. The purpose of these experiments is to discover new particles, examine the properties of a class of particles called "quarks," and to understand a new and strange property possessed by certain elementary particles whimsically called "charm." Specifically, the article will be used to measure the trajec-

tories to charged particles produced by neutrinos in the bubble chamber to an accuracy of 2 millionths of a meter on the 70 mm film. Application received by Commissioner of Customs: December 12, 1977.

Docket No. 78-00078. Applicant: Carnegie-Mellon University—Mellon Institute of Science, 4400 Fifth Avenue, Pittsburgh, Pa. 15213. Article: LKB 2128-010/Ultratome IV Ultramicrotome and Accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for biological studies of cultured mammalian cells, their virus transformed derivatives and tumors derived from small animals. Experiments will be designed to determine the function of cytoplasmic fibers in normal, virus-transformed and tumor cell motility. The objectives of these investigations determine which ultrastructural entities function in controlling normal cells behavior and how these functions are altered in virus-transformed and tumor cells. The article will also be used in the training of graduate students and for demonstrations in undergraduate laboratory and lecture courses entitled "Introduction to Cellular and Molecular Biology." Graduate students will be trained in methods involved in the study of mammalian cell ultrastructure, which will of course involve the preparation of thin sections. Application received by Commissioner of Customs: December 22, 1977.

Docket No. 78-00079. Applicant: The University of Texas Medical Branch, Department of Pathology, Galveston, Tex. 77550. Article: LKB 14800-1 Cryokit Complete and with Accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is an accessory to an existing ultramicrotome which allows it to be used to section frozen tissues at ultra low temperatures so that sites of sodium, potassium, calcium and phosphorus accumulation in tissues are not disturbed. The materials to be studied are mammalian—liver, heart, kidney and parts of cells derived therefrom. The article is intended to be used to train graduate and medical students in biomedical research in the courses Pathology 6x97—Research and Pathology 6x98—Thesis. Application received by Commissioner of Customs: December 22, 1977.

Docket No. 78-00080. Applicant: College of Medicine and Dentistry of New Jersey, P.O. Box 10146, Newark, N.J. 07101. Article: LKB 2128-010 Ultratome IV Ultramicrotome and Accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for the following investigations: ultrastructural studies on normal and pathologic plant and animal tissues, developmental studies on normal and path-

ologic plant and animal tissues, developmental studies on fungal systems, cyto- and histo-chemical studies on enzyme and subcellular organelle localization in cells and tissues, membrane interactions at host-parasite interfaces, and subcellular changes in cells induced by changes in their biochemical and physical environments. The objective of these studies is to further basic knowledge on cell and tissue ultrastructure and to reveal at the ultrastructural level, the enzyme localization and distribution in cells and tissues developing under normal and pathological conditions. In addition, the article will be used in courses entitled Ultrastructure and Cytochemistry which will involve a study of general principles on techniques and the use of the electron microscope to study the fine structure of cells and various subcellular organelles and the employment of cytochemical staining methods to localize various enzymes. Application received by Commissioner of Customs: December 20, 1977.

Docket No. 78-00081. Applicant: College of Medicine and Dentistry of New Jersey—New Jersey Dental School, 100 Bergen Street, Newark, N.J. 07103. Article: LKB 2128-010 Ultratome IV Ultramicrotome and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for the studies of human biopsy material, animal and microbial specimens. Investigations will include ultrastructural studies on normal and pathologic tissues, developmental studies on dental plaque systems, cyto and histochemical studies on enzyme and subcellular organelle localization in cells and tissues, membrane interactions at host-parasite interfaces, and subcellular changes in cells induced by changes in their biochemical and physical environments. The objective of the investigations is to further basic knowledge on cell and tissue ultrastructure and to reveal, at the ultrastructural level, the enzyme localization and distribution in cells and tissues developing under normal and pathological conditions. In addition, the article will be used in courses entitled "Ultrastructure and Cytochemistry" which will involve a study of general principles on techniques and the use of the electron microscope to study the fine structure of cells and various subcellular organelles and the employment of cytochemical staining methods to localize various enzymes. Application received by Commission of Customs: December 20, 1977.

Docket No. 78-00082. Applicant: VA Hospital, Highway 6, Iowa City, Iowa 52240. Article: High Resolution Gonimeter Stage for Elmiskop 101 and Accessories. Manufacturer: Siemens Corp., West Germany. Intended use of article: The article is an accessory to an existing electron microscope which

will be used to study ultrathin sections of: tooth dentin and enamel; endothelial, pericyte, and smooth muscle cells cultured from the blood vessels of the retina, optic disc, and optic nerve; and junctional complexes of hepatocytes. The properties to be investigated include: the geometry of early crystalline phases in dentin and enamel; the formation and differentiation of junctional complexes in cultured retinal endothelial cells, particularly the resolution of differences between tight and gap junctions. The permeability and structure of liver cell tight junctions will also be examined. Application received by Commissioner of Customs: December 20, 1977.

Docket No. 78-00083. Applicant: Howard University College of Medicine, 520 W Street NW., Washington, D.C. 20059. Article: Electron Microscope, Model EM 10 and Accessories. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used in demonstrating teratogenic effects of drugs in living organisms that have been exposed to mycotoxins or pathogen fungi. The objectives pursued in the course of this investigation are:

- (1) To determine the in-vivo effects of the sytochalasins.
- (2) To see what tissues are affected due to the administration of mycotoxins.
- (3) To study the molecular mechanism of action of the pathogenic fungi and mycotoxins in development.
- (4) To see if foods, normally parasitized by fungi that produce mycotoxins when fed to laboratory animals, will cause teratogenesis.

The article will also be used in the course "Introductory Electron Microscopy" which involves fixation techniques to demonstrate different subcellular organelles. Application received by Commissioner of Customs: December 20, 1977.

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public

review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 77-00327. Applicant: Duke University, Durham, N.C. 27710. Article: LKB 2127-001 and 2127-021 Tachophor complete with Tachofrac complete, with Power Supply Unit equipped with Accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of spinal fluid samples from patients with neurological diseases, especially multiple sclerosis. Proposed studies will attempt to: (1) Define further the specificity of the nucleotide-rich material (NRM); (2) determine whether the NRM contains DNA, RNA, or nucleoprotein; (3) determine whether the NRM exists in the cerebrospinal fluid free or complexed to IgG; and (4) isolate the NRM from CSF or tissues. The major objective of the studies will be to determine whether the NRM is derived from host tissues or from foreign elements, such as a virus.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides the capability for counter flow isotachophoresis. The Department of Health, Education, and Welfare advises in its memorandum dated November 8, 1977, that: (1) The capability of the article described above is pertinent to the applicant's intended research, and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended purposes.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

#### HEW—CENTER FOR DISEASE CONTROL

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific

article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No.: 77-99339. Applicant: HEW, PHS, Center for Disease Control, 255 East Paces Ferry Road NE, Atlanta, GA. 30305. Article: Gamma-cell 220 High Dose Rate Laboratory Irradiator and Accessories. Manufacturer: Atomic Energy of Canada Ltd., Canada. Intended use of article: The article is intended to be used to study live viruses; specifically, live hemorrhagic fever viruses will be studied in the hope that gamma irradiation will inactivate these and make useable for standard laboratory diagnostic procedures. Gamma irradiation of the viruses under study will permit transport to field operations area so that diagnosis can be done in the field. Various animal models will be given wholebody irradiation to permit studies in the immunological aspects of these hemorrhagic fever viruses. Dose response investigations will be conducted in order to determine what dosages or irradiation will inactivate the viruses.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides exposure dose rates up to  $2.0 \times 10^4$  roentgens per hour at the midpoint of the irradiation chamber with a nominal source loading of 24,000 curies of Cobalt-60. The Department of Health, Education, and Welfare advises in its memorandum dated November 8, 1977 that (1) the capability of the article described above is pertinent to the applicant's intended uses and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the article for the applicant's intended purposes.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

#### RUTGERS, THE STATE UNIVERSITY

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th Street and Constitution Avenue NW., Washington, D.C. 20230.

Docket No.: 77-00315. Applicant: Rutgers, The State University Nuclear Physics Laboratory, Frelinghuysen Road, Piscataway, N.J. 08854. Article: Compressor Sextupole and Accessories. Manufacturer: ANAC Inc., New Zealand. Intended use of article: The article is intended to be used to investigate spins, parities, energy levels, and energy-level gross structure in atomic nuclei being studied. elastic and inelastic proton and deuteron scattering experiments will be carried out with angular distributions, angular correlations, and excitation functions being measured. The experiments will be conducted to study the spin-dependent effects of nuclear forces and those properties of nuclear states which require the use of atomic beams. The article will also be used in a research program by graduate students working for the Ph. D. degree and will be used to meet the dissertation requirement for that degree.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article is capable of enhancing the atomic beam intensity by refocusing magnetically separated neutral ions into the analyzer producing approximately 50 microamperes of proton beam in direct current operation. The National Bureau of Standards advises in its memorandum dated November 7, 1977 that (1) the specification of the article described

### NOTICES

above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

#### SANDIA LABORATORIES

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 A.M. and 5:00 P.M. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No.: 77-00326. Applicant: Sandia Laboratories, Kirtland AFB, East Albuquerque, N. Mex. 87115. Article: Transistorized Power Source—For Tungsten Inert Gas Welding. Manufacturer: The Welding Institute, United Kingdom. Intended use of article: The article is intended to be used in a wide range of applications including but not limited to the following materials: (a) austenitic stainless steel; (b) Fe-Ni-Co alloys; (c) molybdenum and its alloys; (d) tungsten and its alloys; (e) high strength alloy steel; and (f) aluminum alloys. Experimentation will involve study of a wide range of pulse forms in order to manipulate weld pool solidification and dendritic spacing. In particular, the dependence of the fracture toughness of welds on the microstructures will be investigated. Also, the control of solidification to avoid hot cracking will be studied.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides an A.C. wave capability in the range, 200-800 Hertz. The National Bureau of Standards advises in its memorandum dated November 29, 1977 that (1) the capability of the article described above is pertinent to the applicant's intended uses and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended purposes.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

#### UNIVERSITY OF KANSAS

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No.: 77-00358. Applicant: University of Kansas, 2095 Ave. A—Campus West, Lawrence, Kans. 66044. Article: Flow Microcalorimeter. Manufacturer: Technepne Inc., Canada. Intended use of article: The article is intended to be used to study the thermodynamics of bile and micellar solution, and to determine the variation of these properties with the structure of bile salt. The enthalpy and heat capacity of these complex micellar solutions will be measured as a function of temperature, bile salt structure and added electrolyte. These investigations are conducted to obtain a better understanding of the nature of bile salt—lecithin solutions and their role in the dissolution of lipids, cholesterol and drug substances. The article will also be used in "Undergraduate Research in Pharmaceutical Chemistry," "Doctoral Dissertation" and "Postdoctoral Research in Pharmaceutical Chemistry" to train students to do independent research.

### NOTICES

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. REASONS: The foreign article provides a sensitivity of  $1 \times 10^{-4}$  degrees centigrade in the flow heat mixing mode. The Department of Health, Education, and Welfare advises in its memorandum dated November 28, 1977 that (1) the specification of the article described above is pertinent to the applicant's intended use and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article that is in commercial production.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

#### UNIVERSITY OF MICHIGAN

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No.: 77-00342. Applicant: University of Michigan, 1024 Chemistry, North University, Ann Arbor, Mich. 48109. Article: ASL A-7 fully automated AC Bridge. Manufacturer: Automated Systems Lab. Ltd., United Kingdom. Intended use of article: The article is intended to be used for the study and understanding of the energetic spectrum of matter; the chemical thermodynamic properties of matter including the entropy, enthalpy, tempered Gibbs energy function, etc.; the electronic, structural, as well as the molecular disordering and librational freedom of molecules are both imme-

diately and indirectly objectives. The materials to be studied include the following:

Actinide pnictides (e.g., ThSb<sub>3</sub>), chalcogenides (e.g., UOS), halides (e.g., UCl<sub>3</sub>), Lanthanide trihydroxides (e.g., Gd(OH)<sub>3</sub>), Transition element pnictides (e.g., Cu<sub>3</sub>As, S, d<sub>3</sub>urleite), Molecular crystals (e.g., paraterphenyl, thiourea, etc.), Ionic crystals (e.g., PbF<sub>2</sub>), Vitreous materials (e.g., B<sub>2</sub>O<sub>3</sub>).

The article will also be used for educational purposes in the courses Postdoctoral Research, Doctoral Research in Chemistry, and Honors Research in Chemistry.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. REASONS: The foreign article is capable of automatically or manually measuring temperature to 0.1 millikelvin using a platinum thermometer of 25 ohms nominal value at a current of 1 milliamperes. The National Bureau of Standards advises in its memorandum dated December 2, 1977 that (1) the capability of the article described above is pertinent to the applicant's intended use and (2) it knows of no domestically manufactured Precision Resistance Bridge of equivalent scientific value to the foreign article for the applicant's intended purpose.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

### [3510-25]

#### UNIVERSITY OF NEBRASKA

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in

Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No.: 77-00308. Applicant: University of Nebraska, Lincoln, Nebr. 68588. Article: THR-1500 1.5 Meter Double Pass Czerny-Turner Monochromator. Manufacturer: Jobin-Yvon, France. Intended use of article: The article is intended to be used in the development of a stress modulation spectroscopy specifically adapted for the study of molecular crystals. Several problems will be surveyed to demonstrate the capabilities of the method. These will involve experiments to determine the critical points in the joint densities of states for the first singlet systems of naphthalene, anthracene and tetracene. Dye crystals having very strong coupling will be studied with the goal of locating the critical points in the metallic reflecting region. Piezomodulated luminescence studies will be made to determine the effect of strain upon the migration and lifetime of triplet excitons, in order to prove the nature of lattice relaxation processes. The effect of strain on the fluorescence polarization ratio will be determined for both piezoemission and piezoaction spectra. To ascertain the effect of stress upon So and Sn the piezoemission and Kramers-Kronig transformed piezoreflection spectra will be obtained and compared. Study on the interaction of strain with surface exciton states will be initiated. The emission studies also will be used to determine the effect of strain on defect emission and excimer emission. Known piezochromic and triboluminescent systems will be studied in an effort to locate the microscopic origin of these effects and to obtain more quantitative data. Application of uniaxial modulated stress to a cubic inorganic crystal in order to make assignment of electronic states by breaking degeneracies will also be undertaken. The dependence of the spectra of hydrogen-bonded crystals upon stress modulation will also be studied.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: This application is a resubmission of Docket No. 77-00023 which was denied without prejudice to resubmission on March 31, 1977 for informational deficiencies. The foreign article provides a combination of a resolution of at least 300,000, a high throughput (F14), mechanical stability of 0.01 Angstroms (A) and reproducibility or repeatability of 0.1A. The National Bureau of Standards advises

## NOTICES

in its memorandum dated November 28, 1977 that (1) the combination of capabilities of the article described above is pertinent to the applicant's intended use and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended purposes.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

## WESLEYAN UNIVERSITY

## Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No.: 77-00344. Applicant: Wesleyan University, Hall Atwater & Shanklin Laboratories, Lawn Avenue, Middletown, Conn. 06457. Article: LKB 2107-010 Batch Microcalorimeter and Accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to determine the heats of binding of small molecules to single sites on the allosteric enzyme aspartate transcarbamylase. Enthalpies of binding derived will be correlated with binding data obtained spectroscopically or by equilibrium dialysis or gel filtration. These measurements are needed to establish thermodynamic criteria which can be used to define the regulatory mechanism of this protein. In addition, the article will be used occasionally in a course in Biomedical Techniques.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article,

for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides the capabilities for operation in a differential mode and a sensitivity of one microcalorie. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated November 8, 1977, that the capabilities of the article described above are pertinent to the applicant's intended purposes. HEW further advises that (1) domestic instruments do not provide equal sensitivity or operate in a differential mode, and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

## DETERMINATION OF OPERATING-DIFFERENTIAL SUBSIDY FOR WAGES OF OFFICERS AND CREWS AND SUBSISTENCE OF OFFICERS AND CREWS OF PASSENGER VESSELS

## Amendments To the Manual of Procedures

In FR Doc. 77-31603, appearing in the FEDERAL REGISTER on November 1, 1977 (42 FR 57152), notice was given that the Assistant Secretary of Commerce for Maritime Affairs and the Maritime Subsidy Board have under consideration a complete revision of part I (Wages of Officers and Crews) and part II (Subsistence of Officers and Crews of Passenger Vessels) of the Manual of General Procedures for Determining Operating-Differential Subsidy for liner vessels.

Interested parties were invited to file written comments with the Secretary, Maritime Subsidy Board, Maritime Administration, Washington, D.C. 20230, not later than December 2, 1977.

By notice published in the FEDERAL REGISTER on November 29, 1977 (42 FR 60778), the date for submission of comments was extended to close of business on January 23, 1978.

Upon request made and good cause shown by the Council of American-Flag Ship Operators, the date for submission of comments is hereby further

extended to close of business on March 1, 1978.

Dated: January 16, 1978.

By order of the Maritime Subsidy Board and Assistant Secretary of Commerce for Maritime Affairs.

JAMES S. DAWSON, Jr.,  
Secretary.

## USAF SCIENTIFIC ADVISORY BOARD

## Meeting

JANUARY 12, 1978.

The USAF Scientific Advisory Board Aerospace Vehicles Panel will hold a meeting on February 14-15, 1978, at Wright-Patterson AFB, Ohio, from 8 a.m. to 5 p.m., on February 14, and 8 a.m. to 12 noon on February 15.

The Panel will receive classified briefings and conduct classified discussions on the engine comparison study. The meeting concerns matters listed in section 552b(c) of Title 5, United States Code, specifically subparagraph (1) thereof, and accordingly, will be closed to the public.

For further information contact the Scientific Advisory Board Secretariat at 202-697-8845.

## AIR UNIVERSITY BOARD OF VISITORS

## Consolidation of Committees

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the consolidation of the Air University Board of Visitors and the Air Force ROTC Advisory Panel has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The Office of Management and Budget concurs with the consolidation. The consolidated committee will be known as the Air University Board of Visitors.

The nature and purpose of the Air University Board of Visitors is to provide the Air Force with advice and recommendations on the performance of its educational mission from members of the educational, professional, public

affairs, business, and industrial communities.

MAURICE W. ROCHE,  
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

## Office of the Secretary of Defense

## PRIVACY ACT OF 1974

## Deletion of Record Systems

AGENCY: Office of the Secretary of Defense, DOD.

ACTION: Notice of systems of records deletions.

SUMMARY: The Office of the Secretary of Defense (OSD) systems of records notices as prescribed by the Privacy Act have been published in the FEDERAL REGISTER on September 28, 1977, at 42 FR 50730, and on December 22, 1977, at 42 FR 64334. The Office of the Secretary of Defense is deleting three systems of records subject to the Privacy Act of 1974. These systems of records are being deleted from the OSD inventory because the function and responsible activity for the systems have been realigned with the Defense Logistics Agency (DLA). The systems shall continue in effect under the Defense Logistics Agency's inventory of records but will be identified as Defense Logistics Agency systems of records. The effected systems are identified below.

FOR FURTHER INFORMATION CONTACT:

James S. Nash, Chief, Records Man-

## NOTICES

agement Branch, ODASD(A), the Pentagon, Washington, D.C. 20301, telephone 202-695-0970.

MAURICE W. ROCHE,  
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

JANUARY 16, 1978.

The following Office of the Secretary of Defense (OSD) systems of records are deleted:

## DM&amp;RA 04.0

System name: Reenlistment Eligible File (RECRUIT). (42 FR 50762, September 28, 1977)

Reason: This system is deleted from the OSD record systems inventory and being added to the Defense Logistics Agency (DLA) inventory and reidentified as S322.20DLA-LZ. The system contents remain unchanged.

## DM&amp;RA 13.0

System name: Survey Data Base. (42 FR 50766, September 28, 1977)

Reason: This system is deleted from the OSD record systems inventory and being added to the Defense Logistics Agency (DLA) inventory and reidentified as S322.10DLA-LZ. The system contents remain unchanged.

## DM&amp;RA 14.0

System name: MARDAC Data Base. (42 FR 50766, September 28, 1977)

Reason: This system is deleted from the OSD record systems inventory and being added to the Defense Logistics Agency (DLA) inventory and reidentified as S322.10DLA-LZ.

[FR Doc. 78-1465 Filed 1-18-78; 8:45 am]

## [3620-01]

## Defense Logistics Agency

## PRIVACY ACT OF 1974

## Addition of Systems of Records

AGENCY: Defense Logistics Agency, DOD.

ACTION: Notice of systems of records additions.

SUMMARY: The Defense Logistics Agency (DLA) is adding three systems of records to its record systems inventory subject to the Privacy Act. These systems were formerly contained in the Office of the Secretary of Defense (OSD) inventory. As the organization and function, Manpower Research and Data Analysis Center (MARDAC) is now reassigned to DLA, the applicable record systems of the organization are now added to and reidentified as DLA record systems. There are no changes in the record system notice contents, which are republished below in their

entirety, other than the reidentification.

DATES: These systems of records are effective January 19, 1978.

ADDRESS: Send any comments to the system manager identified in the record system notice.

FOR FURTHER INFORMATION CONTACT:

Mr. William A. Smith, Chief, Administrative Management Division, DLA-XA, Defense Logistics Agency, HQS DLA, Cameron Station, Alexandria, Va. 22314, telephone 202-274-6005.

## SUPPLEMENTARY INFORMATION:

The Defense Logistics Agency's systems of records notice recompilation inventory as prescribed by the Privacy Act of 1974, 5 U.S.C. 552 a(e)(4), have been published in the FEDERAL REGISTER (FR Doc 77-28255) on September 28, 1977, at 42 FR 51388. DLA proposes to add three record systems to its inventory which were formerly assigned to the Office of the Secretary of Defense. These record systems are not considered new systems within the purview of the provisions of the Office of Management and Budget (OMB) Circular A-108, Transmittal Memoranda Nos. 1 and 3 dated September 30, 1975 and May 17, 1976 respectively, which provide supplemental guidance of Federal agencies regarding the preparation and submission of reports of their intention to establish or alter systems of personal records as required by the Privacy Act. This OMB guidance was set forth in the FEDERAL REGISTER (40 FR 45877) on October 3, 1975.

The three affected systems with their old and their new identification are as follows:

Old	New
DM&RA 04.0 (42 FR 50762)....	S322.20DLA-LZ
DM&RA 13.0 (42 FR 50766)....	S322.35DLA-LZ
DM&RA 14.0 (42 FR 50766)....	S322.10DLA-LZ

MAURICE W. ROCHE,  
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

JANUARY 16, 1978.

System name:

Reenlistment Eligible File (RECRUIT).

System location:

W. R. Church Computer Center, Naval Postgraduate School, Monterey, CA 93940.

Back-up file—Department of Defense Manpower Research and Data Analysis Center, 7th Floor, 300 N. Washington St., Alexandria, VA 22314.

Back-up file—Department of Defense Manpower Research and Data Analysis Center, 550 Camino El Estero, Monterey, CA 93940.

2752

**Categories of individual covered by the system:**

Former enlisted personnel of the military services who separated from active duty during the immediately preceding forty-eight months and who are eligible for immediate reenlistment.

**Categories of records in the system:**

Social Security Account Number, Name, Service, Date of Birth, and Date of Separation.

**Authority for maintenance of the system:**

10 U.S.C. 136.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The purpose of the system is to assist recruiters in reenlisting prior-service personnel.

Department of Defense Manpower Research and Data Analysis Center, used to provide to recruiters in the military service and the Coast Guard information on individuals eligible for immediate reenlistment; for statistical analyses of prior-service reenlistment trends and of demographic characteristics of applicants for reenlistment; such analyses may require merging with other record systems.

Any individual records contained in the system might be transferred to any component of the Department of Defense having a need to know in the performance of official business.

Any record may be disclosed to law enforcement or investigatory authorities for investigation and possible criminal prosecution, civil court action, or regulatory order.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

**Storage:**

Most recent thirty-six months separation stored on magnetic disc; full forty-eight months stored on magnetic tape.

**Retrievability:**

Retrievable by Social Security Account Number.

**Safeguards:**

DISC File is protected by password access and hard-wire system.

Alexandria, Virginia location has tape storage areas in locked room accessible only to authorized personnel; building is locked after hours.

Monterey, California location has tape storage area in locked room accessible only to authorized personnel; building is locked after hours.

Recruiters making telephone inquiries must have valid recruiter identification and call back number.

**NOTICES****Retention and disposal:**

Records more than forty-eight months old are purged from the system.

**System manager(s) and address:**

Director, Manpower Research and Data Analysis Center, 550 Camino El Estero, Monterey, California 93940.

**Notification procedure:**

Information may be obtained from:

Manager, RECRUIT system, Manpower Research and Data Analysis Center, 300 N. Washington St., 7th Floor, Alexandria, VA 22314, Telephone: Area Code 703/325-0490.

**Record access procedures:**

Requests from individuals should be addressed to: Manager, RECRUIT System, Manpower Research and Data Analysis Center, 300 N. Washington Street, Alexandria, VA 22314.

Written request for information should contain the full name, current address, telephone number, Social Security Account Number, and date of separation of the individual.

For personal visits, the individual should be able to provide some acceptable identification such as driver's license.

**Contesting record procedures:**

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSTEM MANAGER.

**Record source categories:**

The data contained in the system are obtained from the Army, Navy, Air Force, Marine Corps, and Coast Guard.

**Systems exempted from certain provisions of the act:**

NONE.

S322.35DLA-LZ

**System name:**

Survey Data Base.

**System location:**

Primary Location—W.R. Church Computer Center, Naval Postgraduate School, Monterey, California 93940.

Decentralized locations for back-up files—Department of Defense, Manpower Research and Data Analysis Center, 7th Floor, 300 N. Washington St., Alexandria, Virginia 22314 and 2nd Floor, 550 Camino El Estero, Monterey, California 93940.

**Categories of individuals covered by the system:**

Individuals who selected at random for survey administration and who

completed survey forms. Survey data is collected on a periodic basis. Current data were collected at selected Armed Forces Entrance and Examining Stations (AFES), during September 1974, May 1975, or since January 1975; additional data were collected by Gilbert Youth Organization (civilian contractor) in nation-wide surveys during May or November 1973, or May or November 1974.

**Categories of records in the system:**

SSAN and responses to survey items dealing with attitudes toward the military.

**Authority for maintenance of the system:**

10 U.S.C. 136.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The purpose of the file is to sample attitudes toward enlistment in the military and determine reasons for enlistment decisions.

Manpower Research and Data Analysis Center—used to analyze trends in enlistment motivation, attitudes toward military service, attractiveness of various enlistment incentives; survey files are linked with military personnel inventory, gain, and loss files to statistically relate survey data to later advancement, attritions, and reenlistment patterns.

Any individual record in the system may be transferred to any component of the Department of Defense having the need to know in the performance of official business.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

**Storage:**

Magnetic Computer Tape

**Retrievability:**

Records can be retrieved by Service of accession, period of survey, race, sex, education level, or Social Security Account Number.

**Safeguards:**

Tapes stored at the primary location are kept in a locked storage cage in a controlled access area; tapes stored at the back-up locations are kept in locked storage areas in buildings which are locked after hours.

**Retention and disposal:**

Records are permanent. Survey answer sheets which are opscanned to create tape are destroyed after tape is created.

**System manager(s) and address:**

Director, Manpower Research and Data Analysis Center, 550 Camino El Estero, Monterey, California 93940.

**NOTICES**

2753

**Notification procedure:**

Information may be obtained from:

Chief, Market and Survey Research Division, Manpower Research and Data Analysis Center, 300 N. Washington St., 7th Floor, Alexandria, Virginia 22314, Telephone: Area Code 703/325-0490.

**Record access procedures:**

Requests from individuals should be addressed to: Chief, Market and Survey Research Division, Manpower Research and Data Analysis Center, 300 N. Washington St., Alexandria, VA 22314.

Written requests for information should contain the full name, Social Security Account Number, and current address and telephone number of the individual. In addition, the approximate date and location where the survey was completed should be provided.

For personal visits, the individual should be able to provide some acceptable identification such as driver's license or military or other ID card.

**Contesting record procedures:**

The agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSTEM MANAGER.

**Record source categories:**

The survey information is provided by the individual; additional data which are linked to survey data as described in the routine uses section, are obtained from the military services.

**Systems exempted from certain provisions of the act:**

NONE.

S322.10DLA-LZ

**System name:**

MARDAC Data Base

**System location:**

Primary location: W.R. Church Computer Center, Navy Postgraduate School, Monterey, CA 93940.

Back-up locations for processing: Air Force Data Services Center, Room 1D167, The Pentagon, Washington, D.C. 20330.

U.S. Army Management Systems Support Agency, Room BD972, The Pentagon, Washington, D.C. 20310.

National Military Command Systems Support Center, Room BE685, The Pentagon, Washington, D.C. 20331.

Back-up files maintained at two offices of the DoD Manpower Research and Data Analysis Center—7th Floor, 300 N. Washington St., Alexandria, VA 22314 and 2nd Floor, 550 Camino El Estero, Monterey, CA 93940.

Selected historic files are maintained at Air Force Data Services Center, Room 1D167, The Pentagon, Washington, D.C. pursuant to court order in IBM anti-trust case. These files will be withdrawn from current location when legally permissible.

Decentralized segments—military personnel research centers, and military personnel centers of the services; selected civilian contractors with research contracts in manpower area; other Federal agencies.

**Categories of individuals covered by the system:**

All officer and enlisted personnel who served on active duty from July 1, 1968 and later; or who have been a member of a reserve component since July 1975; or are retired reservists; participants in Project 100,000 and Project Transition and the evaluation control groups for these programs; all individuals examined to determine eligibility for military service at an Armed Forces Entrance and Examining Station from July 1, 1970, and later; DoD civilian employees or civilian employees separated since January 1, 1971; all veterans who have utilized Vietnam-era GI Bill education and training entitlements, who visited a State Employment Service office since July 1, 1971, or who participated in a Department of Labor special training program since July 1, 1971; all individuals who ever participated in an educational program sponsored by the U.S. Armed Forces Institute, all individuals who participated in the Armed Forces Vocational Aptitude Testing Programs at the high school level since September 1969, individuals who responded to various paid advertising campaigns seeking enlistment information since July 1, 1973; participants in the DHEW, Office of Education and Longitudinal Survey.

**Categories of records in the system:**

Name, Service Number, Selective Service Number, Social Security Account Number, demographic information such as home town, age, sex, race, and educational level; civilian occupational information, military personnel information such as rank, length of service, military occupation; aptitude scores, post-service education, training, and employment information for veterans; participation in various in-service education and training programs.

**Authority for maintenance of the system:**

10 U.S.C. 136.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The purpose of the system of records is to provide a longitudinal statistical analysis capability for assessing military manpower trends and

evaluation programs impacting of military personnel, potential enlistees, and veterans.

Manpower Research and Data Analysis Center—used to analyze accession patterns and trends, promotion and occupation patterns and trends, loss patterns and trends, qualification rates, effectiveness of recruiting programs, participation in education and training programs, force characteristics, post-service experiences of veterans, evaluation of military special pays and bonuses; evaluation of special programs affecting military personnel; to select sample population for surveys; to provide statistical data to OMB, GAO, the Military Services, DoD civilian contractors, educational institutions and other Federal agencies.

Personnel Research and Personnel Management activities of the Military Services—uses are same as those specified above.

Veterans Administration, Management Sciences Staff, Reports and Statistics Service, Office of the Comptroller—used to select sample for surveys asking veterans about the use of veterans benefits and satisfaction with VA services.

Office of Research and Statistics, Social Security Administration—used for statistical analyses of impact of military service and use of GI Bill benefits on long term earning.

DoD Civilian Contractors—used by contractors performing research on manpower problems for statistical analyses.

Aggregate data and/or individual records contained in the record system may be transferred to other Federal agencies having legitimate use for such information and applying appropriate safeguards to protect data so provided.

Records may be disclosed to the Civil Service Commission concerning pay, benefits, retirement deductions; and other information necessary for the Commission to carry out its Government-wide personnel management functions.

Any record contained in the system of records may be transferred to any other component of the Department of Defense having the need-to-know in the performance of official business.

Name and address information of former military personnel obtained from the Veterans Administration or the Military Department may be released to a number of DoD Components for use in attempting to recruit and reenlist prior service personnel through direct contact methods.

These components are as follows: U.S. Army Recruiting Command; U.S. Army Forces Command; Navy Recruiting Command; Chief of Naval Personnel; Chief of Naval Reserve; U.S. Air Force Recruiting Service; U.S. Air Force Tactical Air Command; Head-

## NOTICES

quarters Air Force Reserve; National Guard Bureau; Headquarters, U.S. Marine Corps; District Directors, U.S. Marine Corps; Commanding General, 4th Marine Division; Commanding General, 4th Marine Air Wing; Commandant, U.S. Coast Guard.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

## Storage:

Magnetic computer tape.

## Retrievability:

Retrievable by name, SSAN, age, occupation, or any other data element contained in system.

## Safeguards:

Primary location—at W.R. Church Computer Center, tapes are stored in a locked cage in machine room, which is a controlled access area; tapes can be physically accessed only by computer center personnel and can be mounted for processing only if the appropriate security code is provided.

At back-up locations in Alexandria, VA and Monterey, CA tapes are stored in rooms protected with cypher locks, buildings are locked after hours, and only properly cleared and authorized personnel have access.

The Air Force Data Services Center, the U.S. Army Management Systems Support Agency, and the National Command Systems Support Center are all TOP SECRET facilities.

## Retention and disposal:

Files constitute a historical data base and are permanent.

## System manager(s) and address:

Director, Department of Defense Manpower Research and Data Analysis Center (MARDAC), 550 Camino El Estero, Monterey, CA 93940.

## Notification procedure:

Information may be obtained from: Director, Department of Defense Manpower Research and Data Analysis Center, 550 Camino El Estero, Monterey, CA 93940. Telephone: Area Code 408/646-2951.

## Record access procedures:

Requests from individuals should be addressed to Director, MARDAC, 550 Camino El Estero, Monterey, CA 93940.

Written requests for information should contain the full name, Social Security Account Number, date of birth, and current address and telephone number of the individual.

For personal visits, the individual should be able to provide some acceptable identification such as driver's license, or military or other ID card.

## Contesting record procedures:

The agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSTEM MANAGER.

## Record source categories:

The Military Services, the Veterans Administration, the Office of Education of the Department of HEW, from individuals via survey questionnaires, the Department of Labor.

Systems exempted from certain provisions of the act:

NONE.

## DELAWARE RIVER BASIN COMMISSION

## APPROVAL OF WATER PROJECTS

## Public Hearing

Notice is hereby given that the Delaware River Basin Commission will hold a public hearing on Wednesday, January 25, 1978, commencing at 2 p.m. The hearing will be held in the Hall of Flags East of the Sheraton Hotel, 17th and Kennedy Blvd. in Philadelphia. The subject of the hearing will be application for approval of the following projects as amendments to the Comprehensive Plan pursuant to Article 11 of the Compact and/or as project approvals pursuant to section 3.8 of the Compact.

1. *Flying Hills Water Co. (D-77-94 CP)*. A well water supply project to provide water service at the Flying Hills housing development in Cumru Township, Berks County, Pa. A new well No. 2 and a modified well No. 1 will be utilized to provide a combined yield of approximately 500,000 gallons per day.

2. *Magnolia Sewerage Authority (D-77-106 CP)*. An interim package sewage treatment plant to augment existing treatment facilities in the Borough of Magnolia, Camden County, N.J. The project will be abandoned when Camden County regional sewerage service becomes available. The package plant will provide for removal of 90 percent of BOD, from a sewage flow of 250,000 gallons per day. Treated effluent will discharge to Otter Brook, a tributary of North Branch Big Timber Creek.

3. *Cranberry Hill Corp. (D-77-109 CP)*. A well water supply project to serve the Penn Estates residential development in Stroud Township, Monroe County, Pa. The new facility is expected to yield 120,000 gallons per day.

4. *Poconos Sewer Co. (D-78-1 CP)*. Expansion of the company's sewage

treatment plant serving the Hideout development in Salem Township, Wayne County, Pa. The expanded facility will provide treatment to a sewage flow of 50,000 gallons per day and removal of 95 percent of BOD, and suspended solids. Treated effluent will discharge to Ariel Creek, a tributary of the Lackawaxen River.

5. *MRB Enterprises (D-77-13)*. A sewage treatment project at Springton Manor and the proposed residential development known as Kimberwick in West Brandywine Township, Chester County, Pa. Approximately 58,000 gallons per day will pass through a sewage treatment plant providing removal of 85 percent of BOD, and suspended solids. Ultimate disposal will be to a nine-acre spray irrigation site.

6. *GAF Corp. (D-77-32)*. An existing cooling water discharge at the company's plant in Whitehall Township, Lehigh County, Pa. Approximately 90 percent of BOD, and 99 percent of suspended solids will be removed from a wastewater flow of 1.9 gallons per day. Treated effluent will discharge to the Lehigh River.

7. *Synthane Taylor Corp. (D-77-62)*. A cooling water discharge at the company's facilities in Upper Providence Township, Montgomery County, Pa. Non-contact cooling water will be retained in an earthen lagoon prior to discharge in order to reduce water temperatures. Approximately 80,000 gallons per day of cooling water will discharge to Crossmans Run, a tributary of the Schuylkill River.

Documents relating to the above-listed projects may be examined at the Commission's offices. Persons wishing to testify at this hearing are requested to notify the Secretary prior to the date of the hearing.

W. BRINTON WHITALL,  
Secretary, 609-883-9500.

JANUARY 13, 1978.

## DEPARTMENT OF ENERGY

## CASES FILED WITH THE OFFICE OF ADMINISTRATIVE REVIEW

Week of December 16 Through December 23, 1977

Notice is hereby given that during the week of December 16 through December 23, 1977, the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Office of Administrative Review of the Economic Regulatory Administration of the Department of Energy.

Under the DOE's procedural regulations, 10 CFR, Part 205, any person who will be aggrieved by the DOE action sought in such cases may file

with the DOE written comments on the application within 10 days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be the

date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Administrative Review, Economic Regulatory Ad-

ministration, Department of Energy, Washington, D.C. 20461.

Dated: January 11, 1978.

MELVIN GOLDSTEIN,  
Director, Office of  
Administrative Review.

## APPENDIX—List of cases received by the Office of Administrative Review

Week of December 16 through December 23, 1977

Date	Name and location of applicant	Case No.	Type of submission
Sept. 20, 1977	Oahu Gas Service, Inc., Honolulu, Hawaii. If granted: The National Office of Administrative Review has elected to consider a Sept. 13, 1977 Appeal which Oahu Gas Service filed from an Order issued to it on Aug. 7, 1977 by the Federal Energy Administration region IX Office.	FEA-1469	Appeal of the Aug. 7, 1977 Decision and Order issued by FEA region IX.
Dec. 19, 1977	Copano Co., Houston, Tex. If granted: The Dec. 1, 1977 remedial order issued by DOE region VI would be rescinded and Copano Co. would not be required to refund overcharges made in its sales of crude oil to Exxon Corp.	DRA-0078 and DRS-0078	Appeal of the Dec. 1, 1977 remedial order issued by DOE region VI. Stay request.
Do	Harvey W. Jones & Associates, Natchez, Miss. If granted: The Nov. 29, 1977 remedial order issued by DOE region IV would be rescinded and Harvey W. Jones & Associates would not be required to refund overcharges made in its sales of crude oil.	DRA-0081 and DRS-0081	Appeal of the Nov. 29, 1977 remedial order issued by DOE region IV. Stay request.
Do	Petroleum Management, Inc., Laurel, Miss. If granted: Petroleum Management, Inc. would receive a stay of the remedial order issued by DOE region IV pending a final decision on the appeal of that order which it intends to file.	DRS-0080	Stay of the remedial order issued by DOE region IV.
Do	Spatt Oil Co., Inc. If granted: The Remedial Order issued by DOE region III would be rescinded and Spatt Oil Co. would not be required to refund overcharges in its sales of motor gasoline.	DRA-0079	Appeal of the remedial order issued by DOE region III.
Do	Suburban Propane Gas Corp., Morristown, N.J. If granted: Suburban Propane Gas Corp. would be permitted to calculate its cost of product in inventory prior to May 1, 1976 on the basis of separate inventories.	DEE-0412	Exception to separate inventories amendment (sec. 212.93).
Do	Sun Co., Inc., Dallas, Tex. If granted: Sun Co., Inc. would receive an extension of the exception relief granted in the June 30 and Dec. 12, 1977 decisions and orders to permit it to increase its prices to reflect non-product cost increases in excess of \$0.005 per gallon for natural gas liquid products produced at the Markham and Mayfield plants.	DXE-0415 and DXE-0416	Extension of the relief granted in <i>Sun Co., Inc.</i> , Case No. FKE-4819 (decided December 12, 1977) (unreported decision). <i>Sun Co., Inc.</i> , Case No. FKE-4299 (decided June 30, 1977) (unreported decision).
Do	Superior Oil Co., Thomas, Okla. If granted: Superior Oil Co. would be permitted to increase its prices to reflect nonproduct cost increases in excess of \$0.005 per gallon for natural gas liquid products produced at the Thomas Plant.	DEE-0414	Price exception (sec. 212.165).
Do	Tosco Corp., Washington, D.C. If granted: Tosco Corp would receive a stay of its entitlement purchase obligations pending a final determination on an application for exception which the firm has filed.	DEX-0022	Supplemental order.
Do	Union Oil Co. of California, Los Angeles, Calif. If granted: Union Oil Co. of California would receive an extension of the relief granted in the FEA's Aug. 16, 1977 decision and order to permit the firm to sell the crude oil produced from the Point Conception Field at upper tier ceiling prices.	DXE-0413	Extension of the relief granted in <i>Union Oil Co. of California</i> , 6 FEA par. 83,057 (Aug. 16, 1977).
Do	Vickers Dividend Oil Co., Denver, Colo. If granted: The Nov. 8, 1977 assignment order issued by DOE region VIII would be rescinded and Vickers Dividend Oil Co. would be assigned a supplier of motor gasoline for its retail station located at 2485 S. University Boulevard, Denver, Colo.	DEA-0082	Appeal of the assignment order issued by DOE region VIII.
Dec. 20, 1977	Leonard E. Belcher, Inc., Alexandria, Va. If granted: An FEA decision and order issued to Belcher on Sept. 16, 1977 would be modified.	DMR-0011	Request for modification of decision and order in <i>Leonard E. Belcher, Inc.</i> , 6 FEA par. 87,033 (Sept. 16, 1977).
Do	Midland Cooperatives, Inc., Washington, D.C. If granted: The DOE's Nov. 21, 1977 decision and order would be modified to adjust Midland Cooperative's entitlements obligations using the standards established in <i>Southland Oil Co.</i> , 1 DOE — (Oct. 14, 1977).	DMR-0010	Request for modification of <i>Midland Cooperatives, Inc.</i> , 1 DOE — (Nov. 21, 1977).
Do	Newhall Refining Co., Inc., Dallas, Tex. If granted: Newhall Refining Co., Inc. would receive an extension of the relief granted in the FEA's Aug. 12, 1977 decision and order which would relieve the firm of its obligations to purchase entitlements.	DXE-0418	Extension of the relief granted in <i>Newhall Refining Co.</i> , 6 FEA par. 83,055 (Aug. 12, 1977).
Do	O'Brien Oil Co., Middletown, N.Y. If granted: O'Brien Oil Co. would not be required to file certain reports with the Department of Energy.	DEE-0417	Exception to the reporting requirements.
Do	Texas American Oil Corp., Midland, Tex. If granted: A Nov. 14, 1977 remedial order issued by DOE region VI would be rescinded and Texas American Oil Corp. would not be required to refund overcharges made in sales of crude oil produced from the Todd Federal 26 Lease.	DRA-0083	Appeal of the Nov. 14, 1977 remedial order issued by DOE.

NOTICES

APPENDIX—List of cases received by the Office of Administrative Review—Continued

Date	Name and location of applicant	Case No.	Type of submission
Dec. 21, 1977	Alice-Sidney Oil Co., El Dorado, Ark. If granted: The Dec. 9, 1977 remedial order issued by DOE region VI would be rescinded and Alice-Sidney Oil Co. would not be required to refund overcharges made in its sales of crude oil.	DRA-0084	Appeal of the Dec. 9, 1977 remedial order issued by DOE region VI.
Do	Como Gas Sales Co., Inc., Duluth, Minn. If granted: The Nov. 4, 1977 remedial order issued by DOE region V would be rescinded and Como Gas Sales Co., Inc. would not be required to refund overcharges made in its sales of propane.	DRA-0085	Appeal of the Nov. 4, 1977 remedial order issued by DOE region V.
Do	Monsanto Co., Houston, Tex. If granted: Monsanto Co. would be permitted to sell the crude oil produced from the Hendrick "A" and Hendrick "C" well located in Winkler County, Tex., at upper tier ceiling prices.	DEE-0422 and DEE-0423	Price exception (212.73).
Do	Sun Co., Inc., Dallas, Tex. If granted: Sun Co., Inc. would receive an extension of the exception relief granted in the FEA's June 30 and Aug. 3, 1977 decisions and orders which would permit it to increase its prices to reflect nonproduct cost increases in excess of \$0.005 per gallon for natural gas liquid products produced at the Carney, Concho, and Jameson plants.	DXE-0419 through DXE-0421	Extension of the relief granted in Sun Co. Case Nos. FKE-4376 and FKE-4377 (decided June 30, 1977) (unreported decision). Sun Co., FEE-4372 (decided Aug. 3, 1977) (unreported decision).
Do	Wallace & Wallace Fuel Oil Co., Inc., and Wallace & Wallace Chemical & Oil Corp., Washington, D.C. If granted: Wallace & Wallace Fuel Oil Co., and Wallace & Wallace Chemical & Oil Corp. would receive a stay of the regulations pending a determination on their application for exception.	DES-0388	Stay request.
Do	Whitco, Inc., Dallas, Tex. If granted: The provisions of 10 CFR 211.25 (the supplier substitution rule) would be stayed with respect to Sun Co.'s base period supply obligations to Whitco, Inc. pending a final determination of Whitco's exception application.	DEX-0023	Supplemental order.
Dec. 22, 1977	Sheldon Leon Bierman, Washington, D.C. If granted: The DOE's Dec. 4, 1977 information request denial would be rescinded and Sheldon Leon Bierman would receive access to the names and project titles of the contractors, employees, and consultants listed in the bid he requested.	DFA-0086	Appeal of DOE's information request denial dated Dec. 4, 1977.
Do	Continental Oil Co., Houston, Tex. If granted: Conoco requests that exceptions proceedings involving the sequence of recovery of increased nonproduct costs during the period Jan. 1, 1975 through Jan. 31, 1978 be stayed pending the issuance of a final order in <i>Phillips Petroleum Co., et al. v. Department of Energy et al.</i> No. 77-90 (D. Del., filed Mar. 14, 1977). In the alternative, Conoco requests that the DOE consolidate all exceptions applications involving issues of gross inequity for resolution in a single proceeding. Conoco further requests a modification of the decision and order issued in <i>Consumer's Union of the United States, Inc., v. FEA</i> par. 87,014 (Mar. 17, 1977), in which the FEA (now DOE) provided for its participation in the exceptions proceedings involving Conoco and Exxon Co., U.S.A.	DMR-0012 and DES-0021	Stay request.
Do	Davison Oil Co., Inc., Mobile, Ala. If granted: The DOE's Nov. 7, 1977 information request denial would be rescinded and the Davison Oil Co., Inc. would receive access to additional documents in connection with Davison and Pride Terminals.	DFA-0087	Appeal of the DOE's information request denial dated Nov. 7, 1977.
Do	Laketon Asphalt Refining, Inc., Evansville, Ind. If granted: Laketon Asphalt Refining, Inc. would receive an extension of the entitlements relief granted in the DOE's Aug. 12, 1977 decision and order.	DXE-0424	Extension of exception relief granted in <i>Laketon Asphalt Refining, Inc.</i> , 6 FEA par. 83,054 (Aug. 12, 1977).
Do	Lamar Oil Co., Lamar, Colo. If granted: The Lamar Oil Co. would be granted a stay of the provisions of an Oct. 5, 1977 special report order issued to the firm by DOE region VIII.	DES-0018	Request for stay.
Do	Natrogas, Inc., Minneapolis, Minn. If granted: The DOE's Dec. 6, 1977 decision and order would be modified.	DMR-0013	Request for modification of decision and order in <i>Natrogas, Inc.</i> 1 DOE par. — (Dec. 6, 1977).
Do	Petroleum Management, Inc., Laurel, Miss. If granted: The DOE's Dec. 2, 1977 remedial order would be rescinded and Petroleum Management, Inc. would not be required to refund overcharges made on sales of crude oil.	DRA-0080	Appeal of DOE's remedial order issued Dec. 2, 1977.
Do	Romaco, Inc., Montgomery Ala. If granted: Romaco, Inc. would be reimbursed for costs incurred in attending a Dec. 19, 1977 conference convened by the Office of Administrative Review concerning the Sept. 2, 1977 special report order issued to the firm.	DSG-0009	Request for special redress.
Do	Saber Refining Co., Houston, Tex. If granted: The Saber Refining Co. would be granted an exception to the provisions of sec. 211.67 to permit it to receive entitlements sales revenues to offset reduced production which it will experience during the construction of additional refining capacity.	DEE-0425	Exception to entitlement program (sec. 211.67(e)(1)(2)).
Do	Texaco, Inc., Houston, Tex. If granted: Texaco, Inc. would be permitted to increase its prices to reflect nonproduct cost increases in excess of \$0.005 per gallon for natural gas liquid products produced at the Crossett, Floodway, Kittle, Levelland, Mabec, Maurice, Montebello, and Putnam-Oswego plants.	DEE-0426 through DEE-0433	Price exception (sec. 212.165).
Do	United Independent Oil Co., Washington, D.C. If granted: The United Independent Oil Co. would be granted a stay of the provisions of sec. 211.67(b) of the entitlement program pending a final determination of its application for exception.	DES-0019	Request for stay.

NOTICES

APPENDIX—List of cases received by the Office of Administrative Review—Continued

Date	Name and location of applicant	Case No.	Type of submission
Dec. 22, 1977	W. E. Shrider Co., Columbus, Ohio. If granted: The W. E. Shrider Co. would be granted a stay of the provisions of DOE's Oct. 21, 1977 decision and order pending a final determination of the firm's appeal of that order which it intends to file in the U.S. District Court for the Southern District of Ohio, Eastern Division.	DES-0020	Do.
Do	Young Refining Corp., Douglasville, Ga. If granted: The Young Refining Corp. would be granted a temporary stay of the provisions of sec. 211.67 (the entitlements program) pending a final decision on an application for exception.	DST-0002	Request for temporary stay.

## FEDERAL ELECTION COMMISSION

[Notice 1978-1]

### MULTICANDIDATE POLITICAL COMMITTEES

#### Index

The Federal Election Commission today publishes a comprehensive Index of "Multicandidate Political Committees," which is defined by 2 U.S.C. 441a(a)(4) of the Federal Election Campaign Act of 1971, as amended.

"... registered under Section 433 for a period not less than 6 months, which has received contributions from more than 50 persons, and, except for any State political party organization, has made contributions to 5 or more candidates for Federal office."

This Multicandidate Committee Index contains two sections—Party-Related Committees and Non-Party Related Committees—and has been derived from a review of the reports and statements filed with the Commission, the General Accounting Office, the Clerk of the House, and the Secretary of the Senate since April 7, 1972. Please note that all committees which had met the qualifications for Multicandidate Committee status prior to January 1, 1975, are determined to have been qualified as of January 1, 1975, the effective date of the 1974 amendments to the Federal Election Campaign Act.

In addition, 11 CFR § 100.4 states affiliated committee to include "all committees established, financed and maintained or controlled by the same ... including any parent, subsidiary, branch, division, department, or local unit thereof, are affiliated." There-

## NOTICES

fore, committees have been included in this Index specifically identifying their connected or affiliated organization(s) as reported by each committee.

The Commission is publishing this notice of an Index as prescribed by 2 U.S.C. § 438(a)(6), requiring periodic publication in the Federal Register of an Index of Multicandidate Committees, including the date of registration of such committees and the committees' dates of qualification under 2 U.S.C. § 441a(a)(4). Updates to this Index will be published on a monthly basis during the 1978 election year. Copies of this Index are available upon written request from the Commission's Office of Public Records for \$1 per copy or by calling toll free 800-424-9530.

Any person who believes that a committee not included on this Index has, in fact, met the qualifications for multicandidate status, should so advise the Commission in writing and provide documentation as appropriate, so that the Commission can correct or update its records.

## FEDERAL RESERVE SYSTEM

### BANKS AND BANK HOLDING COMPANIES

#### Joint Policy Concerning Improper Payments

AGENCIES: Board of Governors of the Federal Reserve System, Comptroller of the Currency, and Federal Deposit Insurance Corporation.

ACTION: Policy statement.

SUMMARY: The policy statement reflects the judgment of the bank supervisory agencies that certain questionable payment practices as have been disclosed by a few banks and bank holding companies, may, in addition to their possible illegality, constitute unsafe and unsound banking practices. Notification is given that the agencies intend both to take appropriate steps under the law to deal with such practices where found to exist, and to adopt additional examination procedures to evaluate the effectiveness of individual institutions' controls for insuring that improper and illegal payments are not undertaken.

EFFECTIVE DATE: January 13, 1978.

FOR FURTHER INFORMATION CONTACT:

C. Keefe Hurley, Jr., Senior Attorney, Legal Division, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, 202-452-3269; Robert B. Serino, Director of Enforcement and Compliance, Comptroller of the Currency, 202-447-1847; or Gerald F. Lamberti, Projects and Planning Specialist, Federal Deposit Insurance Corporation, 202-389-4483.

SUPPLEMENTARY INFORMATION: This policy statement is issued pursuant to the Financial Institutions Supervisory Act, 12 U.S.C. 1818, and supervisory authority of the Board of Governors of the Federal Reserve System with respect to member banks, bank holding companies, Edge and Agreement Corporations; the Comptroller of the Currency with respect to national banks; and the Federal Deposit Insurance Corporation with respect to nonmember insured banks.

#### STATEMENT OF POLICY CONCERNING IMPROPER AND ILLEGAL PAYMENTS BY BANKS AND BANK HOLDING COMPANIES

In recent years a number of U.S. corporations have disclosed that they have engaged in certain questionable practices with respect to foreign and domestic payments. These practices have included improper and illegal political contributions, bribes, kickbacks, etc., and have taken place, in some instances, with the knowledge, consent and even the participation of senior corporate management. Many of the foreign payments, legal under U.S. law

at the time they were made, would, as a result of the recently enacted Foreign Corrupt Practices Act of 1977, Pub. L. No. 95-213, 91 Stat. 1494 (1977), be illegal if made today. In addition, under Federal and State laws, certain political contributions and other types of payments are illegal.

Recently, a few banks and bank holding companies have disclosed that, over a period of time, they also have engaged in questionable payment practices either directly or through subsidiary banks. Of the questionable payment practices disclosed to date, most have consisted of domestic political contributions. While information presently available does not indicate any significant involvement by banks or bank holding companies in any of the other types of questionable payment practices disclosed by other United States corporations, the agencies recognize that the circumstances in which questionable domestic and foreign payments were made by corporations may influence banks and bank holding companies. Thus, although the available information indicates that the number of banking firms that have engaged in improper payment practices is small, federal bank supervisory agencies are concerned that such practices, if permitted to continue, would come to reflect adversely on the banking system as a whole. It is the judgment of the agencies that the practice of making political contributions and certain other payments, in addition to their possible illegality, may constitute an unsafe or unsound banking practice.

The devices used by banking organizations to make political payments have included compensatory bonuses to employees, improperly designated expense accounts, excessive fees or salaries paid to officers, and low or zero interest rate loans. In addition, political contributions have been made by providing equipment and services without charge to candidates for office. Many of these devices involved clear departures from acceptable accounting practices. Consequent lack of corporate accountability raises serious questions regarding the effectiveness of an institution's own internal audit procedures. For banking organizations to engage in illegal or unethical activities and to attempt to conceal those activities by the use of irregular accounting practices could only serve to undermine public confidence in the banking system.

All banks and bank holding companies subject to the Federal supervisory authority of the Board, the Comptroller of the Currency and the FDIC are expected not only to conduct their operations in accordance with applicable laws but to refrain from making payments that may constitute unsafe and unsound banking practices. Where vio-

lations of law or unsafe and unsound banking practices result from improper payments, the appropriate agency will exercise its full legal authority, including cease and desist proceedings and referral to the appropriate law enforcement agency for further action, to ensure that such practices are terminated. In appropriate circumstances, the fact that such payments have been made may reflect so adversely on an organization's management as to be a relevant factor in connection with the consideration of applications submitted by the organization.

In the near future, the agencies expect to institute additional procedures in conjunction with their general and specialized examinations of banks and bank holding companies designed to evaluate individual institutions' controls for ensuring adherence to provisions of law prohibiting unsafe or unsound practices, including the making of contributions to or corporate expenditures on behalf of candidates for elective office, officials of foreign or domestic governments, and others. Banks and bank holding companies are urged to review their own corporate policies and accounting practices to ensure that the funds of the institution are applied for proper purposes only.

Dated: January 9, 1978.

THEODORE E. ALLISON,  
Secretary of the Board.

Dated: January 11, 1978.

JOHN G. HEIMANN,  
Comptroller of the Currency.

Dated: January 13, 1978.

GEORGE A. LEMAISTRE,  
Chairman, FDIC.

Office of Human Development Services  
[Program Announcement No. 13629-781]

## **REHABILITATION SHORT-TERM TRAINING PROJECTS OF NATIONAL SCOPE**

### **Announcement of Grants for Fiscal Year 1978**

The Rehabilitation Services Administration, Office of Human Development Services, announces that applications will be accepted until March 10, 1978, from State vocational rehabilitation agencies and other public or non-profit agencies and organizations, including institutions of higher education, wishing to compete for grants in fiscal year 1978 under the rehabilitation short-term training grant program of national scope authorized by section 203 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 762).

All applications received by the closing date which are complete and conform to the requirements of this program announcement will be accepted for review and considered for an award.

Regulations governing rehabilitation short-term training were published in the FEDERAL REGISTER in Subpart A and Subpart E, Part 1362 of Chapter XIII of Title 45 of the Code of Federal Regulations (45 CFR Part 1362) on November 25, 1975.

Scope of this program announcement: This program announcement identifies the general program objectives and funding priorities of the rehabilitation short-term training program of national scope for fiscal year 1978.

A. *Program purpose.* The purpose of short-term training grants in vocational rehabilitation is to improve the professional practice skills of vocational rehabilitation workers serving the physically and mentally disabled, especially those who are severely disabled.

B. *Eligible applicants.* Applications may be submitted by State vocational rehabilitation agencies and other public or nonprofit agencies or organizations, including institutions of higher education.

C. *Available funds.* An estimated \$1 million is available for rehabilitation

short-term training grants of national scope in fiscal year 1978. All projects to be funded are new and Federal funding is limited to projects which will extend no more than 12 months. It is expected that approximately 35 grants will be awarded and the amount of the grants will range from \$15,000 to \$100,000.

D. *Program objectives and priorities for funding.* 1. Rehabilitation short-term training of national scope includes proposals for the support of a workshop, institute, seminar, or other short-term training course conducted in order:

(a) To demonstrate curriculum, or other training modules appropriate for general use in rehabilitation agencies throughout the country and related to: (1) The provision of vocational rehabilitation services to specific groups of handicapped individuals, or (2) the improved performance of vocational rehabilitation practitioners in carrying out specific functional responsibilities.

(b) To provide special training of national significance at a single training setting, or, on a coordinated basis, at a number of different training settings.

There are no geographical restrictions for trainees participating in short-term training courses of national scope.

2. In fiscal year 1978 the following program priorities, not in order of priority, have been identified for short-term training of national scope:

(a) Eligibility determination in vocational rehabilitation;

(b) Alternative methods for accelerating the delivery of client services;

(c) Rehabilitation of clients with muscular dystrophy and other chronic degenerative disabilities;

(d) Rehabilitation of individuals with hemophilia;

(e) Rehabilitation of individuals with arthritis, rheumatism, and metabolic diseases;

(f) Training the trainers of personnel providing physical and mental restoration services;

(g) Expanded use of self-employment as a vocational goal for the severely handicapped;

(h) Job placement of the severely disabled;

(i) The use of job forecasting, job development, job engineering, and job analysis in vocational rehabilitation;

(j) Vocational rehabilitation, special education, vocational education interagency cooperation in the rehabilitation of severely handicapped youth;

(k) Rehabilitation of the aging disabled;

(l) The provision of supportive vocational rehabilitation services;

(m) The provision of post-employment services in vocational rehabilitation;

(n) The role of self-help organizations in the vocational rehabilitation of the severely handicapped;

(o) Legal rights of the handicapped;

(p) Independent living rehabilitation;

(q) The use of similar benefit resources by State vocational rehabilitation agencies;

(r) Forward planning in vocational rehabilitation: Performance projection and goal setting;

## **NOTICES**

(s) The use of case review survey forms as an element in quality assurance in vocational rehabilitation;

(t) The recruitment, training, and employment of handicapped individuals and persons from minority groups in vocational rehabilitation;

(u) Rehabilitation counseling and bilingual severely disabled persons;

(v) State vocational rehabilitation agency rehabilitation facility specialist training;

(w) State vocational rehabilitation agency staff development specialist training;

(x) State vocational rehabilitation agency medical consultant training;

(y) New directions in the delivery of vocational rehabilitation services;

(z) The use of telecommunications in rehabilitation training; and

(aa) The management of rehabilitation program resources.

Applications in areas other than those listed above will also be reviewed and evaluated but will be considered only to the extent that funds are available after applications submitted under priority training areas have been considered.

E. *Grantee share of project.* It is expected that grantees will provide some of the total project costs. Grantee contributions must be project-related and allowable under the Department's applicable cost principles in 45 CFR Part 74, Subpart Q. Institutions of higher learning and other nonprofit institutions may consider actual indirect costs in excess of the 8 percent allowed on training grants as part of the grantee contribution to the project.

F. *The application process.*—A-95 clearinghouse notice. Applicants for rehabilitation short-term training grants are not routinely required to notify the State and areawide A-95 clearinghouse of the intent to apply for Federal assistance. States are authorized to extend the project notification and review procedures circular A-95 to include training grants. If the applicant's State has extended the coverage of circular A-95 to this program, however, the clearinghouse procedures must be observed.

State vocational rehabilitation agency review. Applicants are advised to consult with their State vocational rehabilitation agency in the initial stages of application development. Applications submitted under this program are not expected to have State vocational rehabilitation agency approval before submission to the Rehabilitation Services Administration. State vocational rehabilitation agencies are requested to review and comment on the application after formal submission.

Application submission. In order to be considered for a rehabilitation short-term training grant, all applications must be submitted on standard forms provided for this purpose by the Commissioner, Rehabilitation Services Administration, in accordance with guidelines established by the Commis-

sioner. The application shall be executed by an individual authorized to act for the applicant agency and to assume the obligations imposed by the terms and conditions of the grant award, including the regulations for the rehabilitation short-term training program.

One signed original and two copies of the grant application, including all attachments, are required. The original and the two copies of all completed applications should be submitted to the Division of Grants and Contract Management, Office of Human Development Services, Room 1427, Mary E. Switzer Building, 330 C Street SW., Washington, D.C. 20201.

Application consideration. The Commissioner, Rehabilitation Services Administration, determines the final action to be taken with respect to each grant application.

All grant applications are subjected to a competitive review and evaluation conducted by qualified non-Federal consultants experienced in the training of rehabilitation personnel. The Commissioner takes into account the competitive review by the non-Federal consultants, and the comments of the State vocational rehabilitation agencies, the HEW regional offices and the Rehabilitation Services Administration central office program office, in reaching a decision on each competing application.

After the Commission has reached a decision either to disapprove or not to fund a competing grant application, the unsuccessful applicant is notified of that decision.

Grant awards. The Commissioner makes grant awards consistent with the purposes of the Act, the regulations, and program announcements within the limits of Federal funds available. The official grant award document is the notice of grant awarded which sets forth in writing the amount of funds granted, the purpose of the grant, the terms and conditions of the grant award, the effective date of the award, the budget period for which support is given and the total grantee participation. The initial award also specifies the project period for which support is contemplated.

G. *Criteria for review and evaluation of grant application.* All applications received in response to this announcement will receive a technical review by qualified experts. Applications are evaluated against the following criteria:

1. The relevance of the content of the proposed short-term training to the administratively established objectives of the public rehabilitation program, the objectives of the Rehabilitation Act of 1973, as amended, the objectives of the rehabilitation short-term training program of national scope, and the fiscal year 1978 prior-

ities for rehabilitation short-term training;

2. The qualifications of the instructional staff and the facilities and resources of the applicant organization;

3. The reasonableness of the budget in relation to the proposed project and the anticipated results;

4. The methodology to be employed in implementing the project and its feasibility for the achievement of the established educational objectives;

5. The financial and other resources of the applicant for accomplishing the objectives of the training project and how much the applicant plans to contribute to the total cost of the project;

6. The criteria to be used for the selection of individuals to whom traineeships are to be awarded;

7. Evidence that the training institution is architecturally accessible to the handicapped;

8. Where appropriate, evidence of current accreditation by the designated accrediting agency;

9. The extent to which application instructions are adequately addressed, including both the narrative statement and budget justification;

10. The extent to which the proposal provides for an evaluation methodology, including the manner in which such methodology will be employed to measure the achievement of the objectives of the training program;

11. The evidence of a working relationship with an appropriate State vocational rehabilitation agency and other agencies providing vocational rehabilitation services; and

12. The extent to which the proposal is of a national scope.

H. *Closing date for receipt of applications.* Applications are due by close of business on March 10, 1978. Applications will be judged on time if:

1. The application was sent by registered or certified mail not later than March 10, 1978, as evidenced by the U.S. Postal Service postmark or the original receipt from the U.S. Postal Service;

2. The application is sent by mail and received on or before the closing date in the Department of Health, Education, and Welfare, the Office of Human Development Services or the Rehabilitation Services Administration mailrooms as evidenced by the time date stamp or other documentary evidence of receipt maintained by such mailroom, or

3. The application is hand delivered to the office designated to receive the application in the application instructions. Hand delivered applications will be accepted no later than close of business March 10, 1978, in any case.

I. *Late applications.* Applications received after the closing date are not accepted and applicants are notified accordingly.

J. *Availability of application forms.* Application kits which contain the

prescribed application forms and information for the applicant, including the fiscal year 1978 general plan for rehabilitation short-term training of national scope, may be obtained by writing to the Division of Grants and Contract Management, Office of Human Development Services, Room 1427, 330 C Street SW., Washington, D.C. 20201.

##### Office of Education TITLE I AUDIT APPEAL

###### Acceptance of Application for Appeal

Notice is hereby given that, pursuant to the Notice establishing the Title I Audit Hearing Board (37 FR 23002, October 27, 1972, as amended by 41 FR 28568, July 12, 1976), an application for an appeal before the Board has been received from the State of Utah and it has met the jurisdictional requirements of section 5 of the Notice establishing the Board.

The appeal involves the allowability of specified expenditures of funds under Title I of the Elementary and Secondary Education Act during the period of September 1, 1967, through August 31, 1972, by the State Education Agency and the local school districts of San Juan, Daggett, Murray, Weber, and Iron.

The total amount involved in this audit appeal is \$112,244. The Audit Control Number is 60001-08, and the Docket Number is 15-(30)-76.

The Prehearing Conference will be held at 10:30 a.m. on February 22, 1978, in Room 3000, 400 Maryland Avenue SW., Washington, D.C.

Section 7 (c) of the Notice setting up the Board provides:

(c) Intervention by third parties. (1) Interested third parties may, upon application to the Board Chairman, intervene in proceedings conducted under this notice. Such application must indicate to the satisfaction of the Board Chairman that the intervenor has information relative to the specific issues raised by the final audit determination and that such information will be useful to the Hearing Panel in resolving those issues.

(2) When third parties are given leave to intervene in accordance with subparagraph (1) above, such parties shall be afforded the same opportunities as other parties to present written materials, to participate in informal conferences, to call witnesses, to cross-examine other witnesses, and to be represented by counsel.

All such applications for intervention will be considered if received on or before February 1, 1978.

##### VOCATIONAL EDUCATION GRADUATE LEADERSHIP DEVELOPMENT PROGRAM

###### Extension of Closing Date for Individual Applications

Notice is given that the February 6, 1978 deadline for filing applications under the Vocational Education Graduate Leadership Development Program, as authorized by Part B, Subpart 2, Section 172 of the Education Amendments of 1976, Pub. L. 94-482, (20 U.S.C. 2402), published in the FEDERAL REGISTER on October 12, 1977, is extended to March 7, 1978.

(a) *Application forms and information.* Application forms and program information packages will be sent to all previous requests received and to requests resulting from this notice.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information packages.

(b) *Applications sent by mail.* Applications sent by mail should be addressed to: U.S. Office of Education, Application Control Center, Attention: 13.503B, Washington, D.C. 20202. Applications must be received by the Application Control Center on or before the closing date.

An application sent by mail will be considered to have been received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail (a) not later than March 2, 1978 for individual applications as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or,

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of these mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.

(c) *Hand-delivered applications.* An application to be hand-delivered must be taken to the U.S. Office of Education, Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand-delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m., Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

(d) *Program information.* Applications are being accepted from individuals to receive Leadership Development Awards for the program. Potential applicants should be aware of the amount of funds available for the program for Fiscal Year 1978. The combined institutional support and individual stipend and dependency allowances will be approximately \$11,344 per individual for a total of approximately \$1,650,000. It is estimated that there will be approximately 145 individual awards and 24 institutional awards. All grants will be new awards. Leadership Development Awards will be made for a period not to exceed 36 months, and payments to individuals after the first year of the award period (in case of awards made for a period exceeding twelve months) are subject to the continued availability of Federal funds under section 172 of the Act.

(e) *List of approved institutions.* A list of institutions whose leadership development programs have been approved is published in this issue of the FEDERAL REGISTER. Each individual applying for an award must indicate the first, second, and third choice of institution on the individual application form. A copy of the approved list will be included in the application package.

(f) *Individual applications.* Applications from individuals for Leadership Development Awards must be received in the U.S. Office of Education, Application Control Center in Washington, D.C. on or before March 7, 1978. The applicant must submit one copy of the application to the State board for vocational education for the State in which the applicant is a resident, on or before February 20, 1978. The State board for vocational education must review each application, collect advice as to the merits of each application, and forward all applications and statements of advice to the Vocational Education Graduate Leadership Development Program (see address in paragraph (g) below), postmarked on or before March 4, 1978.

(g) *For further information and forms contact.* Vocational Education Graduate Leadership Development Program, Vocational Education Personnel Development, Division of Research and Demonstration, Bureau of Occupational and Adult Education, U.S. Office of Education, 400 Maryland Avenue SW., (Room 5652, ROB No. 3), Washington, D.C. 20202.

(h) *Applicable regulations.* The regulations applicable to this program are the Office of Education General Provisions Regulations (45 CFR Parts 100, 100a) and the Vocational Education Graduate Leadership Development Program Regulation (45 CFR Part 105, Sections 301-312) which is included in the application package.

(20 U.S.C. 2402; 45 CFR Part 105, Sections 301-312.)

##### Office of the Secretary

#### OFFICE OF THE ASSISTANT SECRETARY FOR PLANNING AND EVALUATION

##### Statement of Organization, Functions, and Delegations of Authority

This Notice amends Part A of the statement of organization, functions, and delegations of authority of the Department of Health, Education, and Welfare, Office of the Secretary, by modifying certain portions of Chapter AE, "Office of the Assistant Secretary for Planning and Evaluation" (41 FR 47275, dated 10/18/76). The Office of the Deputy Under Secretary for Intergovernmental Affairs of the Office of the Secretary and the Office of State and Community Affairs of the Office of Human Development Services now perform most of the functions of the Division of Intergovernmental Systems of the Office of the Assistant Secretary for Planning and Evaluation. This Notice abolishes the Division of Intergovernmental Systems and transfers the residual functions to a Division of Intergovernmental Policy in the Office of Program Systems, as follows:

##### Section AE.10 Organization:

Delete D1 "Division of Intergovernmental Systems".

Add A4 "Division of Intergovernmental Policy".

##### Section AE.20 Functions:

Delete D1.

Add 4 The Division of Intergovernmental Policy is responsible for conducting and coordinating the necessary policy planning, program analysis, research and evaluation on the implications of alternative departmental policies on State and local governments. Functions include: conduct of policy planning and analysis when such policies have particular impact on State and local governments, review of proposed policies for such impact to ensure that views of other

governments are included in the consideration of proposed policies, and oversight of evaluation and research in areas having intergovernmental significance.

Dated: January 9, 1978.

CHARLES MILLER,  
Assistant Secretary for  
Management and Budget.  
(FR Doc. 78-1553 Filed 1-18-78; 8:45 am)

#### [4110-12]

##### OFFICE OF FACILITIES ENGINEERING

##### Statement of Organization, Functions, and Delegations of Authority

This notice amends Part A of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare by changes to Chapter AMF "Office of Facilities Engineering" (42 FR 36308, July 14, 1977). The changes result in the abolition of two offices, the consolidation of the functions with other offices, and the change in title of two other offices. Also, the statement deletes reference to the personal property program because that program is now the responsibility of the General Services Administration. Otherwise, the revised statement is a consolidation and clarification of the statement previously published. The new Chapter AMF replaces the present chapter and reads as follows:

Sec. AMF.00 Mission. The mission of the Office of Facilities Engineering (OFE), to be performed for and in cooperation with the Principal Operating Components (POCs) of the Department and the Office of the Secretary staff, is to provide architectural/engineering policy recommendations, direction and services for both direct Federal and Federally assisted construction activity; to manage and integrated facilities engineering system for all DHEW owned or occupied real property; to accomplish maximum utilization of Federal surplus real property; and to manage the Department's safety and occupational health program.

Sec. AMF.10 Organization. The Office of Facilities Engineering (OFE) reports through the Deputy Assistant Secretary for Management (DAS/M), to the Assistant Secretary for Management and Budget (ASMB), and consists of:

- Office of the Director.
- Office of Planning and Special Projects.
- Office of Technical Services.
- Office of Real Property.
- Office of Safety and Occupational Health.

##### Sec. AMF.20 Functions:

A. The immediate staff of the Director and the Executive Staff constitute

the Office of the Director and perform the following functions:

1. Administers, directs, and supervises all OFE activities and personnel resources.

2. Serves as the principal technical advisor to ASMB and other Departments for HEW facilities master planning, energy conservation related to facilities, and compliance activities associated with facilities accessibility and architectural barriers.

3. Reviews POC architectural/engineering manpower and budgetary requirements and makes recommendations to ASMB for evaluation under the Department's staff resource management program.

4. Provides Departmentwide functional management in the functional areas of facilities engineering and safety.

5. Recommends HEW-OFE policies and regulations affecting both HEW-wide and internal OFE/Regional Operations for Facilities Engineering and Construction (ROFEC) operations, and coordinates with POCs, staff offices, and other Federal Departments and agencies. Develops and supervises the OFE/ROFEC policy, procedure, and publication management system, as well as correspondence control system.

6. Serves as the principal OFE contact with the Office of General Counsel and the Office of the Assistant Secretary for Legislation for legal and legislative matters, and serves as principal contact with the Office of Personnel and Training on OFE labor-management activities.

7. Designs, implements, and operates internal engineering management information and performance evaluation systems in coordination with OFE Office heads. Advises on changes in procedures and priorities in all matters relating to internal OFE and HEW-wide facility engineering operations. Designs, implements, and operates the OFE manpower management, program control, and work planning systems.

8. Provides ADP operations and technical ADP support to system users within HEW and GSA for the Facilities Management Information System (FMIS), Facilities Engineering Automated Management System (FEAMS), and Safety Management Information System.

B. Office of Planning and Special Projects. The Office of Planning and Special Projects performs the following functions:

1. Manages and coordinates those designated activities that cut across functional responsibilities within the Office of Facilities Engineering. Such designations are Special Projects. Examples are: (a) the development and recommendation of energy conservation actions for HEW owned facilities

and HEW facility related programs; (b) the development and recommendation of HEW policy and procedures for providing physical accessibility in the area of architectural barriers; and (c) the development and maintenance of a working procedure and process for HEW facilities master planning.

2. Provides technical facilities planning consulting services as appropriate.

C. Office of Technical Services. The Office of Technical Services performs the following functions:

1. Manages and provides technical assistance for design, construction, and contracting matters for Direct Federal special-purpose facilities funded and operated by HEW.

2. Provides technical assistance in coordination with the POC staffs for design and construction of Federally assisted facilities funded by HEW and other Departments in the form of grants and loans, or other special types of funding assistance.

3. Recommends policy and develops procedures and technical guidance, and coordinates the publication of regulations for HEW-wide use in contracting, design and construction of HEW-owned and operated facilities, and for Federally assisted construction activity.

4. Provides technical and management evaluation of architectural/engineering services rendered by the POCs, staff offices, Regional Offices, and field installation staffs.

5. Provides technical services and assistance to Department staff offices and POCs for planning, cost estimating, design, and construction of the Department's facility projects.

6. Manages and coordinates OFE/Regional conferences, ROFEC work plans, work projections and validation, and technical inspections of ROFECs.

7. Directs and coordinates the HEW nationwide natural disaster engineering activity to service the Office of Education and the Department of Housing and Urban Development/Federal Disaster Assistance Administration Programs.

8. Develops the requirements for an information system to monitor construction project schedules, costs, trends, and progress, and annual manpower resources need.

9. Manages the Department construction wage rate (Davis-Bacon) and Labor Standards Program, and coordinates with the Department of Labor in resolving construction contractor violations.

D. Office of Real Property. The Office of Real Property performs the following functions:

1. Formulates policies and develops procedures and standards for the acquisition, management, maintenance, operation and disposal of all real property or space owned and/or occupied by HEW.

2. Formulates policies and develops procedures for the management and operation of the Federal Real Property Assistance Program in accordance with sections 203 (k) and (n) of the Federal Property and Administrative Services Act of 1949, as amended.

3. Formulates policy relating to the facility planning and budget process. Manages the formulation of the annual Department budget estimates for GSA assigned space and reimbursable costs (SLUC).

4. Acts as the HEW principal contact with other Federal agencies, including GSA, and agencies of the Department on real property policy and procedure matters.

5. Provides technical assistance and consultation to POCs, PROs, and ROFECs, in matters relating to the acquisition, management, operations, and disposal of real property.

6. Manages both the HEW-owned real property and GSA-assigned property inventory systems, and collects, analyzes, and publishes management data related to real property functions for all HEW components.

7. Represents the Department on the President's Economic Adjustment Committee which functions to offset adverse economic impacts caused by military installation closures or curtailment.

8. Prescribes necessary reporting requirements and manages a Departmentwide information system to identify emerging problems, monitors Departmentwide activity, and provides a basis for management appraisal and evaluation of performance in all areas of real property.

9. Reviews and evaluates the continuing effectiveness of policy and practice, in headquarters and in the field, relating to real property and initiates changes or corrective actions where appropriate.

E. Office of Safety and Occupational Health. The Office of Safety and Occupational Health performs the following functions:

1. Recommends Departmentwide Safety and Occupational Health Program policy and operating concepts, including procedures for conducting training, work place inspections, abatement plans, and employee complaints and appeals.

2. Develops the requirements for and manages a Departmentwide Safety Management Information System to analyze causal factors of accidents, injuries, and illnesses to determine problem areas and requirements for program emphasis.

3. Evaluates the Safety and Occupational Health Program effectiveness at all organization levels, to determine program effectiveness and conformance with Department policy.

4. Promulgates safety and occupational health standards for use within

the Department, including the review of standards and procedures recommended by other HEW offices.

5. Provides technical guidance and consultation to OS, POCs, Agencies, and Regions in the area of safety engineering, industrial hygiene, and fire safety.

6. Provides assistance to OS staff offices, POCs, and Regions in identifying resource requirements for safety and occupational health.

7. Represents HEW with other Federal agencies and private organizations in support of the Department's safety and occupational health program.

Sec. AMF.30 Delegations of Authority. The Office of Facilities Engineering has been delegated:

1. The authorities vested in the Secretary by law (or delegated to the Secretary from the Administrator of General Services) relating to real property management, engineering, and facility planning and construction, including Federal contracting officer responsibilities required in support of these authorities (exclusive of the financial management authority retained by the Assistant Secretary for Management and Budget).

2. All authorities with respect to direct Federal special purpose construction activities.

3. The authority to recommend such general policies and procedures as may be necessary to govern the functions, personnel, funds, and property in order to establish and administer the Office of Facilities Engineering.

4. Authority vested in the Secretary by section 203 (k) and (n) of the Federal Property and Administrative Services Act of 1949, as amended, as well as authority to redelegate.

5. Authority to recommend and interpret policies, procedures, and regulations for implementing the Uniform Relocation Act, Pub. L. 91-646.

6. Authority as the Department's Safety and Occupational Health Official pursuant to Executive Order 11807.

Dated: January 12, 1978.

CHARLES MILLER,  
Acting Assistant Secretary  
for Management and Budget.

##### Notice of Segregation of Lands

Notice is hereby given that pursuant to the act of May 24, 1928 (49 U.S.C. 211-214), the State of Alaska, Department of Transportation and Public Facilities, has applied for an airport lease for the following land:

That certain real property located in protracted sections 19 and 20, T. 48 S., R. 76 W., Seward Meridian, Alaska, lying and being within the Aleutian Islands Recording District, Third Judicial District, State of Alaska, more particularly described as follows:

Commencing at meander corner No. 1 of U.S. Survey No. 662, Alaska, proceed north a distance of 134.34 feet along a portion of line 1-2 of said survey to the true point of beginning from which U.S.L.M. No. 498 bears S. 11°32'32" E. a distance of 2,034.66 feet; thence N. 84°40'11" W. a distance of 359.16 feet to a point; thence N. 5°19'49" E. a distance of 910 feet, more or less, to a point on the meanders of Bristol Bay; thence northeasterly along the meanders of Bristol Bay a distance of 330 feet, more or less, to a point; thence S. 84°40'11" E. a distance of 4,750 feet, more or less, to a point on the meanders of Nelson Lagoon; thence southwesterly along the meanders of Nelson Lagoon a distance of 2,295 feet, more or less, to a point on line 2-3 of U.S. Survey No. 663, Alaska, from which meander corner No. 3 of said survey bears south a distance of 75 feet more or less; thence north along a portion of line 3-2 of U.S. Survey No. 663 a distance of 755 feet, more or less, to a point common to corner No. 2 of said survey; thence west along line 2-1 of U.S. Survey No. 663 a distance of 660 feet to a point common to meander corner No. 1 of said survey; thence south along a portion of line 1-4 of U.S. Survey No. 663 a distance of 640 feet, more or less, to a point from which meander corner No. 4 of said survey bears south a distance of 111 feet, more or less; thence westerly along the meanders of Nelson Lagoon a distance of 1,470 feet, more or less, to a point on line 3-4 of U.S. Survey No. 662 from which meander corner No. 4 of said survey bears south a distance of 53 feet, more or less; thence north along a portion of line 4-3 of U.S. Survey No. 662 a distance of 445 feet, more or less, to a point which is common to meander corner No. 3 of said survey; thence S. 89°45'39" W. along line 3-2 of U.S. Survey No. 662 a distance of 792.00 feet to a point which is common to meander corner No. 2 of said survey; thence south along a portion of line 2-1 of U.S. Survey No. 662 a distance of 369.90 feet to the true point of beginning.

This tract having an area of 88.1 acres, more or less.

(The parcel described above is designated as Tract I on the State of Alaska, Department of Transportation and Public Facilities (formerly the Department of Public Works, Division of Aviation) Nelson Lagoon Airport Property Plan dated May 3, 1977, unrevised.)

The purpose of this notice is to inform the public that the filing of this application segregates the described land from all other forms of use or disposal under the public land laws. The lands herein described have been segregated since the date the application was filed on September 2, 1977.

Interested persons desiring to express their views should promptly send their name and address to the State Director, Alaska State Office,

Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501.

CURTIS V. McVEE,  
State Director.

Notice of Termination of Proposed Withdrawal and Reservation of Lands

Notices of applications of the U.S. Fish and Wildlife Service, Department of the Interior, Serial Nos. AR 016724 and AR 018777 for withdrawal and reservation of lands for the purpose of enlarging the boundary of the Havasu Lake National Wildlife Refuge were published as FR Doc. No. 57-7083 on page 6974 of the issue for August 29, 1957, and FR Doc. 59-1380 on pages 1218 and 1219 of the issue for February 17, 1959, respectively. The subject applications have previously been cancelled in part; the applicant agency has now cancelled the applications in their entirety. Therefore, pursuant to the regulations contained in 43 CFR, Subpart 2091.25, upon publication of this notice in the FEDERAL REGISTER, the lands described below will be relieved of the segregative effect of the above-mentioned applications. However, portions of the lands herein involved are included in application A 10342, filed by the Fish and Wildlife Service, for withdrawal and reservation of the lands for use as the Bill Williams Unit of the Havasu National Wildlife Refuge and will remain segregated as provided in the notice of proposed withdrawal and reservation of lands published in the FEDERAL REGISTER, Document No. 77-36432, pages 64150 and 64151, of the issue for December 22, 1977.

The lands involved in this notice of termination are:

COAL LEASE OFFERING BY SEALED BID

U.S. Department of the Interior, Bureau of Land Management, Colorado State Office, 700 Colorado State Bank Building, 1600 Broadway, Denver, Colo. 80202. Notice is hereby given that certain coal resources in the lands hereinafter described in Delta County, Colo., will be offered for lease by sealed bid of \$25 per acre minimum to the qualified bidder of the highest cash amount per acre or fraction thereof. The sale will be held at 2 p.m., February 22, 1978 in Room 708, Colorado State Bank Building, Denver, Colo. At that time all sealed bids from qualified bidders will be read, and the highest bid will be announced. The successful high bidder will be notified in writing after the State Director has made his determination. No bids received after 2 p.m., February 22, 1978 will be considered. Sealed bids may not be modified or withdrawn unless such modification or withdrawal is received before the date, time and place set for opening of such bids. The Department of the Interior reserves the right to reject any and all bids and also the right to offer the lease to the next highest qualified bidder if the successful bidder fails to obtain the lease for any reason. If any bid is rejected, the deposit made on the day of the sale will be returned. Payment of the bonus shall be on a deferred basis, one-fifth due on the day of the sale, and the balance in equal annual installments on the first four anniversary dates of the lease. The successful bidder is obligated to pay for the newspaper publications of this notice.

Qualified bidder. In addition to the qualification requirements in 43 CFR

3502, a qualified bidder, if other than the applicant who has previously met the short term criteria, will have to meet short-term criteria pursuant to the decision in *Natural Resources Defense Council, et al. v. Royston C. Hughes, et al.*, Civil Action No. 75-1749, in the U.S. District Court for the District of Columbia, dated September 27, 1977. The documents presented to support meeting the short-term criteria must be enclosed with the sealed bid.

Warning to bidders. In accordance with the Federal Coal Leasing Amendments Act of 1975, it will be necessary that the high bidder, as a prospective lessee, disclose the nature and extent of his coal holdings to the Department of Justice before issuance of the lease. A lease will not be issued to a bidder who holds or controls more than 46,080 acres of Federal coal leases in any one State or 100,000 acres of Federal coal leases in the United States.

Coal offered. The coal resources to be offered is limited to 1,966,667 tons to be mined from the "D" seam, as described in U.S. Bureau of Mines Technical Paper No. 721, 1949, in the following described tract located approximately three miles northwest of the town of Paonia, Delta County, Colo.

T. 13 S., R. 92 W., 6th P.M.  
Sec. 24, Lots 1, 2, 3, 4, 5, 6, 8, 9.

Containing 310.51

The successful bidder's coal sales contract or agreement in effect on September 27, 1977, will be attached to the lease as appendix I or the successful bidder's annual production from the existing mine as reflected on September 27, 1977, will be used to establish the rate of production from the leased lands. The coal to be mined will be mined only on the advance in accordance with an approved mining plan.

Rental and royalty. A lease issued as a result of this offering will provide for payment of an annual rental of \$3 per acre or fraction thereof and a royalty payable to the United States at the rate of 12½ percent for coal mined by strip-mining methods, and 8 percent for coal mined by underground methods of the value of coal as defined in 30 CFR 211.63.

Public comments. The public is invited to submit written comments and any recommendations concerning the fair market value of the "D" seam coal to the Bureau of Land Management for its consideration of fair market value and for U.S. Geological Survey consideration of resource economic evaluation. Public comments will be sent to the State Director, (CO-946A), Bureau of Land Management, Room 700, Colorado State Bank Bldg., 1600 Broadway, Denver, Colo. 80202, to arrive no later than February 13, 1978.

Notice of availability. All case file documents and written comments sub-

mitted by the public on fair market value or royalty rates except those portions identified as proprietary by the commenter and meeting exemptions stated in the Freedom of Information Act will be available for public inspection at the Bureau of Land Management, Room 701, Colorado State Bank Building, 1600 Broadway, Denver, Colo. Copies of the detailed statement and proposed coal lease are available in Room 700.

JACK G. LORTS,  
Chief,

Division of Technical Services.

MONTANA

Notice of Proposed Withdrawal and  
Reservation of Lands

JANUARY 11, 1978.

The Forest Service, U.S. Department of Agriculture, has filed application, M 39381, for the withdrawal of national forest lands described below from mineral location and entry under the mining laws but not from leasing under the mineral leasing laws, subject to existing valid claims.

The applicant desires the land for a trailhead facility access into the Selway-Bitterroot Wilderness.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, P.O. Box 30157, Billings, Mont. 59107.

The Department's regulations (43 CFR 2351.4(c)) provides that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for the purpose other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

## NOTICES

The determination of the Secretary on the application will be published in the **FEDERAL REGISTER**. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time, which will be announced.

The lands involved in the application are:

PRINCIPAL MERIDIAN, MONTANA.

LOLO NATIONAL FOREST

South Fork Lolo Creek

T. 11 N., R. 21 W.,  
Sec. 6, Lots 3, 4, and 5.

The area described contains 113.37 acres within Missoula County, Mont.

ROLAND F. LEE  
Chief, Branch of Lands and  
Minerals Operations.

## [4310-84]

NORTH ATLANTIC OUTER CONTINENTAL  
SHELF OIL AND GAS LEASE SALE NO. 42

## Clarification of Notice

Attention is invited to the Notice of Sale for oil and gas lease sale No. 42, published in 42 FR 65285 on December 30, 1977. In an effort to clarify the intent of the Department with regard to the terms under which the "higher royalty tracts" specified in Paragraph 5 are offered, it is hereby stated that it has been the policy and intent of this Department to take no more than 16% percent of the production saved, removed or sold from the leased area as royalty in amount except as provided in Section 6(c) of the lease form. This policy and intent will also apply to the "higher royalty tracts" specified in Paragraph 5 which are offered on a cash bonus bidding basis.

GEORGE TURCOTT,  
Acting Director,  
Bureau of Land Management.

JANUARY 11, 1978.

Approved: January 13, 1978.

JAMES A. JOSEPH,  
Acting Secretary  
of the Interior.

[CA 568]

## SIX RIVERS NATIONAL FOREST

Notice of Opportunity for Public Hearing and  
Republication of Notice of Proposed With-  
drawal

JANUARY 11, 1978.

The Forest Service, U.S. Department of Agriculture, filed application Serial No. CA 568 on July 31, 1973, for a withdrawal in relation to the following described lands:

HUMBOLDT MERIDIAN, CALIFORNIA

SIX RIVERS NATIONAL FOREST

T.3 S., R. 7 E.,  
Sec. 16, Lot 2.

The area described aggregates 40.16 acres in Trinity County, Calif.

The applicant desires that the land be reserved for and made a part of Six Rivers National Forest.

A notice of the proposed withdrawal was published in the **FEDERAL REGISTER** on September 13, 1973, FR Doc. 73-19461, pages 25457 and 25458.

Pursuant to section 204(h) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2754, notice is hereby given that an opportunity for a public hearing is afforded in connection with the pending withdrawal application. All interested persons who desire to be heard on the proposed withdrawal must file a written request for a hearing to the undersigned, Bureau of Land Management, E-2841, Federal Office Building, 2800 Cottage Way, Sacramento, Calif. 95825, on or before February 21, 1978. All previous comments submitted in connection with the withdrawal application have been included in the record and will be considered in making a final determination on the application.

In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the pending withdrawal application may be filed with the undersigned authorized officer of the Bureau of Land Management on or before February 21, 1978.

The above-described lands are temporarily segregated from the operation of the public land laws. The proposed action, when consummated, will transfer jurisdiction to national forest status, subject to all laws and regulations applicable to national forest lands. Current administrative jurisdiction over the segregated lands will not be affected by the temporary segregation. In accordance with section 204(g) of the Federal Land Policy and Man-

## NOTICES

agement Act of 1976, the segregative effect of the pending withdrawal application will terminate on October 20, 1991, unless sooner terminated by action of the Secretary of the Interior.

All communications in connection with the pending withdrawal application should be addressed to the undersigned.

JOAN B. RUSSELL,  
Chief, Lands Section, Branch of  
Lands and Minerals Operations.

## National Park Service

## MIDWEST REGIONAL ADVISORY COMMISSION

## Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Midwest Regional Advisory Committee will be held February 6 and 7, 1978, at the Granada Royale Homotel, 7270 Cedar Street, Omaha, Nebr. The February 6 meeting will begin at 9 a.m. (CST) and the February 7 meeting at 8:30 a.m.

The committee was established pursuant to Pub. L. 91-393 to provide for free exchange of ideas between the National Park Service and the public, and to facilitate the solicitation of advice or other counsel from the public on programs and problems pertinent to the Midwest Region of the National Park Service.

The members of the Advisory Committee are as follows:

Honorable Robert W. Berry III (Chairman)  
Mr. Wallace C. Dayton  
Mr. John J. Franke, Jr.  
Mr. Fred D. Hartley  
Mr. William L. Lieber  
Mr. Erwin D. Sias

The committee will hear reports related to regional operations and programs for the coming year.

The meeting is open to the public, and any member of the public may file with the committee a written statement concerning matters to be discussed.

Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact Bill W. Dean, Executive Assistant to the Regional Director, Midwest Regional office at Area Code 402, 221-3481. Minutes of the meeting will be available for public inspection four weeks after the meeting at the office of the Midwest Region, 1709 Jackson Street, Omaha, Nebr.

## NOTICES

## [4310-10]

Office of Hearings and Appeals  
[Docket No. M 78-34]

## BETHLEHEM MINES CORP

Petition for Modification of Application of  
Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861(c) (1970), Bethlehem Mines Corp., Room 1871 Martin Tower, Bethlehem, Pa. 17016, has filed a petition to modify the application of 30 CFR 75.305, weekly examinations for hazardous conditions, to its Mine No. 116, located in Butler County, Pa. The substance of Petitioner's statement is as follows:

1. Petitioner seeks modification of that portion of 30 CFR 75.305 which requires a certified person to make a weekly examination of the 7th Left secondary intake airway. Massive roof falls in certain locations in the area in question, as well as other adverse conditions, prevent persons from traveling the area in question in accordance with 30 CFR 75.305, and constitute a diminution of safety to persons exposed to such conditions while carrying out the requirements of 30 CFR 75.305.

2. Petitioner proposed an alternate method for achieving the result contemplated by 30 CFR 75.305, and such alternate method will at all times guarantee no less than the same protection afforded by such standard. This alternate method also eliminates the hazards encountered in traveling the area in question.

(a) Two monitoring stations have been established on the intake airway in question; these monitoring stations are used to conduct examinations for hazardous conditions and for the purpose of complying with mandatory health and safety standards. Air and methane readings are also made at these monitoring stations to assure the air flow is in its proper course and usual volume. One monitoring station is located in close proximity to the Montcoal Fan, and the second monitoring station is located in the area where the 7th Left secondary intake airway joins 2nd West Main.

(b) Methane and air readings are made by a certified, competent person on a weekly basis, if not more frequently.

(c) Methane will not be permitted to accumulate in the air course beyond legal limits.

(d) Both access to and the measuring stations themselves will continue to be kept in safe condition.

(e) A date board is located at each measuring station, and air quantity and methane readings are taken and recorded, including the initials of the certified person taking such readings, as well as the date and time the readings are taken. Duplicate records are also kept on the surface and are available to all interested persons. A comparison is made with readings obtained the preceding day, and the direction of the air flow is posted at the stations.

(f) All employees required to perform measurements at the underground stations will be certified for such work on the basis of state examinations.

## REQUEST FOR HEARING OR COMMENTS

Persons interested in this petition may request a hearing on the petition or furnish comments on or before February 21, 1978. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Va. 22203. Copies of the petition are available for inspection at that address.

DAVID TORBETT,  
Director, Office of  
Hearings and Appeals.  
[FR Doc. 78-1446 Filed 1-18-78; 8:45 am]

## [4310-10]

[Docket No. 78-29]

## CONSOLIDATION COAL CO.

Petition for Modification of Application of  
Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861(c) (1970), Consolidation Coal Co., Box 537, Moundsville, W. Va. 26041, has filed a petition to modify the application of 30 CFR 75.305, weekly examinations for hazardous conditions, to its Ireland Mine, located in Marshall County, W. Va.

The substance of Petitioner's statement is as follows:

1. A notice of violation of section 75.305 was issued December 6, 1977 (1-JAM), stating: the weekly examinations for hazardous conditions by a certified person in at least one entry of the return air course from No. 2 fan to 2 South and 2 North to 1 North were not being conducted due to roof falls and unsupported top making travel inaccessible. We wish to request modification of section 75.305 (section 303(f)) of the Federal Coal Mine Health and Safety Act; for the return air course from No. 2 fan to 2 South

and 2 North to 1 North at the Ireland Mine.

2. To provide no less than the same measure of protection as required by section 301(c), the following alternate method is proposed: Additional daily checkpoint stations (12 and 13) shall be established at locations shown on the accompanying map.<sup>1</sup> Established check stations (7-8-9-10-11) are currently being examined daily subject to prior approval of Petition for Modification (Docket No. M 75-27) Ireland Mine (May 14, 1975).

## REQUEST FOR HEARING OR COMMENTS

Persons interested in this petition may request a hearing on the petition or furnish comments on or before February 21, 1978. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Va. 22203. Copies of the petition are available for inspection at that address.

DAVID TORBETT,  
Director, Office of  
Hearings and Appeals.

[FR Doc. 78-1447 Filed 1-18-78; 8:45 am]

## [4310-10]

[Docket No. 78-26]

## FIRE CREEK COAL CO.

Petition for Modification of Application of  
Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861(c) (1970), Fire Creek Coal Co., c/o Mr. Krushenski, P.O. Box 3447, Oak Ridge, Tenn. 37840, has filed a petition to modify the application of 30 CFR 77.1605(k), berms and guardrails, to its Fire Creek No. 1 Mine, located in Anderson County, Tenn.

The substance of Petitioner's statement is as follows:

1. Providing berms or guardrails as required by 77.1605(k) for this mine will create more safety hazards than presently exist at the mine in its present condition.

2. The mine operator will, upon investigation by the Department of the Interior, show that an alternative method of achieving the specific result of Safety Standard 77.1605(k) does exist, which will in fact at all times guarantee no less than the same measure of protection afforded the miners of Fire Creek Coal Co., No. 1 Mine, by such safety standard.

<sup>1</sup>The enclosed map is available for inspection at the address listed in the last paragraph of this petition.

3. Present safety rules in effect at the mine have prevented accidents from occurring at the mine and the measures already taken will be of more benefit than the implementation of Mandatory Safety Standard 77.1605(k).

#### REQUEST FOR HEARING OR COMMENTS

Persons interested in this petition may request a hearing on the petition or furnish comments on or before February 21, 1978. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Va. 22203. Copies of the petition are available for inspection at that address.

DAVID TORBETT,  
Director, Office of  
Hearings and Appeals.

JANUARY 10, 1978.

[FR Doc. 78-1448 Filed 1-18-78; 8:45 am]

#### [4310-10]

[Docket No. M 78-28]

#### INDUSTRIAL GENERATING CO.

#### Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861(c) (1970), Industrial Generating Co., P.O. Box 1111, Rockdale, Tex. 76567, has filed a petition to modify the application of 30 CFR 77.1710(e), protective clothing; requirements, to its Sandow Strip Surface Mine, located in Milam County, Tex.

The substance of Petitioner's statement is as follows:

1. The contractors acquire their forces through the various building trade union halls. These crafts could be employed for a period of months, weeks or even for a day. The craft unions do not require their members to wear hard-toed shoes when they are assigned to a job, nor is such requirement an industry-wide practice in field construction. The contractors generally experience a fairly high turnover rate by the employees due to the men leaving the project for another construction site or being laid off for lack of productivity or poor workmanship. It would almost be impossible for a contractor to purchase steel-toed shoes for his employees because of the length of some jobs and the large turnover in the construction field.

2. The steel erection ironworkers generally wear a soft leather shoe or boot with crepe soles and essentially no heels. This type of shoe or boot enables the ironworker to feel any slight imbalance and provides flexibility in

the toe portion of the shoe so that he can "coon" or climb the steelwork. A steel-toed shoe cannot be bent in this manner for climbing steel and does not provide the ability for the ironworker to feel the steelwork. Therefore, a steel-toed shoe would be more hazardous than a soft-toed shoe.

3. When the MESA rules and regulations were promulgated the primary intent was for the safety and health of underground and surface miners and no consideration was given to contractors' employees because OSHA ruled the construction field. The miners are usually permanent employees and work for the operators permanently until retirement and the health and safety rules can be adhered to and enforced more consistently as opposed to construction workers because they are primarily temporary employees at the mine site.

4. Since the beginning of the expansion program through November 3, 1977, the contractors have worked a total of 56,842 manhours and they have not had one accident involving a foot injury to any employee because of a soft-toed shoe. This fine record speaks for itself.

5. Therefore, Petitioner submits a petition to modify the mandatory standard. In its opinion, if section 77.1710(e) is waived for the contractors' employees, it will not result in a diminution of safety to the miners.

#### REQUEST FOR HEARING OR COMMENTS

Persons interested in this petition may request a hearing on the petition or furnish comments on or before February 21, 1978. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Va. 22203. Copies of the petition are available for inspection at that address.

DAVID TORBETT,  
Director, Office of  
Hearings and Appeals.

JANUARY 10, 1978.

[FR Doc. 78-1449 Filed 1-18-78; 8:45 am]

#### [4310-10]

[Docket No. M 78-32]

#### NATIONAL MINES CORP.

#### Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861(c) (1970), National Mines Corp., P.O. Box 12022, Lexington, Ky. 40579, has filed a petition to modify the application of 30 CFR 77.803, fall safe ground check circuits, etc., to its National Pocahontas Mine, located in Wyoming County, W. Va.

The substance of Petitioner's statement is as follows:

1. The Welch Road fan substation is served by a 13,200 volt aboveground open wire pole mounted distribution line. The source transformers are located in a substation adjacent to the National Pocahontas office. The source transformers are resistively grounded through a 25 ampere continuous rated resistor. This particular circuit extends approximately 1½ miles above ground where three substations are served. This line is protected by an approved high voltage air circuit breaker with ground fault, phase overload, and short circuit, and ground monitoring protection. The fall safe ground check circuit extends to within approximately 100 yards of each of the three substation loads. The Petitioner respectfully submits that a modification of 30 CFR 77.803 be granted on this circuit from the point where the existing fall safe ground check circuit now ends to the three substations served by this particular circuit. In support of its petition, the Petitioner states that the existing installation now exceeds the safety standards set forth in 77.803.

2. All outdoor type transformers served by the Welch Road 13.2 kv distribution line are designed in such a manner that high voltage components are located at a minimum of 8 feet above ground level.

3. All substations are enclosed by a substantially constructed fence 6 feet in height.

4. An approved insulated high voltage hot stick shall be kept at all times at the Welch Road fan substation.

5. Two separate grounding conductors are installed from the point where the monitor circuit now terminates to each of the served substations.

6. Separate ground fields shall be established for each substation served by the Welch Road 13.2 kv distribution line. This ground field will be in addition to the double ground conductors from the source ground. All metal frames in each substation shall be grounded not only to the source ground conductor but also to the ground fields established at each substation. These ground fields will be located a minimum of 25 feet from existing lightning arrester grounds. Since the fan installation is required to be examined by a certified individual on a daily basis, a procedure will be established whereby this examination includes a visual inspection of the grounding conductors from the point where the monitor circuit ends to each of the served substations.

7. Safe electrical work procedures shall be posted at the entrance of each of the high voltage substations served by the Welch Road 13.2 kv distribution line. These procedures are as follows:

(a) No work shall be performed on any high voltage power circuit until that circuit has been deenergized by a qualified person.

(b) All phases of the affected high voltage circuit where work shall be performed shall be connected to an approved grounding medium with the use of ground clamps.

(c) All high voltage circuits which are deenergized shall be tagged and locked out. The tag and lock shall only be removed by a qualified person who actually installed them or by other such persons qualified and authorized to do so by the qualified individual who originally tagged the circuit out.

(d) Proper equipment shall be used for all repairs on deenergized circuits. Energized high voltage disconnect switches will not be deenergized while under load and such switches will be opened by a qualified individual wearing approved high voltage gloves.

(e) Disconnect or cut out switches used on high voltage surface lines shall be operated only with approved high voltage insulated hot sticks or other devices which are adequately insulated and maintained to protect the operator from the voltage to which he is exposed.

(f) The superintendent of maintenance or another qualified individual shall coordinate and supervise all trouble shooting of the surface high voltage system. All individuals working on the high voltage system shall receive their instructions and directions through this coordinator.

8. The Petitioner avers that neither the installation of a large capacity isolation transformer nor the installation of a series grounding system to the substations served by the 13.2 kv distribution line would make the electrical system safer than the system as proposed above. A major isolation transformer substation that is not needed for the operation of the power system would add other potential areas for accident or injury. The use of a series grounding medium could possibly permit nuisance tripping of the protective high voltage circuit breakers resulting in deenergization of the Welch Road fan which provides ventilation for the gaseous Poca No. 3 seam.

#### REQUEST FOR HEARING OR COMMENTS

Persons interested in this petition may request a hearing on the petition or furnish comments on or before February 21, 1978. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Va.

22203. Copies of the petition are available for inspection at that address.

#### [4310-10]

[Docket No. 78-33]

#### THE YOUGHIOGHENY & OHIO COAL CO.

#### Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861(c) (1970), the Youghiogheny & Ohio Coal Co., 4614 Prospect Avenue, Cleveland, Ohio 44103, has filed a petition to modify the application of 30 CFR 75.1403-5(g), belt conveyors, to its Cadiz Portal, located in Harrison County, Ohio.

The substance of Petitioner's statement is as follows:

1. In the design and layout of three belt conveyors of the Cadiz Portal coal handling system, less than 24 inches of clearance has been provided along the side of the conveyor opposite the clearance side.

2. These conveyors are: (a) surge slope conveyor; (b) slope conveyor; (c) stock pile reclaim conveyor.

3. Petitioner's drawing No. 1001 Sheet 4 at a ¼"=1' scale and sketch showing the reclaim tunnel at ¼"=1' scale show the location of the conveyor structure within the opening in which it is installed.

4. In each case, the clearance side of the conveyor is on the right side looking toward the tail of the conveyor. In all cases, the conveyor center line was moved to the left to provide additional clearance on the right or clearance side for better access for men and material, on this side.

5. Access to the left sides of these conveyors at the drive and tail ends, where at walkway level, will be screened off and permanent signs "NO CLEARANCE" will be attached to the screens.

6. During repair or maintenance work on these conveyors, the controls will be "locked out" to prevent accidental start up during such repairs or maintenance.

#### REQUEST FOR HEARING OR COMMENTS

Persons interested in this petition may request a hearing on the petition or furnish comments on or before February 21, 1978.

<sup>1</sup>The enclosed drawing is available for inspection at the address listed in the last paragraph of this notice.

#### [7020-02]

#### INTERNATIONAL TRADE COMMISSION

[332-92]

#### TELEPHONE TERMINAL AND SWITCHING EQUIPMENT INDUSTRY

#### Notice of a Baseline Study

AGENCY: United States International Trade Commission.

ACTION: Institution of an investigation under the authority of section 332(b) of the Tariff Act of 1930, as amended (19 U.S.C. 1332(b)), to study factors affecting competition in the telephone equipment industry.

EFFECTIVE DATE: January 13, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Charles Daiker or Mr. Harold Graves, Machinery and Equipment Division, United States International Trade Commission, 701 E Street N.W., Washington, D.C. 20436, telephone 202-523-0353, 523-0360, respectively.

SUPPLEMENTARY INFORMATION: In response to a request by the Subcommittee on Trade of the Committee on Ways and Means, U.S. House of Representatives, received on December 14, 1977, the U.S. International Trade Commission instituted the above-captioned investigation.

The investigation will be concerned with, among other things, the effects of imports, government regulations, and technology on domestic production and employment. In order to study the effects of these factors, the study will focus on certain key products to be selected from telephone terminal and switching equipment which transmits, distributes, receives and/or displays information.

The imported articles which are within the scope of this investigation are provided for in parts 4 and 5 of schedule 6 of the Tariff Schedules of the United States.

At the completion of its investigation, the Commission shall transmit a report to the Committee on Ways and Means of the U.S. House of Representatives. The report will be released to

the public (consistent with the treatment afforded confidential business information).

**Written submissions.** Interested persons may submit written statements. Any commercial or financial information which a submitter desires the Commission to treat as confidential must be submitted on separate sheets of paper, each clearly marked "Confidential business information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the commission's rules of practice and procedure (19 CFR 201.6). All written submissions, except for confidential business information, will be made available for inspection by interested persons. To be assured of consideration by the commission, written statements should be submitted at the earliest practicable date, but not later than May 15, 1978. All such submissions should be addressed to the Secretary, United States International Trade Commission, 701 E Street NW., Washington, D.C. 20436.

**Request for a hearing.** Any interested person who believes that a public hearing should be held in connection with this investigation may, on or before February 21, 1978, submit a request in writing to the Secretary of the Commission that a public hearing be held. All such requests should state the reasons for such request and be addressed to the Secretary, United States International Trade Commission, 701 E Street NW., Washington, D.C. 20436.

By order of the commission.

Issued: January 18, 1978.

KENNETH R. MASON,  
Secretary.

#### DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

#### VOLUNTARY DEPARTURE FOR OUT-OF-STATUS NONIMMIGRANT H-1 NURSES

Many foreign nurse graduates were admitted to the United States temporarily under section 101(a)(15)(H)(i) of the Immigration and Nationality Act in order to practice their profession in this country. Their eligibility for such nonimmigrant status was based upon their being able to secure temporary licenses to work as professional nurses immediately following their entry and pending their taking and passing State examinations for permanent licensure. It has been brought to the attention of the INS that many of these nonimmigrant nurses have failed these examinations for permanent licensure, have had their temporary licenses

expire, and have therefore been unable to continue working in a professional capacity. Since they were admitted to the United States solely to work as professional nurses and lacking a license are now not permitted to do so, they no longer have lawful nonimmigrant status and routinely should depart from the United States. Representations have been made, however, that these out-of-status nurses could pass the licensure examinations if given the time and opportunity to do so, free of the anxiety of being imminently required to depart. There is nothing in law or regulation that would require the grant of any further time in the United States to any of these nurses. In view of the representations made, however, and the imminence of an officially acceptable test to screen visa applicants abroad and before they are permitted to come to the United States (which it is expected will largely eliminate the problem), it has been decided to give this group of out-of-status nurses until December 31, 1978, to apply for extended voluntary departure (deferred departure) under the conditions stated below. This notice is effective immediately.

#### CONDITIONS FOR THE GRANT OF VOLUNTARY DEPARTURE TO THE OUT-OF-STATUS H-1 NURSE, IN ORDER TO AFFORD FURTHER OPPORTUNITY TO TAKE AND PASS THE LICENSURE EXAMINATION AS PROFESSIONAL NURSE

1. The nurse's lack of lawful immigration status shall be due only to the nurse's having changed employer without authority, or to his/her having failed the licensure examination. Refusal to take any such examination will be disqualifying for grant of extended voluntary departure.

2. The nurse must have taken the first available licensure examination after arrival in the United States, and have taken consecutively each such examination thereafter.

3. The nurse must show evidence (e.g., a cancelled check) that he/she has been registered to take the next licensure examination offered by the State.

4. A prior change of employer without INS authorization shall not disqualify the nurse from the grant of voluntary departure.

5. The nurse who meets the above conditions shall be given extended voluntary departure status in six-month increments up to a total that does not exceed three years from date of arrival in the United States.

6. The nurse already in the United States in excess of three years who meets the above conditions shall be given a further six-month period of voluntary departure for the purpose of again taking the licensure examinations.

7. During any period of authorized voluntary departure, the nurse shall

be permitted to work in a lesser capacity than professional nurse.

8. The nurse who is successful in passing the examination, and is issued a license to practice professional nursing, may upon the approval by INS of an H-1 visa petition filed by an employer, be restored to H-1 nonimmigrant status.

9. The Nation Alliance for Fair Licensure of Foreign Nurse Graduates, for the benefit of intending applicants for H-1 visas in the future, will undertake to publicize to foreign nurse graduates abroad the information that they must pass State licensure examinations in the United States, and that they may not work as professional nurses after failing such examinations.

10. The nurse already under deportation proceedings shall be eligible for extended voluntary departure as provided above, if those proceedings are based on grounds which arose solely by reason of the nurse's having changed employer without authority, or by reason of his/her previous inability to pass the licensure examination. If such nurse is successful thereafter in passing the examination and achieving licensure, the Service will move to terminate the deportation proceedings with a view to restoring him/her to lawful H-1 status as provided above.

11. The period during which the out-of-status nurse may make application for the above benefit shall expire December 31, 1978.

Dated: January 13, 1978.

LEONEL J. CASTILLO,  
Commissioner of Immigration  
and Naturalization.

#### NATIONAL COMMISSION ON NEIGHBORHOODS

##### RESCHEDULED MEETING

ACTION: Rescheduling of meeting.

SUMMARY: This notice, required under the Federal Advisory Committee Act (5 U.S.C. Appendix I) reschedules a meeting announced in the FEDERAL REGISTER on January 12, 1978.

TIME AND DATE: 8 p.m. (eastern standard time) on Friday, February 3, 1978 and 4 p.m. (eastern standard time) on Saturday, February 4, 1978.

PLACE: (February 3 meeting)—Church Hall of United Evangelical Church of Christ, East Avenue at Dillon Avenue, Baltimore, Md. (February 4 meeting)—Gymnasium of Wyman Park Multipurpose Center, 501 West 30 Street, Baltimore, Md.

AGENDA: February 3 meeting—1. Consideration of staff reports. 2. Discussion of future hearings.

February 4 meeting—1. Opportunity for citizen testimony from: (a) organized neighborhood groups, (b) public officials, and (c) interested individual citizens.

STATUS: Open to the public.

CONTACT PERSON:

Ms Frances Phipps, Deputy Director, 202-632-5200.

JONATHAN STEIN,  
Administrative Officer.

#### NATIONAL SCIENCE FOUNDATION

##### ADVISORY COUNCIL TASK GROUP NO. 4

##### Notice of Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

TASK GROUP NO. 4 OF THE NSF ADVISORY COUNCIL

Place: Room 1145, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

Date and time: February 9 and 10, 1978; 9 a.m. to 5 p.m.

Type of meeting: Open.  
Contact person: Ms. Margaret L. Windus, Executive Secretary, NSF Advisory Council, National Science Foundation, Room 518, 1800 G Street NW., Washington, D.C. 20550, telephone 202-632-4384.

Purpose of task group: The purpose of the Task Group, composed of members of the NSF Advisory Council, is to provide the full Council with a mechanism to consider numerous issues of interest to the Council that have been assigned by the National Science Foundation.

Summary minutes: May be obtained from the Committee Management Coordinator, Division of Personnel and Management, National Science Foundation, Room 248, 1800 G Street NW., Washington, D.C. 20550.

Agenda: To assess the need for and potential benefits from increased scientific cooperation between the U.S. and Western European countries, and to suggest scientific areas, modes, and institutional mechanisms best suited for such cooperation.

Dated: January 16, 1978.

M. REBECCA WINKLER,  
Acting Committee  
Management Officer.

[7555-01]

#### SUBCOMMITTEE ON HISTORY AND PHILOSOPHY OF SCIENCE OF THE ADVISORY COMMITTEE FOR SOCIAL SCIENCES

##### Notice of Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Science Founda-

tion announces that the following meeting:

Name: Subcommittee on History and Philosophy of Science of the Advisory Committee for Social Sciences.

Date and time: February 9 and 10, 1978; 9 a.m. to 5 p.m. each day.

Place: National Science Foundation, Room 628 for closed meetings; Room 642 for open meeting.

Type of meeting: Part Open—February 9—9 a.m. to 3 p.m.—Closed, February 9—3 p.m. to 5 p.m.—Open, February 10—9 a.m. to 5 p.m.—Closed.

Contact person: Dr. Ronald J. Overmann, Associate Program Director for History and Philosophy of Science, Room 312, National Science Foundation, Washington, D.C. 20550, telephone 202-632-4182.

Summary of minutes: May be obtained from the Committee Management Coordinator, Division of Personnel and Management, Room 248, National Science Foundation, Washington, D.C. 20550.

Purpose of subcommittee: To provide advice and recommendations concerning support for research and history and philosophy of science.

Agenda: Closed Session: To review and evaluate research proposals and projects as part of the selection process for awards. Open Session: Suggestions and general discussion by Panel members of research topics which may deserve special emphasis.

Reason for closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552(b)(c), Government in the Sunshine Act. Authority to close meeting: This determination was made by the Committee Management Office pursuant to provisions of section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

Dated: January 16, 1978.

M. REBECCA WINKLER,  
Acting Committee  
Management Officer.

#### SUBCOMMITTEE ON GENETIC BIOLOGY

##### Notice of Meeting

In accordance with the Federal Advisory Committee Act, as amended, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Subcommittee on Genetic Biology of the Advisory Committee for Physiology, Cellular and Molecular Biology. Date and time: February 9-11, 1978; 9 a.m. to 5 p.m. Place: Room 643, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

Type of meeting: Closed.  
Contact person: Dr. Philip D. Harriman, Program Director, Genetic Biology Pro-

gram, Room 326, National Science Foundation, Washington, D.C. 20550, telephone 202-632-5985.

Purpose of subcommittee: To provide advice and recommendations concerning support for research in genetic biology.

Agenda: To review and evaluate research proposals as part of the selection process for awards.

Reason for closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552(b)(c), Government in the Sunshine Act. Authority to close meeting: This determination was made by the Committee Management Office pursuant to provisions of section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

Dated: January 16, 1978.

M. REBECCA WINKLER,  
Acting Committee  
Management Officer.

#### SUBCOMMITTEE ON REGULATORY BIOLOGY OF THE ADVISORY COMMITTEE FOR PHYSIOLOGY, CELLULAR & MOLECULAR BIOLOGY

##### Notice of Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Science Foundation announces the following meeting:

Name: Subcommittee on Regulatory Biology of the Advisory Committee for Physiology, Cellular and Molecular Biology.

Date and Time: February 8, 9, 10, 1978; 9 a.m. to 6 p.m. each day.

Place: Room 321, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

Type of meeting: Closed.

Contact person: Dr. Betty M. Twarog, Program Director, Regulatory Biology Program, Room 333, National Science Foundation, Washington, D.C. 20550, telephone 202-632-4298.

Purpose of subcommittee: To provide advice and recommendations concerning support for research in regulatory biology.

Agenda: To review and evaluate research proposals and projects as part of the selection process for awards.

Reason for closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552(b)(c), Government in the Sunshine Act. Authority to close meeting: This determination was made by the Committee Management Office pursuant to provisions of section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated

the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

Dated: January 16, 1978.

M. REBECCA WINKLER,  
Acting Committee  
Management Officer.

##### SUBCOMMITTEE ON MOLECULAR BIOLOGY

###### Notice of Meeting

In accordance with the Federal Advisory Committee Act, as amended, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Subcommittee on Molecular Biology, Group B, of the Advisory Committee for Physiology, Cellular and Molecular Biology.

Date and time: February 6 and 7, 1978; 9 a.m. to 5 p.m. each day.

Place: Room 321, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

Type of meeting: Closed.

Contact person: Dr. Frederick I. Tsuji, Program Director, Biochemistry Program, Room 330, National Science Foundation, Washington, D.C. 20550, telephone 202-632-4260.

Purpose of subcommittee: To provide advice and recommendations concerning support for research in Molecular Biology.

Agenda: To review and evaluate research proposals as part of the selection process for awards.

Reason for closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

Dated: January 16, 1978.

##### NUCLEAR REGULATORY COMMISSION

[Docket No. 50-302]

##### FLORIDA POWER CORP., ET AL

###### Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 10 to Facility Operating License No. DPR-72, issued to the Florida Power Corp., City of Alachua, City of Bushnell, City of Gainesville, City of Kissimmee, City of Leesburg, City of New Smyrna Beach and Utilities Commission, City of New Smyrna Beach, City of Ocala, Orlando Utilities Commission and City of Orlando, Sebring Utilities Commission, Seminole Electric Cooperative, Inc., and the City of Tallahassee (the licensees) which revised Technical Specifications for operation of the Crystal River Unit No. 3 Nuclear Generating Plant located in Citrus County, Fla. The amendment is effective as of the date of issuance.

The amendment deletes the requirement to submit Non-Routine Reports regarding unplanned radioactive releases if the release rate is no greater than 10 percent of the allowable instantaneous release rate. All un-

planned releases will continue to be reported in the Semiannual Operating Report.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR §51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated October 11, 1977, and (2) Amendment No. 10 to license No. DPR-72. Both of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Crystal River Public Library, Crystal River, Fla. A copy of item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 7th day of January 1978.

For the Nuclear Regulatory Commission.

ROBERT W. REID,  
Chief, Operating Reactors  
Branch No. 4, Division of Operating Reactors.

[FR Doc. 78-1512 Filed 1-18-78; 8:45 am]

#### [7590-01]

[Docket No. 50-289]

##### METROPOLITAN EDISON CO., ET AL

###### Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 36 to Facility Operating License No. DPR-50, issued to Metropolitan Edison Co., Jersey Central Power & Light Co. and Pennsylvania Electric Co. (the licensees), which revised Technical Specifications for operation of the Three Mile Island Nuclear Station, Unit No. 1 (the facility) located in Dauphin County, Pa. The amendment is effective as of its date of issuance.

#### NOTICES

The amendment revises the definition of containment integrity with respect to airlock maintenance, repair or modification and adds surveillance requirements for the interlock systems of airlocks.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated October 28, 1977, (2) Amendment No. 36 to License No. DPR-50, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Government Publications Section, State Library of Pennsylvania, Box 1601 (Education Building), Harrisburg, Pa. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 7th day of January 1978.

For the Nuclear Regulatory Commission.

ROBERT W. REID,  
Chief, Operating Reactors  
Branch No. 4, Division of Operating Reactors.

#### [7590-01]

##### REGULATORY GUIDE

###### Issuance and Availability

The Nuclear Regulatory Commission has issued a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evalu-

ating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.124, Revision 1, "Service Limits and Loading Combinations for Class 1 Linear-Type Component Supports," delineates acceptable levels of service limits and appropriate combinations of loadings associated with normal operation, postulated accidents, and specified seismic events for the design of Class 1 linear-type component supports as defined in subsection NF of section III of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code. This guide applies to light-water-cooled reactors. Revision 1 reflects public comment and additional staff review.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Technical Information and Document Control. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated at Rockville, Md., this 11th day of January 1978.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,  
Director, Office of  
Standards Development.

[FR Doc. 78-1427 Filed 1-18-78; 8:45 am]

#### [7590-01]

##### RISK ASSESSMENT REVIEW GROUP

###### Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a two-day open meeting of the Risk Assessment Review Group of the U.S. Nuclear Regulatory Commission (NRC), to be held at 8:30 a.m., on February 6 and 7, 1978, in Room 1046 of the Matomic

Building, 1717 H Street NW., Washington, D.C. The purposes of this meeting are to continue the review of the final report of the Reactor Safety Study (WASH-1400) and the peer comments thereon, to obtain information on developments in the field of risk assessment methodology and to discuss subjects that might be included in the report of the Review Group.

The Risk Assessment Review Group is an independent group established by the NRC (42 FR 34955) for the purpose of providing advice and information to the Commission regarding the final report of the Reactor Safety Study, WASH-1400 (NUREG-75/014), and the peer comments on the Study, advice and recommendations on developments in the field of risk assessment methodology and courses of action which might be taken on future development and use of risk assessment methodology. This advice and information will assist the Commission in establishing policy regarding the use of risk assessment in the regulatory process. It will also clarify the achievements and limitations of the Reactor Safety Study. The Review Group will submit a report to the Commission on or before July 1, 1978.

In carrying out these assignments, it is anticipated that a number of working sessions will be scheduled at different locations, with notification to the public well in advance of each meeting. With respect to public participation in the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda may do so by providing 10 readily reproducible copies to the Review Group at the beginning of the meeting. Comments should be limited to areas within the Group's purview. Persons desiring to mail written comments may do so by sending a readily reproducible copy thereof in time for consideration at this meeting. Comments postmarked no later than January 30, 1978, to Dr. John H. Austin, Office of Policy Evaluation, NRC, Washington, D.C. 20555, will normally be received in time to be considered at this meeting. Of course, comments not received in time for this meeting will be circulated to the members of the Review Group for consideration at a future meeting. Comments should pertain to the field of risk assessment methodology or should be based on the final report of the Reactor Safety Study, copies of which are available for public inspection at:

1. The NRC Public Document Room, 1717 H Street NW., Washington, D.C. 20555.
2. The NRC's five Regional Offices of Inspection and Enforcement:
  - Region I—631 Park Avenue, King of Prussia, Pa. 19406.
  - Region II—Suite 1217, 230 Peachtree Street, Atlanta, Ga. 30303.
  - Region III—799 Roosevelt Road, Glen Ellyn, Ill. 60137.
  - Region IV—Suite 1000, 611 Ryan Plaza Drive, Arlington, Tex. 76012.
  - Region V—Suite 202, 1890 North California Boulevard, Walnut Creek, Calif. 94596.

Copies of the Final Report may be obtained from: U.S. Nuclear Regulatory Com-

mission, Office of Nuclear Regulatory Research, Probabilistic Analysis Staff, Attn.: Melea S. Fogle, telephone 301-492-8377, 7735 Old Georgetown Road, Bethesda, Md. 20014.

(b) Persons desiring to make an oral statement at the meeting should make a request to do so prior to the meeting, identifying the topics and desired presentation time so that appropriate arrangements can be made. The time allotted for such statements will be at the discretion of the Chairman. The Review Group will receive oral statements on topics relevant to its purview at an appropriate time chosen by the Chairman.

(c) Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call on February 3, 1978, to the Office of Policy Evaluation, telephone 202-254-5184, Attn.: John Austin, between 8:15 a.m. and 5 p.m. e.d.t.

(d) Questions may be asked only by members of the Review Group.

(e) Statements of views or expressions of opinion made by members of the Review Group at open meetings are not intended to present final determinations or beliefs.

(f) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(g) A copy of the minutes of the meeting will be available for inspection on or after April 28, 1978, at the NRC Public Document Room, 1717 H Street NW., Washington, D.C. 20555.

Copies may be obtained upon payment of appropriate charges.

Dated at Washington, D.C., January 16, 1978.

JOHN C. HOYLE,  
Advisory Committee  
Management Officer.

[4910-58]

# NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 78-3]

## ACCIDENT REPORTS; SAFETY RECOMMENDATIONS AND RESPONSES

### Availability and Receipt

**Aircraft Accident Report.**—The National Transportation Safety Board reports that a twin-engine Piper Cheyenne operated by the State of Pennsylvania was improperly loaded when it crashed last February 24 killing nine persons, including the State's Secretary of Transportation. Two crewmembers and six passengers died when the plane plunged into a street in Bressler, Pennsylvania, shortly after takeoff from Capitol City Airport, New Cumberland, Pennsylvania. The ninth victim died when the wrecked

plane sled across a road and struck a house, setting it afire.

The investigation report, officially approved on January 9, indicates that the Safety Board determines the probable cause of the accident was the flightcrew's failure to insure that the aircraft was loaded properly and that its center of gravity was within certificated limits. As a result, the aircraft's control characteristics were degraded significantly by a center of gravity position well aft of the certificated limits. This imbalance led to the pilot's inability to control a longitudinally unstable aircraft during a climbing turn in instrument meteorological conditions.

When loading an aircraft, the flightcrew must keep the center of gravity within prescribed limits so that the aircraft will be properly balanced and not beyond either its aft center of gravity limits, or its forward center of gravity limits—both of which are expressed as "inches" along an imaginary line drawn through the nose to the tail of the aircraft. The approved maximum aft center of gravity for the Piper PA-31T Cheyenne was 138 inches.

Copies of the report are being processed for release to the public in the near future.

**Aircraft Accident Report.**—The Safety Board announces the availability of printed copies of its report of investigation into the crash of a Texas International Airlines Douglas DC-9-14 at Stapleton International Airport, Denver, Colorado, November 16, 1976. The report, No. NTSB B-AAR-77-10, was officially approved by Members of the Safety Board last October 27.

Investigation revealed that the aircraft crashed after rejecting a takeoff from runway 8 right at Stapleton. The takeoff was rejected when the stall warning stickshaker activated after the aircraft had rotated for takeoff. When the pilot was unable to stop the aircraft within the confines of the runway, it overran the runway, traversed drainage ditches, struck approach light stanchions, and stopped. Eighty-one passengers and five crewmembers evacuated the aircraft, which had been severely damaged by impact and fire; 14 persons were injured.

The Safety Board determines that the probable cause of this accident was a malfunction of the stall warning system for undetermined reasons which resulted in a false stall warning and an unsuccessful attempt to reject the takeoff after the aircraft had accelerated beyond refusal and rotation speeds. The decision to reject the takeoff, although not consistent with standard operating procedures and training, was reasonable in this case, based upon the unusual circumstances in which the crew found themselves,

the minimal time available for decision, and the crew's judgment concerning a potentially catastrophic situation.

As a result of investigation of this accident, the Safety Board last May 23 recommended that the Federal Aviation Administration (1) give flight attendants recurrent evacuation training in the use of tail cone emergency exits (A-77-26); (2) require that passenger information cards carry data regarding the tail cone exits (A-77-27); and (3) designate the DC-9 tail cone exit as a "required exit" (A-77-28); and (4) issue an airworthiness directive to require that an emergency light be located in proximity to the DC-9 tail cone exit release handle, or that the handle be self-illuminating (A-77-29). In response on August 10 FAA said that Texas International Airlines has made changes in its flight attendant training program designed to conform to the Board recommendations. The FAA also said it has acted on the Board recommendation concerning the tail cone exit on the DC-9. (See 42 FR 28194 and 44045, June 2 and September 1, 1977, respectively.)

Earlier, last April 20, the Safety Board urged that FAA amend 14 CFR 139.45 to require, after a reasonable date, that extended runway safety area criteria be applied retroactively to all certificated airports (A-77-16), and expedite the retrofit of ALS structures with frangible materials and fittings by allocating additional fundings or by increasing the priority of the existing program so that it can be completed within 3 to 5 years (A-77-17). FAA's response of July 11, while indicating nonconcurrence in recommendation A-77-16, agreed that the retrofit program should be implemented as rapidly as resources permitted. (See 42 FR 21676 and 38443, April 28 and July 28, 1977, respectively.)

**Aircraft Accident Reports, Brief Format, U.S. Civil Aviation, Issue Number 5 of 1976 Accidents.**—The Safety Board last week also released its latest compilation of 1976 accident briefs. The current publication, report No. NTSB-BA-77-3, includes the pertinent facts and probable cause, in synopsis form, of 533 general aviation accidents. As in past reports, Issue No. 5 contains accidents which were easily preventable through adequate pre-flight planning.

**NOTE.**—The brief reports of accidents in this publication contain essential information; more detailed data may be obtained from the original factual reports on file in the Washington Office of the Safety Board. Upon request, factual reports will be reproduced commercially at an average cost of 25¢ per page for printed matter, \$1.50 per page for black-and-white photographs, and \$4.00 per page for color photographs, plus postage. Minimum reproduction charge is \$1.00; an additional \$4.00 user-service charge will be made for each order. Re-

quests should be directed to the Public Inquiry Section, National Transportation Safety Board, Washington, D.C. 20594. The requester is asked to provide this information concerning the accident: (1) Date and place of occurrence, (2) type of aircraft and registration number, and (3) name of pilot.

Copies of Issue Number 5 may be purchased from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

**Railroad/Highway Accident Report.**—A Federal program to identify and protect railroad-highway grade crossings where inadequate warnings do not permit the prudent and careful driver to cross without risk of injury or death has been called for by the Safety Board. This was one of six recommendations issued by the Safety Board following investigation of the collision of an Amtrak/Atchison, Topeka and Santa Fe Railway train and a tractor-cargo tank semitrailer near Marland, Oklahoma, December 15, 1976. The truckdriver and two train crewmembers were killed; 11 other persons on the train were injured. Property damage was estimated to be \$880,700.

The investigation report on this accident was officially approved by the Board on December 15. Copies of the report will be made available to the public within a few weeks.

The Safety Board determined that the probable cause of this accident was the lack of adequate warning of the approach of a high-speed train to enable the truckdriver to ascertain when it was safe to enter the crossing. Contributing to the accident was the crossing's unsuitability for joint use by high-speed trains and heavily loaded trucks.

There were no automatic signals at the crossing, but investigation showed that the truckdriver did stop short of the track and then moved onto the grade crossing in low gear. As the train approached the crossing the engineer, who was not required to reduce speed because of restricted visibility, sounded his whistle. But because of the fog, the train reached a point about 700 feet, or 5 seconds from the crossing before the engineer was able to see the tank truck. When the train—traveling at 89.6 miles per hour—collided with the truck, the locomotive's nose compartment doors were blown off and the cab windows broke, permitting a massive entry of flaming oil into the engine cab.

As a result of its investigation of this accident, the Safety Board on January 10 issued the following safety recommendations:

To the Federal Railroad Administration—

Require all head-end locomotive units to be designed to prevent serious injury to crewmembers from penetration of flammable substances into control compartments. (R-77-37)

In cooperation with the States, identify those grade crossings where inadequate warnings do not permit the prudent and careful driver to cross without risk of injury or death. (R-77-38)

Undertake a program to protect the crossings which have been so identified. Consideration should be given to adequate protection or reduction of train speeds in conditions of reduced visibility and/or signals that meet real train movement situations. (R-77-39)

To the National Railroad Passenger Corporation—

Strengthen and improve its locomotive units' operating compartments so that they effectively resist impact forces and deter entry of flammable liquids into locomotive cabs. (R-77-40)

To the Oklahoma Department of Transportation—

Initiate studies of those railroad/highway grade crossings in Oklahoma that are used by high-speed trains as well as vehicles transporting oil, gas, and other hazardous materials, to establish whether such joint use is safe in view of existing crossing characteristics and protection. (H-77-33)

Enlarge its grade crossing safety criteria to include use by trucks carrying flammable oil and gas, and other hazardous materials. (H-77-34)

**Highway Safety Recommendations.**—Now under investigation by the Safety Board is the collision of a Midas Mini Motor Home and an automobile, the accident occurring last July 14 on U.S. Route 69 north of Atoka, Oklahoma. The southbound automobile went out of control on wet pavement, crossed the centerline sideways, and collided with the northbound motor home. All six persons in the automobile were killed; the driver and right front passenger in the motor home were also killed, and the six other occupants of the motor home were injured.

The two-lane, two-way section of highway at the accident site was posted at 55 mph and had an average daily traffic volume of 5,000 vehicles, 30 to 36 percent commercial. More than 5 miles of the road had recently been overlaid with 1 inch of asphalt/concrete Oklahoma type-C mix. The "job mix formula" for the project—State-aid Project No. MC3(75)—called for 5 percent asphalt with 93 percent and 44 percent passing through the ¾-inch and No. 8 sieves, respectively. The project was completed June 29, 1977, and a final inspection made on July 5. There were no deficiencies noted and the project was accepted by the State.

The Safety Board notes that comparison of the specifications of the Oklahoma type-C mix with the latest information from the Asphalt Institute and the American Association of State Highway and Transportation Officials (AASHTO) "Guidelines for Skid Resistant Pavement Design," (1976) indicates that the Oklahoma type-C

mix is a dense graded mix with relatively little coarse texture. AASHTO's guide emphasizes that the coarse aggregates in a mix provide the major skid resistance at high speeds.

At the request of the Safety Board, the Oklahoma Department of Highways on July 18 and 28, and again on September 1, conducted locked-wheel skid tests on the 5.3-mile resurfaced section of U.S. Route 69 with emphasis on the vicinity of the accident. Although the effect of the pavement surface on this accident has not been established, these skid tests clearly indicate that the coefficient of friction on the resurfaced road section is well below minimum recommendations for skid resistance.

Pending completion of its investigation, the Safety Board on January 10 recommended that the Oklahoma Department of Transportation—

Post warning signs conforming to the requirements of the Manual on Uniform Traffic Control Devices on the resurfaced 5.3-mile section of U.S. Route 69 to advise motorists that the surface is slippery when wet. These signs should be maintained until the skid resistance on the overlay surface is increased. (H-77-35)

Evaluate the pavement design and construction practices used on this project in order to eliminate any possibility for this condition to reoccur. (H-77-36)

Expedite the application of necessary materials to remedy the low skid resistance condition on the 5.3-mile resurfaced section of U.S. Route 69. (H-77-37)

Recommendation H-77-35 is designated Class I—Urgent Action; the other two recommendations are designated Class II—Priority Action.

## RESPONSES TO SAFETY RECOMMENDATIONS

**Aviation: A-77-9 and 10.**—Letter of December 16 from the Federal Aviation Administration is in further response to recommendations issued following investigation of the September 13, 1976, collision between a Cessna 414 and a U.S. Air Force F-4E Phantom II fighter near Brighton, Fla.

The recommendations called for establishment of direct lines of communication between appropriate air traffic control facilities and military tactical operations so that essential tactical information can be relayed to military flight crews while they are being afforded instrument flight rules separation in positive control airspace (A-27-9), and assurance of ultrahigh frequency guard transmitting and receiving capability at all control positions where air traffic control services are provided routinely to military tactical flights (A-77-10).

FAA's December 16 letter indicates that its original position concerning these recommendations, as stated in its April 26 letter (42 FR 24132, May 12, 1977), has not changed. FAA has asked the Air Force what action they

planned to take to implement A-77-9 and was informed that any required implementation plans should be initiated between local FAA and military units; i.e., local FAA facility/military unit requirements/problems will determine the need to establish land lines. In February, a land line was installed between Avon Park gunnery range and the Miami Center. The line is used primarily to relay IFR clearances to flights departing the range, FAA states.

FAA reports that last May each FAA region was asked to evaluate its recommendation to configure one Backup Emergency Communication (BUEC) controller station per center's area of specialization (where there is a significant military activity) to cycle to 243.0 MHz, rather than the sector discrete frequency. Should any region decide that the recommendation was not feasible, FAA asked to be informed of alternative plans to accommodate recommendation A-77-10.

FAA further reports that all of the regions are developing plans to significantly increase coverage on 243.0 MHz, using various combinations of the following approaches to implement A-77-10:

1. Change crystals on the standby Tactical Special Use Frequency transceivers to 243.0 MHz.
2. Reconfigure some share guard outlets so that ARTCC's can share 243.0 MHz with either flight service stations or towers.
3. Reconfigure some BUEC transceivers to cycle 243.0 MHz.
4. Install fixed tune/single channel transceivers on 243.0 MHz at select long range radar sites and/or remote communications air/ground facilities.

All of the regional plans should be implemented within the next year and should result in a significant increase in coverage on 243.0 MHz, according to FAA.

**Highway: H-77-28.**—Letter of January 4 from the Federal Highway Administration is an interim response to the recommendation developed after investigation of the July 1, 1976, accident in which five persons were killed when their automobile was struck by a freight train near Des Moines, Iowa. The automobile failed to stop for flashing signal lights at the grade crossing. (See 42 FR 60237, November 25, 1977.) The recommendation asked FHWA to actively participate and support the National Safety Council (NSC) in the development, implementation, and evaluation of a nationwide "Operation Lifesaver" railroad/highway grade crossing safety program.

FHWA, in indicating its support for the concept of this program with NSC serving as the focal point and coordinator, suggests a meeting with the Safety Board, the NSC, and the various other agencies from which the Safety Board has solicited support and

participation on a nationwide basis. At that time, the NSC should be prepared to outline a definitive program to which the various agencies can respond, according to FHWA. FHWA promises a formal response to recommendation H-77-28 shortly after such a meeting takes place.

**Railroad: R-76-18 and 19.**—Letter of December 22 from Auto Train Corporation is a followup to response of May 20, 1976 (41 FR 22428, June 3, 1976) to recommendations which resulted from investigation of an auto-train derailment near Jarratt, Virginia, on May 5, 1976.

Pursuant to recommendation R-76-18, the Corporation is maintaining a program to check all wheels on locomotives, auto carrying cars, and passenger carrying cars by the following actions:

1. Complete inspection utilizing ultrasonic sound wave machines, dye penetrant inspection, magnetic particle inspection, and daily visual inspection of all operating equipment wheels.

2. Maintaining a policy in excess of the requirements of the Association of American Railroads requiring the scrapping of wheels with 1-inch surface metal remaining by establishing a 1 1/4-inch minimum requirement for wheel removal.

3. Removing from further service all on-tread brake wheels with manufacturer's rim stamped identification having a depth of 3/8".

4. Purchasing only Class BR, rim treated wheels for passenger and auto carrying equipment utilizing on-tread clasp brakes because of superior resistance to shelling and thermal cracks.

Pursuant to recommendation R-76-19, the Corporation has proceeded with three field tests to determine a systematic source of excessive wheel heating. Those tests are now completed and results indicate that the policies established on May 20, 1976, were correct to eliminate systematic conditions affecting wheels under Auto-Train equipment:

1. Tempil-stik paint is applied to all wheel rim fronts of cars and locomotives equipped with on-tread type brakes. Visual inspection will indicate when temperatures in excess of 400° F. are generated in service requiring a wheel set to be removed from service.

2. All carriers now in service are equipped with ABD or ABDW brake valves.

3. Followup to recommendations from the Federal Railroad Administration have been accepted and implemented, as indicated in a letter to the National Transportation Safety Board of November 16, 1977 (copy attached).

4. Field tests indicate that implementation of a two-consist service is not the only method of guaranteeing a comfortable ride. Consists up to 50 cars can be handled with assurance of comfort to passengers and efficient equipment utilization; however, experience indicates that a 42-43 car consist can be consistently run with optimum benefits.

As a result of the above actions, Auto-Train has taken the following steps with its operating railroads to

assure the most comfortable ride with no sacrifice to equipment condition, the Corporation states.

1. Required operating crews when making a minimum brake pipe reduction to reduce pipe a minimum of 12 pounds to assure complete release.

2. Voluntarily limited length of consist to 43 cars.

3. Initiated the use of dynamic brakes to reduce reliance of crews on automatic brakes for all speed reductions and the subsequent wear on braking systems.

4. Increased train speed to a maximum of 79 mph where allowed by operating railroads.

5. Specified to the operating railroad supplying Auto-Train with wheel sets not to put in service new or used wheels destined for use in on-tread brake equipped cars if rim stamped markings are 3/8" or deeper.

**Note.**—The above notice summarizes Safety Board documents publicly released last week and recommendation response letters recently received.

The Board's safety recommendation letters in their entirety are available to the general public; single copies are obtainable without charge. Copies of the full text of responses to recommendations may be obtained at a cost of \$4.00 for service and 10¢ per page for reproduction.

Single copies of aircraft accident report NTSB-AAR-77-10 may be obtained from the Safety Board without charge; multiple copies may be purchased by mail from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. Notice will be given in the *Federal Register* when copies of the other accident reports referenced above are available.

All requests to the Board for copies must be in writing, identified by the report or recommendation number and the date of publication of this notice in the *Federal Register*. Address requests to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)).)

MARGARET L. FISHER,  
Federal Register Liaison Officer.

#### OFFICE OF THE SPECIAL REPRESENTATIVE FOR TRADE NEGOTIATIONS

##### TRADE POLICY STAFF COMMITTEE

#### Generalized System of Preferences: Information on Imports During First Ten Months of 1977

This notice is for information only, and has no legal effect. It is provided in order to inform the public of certain import statistics covering the period of January through October, 1977. These statistics are relevant to the "competitive-need" limits set forth in section 504(c) of the Trade Act of

1974 (19 U.S.C. 2464(c)), pertaining to the Generalized System of preferences (GSP). Those limits provide, in effect, that any GSP beneficiary country that exported to the United States during the most recent calendar year a quantity of any one GSP-eligible article in excess of (1) \$25 million, adjusted annually to reflect changes in the U.S. Gross National Product, or (2) 50 percent of total U.S. imports of the article, is to cease receiving duty-free treatment under GSP for such article not later than 60 days after the close of that calendar year.

Based on preliminary data, subject to revision, the dollar limit cited in the preceding sentence is expected to be approximately \$33.8 million for calendar year 1977.

An Executive order will be issued on or before March 1, 1978, making the adjustments that are required by section 504(c) of the Trade Act, on the basis of official data covering all of calendar year 1977. Such data are not currently available. It should be emphasized that the information set forth below covers only the first ten months of 1977. While this is not the complete information on which adjustments will be based, it is being published now in order to provide the maximum possible advance indication as to adjustments that may be made to meet the requirements of section 504(c) of the Trade Act.

List I below shows how the "competitive-need" list of countries ineligible to receive GSP benefits for particular articles might look if that list were based on data covering the period January through October, 1977. In fact, the "competitive-need" list that will be issued and become effective on or about March 1 will be based on data for the full twelve months of 1977, so that List I below is indicative only and is subject to changes.

List II below shows countries which, on the basis of data for the first ten months of 1977, were close to exceeding the "competitive-need" limits for particular articles, but which had not actually exceeded those limits.

The column headed "TSUS" in the Lists below sets forth item numbers of the Tariff Schedules of the United States (19 U.S.C. 1202), representing categories of imported articles.

##### LIST I

GSP eligible articles for which a beneficiary country supplied—

- (a) 50 percent or more of U.S. imports in January-October 1977, or
- (b) imports valued at \$33.8 million or more during that period.

## [4710-01]

DEPARTMENT OF STATE  
[CM-8/2]

## ADVISORY COMMITTEE ON THE LAW OF THE SEA

## Partially Closed Meeting

In accordance with section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) as amended by Pub. L. 94-409 section 5(c), notice is hereby given that the Advisory Committee on the Law of the Sea will meet in closed session on Thursday, March 2 and in both open and closed sessions on Friday, March 3, 1978. The open session of the meeting will convene on Friday at 2 p.m. in the Loy Henderson Conference Room (formerly the International Conference Room), U.S. Department of State, 21st and C Streets, NW., Washington, D.C.

The purpose of the closed meeting is to discuss specific conference issues and formal planning and policy preparations for the U.S. Delegation to the 1978 Geneva Session of the Third United Nations Conference on the Law of the Sea. During these closed sessions, documents classified under the provisions of Executive Order 11652 will be discussed.

These documents relate to the issues which the United States will be negotiating at the Conference, the documents are exempt under 5 U.S.C. 552 (b) (1), and are required to be withheld from disclosure in the public interest.

The issues cover such subjects as freedom of navigation on the high seas and in international straits, national security interests, the nature of a deep seabeds mining regime and proposed deep seabeds mining legislation, the breadth of the continental margin, the juridical status of the economic zone, fisheries, vessel source pollution, scientific research, dispute settlement, and other related topics involving U.S. national security matters. Premature disclosure of the contents of these documents could adversely affect our foreign relations interests and jeopardize the chances of obtaining a timely and satisfactory Law of the Sea Treaty.

The open session of the Advisory Committee meeting will discuss all principal agenda issues to be considered during the Third United Nations Conference on the Law of the Sea, including those issues stated above, but will not examine the classified items discussed during the closed session.

The Advisory Committee on the Law of the Sea represents a broad cross-section of industries, professions, academic disciplines and other public groups. As such, it will comprehensively review the proposals which will come before the Conference.

At the open session, beginning at 2 p.m. March 3, the general public at-

tending may participate in the discussion subject to instructions of the Chairman.

As entrance to the State Department is controlled, members of the public who wish to attend the open session should contact Mr. Peter Bernhardt by February 15 and provide their name and affiliation to facilitate their attendance. Mr. Bernhardt's telephone number is 202-632-9616.

Dated: December 23, 1977.

ALAN BERLIND  
Director, Office of the  
Law of the Sea Negotiations.

## [4910-14]

## DEPARTMENT OF TRANSPORTATION

## Coast Guard

## [CGD 78-001]

## ADVISORY COMMITTEES

## Applicants for Membership

The Coast Guard is seeking applicants who are interested in being appointed as a member on one of the following technical advisory committees:

1. Chemical transportation industry advisory committee (CTIAC). CTIAC advises a high level Coast Guard council (Marine Safety Council) on rule-making matters relating to the carriage of hazardous materials on vessels, the transfer of these materials between the vessels and shore, and waterfront facilities over which these materials move.

2. Rules of the road advisory committee (RRAC). RRAC advises the Marine Safety Council on the formulation and/or modification of the international and inland Rules of the Road which govern the navigation of vessels. Emphasis in the immediate future will be on the development of unified rules to replace the current inland rules.

In order to acquire the balance of membership required by the Federal Advisory Committee Act, the Coast Guard is particularly interested in receiving applicants from minorities, women, and public interest representatives. Selection will be based upon expertise in the subjects under consideration.

Each committee meets once or twice a year at a location selected by the sponsor. Members serve at their own expense and receive neither travel nor per diem allowances.

Interested persons should write to Commandant (G-CMC/81), U.S. Coast Guard, Washington, D.C. 20590, prior to February 20, 1978, identifying which committee they wish to apply for. Supplemental information will then be forwarded. Appointments will

be announced next summer effective 1 July 1978.

G. H. PATRICK BURSLEY,  
Rear Admiral, U.S. Coast Guard  
Chairman, Marine Safety  
Council.

DESIGN AND INSTALLATION OF DOOR  
CLOSING HARDWARE FOR FREIGHT  
CONTAINERS

## Meeting

AGENCY: U.S. Coast Guard.

ACTION: Notice of public meeting.

SUMMARY: An informal public meeting will be held at the Department of Transportation Nassif Building, Room 8332, 400 Seventh Street SW., Washington, D.C. 20590, at 1 p.m., Tuesday, January 31, 1978. The meeting will discuss design and installation of door closing hardware for freight containers as required for certification under the Customs Convention of 1956 and the TIR Convention of 1959.

FOR FURTHER INFORMATION CONTACT:

Mr. M. H. Allen, U.S. Coast Guard,  
G-MHM-2/83, Washington, D.C.  
20590, 202-426-1577.

SUPPLEMENTARY INFORMATION: White Welding and Manufacturing Co. of Kenosha, Wis., has requested an opportunity to discuss a ruling that requires the Customs Seal arm pivot rivet head be placed on the door side of the arm and of such dimensions that it cannot be removed without breaking the Customs seal or leaving evidence of tampering. It is expected that representatives of the U.S. Customs Service and of the Approval Authorities will be present. Other interested parties are invited to attend.

Dated: January 17, 1978.

H. G. LYONS,  
Captain, U.S. Coast Guard,  
Acting Chief, Office of Merchant Marine Safety.

#### ASSIGNMENT OF HEARINGS

JANUARY 16, 1978.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

FD 27972, Louisville & Nashville Railroad Co.—Trackage rights—Over Grank Trunk Western Railroad Co. South Bend subdivision between Munster, Lake County, Ind., and Thornton Junction, Cook County, Ill., and FD 28464, Louisville & Nashville Railroad Co. construction of connecting track over Grank Trunk Western Railroad Co. at Munster, Lake County, Ind., now as-

signed March 6, 1978, at South Holland, Ill., and will be held March 6, 7, 8, and 10 at the Thornton Township Hall, 333 East 162nd Street, in South Holland, and March 9, 1978, at the Dalton Village Hall, 14014 Park Avenue in Dalton, Ill.

MC 136183 (Sub 3), Joe Costa, d.b.a. Trinidad Freight Service, now assigned February 7, 1978, at Santa Fe, N. Mex., is canceled and reassigned for February 7, 1978 (3 days), at Clayton, N. Mex., and will be held at the Union County Courthouse.

MC-C-9763, Home Transportation Co., Inc. v. Colonial Fast Freight Lines, Inc., now assigned February 22, 1978, at Washington, D.C., for prehearing conference, is now reassigned for hearing on February 22, 1978, at the offices of the Interstate Commerce Commission in Washington, D.C.

MC 129903 (Sub 7), Emporia Motor Freight, Inc., now assigned January 23, 1978, at Emporia, Kans., is postponed to a date to be hereafter fixed.

MC 116273 (Sub 23), Indian Valley Enterprises Inc., now assigned February 16, 1978, at Washington, D.C., is canceled.

MC 45363 (Sub 9), Stones Express, Inc., now assigned January 18, 1978, at New York, N.Y., is canceled.

MC 142809, Don Penick & Harvey Keenan, d.b.a. Double Eagle Trucking, now being assigned February 28, 1978 (3 days), at Olympia, Wash., in a hearing room to be later designated.

MC 124211 (Sub 297), Hilt Truck Line, Inc., now being assigned March 7, 1978 (2 days), for continued hearing at Los Angeles, Calif., in a hearing room to be later designated.

MC 109772 (Sub 28), Robertson Truck-A-Ways, Inc., now being assigned March 9, 1978 (2 days), at Los Angeles, Calif., in a hearing room to be later designated.

MC 142941 (Sub 6), Scarborough Truck Lines, now being assigned March 13, 1978 (1 day), at Chicago, Ill., in a hearing room to be later designated.

MC 116915 (Sub 30), Eck Miller Transportation Corp., now assigned March 7, 1978, at Dallas, Tex., is postponed indefinitely.

MC 18121 (Sub 19), Advance Transportation Co., now assigned March 14, 1978, at Madison, Wis., is postponed indefinitely.

MC 115841 (Sub 564), Colonial Refrigerated Transportation, Inc., now being assigned February 16, 1978 (2 days), at Kansas City, Mo., in a hearing room to be later designated.

H. G. HOMME, Jr.,  
Acting Secretary.

#### [7035-01]

[LAB 43 Sub-No. 41]

#### ILLINOIS CENTRAL GULF RAILROAD CO.

Abandonment Between Bemis, Tenn., and Holy Springs, Miss., in Madison, Hardeman, and Fayette Counties, Tenn., and Benton and Marshall Counties, Miss.

JANUARY 6, 1978.

The Interstate Commerce Commission's Section of Energy and Environment has concluded that the proposed abandonment by the Illinois Central Gulf Railroad Co. of its line extending from Bemis, Tenn., to Holy Springs,

Miss., a distance of 67.1 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment.

It was concluded, among other things, that the amount of traffic diverted to motor carrier is not expected to create any substantial alterations in existing air quality and fuel consumption patterns. Moreover, there are not definitive land use plans which would be affected by the abandonment. There are existing alternate railheads within a short distance from the line that can handle the line's traffic. It has been determined that the line would be suitable for alternative public use due, among other things, to its proximity to state and national parks.

This conclusion is contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423, telephone 202-275-7011. Interested persons may comment on this matter by filing their statements in writing on or before February 21, 1978.

It should be emphasized that the environmental threshold assessment survey represents an evaluation of the environmental issues in the proceeding and does not purport to resolve the issue of whether the present or future public convenience and necessity permit discontinuance of the line proposed for abandonment. Consequently, comments on the environmental study should be limited to discussion of the presence or absence of environmental impacts and reasonable alternatives.

H. G. HOMME, Jr.,  
Acting Secretary.

#### [7035-01]

[LAB 43 (Sub-NO. 37)]

#### ILLINOIS CENTRAL GULF RAILROAD CO.

Abandonment near Dyersburg, Tenn., and Hickman, Ky., in Dyer and Lake Counties, Tenn., and Fulton County, Ky.

JANUARY 6, 1978.

The Interstate Commerce Commission's Section of Energy and Environment has concluded that the proposed abandonment by the Illinois Central Gulf Railway Co. of its line between Dyersburg, Tenn., and Hickman, Ky., a distance of approximately 48.9 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment.

It was concluded, among other things, that (1) diversion of traffic from rail to motor carriers would not

create significant impacts on the area's highway network, energy consumption requirements, ambient air quality, or intrusive noise incidents; (2) abandonment could impair the planned development of a port facility and industrial site at Hickman; and (3) the line would be suitable for alternative public use if abandoned.

These conclusions are contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423, telephone 202-275-7011. Interested persons may comment on this matter by filing their statements in writing on or before February 21, 1978.

It should be emphasized that the environmental threshold assessment survey represents an evaluation of the environmental issues in the proceeding and does not purport to resolve the issues of whether the present or future public convenience and necessity permit discontinuance of the line proposed for abandonment. Consequently, comments on the environmental study should be limited to discussion of the presence or absence of environmental impacts and reasonable alternatives.

H. G. HOMME, Jr.,  
Acting Secretary.

[Notice No. 1TA]

#### MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 5, 1978.

The following are notices of filing of applications for temporary authority under section 210(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment if will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be gov-

erned by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

#### MOTOR CARRIERS OF PROPERTY

No. MC 99610 (Sub-No. 28TA), filed December 19, 1977. Applicant: ROSS NEELY EXPRESS, INC., P.O. Drawer B, Pratt City Station, 1500 2nd Street, Birmingham, Ala. 35214. Applicant's representative: Edward G. Villalon, Pennsylvania Avenue and 13th Street NW., 1032 Pennsylvania Building, Washington, D.C. 20004. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, except household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading, (1) between junction of U.S. Highways 72 and 43 at or near Tusculumba, Ala., and Memphis, Tenn.; from junction of U.S. Highways 72 and 43 over U.S. Highway 72 to Memphis, Tenn., and return over the same route, serving all intermediate points in Alabama; (2) between Hamilton, Ala., and Memphis, Tenn., from Hamilton, Ala., over U.S. Highway 78 to Memphis, Tenn., and return over the same route, serving all intermediate points in Alabama; (3) between Reform, Ala., and Memphis, Tenn., from Reform, Ala., over U.S. Highway 82 to Columbia, Miss., thence over U.S. Highway 45 via Aberdeen, Nettleton, Shannon, and Verona to Tupelo, Miss., thence over U.S. Highway 78 to Memphis, Tenn., and return over the same route, serving all intermediate points in Alabama; (4) between Atlanta, Ga., and Memphis, Tenn., from Atlanta, Ga., over U.S. Highway 78 to Memphis, Tenn., and return over the same route, serving all intermediate points in Alabama. Service under routes 1 through 4 above includes service to the Memphis, Tenn., commercial zone. Authority is sought for applicant to tack routes 1 through 4 with applicant's authority presently held under Public Convenience and Necessity No. MC 99610 (Sub-No. 14), and to interline with other carriers at all points of interchange in Alabama, and at Memphis, Tenn., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: There are approximately one-hundred sixty-two (162)

statements of support attached to the application which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined in the field office named below. Send protests to: Mabel E. Holston, Transportation Assistant, Bureau of Operations, Interstate Commerce Commission, Room 1616 2121 Building, Birmingham, Ala. 35203.

No. MC 109324 (Sub-No. 37TA), filed December 19, 1977. Applicant: GARRISON MOTOR FREIGHT, INC., P.O. Box 1278, Harrison, Ark. 72601. Applicant's representative: Jay C. Miner (same address as applicant). Authority sought to operate as common carrier by motor vehicle, over regular route, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, livestock, commodities in bulk and those requiring special equipment), (1) between Conway, Ark. and Fort Worth, Tex. and points within their respective commercial zones, and serving the intermediate points of Little Rock, Ark. and Dallas, Tex. and points in their respective commercial zones: from Conway over Interstate Highway 40 to junction Interstate Highway 30, thence over Interstate Highway 30 to Dallas, Tex., and thence over U.S. Highway 80 to Fort Worth and return over the same route; (2) between Danville, Ark. and Fort Worth, Tex. and points within their respective commercial zones, and serving the intermediate points of Booneville and Greenwood, Ark. and Dallas, Tex., and points within their respective commercial zones: from Danville over Arkansas Highway 10 to junction Arkansas Highway 10S, thence over Arkansas Highway 10S to junction U.S. Highway 71, thence over U.S. Highway 71 to junction U.S. Highway 271, thence over U.S. Highway 271 to junction U.S. Highway 59, thence over U.S. Highway 59 to junction Oklahoma Highway 9, thence over Oklahoma Highway 9 to junction U.S. Highway 69, thence over U.S. Highway 69 to junction U.S. Highway 75, thence over U.S. Highway 75 to Dallas, Tex., thence over U.S. Highway 80 to Fort Worth and return over the same route; and (3) between Mountain Home, Ark. and Fort Worth, Tex. and points within their respective commercial zones, and serving the intermediate points of Dallas, Tex. and Harrison, Ark.: from Mountain Home over U.S. Highway 62 to junction Arkansas Highway 68, thence over Arkansas Highway 68 to junction Arkansas Highway 74, thence over Arkansas Highway 74 to junction Arkansas Highway 16, thence over Arkansas Highway 16 to Fayetteville, Ark., thence over U.S. Highway 62 to Muskogee, Okla., thence over U.S. Highway 69 to junction U.S. Highway 75,

thence over U.S. Highway 75 to Dallas, Tex., thence over U.S. Highway 80 to Fort Worth and return over the same route. Restriction: The operations described in (1), (2), and (3) above are restricted against the transportation of shipments between Dallas and Fort Worth, Tex. and points in their respective commercial zones, on the one hand, and on the other, Kansas City, Springfield, and St. Louis, Mo. and points within their respective commercial zones. Applicant intends to tack its existing authority with MC 109324 and various subs thereunder for 180 days. Supporting shippers: There are approximately 404 statements of support attached to the application which may be examined at the Interstate Commerce Commission, in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: William H. Land, Jr., District Supervisor, 3108 Federal Office Building, 700 West Capitol, Little Rock, Ark. 72201.

No. MC 117344 (Sub-No. 265TA), filed December 16, 1977. Applicant: THE MAXWELL CO. 10380 Evendale Drive, P.O. Box 15010, Cincinnati, Ohio 45215. Applicant's representative: John C. Spencer (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular route, transporting: Dry fertilizers, in bulk, from the plantsite of Agrico Chemical Co. at Melbourne, Ky., to points in Illinois, Indiana, Kentucky, Michigan, Ohio, Virginia, and West Virginia. Restricted to the transportation of traffic originating at the above mentioned plantsite, for 180 days. Supporting Shippers: Agrico Chemical Co., P.O. Box 3166, Tulsa, Okla. 74101. J. J. Stefanec, Director, Transportation Legislation. Send protests to: Paul J. Lowry, District Supervisor, Bureau of Operations—Interstate Commerce Commission, 5514-B Federal Building, 550 Main Street, Cincinnati, Ohio 45202.

No. MC 117820 (Sub-No. 16TA), filed December 14, 1977. Applicant: AURELIA TRUCKING CO., 2136 Pine Grove Avenue, Port Huron, Mich. 48060. Applicant's representative: James D. Osmer, 100 West Long Lake Road, Suite 102 Bloomfield Hills, Mich. 48013. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Fabric-urethane foam laminates, from the plantsite of the Shawmut Mills Division of R. H. Wyner Associates, Inc., at Stoughton, Mass., to the facilities of Inmont Products, Inc., at Port Huron, Mich., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: R. H. Wyner Associates, P.O. Box A, Stoughton, Mass. 02072, Justin L. Wyner, President. Send protests to:

Erma W. Gray, Secretary, Interstate Commerce Commission, Bureau of Operations, 604 Federal Building and U.S. Courthouse, 231 West Lafayette Boulevard, Detroit, Mich. 48226.

No. MC 120675 (Sub-No. 5TA), filed December 14, 1977. Applicant: ACME TRUCK LINE, INC., P.O. Box 183, 736 St. Joseph Street, Harvey, La. 70058. Applicant's representative: Phillip Robinson, P.O. Box 2207, Austin, Tex. 78768. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Machinery, equipment, materials and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and byproducts, and machinery, materials, equipment and supplies used in or in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipe lines, including the stringing and picking up thereof; (2) earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled (c) the production, storage and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells, between points in, Connecticut, Delaware, Florida, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Rhode Island, South Carolina, and Virginia, on the one hand, and, on the other, points in the United States, including Alaska but excluding Hawaii, for 180 days. Supporting shippers: There are approximately (30) statements of support attached to this application which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Ray C. Armstrong, Jr., District Supervisor, T-9038 Federal Building and U.S. Post Office, New Orleans, La. 70113.

No. MC 123792 (Sub-No. 15 TA), filed November 23, 1977. Applicant: LEO J. UMERLEY, INC., 9813 Philadelphia Road, Baltimore, Md. 21237. Applicant's representative: Francis J. ortman, 7101 Wisconsin Avenue, Suite 605, Washington, D.C. 20014. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Salt and salt products, in packages, from White Marsh, Md., to points and place in

North Carolina, under a continuing contract, or contracts with Watkins Salt Co., Watkins Glen, N.Y., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Larry P. Girven, GTM, Watkins Salt Co., P.O. Box 150, Watkins Glen, N.Y. 14891. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, 814-B Federal Building, Baltimore, Md. 21201.

No. MC 140024 (Sub-No. 83TA), filed December 15, 1977. Applicant: J. B. MONTGOMERY, INC., 5565 East 52nd Street, Commerce City, Colo. 80022. Applicant's representative: John F. DeCock, 5565 East 52nd Street, Commerce City, Colo. 80022. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Pork, pork sides, pork products and pork by-products (except commodities in bulk), from the plantsite and facilities of Sigman Meat Co., Inc. at or near Brush, Colo., to points in California, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Sigman Meat Co., Inc., P.O. Box 364, Brush, Colo. 80723. Send protests to: District Supervisor, R. L. BUCHANAN, 492 U.S. Customs House, 721 19th Street, Denver, Colo. 80202.

No. MC 143659 (Sub-No. 2TA), filed December 16, 1977. Applicant: VALLEY TRUCKING, INC., Box 55, Rural Route 2, Fargo, N. Dak. 58102. Applicant's representative: James B. Hovland, 414 Gate City Building, P.O. Box 1680, Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Malt beverages, from cold Spring, Minn., to Fargo, N. Dak., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting Shipper: Bergseth Bros., 501 23rd Street North, Fargo, N. Dak. 58102. Send protests to: Ronald R. Mau, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 268 Federal Building and U.S. Post Office, 657 2nd Avenue North, Fargo, N. Dak. 58102.

No. MC 144095TA, filed December 14, 1977. Applicant: WILLIAM C. FRIAR, doing business as, FRIAR TRUCKING, 1079 Durfee Avenue, Oshkosh, Wis. 54901. Applicant's representative: Michael S. Varda, 121 South Pinckney Street, Madison, Wis. 53703. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Thercoma (a granulated fire retardant chemical), in bags, from Farmland, Ind., to Oshkosh, Wis., under a continuing contract or contracts with

Four Seasons Insulation Manufacturing Ltd., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Four Seasons Insulation Manufacturing Ltd., P.O. Box 2823, Oshkosh, Wis. 54901, (Leonard R. Zuehlke). Send protests to: Gail Daugherty, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building and Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, Wis. 53202.

No. MC 144098TA, filed December 16, 1977. Applicant: METRO TRUCKING COMPANY, INC., 1523 North 9th Street, Milwaukee, Wis. 53205. Applicant's representative: Joseph T. Bambrick, Jr., P.O. Box 216, Douglassville, Pa. 19518. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Used household goods, restricted to the transportation of shipments having a prior subsequent movement, in container, beyond the points authorized and further restricted to the performance of packing and unpacking of such containers, between Milwaukee County, Wis., on the one hand, and, on the other, points within the State of Wisconsin, for 180 days. Supporting shipper: Department of Defense, Office of the Judge Advocate General, Department of the Army, Washington, D.C. 20310 (Dellon E. Coker). Send protests to: Gail Daugherty, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building and Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, Wis. 53202.

By the Commission.

H. G. HOMME, Jr.,  
Acting Secretary.

[Notice No. 282]

#### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission by February 21, 1978.

Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopsis form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

No. MC-FC-77476, filed December 27, 1977. Transferee: ADAMS, REFRIGERATED EXPRESS, INC., P.O. Box F, Forest Park, Ga. 30050. Transferor: HUNT TRANSPORTATION, INC., 10770 I Street, Omaha, Nebr. 68127. Applicants' representative: Donald L. Stern, Attorney at Law, Univac Building (Suite 530), 7100 West Center Road, Omaha, Nebr. 68106. Authority sought for purchase by transferee of a portion of the operating rights of transferor, as set forth in Certificate No. MC 82841, issued May 7, 1970, as follows: Paper and paper products, and products produced or distributed by manufacturers and converters of paper and paper products (except commodities in bulk), from the plantsite of Bowaters Southern Paper Corp. at or near Calhoun (McMinn County), Tenn., to points in Oklahoma, Missouri, Kansas, Nebraska, Iowa, Wisconsin, Colorado, and New Mexico, with no transportation for compensation on return except as otherwise authorized. Restriction: The service authorized under the commodity description immediately above is restricted to traffic originating at the immediately above-named plantsite. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210a(b).

No. MC-FC-77481, filed January 3, 1978. Transferee: C. C. HILTNER VANNING, INC., 13730 Hiltner Road, Reisterstown, Md. 21136. Transferor: E. M. EBERT, INC., 55 Plainfield Avenue, Elmont, N.Y. 11003. Applicants' representatives: Alvin Altman, 888 Seventh Avenue, New York, N.Y. 10019 and Harold E. Meslirow, 1220 19th Street NW., Washington, D.C. 20036. Authority sought for purchase by transferee of the operating rights

of transferor, as set forth in Certificate No. MC 88653, issued February 4, 1965, as follows: Horses (other than ordinary livestock), and equipment and paraphernalia incidental to the care, transportation and exhibition of such horses, between points in Connecticut, Delaware, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, South Carolina, Virginia, West Virginia, and Pennsylvania. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210a(b).

No. MC-FC-77485, filed December 29, 1977. Transferee: DeWAYNE KNISELY, d.b.a. KNISELY TRANSFER, 115 West Mahoning Street, Punxsutawney, Pa. 15767. Transferor: JOHN M. KENDRA, d.b.a. KENDRA'S TRANSFER CO., 562 West Mahoning Street, Punxsutawney, Pa. 15767. Applicants' representative: H. Ray Pope, Attorney at Law, 10 Grant Street, Clarion, Pa. 16214. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 47255, issued September 20, 1940, as follows: Household goods, over irregular routes, between points and places in Armstrong, Clearfield, Indiana, and Jefferson Counties, Pa., on the one hand, and, on the other, points and places in Michigan, New Jersey, New York, Ohio, Virginia, and West Virginia, traversing Maryland for operating convenience only. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

H. G. HOMME, Jr.,  
Acting Secretary.

#### [7035-01]

[Finance Docket No. 28586 (Sub-No. 1)]

#### MISSOURI PACIFIC RAILROAD CO.—MERGER—MISSOURI PACIFIC RAILROAD CO., ET AL

Missouri Pacific Railroad Co., a Delaware corporation (MoPac-Delaware), 210 North 13th Street, St. Louis, Mo. 63103; Missouri Pacific Railroad Co., a Missouri corporation (MoPac-Missouri), 210 North 13th Street, St. Louis, Mo. 63103; and MoPac-Missouri's wholly owned subsidiary railroads, Abilene & Southern Railway Co. (A&S), North First at Cypress, Abilene, Tex. 79601; Fort Worth Belt Railway Co. (FWB), T&P Passenger Station Building, Fort Worth, Tex. 76102; Missouri-Illinois Railroad Co. (MI), 210 North 13th Street, St. Louis, Mo. 63103; New Orleans and Lower Coast Railroad Co. (NOLC), 1384 Annunciation Street, New Orleans, La. 70130; St. Joseph Belt Railway Co. (St.

Jo Belt), 210 North 13th Street, St. Louis, Mo. 63103; Texas-New Mexico Railway Co. (T-NM), 101 North Main Street, Monahans, Texas 79756; and Union Terminal Railway Co. (Union Term.), 210 North 13th Street, St. Louis, Mo. 63103, all represented by Mark M. Hennelly, Senior Vice President and General Counsel for MoPac-Missouri, 2000 Missouri Pacific Building, 210 North 13th Street, St. Louis, Mo. 63103, on December 20, 1977, filed with the Interstate Commerce Commission at Washington, D.C., a joint application under section 5(2) of the Interstate Commerce Act for an order authorizing the merger of the properties and franchises of MoPac-Missouri, A&S, FWB, MI, NOLC, St. Jo Belt, T-NM, and Union Term. with and into MoPac-Delaware. The merger proceeding has been assigned Finance Docket No. 28586 (Sub-No. 1). The surviving corporation resulting from such merger, MoPac-Delaware, further made application under section 20a of the Interstate Commerce Act for an order authorizing the issuance of common stock and the assumption of liability in respect of securities to the extent that any of the named railroads is liable as obligor or guarantor of such securities. The stock issuance and assumption of liability proceeding has been assigned Finance Docket No. 28637.

By supplemental application filed December 27, 1977, Missouri Pacific Corp. joins in the merger application. MoPac-Delaware is a wholly owned subsidiary, and MoPac-Missouri a 92.3 percent-owned subsidiary, of Missouri Pacific Corp.

The applicants will effectuate merger under a Plan and Joint Agreement of Merger and Consolidation which provides that upon consummation of the merger, the separate corporate existences of MoPac-Missouri and its named subsidiaries will cease and all of their rights and obligations will vest in MoPac-Delaware. As a part of the merger each share of common stock of MoPac-Missouri will be converted into 0.95 shares of Missouri Pacific Corp. common stock, except that the common stock of MoPac-Missouri which is owned by Missouri Pacific Corp. will be cancelled; the capital stock of the named subsidiary railroads will be cancelled; and the common stock of MoPac-Delaware will be authorized and outstanding. Accordingly, after consummation of the merger, the surviving corporation would remain a wholly owned subsidiary of Missouri Pacific Corp. and would continue the carrier operations and business of MoPac-Missouri and the named subsidiary railroads under the name Missouri Pacific Railroad Co.

MoPac-Missouri operates 12,314 miles of mainline railroad and 4,875

miles of sidings and spur tracks in the States of Texas, New Mexico, Louisiana, Mississippi, Tennessee, Arkansas, Oklahoma, Kansas, Missouri, Illinois, Nebraska, and Colorado. A&S operates 38.61 miles of railroad from Abilene, Tex., to Winters, Tex. FWB operates 2.94 miles of mainline track and 12.33 miles of yard track and sidings in the city of the Fort Worth, Tex. MI operates 332.79 miles of main track and 49.78 miles of yard tracks and sidings in the States of Illinois and Missouri. NOLC operates 34 miles of main track and 15.67 miles of yard track and sidings from New Orleans, La., to Port Sulphur, La. St. Jo Belt operates 2.33 miles of main track, 14.11 miles of yard track, and 0.74 miles of trackage rights just outside the city of St. Joseph, Mo. T-NM operates 108.31 miles of railroad from Monahans, Tex., to Lovington, N. Mex. Union Term. operates 5.87 miles of main track, 16.69 miles of yard track, and 3.10 miles of trackage rights, both inside and outside the city of St. Joseph, Mo.

Interested persons may participate formally in a proceeding by submitting written comments regarding the application. Such submissions shall indicate the proceeding designation Finance Docket No. 28586 (Sub-No. 1), and the original and two copies thereof shall be filed with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, not later than 45 days after the date notice of the filing of the application is published in the FEDERAL REGISTER. Such written comments shall include the following: the person's position, e.g., party protestant or party in support, regarding the proposed transaction; specific reasons why approval would or would not be in the public interest; and a request for oral hearing if one is desired. Additionally, interested persons who do not intend to participate formally in a proceeding but who desire to comment thereon, may file such statements and information as they may desire, subject to the filing and service requirements specified herein. Persons submitting written comments to the Commission shall, at the same time, serve copies of such written comments upon the applicant, the Secretary of Transportation and the Attorney General.

H. G. HOMME, Jr.  
Acting Secretary.

## [7035-01]

[Volume No. 53]

JANUARY 13, 1978.

**PETITIONS, APPLICATIONS, FINANCE MATTERS (INCLUDING TEMPORARY AUTHORITIES), RAILROAD ABANDONMENTS, ALTERNATE ROUTE DEVIATIONS, AND INTRASTATE APPLICATIONS**

**PETITIONS FOR MODIFICATION, INTERPRETATION, OR REINSTATEMENT OF OPERATING RIGHTS AUTHORITY**

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

The Commission has recently provided for easier identification of substantive petition matters and all documents should clearly specify the "docket", "sub", and "suffix" (e.g. M1, M2) numbers identified by the FEDERAL REGISTER notice.

An original and one copy of protests to the granting of the requested authority must be filed with the Com-

mission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rule 247(d) of the Commission's *General Rules of Practice* (49 CFR 1100.247) and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

No. MC 76 (M1) (correction) (Notice of filing of Petition to Broaden Territory), filed November 8, 1977, published in the FEDERAL REGISTER issue of December 30, 1977, and republished, as corrected, this issue. Petitioner: MAWSON & MAWSON, INC., P.O. Box 125, Langhorne, Pa. 19047. Petitioner's representative: Dwight L. Koerber, Jr., 666 Eleventh St. NW., Washington, D.C. 20001. Petitioner holds a motor common carrier Certificate in No. MC 76, issued April 5, 1973, authorizing transportation, over irregular routes, of, as pertinent: *Steel, steel products, and commodities* the transportation of which, because of size or weight, requires the use of special equipment, between Philadelphia, Pa., and points in Pennsylvania within 150 miles of Philadelphia, on the one hand, and, on the other, points in New York, New Jersey, Delaware, and Maryland. By the instant petition, petitioner seeks to broaden the territorial description to read: Between Philadelphia, Pa., and points in Philadelphia within 150 miles of Philadelphia, on the one hand, and, on the other, points in New York, New Jersey, Delaware, Maryland, and Pennsylvania. The purpose of this correction is to clarify authority sought.

No. MC 730 (Sub-No. 76) (M1) (notice of filing of petition to modify restriction), filed October 31, 1977. Petitioner: PACIFIC INTERMOUNTAIN EXPRESS CO., a corporation, P.O. Box 958, 1417 Clay Street, Oakland, Calif. 94604. Petitioner's representative: Alfred G. Krebs (same address as petitioner). Petitioner holds a motor common carrier Certificate in No. MC 730 (Sub-No. 76), issued March 11, 1957, authorizing transportation, as pertinent, over regular routes, of *general commodities* (except classes A and B explosives, household goods as defined by the Commission, livestock, gold bullion, and bulk liquids in tank trucks), between Los Angeles, Calif., and Seattle, Wash., serving the intermediate and off-route points of Fresno, Modesto, Stockton, Sacramento, and Redding, Calif., Ashland, Med-

\*Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

ford, Grants Pass, Roseburg, Eugene, Corvallis, Albany, Salem, and Portland, Oreg., Chehalis, Centralia, Olympia, and Tacoma, Wash., and those in the Los Angeles, Calif. commercial zone as defined by the Commission, restricted to traffic moving between Washington and Oregon points, on the one hand, and, on the other, points in California; and the intermediate point of Klamath Falls, Oreg., restricted to traffic moving between Klamath Falls, on the one hand, and, on the other, points in the Los Angeles Calif., commercial zone, and the Los Angeles Harbor commercial zone, as defined by the Commission, and the following language substituted in lieu thereof in the above authority: "and the off-route point of Klamath Falls, Oreg., restricted to traffic moving between Klamath Falls, on the one hand, and, on the other, points in California or Oregon."

By the instant petition, petitioner seeks to have Klamath Falls, Oreg., be designated as an off-route point in lieu of an intermediate point, and also to modify the second restriction. The following language would therefore be deleted: "and the intermediate point of Klamath Falls, Oreg., restricted to traffic moving between Klamath Falls, on the one hand, and, on the other, points in the Los Angeles, Calif., commercial zone, and the Los Angeles Harbor commercial zone, as defined by the Commission" and the following language substituted in lieu thereof in the above authority: "and the off-route point of Klamath Falls, Oreg., restricted to traffic moving between Klamath Falls, on the one hand, and, on the other, points in California or Oregon."

No. MC 115818 (Sub-No. 13) (M1) (notice of filing of petition to add contracting shipper and broaden territorial description), filed November 16, 1977.

Petitioner: WESTBURY TRANSPORT, INC., P.O. Box 272, Manhasset, N.Y. 11030. Petitioner's representative: Roy A. Jacobs, 550 Maroneck Avenue, Harrison, N.Y. 10528. Petitioner holds a motor contract carrier Permit in No. MC 115818 (Sub-No. 13), issued August 19, 1977, authorizing transportation, over irregular routes, of: (1)(a) *Such merchandise as is dealt in by retail department stores* (except commodities in bulk), from New York, N.Y., to points in New Jersey, New York, and Connecticut; and (b) From Paterson N.J., to points in Connecticut, New Jersey (except Paterson), and New York; and (2) *Returned shipments of the commodities described in (1) above, from points in New Jersey, New York, and Connecticut, to New York, N.Y.* (b) From points in Connecticut, New Jersey (except Paterson), and New York, N.Y., to Paterson, N.J., under a continuing contract or contracts with (1) Allied Stores of New York, Inc., of Jamaica, N.Y., and (2) Bedding Showcase, Inc., of Huntington, N.Y. By the instant petition, petitioner seeks to add D. M. Read, Inc., as an additional contracting shipper, and seeks addition of the following: (1)(c) From Bridgeport, Danbury, and Trumbull, Conn., to points in Connecticut (except Bridgeport, Danbury, and Trumbull), New Jersey and New York; and (2)(c) from points in Connecticut (except Bridgeport, Danbury, and Trumbull), New Jersey and New York, to Bridgeport, Danbury and Trumbull, Conn.

No. MC 129074 (M1) (notice of filing of petition to modify a permit by the addition of contracting shippers), filed July 14, 1977. Petitioner: DELTA TRANSPORT LTD., Blockhouse Lunenburg, P.O. Box 130, North Sydney, Nova Scotia, Canada. Petitioner's representative: Francis E. Barrett, Jr., 10 Industrial Park Road, Hingham, Mass. 02043. Petitioner holds a motor contract carrier permit in No. MC 129074, issued August 25, 1967, authorizing transportation over irregular routes, of (1) *Fresh and processed fish*, from ports of entry on the United States-Canada boundary line at or near Calais and Houlton, Maine, to Bangor, Maine; Boston, Gloucester, Worcester, and Springfield, Mass., Providence, R.I., Hartford, New Haven, and Bridgeport, Conn., New York, N.Y., and Philadelphia and Pittsburgh, Pa.; and (2) *Fish packaging supplies and trawler equipment and machinery*, from Boston and Gloucester, Mass., and New York City, N.Y., to ports of entry on the United States-Canada boundary line at or near Calais and Houlton, Maine. Restriction: The service authorized herein is subject to the following conditions: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with the following shippers: H. B. Nickerson and Sons, Ltd., of North Sydney, Nova Scotia, Canada; and Riverport Seafoods, Ltd., of Riverport, Nova Scotia, Canada. By the instant petition, petitioner seeks to modify the above authority by (1) adding an origin point of Portland, Maine in (2) above; and (2) petitioner seeks to add the following subsidiaries which are wholly owned by H. B. Nickerson and Sons: (a) Canso Seafoods Ltd., Canso, Nova Scotia; (b) Nickerson Outfitting Co. Ltd., North Sydney; (c) Ritcey Bros. (Fisheries) Ltd., Riverport, Nova Scotia; (d) Versatile Contracting Ltd., Sydney, Nova Scotia; (e) H. F. Russell Sea Foods Ltd., Lismore, Nova Scotia; (f) Nickerson Bros. Ltd., Port Mouton, Nova Scotia; (g) Ferguson Industries Ltd., Pictou, Nova Scotia; (h) Amos Brannen & Sons Ltd., Yarmouth, Nova Scotia; (i) Wedgeport Marine Products Ltd., Wedgeport, Nova Scotia; (j) Dingwall Fish Co. Ltd., Dingwall, Nova Scotia; (k) Ingalls Head Sea Food Ltd., Grand Manan, New Brunswick.

NOTE.—Riverport Seafoods, Ltd. of Riverport, Nova Scotia, is also a wholly owned subsidiary of Nickerson.

No. MC 135684 (Sub-No. 19) (M1) (Notice of filing of petition to modify certificate of public convenience and necessity), filed October 14, 1977. Petitioner: BASS TRANSPORTATION CO., INC., P.O. Box 391, Flemington, N.J. 08822. Petitioner's representative: Herbert Alan Dubin, 1320 Fenwick

Lane, Suite 500, Silver Spring Md. 20910. Petitioner holds a motor common carrier Certificate in MC 135684 (Sub-No. 19) issued September 15, 1977, which, in pertinent part, authorizes the transportation of: *Paper bags* from Newton, Conn. to points in Pennsylvania, Ohio, and Virginia; *Kraft wrapping paper and wood pulp board* from West Point, Va. to Newtown, Conn.; *Paper and paper articles* from Newtown, Conn. to points in Maine New Hampshire, Vermont, Massachusetts, Rhode Island, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, and Ohio; and *Materials, supplies and equipment* (other than bulk) used in the manufacture and distribution of plastic articles and paper articles, and returned shipments of plastic articles and paper and paper articles from the destination points named previously to Newtown, Conn. Said operations are restricted to traffic originating at or destined to facilities of Bemis Company, Inc.; and said operations are restricted to traffic originating at points in the above-named origin territory and destined to points in the above-named destination territory. By the instant petition, Petitioner seeks to modify the Certificate so as to change the point Newtown, Conn. to Crossett, Ark. to reflect the shipper's closing of the facility at Newtown, Conn. and the substitution of Crossett, Ark. for the distribution and manufacturing functions formerly performed at Newtown, Conn.

#### REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION

##### NOTICE

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER.

An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such pleading shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including copies of intervenor's conflicting authorities and a concise statement of intervenor's interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced by lack of notice of the authority granted. A copy of the pleading shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

No. MC 59806 (Sub-No. 9) (Republication), filed March 14, 1977, pub-

lished in the FEDERAL REGISTER issue of May 5, 1977, and republished this issue. Applicant: GROSS & HECHT TRUCKING, INC., P.O. Box 514, 35 Brunswick Avenue, Edison N.J. 08817. Applicant's representative: A. David Millner, 167 Fairfield Road, P.O. Box 1409, Fairfield, N.J. 07006. An Order of the Commission, Review Board No. 3, dated October 19, 1977, and served November 1, 1977, finds that operation by applicant, in interstate or foreign commerce, as a *contract carrier* by motor vehicle, over irregular routes, transporting: (1) *Such merchandise* as is dealt in by wholesale, retail and chain grocery and food business houses, and (2) *equipment, material, and supplies* used in the conduct of the business described in (1) above, between points in Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Ocean, Passaic, Somerset, Sussex, Union and Warren Counties, N.J., Bronx, Dutchess, Kings, Nassau, New York, Orange, Queens, Putnam, Richmond, Rockland, Suffolk, Sullivan, Ulster, and Westchester Counties, N.Y., and Fairfield County, Conn., under a continuing contract, or contracts, with White Rose Frozen Food Corp., of Secaucus, N.J., restricted in (1) and (2) above against the transportation of commodities in bulk, will be consistent with the public interest and the national transportation policy. Applicant is fit, willing, and able properly to perform the granted service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to give notice of the authorization of points in Putnam and Dutchess Counties, N.Y. as additional service points.

No. MC 109397 (Sub-No. 319) (Republication) (Notice of filing of petition to modify certificate), filed May 2, 1977, published in the FEDERAL REGISTER issue of June 9, 1977, and republished this issue. Petitioner: TRI-STATE MOTOR TRANSIT CO., a corporation, P.O. Box 113, east on interstate business route 44, Joplin, Mo. 64801. Petitioner's representative: Max G. Morgan, 223 Ciudad Building, Oklahoma City, Okla. 73112. An Order of the Commission, Review Board No. 3, dated October 25, 1977, and served November 14, 1977, finds that the present and future public convenience and necessity require modification of petitioner's Certificate No. MC 109397 (Sub-No. 319), issued December 16, 1975, to read: *Canned animal food, and dry dog food*, from Sante Fe Springs and Vernon, Calif., to points in Arkansas, Tennessee, Oklahoma, Virginia, Ohio, Kentucky, New York, New Jersey, Pennsylvania, and Maryland. Petitioner is fit, willing, and able properly to perform such service and to conform to the requirements of the

Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate the addition of dry dog food to the commodity description in the modifications authorized to petitioner's certificate.

No. MC 111545 (Sub-No. 236) (Republication), filed April 26, 1977, published in the FEDERAL REGISTER issue of June 3, 1977, and republished this issue. Applicant: HOME TRANSPORTATION CO., INC., P.O. Box 6426, Station A, Marietta, Ga. 30065. Applicant's representative: Robert E. Born (same address as applicant). An Order of the Commission, Review Board No. 2, dated November 3, 1977, and served November 15, 1977, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, transporting: *Plywood and composition board* from the facilities of Day Companies, Inc., located in Randolph County, Ga., to points in that part of the United States in and east of North Dakota, South Dakota, Nebraska, Colorado, and New Mexico (except Florida and Georgia). Applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's regulations. The purpose of this republication is to give notice of the addition of composition board to the commodity description in applicant's grant of authority.

No. MC 142289 (Sub-No. 2) (Republication), filed September 2, 1976, published in the FEDERAL REGISTER issue of October 15, 1976, and republished this issue. Applicant: HECHT BROTHERS, INC., 2075 Lakewood Road, Toms River, N.J. 08753. Applicant's representative: Rita Tripodi (same address as applicant). An Order on Further Consideration, Review Board No. 3, dated November 10, 1977, and served December 12, 1977, finds on further consideration that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, transporting: *Glass, formica panels, prefabricated woodwork, architectural trim, plastic and wooden trim, prefabricated shutters, plastic shutters, prehung doors, and prehung windows*, between the facilities of The Level Line, Inc., at or near Lakewood, N.J., and the facilities of The Level Line, Inc., at or near Allentown, Pa., restricted to the transportation of shipments originating at or destined to the above-described facilities. Applicant is fit, willing, and able to perform the granted service and to conform to the requirements of

the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to give notice (1) of the grant of common carrier authority in lieu of contract carrier; and (2) of the broadening of the territorial description.

#### MOTOR CARRIER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

The following applications are governed by Special Rule 247 of the Commission's General Rules of Practice (49 CFR 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 2017 (Sub-No. 7), Filed November 25, 1977. Applicant: ALTO'S EXPRESS, INC., Cinnaminson Industrial Park, 2301 Garry Road, Cinnaminson, N.J. 08077. Applicant's representative: Wayne W. Wilson, 329 West Wilson Street, P.O. Box 8004, Madison, Wis. 53708. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs and materials, equipment and supplies* used or useful in the manufacture sale or distribution of foodstuffs (except in bulk, in tank vehicles); between Moosic, Pa., on the one hand, and, on the other, points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Rhode Island, West Virginia, and the District of Columbia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Philadelphia, Pa., or Chicago, Ill.

No. MC 11207 (Sub-No. 409), Filed November 23, 1977. Applicant: DEATON, INC., 317 Avenue W, P.O. Box 938, Birmingham, Ala. 35201. Applicant's representative: Kim D. Mann, Suite 1010, 7101 Wisconsin Avenue, Washington, D.C. 20014. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Sheet steel containers, plastic containers, terne plate, and tin plate*, from Homerville, Ga. to points in Alabama, Louisiana, Mississippi, and Texas, (2) *materials, and supplies* used in the manufacture of sheet steel containers, plastic containers, terne plate, and tin plate, from points in Alabama, Louisiana, Mississippi, and Texas to Homerville, Ga.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Jacksonville, Fla., or Atlanta Ga.

No. MC 29120 (Sub-No. 207), filed November 17, 1977. Applicant: ALL-AMERICAN, INC., 9393 West 110th Street, 5th Floor, Overland Park, Kans. 66210. Applicant's representative: Harold H. Clokey (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (except those of unusual value, dangerous explosives, household goods, commodities in bulk, commodities requiring special equipment) between Denver, Colo. and Rapid City, S. Dak., serving Ellsworth Air Force Base, Rosebud, Sturgis, Belle Fourche, S. Dak., as off route points. From Denver over U.S. 85 to Torrington, Wyo., thence over U.S. 85 to the junction of U.S. 85 and U.S. 26, thence over U.S. 26 to the

junction of U.S. 26 and U.S. 85, at or near Lingle, Wyo., thence over U.S. 85 to the junction of U.S. 85 and U.S. 16, at or near New Castle, Wyo., thence over U.S. 16 to Rapid City, S. Dak., and return over the same route.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Denver, Colo. or Rapid City, S. Dak. Common control may be involved.

No. MC 29910 (Sub-No. 179), filed November 23, 1977. Applicant: ARKANSAS-BEST FREIGHT SYSTEM, INC., 301 South 11th Street, Fort Smith, Ark. 72901. Applicant's representative: Don A. Smith, P.O. Box 43, 510 North Greenwood, Fort Smith, Ark. 72902. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Lift trucks and lift truck attachments, parts and accessories* (except commodities which because of size or weight require the use of special equipment): between the facilities of Nissan Industrial Equipment Co., at or near Memphis, Tenn., on the one hand, and, on the other, points in that part of the United States in and east of Colorado, Montana, New Mexico, and Wyoming, restricted to the transportation of shipments originating at or destined to the facilities of Nissan Industrial Equipment Co., or its distributors or shippers.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Memphis, Tenn., or Little Rock, Ark.

No. MC 48958 (Sub-No. 148), filed November 18, 1977. Applicant: ILLINOIS-CALIFORNIA EXPRESS, INC., 510 East 51st Avenue, P.O. Box 16404, Denver, Colo. 80216. Applicant's representative: Lee E. Lucero (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities*, (except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), (1) Between Denver, Colo., and Cheyenne, Wyo., serving the intermediate point of Fort Collins, Colo. only; From Denver, Colo. over U.S. Highway 287 to Fort Collins, Colo., thence over Colorado State Highway 14 to junction Interstate Highway 25, thence over Interstate Highway 25 to Cheyenne, Wyo., and return over the same route; (2) Between Greeley, Colo., and Fort Collins, Colo., serving no intermediate points: From Greeley, Colo. over U.S. Highway 34 to junction Interstate Highway 25, thence over Interstate Highway 25 to junction Colorado State Highway 68, thence over Colorado State Highway 68 to junction U.S. Highway 287, thence over U.S. Highway 287 to Fort Collins, and return

over the same route; (3) Between Greeley, Colo., and Fort Collins, Colo., serving no intermediate points: From Greeley, Colo. over U.S. Highway 34 to junction Interstate Highway 25, thence over Interstate Highway 25 to junction Prospect Street (or over Interstate Highway 25 to junction Colorado State Highway 14) thence over Prospect Street or Colorado State Highway 14 to Fort Collins, and return over the same route; (4) Between Eaton, Colo., and Fort Collins, Colo., serving no intermediate points: From Eaton, Colo. over Weld County Road 74 and Colorado State Highway 68 to junction U.S. Highway 287, thence over U.S. Highway 287 to Fort Collins, and return over the same route; (5) Between Eaton, Colo., and Fort Collins, Colo., serving no intermediate points: From Eaton, Colo. over Weld County Road 74 to junction Interstate Highway 25, thence over Interstate Highway 25 to junction Prospect Street (or over Interstate Highway 25 to junction Colorado State Highway 14), thence over Prospect Street or Colorado State Highway 14 to Fort Collins, and return over the same route; (6) Between Ault, Colo., and Fort Collins, Colo., serving no intermediate points: From Ault, Colo. over Colorado State Highway 14 to Fort Collins, Colo., and return over the same route; (7) Between Denver, Colo., and Fort Collins, Colo., serving no intermediate points: From Denver, Colo. over U.S. Highway 87 (Interstate Highway 25) to junction Colorado State Highway 68, Prospect Road or Colorado State Highway 14, thence over Colorado State Highway 68, Prospect Road or Colorado State Highway 14 to Fort Collins, and return over the same route.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Fort Collins, Colo.

No. MC 51146 (Sub-No. 549), filed November 21, 1977. Applicant: SCHNEIDER TRANSPORT, INC., P.O. Box 2298, Green Bay, Wis. 54306. Applicant's representative: Wayne Downing (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Plastic products* from Seymour, Ind., to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 61231 (Sub-No. 112), filed November 23, 1977. Applicant: ACE LINES, INC., 4143 East 43rd Street, Des Moines, Iowa 50317. Applicant's representative: William L. Fairbank, 1980 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transport-

ing: *Perlite products, vermiculite products and insulation* (except commodities in bulk), from the plantsite of W. R. Grace & Co., at Milwaukee, Wis., to points in Indiana.

NOTE.—If a hearing is deemed necessary, applicant requests that the hearing be held at Chicago, Ill.

No. MC 61825 (Sub-No. 72), filed November 25, 1977. Applicant: ROY STONE TRANSFER CORP., V. C. Drive, Post Office Box 385, Collinsville, Va. 24078. Applicant's representative: John D. Stone, Roy Stone Transfer Corp., Post Office Box 385, Collinsville, Va. 24078. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Malt beverages and related advertising materials* from Eden, N.C., to points in Alabama, Delaware, District of Columbia, Florida, Georgia, Kentucky, Maryland, South Carolina, Tennessee, Virginia, and West Virginia and (2) *materials, supplies, and equipment* used in the manufacture, sale, and distribution of malt beverages, and returned empty malt beverage containers (except commodities in bulk), from points in Alabama, Delaware, District of Columbia, Florida, Georgia, Kentucky, Maryland, South Carolina, Tennessee, Virginia, and West Virginia, to Eden, N.C.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 61825 (Sub-No. 73), filed November 22, 1977. Applicant: ROY STONE TRANSFER CORP., V. C. Drive, P. O. Box 385, Collinsville, Va. 24078. Applicant's representative: John S. Stone (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Petroleum and petroleum products, vehicle body sealer and sound deadener compound* (except in bulk), and filters, (a) from points in Marion County, Tenn., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maryland, Massachusetts, Michigan, North Carolina, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, South Carolina, Virginia, West Virginia, and the District of Columbia, restricted to traffic originating at points in Marion County, Tenn.; (b) from points in Ohio, New York, Rhode Island, Pennsylvania, and West Virginia to points in Marion County, Tenn., restricted to traffic destined to Marion County, Tenn.; (2) *materials, supplies and equipment* used in the manufacture, sale and distribution of the commodities named in Part I above (except in bulk), from points in Ohio, West Virginia, Pennsylvania, Alabama, Georgia, Virginia, and Kentucky to Marion County, Tenn., restricted to traffic destined to points in Marion County, Tenn.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Memphis, Tenn., or Pittsburgh, Pa.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 63417 (Sub-No. 121), filed November 23, 1977. Applicant: BLUE RIDGE TRANSFER COMPANY, INC., P.O. Box 13447, Roanoke, Va. 24034. Applicant's representative: William E. Bain, P.O. Box 13447, Roanoke, Va. 24034. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Agricultural limestone and gypsum* (except in bulk), from Irvington, Ky., to points in Delaware, The District of Columbia, Georgia, Maryland, New Jersey, North Carolina, Pennsylvania, South Carolina, Virginia, and West Virginia, and returned shipments of the above commodities from above destinations to Irvington, Ky.

NOTE.—If an oral hearing is deemed necessary, applicant requests that it be held at Roanoke, Va. or Washington, D.C.

No. MC 65941 (Sub-No. 46), filed November 23, 1977. Applicant: TOWER LINES, INC., 3rd and Warwood Avenue, Box 6010, Wheeling, W. Va. 26003. Applicant's representative: Paul M. Danilell, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Petroleum and petroleum products, vehicle body sealer and/or sound deadener compound* (except in bulk), and filters, from points in Marion County, Tenn., to points in Alabama, District of Columbia, Florida, Georgia, Kentucky, Maryland, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, and West Virginia, restricted to traffic originating at points in Marion County, Tenn.; (2) *materials, supplies and equipment* used in the manufacture, sale and distribution of the commodities named in Part I above (except in bulk), from points in Ohio, West Virginia, Pennsylvania, Alabama, Georgia, Virginia, and Kentucky, to Marion County, Tenn., restricted to traffic destined to points in Marion County, Tenn.; (3) *petroleum and petroleum products, vehicle body sealer and/or sound deadener compound* (except in bulk), and filters, from points in Ohio, New York, Rhode Island, Pennsylvania, and West Virginia, to points in Marion County, Tenn., restricted to traffic destined to Marion County, Tenn.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Memphis, Tenn., or Pittsburgh, Pa.

No. MC 73165 (Sub-No. 421), filed November 23, 1977. Applicant: EAGLE MOTOR LINES, INC., 830 North 33rd Street, Birmingham, Ala. 35202. Applicant's representative: R. Cameron Rollins (same address as applicant). Authority sought to operate as common

carrier, by motor vehicle, over irregular routes, transporting: *Iron and Steel, Iron and Steel Articles, and Iron and Steel Products*; and those commodities which because of size and weight require special equipment or handling, from Savannah, Ga., to points in Alabama, Georgia, North Carolina, South Carolina, Tennessee, Mississippi, Kentucky, and Virginia.

NOTE.—If hearing is deemed necessary, applicant requests it be held at either Atlanta, Ga. or Savannah, Ga.

No. MC 73688 (Sub-No. 77), filed November 22, 1977. Applicant: SOUTHERN TRUCKING CORP., 1500 Orenda Avenue, Memphis, Tenn. 38107. Applicant's representative: Robert E. Tate, P.O. Box 517, Evergreen, Ala. 36401. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Roofing and roofing materials, siding, asphalt* (except in bulk) and accessories thereto from the plantsite of Masonite Corp., located at or near Meridian, Miss., to points in Alabama, Arkansas, Georgia, Florida, Kentucky, Louisiana, North Carolina, South Carolina, and Tennessee; and (2) *roofing granules and crushed stone in bags* from the plantsite of Minnesota Mining and Mfg. Co. located at or near Little Rock, Ark., to the plantsite of Masonite Corp., located at or near Meridian, Miss.

NOTE.—If a hearing is deemed necessary the applicant requests it be held at either Meridian, Miss., or Birmingham, Ala.

No. MC 74321 (Sub-No. 137), filed December 2, 1977. Applicant: B. F. WALKER, INC., P.O. Box 17-B, Denver, Colo. 80217. Applicant's representative: Richard P. Kissinger, Steele Park, Suite 330, 50 South Steele Street, Denver, Colo. 80209. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Trailers, semi-trailers, and trailer chassis* (other than those designed to be drawn by passenger automobiles) in initial movements, in driveway service, from the plantsite of Boyd Tank Trailers, Inc., located at or near Boyd, Tex., to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held in Fort Worth, Tex., or Dallas, Tex.

No. MC 78228 (Sub-No. 71), filed November 25, 1977. Applicant: J MILLER EXPRESS, INC., 962 Greentree Road, Pittsburgh, Pa. 15220. Applicant's representative: Henry M. Wick, Jr., 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Refractories and refractory products*, from Carrollton, Ohio, and Kittan-

ning, Pa., to Gary, Ind., Chicago, Ill., Dearborn, Detroit, Ecorse, and Melvindale, Mich.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C. or Pittsburgh, Pa.

No. MC 87113 (Sub-No. 17), filed November 18, 1977. Applicant: WHEATON VAN LINES, INC., 8010 Castleton Road, Indianapolis, Ind. 46250. Applicant's representative: Alan F. Wohlsetter, 1700 K Street NW., Washington D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New furniture, new furnishings and carpet*, from the ports of entry on the International Boundary line between the United States and Mexico at Laredo, Tex., to Denver, Colo.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held in Denver, Colo. Common control may be involved.

No. MC 91811 (Sub-No. 14), filed November 25, 1977. Applicant: MILTON K. MORRIS, INC., P.O. Box 557, Southampton, Pa. 18966. Applicant's representative: Gerald K. Gimmel, Suite 145, 4 Professional Drive, Gaithersburg, Md. 20760. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Such merchandise as is dealt in or used in the operations of the wholesale retail and chain store grocery business* (except commodities in bulk, fresh fruits and vegetables and frozen foods), from the plantsites and storage facilities of the Clorox Co. at Jersey City, N.J., to points in Pennsylvania, Maryland, and Delaware, under a continuing contract or contracts with the Clorox Co.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 94201 (Sub-No. 156), filed November 22, 1977. Applicant: BOWMAN TRANSPORTATION, INC., P.O. Box 17744, Atlanta Ga. 20316. Applicant's representative: Maurice F. Bishop, 601-09 Frank Nelson Building, Birmingham, Ala. 35203. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Plastic pipe, plastic pipe fittings, and connections, valves, and materials and supplies* used in the installation thereof. From Geneva County, Ala., to points in the United States in and east of Texas, Oklahoma, Kansas, Missouri, Iowa, and Minnesota. (2) *Materials and supplies* used in the manufacture of commodities named in (1) above from points in the United States in and east of Texas, Oklahoma, Kansas, Missouri, Iowa, and Minnesota to Geneva County, Ala.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held in Birmingham, Ala., or Atlanta, Ga.

No. MC 95876 (Sub-No. 223), filed November 23, 1977. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue North, St. Cloud, Minn. 56301. Applicant's representative: Robert D. Givold, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, over irregular routes, transporting: *Camper tops*, between Brainerd, Minn., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Minneapolis, Minn. Common control may be involved.

No. MC 103993 (Sub-No. 910), filed November 22, 1977. Applicant: MORGAN DRIVE-AWAY, INC., 28651 U.S. 20 West, Elkhart, Ind. 46515. Applicant's representative: Paul D. Borghesani, 28651 U.S. 20 West, Elkhart, Ind. 46515. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers* (except those designed to be drawn by passenger automobiles), in initial movements, from points in Ogle County, Ill., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 106074 (Sub-No. 55), filed November 25, 1977. Applicant: B AND P MOTOR LINES, INC., Oakland Road, P.O. Box 727, Forest City, N.C. 28043. Applicant's representative: George W. Clapp, 109 Hartsville Street, P.O. Box 836, Taylors, S.C. 29687. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Insulating material* (except commodities in bulk), from the plantsites of Fibreboard Corp., at or near Fruita, Colo., and Grambling, La., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at San Francisco, Calif., or Washington, D.C.

No. MC 106400 (Sub-No. 111), filed November 25, 1977. Applicant: KAW TRANSPORT COMPANY, a corporation, P.O. Box 12628, North Kansas City, Mo. 64116. Applicant's representative: Robert L. Hawkins, Jr., P.O. Box 456, Jefferson City, Mo. 65101. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Corn and soybean products*, dry, in bulk, in tank and hopper type vehicles from North Kansas City, Mo., to points in Alabama, Arkansas, Colorado, Illinois, Iowa, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Nebraska, New Mexico, Oklahoma, Tennessee and Texas.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Mo.

No. MC 106603 (Sub-No. 163), filed November 23, 1977. Applicant: DIRECT TRANSIT LINES, INC., 200 Colrain Street, SW., Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, 22375 Haggerty Road, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Part 1: Building, wall or insulating boards from Jamesburg, N.J., to points in Illinois; Indiana; Iowa; Kentucky; Michigan; Missouri; points in Allegany, Cattaraugus, Chautauqua, Erie, Genesee, Livingston, Monroe, Niagara, Orleans and Wyoming Counties, N.Y.; Ohio; West Virginia; and Wisconsin. Part 2: Materials, equipment and supplies used in the manufacture and distribution of building, wall and insulating boards from points in Illinois; Indiana; Iowa; Kentucky; Michigan; Missouri; points in Allegany, Cattaraugus, Chautauqua, Erie, Genesee, Livingston, Monroe, Niagara, Orleans and Wyoming Counties, N.Y.; Ohio; West Virginia; and Wisconsin to Jamesburg, N.J.

NOTE.—Applicant holds contract carrier authority in No. MC 48240 and subs thereunder, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 106603 (Sub-No. 164), filed November 23, 1977. Applicant: DIRECT TRANSIT LINES, INC., 200 Colrain Street SW., Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, 22375 Haggerty Road, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Part 1: Building, wall or insulating boards from Florence, Ky., to points in Illinois, Indiana, Iowa, Michigan, Missouri, New York, Ohio, Pennsylvania, and Wisconsin. Part 2: Materials, equipment and supplies used in the manufacture and distribution of building, wall and insulating boards from points in Illinois, Indiana, Iowa, Michigan, Missouri, New York, Ohio, Pennsylvania, and Wisconsin to Florence, Ky.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill., or Washington, D.C.

No. MC 106674 (Sub-No. 265), filed November 7, 1977. Applicant: SCHILLI MOTOR LINES, INC., P.O. Box 123, Remington, Ind. 47977. Applicant's representative: Linda J. Sundy (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular

routes, transporting: (1) *Plumbing, bathroom, and laundry fixtures and accessories*, from the facilities utilized by the Powers Fiat Corp., at or near Plainview, Long Island, N.Y., to points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Louisiana, Maine, Maryland, Massachusetts, Mississippi, Nebraska, New Hampshire, New Jersey, North Carolina, North Dakota, Rhode Island, South Carolina, South Dakota, Vermont, Virginia, West Virginia, and the District of Columbia; and (2) *materials, equipment, and supplies*, used in the manufacture, distribution, and sale of plumbing, bathroom, and laundry fixtures and accessories, (a) from points in and east of North Dakota, Nebraska, Kansas, Oklahoma, and Texas (except New York), to the facilities utilized by the Powers Fiat Corp., located at or near Plainview, Long Island, N.Y.; and (b) from points in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas (except Ohio), to the facilities utilized by the Powers Fiat Corp., at or near Monroe, Ohio.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Tulsa, Okla.

No. MC 106674 (Sub-No. 270), filed November 25, 1977. Applicant: SCHILLI MOTOR LINES, INC., P.O. Box 123, Remington, Ind. 47977. Applicant's representative: Linda J. Sundy (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and Fertilizer Ingredients*, in bags, from the facilities of the W. R. Grace & Co., Ag. Chem Group, New Albany, Ind., to points in Tennessee.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in Indianapolis, Ind., or Chicago, Ill.

No. MC 107515 (Sub-No. 1114), filed November 25, 1977. Applicant: REFRIGERATED TRANSPORT CO., INC., 3901 Jonesboro Road, P.O. Box 308, Forest Park, Ga. 30350. Applicant's representative: Alan E. Serby, Suite 375, 3379 Peachtree Road NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid and film adhesives* (except in bulk, in tank vehicles) in vehicles equipped with mechanical refrigeration, from Harve de Grace, Md., to points in Georgia (except Marietta, Ga.).

NOTE.—Applicant holds contract carrier authority in No. MC 126436 (Sub-No. 6), therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C. or Atlanta, Ga.

No. MC 107678 (Sub-No. 65), filed January 6, 1978. Applicant: HILL &

HILL TRUCK LINE, INC., P.O. Box 9698, Houston, Tex. 77015. Applicant's representative: David A. Sutherland, 1150 Connecticut Avenue NW., Suite 400, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *Iron or steel articles*; and (b) *building and construction materials, supplies, and equipment* (except commodities in bulk), from the plantsites and warehouse facilities of Penn-Dixie Steel Corp., and/or Penn-Dixie Industries, Inc. located at Ft. Wayne, Kokomo, and North Judson, Ind.; Columbus and Toledo, Ohio; Detroit, Grand Rapids, Holland, Lansing, and Petoskey, Mich.; Blue Island, Chicago, and Joliet, Ill.; Kingsport, Knoxville, and South Pittsburg, Tenn., to points in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Kansas City, Mo., and points in and west of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas (including Alaska and Hawaii); and (2) *Materials, supplies and equipment* used in the manufacturing and distribution of the commodities in (1) above (except commodities in bulk), from points in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Kansas City, Mo., and points in and west of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas (including Alaska and Hawaii), to the plantsites and warehouse facilities of Penn-Dixie Steel Corp. and/or Penn-Dixie Industries, Inc. located at Ft. Wayne, Kokomo, and North Judson, Ind.; Columbus and Toledo, Ohio; Detroit, Grand Rapids, Holland, Lansing, and Petoskey, Mich.; Blue Island, Chicago, and Joliet, Ill.; Kingsport, Knoxville, and South Pittsburg, Tenn. NOTE: Applicant requests that this application be consolidated with No. MC 106398 (Sub-No. 777), *National Trailer Convoy, Extension—Penn-Dixie Steel Corp.*, and other related cases.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C. Common control may be involved. Prehearing conference January 31, 1978 at 9:30 a.m. at the Offices of the Interstate Commerce Commission.

No. MC 108453 (Sub-No. 36), filed November 23, 1977. Applicant: G & A TRUCK LINE, INC., 404 West Peck Avenue, White Pigeon, Mich. 49099. Applicant's representative: William P. Sullivan, Suite 1000, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Pulpboard*, from White Pigeon, Mich. to points in New York (except Rochester and Buffalo, N.Y.); and (2) *waste paper*, from points in New York (except Rochester and Buffalo, N.Y.) to White Pigeon, Mich., under a continuing contract or contracts with White Pigeon Paper Co. of White Pigeon, Mich.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 109638 (Sub-No. 32), filed November 22, 1977. Applicant: EVERETTE TRUCK LINE, INC. P.O. Box 145, Cherry Road, Washington, N.C. 27889. Applicant's representative: Cecil W. Bradley (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and lumber products* between points in New York, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida, Kentucky, Ohio, West Virginia, and Tennessee for the account of McCoy Lumber Industries, Inc.

No. MC 115841 (Sub-No. 578), filed November 23, 1977. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., 9041 Executive Park Drive, Knoxville, Tenn. 37919. Applicant's representative: E. Stephen Heasley, 666 11th Street NW., No. 805, Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular

routes, transporting: *Iron, and steel articles and commodities* the transportation of which because of size or weight require the use of special equipment, from Davidson and Rutherford Counties, Tenn., to points in Kentucky, Virginia, West Virginia, Michigan, Ohio, Indiana, Illinois, Wisconsin, and Missouri.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held in Nashville, Tenn. or Washington, D.C.

No. MC 115904 (Sub-No. 87), filed November 23, 1977. Applicant: GROVER TRUCKING CO., a corporation, 1710 West Broadway, Idaho Falls, Idaho 83401. Applicant's representative: Miss Irene Warr, 430 Judge Building, Salt Lake City, Utah 84111. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Flat glass*, from the facilities of Guardian Industries at or near Kingsburg, Calif., to points in the United States (except Alaska and Hawaii); (2) *Flat glass*, from the facilities of Guardian Industries at or near Kingsburg, Calif., to the Ports of Entry on the International Boundary line between the United States and Canada located in Washington, Idaho, and Montana. Restricted to traffic, destined in foreign commerce to the Provinces of British Columbia, Alberta and Saskatchewan; (3) *Materials, equipment and supplies* used in the manufacture and distribution of flat glass from points in the United States (except Alaska and Hawaii) to the facilities of Guardian Industries at or near Kingsburg, Calif.

NOTE.—Common control may be involved. If a hearing is deemed necessary applicant requests that it be held at Fresno, Calif. or Washington, D.C.

No. MC 116915 (Sub-No. 44), filed November 25, 1977. Applicant: ECK MILLER TRANSPORTATION CORP., 1830 S. Plate Street, Kokomo, Ind. 46901. Applicant's representative: Mr. Fred F. Bradley, P.O. Box 773, Frankfort, Ky. 40602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Aluminum and aluminum products, and materials, equipment, and supplies* used in the manufacture thereof, between the plantsite of U.S. Reduction located at or near Russellville, Ala., on the one hand, and, on the other, points in Georgia, Illinois, Indiana, Iowa, Kentucky, Michigan, Missouri, Ohio, Pennsylvania, Tennessee, and Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Louisville, Ky., or Nashville, Tenn.

No. MC 116915 (Sub-No. 45), filed November 25, 1977. Applicant: ECK

MILLER TRANSPORTATION CORP., 1830 S. Plate Street, Kokomo, Ind. 46901. Applicant's representative: Mr. Fred F. Bradley, P.O. Box 773, Frankfort, Ky. 40602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Lumber, poles, piling, pallets, timbers, cross-ties, and particle board*, between points in Alabama, Arkansas, Georgia, Indiana, Mississippi, and Tennessee. Restricted to service for the account of The McGinnis Lumber Co., Inc.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Jackson, Miss., Nashville, Tenn., or Louisville, Ky.

No. MC 116999 (Sub-No. 4), filed November 5, 1977. Applicant: EPHRAIM FREIGHT SYSTEMS, INC., P.O. Box 1159, St. Joseph, Mo. 64502. Applicant's representative: Kirk Wm. Horton, 260 Sheridan Avenue, Palo Alto, Calif. 94302. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment): Between Denver, Colo. and Grand Junction, Colo., serving the intermediate points of Eagle, Gypsum, Glenwood Springs, Newcastle, Silt, Rifle, Grand Valley, and Debeque; from Denver over U.S. Highway 6 to Grand Junction and return over the same route.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Glenwood Springs, Colo.

No. MC 117589 (Sub-No. 45), filed November 18, 1977. Applicant: PROVISIONERS FROZEN EXPRESS, INC., 3801 7th Avenue South, Seattle, Wash. 98108. Applicant's representative: Jacob P. Billig, 2033 K Street NW., Suite 300, Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products, and meat byproducts*, as described in Appendix 1 to the Report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank or hopper-type vehicles), (2) *Frozen foods*, and (3) *commodities*, the transportation of which would be otherwise exempt from regulation pursuant to the provisions of section 203(b)(6) of the Interstate Commerce Act, when transported in mixed loads with commodities listed in (1) and (2) above, from points in Colorado to points in Washington, Oregon, Idaho, Montana, Wyoming, and Utah.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Seattle, Wash., or Denver, Colo.

No. MC 117686 (Sub-No. 192), filed November 22, 1977. Applicant: HIRSCHBACH MOTOR LINES, INC., 5000 South Lewis Boulevard, P.O. Box 417, Sioux City, Iowa 51102. Applicant's representative: Mr. Robert A. Wichser (same address as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Modular office systems, modular industrial handling systems and modular health care units and components, equipment, materials, and supplies*, used in the manufacture, installation, sale, and distribution of the commodities named above when moving in mixed shipments therewith, (1) from Zeeland and Grand Rapids, Mich., Atlanta Ga., and Houston, Tex., to points in Arizona, California, New Mexico, Oregon, Washington, and Texas, and (2) between Zeeland and Grand Rapids, Mich., Atlanta, Ga., and Houston, Tex. Restriction: Restricted to the transportation of shipments originating at the plantsite and storage facilities of Herman Miller, Inc., located at the above designated origin points and destined to points in the designated destination states.

NOTE.—If an oral hearing is deemed necessary, applicant requests that it be held at Chicago, Ill., Omaha, Nebr. or Washington, D.C.

No. MC 117686 (Sub-No. 193), filed November 22, 1977. Applicant: HIRSCHBACH MOTOR LINES, INC., 5000 South Lewis Boulevard, P.O. Box 417, Sioux City, Iowa 51102. Applicant's representative: George L. Hirschbach, P.O. Box 417, Sioux City Iowa 51102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Yarn*, from Greensboro, N.C. to Minneapolis, Minn. Restriction: Restricted to shipments destined to the plantsite and storage facilities of Munsingwear, Inc., at or near Minneapolis, Minn.

NOTE.—If an oral hearing is deemed necessary, the applicant requests that it be held at Minneapolis, Minn. or Washington, D.C. Applicant seeks authority in No. MC-F-13256 to purchase a permit; therefore dual operations may be involved.

No. MC 117940 (Sub-No. 243), filed November 22, 1977. Applicant: NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Applicant's representative: Allan L. Timmerman, (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs* (except commodities in bulk), from the plant and warehouse facilities of the Green Giant Co., located at or near Belvidere, Ill., to points in Indiana, Kentucky, Michigan, and Ohio, restricted to traffic originating at specified facilities at

named origin and destined to points in named destination states.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Minneapolis or St. Paul, Minn. Applicant holds contract carrier authority in MC 114789 (Sub-No. 28), and other subs thereunder, therefore dual operations may be involved.

No. MC 119789 (Sub-No. 394), filed November 23, 1977. Applicant: CARAVAN REFRIGERATED CARGO, INC., P.O. Box 6188, Dallas, Tex. 75222. Applicant's representative: James K. Newbold, Jr. (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Plastic film*, from Griffin, Ga., to points in Florida.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Boston, Mass.

No. MC 123091 (Sub-No. 23), filed November 25, 1977. Applicant: NICK STRIMBU, INC., 3500 Parkway Road, Brookfield, Ohio 44403. Applicant's representative: James Duvall, P.O. Box 97, 220 West Bridge Street, Dublin, Ohio 43017. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Hardwood flooring and installation accessories therefor*, from points in Shelby County, Tenn., and Grenada County, Miss., to points in Connecticut, Delaware, District of Columbia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at either Memphis, Tenn., or Washington, D.C.

No. MC 123233 (Sub-No. 80), filed November 23, 1977. Applicant: PROVOST CARTAGE INC., 7887 Grenache Street, Ville d'Anjou, Quebec, Canada H1J 1C4. Applicant's representative: J. P. Vermette (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Sugar*, in bulk, in tank vehicles, from the Ports of Entry on the International Boundary Line between the United States and Canada located in New York, Vermont, and Maine, to points in Vermont, New Hampshire, Maine, Massachusetts, Rhode Island, Connecticut, New York, and Pennsylvania. Restricted to the transportation of traffic having an immediately prior movement in foreign commerce.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Albany, N.Y., or Montpelier, Vt.

No. MC 123407 (Sub-No. 414), filed November 25, 1977. Applicant: SAWYER TRANSPORT, INC., South

Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: H. E. Miller, Jr. (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Plastic pipe, plastic pipe fittings, and accessories used in the installation thereof* (except commodities in bulk, in tank vehicles and plastic pipe and fittings used in or in connection with the discovery, development, distribution of natural gas and petroleum and their products and byproducts) from the facilities of Cresline Plastic Pipe Co., Inc., at Council Bluffs, Iowa, to points in the United States (except Alaska and Hawaii), and (2) *materials, supplies, and accessories used in the manufacture and distribution of plastic pipe, plastic fittings, and accessories used in the installation thereof* (except commodities in bulk, in tank vehicles) from points in the United States (except Alaska and Hawaii) to the facilities of Cresline Plastic Pipe Co., Inc., at Council Bluffs, Iowa.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C.

No. MC 123407 (Sub-No. 415), filed November 25, 1977. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: H. E. Miller, Jr. (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Composition board*, from Coldwater, Mich., to points in the United States (except Alaska and Hawaii), and (2) *materials, equipment, and supplies*, used in the manufacture of (1) above from points in the United States (except Alaska and Hawaii) to Coldwater, Mich.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill., or Detroit, Mich.

No. MC 123407 (Sub-No. 429), filed January 3, 1978. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: H. E. Miller, Jr. (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Lumber, lumber products, wood products, building board, insulating materials, and roofing materials* (except commodities in bulk) from Alabama, Florida, Georgia, South Carolina, North Carolina, Arkansas, Louisiana, Mississippi, Oklahoma, Tennessee, and Texas to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C.

Applicant requests that the instant application be heard on a consolidated basis with that of Machinery Transports, Inc., MC-124947 (Sub-No. 78).

No. MC 124078 (Sub-No. 764), filed November 23, 1977. Applicant: SCHWERTMAN TRUCKING CO., a corporation, 611 South 28 Street, Milwaukee, Wis. 53215. Applicant's representative: James R. Ziperski, P.O. Box 1801, Milwaukee, Wis. 53201. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Rice hull ash*, in bulk, from Stuttgart, Ark., to points in Alabama, Kentucky, Louisiana, Mississippi, Ohio, Tennessee and Virginia.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Little Rock, Ark.

No. MC 124213 (Sub-No. 11), filed November 22, 1977. Applicant: SWIFT-LINES, INC., 7878 "I" Street, Omaha, Nebr. 68106. Applicant's representative: Arlyn L. Westergren, Suite 530 Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by-products and articles* distributed by meat packinghouses, as described in sections A and C of Appendix I to the Report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from Estherville, Iowa, and Sioux Falls, S. Dak., to points in Illinois, restricted to traffic originating at the above-named origins and destined to the above-named destinations.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Omaha, Nebr.

No. MC 124328 (Sub-No. 118), filed November 23, 1977. Applicant: BRINK'S INC., 234 East 24th Street, Chicago, Ill. 60616. Applicant's representative: William Gambone (same address as applicant). Authority sought to operate as a contract carrier by motor vehicle over irregular routes in the transportation of: *Precious metal, scrap, and sweeps*, between Chicago, Ill., on the one hand, and, on the other, Detroit, Mich., and points in New Jersey, New York, Pennsylvania and Connecticut, under a continuing contract or contracts with Simmons Refining Co.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill., or Washington, D.C.

No. MC 124896 (Sub-No. 39), filed November 21, 1977. Applicant: WILLIAMSON TRUCK LINES, INC., P.O. Box 3485, Wilson, N.C. 27893. Applicant's representative: Larry D. Knox, 600 Hubbell Building, Des Moines, Iowa 50309. Authority sought to oper-

ate as a common carrier, by motor vehicle, over irregular routes, transporting: 1. *Petroleum and petroleum products, vehicle body sealer and sound deadener compound* (except in bulk) and *filters* (a) from points in Marion County, Tenn., to points in Alabama, District of Columbia, Florida, Georgia, Kentucky, Maryland, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, and West Virginia. Restricted to traffic originating at points in Marion County, Tenn. (b) from points in Ohio, New York, Rhode Island, Pennsylvania, West Virginia, to points in Marion County, Tenn. Restricted to traffic destined to Marion County, Tenn. 2. *Materials, supplies and equipment* used in the manufacture, sale and distribution of the commodities named in part 1 above (except in bulk) from points in Ohio, West Virginia, Pennsylvania, Alabama, Georgia, Virginia, and Kentucky, to Marion County, Tenn. Restricted to traffic destined to points in Marion County, Tenn.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Memphis, Tenn. or Pittsburgh, Pa.

No. MC 125103 (Sub-No. 6), filed November 25, 1977. Applicant: SUNDERMAN TRANSFER, INC., P.O. Box 63, Windom, Minn. 56101. Applicant's representative: Gene P. Johnson, P.O. Box 2471, Fargo, N. Dak. 58102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *meat, meat products, meat by-products and articles distributed by meat packinghouses*, as described in Sections A and C to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except commodities in bulk), from the facilities of Landy of Wisconsin, Inc., at or near Eau Claire, Wis., to points in Kansas, Nebraska, North Dakota, South Dakota, and Tennessee, under a continuing contract or contracts with Landy of Wisconsin, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Minneapolis or St. Paul, Minn.

No. MC 126126 (Sub-No. 7), filed November 17, 1977. Applicant: RABB BROS. TRUCKING, INC., P.O. Box 736, San Joaquin, Calif. 93660. Applicant's representative: William D. Taylor, 100 Pine Street, Suite 2550, San Francisco, Calif. 94111. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, in the transportation of: *Dry fertilizer*, in bulk and bagged, (1) from Helm, Bena, Edison, and Hercules, Calif., to points in Lane, Linn, and Benton Counties, Oreg.; and (2) from Bena, Edison, and Hercules, Calif., to points in Douglas, Coos, Curry, Josephine, Klamath, Jackson, and Lake Counties, Oreg., under a continuing

contract or contracts with Valley Nitrogen Producers, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at San Francisco, Calif.

No. MC 126844 (Sub-No. 45), filed November 23, 1977. Applicant: R.D.S. TRUCKING CO., CO., INC., 1713 North Main Road, Vineland, N.J. 08360. Applicant's representative: Terrence D. Jones, 2033 K Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except commodities in bulk), from the plantsite and warehouse facilities of Standard Brands Inc., at Atlanta and Doraville, Ga., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and the District of Columbia, restricted to the transportation of traffic originating at the named origins and destined to the named destinations.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C.

No. MC 128273 (Sub-No. 115), filed November 25, 1977. Applicant: MIDWESTERN DISTRIBUTION, INC., P.O. Box 189, Fort Scott, Kans. 66701. Applicant's representative: Elden Corban, P.O. Box 189, Fort Scott, Kans. 66701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum and petroleum products, vehicle body sealer and/or sound deadener compound* (except in bulk) and *filters*, from points in Marion County, Tenn., to points in the United States (except Alaska and Hawaii), restricted to traffic originating at points in Marion County, Tenn. (2) *Materials, supplies and equipment* used in the manufacture, sale, and distribution of the commodities named in part (1) (except in bulk) from points in Ohio, West Virginia, Pennsylvania, Alabama, Georgia, Virginia, and Kentucky, to points in Marion County, Tenn., restricted to traffic destined to points in Marion County, Tenn. (3) *Petroleum and petroleum products, vehicle body sealer and/or sound deadener compound* (except in bulk) and *filters*, from points in Ohio, New York, Rhode Island, Pennsylvania, and West Virginia, to points in Marion County, Tenn., restricted to traffic destined to Marion County, Tenn.

NOTE.—If oral hearing is deemed necessary, applicant requests this application be consolidated with that of similar applications recently filed.

No. MC 128273 (Sub-No. 274), filed November 22, 1977. Applicant: MIDWESTERN DISTRIBUTION, INC., P.O. Box 189, Fort Scott, Kans. 66701.

Applicant's representative: Elden Corban, P.O. Box 189, Fort Scott, Kans. 66701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Such merchandise* as is used by, dealt in, or distributed by wholesale or retail grocery, department, drug and variety stores and institutional supply firms, and (2) *supplies and materials* used in the manufacture and sale of commodities described in (1) above, between Byhalla, Miss., on the one hand and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests this proceeding be consolidated with a similar application.

No. MC 128981 (Sub-No. 10), filed November 22, 1977. Applicant: LAND-AIR DELIVERY, INC., 1736 North 79th Street, Kansas City, Kans. 66112. Applicant's representative: Louis J. Amato, P.O. Box E, Bowling Green, Ky. 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, explosives, commodities requiring special equipment, automobiles, trucks and buses), (1) between points in Arkansas on and west of U.S. Highway 167; and (2) between points in (1) above, on the one hand, and, on the other, points in Kansas, Missouri, Nebraska, Oklahoma, and Texas. Restriction: Restricted in (1) and (2) above to the transportation of traffic having an immediately prior to subsequent movement by air.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Tulsa, Okla.

No. MC 133119 (Sub-No. 127), filed November 22, 1977. Applicant: HEYL TRUCK LINES, INC., 200 Norka Drive, Akron, Iowa 51001. Applicant's representative: A. J. Swanson, 521 South 14th Street, P.O. Box 81849, Lincoln, Neb. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen Pizza*, from Joplin, Mo., to Albuquerque, N. Mex., and points in Texas, Arkansas, Louisiana, Mississippi, Tennessee, Alabama, Georgia, Florida, North Carolina, South Carolina, and Kentucky.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Omaha, Neb., or Minneapolis, Minn.

No. MC 133119 (Sub-No. 128), filed November 25, 1977. Applicant: HEYL TRUCK LINES, INC., 200 Norka Drive, Akron, Iowa 51001. Applicant's representative: A. J. Swanson, 521 South 14th Street, P.O. Box 81849, Lincoln, Neb. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products,*

*meat by-products, and articles distributed by meat packinghouses* as described in Section A and C of appendix I to the report in Description in Motor Carrier Certificates 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsites and/or warehouse facilities utilized by Iowa Beef Processors Inc. located at or near Denison and Fort Dodge, Iowa; Luverne, Minn.; Dakota City and West Point, Neb., to points in Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina and Tennessee.

No. MC 135691 (Sub-No. 20), filed November 1977. Applicant: DALLAS CARRIERS CORP., 3610 Garden Brook Drive, Dallas, Tex. 75234. Applicant's representative: Michael J. Ogborn, P.O. Box 82028, Lincoln, Neb. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Pallets*, from Concord, Ark., to Seward, Neb.; Lake Mills, Iowa; Batavia, Ill., and Arden, N.C., restricted to a transportation service to be performed under a continuing contract, or contracts, with Walker Manufacturing Co.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 135861 (Sub-No. 23), filed November 25, 1977. Applicant: LISA MOTOR LINES, INC., P.O. Box 4550, Fort Worth, Tex. 76106. Applicant's representative: Billy R. Reid, P.O. Box 9093, Fort Worth, Tex. 76107. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Paint pigments and paint ingredients* (except commodities in bulk), from Brooklyn and Glens Falls, N.Y., and Bayonne, Linden, New Brunswick, Newark, and Parling, N.J., to facilities of Ennis Paint Manufacturing, Inc., at Ennis, Tex., under continuing contract, or contracts, with Ennis Paint Manufacturing, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Dallas or Fort Worth, Tex.

No. MC 136916 (Sub-No. 18), filed November 23, 1977. Applicant: LENAPE TRANSPORTATION CO., INC., P.O. Box 227, Lafayette, N.J. 07848. Applicant's representative: Morton E. Kiel Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting:

*Salt and salt products*, from Perth Amboy, N.J., to points in Connecticut, Massachusetts, Rhode Island, Maine, New Hampshire, Vermont, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, and the District of Columbia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held in New York, N.Y.

MC 138144 (Sub-No. 25), filed November 22, 1977. Applicant: FRED OLSON CO., INC., 6022 West State Street, Milwaukee, Wis. 53213. Applicant's representative: Paul R. Bergant, 10 South LaSalle Street, Chicago, Ill. 60603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Iron, steel, zinc, lead, and articles or products thereof*, building materials, construction materials, supplies, and equipment, from the plantsites and warehouse facilities of Penn-Dixie Steel Corp. and/or Penn-Dixie Industries, Inc. and its one hundred percent owned subsidiary Stevens Spring located at or near Kokomo, Ind.; Elkhart, Ind.; Toledo, Ohio; Columbus, Ohio; Lansing, Mich.; Grand Rapids, Mich.; Denver, Colo.; Albuquerque, N. Mex.; Centerville, Iowa; Blue Island, Ill.; Joliet, Ill.; Jackson, Miss.; Nazareth, Pa.; Cabot, Pa.; Petoskey, Mich.; Holland, Mich.; Detroit, Mich.; Chicago, Ill.; Milwaukee, Wis.; West Des Moines, Iowa; Kingsport, Tenn.; Knoxville, Tenn.; Richard City, Tenn.; Atlanta, Ga.; Salisbury, N.C.; North Arlington, N.J.; North Judson, Ind.; Cicero, Ind.; and Newton, Kans., to all points in the United States (except Alaska and Hawaii); (2) *materials, supplies, and equipment*, used in the manufacture and distribution of commodities named in (1) above, from points in the United States (except Alaska and Hawaii) to the plantsites and warehouse facilities of Penn-Dixie Steel Corp. and/or Penn-Dixie Industries, Inc. and one hundred percent owned subsidiary Stevens Spring located at or near Kokomo, Ind.; Fort Wayne, Ind.; Elkhart, Ind.; Toledo, Ohio; Columbus, Ohio; Lansing, Mich.; Grand Rapids, Mich.; Denver, Colo.; Albuquerque, N. Mex.; Centerville, Iowa; Blue Island, Ill.; Joliet, Ill.; Jackson, Miss.; Nazareth, Pa.; Cabot, Pa.; Petoskey, Mich.; Holland, Mich.; Detroit, Mich.; Chicago, Ill.; Milwaukee, Wis.; West Des Moines, Iowa; Kingsport, Tenn.; Knoxville, Tenn.; Richard City, Tenn.; Atlanta, Ga.; Salisbury, N.C.; North Arlington, N.J.; North Judson, Ind.; Cicero, Ind.; and Newton, Kans.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill. Common control may be involved. Prehearing Conference January 31, 1978, at 9:30 a.m., at the Offices of the Interstate Commerce Commission, Washington, D.C.

No. MC 138157 (Sub-No. 52), filed November 25, 1977. Applicant:

**SOUTHWEST EQUIPMENT RENTAL, INC., d.b.a. SOUTHWEST MOTOR FREIGHT**, 2931 South Market Street, Chattanooga, Tenn. 37410. Applicant's representative: Patrick E. Quinn, P.O. Box 9596, Chattanooga, Tenn. 37412. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Motor vehicle parts, tools and accessories and materials, equipment and supplies*, used in the manufacture, production, and distribution of motor vehicle parts, tools and accessories, (a) between Jacksonville, Fla., on the one hand, and, on the other, Cleveland, Ohio, and Los Angeles, Calif., (b) from Jacksonville, Fla., to Denver, Colo. Restriction: Restricted to traffic having a prior or subsequent movement by water. Further restricted against the transportation of commodities in bulk and tank vehicles and commodities which by reason or size or weight require the use of special equipment.

NOTE.—Applicant holds contract carrier authority in MC 134150 and subs thereunder, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 138741 (Sub-No. 42), filed December 21, 1977. Applicant: **AMERICAN CENTRAL TRANSPORT, INC.**, 2005 North Broadway, Joliet, Ill. 60435. Applicant's representative: Tom B. Kretsinger, 910 Brookfield Building, 101 West 11th Street, Kansas City, Mo. 64105. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles and building and construction materials* (except commodities in bulk), from the plantsites and shipping facilities of Penn Dixie Steel Corp., Penn Dixie Industries, Inc. and its affiliates and subsidiaries at or near Cicero, North Judson, Kokomo, Fort Wayne, and Elkhart, Ind.; Centerville and West Des Moines, Iowa; Blue Island, Chicago, and Joliet, Ill.; Denver, Colo.; Jackson, Miss.; Columbus and Toledo, Ohio; Detroit, Petoskey, Grand Rapids, Lansing, and Holland, Mich.; Nazareth and Cabot (West Winfield), Pa.; Milwaukee, Wis.; Kingsport, Knoxville, and South Pittsburg, Tenn.; Atlanta, Ga.; Salisbury, N.C.; and Newton, Kans. to points and places in the States of Alabama, Arkansas, Colorado, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Mississippi, Minnesota, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, Pennsylvania, South Dakota, Tennessee, Texas, and Wisconsin; and (2) *materials, equipment, and supplies*, used in the manufacture and distribution of iron and steel articles and building and construction materials, except commodities in bulk,

from the States in (1) above to the plantsites and shipping facilities of Penn Dixie Steel Corp., Penn Dixie Industries, Inc., and its affiliates and subsidiaries.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill. Prehearing conference January 31, 1978, at 9:30 a.m., at the Offices of the Interstate Commerce Commission.

No. MC 138882 (Sub-No. 27), filed November 25, 1977. Applicant: **WILEY SANDERS, INC.**, P.O. Drawer 621, Troy, Ala. 36081. Applicant's representative: George A. Olsen, P.O. Box 357, Gladstone, N.J. 07934. Authority sought to operate as a common carrier, over irregular routes, transporting: *Pipe, fittings, hydrants, valves, and parts and accessories for the aforementioned items* (except commodities in bulk), from the facilities of United States Pipe & Foundry Co. at or near Birmingham and Bessemer, Ala., to points in Texas, Missouri, Iowa, Wisconsin, Oklahoma, Minnesota, Nebraska, North Dakota, South Dakota, and Kansas. Restricted to the transportation of traffic originating at the facilities of United States Pipe & Foundry Co. at or near Birmingham and Bessemer, Ala.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Birmingham or Montgomery, Ala.

No. MC 138875 (Sub-No. 64), filed November 22, 1977. Applicant: **SHOE-MAKER TRUCKING CO.**, a corporation, 11900 Franklin Road, Boise, Idaho 83705. Applicant's representative: F. L. Sigloh, 11900 Franklin Road, Boise, Idaho 83705. Authority sought to operate as a common carrier, over irregular routes, transporting: *Such products as are dealt in by wholesale and retail distributors of floor, wall, ceiling, and counter coverings*, from Salem, N.J. to the facilities of Robison Distributing Co., Inc. located at Salt Lake City, Utah, and Burley, Idaho Falls, Pocatello, and Twin Falls, Idaho. Restriction: Except the transportation of products in bulk in tank vehicles.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Boise, Idaho, or Salt Lake City, Utah.

No. MC 139294 (Sub-No. 4), filed November 25, 1977. Applicant: **H. T. L. INC.**, P.O. Box 122, Fairfield, Ala. 35064. Applicant's representative: Robert E. Tate, Registered Practitioner, P.O. Box 517, Evergreen, Ala. 36401. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Lumber, plywood, and particleboard*, in straight or mixed shipments, from the plant and warehouse facilities of MacMillan Bloedel, Inc., at Pine Hill and Opelika, Ala., to Mobile, Ala., in Interstate or Foreign Commerce.

NOTE.—Applicant holds contract carrier authority in No. MC 135867 (Sub-No. 1) therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Birmingham, Ala., or Atlanta, Ga.

No. MC 139495 (Sub-No. 288), filed November 23, 1977. Applicant: **NATIONAL CARRIERS, INC.**, 1501 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dubin, 1320 Fenwick Lane, Suite 500, Silver Spring, Md. 20910. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Insulating material*, (except in bulk,) from the plantsite of Fibre-board Corp., at or near Grambling, La., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 139973 (Sub-No. 36), filed November 23, 1977. Applicant: **J. H. WARE TRUCKING, INC.**, P.O. Box 398, Fulton, Mo. 65251. Applicant's representative: Larry D. Knox, 600 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Electrical appliances, equipment and parts and pole-line hardware*, between Visalia, Calif., on the one hand, and on the other, all points in the United States (except Alaska and Hawaii), restricted to traffic originating at or destined to the facilities of McGraw-Edison Co.

NOTE.—Applicant holds motor contract carrier authority in MC 138375 and sub numbers thereunder, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at either Kansas City, Mo., or St. Louis, Mo.

No. MC 140010 (Sub-No. 13), filed November 23, 1977. Applicant: **JOSEPH MOVING & STORAGE CO., INC.**, d.b.a. **ST. JOSEPH MOTOR LINES**, 573 Dutch Valley Road NE., Atlanta, Ga. 30324. Applicant's representative: Richard M. Tettelbaum, Suite 375, 3379 Peachtree Road NE., Atlanta, Ga. 30326. Authority sought to operate as a contract carrier, over irregular routes, by motor vehicle, transporting: (1) *Such commodities as are dealt in or used by automotive service stations* (except commodities in bulk and except commodities which, because of size or weight, require the use of special equipment), between Fulton County, Ga., on the one hand, and, on the other, points in the United States in and east of Wisconsin, Illinois, Missouri, Oklahoma, and Texas; and, (2) plastic granules (except in bulk), from Houston, Baytown, and Orange, Tex., to points in Alabama, Florida, Georgia, North Carolina,

South Carolina, and Tennessee. Service under parts (1) and (2) to be performed under a continuing contract or contracts with Gulf Oil Company-U.S., a Division of Gulf Oil Corp.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in Atlanta, Ga.

No. MC 140024 (Sub-No. 82), filed November 25, 1977. Applicant: **J. B. MONTGOMERY, INC.**, a Delaware Corporation, 5565 East 52nd Avenue, Commerce City, Colo. 80022. Applicant's representative: John F. DeCock (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs, other than frozen*, (except commodities in bulk), from Battle Creek, Mich. to Denver, Colo., restricted to traffic originating at the named origin and destined to the named destination.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Denver, Colo.

No. MC 140612 (Sub-No. 39), filed November 21, 1977. Applicant: **ROBERT F. KAZIMOUR, P.O. Box 2207, Cedar Rapids, Iowa 52406**. Applicant's representative: A. J. Swanson, P.O. Box 81849, Lincoln, Nebr. 68509. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Appliances, furnaces and air conditioners*, between points in Iowa, California, Washington, Idaho, Oregon, Arizona, Utah, Nevada, Montana, Tennessee, Arkansas, and Texas. Restricted to the transportation of traffic moving from, to or between the facilities of Lennox Industries, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Des Moines, Iowa, or Lincoln, Nebr. By the instant application, applicant seeks conversion of motor contract carrier authority held in No. MC 138003 (Sub-No. 2), to a certificate of public convenience and necessity. Applicant holds other motor contract carrier authority in MC 138003 and Sub-numbers thereunder, therefore dual operations may be involved.

No. MC 140883 (Sub-No. 16), filed November 23, 1977. Applicant: **DOWNS TRANSPORTATION CO., INC.**, 2705 Canna Ridge Circle NE., Atlanta, Ga. 30345. Applicant's representative: K. Edward Wolcott, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Shelves, kitchen cabinet, oven, rack, or refrigerator*, from the facilities of Garland Enterprises, Inc., at or near Garland, Tex., to points in the United States (except Alaska and Hawaii).

NOTE.—Applicant holds contract carrier authority in MC 140883 and subs thereto, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests that it be held at Dallas, Tex.

No. MC 141668 (Sub-No. 1), filed November 25, 1977. Applicant: **LONGMONT TURKEY PROCESSORS, INC.**, 149 Kimbark Street, Longmont, Colo. 80501. Applicant's representative: Charles J. Kimball, 350 Capitol Life Center, 1600 Sherman Street, Denver, Colo. 80203. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: (1) *Turkeys and turkey products* and (2) *materials, equipment, and supplies* used in the raising, manufacture, production, and distribution of turkeys and turkey products, except commodities in bulk, between points in Weld and Boulder Counties, Colo., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), restricted to a transportation service performed under a continuing contract or contracts with Longmont Turkey Processors, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Denver, Colo.

No. MC 142059 (Sub-No. 13), filed November 23, 1977. Applicant: **CARDINAL TRANSPORT, INC.**, P.O. Box 911, 1830 Mound Road, Joliet, Ill. 60434. Applicant's representative: Jack Riley, P.O. Box 911, Joliet, Ill. 60434. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Plastic foam products, building materials and materials and supplies* used in the manufacture and distribution thereof (except commodities in bulk), between St. Louis, Mo., on the one hand, and on the other, points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at New York, N.Y. or Washington, D.C.

No. MC 142059 (Sub-No. 15), filed January 3, 1978. Applicant: **CARDINAL TRANSPORT, INC.**, 1830 Mound Road, P.O. Box 911, Joliet, Ill. 60434. Applicant's representative: Fred H. Daly, 1725 K Street NW., Suite 1009, Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles and construction materials* from facilities of or utilized by Penn-Dixie Industries, Inc., Penn-Dixie Steel Corp., and subsidiaries of the foregoing companies located at or near Lansing, Mich.; Grand Rapids, Mich.; Petoskey, Mich.; Holland, Mich.; Detroit, Mich.; Milwaukee, Wis.; Chicago, Ill.; Blue Island, Ill.; Joliet, Ill.; Kokomo, Ind.; Fort Wayne, Ind.; North Judson, Ind.; Elkhart, Ind.; Cicero, Ind.; Centerville, Iowa; West Des Moines, Iowa; Denver, Colo.; Albuquerque, N. Mex.; Jackson, Miss.; Columbus, Ohio; Toledo, Ohio; Kingsport, Tenn.; Knoxville, Tenn.; South

Pittsburgh (Richard City), Tenn., Atlanta, Ga., Salisbury, N.C., Cabot, Pa., Nazareth, Pa., North Arlington, N.J., and Newton, Kans., to points in the United States (except Alaska and Hawaii), and, (2) *materials, equipment and supplies* used in the manufacture and distribution of commodities named in (1) above, from points in the United States (except Alaska and Hawaii) to facilities of or utilized by Penn-Dixie Industries, Inc., Penn-Dixie Steel Corporation, and subsidiaries of the foregoing companies, located at or near Lansing, Mich., Grand Rapids, Mich., Petoskey, Mich., Holland, Mich., Detroit, Mich., Milwaukee, Wis., Chicago, Ill., Blue Island, Ill., Joliet, Ill., Kokomo, Ind., Fort Wayne, Ind., North Judson, Ind., Elkhart, Ind., Cicero, Ind., Centerville, Iowa, West Des Moines, Iowa, Denver, Colo., Albuquerque, N. Mex., Jackson, Miss., Columbus Ohio, Toledo, Ohio, Kingsport, Tenn., Knoxville, Tenn., South Pittsburgh (Richard City), Tenn., Atlanta, Ga., Salisbury, N.C., Cabot, Pa., Nazareth, Pa., North Arlington, N.J., and Newton, Kans.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., or Washington, D.C.; Prehearing Conference, January 31, 1978, at 9:30 am at the offices of the Interstate Commerce Commission, Washington, D.C.

No. MC 142296 (Sub-No. 3), filed November 25, 1977. Applicant: COX REFRIGERATED EXPRESS, INC., 10606 Goodnight Lane, Dallas, Tex. 75220. Applicant's representative: Lawrence A. Winkle, Suite 1125, Exchange Park, P.O. Box 45538, Dallas, Tex. 75245. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: A. *Yarn* from Gastonia, Belmont, and Albemarle, N.C., and Thomaston, Ga., to Minneapolis, Minn.; and B. *clothing, wearing apparel, robes*, both hanging and boxed and *component parts* used in the manufacture thereof (except commodities in bulk). (1) From Hamilton and Guin, Ala., and New Albany, Miss., to Minneapolis, Minn.; Memphis, Tenn.; and Winnfield, La.; (2) from Winnfield, La., to Arkadelphia, Ark., and Memphis, Tenn.; (3) from Crossville, Tenn., to Minneapolis, Minn.; and Seattle, Wash., to Minneapolis, Minn.; (5) from Minneapolis, Minn., to points in Alabama, California, Georgia, Florida, and Washington; (6) from Memphis, Tenn., to Burlington, N.J.; (7) from Burlington, N.J., to Hamilton, Ala.; Arkadelphia, Ark. and Paris, Tex.; (8) and from Hamilton, Ala., to Crossville, Tenn. Service under Parts A and B of the application will be performed under a continuing contract or contracts with Munsingwear, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Dallas, Tex., or Memphis Tenn.

No. MC 143377 (Sub-No. 2), filed November 23, 1977. Applicant: BARRY J. WEST, d.b.a. B.J.'s SERVICE, P.O. Box 595, Lititz, Pa. 17543. Applicant's representative: John W. Frame, P.O. Box 626, 2207 Old Gettysburg Road, Camp Hill, Pa. 17011. Authority sought to operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting: *Bound and unbound paper and material* from printing firms, such as printed material and various correspondence or instructions, between points in York, Lebanon, and Lancaster Counties, Pa., on the one hand, and, on the other, points in the New York, N.Y., commercial zone.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Harrisburg, Pa.

No. MC 143391 (Sub-No. 1), filed November 25, 1977. Applicant: CICIO TRUCKING CO., INC., P.O. Box 661, Woodridge, N.Y. 12789. Applicant's representative: Roy D. Pinsky, 345 South Warren Street, Syracuse, N.Y. 13202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ice*, from Sullivan County, N.Y., to New York, New Jersey, and Pennsylvania; *materials and supplies* used in production of egg cartons, from Westboro, Mass., to Sullivan County, N.Y.; and *materials and supplies* used in packaging and distribution of eggs, from Palmer, Mass., to Sullivan County, N.Y.; from Sullivan County, N.Y., to New York, New Jersey, Pennsylvania, Connecticut, and Massachusetts.

NOTE.—If a hearing is deemed necessary, applicant requests it be held in New York City, N.Y., or Syracuse, N.Y.

No. MC 143511 (Sub-No. 1), filed November 22, 1977. Applicant: HARDINGER TRANSFER CO., INC., P.O. Box 521, Erie, Pa. 16512. Applicant's representative: Paul F. Sullivan, 711 Washington Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except household goods, classes A and B explosives, commodities in bulk and those requiring special equipment) in piggyback trailers or containers, and empty piggyback trailers or containers, between points in Erie County, Pa., on the one hand, and, on the other, rail piggyback facilities in Cleveland, Ohio, restricted to traffic having an immediately prior or subsequent movement by rail.

NOTE.—If a hearing is deemed necessary, applicant requests it be held in Erie, Pa.

No. MC 143691 (Amendment), filed September 6, 1977, published in the FEDERAL REGISTER issue of October 20, 1977, and republished, as amended,

this issue. Applicant: PONY EXPRESS COURIER CORP., P.O. Box 4313, Atlanta, Ga. 30302. Applicant's representative: Francis J. Mulcahy (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Microfilm, microfiche, microforms, and related items* between Flora, Miss., on the one hand, and, on the other, points in Alabama, Georgia, Kentucky, Louisiana, North Carolina, Ohio, South Carolina, and Tennessee, restricted to shipments under a continuing contract or contracts with banks, banking institutions and Southern Vital Records Center; (2) *microfilm, microfiche, microforms, and related items* between Memphis, Tenn., on the one hand, and, on the other, points in Arkansas, Mississippi, and Missouri, restricted to shipments under a continuing contract or contracts with banks, banking institutions and Eastman Kodak; and (3) *microfilm, microfiche, microforms, and related items* (a) between Jackson, Miss., on the one hand, and, on the other, Flora, Miss., and (b) between Orlando and Miami, Fla., on the one hand, and, on the other, points in Florida, restricted to the transportation of shipments having an immediately prior or subsequent movement by air and further restricted to the transportation of shipments under a continuing contract or contracts with banks, banking institutions and Southern Vital Records Center.

NOTE.—Applicant has motor common carrier authority pending in No. MC 142330 (Sub-No. 5), therefore dual operations may be involved. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Memphis, Tenn. The purpose of this amendment is to change the language of the restriction in part (3) above.

No. MC 143848 (Sub-No. 1), filed November 25, 1977. Applicant: J. & B. TRUCKING, INC., 201 Frisco Avenue (P.O. Box 117), Clinton, Okla. 73601. Applicant's representative: C. L. Phillips, Room 248, Classen Terrace Building, 1411 North Classen, Oklahoma City, Okla. 73106. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, in the transportation of (1) *Petroleum products*, in containers (except in bulk in tank vehicles), from the facilities of Congo Refinery located in Hancock County, W. Va., to the warehouse facilities of Morrison Wholesale, Inc., located in Clinton, Okla.; and (2) *pneumatic rubber tires and tubes*, from Texarkana, Ark., to the warehouse facilities of Morrison Wholesale, Inc., located in Clinton, Okla., under a continued contract or contracts in (1) and (2) above, with Morrison Wholesale, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held in Oklahoma City, Okla.

No. MC 143949 (Sub-No. 3), filed November 25, 1977. Applicant: JOHN GALT LINE, INC., 9600 Lucas Ranch Road, Cucamonga, Calif. 91730. Applicant's representative: Lucy Kennard Bell, 1800 United California Bank Building, 707 Wilshire Boulevard, Los Angeles, Calif. 90017. Applicant seeks authority as a *common carrier* by motor vehicle, over irregular routes, in the transportation of: *Motor homes*, in truckaway service, from the plantsites and facilities of Chinook International, Inc., located in Los Angeles County, Calif., to points in Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 144011, filed November 14, 1977. Applicant: HALL SYSTEMS, INC., 212 South 10th Street, Birmingham, Ala. 35233. Applicant's representative: Robert D. Hunter, Lange, Simpson, Robinson & Somerville, 1700 First Alabama Bank Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General Commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment): (1) Between Birmingham, Ala., and New Orleans, La.: From Birmingham over Interstate Highway 65 to junction Interstate Highway 10 thence over Interstate Highway 10 to New Orleans and return over the same route; (2) between Birmingham, Ala., and New Orleans, La.: From Birmingham over U.S. Highway 31 to junction U.S. Highway 90 thence over U.S. Highway 90 to New Orleans and return over the same route. In connection with route 1 and route 2 above serving all intermediate points on route 2 from the Mississippi-Alabama State line to New Orleans and serving those same points as off-route points on route 1. In connection with route 1 above, serving Gainesville, Miss., as an off-route point; (3) between Birmingham, Ala., and New Orleans, La.: From Birmingham over Interstate Highway 59 to New Orleans and return over the same route; (4) between Birmingham, Ala., and New Orleans, La.: From Birmingham over U.S. Highway 11 to New Orleans and return over the same route. In connection with route 3 and route 4 above, serving Meridian, Miss., Laurel, Miss., Hattiesburg, Miss., and Slidell, La., as intermediate points and serving Gainesville, Miss. as an off-route point. Also serving all intermediate points on route 4 from the Mississippi-Alabama State line to New Orleans and serving the same points as off-

route points on route 3; (5) between Birmingham, Ala., and Jackson, Miss.: From Birmingham over Interstate Highway 20 to Jackson and return over the same route; (6) between Birmingham, Ala., and Jackson, Miss.: From Birmingham over U.S. Highway 11 to junction U.S. Highway 80 thence over U.S. Highway 80 to Jackson and return over the same route. In connection with route 5 and route 6 above, serving Meridian, Miss. as an intermediate point on both routes. Also serving all intermediate points on route 6 from the Mississippi-Alabama State line to Jackson, Miss., and serving those same points as off-route points on route 5; (7) between Jackson, Miss., and Gulfport, Miss.: From Jackson over U.S. Highway 49 to Gulfport and return over the same route. In connection with route 7 above, serving all intermediate points between Jackson and Gulfport. Restrictions: No service from New Orleans, La., to points in Mississippi. No service to any Alabama points not in the commercial zone of Birmingham, Ala.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Birmingham, Ala.; New Orleans, La. or Meridian, Miss.

No. MC 144027, filed November 23, 1977. Applicant: WHITE'S DELIVERY SERVICE, INC., 3645 Tulip Street, Philadelphia, Pa. 19134. Applicant's representative: Alan Kahn, 1920 Two Penn Center Plaza, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cocoa beans and cocoa products*, except in bulk, from Norfolk and Newport News, Va. and Baltimore, Md. to Philadelphia, Pa.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at either Washington, D.C. or Philadelphia, Pa.

No. MC 144029, filed November 23, 1977. Applicant: CUMBERLAND TRANSPORTATION CORP., 5940 Fisher Road, P.O. Box 487, East Syracuse, N.Y. 13057. Applicant's representative: Michael R. Werner, 167 Fairfield Road, P.O. Box 1409, Fairfield, N.J. 07066. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pulpboard and pulpboard products, and materials, supplies, and equipment* used in the manufacture and distribution of pulpboard and pulpboard products, between Scotia, N.Y. on the one hand, and on the other, New York, New Jersey, Pennsylvania, Vermont, New Hampshire, Massachusetts, and Connecticut, under continuing contract or contracts with St. Regis Paper Company, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at New York, N.Y.

No. MC 144036, filed November 25, 1977. Applicant: J. R. PHILLIPS TRUCKING LTD., R. R. No. 2, Maidstone, Ontario, Canada. Applicant's representative: S. Harrison Kahn, Suite 733, Investment Building, Washington, D.C. 20005. Authority sought as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap metals*, in bulk, between the plantsite and warehouses of Zalev Brothers, Ltd., located at or near Port Huron and Detroit, Mich., on the International Boundary Line between the United States and Canada, on the one hand, and on the other, points in that part of Michigan on and south of Michigan Highway 55, including points located on the aforesaid highway, restricted to transportation in foreign commerce only.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Detroit, Mich.

No. MC 144041, filed November 28, 1977. Applicant: DOWNS TRANSPORTATION CO., INC., 2705 Canna Ridge Circle NE., Atlanta, Ga. 30345. Applicant's representative: K. Edward Wolcott, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Chemicals* (except in bulk), from Decatur and Conyers, Ga., to points in the United States (except Alaska and Hawaii); and (2) *materials, equipment, and supplies* used in the manufacture, sale, and distribution of chemicals (except in bulk), from points in the United States (except Alaska and Hawaii), to Decatur and Conyers, Ga.

NOTE.—Applicant holds contract carrier authority in MC 140883 (Sub-No. 2) and other subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests that it be held at Atlanta, Ga.

No. MC 144044, filed November 25, 1977. Applicant: WILLIAM DARE, JOHN R. DARE, JAMES M. DARE, AND RICHARD W. DARE, a partnership, d.b.a. DARE'S GARAGE, 6255 E. S.R. 22 and S.R. 3, Morrow, Ohio 45152. Applicant's representative: James M. Burtch, 100 East Broad Street, Suite 1800, Columbus, Ohio 43215. Authority to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wrecked, disabled, repossessed and replacement vehicles*, in wrecker service, between points in Hamilton, Warren, Clinton, and Butler Counties, Ohio, on the one hand, and, on the other, points in Michigan, Wisconsin, Illinois, Missouri, Arkansas, Louisiana, Mississippi, Alabama, Georgia, South Carolina, North Carolina, Virginia, West Virginia, Maryland, Pennsylvania, New York, Kentucky, Tennessee, New Jersey, Texas, Florida, and Indiana.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Columbus, Ohio.

No. MC 144126, filed January 3, 1978. Applicant: OLEN BURRAGE TRUCKING, INC., Route 9, Box 22-A Philadelphia, Miss. 39350. Applicant's representative: Fred W. Johnson, Jr., 1500 Deposit Guaranty Plaza, P.O. Box 22628, Jackson, Miss. 39205. Authority sought to operate as a common carrier by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles and construction materials*, from facilities of or utilized by Penn-Dixie Industries, Inc., Penn-Dixie Steel Corp., and subsidiaries of the foregoing companies located at or near Lansing, Mich., Grand Rapids, Mich., Petoskey, Mich., Holland, Mich., Detroit, Mich., Milwaukee, Wis., Chicago, Ill., Blue Island, Ill., Joliet, Ill., Kokomo, Ind., Fort Wayne, Ind., North Judson, Ind., Elkhart, Ind., Cicero, Ind., Centerville, Iowa, West Des Moines, Iowa, Jackson, Miss., Columbus, Ohio, Toledo, Ohio, Kingsport, Tenn., Knoxville, Tenn., South Pittsburg (Richard City), Tenn., Atlanta, Ga., Salisbury, N.C., Cabot, Pa., Nazareth, Pa., and Newton, Kans., to points in Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, North Carolina, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, Wisconsin, and West Virginia; and (2) *materials, equipment and supplies* used in the manufacture and distribution of commodities named in (1) above, from points in Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, North Carolina, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, Wisconsin and West Virginia, to facilities of or utilized by Penn-Dixie Industries, Inc., Penn-Dixie Steel Corp., and subsidiaries of the foregoing companies, located at or near Lansing, Mich., Grand Rapids, Mich., Petoskey, Mich., Detroit, Mich., Milwaukee, Wis., Holland, Mich., Chicago, Ill., Blue Island, Ill., Joliet, Ill., Kokomo, Ind., Elkhart, Ind., Cicero, Ind., Centerville, Iowa, West Des Moines, Iowa, Jackson, Miss., Columbus, Ohio, Toledo, Ohio, Kingsport, Tenn., Knoxville, Tenn., South Pittsburg (Richard City), Tenn., Atlanta, Ga., Salisbury, N.C., Cabot, Pa., Nazareth, Pa., and Newton, Kans.

NOTE.—If a hearing is deemed necessary, applicant requests it be held in Indianapolis, Ind. or Washington, D.C. Applicant holds motor contract carrier authority in MC 123905, therefore dual operations may be involved. Prehearing Conference, January 31, 1978, at 9:30 am at the Offices of the Interstate Commerce Commission, Washington, D.C.

## PASSENGERS

No. MC 109736 (Sub-No. 38), filed November 22, 1977. Applicant: CAP-

ITOL BUS COMPANY, d.b.a. CAPITOL TRAILWAYS, a Corporation, 1061 South Cameron Street (P.O. Box 3343), Harrisburg, Pa. 17104. Applicant's representative: S. Berne Smith, 100 Pine Street (P.O. Box 1166), Harrisburg, Pa. 17108. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in round trip charter operations, and in special operations, in round trip sightseeing or pleasure tours, beginning and ending at points in Columbia, Lycoming, Montour, Northumberland, Snyder, and Union Counties, Pa., and extending to points in the United States, including Alaska, but excluding Hawaii.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Williamstown, Pa. Common control may be involved.

No. MC 143874 (Correction), filed October 18, 1977, published in the FEDERAL REGISTER issue of December 15, 1977, and republished, as corrected this issue. Applicant: COLUMBIANA COUNTY MOTOR CLUB, INC., 213 East Fourth Street, East Liverpool, Ohio 43920. Applicant's representative: Gerald P. Wadkowski, 85 East Gay Street, Columbus, Ohio 43215. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Passengers, and their baggage*, in special and charter operations, between points in Columbiana County, Ohio, on the one hand, and, on the other, Pittsburgh International Airport, Pa.

NOTE.—The purpose of this correction is to indicate the correct spelling of applicant's name. If a hearing is deemed necessary, applicant requests it be held at East Liverpool, Youngstown, or Columbus, Ohio or Pittsburgh, Pa.

## FREIGHT FORWARDER

No. FF 504 (Correction), filed September 29, 1977, published in the FEDERAL REGISTER issue of November 25, 1977, and republished, as corrected, this issue. Applicant: GRAY INTERNATIONAL FREIGHT FORWARDING CO., a Corporation, 1290 South Pearl Street, Denver, Colo. 80210. Applicant's representative: Henry C. Winters, 235 Evergreen Building, 15 South Grady Way, Renton, Wash. 98055. The purpose of this correction is to applicant's correct address in Washington, in lieu of West Virginia as previously published. The remainder of the application remains the same as previously published.

## FINANCE APPLICATIONS

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, or rail carriers or motor carri-

ers pursuant to sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and two copies of protests against the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rules 240(c) or 240(d) of the Commission's General Rules of Practice (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant, if no representative is named.

No. MC-F-13345. (Correction) (Consolidated Freightways Corp. of Delaware—Pooling of Agreement—Nelson's Express, Inc., et al.), published in the October 14, 1977, issue of the FEDERAL REGISTER, on page 55344. Previous notice was published with an incorrect docket number. The correct number should be MC-F-13345.

No. MC-F-13453. Authority sought for control by A.G.C. Corp. (non-carrier), 111 West Clarendon, Phoenix, Ariz. 85013, of Greyhound Lines, Inc., 111 West Clarendon, Phoenix, Ariz. 85013, Gray Line New York Tours Corp., 354 West 54th Street, New York, N.Y. 10019, Walters Transit Corp., 525 11th Avenue, New York, N.Y. 10018, Texas, New Mexico & Oklahoma Coaches, Inc., Box 1800, Lubbock, Tex. 79409, and Vermont Transit Co., Inc., 135 St. Paul Street, Burlington, Vt. 05401, and for acquisition by the Greyhound Corp., 111 West Clarendon, Phoenix, Ariz. 85013.

Application has been filed by A.G.C. Corp. to acquire control of the above-stated carriers under section 5 of the Interstate Commerce Act. All of the issued and outstanding stock of A.G.C. Corp. is owned by the Greyhound Corp. which currently controls the carriers involved in this proceeding.

The Greyhound Corp. desires to change its State of incorporation from Delaware to Arizona where it maintains its corporate headquarters. The legal mechanism for this change is to merge the Greyhound Corp. into an Arizona corporation which has been created for this purpose, namely A.G.C. Corp.

This merger will not change the name of the company, its authorized or outstanding stocks or securities, or the nature of location of its business, assets, liabilities, or officers or directors. Further, neither this application nor the merger will change any carriers currently controlled by the Greyhound Corp. (a Delaware corporation)

or to be controlled by A.G.C. Corp. before the merger or the Greyhound Corp. (an Arizona corporation) after the merger. Application has not been filed for temporary authority under section 210a(b).

NOTE.—Motion to dismiss filed simultaneously with application.

No. MC-F-13465. Authority sought for purchase by COOPER-JARRETT, INC., Hanover Plaza, Morristown, N.J. 07960, of a portion of the operating rights of Eastern Express, Inc., Debtor-In-Possession, 1450 Wabash Avenue, Terre Haute, Ind. 47808, and for acquisition by R. E. Cooper, Jr., Hanover Plaza, Morristown, N.J. 07960, of control of such rights through the purchase. Applicant's attorneys: Irving Klein, 371 Seventh Avenue, New York, N.Y. 10001 and Roland Rice, 501 Perpetual Building, 1111 East Street NW, Washington, D.C. 20004. Operating rights sought to be transferred: *General commodities*, with exceptions as a common carrier, over regular routes, between Indianapolis, Ind., and Rochester, Pa., serving no intermediate points, but serving the off route points of Anderson and Muncie, Ind., and Dayton, Ohio: from Indianapolis over U.S. Highway 40 to LaFayette, Ohio, thence over U.S. Highway 42 via Mansfield, Ohio, to Lodi, Ohio, thence over U.S. Highway 224 to Canfield, Ohio, thence over Ohio Highway 46 to Columbiana, Ohio, thence over Ohio Highway 14 to the Ohio-Pennsylvania State line, thence over Pennsylvania Highway 51 to Beaver, Pa., and thence over Pennsylvania Highway 68 to Rochester, and return over the same route, with restriction. Vendee is authorized to operate as a common carrier in Connecticut, Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Massachusetts, Missouri, Nebraska, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Tennessee, Washington, West Virginia, and Wisconsin. Application has been filed for temporary authority under section 210a(b).

No. MC-F-13466. Authority sought for purchase by MARTEN TRANSPORT, LTD., Route 3, Mondovi, Wis. 54755, of a portion of the operating rights of Hiawatha Produce Co., 4195 Fourth Street, Winona, Minn. 55987, and for acquisition by Roger Marten, Route 3, Mondovi, Wis. 54755, of control of such rights through the transaction. Applicant's attorneys: Donald A. Morken, 1000 First National Bank Building, Minneapolis, Minn. 55402, and Allan B. Torhorst, 217 East Jefferson Street, P.O. Box 190, Burlington, Wis. 53105. Operating rights sought to be purchased: *Dairy products* (except commodities in bulk), as a common carrier, over irregular routes, from points in Minnesota and Wisconsin to

points in Illinois (except points in the Chicago, Ill., Commercial Zone as defined by the Commission) and points in that part of Missouri on and east of U.S. Highway 65, with restrictions; *Foodstuffs*, except commodities, in bulk, as a common carrier, over irregular routes, from the (10 facilities of Mississippi Valley Milk Producers at or near Maquoketa, Iowa, (2) the facilities of Farmers Co-op at or near Cresco and Decorah, Iowa, (3) the facilities of Farmers Butter & Dairy Co-op at or near Fredericksburgs, Iowa, and (4) the facilities of Land O'Lakes, Inc., at or near Hudson, Iowa, to points in Minnesota and Wisconsin, with restrictions; *Foodstuffs*, except in bulk, as a common carrier, over irregular routes, from points in Minnesota and Wisconsin to points in Illinois, Missouri, Kansas, Nebraska, and Iowa, with restrictions. Vendee is authorized to operate as a common carrier in Illinois, Iowa, Kansas, Minnesota, Missouri, Nebraska, and Wisconsin, and as a contract carrier in Arkansas, Ohio, South Dakota, California, North Dakota, Tennessee, and Texas. Application has been filed for temporary authority under section 210a(b).

No. MC-F-13467. Authority sought for purchase by BHY TRUCKING, INC., 9231 Whitmore, El Monte, Calif. 91733, of a portion of the operating rights of Western Gillette, Inc., 1077 Gorge Boulevard, Akron, Ohio, 44309, and for acquisition by Roy G. Barrow, 9231 Whitmore, El Monte, Calif. 91733, and G. W. Howell, P.O. Box 10480, Santa Ana, Calif. 92711, of control of such rights through the purchase. Applicant's attorneys: Milton W. Flack, 4311 Wilshire Boulevard, No. 300, Los Angeles, Calif. 90010, and William O. Turney, Suite 1010, 7101 Wisconsin Avenue, Washington, D.C. 20014. Operating rights to be transferred: *Mining and road building machinery and equipment* (including structural steel, pipe and well casing, but not including explosives), and used construction camp equipment, which because of size or weight require the use of special equipment, as a common carrier, over irregular routes, between points in California, on the one hand, and, one the other, points in Arizona. Vendee is authorized to operate as a common carrier in the States of California, Arizona, Texas, New Mexico, Nevada, Oklahoma, Kansas, Arkansas, and Louisiana. Applicant states it intends to tack the authority sought with existing authority. Application has been filed for temporary authority under section 210a(b).

No. MC-F-13471. Authority sought for purchase by COX REFRIGERATED EXPRESS, INC., 10606 Goodnight Lane, Dallas, Tex. 75220, of the operating rights of Fortenberry Transports, Inc., P.O. Box 47, Lubbock,

Tex., 79408, and for acquisition by Billy D. Cox Truck Leasing, Inc. and Billy D. Cox, also of Dallas, Tex., of control of the rights through the purchase. Applicant's attorneys: D. Paul Stafford and Lawrence A. Winkle, P.O. Box 45538, Dallas, Tex. 75245. Operating rights sought to be purchased: *Meats, meat products, and meat by-products*, with exceptions, as a common carrier, over irregular routes, from the plantsite of Swift & Co. near Clovis, N. Mex. to points in the states of Alabama, Georgia, Florida, North Carolina, South Carolina, and Tennessee, except Memphis, Tenn., Mobile and Selma, Ala., and Pensacola, Fla., as more fully described in Certificate No. MC 133765. Vendee is authorized to operate as a common carrier, transporting specific commodities, over irregular routes, between points in the states of Texas, California, Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, District of Columbia, Arizona, Colorado, Florida, New Mexico, North Carolina, Louisiana, Idaho, Nevada, Oregon, Utah, Washington, Georgia, Iowa, Nebraska, Arkansas, Oklahoma, Alabama, Illinois, Indiana, Kentucky, Missouri, Tennessee, Mississippi, Montana, Wyoming, Kansas, West Virginia, Michigan, Wisconsin, and Ohio, and pursuant to Permit No. MC 142296 as a contract carrier of clothing and wearing apparel between Memphis, Tenn. and Los Angeles and San Francisco, Calif. Approval of the proposed transaction will not result in duplicating authority. Application has not been filed for temporary authority under section 210a(b). This application is not related to any pending or simultaneously filed application.

No. MC-F-13475. Authority sought for purchase by NEUENDORF TRANSPORTATION CO., 121 South Stoughton Road, Madison, Wis. 53714, of a portion of the operating rights of Fore Way Express, Inc., 204 South Bellis Street, Wausau, Wis. 54401, and for acquisition by C. J. Neuendorf, of Madison, Wis., and Ervin H. Pries, of Medford, Wis., of control of the such rights through the purchase. Applicant's attorney: Richard A. Westley, 4506 Regent Street, Suite 100, Madison, Wis. 53705. Operating rights sought to be purchased: *General commodities*, with the usual exceptions, as a common carrier, over regular routes between Milwaukee, Wis., and Plover, Wis., serving Madison, Wis., as an intermediate point and Lawrence, Wis., as an off route point, restricted to traffic originating at or destined to Lawrence, Wis., and points in New Chester Township (Adams County), Wis.; and between New Chester Township, Wis., and Milwaukee, Wis., over regular routes, serving the intermedi-

2810

## NOTICES

ate point of Lawrence, Wis., as described in Certificate No. MC 99565 (Sub-No. 11-Portion). Vendee is authorized to operate as a common carrier in Wisconsin, Illinois, Minnesota, Indiana, Iowa, Michigan, Ohio, Pennsylvania, New York, and New Jersey. Duplicating authority may be involved. Application has not been filed for temporary authority under section 210a(b).

## OPERATING RIGHTS APPLICATION(S) DIRECTLY RELATED TO FINANCE PROCEEDINGS

The following operating rights application(s) are filed in connection with pending finance applications under section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with transfer applications under section 212(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the authorities must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with special rules 247(d) of the Commission's General Rules of Practice (49 CFR 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 140389 (Sub-No. 21), filed December 30, 1977. Applicant: OSBORN TRANSPORTATION, INC., P.O. Box 1830, Gadsden, Ala. 35902. Applicant's representative: Maurice F. Bishop, 601-09 Frank Nelson Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cotton-Factory Products*, from points in Georgia (except Atlanta, Ga.), North Carolina (except Greensboro, N.C.), South Carolina, and those in that part of Alabama on and east of U.S. Highway 31 to points in Washington, Oregon, Idaho, and Utah.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C. or Atlanta, Ga. This is a Gateway Elimination application filed in connection with the merger application—Osborn Transportation, Inc.—Merger—Tompkins Motor Lines, Inc., MC-F-13069 published in the FEDERAL REGISTER issue of March 31, 1977. Osborn Transportation, Inc., and Tompkins Motor Lines, Inc., are under common ownership. They are presently transporting the involved traffic through the Nashville, Tenn., gateway. The applica-

tion seeks to eliminate this gateway in connection with merger of the carriers.

## MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Deviation Rules—Motor Carrier of Property (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of this FEDERAL REGISTER notice.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its request.

## MOTOR CARRIERS OF PROPERTY

No. MC 48958 (Deviation No. 79), ILLINOIS-CALIFORNIA EXPRESS, INC., 601 Ross St., Amarillo, Tex. 79189, P.O. Box 9050, filed January 9, 1978. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Wickenburg, Ariz., over U.S. Highway 89 to junction U.S. Highway 93, thence over U.S. Highway 93 to junction U.S. Highway 66, and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Wickenburg, Ariz., over U.S. Highway 89 to junction U.S. Highway 66 near Ash Fork, Ariz., thence over U.S. Highway 66 to junction U.S. Highway 93 near Kingman, Ariz., and return over the same route.

No. MC 48958 (Deviation No. 80), ILLINOIS-CALIFORNIA EXPRESS, INC., 601 Ross St., P.O. Box 9050, Amarillo, Tex. 79189, filed January 9, 1978. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Amarillo, Tex., over U.S. Highway 287 to junction Texas Highway 256, thence over Texas Highway 256 to junction U.S. Highway 83, thence over U.S. Highway 83 to junction U.S. Highway 62, thence over U.S. Highway 62 to junction U.S. Highway 281, thence over U.S. Highway 281 to junction U.S. Highway 277 and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Amarillo, Tex., over U.S. Highway 287 to Wichita Falls, Tex.,

thence over Texas and Oklahoma Highway 79 to junction U.S. Highway 70 near Waurika, Okla., thence over U.S. Highway 70 to junction Oklahoma Highway 76 near Healdton, Okla., thence over Oklahoma Highway 76 to junction Oklahoma Highway 19 at Lindsay, Okla., thence over Oklahoma Highway 19 to junction U.S. Highway 277 near Chickasha, Okla., thence over U.S. Highway 277 to junction U.S. Highway 281 near Richards Spur, Okla., and return over the same route.

No. MC 75320 (deviation No. 67), CAMPBELL SIXTY-SIX EXPRESS, INC., P.O. Box 807, Springfield, Mo. 65801, filed January 5, 1978. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From junction U.S. Highway 40 and U.S. Highway 54 over U.S. Highway 54 to junction U.S. Highway 36 near Pittsfield, Ill., thence over U.S. Highway 36 to Springfield, Ill., and return over the same route for operating convenience only. This notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From junction U.S. Highway 40 and U.S. Highway 54 over U.S. Highway 40 to St. Louis, Mo., thence over U.S. Highway 66 to Springfield, Ill., and return over the same route.

No. MC 89723 (deviation No. 44), MISSOURI PACIFIC TRUCK LINES, INC., 210 North 13th St., St. Louis, Mo. 63103, filed January 9, 1978. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From West Memphis, Ark., over Interstate Highway 40 to junction U.S. Highway 49, thence over U.S. Highway 49 to junction U.S. Highway 79, thence over U.S. Highway 79 to junction Arkansas Highway 98, thence over Arkansas Highway 98 to junction U.S. Highway 82, thence over U.S. Highway 82 to Texarkana, Ark., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From West Memphis, Ark., over U.S. Highway 64 to Bald Knob, Ark., thence over U.S. Highway 67-167 to N. Little Rock, Ark., thence over U.S. Highway 67 to Texarkana, Ark., and return over the same route.

## MOTOR CARRIER INTERSTATE APPLICATION(S)

The following application(s) for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate au-

thority sought, pursuant to Section 206(a) (6) of the Interstate Commerce act. These applications are governed by Special Rule 245 of the Commission's *General Rules of Practice* (49CFR 1100.245), which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

Florida Docket No. 770973 CCT, filed December 14, 1977. Applicant: ROUNDTREE TRANSPORT, INC., 3580 Southwest 46th Avenue, Fort Lauderdale, Fla. Applicant's representative: Dan R. Schwartz, 1729 Gulf Life Tower, Jacksonville, Fla. Certificate of Public Convenience and Necessity sought to operate a freight service, as follows: Transportation of *building and construction material and supplies*, in truckload lots, on flatbed equipment only, between points in Florida. Intrastate, interstate and foreign commerce authority sought. Hearing: Date, time, and place not yet fixed. Requests for procedural information should be addressed to Florida Public Service Commission, 700 South Adams Street, Tallahassee, Fla. 32304, and should not be directed to the Interstate Commerce Commission.

South Carolina Docket No. 77-674-T, filed December 2, 1977. Applicant: ASKINS MOVING & STORAGE, INC., 1305 East Palmetto Street, Florence, S.C. 29502. Applicant's representative: Jack L. Nettles, 229 South Coit Street, P.O. Box 1461, Florence, S.C. 29503. Certificate of Public Convenience and Necessity sought to operate a freight service, as follows: Transportation of (1) *household goods*, between points and places in South Carolina; and (2) *commodities in general* (except petroleum products in bulk in tank trucks; classes A and B explosives and classes A, C and D poisons as defined under explosives and other dangerous articles in American Trucking Association, Inc., Agent Tariff No. 10, MF-ICC No. 11, PSCSC No. 11, supplements thereto or reissues thereof; and household goods and related articles, as defined in Motor Truck Rate Bureau, Agent, household goods Tariff, Motor Freight Tariff No. 8-D, SCPSC-MF No. 79, supplements thereto or reissues thereof; and except drugs and drug sundries for King Drug Co., Florence, S.C., from Florence to Darlington, Harts-ville, Kingstree, Lake City, Lamar, Olanita and Timmons-ville, S.C.; and commodities in general for Sears, Roebuck & Co., unless having prior or subsequent movement by rail in TOFC Trailers), between points and places in Darlington and Florence Counties, S.C., and between points and places in Darlington and Florence Counties and points and places in South Carolina. Intrastate, interstate and foreign commerce authority sought. Hearing: Date, time, and place not yet fixed. Requests for procedural information should be addressed to South Carolina Public Service Commission, P.O. Box 11649, Transportation Department, Columbia, S.C. 29211, and should not be directed to the Interstate Commerce Commission.

By the Commission.  
H. G. HOMME, Jr.,  
Acting Secretary.

## SPECIAL PROPERTY BROKERS

JANUARY 18, 1978.

The following applicants seek to participate in the property broker special licensing procedure under 49 CFR 1045A authorizing operations as a broker at any location, in arranging for the transportation by motor vehicle, in interstate or foreign commerce, of property (except household goods), between all points in the United States including Alaska and Hawaii. Any interested person shall file an original and (1) copy of a verified statement in opposition limited in scope to matters regarding applicant's fitness within 30 days after this notice. Statements must be mailed to: Broker Entry Staff, Room 2379, Interstate Commerce Commission, Washington, D.C. 20423.

Opposing parties shall serve (1) copy of the statement in opposition concurrently upon applicant's representative, or applicant if no representative is named.

If an applicant is not otherwise informed by the Commission, it may commence operation 45 days after this notice.

B-77-12, filed October 20, 1977. Applicant: MERCURY INTERNATIONAL FORWARDERS, INC., 820 East "D" Street, Wilmington, Calif. 90744. Applicant's representative: Norman S. Marshall, 1335 South Figueroa Street, Los Angeles, Calif. 90015.

By the Commission.

H. G. HOMME, Jr.,  
Acting Secretary.

#### [6355-01]

#### CONSUMER PRODUCT SAFETY COMMISSION.

TIME AND DATE: 9:30 a.m., January 25, 1978.

LOCATION: 3rd Floor Hearing Room, 1111 18th Street NW., Washington, D.C.

STATUS: Open.

#### MATTERS TO BE CONSIDERED:

##### UNVENTED GAS-FIRED SPACE HEATERS

The staff will brief the Commission on a possible proposed ban of unvented gas-fired space heaters under the Consumer Product Safety Act, because of possible carbon monoxide poisoning or asphyxiation hazards associated with these heaters.

#### CONTACT PERSON FOR ADDITIONAL INFORMATION:

Sheldon D. Butts, Assistant Secretary, Consumer Product Safety Commission, Suite 300, 1111 18th Street NW., Washington, D.C. 20207, telephone 202-634-7700.

(S-122-78 Filed 1-17-78; 1:57 pm)

#### [6355-01]

#### CONSUMER PRODUCT SAFETY COMMISSION.

TIME AND DATE: 9:30 a.m., January 26, 1978.

LOCATION: 3rd Floor Hearing Room, 1111 18th Street NW., Washington, D.C.

STATUS: Open.

#### MATTERS TO BE CONSIDERED:

1. *Recommendation to Accept Corrective Action Plan: Massey-Ferguson, Inc., lawn tractor, ID 77-67.*—The staff has recommended that the Commission accept the corrective action plan which Massey-Ferguson has implemented to deal with a possible hazard associated with steering wheels on certain Massey-Ferguson lawn tractors.

2. *Petition to Require Special Packaging for Acetaminophen Preparations PP 76-9.*—Stephen D. Steckel, assistant director of pharmacy at Strong Memorial Hospital, Rochester, N.Y., has asked the Commission to require child-resistant packaging on products containing the aspirin-substitute acetaminophen, because of alleged overdose problems among children.

3. *Commission Meeting in California.*—James P. DiGrazia, director of the Commission's San Francisco Area Office, has recommended that the Commission hold a formal business session in California, in order to provide greater public exposure to CPSC decisionmaking.

#### CONTACT PERSON FOR ADDITIONAL INFORMATION:

Sheldon D. Butts, Assistant Secretary, Consumer Product Safety Commission, Suite 300, 1111 18th Street NW., Washington, D.C. 20207, telephone 202-634-7700.

(S-121-78 Filed 1-17-78; 1:57 pm)

#### [6570-06]

#### EQUAL EMPLOYMENT OPPORTUNITY COMMISSION.

TIME AND DATE: 9:30 a.m. (Eastern Time), Monday, January 23, 1978.

PLACE: Chairman's Conference Room, No. 5240, on the fifth floor of the Columbia Plaza Office Building, 2401 E Street NW., Washington, D.C. 20506.

STATUS: Part will be open to the public and part will be closed to the public.

#### MATTERS TO BE CONSIDERED:

Part open to the public: American Arbitration Association: Proposed Contract for development of materials to be used in staff training for resolution of conflicts arising from the filing of charges of employment discrimination.

Part closed to the public: Revised Phasing Plan for Field Office Structure.

NOTE.—Any matter not discussed or concluded may be carried over to a later meeting.

#### CONTACT PERSON FOR MORE INFORMATION:

Marie D. Wilson, Executive Officer, Executive Secretariat, at 202-634-6748.

This notice issued January 16, 1978. (S-115-78 Filed 1-17-78; 8:52 am)

#### [6570-06]

#### EQUAL EMPLOYMENT OPPORTUNITY COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: S-115-78, ante.

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING: 9:30 a.m. (Eastern Time), Monday, January 23, 1978.

#### CHANGES IN THE MEETING:

The following item is added to the agenda for the closed part of the meeting:

Litigation Authorization: General Counsel Recommendations: Matters closed to the public under § 1612.13(a) of the Commission's regulations (42 FR 13830, March 14, 1977).

A majority of the entire membership of the Commission determined by recorded vote that the business of the Commission required this change and that no earlier announcement was possible.

The vote was as follows: In favor of change: Eleanor Holmes Norton, Chair; Daniel E. Leach, Vice Chair; Ethel Bent Walsh, Commissioner.

Opposed: None.

#### CONTACT PERSON FOR MORE INFORMATION:

Marie D. Wilson, Executive Officer, Executive Secretariat, at 202-634-6748.

This notice issued January 17, 1978. (S-126-78 Filed 1-17-78; 3:53 pm)

#### [7545-01]

#### NATIONAL LABOR RELATIONS BOARD.

TIME AND DATE: 10 a.m. Friday, January 27, 1978.

PLACE: Board Conference Room, Sixth Floor, 1717 Pennsylvania Avenue NW., Washington, D.C. 20570.

STATUS: Closed to public observation.

MATTERS TO BE CONSIDERED: Consideration of applicants qualified for appointment to Administrative Law Judge.

#### CONTACT PERSON FOR MORE INFORMATION:

Robert Volger, Acting Executive Secretary, Washington, D.C. 20570, telephone number 202-254-9430.

Dated: January 16, 1978, Washington, D.C.

By direction of the Board.

For the National Labor Relations Board.

GEORGE A. LEET,  
Associate Executive Secretary.  
(S-114-78 Filed 1-17-78; 8:52 am)

#### [4910-58]

#### NATIONAL TRANSPORTATION SAFETY BOARD.

TIME AND DATE: 9:30 a.m., Friday, January 20, 1978 [NM-78-41].

PLACE: NTSB Board Room, National Transportation Safety Board, 800 Independence Avenue SW., Washington, D.C. 20594.

STATUS: Closed. (A majority of the Board has voted that the meeting may be closed and that no earlier notice was possible.) (Exemption 9B.)

MATTERS TO BE CONSIDERED: Formulation of Board comments on proposed legislation, as requested by Office of Management and Budget.

#### CONTACT PERSON FOR MORE INFORMATION:

Sharon Flemming 202-426-8860.  
(S-124-78 Filed 1-17-78; 3:31 pm)

#### [4910-58]

#### NATIONAL TRANSPORTATION SAFETY BOARD.

TIME AND DATE: 9:30 a.m., Thursday, January 26, 1978 [NM-78-51].

PLACE: NTSB Board Room, National Transportation Safety Board, 800 Independence Avenue SW., Washington, D.C. 20594.

STATUS: Open.

#### MATTERS TO BE CONSIDERED:

1. *Marine Accident Report.*—Collision of the SS *Marine Floridian* with

### SUNSHINE ACT MEETINGS

the Benjamin Harrison Bridge near Hopewell, Va., on February 24, 1977.

2. *Railroad Accident Report.*—Rear end collision of two ConRail freight trains, Stemmers Run, Baltimore, Md., June 12, 1977.

3. *Aviation Special Study.*—Emergency locator transmitters: An overview.

4. *Discussion.*—Letter to the Secretary of State concerning international aviation investigations and NTSB order 6220.1, Board policy regarding participation in international aircraft accident investigations.

5. *Discussion.*—NTSB public hearings and how rotation among the members will be established.

6. *Discussion.*—Selection of railroad accidents to investigate.

#### CONTACT PERSON FOR MORE INFORMATION:

Sharon Flemming, 202-426-8860.  
(S-125-78 Filed 1-17-78; 3:31 pm)

#### [7590-01]

#### NUCLEAR REGULATORY COMMISSION.

TIME AND DATE: Thursday, January 12, 1978.

PLACE: Commissioners' Conference Room, 1717 H St. NW., Washington, D.C.

STATUS: Open (additional item)

#### MATTERS TO BE CONSIDERED:

2 p.m.—Affirmation of order extending time in review of ALAB-447 (Exxon). By unanimous vote on January 12, 1978 the Commission determined pursuant to 5 U.S.C. 552b(e)(1) and § 9.107(a) of the Commission's Rules that Commission business requires that this agenda item be held on less than one week's notice to the public. Immediate action is required to permit additional time to review the matter.

#### CONTACT PERSON FOR MORE INFORMATION:

Walter Magee, 202-634-1410.

WALTER MAGEE,  
Office of the Secretary.

JANUARY 13, 1978.  
(S-117-78 Filed 1-17-78; 10:36 am)

#### [7590-01]

#### NUCLEAR REGULATORY COMMISSION.

TIME AND DATE: Week of January 16, 1978.

PLACE: Commissioners' Conference Room, 1717 H Street NW., Washington, D.C.

STATUS: Open and Closed.

STATUS: Open and Closed (Changes).  
MATTERS TO BE CONSIDERED:

## SECURITIES AND EXCHANGE COMMISSION.

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94-409, that the Securities and Exchange Commission will hold the following meetings during the week of January 23, 1978, in Room 825, 500 North Capitol Street, Washington, D.C.

A closed meeting will be held on Tuesday, January 24, 1978, at 10 a.m. Open meetings will be held on Tuesday, January 24, 1978, at 3:30 p.m., on Wednesday, January 25, 1978, at 10 a.m., on Wednesday, January 25, 1978, at 2:30 p.m., and on Thursday, January 26, 1978, at 2 p.m.

The Commissioners, their legal assistants, the Secretary of the Commission and recording secretaries will attend the closed meeting. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meetings may be so considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552b(c) (4)(8)(9)(A) and (10) and 17 CFR 200.402(a)(8)(9)(9) and (10).

Chairman Williams, Commissioners Loomis, Evans, Pollack, and Karmel determined to hold the aforesaid meeting in closed session.

The subject matter of the closed meeting scheduled for Tuesday, January 24, 1978, at 10 a.m., will be:

Referral of investigative files to Federal, State or Self-Regulatory authorities. Formal orders of investigation.

Institution of injunctive actions.  
Institution of administrative proceedings.  
Settlement of administrative proceedings.  
Other litigation matters.

The subject matter of the open meeting scheduled for Tuesday, January 24, 1978, at 3:30 p.m., will be:

The Commission will meet with representatives of the Association of Corporate Secretaries to discuss current issues and developments of mutual concern.

The subject matter of the open meeting scheduled for Wednesday, January 25, 1978, at 10 a.m., will be:

1. The issuance of a release confirming the expiration date of January 31, 1978, with regard to Rule 15c2-11(f)(4)(T) concerning information required for initiation or resumption of quotations. (The expiration date for this rule has been previously extended by the Commission several times).

2. Further consideration of soliciting public comments on proposed Rule 206(4)-3 under the Investment Advisers Act of 1940 which would set forth guidelines pursuant to which investment advisers can make cash payments to persons who solicit clients for such investment advisers.

3. The issuance of a release announcing the Commission's preliminary response to the recommendations of the Advisory Committee on Corporate Disclosure.

The subject matter of the open meeting scheduled for Wednesday, January 25, 1978, at 2:30 p.m., will be:

Oral argument in the matter of Allen Mansfield concerning an appeal from disciplinary action taken against him by the National Association of Securities Dealers, Inc.

The subject matter of the open meeting scheduled for Thursday, January 26, 1978, at 2 p.m., will be:

The Commission will meet with interested persons who wish to express their views concerning the valuation of portfolio securities by money market funds.

## FOR FURTHER INFORMATION CONTACT:

Judy L. Chesser at 202-376-8065 or Margaret Topps at 202-376-8003.

# AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
	CSC			CSC
	LABOR			LABOR
	HEW/ADAMHA			HEW/ADAMHA
	HEW/CDC			HEW/CDC
	HEW/FDA			HEW/FDA
	HEW/HRA			HEW/HRA
	HEW/HSA			HEW/HSA
	HEW/NIH			HEW/NIH
	HEW/PHS			HEW/PHS

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

FEDERAL REGISTER, VOL. 43, NO. 14—FRIDAY, JANUARY 20, 1978

## rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

## [6325-01]

## Title 5—Administrative Personnel

## CHAPTER I—CIVIL SERVICE COMMISSION

## PART 213—EXCEPTED SERVICE

## Temporary Boards and Commissions

## AGENCY: Civil Service Commission.

## ACTION: Final rule.

SUMMARY: Not to exceed 40 positions on the staff of the Indian Claims Commission are excepted under schedule A until September 30, 1978, because it is impracticable to hold an examination for them.

## EFFECTIVE DATE: January 20, 1978.

## FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3199(h) is added as set out below:

## § 213.3199 Temporary boards and commissions.

(h) *Indian Claims Commission.* (1) Until September 30, 1978, not to exceed 40 positions on the staff of the Commission.

(5 U.S.C. 3301, 3302; E.O. 10577, 3 CFR 1954-1958 Comp., p. 218.)

For the U.S. Civil Service Commission.

JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

(FR Doc. 78-1364 Filed 1-19-78; 8:45 am)

## [6325-01]

## PART 213—EXCEPTED SERVICE

## Department of Housing and Urban Development

NOTE.—This document originally appeared in the FEDERAL REGISTER for Monday, January 16, 1978. It is reprinted in this issue to meet requirements for publication on an assigned day of the week. (See the inside cover of this issue for information about agencies publishing on assigned days of the week.)

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: The following three positions are excepted from the competitive service under Schedule C because they are confidential in nature: one Special Assistant to the Deputy Assistant Secretary for Regulatory Functions, one Special Assistant for Neighborhood Concerns, and one Special Assistant to the Deputy Assistant Secretary for Neighborhood and Consumer Affairs.

## EFFECTIVE DATE: January 16, 1978.

## FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3384 (1), (5), (6), and (7) are added as set out below:

## § 213.3384 Department of Housing and Urban Development.

(1) *Office of the Assistant Secretary for Neighborhood Organizations, Voluntary Associations, and Consumer Protection.* . . .

(5) One Special Assistant to the Deputy Assistant Secretary for Regulatory Functions.

(6) One Special Assistant for Neighborhood Concerns.

(7) One Special Assistant to the Deputy Assistant Secretary for Neighborhood and Consumer Affairs.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

For the United States Civil Service Commission.

JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

(FR Doc. 78-1307 Filed 1-13-78; 8:45 am)

## [3410-02]

Title 7—Agriculture

**CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTIONS, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE**

**PART 26—GRAIN STANDARDS**

United States Standards for Corn

AGENCY: Federal Grain Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: The Department is amending the U.S. Standards for Corn by providing an additional special grade to be used in the inspection of "Waxy Corn," a special-purpose corn. The amendment does not alter current inspection procedures applicable to varieties of corn other than waxy.

EFFECTIVE DATE: February 1, 1978.

FOR FURTHER INFORMATION CONTACT:

N. Gail Jackson, Director, Standardization Division, Federal Grain Inspection Service, Room 0629-S, 1400 Independence Avenue SW., Washington, D.C. 20250, telephone 202-447-8975.

SUPPLEMENTARY INFORMATION: The United States Grain Standards Act, as amended by this Act of September 29, 1977 (Pub. L. 95-113, 91 Stat. 913) provides for official U.S. standards to designate the quality of grain for use by producers, merchandisers, and consumers in the domestic and export marketing of grain. The Act provides for an official grading service and payment of a fee by the applicant to cover the cost of the service. Pursuant to section 4 of the Act (7 U.S.C. 76), a notice concerning a proposed revision of the United States Standard for Corn (7 CFR 26.351 et seq.) was published in the FEDERAL REGISTER (41 FR 61473) on December 5, 1977, according to the administrative provisions of section 553 of Title 5, United States Code. Reprints of the proposed revision as printed were made and mailed as ST

\*Including matters within the responsibility of the Federal Grain Inspection Service.

Notice 11 on December 8, 1977 to approximately 800 recipients, including official inspection personnel and interested parties in the grain industry. Persons were given 22 days from date of publication in the FEDERAL REGISTER to submit written comments, suggestions, or objections regarding the proposed rulemaking to the Hearing Clerk, U.S. Department of Agriculture. As of December 30, there was one response. It supported the proposal and urged implementation of the changes.

The words "or pink color" were inadvertently included in § 26.905(b) of the proposal but are omitted in the final rulemaking. The Department proposed to remove the restriction on "straw color" in waxy corn but not the restriction for "pink color". Waxy corn tends to be a "straw color" because of its high content of amylopectin starch. Under the current standards for corn, this straw color results in the downgrading of the sample based on its natural appearance. To eliminate this downgrading, the restriction on "straw color" does not apply to waxy corn.

It is further found that good cause exists for not postponing the effective date of this amendment until 1 year after publication in the FEDERAL REGISTER in that:

(1) Compliance with the amendments will not impose any obligation upon nor require any special preparation on the part of producers and handlers which cannot be completed by the effective time thereof; (2) the 1977 crop of waxy corn has already been harvested, and it is necessary that the amended standards be made effective as soon as possible to aid in the export marketing of the current crop; (3) the amended standards will in no way alter the grading of varieties of corn other than waxy.

Accordingly, §§ 26.353 and 26.905 of the United States Standards for Corn are amended to read as follows:

§ 26.353 Grades, grade requirements, and grade designations.

(c) *Special grades, special grade requirements, and special grade designations for corn—*(1) *Flint corn.*

(2) *Flint and dent corn.*

(3) *Weevily corn.*

(4) *Waxy corn—*(i) *Requirement.* Waxy corn shall be corn of any class which consists of 95 percent or more waxy corn, as determined by a test approved by the Administrator.

(ii) *Grade Designations.* Waxy corn shall be graded and designated according to the grade requirements of the standards applicable to such corn if it were not waxy, and there shall be added to and made a part of the grade designation immediately following the word "corn," the word "waxy."

§ 26.905 Interpretations with respect to the term "white kernels of corn with a slight tinge of light straw or pink color."

(a) Except for white waxy corn, the term "white kernels of corn with a slight tinge of light straw or pink color," when used in the United States Standards for Corn (see § 26.351(d)), shall be construed to include kernels which are white and/or light straw or light pink in color, and kernels which are white and pink in color: *Provided*, The pink color covers less than 50 percent of the kernel. White and pink kernels in which the pink color covers 50 percent or more of the kernel shall be considered as "corn of other colors."

(b) For the special grade "waxy," the requirement of "a slight tinge of light straw" shall not be applicable; however, kernels which are "slightly yellow" shall be considered as "corn of other colors." All other color requirements contained in the above paragraph remain in effect for all classes of waxy corn.

Done at Washington, D.C., January 17, 1978.

L. E. BARTELT,  
Administrator.

**CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE**

**SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS**

**PART 729—PEANUTS**

1978 Crop of Peanuts: Acreage Allotments and Marketing Quotas

AGENCY: Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture.

ACTION: Proclamation.

SUMMARY: The U.S. Department of Agriculture announces the results of the referendum held during the period December 12-15, 1977, pursuant to section 358(b) of the Agricultural Adjustment Act of 1938, as amended, to determine whether farmers favor or oppose marketing quotas for peanuts produced in the calendar years 1978, 1979, and 1980. Since the only purpose of this proclamation is to announce the results of the referendum, it is found and determined that compliance with the notice, public procedure and 30-day effective date requirements of 5 U.S.C. 553 is unnecessary.

DATE: January 13, 1978.

ADDRESS: Price Support and Loan Division, ASCS, USDA, 3741 South

## RULES AND REGULATIONS

Building, P.O. Box 2415, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT:

Thomas A. VonGarlem, ASCS, 202-447-7954.

SUPPLEMENTARY INFORMATION: In a final rule published in the FEDERAL REGISTER on December 6, 1977 (42 FR 61590), the Secretary of Agriculture announced that a marketing quota referendum for the 1978, 1979, and 1980 crops of peanuts would be held by mail ballot during the period December 12-15, 1977, inclusive. Section 358(b) of the Agricultural Adjustment Act of 1938, as amended, requires that the Secretary proclaim the results of the referendum within thirty days after the date on which it is held.

**FINAL RULE**

Accordingly, 7 CFR 729.105 is amended to read as follows:

§ 729.105 Proclamation of the results of the marketing quota referendum for the peanut crops produced in the three calendar years 1978, 1979, and 1980.

In a referendum of farmers engaged in the production of 1977-crop peanuts, held during the period December 12-15, 1977, 29,075 farmers voted. Of those voting, 27,228 farmers, or 93.8 percent, favored marketing quotas for peanuts produced in the three calendar years 1978, 1979, and 1980 and 1,847 farmers, or 6.4 percent opposed quotas for peanuts produced in each of such three calendar years. Since more than two-thirds of the farmers voting favored quotas, marketing quotas for peanuts produced in the calendar years 1978, 1979, and 1980 shall be effective.

(Secs. 358, 375, 52 Stat. 66, as amended; 55 Stat. 88, as amended; 7 U.S.C. 1358, 1375.)

Signed at Washington, D.C., January 12, 1978.

STEWART N. SMITH,  
Acting Administrator, Agricultural Stabilization and Conservation Service.

[FR Doc. 78-1375 Filed 1-13-78; 2:48 pm]

## [3410-02]

**CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE**

[Lemon Reg. 129]

**PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA**

Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona lemons that may be shipped to market during the period January 22-28, 1978. Such action is needed to provide for orderly marketing of fresh lemons for this period due to the marketing situation confronting the lemon industry.

EFFECTIVE DATE: January 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION: *Findings.* Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, and upon other information, it is found that the limitation of handling of lemons, as hereafter provided, will tend to effectuate the declared policy of the act.

The committee met on January 17, 1978, to consider supply and market conditions and other factors affecting the need for regulation and recommended a quantity of lemons deemed advisable to be handled during the specified week. The committee reports the demand for lemons is good on 115's and smaller and easier on larger sizes.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

§ 910.429 Lemon Regulation 129.

Order. (a) The quantity of lemons grown in California and Arizona which may be handled during the period January 22, 1978, through January 28, 1978, is established at 190,000 cartons.

(b) As used in this section, "handled" and "carton(s)" mean the same as defined in the marketing order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: January 19, 1978.

CHARLES R. BRADER,  
Acting Director, Fruit and Vegetable  
Division, Agricultural  
Marketing Service.

## CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER D—PROVISIONS COMMON TO MORE THAN ONE PROGRAM

## PART 792—NORMAL CROP ACREAGE AND SET-ASIDE ACREAGE

Revision of Regulations

AGENCY: Agricultural Stabilization and Conservation Service, Department of Agriculture.

ACTION: Final rule.

SUMMARY: This rule amends the normal crop acreage and set-aside acreage regulations to read as set out below, requiring that normal crop acreages be established for farms instead of conserving bases. It also requires that the set-aside normally be land that was recently tilled, that the set-aside normally be protected by vegetative cover, and that harvesting of the cover be prohibited. These changes make the set-aside more effective in controlling production and assure that the set-aside is protected from wind and water erosion. The material previously appearing under conserving base and designated set-aside

acreage regulations remains in effect for the programs to which it applies.

EFFECTIVE DATE: February 21, 1978.

### FOR FURTHER INFORMATION CONTACT:

Ernest Stevens, Production Adjustment Division, Agricultural Stabilization and Conservation Service, USDA, P.O. Box 2415, Washington, D.C. 20013, 202-447-7633.

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking was published in the FEDERAL REGISTER on October 14, 1977 (42 FR 55243). More than 3,800 people responded with written comments, and many comments were received by telephone. The written comments and the final decisions by this Department are summarized as follows:

1. *Crops in the Normal Crop Acreage.* The list of crops as provided for in the proposed rule in 7 CFR 792.2 remains unchanged. 1,120 comments were received. All but one comment favored adding specific crops to the list of proposed crops. However, crops normally substituted with the crops listed in 7 CFR 792.2 or for which the acreage may be adversely affected by set-aside programs may be approved by the Deputy Administrator, State and County Operations, ASCS, when such crops are recommended by the State committee.

2. *Cover on Set-Aside.* 625 comments were received which recommended that no vegetative cover be required on the set-aside acreage. 286 recommendations were for a cover crop. In addition, there were 1,181 recommendations to permit summer fallow on the set-aside acreage and there were 12 recommendations to prohibit summer fallow on the set-aside acreage. In the proposed rule, cover was required in order to control wind and water erosion and improve wildlife habitat. However, the comments pointed out that in some areas erosion is no problem and cover cannot be established unless the land is irrigated. This requires using water and energy that need to be preserved. The stubble or other residue from the previous crop may in other areas provide better erosion protection than a crop that would require land preparation. Farming practices other than seeded vegetation which will provide erosion protection and which are recommended by the State committee will be approved by the Deputy Administrator.

3. *Grazing Set-Aside.* The proposed rule prohibited grazing on set-aside acreage except under emergency situations. All but 30 of the 3,448 comments recommended that grazing be allowed on set-aside acreage. Most of the comments stressed that much small grain

is grazed and later harvested for grain and that farmers who set aside part of the acreage to reduce grain production should not lose the acreage for grazing as well. Also, it was stressed that grazing helps to control weeds and reduce growth that otherwise may be injurious to the cover-crop. The recommendations which were against allowing grazing on set-aside acreage claimed that grazing creates an inequity since some producers would receive no benefit. It was also pointed out that permitting grazing on set-aside acreage may help create a surplus livestock situation because more acreage may be grazed. Grazing will be permitted but will be excluded during the six principal growing months when grazing would not normally occur for crops being produced for harvest.

4. *Harvesting Set-Aside.* All but 6 of the 160 comments recommended that harvesting be permitted on set-aside acreage. There were recommendations as to specific crops which could be harvested on set-aside acreage. However, permitting the production of crops for harvest on set-aside acreage makes the set-aside less effective. Therefore, harvesting will be permitted only under emergency situations.

5. *Cross Compliance on the Farm.* The proposed rule provided for cross compliance. There were 53 comments recommending no cross compliance requirement and 7 comments which favored imposing a cross compliance requirement. The final rule provides for a cross compliance requirement on the farm. The acreage of all crops in the normal crop acreage is controlled when set-aside requirements are in effect for a crop grown on the farm. Failure to meet program requirements for that crop should preclude benefits for other crops on the farm that are in the normal crop acreage.

6. *Offsetting Compliance Between Farms.* The proposed rule required compliance with set-aside and normal crop acreage requirements for all farms on which the program participant was landlord, landowner, or operator. All of the 367 comments recommended elimination of this requirement. However, the final rule contains a modified offsetting compliance requirement to prevent producers from offsetting reduced production on a participating farm by increasing production on a nonparticipating farm that produces one or more crops for which a set-aside requirement is in effect.

7. *Miscellaneous Provisions.* A number of comments concerned the land eligible for designation as set-aside acreage. Some recommendations were to accept all cropland, to accept all land in grass or in tame hay, to accept all former Soil Bank land, and to accept all land which could be tilled. These recommendations were

not adopted because they would include much land not now in crop production because it is unsuitable. Other comments questioned the exclusion of small grain from the normal crop acreage when used for other than grain. The final rule includes all the acreage of crops in the normal crop acreage that was planted in 1977 for other than cover or green manure.

### FINAL RULE

7 CFR Part 792 is revised to read as follows:

Sec.  
792.1 Applicability.  
792.2 Normal crop acreage.  
792.3 Designation of set-aside acreage.  
792.4 Care of set-aside acreage.  
792.5 Use of set-aside acreage.  
792.6 Cross compliance on the farm.  
792.7 Offsetting compliance between farms.

AUTHORITY: Secs. 101(h), 103(f), 105A and 107A of the Agricultural Act of 1949, as added by Pub. L. 95-113 (91 Stat. 913 et seq.), Sec. 1001 of Title X of Pub. L. 95-113 (91 Stat. 950).

### § 792.1 Applicability.

This part provides the rules for determining the farm normal crop acreage and for designation, care and use of acreage set aside under the 1978-81 Feed Grain Program, Part 775 of this chapter, as amended; the 1978-81 Rice Program, Part 730 of this chapter, as amended; the 1978-81 Wheat Program, Part 728 of this chapter, as amended; the 1978-81 Upland Cotton Program, Part 722 of this chapter, as amended; and all other programs to which this part is made applicable by individual program regulations. The number of acres to be set aside for each program will be stated in the individual program regulations. In this part and in all instructions, forms and documents in connection with it, the words and phrases used shall, unless the context or subject matter otherwise requires, have the meanings assigned to them in the regulations governing reconstitution of farms and allotments, Part 719 of this chapter, as amended, and in the regulations governing the programs to which this part is applicable.

### § 792.2 Normal crop acreage.

The normal crop acreage (herein called NCA) shall be the acreage planted in 1977 to the following crops for other than cover or green manure and any volunteer acreage of these crops harvested for grain: barley, field corn, grain sorghum, rice, wheat, upland cotton, oats, rye, soybeans, flax, dry edible beans, sunflower, sugar beets, sugar cane, and any other major field crop of significant acreage which is recommended by the State committee and approved by the Deputy Administrator, State and County Operations, ASCS. The 1977 acreage shall be determined, and ad-

justed when abnormal, in accordance with instructions issued by the Deputy Administrator.

### § 792.3 Designation of set-aside acreage.

(a) *Land eligible for designation.* Subject to the provisions of paragraph (b) of this section, the land eligible for designation as set-aside acreage must be cropland that was tilled within the previous three years in the production of a crop for other than hay or pasture, unless the county committee determines that the cropland was devoted in all of the previous three years to a hay crop that was in a normal rotation pattern with a small grain or row crop, or the cropland was designated as set-aside in any one year for which a set-aside program was in effect and was eligible when designated.

(b) *Land not eligible for designation.* Land will not be eligible for designation if it is:

(1) Land which is designated as set-aside under any other program for the calendar year (year in which the set-aside is in effect).

(2) Land for which a prevented planting or low yield payment is made for the calendar year.

(3) Turn rows, drainage ditches, wet low-lying areas, droughty knobs or banks, areas rejected by the county committee because of their small size or shape, or land in an orchard or vineyard and strips in skiprow planting patterns.

(4) Land which at the time the set-aside acreage is designated is expected to be used in the current year or a later year for industrial development, housing, highway construction, or other nonfarm use, and the land would not, in the absence of the program, be devoted in the current year to a crop for harvest.

(5) Land devoted to nonagricultural use on or before September 30 of the current year, unless such land is acquired by eminent domain and a representative of the State committee determines that it would not have been anticipated at the time of designation that the land would be devoted to non-agricultural use before the end of the current year.

(6) Land from a receding lake or areas bordering a lake which the producer does not have title to or otherwise have authority to use for crops.

(7) Land planted to grain for a State or National wildlife agency for wildlife.

(8) Land owned and operated by a State, county, or local government unless the owner establishes to the satisfaction of the county committee that it has adequate equipment and other facilities readily available for the successful production of crops under a set-aside program and that the production of such crops is a normal practice for such land.

### § 792.4 Care of set-aside acreage.

(a) *Approved cover and practices.* The set-aside shall be devoted by the normal period for planting spring crops to one or more of the following approved covers or practices, or to other cover or practices recommended by the State committee and approved by the Deputy Administrator which will effectively protect the set-aside from wind and water erosion throughout the calendar year:

(1) Annual, biennial, or perennial grasses and legumes, including volunteer stands other than weeds which meet the criteria set forth by the State committee.

(2) Small grains, including volunteer stands other than weeds which meet the criteria set forth by the State committee. They must be clipped to prevent seed formation except when approved for wildlife cover.

(3) Trees or shrubs planted for erosion control, shelter-belts, or other forestry purposes or for wildlife habitat during the current year or the fall of the preceding year, provided these practices are on designated set-aside acreage otherwise eligible under § 792.3.

(4) Terraces and sod waterways developed in the current year or the fall of the preceding year, provided these practices are on designated set-aside acreage otherwise eligible under § 792.3.

(5) Water storage developed for any purpose, including fish or wildlife habitat, during the current year or the fall of the preceding year, provided this practice is on designated set-aside acreage otherwise eligible under § 792.3.

(b) *Control of erosion, insects, weeds, and rodents.* The farm operator shall carry out such measures as are needed for the control of erosion, insects, weeds, and rodents on the set-aside acreage.

(c) *Land preparation for fall seeded crops.* Crops may be seeded on the set-aside acreage in the fall for harvest the next year. The land can be prepared in the fall and left bare only when recommended by the State committee and approved by the Deputy Administrator.

### § 792.5 Use of set-aside acreage.

(a) *Restriction on harvesting.* No crop shall be harvested from the set-aside acreage in the current year, or after December 31 of the current year if the crop would normally mature and be harvested in the current year, except when approved under emergency situations in accordance with instructions issued by the Deputy Administrator. A crop may be harvested if the crop is one which matured in the year preceding the current year on land which was not designated as set-aside in such year and the harvesting

was delayed because of adverse weather or other conditions beyond the control of the farm operator.

(b) *Restriction on grazing.* The set-aside acreage shall not be grazed during the six principal growing months as established by the State committee, except when approved under emergency situations in accordance with instructions issued by the Deputy Administrator.

#### § 792.6 Cross compliance on the farm.

To qualify on the farm for loans (other than for sugar), purchases, and payments authorized for crops included in the NCA, producers on a farm that produces one or more crops for which a set-aside requirement is in effect shall:

(a) Set aside the acreage required for each crop, and

(b) Limit the acreage of crops in the NCA to the NCA less the amount of the acreage which is required to be set aside.

#### § 792.7 Offsetting compliance between farms.

(a) To qualify for loans (other than for sugar), purchases, and payments authorized for crops included in the NCA on a farm participating in the program that produces one or more crops for which a set-aside requirement is in effect, the landlord, landowner, or operator shall assure that on each nonparticipating farm for which he is a landlord, landowner, or operator that produces one or more crops for which a set-aside requirement is in effect, the acreage of crops in the NCA are limited to the NCA.

(b) A landowner or landlord cannot escape responsibility for complying with paragraph (a) of this section by leasing for cash or other consideration all or part of a farm.

(c) Any executor, trust officer, or farm manager responsible for the management of a farm shall be considered as the operator of the farm for purposes of paragraph (a) of this section when he receives a percentage of the farm income exceeding 10 percent of the crops or proceeds thereof for such management service.

(d) For purposes of paragraph (a) of this section, all persons or entities in each category listed below shall be considered as the same producer and fully responsible for the actions of any person or entity in that category:

(1) Husband and wife, except that the husband and wife may be considered as separate producers if the spouse receiving benefits does not share to any degree in crops or proceeds thereof from the other farm, ownership or managerial control of the other farm is not shared by such spouse, and there have been no changes in the ownership, operation, or managerial control of the other

farm which would tend to defeat the purposes of paragraph (a) of this section;

(2) Minor children and the parent, guardian, or other person legally responsible for the minor unless the person legally responsible for the minor does not occupy the same household as the minor and shares no interest in the farming operations of the minor;

(3) A partnership and any member of the partnership;

(4) A corporation and the majority stockholders of such corporation (in applying this rule, consider as the same producer a corporation and two or more stockholders with a combined majority interest in the corporation who do not comply with paragraph (a) of this section);

(5) An estate and heirs of the estate with over 50 percent interest in the estate (in applying this rule, consider as the same producer an estate and two or more heirs with a combined interest in the estate of over 50 percent who do not comply with paragraph (a) of this section);

(6) A trust and beneficiaries of the trust with over a 50 percent interest in the trust (in applying this rule, consider as the same producer a trust and two or more beneficiaries with a combined interest in the trust of over 50 percent who do not comply with paragraph (a) of this section);

(7) Different corporations, trusts or estates having common stockholders or beneficiaries with a combined majority interest.

(e) Notwithstanding the foregoing:

(1) Any person who places land in a trust the beneficiary of which is such person's parent, brother, sister, spouse, child or grandchild shall be considered the same producer as the trust for purposes of paragraph (a) of this section if he acts as the trustee or trust officer for the trust or in any other way retains management responsibility for the trust land even though he does not receive any share of the crops or proceeds thereof from the trust land;

(2) When the State committee, or the county committee with the approval of the State committee, determines that a corporation or trust was formed, modified, or used for the purpose of circumventing paragraph (a) of this section, the corporation and any stockholder of the corporation, or the trust and any beneficiary of the trust, shall be considered as the same producer and fully responsible for the actions of the corporation or trust or of any stockholder or beneficiary of the corporation or trust.

(3) A landowner, landlord, or operator may be exempted from complying with paragraph (a) of this section for the 1978 program year if the county committee determines that a lease ex-

ecuted prior to October 3, 1977, prevents compliance. Such producer will be expected to renegotiate lease terms for future years.

**NOTE.**—An Economic Impact Statement as required under Executive Order 11821 and OMB Circular A-107 has been filed.

**NOTE.**—The Agricultural Stabilization and Conservation Service, to meet the requirements of the National Environmental Policy Act (Pub. L. 91-190, 42 U.S.C. 4321 et seq.), developed an environmental assessment and has filed a supplemental environmental impact statement.

Issued at Washington, D.C., January 13, 1978.

STEWART N. SMITH,  
Acting Administrator, Agricultural Stabilization and Conservation Service.

#### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Orange, Grapefruit, Tangerine, and Tangelo Reg. 1, Amdt. 8]

#### PART 905—ORANGES, GRAPEFRUIT, TANGERINES AND TANGELOS GROWN IN FLORIDA

##### Amendment of Honey Tangerine Size Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Amendment to final rule.

**SUMMARY:** This amendment is applicable to domestic and export shipments of fresh Florida Honey Tangerines. It permits each handler to ship to domestic markets, including Canada or Mexico, during the period January 16 to September 24, 1978, Honey Tangerines not smaller than 2 1/4 inches in diameter (size 176), and it permits each handler to ship to export markets, other than Canada or Mexico, during this same period Honey Tangerines not smaller than 2 1/4 inches (size 210). Size requirements for other varieties of tangerines continue unchanged. Currently, any handler may ship to domestic markets Honey Tangerines not smaller than 2 1/4 inches (size 120) and may export any such variety of fruit not smaller than 2 1/4 inches (size 150). Specification of minimum size requirements for Florida Honey Tangerines is necessary because of current and prospective supply and demand for the fruit and to maintain orderly marketing conditions in the interest of producers and consumers.

**DATES:** This amendment is effective during the period January 16 to September 24, 1978.

**FOR FURTHER INFORMATION CONTACT:**

Charles R. Brader, 202-447-6393.

**SUPPLEMENTARY INFORMATION: Findings.** (1) Pursuant to the marketing agreement and Order No. 905, both as amended (7 CFR Part 905; 42 FR 59367; 61853), regulating the handling of oranges, grapefruit, tangerines and tangelos grown in Florida, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the committee established under the marketing agreement and order, and upon other information, it is found that the regulation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The amendment reflects the Department's appraisal of the current and prospective supply and market demand conditions for Florida Honey Tangerines. It is designed to assure an ample supply of acceptable size fruit to consumers consistent with the quality and size composition of the crop. The season for Honey Tangerines has just started, and shipments for the week ended January 8, 1978, totaled only one carlot and for Monday, January 9 totaled four carlots.

(3) It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this amendment is based and the effective date necessary to effectuate the declared policy of the act; and this amendment relieves restrictions on the handling of Honey Tangerines.

Accordingly, it is found that the provisions of § 905.301 (42 FR 57947, 59367, 59955, 60918, 61590, 63635, 63881) should be and hereby are amended by redesignating "Murcott honey oranges" as "Honey Tangerines" in Tables I and II and by revising the minimum size applicable to Honey Tangerines and by revising paragraph (c), so that after the revisions the portion of Tables I and II applicable to such variety, which is effective January 16, 1978, and paragraph (c) read as follows:

§ 905.301 Orange, Grapefruit, Tangerine, and Tangelo Regulation 1.

(a) \* \* \*

TABLE I

Variety	Regulation period	Minimum grade	Minimum diameter (inches)
(1)	(2)	(3)	(4)
Tangerines: Dancy and similar, including Robinson.....	Dec. 12, 1977 to Sept. 24, 1978.	U.S. No. 1...	2 1/4
Honey tangerines.....	Jan. 16 to Sept. 24, 1978.	Florida No. 1.	2 1/4

(b) \* \* \*

TABLE II

Variety	Regulation period	Minimum grade	Minimum diameter (inches)
(1)	(2)	(3)	(4)
Tangerines: Dancy and similar, including Robinson.....	Sept. 26, 1977 to Sept. 24, 1978.	U.S. No. 1...	2 1/4
Honey tangerines.....	Jan. 16 to Sept. 24, 1978.	Florida No. 1.	2 1/4

(c) *Size Tolerances:* In the determination of minimum size as prescribed in Tables I and II, the following tolerances are permitted: (1) for oranges, as set forth in § 51.1152 of the U.S. Standards for Grades of Florida Oranges and Tangelos, except that for early and mid-season type and Valencia oranges shipped interstate in bulk a tolerance of 10 percent, by count, based

on oranges 2 1/4 inches in diameter and smaller shall apply; (2) for grapefruit, as specified in § 51.761 of the U.S. Standards for Grades of Florida Grapefruit; (3) for tangerines, as specified in § 51.1818 of the U.S. Standards for Grades of Florida Tangerines; and (4) for tangelos, as set forth in § 51.1152 of the U.S. Standards for Grades of Florida Oranges and Tangelos.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: January 13, 1978.

CHARLES R. BRADER,  
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

#### [3410-05]

#### CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

##### SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Regulations, 1977 Crop Barley Supplement]

#### PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

##### Subpart—1977 Crop Barley Loan and Purchase Program

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

**SUMMARY:** The purpose of this rule is to set forth the (1) final loan and purchase availability dates, (2) maturity dates, and (3) loan and purchase rates and premiums and discounts, under which Commodity Credit Corporation, (CCC), will extend price support on 1977 crop barley. This rule is needed in order to provide a price support program for barley. This rule will enable eligible producers to obtain loans and purchases on eligible 1977 crop barley.

EFFECTIVE DATE: January 20, 1978.

ADDRESS: Price Support and Loan Division, ASCS, U.S. Department of Agriculture, 3744 South Building, P.O. Box 2415, Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Merle Strawderman (ASCS), 202-447-9224.

**SUPPLEMENTARY INFORMATION:** A notice of proposed rulemaking was published in the FEDERAL REGISTER on July 29, 1976, 41 FR 31563 stating that the Department of Agriculture proposed to make determinations and issue regulations relative to a loan and purchase program for the 1977 crops of feed grains including barley. Such determinations including determining loan and purchase rates, and other related program provisions. Interested persons were given until August 30, 1976 to submit data, views and recommendations. No recommendations were received concerning the loan and purchase program for barley. After

RULES AND REGULATIONS

considering applicable factors it has been determined that the loan and purchase program for 1977 crop barley on a national average will be \$1.63 per bushel. The final availability date for purchases will be changed to March 31, 1978, the same as for loans. This change will permit producers to deliver 1977 crop barley under purchase agreement to CCC in time to make storage space available for 1978 crop barley.

Additional disbursements on 1977 crop loans already made will be available for those producers who want their loans adjusted to the rates in this supplement.

Producers who wish to secure loans or adjust present loans to these rates can do so by contacting their local Agricultural Stabilization and Conservation Service Office or Agricultural Service Center.

The General Regulations Governing Price Support for 1976 and Subsequent Crops, published at 41 FR 22334 and any amendments thereto and the 1970 and Subsequent Crops Barley Loan and Purchase Regulations, published at 35 FR 11166 and any amendments to such regulations are further supplemented for the 1977 crop of barley. 7 CFR §§1421.72 through 1421.75 and the title of the subpart are revised to read as provided below, effective as to the 1977 crop of barley. The material previously appearing in these sections shall remain in full force and effect as to the crops to which it is applicable.

Subpart—1977 Crop Barley Loan and Purchase Program

- Sec. 1421.72 Purpose.
- 1421.73 Availability.
- 1421.74 Maturity of loans.
- 1421.75 Loan and purchase rates, premiums and discounts.

AUTHORITY: Secs. 4 and 5, 62 Stat. 1070, as amended (15 U.S.C. 714b and c); Secs. 105, 401, 63 Stat. 1051, as amended (7 U.S.C. 1441 note, 1421).

Subpart—1977 Crop Barley Loan and Purchase Program

§ 1421.72 Purpose.

This supplement contains additional program provisions which, together with the provisions of the General Regulations Governing Price Support for the 1976 and Subsequent Crops, the 1970 and Subsequent Crops Barley Loan and Purchase Program Regulations, and any amendments thereto, apply to loans on and purchases of the 1977 crop of barley.

§ 1421.73 Availability.

(a) *Loans.* Producers desiring to participate in the program through loans must request a loan on their 1977 crop of eligible barley on or before March 31, 1978.

(b) *Purchases.* Producers desiring to offer eligible 1977 crop barley not under loan for purchase must execute and deliver to the county ASCS office on or before March 31, 1978, a purchase agreement (Form CCC-614) indicating the approximate quantity of 1977 crop barley they will sell to CCC.

§ 1421.74 Maturity of loans.

Loans mature in the case of farm stored loans on demand but not later than the last day of the ninth calendar month following the month the loan is disbursed, and in the case of warehouse stored loans, on demand but not later than the last day of the ninth calendar month following the month the warehouse receipt was issued, except that loans made on warehouse receipts which show that the nine-month storage charge has been paid but the date of tender to CCC is after the date the warehouse receipt was issued mature on the date through which such charges have been paid. Producers who have already received disbursement on loans may request a change of the loan maturity date to the nine month maturity date described in this section.

§ 1421.75 Loan and purchase rates.

(a) *Basic loan and purchase rates (counties).* Basic county rates (marketing area in the case of Alaska) for loan and settlement purposes for barley (except mixed barley) grading U.S. No. 2 or better are established as follows:

Discounts	Cents per bushel
(a) Grade discounts:	
U.S. No. 3	-4
U.S. No. 4	-8
U.S. grade No. 5	-20
Sample grade	(*)
(b) Special discounts:	
Garlicky	-10
Weed control law (where required by §1421.25)	-10

\*See note.

NOTE.—Barley grading sample grade is not eligible for loan. In the event quantities of barley grading U.S. Sample Grade are delivered in satisfaction of loan obligations, such quantities will be discounted on the basis of the schedule of discounts as provided by the Kansas City Commodity Office for settlement purposes.

(c) Other factors. Amounts determined by CCC to represent market discounts for quality factors not specified above which affect the value of the barley, such as (but not limited to) thin barley, moisture, foreign material, test weight, heat damage, musty, sour, smutty, stained, weevily, ergoty, and bleached. Such discounts will be established not later than the time delivery of barley to CCC begins and will thereafter be adjusted from time to time as CCC determines appropriate to reflect changes in market conditions. Producers may obtain schedules of such factors and discounts at county ASCS offices approximately one month prior to the loan maturity date.

NOTE.—Discounts are cumulative except only one grade discount shall be applied. For the purpose of applying discounts, factors which cause barley of the subclass Malting Barley or Blue Malting Barley to have a lower numerical grade than if the barley were graded under a different subclass shall be disregarded.

Signed at Washington, D.C., on January 11, 1978.

STEWART N. SMITH,  
Acting Executive Vice President,  
Commodity Credit Corporation.

[CCC Grain Price Support Regulations,  
1977 Crop Corn Supplement]

## PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

## Subpart—1977 Crop Corn Loan and Purchase Program

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to set forth the (1) final loan and purchase availability dates, (2) maturity dates, and (3) loan and purchase rates and premiums and discounts, under which Commodity Credit Corporation (CCC) will extend price support on 1977 crop corn. This rule is needed in order to provide a price support program for corn. This rule will enable eligible producers to obtain loans and purchases on their eligible 1977 crop corn.

EFFECTIVE DATE: January 20, 1978.

ADDRESS: Price Support and Loan Division, ASCS, USDA, 3750 South Building, P.O. Box 2415, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT:

Merle Strawderman, (ASCS), 202-447-9224.

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking was published in the FEDERAL REGISTER on July 29, 1976, 41 FR 31563, stating that the Department of Agriculture proposed to make determinations and issue regulations relative to a loan and purchase program for the 1977 crops of feed grains including corn. Such determinations included loan and purchase rates and other related program provisions. Interested persons were given until August 30, 1976 to submit any data, views, and recommendations. Seven responses were received concerning the loan and purchase rates. All recommended that the support rate be increased. After considering the recommendations and other factors, it has been determined that loan and purchase rates for 1977 crop corn on a national average will be \$2.00 per bushel. The final availability date for purchases will be changed to May 31, 1978, the same as for loans.

Additional disbursements on 1977 crop corn loans already made will be available for those producers who

want their loans adjusted to the rates in this supplement.

Producers who wish to secure loans or adjust present loans to these rates can do so by contacting their local Agricultural Stabilization and Conservation Service Office or Agricultural Service Center.

The General Regulations Governing Price Support for the 1976 and Subsequent Crops, published at 41 FR 22334 and any amendments thereto and the 1970 and Subsequent Crop Corn Loan and Purchase Regulations, published at 35 FR 13970 and any amendments to such regulations are further supplemented for the 1977 crop of corn. 7 CFR §§ 1421.111 through 1421.113 and the title of the subpart are revised to read as provided below, effective as to the 1977 crop of corn. The material previously appearing in these sections shall remain in full force and effect as to the crops to which it is applicable.

## Subpart—1977 Crop Corn Loan and Purchase Program

Sec.  
1421.111 Availability.  
1421.112 Maturity of loans.  
1421.113 Loan and purchase rates, premiums and discounts.

AUTHORITY: Secs. 4 and 5, 62 Stat. 1070, as amended (15 U.S.C. 714 b and c); Secs. 105, 401, 63 Stat. 1051, as amended (7 U.S.C. 1441 note 1421).

## Subpart—1977 Crop Corn Loan and Purchase Program

§ 1421.111 Availability.

(a) Loans. Producers desiring to participate in the program through loans must request a loan on their 1977 crop of eligible corn on or before May 31, 1978.

(b) Purchases. A producer desiring to offer eligible 1977 crop corn not under loan for purchase must execute and deliver to the county ASCS office on or before May 31, 1978, a Purchase Agreement (Form CCC-614) indicating the approximate quantity of 1977 crop corn he will sell to CCC.

§ 1421.112 Maturity of loans.

Loans mature in the case of farm stored loans on demand but not later than the last day of the ninth calendar month following the month the loan is disbursed, and in the case of warehouse stored loans, on demand but not later than the last day of the ninth calendar month following the month the warehouse receipt was issued, except that loans made on warehouse receipts which show that the nine-month storage charge has been paid but the date of tender to CCC is after the date the warehouse receipt was issued mature on the date through which such charges have been paid. Producers who have already received disbursement on loans may request a change of the loan maturity date to the nine-month maturity date described in this section.

§ 1421.113 Loan and purchase rates, premiums and discounts.

County basic loan and purchase rates for corn and the schedule of premiums and discounts are contained in this section. Farm stored loans will be made at the basic rate for the county where the corn is stored, adjusted only for the weed control discount where applicable. The rate for warehouse stored loans shall be the basic rate for the county where the corn is stored, adjusted by the premiums and discounts prescribed in paragraph (b) of this section. Notwithstanding, § 1421.22(c), settlement for corn delivered from other than approved warehouse storage, shall be based (1) on the basic rate for the county in which the producer's customary delivery point is located, and (2) on the quality and quantity of the corn delivered as shown on the warehouse receipts and accompanying documents issued by an approved warehouse to which delivery is made, or if applicable, the quality and quantity delivered as shown on a form prescribed by CCC for this purpose.

(a) Basic county rates. Basic county rates for corn grading No. 2 and containing from 15.1 through 15.5 percent moisture are as follows:

(b) **Premiums and discounts.** The basic loan and purchase rates shall be adjusted as applicable by premiums and discounts as follows:

Premiums	Cents per bushel
(i) Moisture (percent):	
14.6 through 15.0.....	+1
14.5 or less.....	+2
(ii) Broken corn and foreign material (percent):	
2.0 or less.....	+2

Premiums do not apply to sample grade corn.

Discounts	Cents per bushel
(i) Class—mixed corn.....	-2
(ii) Test weight per bushel, pounds:	
53.0 through 53.9.....	-1
52.0 through 52.9.....	-2
51.0 through 51.9.....	-4
50.0 through 50.9.....	-6
49.0 through 49.9.....	-9
46.9 and under.....	(1)
(iii) Total damage (percent):	
5.1 through 6.0.....	-1
6.1 through 7.0.....	-2
7.1 and over.....	(1)
(iv) Heat damage (percent):	
.21 through .50.....	-1
.51 and over.....	(1)
(v) Broken corn and foreign material (percent):	
3.1 through 4.0.....	-2
4.1 and over.....	(1)

\*See note.  
(c) **Weed control laws:**  
Where required by § 1421.25..... 10  
(d) **Other.** Amounts determined by CCC to represent market discounts for

quality factors not specified above which affect the value of the corn such as (but not limited to) moisture, weevily, musty, sour, and rodent excreta. Such discounts will be established not later than the time delivery of corn to CCC begins and will thereafter be adjusted from time to time as CCC determines appropriate to reflect changes in market conditions. Producers may obtain schedules of such factors and discounts at county ASCS offices approximately one month prior to the loan maturity date.

**NOTES.**—Premiums and discounts are cumulative except only one grade discount shall be applied.

Corn exceeding limits shown in foregoing schedule or corn containing in excess of 15.5 percent moisture is not eligible for loan. In the event quantities of corn exceeding limits shown are delivered in satisfaction of loan obligations, such quantities will be discounted on the basis of the schedule of discounts as provided by the Kansas City Commodity Office for settlement purposes.

Signed at Washington, D.C., on January 11, 1978.

STEWART N. SMITH,  
Acting Executive Vice President,  
Commodity Credit Corporation.

## [3410-05]

[CCC Grain Price Support Regulations, 1977 Crop Oats Supplement]

## PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

### Subpart—1977 Crop Oats Loan and Purchase Program

AGENCY: Commodity Credit Corporation, Department of Agriculture.

ACTION: Final rule.

**SUMMARY:** The purpose of this rule is to set forth the: (1) Final loan and purchase availability dates, (2) maturity dates, and (3) loan and purchase rates and premiums and discounts under which Commodity Credit Corporation (CCC) will extend price support program for oats. This rule will enable eligible oat producers to obtain loans and purchases on their eligible 1977 crop oats.

**EFFECTIVE DATE:** January 20, 1978.

**ADDRESS:** Price Support and Loan Division, ASCS, U.S. Department of Agriculture, 3752 South Building, P.O. Box 2415, Washington, D.C.

**FOR FURTHER INFORMATION CONTACT:**

Merle Strawderman, ASCS 202-447-9224.

**SUPPLEMENTARY INFORMATION:** A notice of proposed rulemaking was published in the FEDERAL REGISTER on

July 29, 1976, 41 FR 31563, stating that the Department of Agriculture proposed to make determinations and issue regulations relative to a loan and purchase program for the 1977 crop of feed grains including oats. Such determinations included determining loan and purchase rates and other related program provisions. Interested persons were given until August 30, 1976, to submit data, views, and recommendations. No recommendations were received concerning the loan and purchase program for oats. After considering applicable factors it has been determined that the loan and purchase rates for 1977 crop oats on a national average will be \$1.03 per bushel. The final availability date for purchases will be changed to March 31, 1978, the same as for loans. This change will enable producers to deliver 1977 crop oats under purchase agreement to CCC in time to make storage space available for 1978 crop oats.

Additional disbursements on 1977 crop oat loans already made will be available for those producers who want their loans adjusted to the rates in this supplement.

Producers who wish to secure loans or adjust present loans to these rates can do so by contacting their local Agricultural Stabilization and Conservation Service Office or Agricultural Service Center.

The General Regulations Governing Price Support for 1976 and Subsequent Crops, published at 41 FR 22334 and any amendments thereto and the 1970 and subsequent crops oats loan and purchase regulations, published at 35 FR 8340 and any amendments to such regulations are further supplemented for the 1977 crop of oats. 7 CFR §§ 1421.270 through 1421.273 and the title of the subpart are revised to read as provided below, effective as to the 1977 crop of oats. The material previously appearing in these sections shall remain in full force and effect as to the crops to which it is applicable.

### Subpart—1977 Crop Oats Loan and Purchase Program

**Sec.**  
1421.270 Purpose.  
1421.271 Availability.  
1421.272 Maturity of loans.  
1421.273 Loan and purchase rates and premiums and discounts.

**AUTHORITY:** Secs. 4 and 5, 62 Stat. 1070, as amended (15 U.S.C. 714 b and c); secs. 105, 401, 63 Stat. 1051, as amended (7 U.S.C. 1441 note, 1421).

### Subpart—1977 Crop Oats Loan and Purchase Program

#### § 1421.270 Purpose.

This supplement contains additional program provisions which together with the provisions of the general regulations governing price support for the 1976 and subsequent crops, the 1970 and subsequent crops oats loan

and purchase program regulations, and any amendments thereto, apply to loans on and purchases of the 1977 crop of oats.

#### § 1421.271 Availability.

(a) **Loans.** Producers desiring to participate in the program through loans must request a loan on their 1977 crop of eligible oats on or before March 31, 1978.

(b) **Purchases.** A producer desiring to offer eligible 1977 crop oats not under loan for purchase must execute and deliver to the county ASCS office on or before March 31, 1978, a purchase agreement (Form CCC-614) indicating the approximate quantity of 1977 crop oats they will sell to CCC.

#### § 1421.272 Maturity of loans.

Loans mature in the case of farm stored loans on demand but not later than the last day of the ninth calendar month following the month the loan is disbursed, and in the case of warehouse stored loans, on demand but not later than the last day of the ninth calendar month following the month the warehouse receipt was issued, except that loans made on warehouse receipts which show that the nine-month storage charge has been paid but the date of tender to CCC is after the date the warehouse receipt was issued mature on the date through which such charges have been paid. Producers who have already received disbursement on loans may request a change of the loan maturity date to the nine-month maturity date described in this section.

#### § 1421.273 Loan and purchase rates and premiums and discounts.

(a) **Basic loan and purchase rates.** County loan and purchase rates for oats and the schedule of premiums and discounts are shown below. The term "county" as used in this subpart with reference to the State of Alaska shall mean "marketing area". Marketing areas in Alaska shall be the areas established under the State small grain incentive program. Farm-stored loans will be made at the basic rate for the county where the grain is stored, adjusted only for the weed control discounts where applicable. The loan and purchase rate for warehouse-stored oats loans shall be the basic rate for the county where the oats are stored, adjusted by the premiums and discounts prescribed in paragraph (b) of this section. Notwithstanding § 1421.22(c), settlement for oats delivered from other than approved warehouse storage shall be based: (1) On the basic rate for the county in which the producer's customary delivery point is located, and (2) on the quality and quantity delivered as shown on the warehouse receipts and accompanying documents issued by an ap-

# RULES AND REGULATIONS

2831

proved warehouse to which delivery is made, or if applicable, the quality and quantity delivered as shown on a form prescribed by CCC for this purpose. The basic rate applies to oats grading U.S. No. 3, having moisture not in excess of 14 percent.

RULES AND REGULATIONS

[CCC Grain Price Support Regulations, 1977 Crop Rye Supplement]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1977 Crop Rye Loan and Purchase Program

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to set forth the (1) final loan and purchase availability dates, (2) maturity dates, and (3) loan and purchase rates and premiums and discounts, under which Commodity Credit Corporation (CCC), will extend price support on 1977 crop rye. This rule is needed in order to provide a price support program for rye. This rule will enable eligible producers to obtain loans and purchases on eligible 1977 crop rye.

EFFECTIVE DATE: January 20, 1978.

ADDRESS: Price Support and Loan Division, ASCS, U.S. Department of Agriculture, 3744 South Building, P.O. Box 2415, Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Merle Strawderman (ASCS) 202-447-9224.

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking was published in the FEDERAL REGISTER on July 29, 1976, 41 FR 31563 stating that the Department of Agriculture proposed to make determinations and issue regulations relative to a loan and purchase program for the 1977 crops of feed grains including rye. Such determinations included determining loan and purchase rates, and other related program provisions. Interested persons were given until August 30, 1976, to submit data, views and recommendations. No recommendations were received concerning the loan and purchase program for rye. After considering applicable factors it has been determined that the loan and purchase program for 1977 crop rye on a national average will be \$1.70 per bushel. The final availability date for purchases will be changed to March 31, 1978, the same as for loans. This change will permit producers to deliver 1977 crop rye under purchase agreement to CCC in time to make storage space available for 1978 crop rye.

Additional disbursements on 1977 crop rye loans already made will be available for those producers who want their loans adjusted to the rates in this supplement. Producers who wish to secure loans or adjust present loans to these rates can do so by contacting their local Agricultural Stabilization and Conservation Service Office or Agricultural Service Center.

Signed at Washington, D.C., on January 11, 1978.

STEWART N. SMITH,  
Acting Executive Vice President,  
Commodity Credit Corporation.  
[FR Doc. 78-1489 Filed 1-19-78; 8:45 am]

The General Regulations Governing Price Support for 1976 and Subsequent Crops, published at 41 FR 22334 and any amendments thereto and the 1970 and Subsequent Crops Rye Loan and Purchase Regulations, published at 35 FR 10355 and any amendments to such regulations are further supplemented for the 1977 crop of rye. 7 CFR §§ 1421.350 through 1421.353 and the title of the subpart are revised to read as provided below, effective as to the 1977 crop of rye. The material previously appearing in these sections shall remain in full force and effect as to the crops to which it is applicable.

Subpart—1977 Crop Rye Loan and Purchase Program

Sec. 1421.350 Purpose.  
1421.351 Availability.  
1421.352 Maturity of loans.  
1421.353 Loan and purchase rates, premiums and discounts.

AUTHORITY: Sec. 4 and 5, 62 Stat. 1070, as amended (15 U.S.C. 714 b and c) Secs. 105, 401, 63 Stat. 1051, as amended (7 U.S.C. 1441 note and 1421).

Subpart—1977 Crop Rye Loan and Purchase Program

§ 1421.350 Purpose.

This supplement contains program provisions which, together with the provisions of the general regulations governing price support for the 1976 and subsequent crops, the 1970 and Subsequent Crops Rye Loan and Purchase Program regulations, and any amendments thereto, apply to loans and purchases with respect to the 1977 crop of rye.

§ 1421.351 Availability.

(a) Loans. Producers desiring to participate in the program through loans must request a loan on their 1977 crop of eligible rye on or before March 31, 1978.

(b) Purchases. Producers desiring to offer eligible 1977 crop rye not under loan for purchase must execute and deliver to the county ASCS office on or before March 31, 1978, a purchase agreement (Form CCC-614) indicating the approximate quantity of 1977 crop rye they will sell to CCC.

§ 1421.352 Maturity of loans.

Loans mature in the case of farm stored loans on demand but not later than the last day of the ninth calendar month following the month the loan is disbursed, and in the case of warehouse stored loans, on demand but not later than the last day of the ninth calendar month following the month the warehouse receipt was issued, except that loans made on warehouse receipts which show that the nine-month storage charge has been paid but the date of tender to CCC is after the date the warehouse receipt was issued mature on the date

## RULES AND REGULATIONS

through which such charges have been paid. Producers who have already received disbursement on loans may request a change of the loan maturity date to the nine-month maturity date described in this section.

#### § 1421.235 Loan and purchase rates, premiums and discounts.

(a) Basic loan and purchase rates (counties). Basic county rates per bushel for loan and settlement purposes for rye are established for rye grading U.S. No. 2 or better, or U.S. No. 3 on the factor of test weight only and are as follows:

(b) Premiums and discounts. The basic loan and purchase rates shall be adjusted as applicable by premiums or discounts as follows (all footnotes at end of paragraph):

Premiums:	Cents per bushel
Rye, grading U.S. No. 1.....	+2
Discounts:	
(a) Rye, grading U.S. No. 3 on account of test weight.....	-2
(b) Rye, grading U.S. No. 3 on account of "thin" rye:	
15.1 to 17.0 pct thins.....	-3
17.1 to 19.0 pct thins.....	-5
19.1 to 21.0 pct thins.....	-7
21.1 to 23.0 pct thins.....	-9
23.1 to 25.0 pct thins.....	-11
(c) Rye, grading U.S. No. 3 for factors other than test weight or percent of thins.....	-5
(d) Weed control discount (where required by § 1421.25).....	-10

Rye, grading U.S. No. 4 or Sample Grade is not eligible for loan. In the event quantities of rye grading U.S. No. 4 or Sample Grade are delivered in satisfaction of loan obligations, such quantities will be discounted on the basis of the schedule of discounts as provided by the Kansas City Commodity Office for settlement purposes.

(c) Other factors. Amounts determined by CCC to represent market discounts for quality factors not specified above which affect the value of rye such as (but not limited to) moisture, weevily, stones, musty, sour ergot, and heating. Such discounts will be established approximately one month prior to the loan maturity date for rye and will thereafter be adjusted from time to time as CCC determines appropriate to reflect changes in market conditions. Producers may obtain schedules of such factors and discounts and adjustments thereof at county ASCS offices approximately one month prior to the loan maturity date or as soon thereafter as practicable.

Signed at Washington, D.C., on January 11, 1978.

STEWART N. SMITH,  
Acting Executive Vice President,  
Commodity Credit Corporation.

(FR Doc. 78-1473 Filed 1-19-78; 8:45 am)

#### [3410-05]

(CCC Grain Price Support Regulations, 1977 Crop Sorghum Supplement)

#### PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

##### Subpart—1977 Crop Sorghum Loan and Purchase Program

AGENCY: Commodity Credit Corporation, U.S. Department of Agriculture.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to set forth the (1) final loan and purchase availability dates, (2) maturity dates, and (3) loan and purchase rates and applicable discounts. This rule is needed in order to provide a price support program for sorghum. This rule will permit eligible producers to obtain loans and purchases on their eligible 1977 crop sorghum.

EFFECTIVE DATE: January 20, 1978.

ADDRESS: Price Support and Loan Division, ASCS, U.S. Department of Agriculture, 3752 South Building, P.O. Box 2415, Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Merle Strawderman (ASCS), 202-447-9224.

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking was published in the FEDERAL REGISTER on July 29, 1976, 41 FR 31563, stating that the Department of Agriculture proposed to make determinations and issue regulations relative to a loan and purchase program for the 1977 crops of feed grains, including sorghum. Such determinations included determining loan and purchase rates and other related program provisions. Interested persons were given until August 30, 1976, to submit any data, views and recommendations. Two recommendations were received concerning sorghum. One recommended increasing the loan and purchase rate to \$4 and one recommended increasing such rate to \$4.20. After considering the recommendations and other factors it has been determined that loan and purchase rates for 1977 crop sorghum on a national average will be \$3.39 per cwt. The final availability date for purchases will be changed to May 31, 1978, the same as for loans.

Additional disbursement on 1977 crop sorghum loans already made will be available for those producers who

want their loans adjusted to the rates in this supplement.

Producers who wish to secure loans or adjust present loans to these rates can do so by contacting their local Agricultural Stabilization and Conservation Service Office or Agricultural Service Center.

The General Regulations Governing Price Support for 1976 and Subsequent Crops, published at 41 FR 22334 and any amendments thereto and the 1970 and Subsequent Crops Sorghum Loan and Purchase Program Regulations, published at 35 FR 10745, and any amendments to such regulations are supplemented for the 1977 crop of sorghum. 7 CFR §§ 1421.235 through 1421.237 and the title of the subpart are revised to read as provided below, effective as to the 1977 crop of sorghum. The material previously appearing in these sections shall remain in full force and effect as to the crops to which it is applicable.

##### Subpart—1977 Crop Sorghum Loan and Purchase Program

Sec.  
1421.235 Availability.  
1421.236 Maturity of loans.  
1421.237 Loan and purchase rates.

AUTHORITY: Secs. 4, 5, 62 Stat. 1070, as amended (15 U.S.C. 714 b and c); Secs. 105, 401, 63 Stat. 1051, as amended (7 U.S.C. 1441 note, 1421).

##### Subpart—1977 Crop Sorghum Loan and Purchase Program

#### § 1421.235 Availability.

(a) Loans. Producers desiring to participate in the program through loans must request a loan on their 1977 crop of eligible sorghum on or before May 31, 1978.

(b) Purchases. A producer desiring to offer eligible 1977 crop sorghum not under loan for purchase must execute and deliver to the county ASCS office on or before May 31, 1978, a Purchase Agreement (Form CCC-614) indicating the approximate quantity of 1977 crop sorghum he will sell to CCC.

#### § 1421.236 Maturity of loans.

Loans mature in the case of farm stored loans on demand but not later than the last day of the ninth calendar month following the month the loan is disbursed, and in the case of warehouse stored loans, on demand but not later than the last day of the ninth calendar month following the month the warehouse receipt was issued, except that loans made on warehouse receipts which show that the nine-month storage charge has been paid but the date of tender to CCC is after the date the warehouse receipt was issued mature on the date through which such charges have been paid. Producers who have already received disbursement on loans may request a change of the loan ma-

turity date to the nine-month maturity date described in this section.

#### § 1421.237 Loans and purchase rates and discounts.

(a) Basic rates (counties). Basic county rates for loan and settlement purposes for sorghum grading U.S. No. 2 or better are established as follows:

\*See note.

NOTE.—Sorghum grading sample is not eligible for loan. In the event quantities of sorghum grading U.S. sample grade are delivered in satisfaction of loan obligations, such quantities will be discounted on the basis of the schedule of discounts as provided by the Kansas City Commodity Office for settlement purposes.

Other factors. Amounts determined by CCC to represent market discounts for quality factors not specified above which affect the value of the sorghum, such as (but not limited to) moisture, heat damage, test weight, weevily, musty, sour, stones, weathered, discolored. Such discounts will be established not later than the time delivery of sorghum to CCC begins and will thereafter be adjusted from time to time as CCC determines appropriate

## RULES AND REGULATIONS

to reflect changes in market conditions. Producers may obtain schedules of such factors and discounts at county ASCS offices approximately one month prior to maturity date.

NOTE.—Discounts are cumulative except only one grade discount shall be applied.

Signed at Washington, D.C., on January 11, 1978.

STEWART N. SMITH,  
Acting Executive Vice President,  
Commodity Credit Corporation.  
(FR Doc. 78-1470 Filed 1-19-78; 8:45 am)

## [3410-05]

[CCC Grain Price Support Regulations,  
1977 Crop Soybeans Supplement]

PART 1421—GRAINS AND SIMILARLY  
HANDLED COMMODITIESSubpart—1977 Crop Soybeans Loan and  
Purchase Program

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to set forth the: (1) Final loan and purchase availability dates, (2) maturity dates, and (3) loan and purchase rates and premiums and discounts under which the Commodity Credit Corporation (CCC) will extend price support on 1977 crop soybeans. This rule is needed in order to provide a price support program for soybeans. This rule will enable eligible producers to obtain loans and purchases on their eligible 1977 crop soybeans.

EFFECTIVE DATE: January 20, 1978.

ADDRESS: Price Support and Loan Division, ASCS, U.S. Department of Agriculture, Room 3752, South Building, P.O. Box 2415, Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Merle Strawderman, ASCS, 202-447-9223, P.O. Box 2415, Washington, D.C. 20013.

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking was published in the FEDERAL REGISTER on July 29, 1976, 41 FR 31563, stating that the Department of Agriculture proposed to make determinations and issue regulations relative to a loan and purchase program for 1977 crop of soybeans. Such determinations included loan and purchase rates and other related provisions. Interested persons were given until August 30, 1976, to submit any data, views, and recommendations. Seven responses were received concerning the loan and purchase rates. All recommended that the support rate be increased. After considering the recommendations and other factors it has been determined that loan and purchase rates for 1977

crop soybeans on a national average will be \$3.50 per bushel. The final availability date for purchases will be changed to May 31, 1978, the same as for loans.

Additional disbursements on 1977-crop soybeans loans already made will be available for those producers who want their loans adjusted to the rates in this supplement.

Producers who wish to secure loans or adjust present loans to these rates can do so by contacting their local Agricultural Stabilization and Conservation Service Office or Agricultural Service Center.

The general regulations governing price support for 1976 and subsequent crops, published at 41 FR 22334 and any amendments thereto and the 1970 and subsequent crops soybean loan and purchase regulations, published at 35 FR 13971 and any amendments to such regulations are further supplemented for the 1977 crop of soybeans. 7 CFR §§ 1421.390 through 1421.392 and the title of the subpart are revised to read as provided below, effective as to the 1977 crop of soybeans. The material previously appearing in these sections shall remain in full force and effect as to the crops to which it is applicable.

## Subpart—1977 Crop Soybean Loan and Purchase Program

Sec.  
1421.390 Availability.  
1421.391 Maturity of loans.  
1421.392 Loans and purchase rates, premiums, and discounts.

AUTHORITY: Secs. 4, 5, 62 Stat. 1070, as amended (15 U.S.C. 714 b and c); secs. 301, 303, 401, 63 Stat. 1051, as amended (7 U.S.C. 1447, 1449, 1421).

## Subpart—1977 Crop Soybean Loan and Purchase Program

§ 1421.390 Availability.

(a) Loans. Producers desiring to participate in the program through loans must request a loan on their 1977 crop of eligible soybeans on or before May 31, 1978.

(b) Purchases. A producer desiring to offer eligible 1977 crop soybeans not under loan for purchase must execute and deliver to the county ASCS office on or before May 31, 1978, a purchase agreement (Form CCC-614) indicating the approximate quantity of 1977 crop soybeans he will sell to CCC.

§ 1421.391 Maturity of loans.

Loans mature in the case of farm stored loans on demand but not later than the last day of the ninth calendar month following the month the loan is disbursed, and in the case of warehouse stored loans, on demand but not later than the last day of the ninth calendar month following the month the warehouse receipt was issued except that loans made on

RULES AND REGULATIONS

warehouse receipts which show that the nine-month storage charge has been paid but the date of tender to CCC is after the date the warehouse receipt was issued, mature on the date through which such charges have been paid. Producers who have already received disbursement on loan may request a change of the loan maturity date to the nine-month maturity date described in this section.

§ 1425.392 Loan and purchase rates, premiums, and discounts.

County loan rates for soybeans and the schedule of premiums and discounts are contained in this section. Farm stored loans will be made at the basic rate for the county where the soybeans are stored, adjusted only for the weed control discount where applicable. The loan and purchase rate for warehouse stored soybean loans shall be the basic rate stored, adjusted by the premiums and discounts prescribed in paragraphs (b) and (c) of this section. Notwithstanding § 1421.22(c), settlement for soybeans delivered from other than approved warehouse storage shall be based: (1) On the basic rate for the county in which the producer's customary delivery point is located, and (2) on the quality and quantity of the soybeans delivered as shown on the warehouse receipts and accompanying documents issued by an approved warehouse to which delivery is made, or if applicable, the quality and quantity delivered as shown on a form prescribed by CCC for this purpose.

(a) Basic county loan and purchase rates. Basic county rates for the classes Green or Yellow Soybeans containing 12.8 to 13 percent moisture and grading not lower than U.S. No. 2 on the factors of test weight, splits, and heat damage and U.S. No. 1 on all other factors are as follows:

(4) Weed control laws (where required by § 1421.25).....	-10

See note.

NOTE.—Soybeans exceeding limits shown in this schedule or soybeans containing in excess of 14.0 percent moisture are not eligible for loan. In the event quantities of soybeans exceeding limits shown are delivered in satisfaction of loan obligations, such quantities will be discounted on the basis of the schedule of discounts as provided by the Kansas City Commodity Office for settlement purposes.

Other factors. Amounts determined by CCC to represent market discounts

for quality factors not specified above which affect the value of the soybeans, such as (but not limited to) moisture, musty, sour, and heating. Such discounts will be established not later than the time delivery of soybeans to CCC begins and will thereafter be adjusted from time to time as CCC determines appropriate to reflect changes in market conditions. Producers may obtain schedules of such factors and discounts at county ASCS offices approximately one month prior to the loan maturity date.

Signed at Washington, D.C., on January 11, 1978.

STEWART N. SMITH,  
Acting Executive Vice President,  
Commodity Credit Corporation.  
(FR Doc. 78-1484 Filed 1-19-78; 8:45 am)

[3410-05]  
[CCC Grain Price Support Regulations, 1977 Crop Wheat Supplement]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES  
Subpart—1977 Crop Wheat Loan and Purchase Program

AGENCY: Commodity Credit Corporation, U.S. Department of Agriculture.

ACTION: Final rule.

SUMMARY: The purpose of the rule is to set forth the (1) final loan and purchase availability dates, (2) maturity dates, and (3) premiums and discounts under which Commodity Credit Corporation (CCC) will make loans on 1977 crop wheat. This rule is needed in order to implement the 1977 wheat loan and purchase program. This rule will enable eligible wheat producers to obtain loans and purchases on their eligible 1977 crop wheat.

EFFECTIVE DATE: January 20, 1978.

ADDRESS: Price Support and Loan Division, ASCS, U.S. Department of Agriculture, 3752 South Building, P.O. Box 2415, Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Merle Strawderman (ASCS), 202-447-9224.

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking was published in the FEDERAL REGISTER on July 29, 1976, 41 FR 31563, stating that the Department of Agriculture proposed to make determinations and issue regulations relative to a loan and purchase program for 1977 crop wheat. Such determinations included determining loan and purchase rates and other related provisions. Interested persons were given until August 30, 1976, to submit any data, views, and recommendations. Seven responses

were received concerning the loan and purchase rates. All recommended that the support rate be increased. Such recommended increases ranged from \$2.50 to \$4. After considering applicable factors it has been determined that the loan and purchase rates for 1977 crop wheat on a national average will be \$2.25 per bushel. The final availability date for purchases will be changed to March 31, 1978, the same as for loans.

Additional disbursements on 1977 crop wheat loans already made will be available for those producers who want their loans adjusted to the rates in this supplement.

Producers who wish to secure loans or adjust present loans to these rates can do so by contacting their local Agricultural Stabilization and Conservation Service Office or Agricultural Service Center.

The General Regulations Governing Price Support for 1976 and Subsequent Crops, published at 41 FR 22334 and any amendments thereto and the 1970 and Subsequent Crops Wheat Loan and Purchase Regulations, published at 35 FR 8204 and any amendments to such regulations are further supplemented for the 1977 crop of wheat. 7 CFR §§ 1421.485 through 1421.488 and the title of the subpart are revised to read as provided below, effective as to the 1977 crop of wheat. The material previously appearing in these sections shall remain in full force and effect as to the crops to which it is applicable.

Subpart—1977 Crop Wheat Loan and Purchase Program

Sec. 1421.485 Availability.  
1421.486 Maturity of loans.  
1421.487 Ineligible classes.  
1421.488 Loan and purchase rates.

AUTHORITY: Secs. 4 and 5, 62 Stat. 1070, as amended (15 U.S.C. 714 b and c); Secs. 107, 401, 63 Stat. 1051, as amended (7 U.S.C. 1445a, 1421).

Subpart—1977 Crop Wheat Loan and Purchase Program

§ 1421.485 Availability.  
(a) Loans. Producers desiring to participate in the program through loans must request a loan on their 1977 crop of eligible wheat on or before March 31, 1978.

(b) Purchases. Producers desiring to offer eligible 1977 crop wheat not under loan for purchase must execute and deliver to the county ASCS office on or before March 31, 1978, a Purchase Agreement (Form CCC-614) indicating the approximate quantity of 1977 crop wheat they will sell to CCC.

§ 1421.486 Maturity of loans.

Loans mature in the case of farm stored loans on demand but not later than the last day of the ninth calen-

RULES AND REGULATIONS

dar month following the month the loan is disbursed, and in case of warehouse stored loans, on demand but not later than last day of the ninth calendar month following the month the warehouse receipt was issued, except that loans made on warehouse receipts which show that the nine-month storage charge has been paid but the date of tender to CCC is after the date the warehouse receipt was issued mature on the date through which such charges have been paid. Producers who have already received disbursement on loans may request a change of the loan maturity date to the nine-month maturity date described in this section.

§ 1421.487 Ineligible classes.

Unclassed wheat shall not be eligible for loan or purchase.

§ 1421.488 Loan and purchase rates.

(a) Basic loan and purchase rates (counties). Basic rates per bushel for loan and settlement purposes for wheat are established for wheat grading U.S. No. 1 and are as follows:

## 1. Class premiums and discounts:

(i) Premiums: Hard amber durum, No. 3 or better: +7%

(iv) Weed control discount (where required by § 1421.25) -15.

(ii) Discounts:	Cents per bushel
Durum	-10
Mixed wheat (mixes of classes other than contrasting classes)	-3
Mixed wheat (mixtures of contrasting classes)	-10
(iii) Unclassed wheat which includes red durum	(*)

2. Grade discounts:

(i) Grade discounts:

No. 2 -2

No. 3 -4

No. 4 -6

No. 5 -9

Sample grade (i)

(ii) Special grade discounts:

Smut—Light smutty -3

Smutty -9

Garlic—Light garlicky -10

Garlicky -20

\*Except for Hard Amber Durum produced in Arizona, California and New Mexico.

\*Unclassed wheat which includes Red Durum is ineligible for loan.

\*Wheat grading sample is ineligible for loan. In the event quantities of wheat grading sample are delivered in satisfaction of loan obligations, such quantities will be discounted on the basis of the schedule of discounts as provided by the Kansas City Commodity Office for settlement purposes.

(iii) Grade Discounts Sample—on the factors of Test Weight and Total Damage.

Sample on account of test weight	Weight	Cents per bushel
Hard Red Spring	Weight	Cents per bushel
Test weight	Weight	Cents per bushel
49	50	-13
48	49	-17
47	48	-21
46	47	-25
45	46	-29
44	45	-33
43	44	-39
42	43	-45
41	42	-51
40	41	-57
	40	-63

Sample on account of total damaged kernels

Percent—Total damaged kernels	Cents per bushel
15.1 to 16	-10
16.1 to 17	-12
17.1 to 18	-14
18.1 to 19	-16
19.1 to 20	-18
20.1 to 21	-20
21.1 to 22	-22
22.1 to 23	-24
23.1 to 24	-26
24.1 to 25	-28
25.1 to 26	-30
26.1 to 27	-32
27.1 to 28	-34
28.1 to 29	-36
29.1 to 30	-38
Each percent over 30	-3

3. *Premiums for Protein Content.*  
Applicable to wheat grading No. 5 or better of the classes Hard Red Winter and Hard Red Spring.

Hard Red Winter	
Percent protein	Cents per bushel
10.50 to 10.99	0
11.00 to 11.49	1
11.50 to 11.99	2
12.00 to 12.49	3
12.50 to 12.99	4
13.00 to 13.49	5
13.50 to 13.99	6
14.00 to 14.49	7
14.50 to 14.99	8
15.00 and over	9

Hard Red Spring	
Percent protein	Cents per bushel
11.50 to 11.99	0
12.00 to 12.49	1
12.50 to 12.99	2
13.00 to 13.49	3
13.50 to 13.99	4
14.00 to 14.49	5
14.50 to 14.99	6
15.00 to 15.49	7
15.50 to 15.99	8
16.00 to 16.49	9
16.50 to 16.99	10
17.00 and over	11

(c) *Other factors.* Amounts determined by CCC to represent market discounts for quality factors not specified above which affect the value of wheat, such as (but not limited to) moisture, weevily, ergoty, stones, musty, sour, and heating. Such discounts will be established not later than the time delivery of wheat to CCC begins and will thereafter be adjusted from time to time as CCC determines appropriate to reflect changes in market conditions. Producers may obtain schedules of such factors and discounts at county ASCS offices.

NOTE.—Premiums and discounts are cumulative except only one grade discount shall be applied.

Signed at Washington, D.C., on January 11, 1978.

STEWART N. SMITH,  
Acting Executive Vice President,  
Commodity Credit Corporation.

CHAPTER XVIII—FARMERS HOME  
ADMINISTRATION, DEPARTMENT OF  
AGRICULTURE  
[FmHA Instruction 1933-11]  
SUBCHAPTER B—LOANS AND GRANTS PRIMARILY  
FOR REAL ESTATE PURPOSES

PART 1822—RURAL HOUSING LOANS AND  
GRANTS

SUBCHAPTER J—LOAN AND GRANT PROGRAMS  
(GROUP)

PART 1933—LOAN AND GRANT PROGRAMS  
(GROUP)

Subpart I—Self-Help Technical Assistance  
Grants

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration adds regulations as a result of a general administrative restructuring of the agency regulations. This addition is intended to strengthen, expand, redesignate, clarify, consolidate and revise the regulations concerning self-help technical assistance grants.

EFFECTIVE DATE: January 20, 1978.  
FOR FURTHER INFORMATION CONTACT:

Mr. Paul R. Conn, 202-447-7207.

SUPPLEMENTARY INFORMATION: On November 22, 1976, there was published in the FEDERAL REGISTER (41 FR 51404-51420) and republished June 10, 1977 (42 FR 29885-29906), a notice of proposed rulemaking which would establish under Chapter XVIII, Title 7, of the Code of Federal Regulations a new Subchapter J, "Loan and Grant Programs (Group)," Part 1933, Subpart I, "Self-Help Technical Assistance Grants, §§ 1933.401-1933.450." This new Part 1933 (42 FR 24232, May 13, 1977) was revised, transferred and redesignated from Part 1822, Subpart I (35 FR 11226, as amended at 37 FR 3802, 40 FR 52837, 41 FR 7486) of this Chapter XVIII. Interested parties were given the opportunity to submit on or before December 23, 1976, and July 11, 1977, comments, suggestions, or objections regarding the proposed addition.

Comments received and considered for the initial and second proposals have resulted in many changes (herein incorporated) including specific changes as set forth below:

1. In § 1933.402, the State Director's grant approval authority has been increased to \$200,000. If the grant plus unexpended funds of a previous grant exceed \$300,000, National Office consent is required.

2. In § 1933.403, Indian Tribes or tribal corporations are included as types of eligible organizations; the definition of participating families has been expanded to clarify that it includes those qualifying and receiving interest credits regardless of the age or sex of the heads of households. The

term "sponsor" has been expanded to include community action agencies; a system for determining "equivalent units" has been included as a more accurate method for determining grantee performance and unit production. This section also provides for financial supervision to individual families with 502 RH loans; grant closeout has been redefined and technical assistance has been broadened to provide assistance to 502 self-help families in obtaining invoices and itemized bills for materials and preparing checks for FmHA countersignatures.

3. In § 1933.404 only those members of the Board of Directors who have annual incomes below the Federal poverty guidelines may be paid for attending meetings.

4. In § 1933.405, participant families are required to provide their own hand tools, however, the State Director may authorize the purchase of office equipment on a case by case basis; also, grantee personnel may be permitted cost of travel and per diem to attend certain training sessions.

5. In § 1933.406, proposed grantee applicants are provided with a broader knowledge of the kind of information that may be used to justify the need for a self-help housing program.

6. In § 1933.407, a new method of computing Technical Assistance (TA) cost and net savings to families is provided. This new method provides for combining land and construction cost in this computation.

7. In § 1933.408, a statement concerning the applicability of the Office of Management and Budget (OMB) Circular No. A-102 is included.

8. In § 1933.409, initial staffing of the grantee has been changed to clarify the hiring of employees as necessary and to require that the grantee establishes an adequate accounting system within a specified time limit; also an Evaluation Report of Self-Help Technical Assistance will be provided on a quarterly basis and TA records will be retained for a period of 3 years.

9. In § 1933.410, a review and an appeal process has been added. Also, clarification as to when a prospective self-help family will be determined eligible for financial assistance has been added.

10. In § 1933.416, language has been added to provide the applicant with the right for National Office review if the grant proposal is disapproved.

11. In § 1933.418, a method of evaluating the performance of grantees is explained and referenced to Exhibit E of the regulation.

12. In § 1933.419, the review process for terminating the TA grantee operation is established.

13. In Exhibit A, the format has been revised and modified to include clarification for the disposal of personal property of the grantee organization.

14. In Exhibit E, a step-by-step breakdown of the process for evaluating the performance of the grantee is included.

Accordingly, 7 CFR Chapter XVIII is amended as follows:

1. Subpart I of 7 CFR Part 1822 is removed.

2. 7 CFR Part 1933 is amended by adding a new Subpart I, consisting of §§ 1933.401-1933.50. This new Subpart I, which is revised, transferred and redesignated from Subpart I of 7 CFR Part 1822, reads as follows:

Subpart I—Self-Help Technical Assistance Grants

- Sec.  
1933.401 Purpose.  
1933.402 Authority.  
1933.403 Definitions.

Exhibit F—Site option loan to technical assistance grantees

AUTHORITY: 42 U.S.C. 1480; delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70.

Subpart I—Self-Help Technical Assistance Grants

§ 1933.401 Purpose.

This Subpart sets forth the policies and procedures and delegates authority for providing Technical Assistance (TA) funds to eligible applicants to finance programs of technical and supervisory assistance for self-help housing as authorized under Section 523 of the Housing Act of 1949. This financial assistance may pay part or all of the cost of developing, administering, or coordinating programs of technical and supervisory assistance to aid needy families in carrying out mutual self-help housing efforts in rural areas.

RULES AND REGULATIONS

§ 1933.402 Authority.

The State Director is authorized to approve or disapprove TA grants in accordance with this Subpart. For a grant in excess of \$200,000 or when the amount of the grant plus any unexpended funds from a previous grant will exceed \$300,000, prior written consent of the National Office is required. In such cases, the docket along with the State Director's recommendations will be submitted to the National Office for review.

§ 1933.403 Definitions.

As used in this regulation:

(a) *Agreement.* The contract between Farmers Home Administration (FmHA) and the applicant which sets forth the terms and conditions under which TA funds will be made available.

(b) *Agreement period (or grant period).* The period of time for which an agreement is in force.

(c) *Applicant or grantee.* An organization which applies for or receives TA funds under an agreement. "Grantee" also means a borrower under Exhibit F of this Subpart.

(d) *Date of completion.* The date when all work under a grant is completed or the date in the TA grant agreement, or any supplement or amendment to it, when Federal assistance ends.

(e) *Disallowed costs.* Those charges to a grant which FmHA determines cannot be authorized.

(f) *Grant closeout.* The process by which the grant operation is concluded at the expiration of the grant period or following a decision to terminate the grant.

(g) *Mutual self-help.* The construction method by which participating families, organized in groups usually of 6 to 10 families, utilize their own labor to reduce the total construction cost of their homes. Participating families complete construction work on their homes by exchanging actual labor with one another. The mutual self-help method will be used only for new construction unless an exception is obtained from the National Office in accordance with § 1933.409(a).

(h) *Organization.* (1) A State or political subdivision or public nonprofit corporation (including Indian Tribes or tribal corporations) authorized to receive and administer TA funds; or

(2) A private nonprofit corporation that is owned and controlled by private persons or interests and is organized and operated for purposes other than making gains or profits for the corporation and is legally precluded from distributing any gains or profits to its members.

(i) *Participating family.* Individuals and/or their families who agree to build homes by the mutual self-help method. Generally, participants are

families with low incomes, including those who qualify for and receive interest credits. Some families having incomes above the interest credit level may also participate provided they are unable to pay for a home built by the contract method. Families in this category may include large families who have continually high medical expenses or high debt repayment provided they are otherwise eligible. Participating families must have the ability to furnish their share of the required labor input regardless of the age or sex of the head of household. The participating families may obtain the necessary home financing from FmHA or from other sources. A participating family must have financing arrangements completed before the start of construction and have sufficient time and show a desire to work with other families in building their own homes. Each family should contribute at least 700 hours of labor in building each other's homes for the mutual self-help method to be carried out. The available time of a participating family must coincide with the other group members so that the mutual concept of the project can be met.

(j) *Rural areas.* Open country or rural places as defined in § 1822.3(c) of this Chapter (FmHA Instruction 444.1).

(k) *Sponsor.* An existing entity that is willing and able to assist an applicant without charge, in applying for a grant and in carrying out its responsibilities under the agreement. Examples of sponsors are local rural electric cooperatives, institutions of higher education, and community action agencies.

(l) *Termination of a grant.* The cancellation of Federal assistance, in whole or in part, under a grant at any time before the date of completion.

(m) *Technical assistance.* The organizing and supervising of groups of families in the building of their own homes including such functions as: (1) Recruiting families who are interested in sharing labor in the construction of each other's homes and assisting such families in obtaining housing loans.

(2) Assisting at meetings of the families at which the self-help program and subjects related to home ownership, such as loan payments, taxes, insurance, maintenance and upkeep of the property are explained and discussed;

(3) Helping families in planning and development activities that lead to the acquisition and development of suitable building sites;

(4) Assisting families in selecting house plans for homes which will meet their needs and which they can afford;

(5) Assisting families in obtaining cost estimates for construction materials and any subcontracting that will be required;

(6) Providing assistance in the preparation of loan applications;

(7) Providing technical supervision and training for families while they construct their homes.

(8) Providing financial supervision to individual families with Section 502 Rural Housing (RH) loans which will minimize the time and effort required by FmHA to countersign checks. The grantee's secretary-bookkeeper should:

(i) Total invoices and itemized statements for payment of materials purchased by individual families from suppliers and subcontractors.

(ii) Maintain a record of deposits and withdrawals on Form FmHA 402-2, "Statement of Deposits and Withdrawals," or similar form provided by the grantee to account for all Section 502 RH funds for each loan.

(iii) Prepare checks accompanied by corresponding invoices and itemized statements for FmHA countersignature. Checks should be submitted for countersignature usually not more frequently than 30 day intervals.

(iv) Prepare checks for FmHA countersignature made payable to the grantee for reimbursement of funds when the grantee has advanced funds, available from sources other than TA funds, for payment of individual borrower bills for materials and subcontractors. Itemized invoices must be presented to FmHA when checks are to be countersigned.

(9) Assisting families in solving other housing problems.

(n) *Equivalent units.* Equivalent units represents the "theoretical number of units" arrived at by adding the percentage of completion figure for each family in the self-help program (pre-construction and actual construction) together at any given date during program operations. The sum of the percentage of completion figures for all participant families represents the total number of "equivalent" or "theoretical" units completed in the program at that date.

#### § 1933.404 Eligibility.

(a) *Eligibility of applicant.* To be eligible to receive a grant, the applicant must:

(1) Be an organization as defined in § 1933.403(h).

(2) Have the financial, legal, administrative, and actual capacity to assume and carry out the responsibilities imposed by the agreement. To meet this requirement of actual capacity it must either:

(i) Have necessary background and experience with proven ability to perform responsibly in the field of mutual self-help or other business management or administrative ventures which indicate an ability to perform responsibly in the field of mutual self-help; or

(ii) Be sponsored by an organization which has such background experi-

ence and ability and which agrees in writing that it will provide, without charge, the help the applicant will need to carry out its responsibilities.

(3) Legally obligate itself to administer TA funds, provide an adequate accounting of the expenditure of such funds, and comply with the agreement and FmHA regulations.

(4) If the organization is a private nonprofit corporation, it should also:

(i) Be a corporation organized for the primary purpose of assisting low- and moderate-income families to obtain adequate housing.

(ii) Have local representation among its membership.

(iii) Adopt, if it is being newly organized, Articles of Incorporation and Bylaws that generally conform to Exhibits D and E of Subpart D of Part 1822 (Exhibits D and E of FmHA Instruction 444.5) which are available in FmHA offices, with changes appropriate to include the purposes and powers of an eligible applicant under this Subpart. The Office of the General Counsel (OGC) should be requested by FmHA to review and adopt the exhibits for use in the respective States.

(iv) Have a Board of Directors which will consist of not less than five but generally not more than nine members. Only those board members with annual incomes below the Federal Poverty guidelines as established by the Community Services Administration shall be entitled to receive payments or reimbursement for attending board meetings.

(v) If it is engaged in or plans to become engaged in other activities that will affect the operation of the TA grant, be able to provide sufficient evidence and documentation that:

(A) it will have sufficient funds to assure continued operation for at least the period of the grant agreement or

(B) if the other funding is terminated, proper adjustments can be made in the operation so that the TA grant is not adversely affected.

(b) *Authorized representative of applicant.* FmHA will deal only with authorized representatives of the applicant. The authorized representatives must be members of the applicant-organization and have no pecuniary interest in the award of any engineering, architectural, or construction contracts, purchase of the necessary equipment, or purchase or development of the land.

#### § 1933.405 Purposes.

TA funds may be used only for the following purposes:

(a) Hiring personnel as authorized in the agreement.

(b) Payment of necessary and reasonable office expenses such as office rental, office utilities, and office equipment rental. The State Director may, however, authorize the purchase

of office equipment on a case-by-case basis when he determines it is more economical to purchase such equipment during the grant period.

(c) Purchase of office supplies such as paper, pens, and pencils.

(d) Payment of necessary reasonable administrative costs including but not limited to items such as workmen's compensation, liability insurance, audit reports, travel and training, and employer's share of social security and health benefits.

(e) Purchase and maintenance of power or specialty tools such as a power saw, electric drill, and sabre saw which are needed but are not readily available to participating families on a rental basis at reasonable cost. The participating families, however, are expected to provide their own basic hand tools such as hammers and handsaws.

(f) Payment of reasonable fees for necessary training of grantee personnel. This may include the cost of travel and per diem to attend State or Regional training sessions when authorized on an individual case basis by the FmHA State Director.

(g) Payment for technical and consultant services not readily available without cost to the participating families.

(1) Generally, however, training and consulting will be limited to obtaining outside expertise to help the grantee's employees with local problems they are encountering in administering the TA proposal.

(2) Ordinarily, FmHA will furnish needed guidance for the development of a TA application. The State Director may, however, with the prior approval of the National Office, authorize the use of TA funds to enable an applicant to pay a qualified consulting organization or foundation, operating on a nonprofit basis, charges for necessary services for development of such an application, provided the State Director determines that:

(i) Either the applicant, even with the available FmHA guidance, cannot develop a sound TA application without the professional services; or the services would permit significant financial savings to the Government, either directly or by reducing the workload in processing applications; and

(ii) The charges are reasonable considering the amount of TA funds covered by the agreement and the cost of similar services in the same or similar rural areas.

(3) The applicant and consulting foundation must be informed that FmHA grant funds will be available only if the grant is made by FmHA.

#### § 1933.406 Conditions for approving an agreement.

An agreement may be approved for an eligible applicant when the following conditions are present:

(a) A need clearly exists in the area for self-help housing. The applicant must provide information such as census materials, local planning studies, surveys, or other readily available information, indicating a need in the area for housing of the type and cost to be provided by the proposed self-help TA program for low income families that lack adequate housing or live in housing that is considered to be deteriorating, dilapidated, overcrowded, and lacking some or all plumbing facilities. The applicant must also provide evidence that at least as many families as the number of homes to be built have been contacted and are interested in and appear to be eligible to participate in the self-help program. A list of such families consisting of names and addresses will be provided.

(b) Reasonable evidence is available that the applicant has or can hire qualified people to carry out its responsibilities. The Board of Directors will hire the TA Director with the written approval of the State Director. The State Director should authorize approval only after the candidate's qualifications are reviewed, if they show that the candidate is capable of carrying out these responsibilities.

(c) Funds for the proposed TA project are not available from other sources.

(d) The applicant must have at least the first self-help group organized and each individual's RH 502 loan approved before the grant is closed. The group should be ready to begin construction, generally, within 30 days after grant closing.

(e) Sites are available for the initial group and are or can reasonably be expected to be available for subsequent groups. An RH site loan to the applicant under sections 523 or 524 may be considered for approval simultaneously with or before approval of the agreement if necessary to obtain adequate sites.

#### § 1933.407 Limitations.

The size of the TA grant will depend on the experience and capability of the applicant. In any case, the application will fully justify the number of homes proposed.

(a) *Maximum amount.* An initial TA grant will not exceed \$200,000 without prior approval of the National Office.

(b) *Average TA cost.* An agreement should be developed on the basis of reasonable cost per house. A new organization may have higher costs because of difficulties encountered during the early stages of operation. During the first year of operation the TA cost should not exceed 18% of the combined land and construction cost of the homes built by the contract method. For grantees operating on-going programs of self-help housing the TA cost should not exceed 15% of

the combined land and construction cost of the homes built by the contract method. In any case, a TA cost resulting in a net savings per house of less than \$500.00 will not be acceptable. Net savings will be computed in accordance with the following example:

Cost of contractor built house, including land.....	\$23,500
Cost of self-help house, including land....	-18,000
Gross saving .....	5,500
Gross saving .....	5,500
Per unit TA cost .....	-3,000
Net savings .....	2,500

(c) *Agreement period.* An agreement will cover a period not to exceed 2 years from the date the TA grant is closed.

(d) *Advances.* Funds may be advanced initially under an agreement to cover TA needs for the balance of the month in which the grant is closed and the next month. Each additional advance will be made for a 1-month period in accordance with § 1933.416(d) (4) and (5).

(e) *Prohibited use of funds.* An applicant may use TA funds only for the purposes stated in § 1933.405. Among the purposes for which TA funds will not be used are the following:

(1) Hiring personnel specifically for the purpose of performing any of the construction work for participating families in the self-help projects.

(2) Buying real estate or building materials or other property of any kind for participating families.

(3) Paying any debts, expenses, or costs which should be the responsibility of the participating families in the self-help projects, other than those listed in § 1933.405.

(f) *Obligations incurred before execution of the agreement.* An applicant should not obligate itself for any debts before executing the agreement. If, nevertheless, the applicant incurs debts for technical and consultant services of the type listed in § 1933.405(g) and the requirements of that paragraph are met, funds may be used to pay these debts.

#### § 1933.408 Office of Management and Budget (OMB) Circular No. A-102.

Uniform administrative requirements for grants-in-aid to State and local governments are provided in OMB Circular No. A-102. Should a State or local governmental body express an interest in applying for a TA grant, the matter will be referred to the National Office for processing to assure compliance with OMB Circular No. A-102.

#### § 1933.409 Other considerations.

(a) *Type of construction.* An application will be based only on the need to build new houses by the mutual self-

help method, unless prior approval for repair work is obtained from the National Office. Some forms of manufactured housing may be used such as precut or paneled exterior walls which will reduce construction time for the families. However, each family should contribute at least 700 hours of labor for the mutual self-help method to be carried out. The family labor contribution must result in a significant cost saving. Grantees may, after they begin working in an area, find that a need exists for a mutual self-help project to enable homeowners to make repairs to their homes. These repairs may be either minor or extensive. With prior approval of the National Office, an applicant may organize a mutual self-help project for purposes other than new construction, provided all the following additional conditions are met:

(1) The self-help group must be composed entirely of individuals and families needing to repair their homes. The repair work on all homes should be reasonably comparable in the amount of labor exchange that is required. The estimated number of hours of labor and a description of the work to be done must be provided.

(2) Participating families must have the time and ability to complete the type of work required in the project.

(3) Participating families must assure the applicant that they will follow through to the conclusion of the project.

(b) *Staffing of applicant—(1) Initial staff.* The initial staff for a new organization may consist of the TA Director, the Secretary bookkeeper, a group worker, and a construction supervisor. Positions should be filled only as necessary to assure that construction of the homes for at least the first group of families can start within 30 days of closing the agreement. The employees initially hired should be able to serve double functions until such time as the volume work warrants hiring additional staff. For example, the TA Director may also perform the work of a group worker and provide limited bookkeeping and secretarial services until the volume of work justifies hiring additional staff.

(2) *Typical staff.* (i) One director.

(ii) One to two coordinator-trainers who will work with participating families during the planning and development stages and will provide any necessary and appropriate assistance throughout construction.

(iii) One secretary-bookkeeper who should be hired when the volume of work justifies the position.

(iv) One to three construction supervisors who will provide guidance and instructions to participating families during the construction of their homes. Each construction supervisor should work work groups of 6 to 10

self-help families. A construction supervisor must be available when families can work on their houses and may be hired initially on an hourly basis.

(v) Other staff positions to be paid for with grant funds may be added only if the State Director determines they are necessary for the success of the TA grant and justified from an economic standpoint.

(c) *Area to be served.* An application for TA funds must specify the area to be served under the proposed agreement. Generally, the area will not include more than the area of a single county. In any event, it will be restricted to the area served by one FmHA county office, unless specific authority for an exception is given by the national office before approval of the grant.

(d) *Authorizing resolution.* A resolution will be adopted by the applicant's governing body authorizing the appropriate officers to apply to FmHA for a specified amount of TA funds and to execute Exhibit A, "Self-Help Technical Assistance Grant Agreement," and Form FmHA 400-4, "Nondiscrimination Agreement." The applicant's board of directors and officers should fully understand the "Self-Help Technical Assistance Grant Agreement" and the "Nondiscrimination Agreement" to be aware of their responsibilities. A certified copy of the authorizing resolution will be included in the agreement docket before the agreement is approved.

(e) *Nondiscrimination.* The applicant will be bound by the nondiscrimination and equal employment opportunity covenants contained in the "Self-Help Technical Assistance Agreement" and will execute Form FmHA 400-4 which will become a part of the agreement docket. The applicant will also comply with the affirmative fair housing marketing requirements contained in FmHA Instruction 1901-E.

(f) *Compliance with local codes and regulations.* Applicants must be sure that the planning and development of self-help housing will conform with any applicable laws, ordinances, codes, and regulations governing such matters as construction, heating, plumbing, electrical installation, fire prevention, health, sanitation, and zoning, as well as minimum property standards as adopted by FmHA.

(g) *Reports.* Applicants receiving TA funds will be required to submit to the county office:

(1) "Request for Advance or Reimbursement" on Form SF-270 by the 15th of each month. The county office will transfer the necessary information from Form SF-270 to Form FmHA 440-57 and prepare Form 440-57 according to the FMI.

(2) An audit of the grantee's accounts at the end of the grant period

or at least every two years of operation in accordance with the handbook, "Instruction to Independent Certified Public Accountants and Licensed Public Accountants Performing Audits of Farmers Home Administration Borrower and Grantees." A copy of the handbook may be obtained from any FmHA office.

(3) Form SF-269, "Financial Status Report," at the end of the grant period. The report may be on either a cash or accrual basis consistent with the financial accounting system adopted by the grantee and will be consistent throughout the grant period. The report will be submitted to the county supervisor within 90 days after the end of the grant period or the completion or termination of the program.

(4) An evaluation report of self-help technical assistance (TA) grants as provided in Exhibit E will be submitted on or before January 15, April 15, July 15, and October 15 of each year. If the report is due within 30 days after grant closing, it will not be required. The information provided on Exhibit E, however, may be required by the State Director more frequently and additional requirements may be imposed as needed if a grantee has a history of poor performance, is not financially stable, or its management system is such that it does not provide the minimum information required to be reported in Exhibit E. If additional reports and requirements are required, the State director will notify the county supervisor of the decision. The county supervisor will notify the TA grantee in writing as to:

(A) Why the additional standards are being imposed;

(B) What corrective action is needed.

The county supervisor will forward several copies of the notification to the State director. The State director will forward a copy of the notification to the national office and any other agencies known to be funding the grantee at the time the grantee is notified. The national office will notify the Office of Operations and Finance (USDA) and the Office of Management and Budget (OMB), Financial Management Branch, Budget Review Division, Washington, D.C. 20503.

(h) *Use and accountability for TA funds.* All TA funds will be placed in a depository institution of the grantee's choice. The use of minority depository institutions is encouraged. Checks must be signed by at least two authorized officials of the applicant who have been properly bonded in accordance with paragraph (i) of this section. No expenditures will be made for items or amounts not authorized under the agreement. When necessary to assure proper use, the State director, at any time during the grant period, may require TA funds to be deposited in a supervised bank account

in accordance with Part 1803 of this Chapter (FmHA Instruction 402.1).

(i) *Bonding.* If the applicant does not have fidelity bond coverage, it will provide such bond coverage for its officers and employees entrusted with the receipt, custody, or disbursement of its funds, and the custody of any other negotiable or readily salable personal property. The amount of the bond will be at least equal to the maximum amount of such funds and property that the applicant will have in its possession or control at any time, including funds in bank accounts, except that State or local units of government will not be required to provide fidelity bonds over and above those normally required for their operations. If not prohibited by State law, the United States will be named co-obligee on the bond. Form FmHA 440-24, "Position Fidelity Schedule Bond," may be used if permitted by State law.

(j) *Records.* If the applicant is a private nonprofit organization, it must submit to FmHA, by the end of the first month after TA grant closing, certification that it has established an accounting system which, in the opinion of a certified public accountant or licensed independent public accountant, licensed on or before December 31, 1970, is adequate to meet the purposes of the agreement. The accounting certification shall state that the applicant has established an adequate accounting system with appropriate internal controls to safeguard assets, check the accuracy and reliability of its accounting data, promote operating efficiency, and encourage compliance with prescribed management policies and any additional fiscal responsibilities and accounting requirements established by FmHA. If this requirement cannot be met by the time specified, the applicant must show that such an accounting system is in the process of development, with a definite completion date. Establishment of such certified adequate system must, in any event, be completed before the third monthly advance is made. If a certified adequate accounting system is not provided for by the time the third monthly advance is to be made, the grant may be terminated in accordance with § 1933.419(b).

(k) *Retention of records.* The grantee's financial records supporting documents, statistical records, and all other records pertinent to the grant agreement shall be retained for a period of 3 years.

(l) *Site option (SO) loans.* A TA grantee may obtain a site option loan for the purchase of land options in accordance with Exhibit F of this subpart.

§ 1933.410 Processing preapplications and applications and competing grant dockets.

(a) *Form AD-621, "Preapplication for Federal Assistance."* Form AD-621

will be submitted by each applicant in an original and two copies to the county supervisor. It will be used to establish communication between the applicant and FmHA, determine the applicant's eligibility, determine how well the project can compete with similar applications from other organizations and eliminate any proposals which have little or no chance for Federal funding before applicants incur significant expenditures for preparing an application. The following information will be attached to and become a part of the preapplication, as Part IV, Program Narrative Statement:

(1) Complete information about the applicant's previous experience and capacity to carry out the objective of the agreement.

(2) If the applicant is already formed, a copy of, or an accurate reference to, the specific provisions of State law under which the applicant is organized; a certified copy of the applicant's articles of incorporation and bylaws or other evidence of corporate existence; certificate of incorporation for other than public bodies; evidence of good standing from the State when the corporation has been in existence 1 year or more; the names and addresses of the applicant's members, directors, and officers; and if another organization is a member of the applicant-organization, its name, address, and principal business. If the applicant is not already formed, copies of the proposed organizational documents as outlined in § 1933.404(a)(4)(iii).

(3) A current dated and signed financial statement showing the amounts and specific nature of assets and liabilities together with information on the repayment schedule and status of any debt owed by the applicant. If the applicant is a new organization being sponsored by another organization, the same type of financial statement also should be provided by the applicant's sponsor.

(4) A narrative statement which includes information about the amount of the grant request, area to be served, the need for self-help housing in the area, and the number of self-help units that can be built in the agreement period.

(5) A list of other activities the applicant is engaged in and expects to continue and a statement as to any other funding and whether it will have sufficient funds to assure continued operation of the other activities for at least the period of the agreement.

(b) *Preapplication review.* The county supervisor will review Form AD-621 and other information submitted with it. The preapplication and the county supervisor's comments, recommendations, and any additional information will be forwarded to the State director for advice about further

processing. The State director will review the preapplication and related information to determine whether it meets the eligibility requirements.

(1) The State director will review the applicant's articles of incorporation and bylaws and, if they conform to approved model forms for the State as provided in § 1933.404(a)(4)(iii), the State director need not obtain a preliminary opinion regarding the legality of the organization of the applicant from OGC. In all other cases, the State director will, and, in any case, may, submit the preapplication with any comments or questions to OGC for a preliminary opinion as to whether the applicant is or will be a legal organization of the type required by these regulations and for advice on any other aspects of the preapplication.

(2) The State director, if unable to determine eligibility or qualifications with the advice of the OGC, may submit the preapplication to the National Office for review. The preapplication will contain any memoranda from OGC setting forth the results of its review. The State director will identify in the transmittal memorandum to the national office the specific problem and will recommend possible solutions. Any information about the applicant which would be helpful to the national office in reaching a decision should be included.

(c) *Form AD-622, "Notice of Preapplication Review Action."* The State director will authorize the county supervisor to prepare and execute Form AD-622 informing applicants about the results of the review.

(1) If, after review of the preapplication, the applicant is not eligible or, if the applicant is eligible and no funds are available, the applicant will be promptly notified on Form AD-622. The notification will inform the applicant that a review of the decision by the national office may be requested if the applicant believes the decision has not been made in a proper manner based on the information submitted. The applicant may request the review by writing to the Administrator of the Farmers Home Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

(2) Upon receipt of a request for a review the Administrator will obtain a comprehensive report on the matter from the State office. He will consider this information together with any additional information that may be provided by the applicant; and

(1) If the Administrator determines that the applicant is eligible, he will inform the applicant by letter that its request will be approved or may be approved subject to certain conditions. The Administrator will advise the State director of the action to be taken.

(2) If the Administrator determines that the applicant is not eligible, he will inform the applicant by letter of his decision giving the reasons. The Administrator will also send the State director a copy of the letter.

(3) If no decision is reached within 45 days of the receipt of a request for review by the Administrator, the applicant will be informed that its request is being considered and given a specific date by which a decision will be made.

(3) If the State director determines that the applicant is eligible and could carry out the agreement, and if funds have not been allocated to a State to cover the request, the State director will contact the national office as to the availability of funds. If funds are available, the applicant will then be requested to submit an application and other necessary docket items.

(d) *Form AD-625, "Application for Federal Assistance (Short Form)."* The applicant will submit Form AD-625 in an original and two copies to the county supervisor. The applicant also should provide a detailed proposal of its goals including information about:

(1) Evidence of the need for self-help housing in the area, including the following:

(i) Housing conditions of low- and moderate-income families in the area.

(ii) Reasons why families cannot obtain adequate housing without self-help assistance.

(iii) Names and addresses of families who have been personally contacted by the applicant and are interested in participating in a self-help housing project. Community organizations including minority organizations may be used as a source of names of people interested in self-help housing.

(iv) Evidence that the first group of prospective participating self-help families will likely qualify for financial assistance from FmHA or other sources. In addition, such information as the income and size of other interested families who appear to be eligible should be submitted.

(v) Cost comparison of adequate but modest contractor built housing in the area with housing built by the self-help method. This cost comparison should include plans and specifications for the houses to be built, detailed cost estimates for building by the self-help method, and bids from at least two contractors building in the area.

(2) The services the applicant will provide that are not presently available to families that are eligible to participate in the proposed TA grant program.

(3) Proposed staff needed, including qualifications, experience, proposed hiring schedule, and availability of any prospective employees.

(4) Name, address, and official position of applicant's representative or

representatives authorized to act for the applicant and work with the county supervisor.

(5) Budget information including a detailed budget for the agreement period based upon the needs outlined in the proposal.

(6) Personnel procedures and practices that will be established. Exhibit B of this subpart contains guidelines that may be used. Exhibit C of this subpart contains sample forms that applicants can use in maintaining their personnel records. Any forms to be used will be submitted with the application.

(7) A proposed monthly activities schedule showing the proposed dates for starting and completing the recruitment, loan processing and construction phases for each group of participant families.

(8) Evidence of the availability of building sites for at least the first group of participant families. As proof of availability an option to purchase or other documentation that accept-

able building sites can be purchased must be provided.

#### § 1933.411 [Reserved]

#### § 1933.412 Planning and performing development work.

The development work will be planned and completed in accordance with Subparts A and D of part 1804 (FmHA Instruction 424.1 and 424.5) of this chapter.

#### § 1933.413 [Reserved]

#### § 1933.414 Docket preparation.

(a) *Assembly.* When the application and all items required for the complete docket have been received, they will be thoroughly examined by the County Supervisor to insure that they have been properly and accurately prepared and include the required dates and signatures. The agreement docket items will be assembled in the following order and distributed as indicated:

Form No.	Name of form or document	Total number of copies	Signed by applicant	No. for agreement docket	Copy for applicant
AD-821	Preapplication for Federal assistance.	3	1	1-O, 1C	1-C
AD-822	Notice of preapplication review action.	2		1-C	1-O
AD-823	Application for Federal assistance (Short Form) (with attachments).	3	1	1-O, 1C	1-C
FmHA 440-1	Request for obligation of funds.	4	2	3-O, 2C	1-C
FmHA 440-4	Nondiscrimination agreement.	2	1	1-O	1-C
	Certified copy of authorizing resolution.	1	1	1-O	
	Self-help technical assistance grant agreement (Exhibit A).	2	1	1-O	1-C
	Any personnel forms to be used.	2		1-O	1-C

1-O=Original; 1-C=Copy.

(b) *Review.* (1) The county supervisor will review the docket, comment on the need for self-help housing in the area, the applicant's capacity to carry out the agreement, and evaluate and verify the applicant's financial statement. These comments and the docket will be submitted to the State director for review.

(2) The State director will review the docket and determine that either it is complete or it is incomplete and require any additional information necessary to complete the docket.

#### § 1933.415 [Reserved]

#### § 1933.416 Approval and closing.

(a) *Responsibilities of approval official.* The approval official will review the docket to determine compliance with established policies and all pertinent regulations and, specifically, determine that the:

- (1) Applicant is eligible.
- (2) Funds are requested for authorized purposes.
- (3) Proposal is sound.
- (4) Preapproval requirements have been met.

(b) *Approval of grant.* To approve the grant, the approval official will:

- (1) Execute and distribute Form FmHA 440-1, in accordance with instructions contained in the forms manual insert (FMI).
- (2) Prepare and distribute Form FmHA 071-1, "Project Information Card," in accordance with FmHA Instruction 2015-C.

(c) *Disapproval of grant.* If a grant is disapproved after the docket has been developed, the approval official will state the reason on the original Form FmHA 440-1, or in a memorandum to the county supervisor. The county supervisor will notify the applicant in writing of the disapproval and the rea-

sons for disapproval. The notification will inform the applicant that a review of the decision by the national office may be requested if the applicant believes the decision has not been made in the proper manner. Such a review will be conducted as outlined in § 1933.410(c)(2). The docket will then be handled in accordance with FmHA Instruction 2033-A.

(d) *Actions subsequent to approval of a grant.*—(1) *Change in amount of grant.* If it becomes necessary for the amount of TA funds provided for in the agreement to be increased or decreased before closing, the county supervisor will request that all distributed docket forms be returned to the county office. The grant docket will be revised accordingly and reprocessed. If, however, funds were obligated by the Finance Office in a previous fiscal year and additional funds are needed, the distributed docket forms will not be reprocessed. A grant for the additional amount needed will be processed and the amount of the grant agreement will be the total of the two.

(2) *Cancellation of an approved grant.* An approved grant may be canceled before closing, if the applicant is determined to no longer be eligible, the proposal is no longer feasible, or the applicant requests cancellation. Cancellation will be accomplished as follows:

(i) The county supervisor will prepare Form FmHA 440-10, "Cancellation of Loan or Grant Check and/or Obligation," in an original and two copies, or three copies if the TA check has been received in the county office from the disbursing office. The form will be revised by changing the word "loan" to "grant" wherever the word appears. Form FmHA 440-10 will be sent to the State director with the reasons for the requesting cancellation.

(ii) If the State director approves the request for cancellation, he will forward the original of the form to the Finance Office. After making appropriate record changes, a copy of Form FmHA 440-10 will be returned to the county office. If the TA check is received in the county office, the county supervisor will return it to the U.S. Treasury, Regional Disbursing Office, Kansas City, Kans., with a copy of Form FmHA 440-10.

(iii) The county supervisor will notify the applicant and all other interested parties, of the cancellation and the right to appeal as provided in § 1933.419(b)(3).

(3) *Requesting initial TA check.* (i) The initial TA check may cover the applicant's needs for the first calendar month. If the initial check is for a partial month, it will cover the needs for the partial month and the next whole month. For example, if it is delivered on February 10, it will cover the appli-

cant's needs for the balance of February and the month of March.

(ii) The initial advance of TA grant funds may not be requested simultaneously with the request for obligation of TA grant funds on Form FmHA 440-1. The initial TA grant check must be requested on Form FmHA 440-57, "Acknowledgment of Obligated Funds/Check Request," in accordance with the FMI after Form FmHA 440-57 has been received from the Finance Office indicating that funds have been obligated.

(4) *Requesting additional TA checks.* Additional advances may be made each month provided:

(i) A satisfactory monthly report on Form SF-270, and the information required quarterly in Exhibit E of this subpart has been received.

(ii) The Exhibit E quarterly reports verify that the applicant has fully complied with the agreement. The reports will be reviewed carefully to ascertain that all TA funds are used only for authorized purposes as outlined in § 1933.405.

(iii) Additional TA checks will not be requested until all previous expenditures of TA funds have been determined to be for authorized purposes. Reimbursements for unauthorized expenditures may be accepted from the applicant or subsequent advances reduced by the amount of the unauthorized expenditures. Reimbursements will be sent to the Finance Office as returned grant funds.

(A) If the county supervisor questions the applicant's compliance with the terms of the agreement, the county supervisor will immediately request a written explanation from the grantee. If the explanation provided by the grantee is satisfactory to the county supervisor, no further action need be taken. If the explanation provided by the grantee is not satisfactory, the county supervisor will immediately request the advice of the State director.

(B) If the State director determines that the applicant has failed to comply with the terms of the agreement, the State director will notify the grantee in writing of the reasons for the determination and, with the advice of OGC, determine appropriate corrective action to be taken.

(5) *Receiving additional TA checks.* If the applicant's reports are satisfactory, the county supervisor and the applicant will determine the amount of funds necessary for the next month. An advance of TA grant funds will then be requested on Form FmHA 440-57 in accordance with the FMI. Form FmHA 440-57 requesting the check should be forwarded to the Finance Office in sufficient time to allow check delivery to be made on the first day of the following month. To show the timing of additional ad-

vances, if an applicant's initial advance covered part of February and all of March, the additional advance should cover the month of April. The additional advance check would be delivered on April 1. The next advance would be delivered on May 1. The applicant will normally receive operating funds for each month on the first day of the month unless otherwise agreed.

(e) *Grant closing.* A grant will be considered closed on the date the agreement is executed by the applicant and the Government and the initial advance check is delivered to the applicant. The agreement should be executed and the check delivered on the same date. County supervisors and assistant county supervisors are authorized to execute the "Self-Help Technical Assistance Grant Agreement" on behalf of the Government. The applicant will execute the agreement as authorized in its authorizing resolution.

(f) *Extending and revising grant agreements.*—(1) *Extending period and revising grant agreement.* The State director may extend the period of an agreement for as long as 1 year on determining that the extension is justified and that the applicant is likely to complete the goals outlined in the initial proposal during that period. This will be done by the State director authorizing the county supervisor to execute on the behalf of the Government an "Amendment to Self-Help Technical Assistance Grant Agreement" in the form of Exhibit D. In paragraph 2, line 2, the word "none" will be inserted in the blank space to indicate that no additional funds are being made available. Any revisions will be in writing and attached to Exhibit D. The county supervisor and the applicant's authorized officials will execute the form at the same time.

(2) *Additional funding during the grant agreement period.* If an applicant needs additional funds to achieve the goals set out in the initial application and the increase is justified:

(i) The State director will require and review a copy of the new proposed budget and a complete justification for the request.

(ii) After determining that funds are available and the total grant is within his approval authority, the State director may approve or disapprove the request in accordance with this subpart. If a increase in grant funds is not approved, the grantee will be notified of the disapproval and his right to appeal as provided in § 1933.410(c)(1) of this subpart. If approved, such additional funding will be coded as a subsequent loan on Form FmHA 440-1. Any appeal will be handled in accordance with § 1933.410(c)(2). If funds have not been allocated to a State or are not available on a national basis to cover a request, or if the grant is not within the State director's approval author-

ity, the State director will contact the national office as to the availability of funds and approval authority.

(iii) Checks will be ordered and handled in accordance with paragraphs (d) (3), (4), and (5) of this section.

(iv) The county supervisor or assistant county supervisor, and the applicant's authorized officials will execute on "Amendment to Self-Help Technical Assistance Grant Agreement" (see Exhibit D).

#### § 1933.417 Subsequent grants.

A subsequent grant is a self-help TA grant made to an applicant that has previously received a TA grant and has achieved or nearly achieved the goals set up for the previous grant and is submitting a new proposal for TA funds. A new "Self-Help Technical Assistance Agreement", will be required for each subsequent grant which will be coded as an initial grant on Form FmHA 440-1.

(a) The State Director may approve subsequent grants in accordance with the authority of this Subpart provided the following conditions exist:

(1) The applicant has complied with the terms of the initial grant agreement and has made satisfactory progress toward achieving its goals.

(2) A continuing need clearly exists for self-help housing in the area to be served by the subsequent grant.

(3) The funding period of the subsequent grant will not begin until the end of the grantee's current funding period unless the proposal covers a different geographical area.

(4) The State Director has examined the new application and determined that the approval conditions can be met.

(5) Funds are available. If funds have not been allocated to a State, or are not available on a National basis, the State Director will contact the National Office as to the availability of funds.

(b) When the subsequent grant is approved, the State Director will prepare and distribute the forms in accordance with § 1933.416(b). When a subsequent grant is disapproved, the grantee will be notified of the disapproval and his right to appeal as provided in § 1933.410(c)(1) of this Subpart.

(c) The period of the subsequent grant may not be more than 2 years.

(d) Subsequent grant checks will be delivered in the same manner as for initial grants.

#### § 1933.418 Management assistance.

The State Director will see that each TA grantee receives the management assistance necessary to achieve a successful program.

(a) *Training.* TA employees who will be locating and recruiting families will receive training in packaging RH loans for self-help housing when or shortly

after they are hired so that they can work more effectively. The grantee's other employees also should receive training on FmHA policies, procedures, and requirements appropriate to their positions. The County Supervisor, other FmHA employees, or outside sources approved by FmHA should give this training.

(b) *Coordination of management assistance.* The County Supervisor should advise the TA Director of the necessity of working closely with and coordinating all activities with the County Office. Meetings should be scheduled between the director and the County Supervisor at least monthly. These meetings should coincide with the time Form SF-270 and the information requested in Exhibit E of this Subpart are submitted by the grantee in accordance with § 1933.409(g) (1) and (4). The County Supervisor will keep the grantee informed of any problems being encountered and will assist the grantee in solving these problems.

(c) *Evaluating grantees.* Each grantee will be required to prepare and submit a quarterly evaluation on or before January 15, April 15, July 15 and October 15 of each year (except as modified under § 1933.409(g)(4)) of its performance by the completion of a report in the form of Exhibit E, Attachment 2, of this Subpart. The evaluation will be submitted in duplicate to the County Supervisor who will review it and make sure that the information is correct and forward it to the State Director. The State Director should evaluate each grantee's performance quarterly by reviewing Exhibit E and any comments from the County Supervisor. A copy of every fourth Exhibit E is to be forwarded to the National Office, unless requested more frequently by the Administrator. The State Director may submit a problem or unusual case to the National Office at any time. A copy of the latest Exhibit E should accompany any request for assistance from the National Office. When analyzing the quarterly reports submitted, the State Director should consider if the TA cost is excessive and determine the problem causing the high costs. The net savings, in any case, should be equal to or greater than the \$500 figure explained in § 1933.407(b). If the problems can be corrected, the grant should be continued and specific actions should be agreed to by the grantee to be taken within a specified period. If it is determined that the grantee cannot correct the problems, lower the TA cost to a reasonable level, increase net savings, or accomplish grant purposes, the grant should be terminated. The grantee should be promptly notified in writing of this determination and given the reasons for and the effective date of termination.

**§ 1933.419 Grant closeout, suspension, and termination.**

(a) *Grant purposes completed.* Promptly after the date of completion, grant closeout actions will be taken to allow the orderly discontinuance of grantee activity.

(1) The grantee will immediately refund to FmHA any balance of grant funds advanced that are not committed for the payment of authorized expenses.

(2) The grantee will send Form SF-269 to FmHA within 90 days after the date of completion of the grant. All other financial, performance, and other reports required as a condition of the grant also will be completed.

(3) The grantee will account for any property acquired with TA grant funds or otherwise received from FmHA.

(4) After the grant closeout, FmHA retains the right to recover any disallowed costs which are discovered as a result of the final audit.

(b) *Grant purposes not completed.*

(1) *Termination.* When the grantee has failed to comply with the terms of the agreement, the County Supervisor will promptly report the facts to the State Director. The State Director will consider termination of the grant. The State Director may also withhold further disbursement of grant funds and prohibit the grantee from incurring additional obligations of grant funds with written approval of the National Office. FmHA may allow all necessary and proper costs which grantee could not reasonably avoid.

(i) *Termination for cause.* The grant agreement may be terminated in whole, or in part, at any time before the date of completion, whenever FmHA determines that the grantee has failed to comply with the terms of the Agreement. The reasons for termination may include but are not limited to such problems as those listed in paragraph (e)(3)(i) of the "Terms of Agreement" section of the Grant Agreement (Exhibit A).

(ii) *Termination for convenience.* FmHA or the grantee may terminate the grant in whole, or in part, when both parties agree that the continuation of the project would not produce beneficial results commensurate with the further expenditure of funds. The two parties will agree to the termination conditions including the effective date and, in the case of partial termination, the portion to be terminated.

(2) *Notification of termination.* The State Director will promptly notify the grantee in writing of the termination action including the specific reasons for the decision. The notification to the grantee will specify that:

(i) The funding will be terminated within 30 days unless the problems are satisfactorily resolved.

(ii) If the grantee believes the pro-

posed termination is improper or believes the problems can be resolved, the grantee should immediately and, in any case, within 15 days of the date of this notification, contact the State Director in writing requesting a meeting for further consideration.

(3) *Appeal termination action.* When the grantee requests further consideration of the State Director's decision concerning termination action, the request will be handled as follows:

(i) The State Director will arrange for a meeting to be held within 15 days of the receipt of the grantee's request for a review. If the grantee is unable to meet with FmHA within the 15 day period, a meeting will be arranged at such other time and place as is mutually convenient for the grantee and FmHA. The meeting will be an informal proceeding at which the grantee will be given the opportunity to provide whatever additional information it believes should be considered in reaching a decision concerning the case. The grantee may have an attorney or any other person present at the meeting if desired.

(ii) Within 10 days of the meeting, the State Director will determine what action to take.

(A) If the State Director determines that the proposed termination is not necessary, he will inform the grantee by letter, and advise the County Supervisor of the action to be taken.

(B) If the State Director determines that the termination of the grant is appropriate, he will inform the grantee by letter giving the reasons for this decision. A copy of the letter will be sent to the County Supervisor. The letter must contain the following statement:

If you wish to have the decision on the termination of your TA grant reviewed, you may write the Administrator of the Farmers Home Administration within 15 days of the date hereof explaining why you believe the grant should not be terminated. His address is: Administrator, Farmers Home Administration, United States Department of Agriculture, Washington, D.C. 20250.

Your correspondence must be accompanied by any supporting material and documentation that you desire to have the National Office consider.

(C) A copy of the request and supporting material must be sent to the State Director at the same time such party forwards the original to the National Office.

(4) *National Office review.* (i) Immediately upon receipt of any request from a grantee that the decision of the State Director be reconsidered, the National Office will make a preliminary decision concerning the continued funding of the grantee during the appeal period. Written notification of the decision will be given to the State Director and grantee.

(ii) The National Office will then obtain a comprehensive report on the matter from the State Office. This information will be considered together with any additional information that may be provided by the grantee. The request will be handled as provided in § 1933.410(c)(2).

**§ 1933.420-1933.450 [Reserved]**

**EXHIBIT A—SELF-HELP TECHNICAL ASSISTANCE GRANT AGREEMENT**

This grant agreement dated \_\_\_\_\_, 19\_\_\_\_, is between \_\_\_\_\_ a non-profit corporation, herein called "Grantee," organized and operating under \_\_\_\_\_ (authorizing State statute) and the United States of America acting through the Farmers Home Administration, Department of Agriculture, herein called "FmHA."

In consideration of financial assistance in the amount of \$\_\_\_\_\_ (herein called "Grant Funds") to be made available by FmHA to Grantee under section 523b(1)(A) of the Housing Act of 1949 to be used in (specify area to be served) \_\_\_\_\_ for the purpose of providing a program of technical and supervisory assistance which will aid low-income families in carrying out mutual self-help housing efforts. Grantee will provide such a program in accordance with the terms of this Agreement and FmHA regulations.

**Definitions:**

(1) "Date of Completion" means the date when all work under a grant is completed or the date in the TA Grant Agreement, or any supplement or amendment thereto, on which Federal assistance ends.

(2) "Disallowed costs" are those charges to a grant which the FmHA determines cannot be authorized.

(3) "Grant Closeout" is the process by which the grant operation is concluded at the expiration of the grant period or following a decision to terminate the grant.

(4) "Termination" of a grant means the cancellation of Federal assistance, in whole or in part, under a grant at any time prior to the date of completion.

**Terms of agreement:**

(a) This grant Agreement shall terminate \_\_\_\_\_ years from this date unless extended or sooner terminated under paragraphs (e) and (f) below.

(b) Grantee shall carry out the self-help housing activity described in the application docket which is attached to and made a part of this Agreement. Grantee will be bound by the conditions set forth in the docket and the further conditions set forth in this Agreement. If any of the conditions in the docket are inconsistent with those in the Agreement, the latter will govern. A waiver of any condition must be in writing and must be signed by an authorized representative of FmHA.

(c) Grantee shall use grant funds only for the purposes and activities specified in FmHA regulations and in the application docket approved by FmHA including the approved budget. Any uses not provided for in the approved budget must be approved in writing by FmHA in advance.

(d) If the grantee is a private nonprofit corporation, expenses charged for travel or per diem will not exceed the rates paid FmHA employees for similar expenses. If the grantee is a public body, the rates will be those that are allowable under the customary practice in the government of which the grantee is a part; if none are customary, the FmHA rates will be the maximum allowed.

(e) Grant closeout and termination procedures will be as follows:

(1) Promptly after the date of completion or a decision to terminate a grant, grant closeout actions are to be taken to allow the orderly discontinuance of grantee activity.

(i) The grantee shall immediately refund to FmHA any uncommitted balance of grant funds.

(ii) The grantee will furnish to FmHA within 90 days after the date of completion of the grant a "Financial Status Report," Form SF-269. All financial, performance, and other reports required as a condition of the grant will also be completed.

(iii) The grantee shall account for any property acquired with technical assistance (TA) grant funds, or otherwise received from FmHA.

(iv) After the grant closeout, FmHA retains the right to recover any disallowed costs which may be discovered as a result of the audit.

(2) When there is reasonable evidence that the grantee has failed to comply with the terms of this Agreement, the State Director can, on reasonable notice, terminate the grant and withhold further payments pursuant to paragraph (3) below or prohibit the grantee from incurring additional obligations of grant funds. FmHA may allow all necessary and proper costs which the grantee could not reasonably avoid.

(3) Grant termination will be based on the following:

(i) *Termination for cause.* This grant may be terminated in whole, or in part, at any time before the date of completion, whenever FmHA determines that the grantee has failed to comply with the terms of the agreement. The reasons for termination may include, but are not limited to, such problems as:

(A) Actual TA costs exceeding the amount stipulated in the proposal.

(B) The number of homes being built is less than proposed construction or is not on schedule.

(C) The cost of housing not being appropriate for the self-help program.

(D) Failure of grantee to use grant funds only for authorized purposes.

(E) Failure of grantee to submit adequate and timely reports of its operation.

(F) Failure of grantee to require families to work together in groups by the mutual self-help method.

(G) Serious or repetitive violation of any of the provisions of any laws administered by FmHA or any regulation issued thereunder.

(H) Violation of any nondiscrimination or equal opportunity requirement administered by FmHA in connection with any FmHA programs.

(i) Failure to establish an accounting system acceptable to FmHA.

(ii) *Termination for convenience.* FmHA or the grantee may terminate the grant in whole, or in part, when both parties agree that the continuation of the project would not produce beneficial results commensurate with the further expenditure of funds. The two parties shall agree upon the termination conditions, including the effective date and, in case of partial termination, the portion to be terminated.

(4) Procedure for termination of grant for cause.

(i) FmHA shall promptly notify the grantee in writing of the determination and the reasons for and the effective date of the whole or partial termination. The grantee may request that the State Director review the determination.

(ii) If the State Director for reasons described in paragraph (e)(3)(i) determines that the grant should not be continued in full, the grantee may request the Administrator of FmHA to review the State Director's decision. Such request should be sent to: Administrator, Farmers Home Administration, United States Department of Agriculture, Washington, D.C. 20250.

(A) The request for review must be in writing and must be made within 15 days after the grantee receives notice of the action to which objection is being made, and must be accompanied by supporting material and documentation. A copy of the request and supporting material must be sent by the requesting party to the State Director at the same time such party forwards the original to the Administrator.

(B) The Administrator will act on the request as expeditiously as possible under all the circumstances, and will notify the requesting party and the State Director in writing of his decision and the reason therefore.

(i) Extension and/or revision of this grant agreement may be approved by FmHA provided in its opinion, the extension and/or revision is justified and there is a likelihood that the grantee can accomplish the goals set out and approved in the application docket during the period of the extension and/or revision.

(g) Grant funds may not be used to pay obligations incurred before the date of this Agreement except as authorized in applicable FmHA regulations. The grantee will not obligate grant funds after the grant termination or completion date.

(h) As requested and in the manner specified by FmHA, the grantee will make financial reports monthly and program progress reports quarterly (on 1/15, 4/15, 7/15 and 10/15 of each year), a financial status report at the end of the grant period, and permit on-site inspections of program progress by FmHA representatives. FmHA may require progress reports more frequently if it deems necessary. Grantee will maintain records and accounts, including property, personnel and financial records, to assure a proper accounting of all grant funds. These records will be made available to FmHA for audit purposes and will be retained by grantee for three years after the termination or completion of this grant.

(i) Title to personal property acquired with grant funds shall vest in the grantee, subject to the following: the grantee shall not sell, assign, lease, encumber, or otherwise dispose of such property or any interest therein without the written consent of FmHA during the grant period. At FmHA's option if the grant is completed, terminated, or canceled for any reason, the grantee may keep such personal property provided the State Director determines it is still needed to enable the grantee to continue a self-help housing program. The grantee may transfer all such personal property to another grantee approved by FmHA, convey the property back to the Government, or dispose of it in any reasonable manner approved by the State Director.

(j) Results of the program assisted by grant funds may be published by the grantee without prior review by FmHA, provided

(k) The grantee shall promptly notify the grantee in writing of the determination and the reasons for and the effective date of the whole or partial termination. The grantee may request that the State Director review the determination.

(l) If the State Director for reasons described in paragraph (e)(3)(i) determines that the grant should not be continued in full, the grantee may request the Administrator of FmHA to review the State Director's decision. Such request should be sent to: Administrator, Farmers Home Administration, United States Department of Agriculture, Washington, D.C. 20250.

(A) The request for review must be in writing and must be made within 15 days after the grantee receives notice of the action to which objection is being made, and must be accompanied by supporting material and documentation. A copy of the request and supporting material must be sent by the requesting party to the State Director at the same time such party forwards the original to the Administrator.

(B) The Administrator will act on the request as expeditiously as possible under all the circumstances, and will notify the requesting party and the State Director in writing of his decision and the reason therefore.

(i) Extension and/or revision of this grant agreement may be approved by FmHA provided in its opinion, the extension and/or revision is justified and there is a likelihood that the grantee can accomplish the goals set out and approved in the application docket during the period of the extension and/or revision.

(g) Grant funds may not be used to pay obligations incurred before the date of this Agreement except as authorized in applicable FmHA regulations. The grantee will not obligate grant funds after the grant termination or completion date.

(h) As requested and in the manner specified by FmHA, the grantee will make financial reports monthly and program progress reports quarterly (on 1/15, 4/15, 7/15 and 10/15 of each year), a financial status report at the end of the grant period, and permit on-site inspections of program progress by FmHA representatives. FmHA may require progress reports more frequently if it deems necessary. Grantee will maintain records and accounts, including property, personnel and financial records, to assure a proper accounting of all grant funds. These records will be made available to FmHA for audit purposes and will be retained by grantee for three years after the termination or completion of this grant.

(i) Title to personal property acquired with grant funds shall vest in the grantee, subject to the following: the grantee shall not sell, assign, lease, encumber, or otherwise dispose of such property or any interest therein without the written consent of FmHA during the grant period. At FmHA's option if the grant is completed, terminated, or canceled for any reason, the grantee may keep such personal property provided the State Director determines it is still needed to enable the grantee to continue a self-help housing program. The grantee may transfer all such personal property to another grantee approved by FmHA, convey the property back to the Government, or dispose of it in any reasonable manner approved by the State Director.

(j) Results of the program assisted by grant funds may be published by the grantee without prior review by FmHA, provided

(k) The grantee shall promptly notify the grantee in writing of the determination and the reasons for and the effective date of the whole or partial termination. The grantee may request that the State Director review the determination.

(l) If the State Director for reasons described in paragraph (e)(3)(i) determines that the grant should not be continued in full, the grantee may request the Administrator of FmHA to review the State Director's decision. Such request should be sent to: Administrator, Farmers Home Administration, United States Department of Agriculture, Washington, D.C. 20250.

(A) The request for review must be in writing and must be made within 15 days after the grantee receives notice of the action to which objection is being made, and must be accompanied by supporting material and documentation. A copy of the request and supporting material must be sent by the requesting party to the State Director at the same time such party forwards the original to the Administrator.

(B) The Administrator will act on the request as expeditiously as possible under all the circumstances, and will notify the requesting party and the State Director in writing of his decision and the reason therefore.

(i) Extension and/or revision of this grant agreement may be approved by FmHA provided in its opinion, the extension and/or revision is justified and there is a likelihood that the grantee can accomplish the goals set out and approved in the application docket during the period of the extension and/or revision.

(g) Grant funds may not be used to pay obligations incurred before the date of this Agreement except as authorized in applicable FmHA regulations. The grantee will not obligate grant funds after the grant termination or completion date.

(h) As requested and in the manner specified by FmHA, the grantee will make financial reports monthly and program progress reports quarterly (on 1/15, 4/15, 7/15 and 10/15 of each year), a financial status report at the end of the grant period, and permit on-site inspections of program progress by FmHA representatives. FmHA may require progress reports more frequently if it deems necessary. Grantee will maintain records and accounts, including property, personnel and financial records, to assure a proper accounting of all grant funds. These records will be made available to FmHA for audit purposes and will be retained by grantee for three years after the termination or completion of this grant.

(i) Title to personal property acquired with grant funds shall vest in the grantee, subject to the following: the grantee shall not sell, assign, lease, encumber, or otherwise dispose of such property or any interest therein without the written consent of FmHA during the grant period. At FmHA's option if the grant is completed, terminated, or canceled for any reason, the grantee may keep such personal property provided the State Director determines it is still needed to enable the grantee to continue a self-help housing program. The grantee may transfer all such personal property to another grantee approved by FmHA, convey the property back to the Government, or dispose of it in any reasonable manner approved by the State Director.

(j) Results of the program assisted by grant funds may be published by the grantee without prior review by FmHA, provided

that such publications acknowledge the support provided by funds pursuant to the provisions of Title V of the Housing Act of 1949 and that five copies of each such publication are furnished to the local representative of FmHA.

(k) Grantee certifies that no person or organization has been employed or retained to solicit or secure this grant for a commission, percentage, brokerage, or contingent fee.

(l) No person in the United States shall, on the grounds of race, creed, color, sex, marital status, national origin, or mental or physical handicap, be excluded from participating in, be denied the proceeds of, or be subject to discrimination in connection with the use of grant funds. Grantee will comply with pertinent nondiscrimination regulations of FmHA.

(m) In all hiring or employment made possible by or resulting from this grant, grantee: (1) will not discriminate against any employee or applicant for employment because of race, creed, color, sex, marital status, national origin, age, or mental or physical handicap, and (2) will take affirmative action to insure that applicants are employed, and that employees are treated during employment without regard to their race, creed, color, sex, marital status, national origin, or mental or physical handicap. This requirement shall apply to, but not be limited to, the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. In the event grantee signs a contract which would be covered by any Executive Order, law, or regulation prohibiting discrimination, grantee shall include in the contract the "Equal Employment Clause" as specified by FmHA.

(n) Grantee shall not, without the prior written approval of FmHA, enter into any contract obligating the use of TA grant funds.

(o) It is understood and agreed by grantee that any assistance granted under this Agreement will be administered subject to the limitations of Title V of the Housing Act of 1949 as amended, 42 USC 1472 et. seq., and related regulations, and that rights granted to FmHA herein or elsewhere may be exercised by it in its sole discretion to carry out the purposes of the assistance, and protect FmHA's financial interest.

#### EXHIBIT B.—PERSONNEL GUIDELINES

I *Personnel procedures*: The personnel procedures and practices outlined below constitute the basic guidelines which the grantee is encouraged to follow if it does not already have acceptable personnel procedures and practices in the selection and employment of staff members.

(A) *Employment policy*.—(1) *Standards for selection*. In selecting staff, each applicant will be reviewed and considered on the basis of sound character, individual skills, and qualifications for the job. Education qualifications, unless required by State or

local law or regulations, will not be made a condition of employment or advancement if a candidate is otherwise qualified to perform the duties of the position.

(2) *Equal employment*. No person shall be excluded from employment or participation in any aspect of the program on the grounds of sex, religion, race, creed, color, marital status, national origin, or mental or physical handicap.

(3) *Persons ineligible for employment*. (a) Any person serving as a voting member of the Board of Directors, or other major policy-advisory body, may not be employed by the organization.

(b) No person may hold a position over which any member of his or her immediate family or household has authority or responsibility either as a member of the governing body or as an employee of the organization.

(B) *Hiring procedure*. (1) The Board of Directors will hire the Technical Assistance (TA) Director with the written approval of the FmHA State Director. The salary for the TA Director will be recommended by the Board of Directors within the FmHA approved salary range and approved by the FmHA State Director.

(2) All other staff will be hired by the TA Director.

(3) The appointment period for each employee will be consistent with the time each is needed.

(C) *Employment practices*.—(1) *Salary schedules*. (a) The salary range for all positions will be established by the Board of Directors within the following guidelines:

Position	Basic starting salary	Maximum salary
Director.....	\$13,482	\$16,255
Coordinator-trainer.....	8,925	11,046
Construction supervisor.....	11,046	13,482
Secretary-bookkeeper.....	7,102	8,925

(b) Beginning salaries for each position, other than Director, will be determined by the TA Director with approval of FmHA within the ranges given above and within budget limitations. If necessary because of high wage levels in the area, higher salaries may be authorized by the State Director to obtain qualified persons to fill these positions.

(c) Each staff member will be evaluated by the TA Director 12 months after employment and annually thereafter. This evaluation will be in writing. Step increases may be given annually to all employees with satisfactory evaluations. An employee whose position is changed will receive future annual increases 12 months after this change and annually thereafter subject to satisfactory evaluations.

(d) Step increases are each 5 percent of the basic starting salary for the first 5 years of employment by the grantee. Any increase after that will be on the basis of a schedule developed by the organization with the approval of FmHA.

(2) *Vacations*. (a) Each full-time employee will receive 12 working days (96 hours) of vacation per year with pay.

(b) After a minimum of 3 months' employment, earned vacation may be taken. Vacation will be taken with the prior approval of the TA Director.

(c) Vacation time is accrued at the rate of 1 day (8 hours) per month. Employees who start on or before the 15th of the month begin to accrue vacation time the same

month; those who start after the 15th of the month begin to accrue vacation time the following month.

(d) Unused vacation time not to exceed 4 days may be carried over to the following year. Longer periods may be carried over, not to exceed 18 days, if permission is obtained from the TA Director.

(e) Upon resignation or discharge, all accumulated vacation time may be taken before separation.

(3) *Sick leave*. (a) Each employee will receive 12 days (96 hours) sick leave per year with pay.

(b) Sick leave will be accumulated at the rate of 1 day (8 hours) per month. Employees who start on or before the 15th of the month begin to accrue sick leave the same month; those who start after the 15th begin to accrue sick leave the following month.

(c) Unused sick leave is to be carried over to the following year. The maximum sick leave that may be accrued by an employee is 30 working days.

(d) Sick leave may be taken for personal illness, injury, and medical appointments. Usually no more than 5 consecutive days of sick leave may be taken unless a medical certificate is presented to the leave approval official.

(e) Upon resignation or discharge, all accumulated sick leave will be considered lost.

(4) *Holidays*. The following will be recognized as official paid holidays: New Year's Day, Washington's Birthday, Memorial Day, the Fourth of July, Labor Day, Columbus Day, Veteran's Day, Thanksgiving, and Christmas.

(5) *Work week*. For accounting purposes, a 40 hour work week is to be considered the minimum requirement for each full-time staff member. However, hours worked must be flexible to fit job need. Some night and weekend work is probable. Compensatory time can be taken as work permits, with permission of the TA Director.

(6) *Employee benefits*. The grantee will participate in and provide for Workmen's Compensation, Federal Insurance Contributions Act and Unemployment Compensation Insurance, if applicable, and up to 50 percent of the health benefits cost.

(7) *Discharge*. An employee is subject to discharge for good cause. The TA Director is responsible for discharging employees. The Board of Directors is responsible for discharging the Director, and will review his capability of continuing the management of the program upon the request of the FmHA State Director.

(D) *Personnel records*. Exhibit C contains sample forms that may be used by applicants in maintaining personnel records.

II *Official travel, mileage and per diem policies*: Prior written approval from the FmHA State Director must be obtained for reimbursement for travel outside of the State.

(A) *Reimbursement mileage*. (1) Mileage will be paid for travel from the office to the job (construction site, home interview location, group meetings, and so forth) and for any travel needed to expedite the job.

(2) Travel from the employee's residence to the office will not be paid. However, if a staff member lives closer to the job than to the office, the mileage incurred traveling to and from the job may be counted. Under certain circumstances, such as staff meetings, travel will be paid to the office. The validity of these claims will be determined by the TA Director.

(3) The TA Director, with prior written

approval of the FmHA State Director, must authorize all trips outside the area covered by the grant. When such travel has been authorized, mileage may be paid.

(B) *Mileage summary*. Employees should submit their travel claims to the office on a weekly basis no later than 10:00 a.m. each Friday.

(C) *Mileage rate*. The mileage rate for travel will be the rate paid for FmHA employees for similar travel except that, for a grantee that is a public body, the travel rates will be those allowable under the customary practice in the Government of which the grantee is a part.

(D) *Per diem*. With written approval of the TA Director, staff members whose official duties require overnight out-of-town travel are allowed no more than the rate paid FmHA employees for meals and lodging. Grant funds will not be used to pay for the cost of meals for employees or officials of the grantee except when in travel status.

For a grantee that is a public body the per diem will be that allowable under the customary practice in the Government of which the grantee is a part.

(E) *Reimbursable expenses of board of directors*. (1) Members of the Board of Directors with incomes below the Federal poverty guidelines as determined by the Community Services Administration who have difficulty meeting expenses arising from their official duties and responsibilities may be reimbursed for transportation to and from meetings, or other official appointments and for lodging and meals when an official meeting, or appointment requires overnight lodging.

(2) With the prior approval of the State Director, the Board may establish rates of reimbursement for eligible Board members not to exceed the amounts authorized in paragraphs II A, C and D of this Exhibit.

III *Code of Conduct*: The grantee will maintain a code or standards of conduct

which will govern the performance of its officers, employees, or agents. Grantee's officers, employees, or agents will neither solicit nor accept gratuities, favors, or anything of monetary value from suppliers, contractors, or others doing business with the grantee. To the extent permissible by State or local law, rules, or regulations such standards will provide for penalties, sanctions, or other disciplinary actions to be taken for violations of such standards.

#### EXHIBIT C—(SAMPLE) PERSONNEL FORMS

*Sample Forms*. The following are suggested sample forms that organizations may use for maintaining personnel records.

Time and Attendance Report;  
Employee Leave Record;  
Travel Authorization;  
Mileage Summary;  
Out of Town Travel Expense Statement;  
Telephone Calls Log for the Month of \_\_\_\_\_.

## EXHIBIT D—AMENDMENT TO SELF-HELP TECHNICAL ASSISTANCE GRANT AGREEMENT

This Agreement dated \_\_\_\_\_, 19—, between \_\_\_\_\_ a nonprofit corporation, herein called "Grantee," organized and operating under \_\_\_\_\_ (authorizing State Statute) and the United States of America acting through the Farmers Home Administration, Department of Agriculture, herein called "FmHA," amends the "Self-Help Technical Assistance Grant Agreement" between the parties hereto dated \_\_\_\_\_, 19—, herein called "said Agreement."

Said Agreement is amended by providing additional financial assistance in the amount of \_\_\_\_\_ to be made available by FmHA to grantee pursuant to section 523 of Title V of the Housing Act of 1949 for the purpose of assisting in providing a program of technical and supervisory assistance which will aid low-income families in carrying out mutual self-help housing efforts; or Said Agreement is amended by changing the completion date specified in covenant 1 from \_\_\_\_\_ to \_\_\_\_\_ and by making the following attachments hereto: (List and identify proposal and any other documents pertinent to the grant.)

## EXHIBIT E—INSTRUCTIONS FOR COMPLETING THE EVALUATION REPORT OF SELF-HELP TECHNICAL ASSISTANCE GRANTS

I General. This Exhibit will be used by FmHA and the grantee in determining grantee performance.

II Determining TA cost per unit. A. To determine the TA cost per unit at any time during its progress, it is necessary to have a formula for arriving at that cost. Devising such a formula is complicated by the fact that a self-help program will have several groups in various stages of progress at any given time. The following formula has been devised to provide a tool to determine more accurately the technical assistance cost per unit.

## FORMULA

Phase breakdown	Value of each phase	Cumulative
	(Percent)	(Percent)
Preconstruction:		
Phase I.....	10	10
Phase II.....	10	20
Phase III.....	10	30
Construction: Phase IV.....	70	31-100

B. Using the following Description of Phase Breakdown as a guide, the project staff selects the cumulative total percentage pertinent to the stage the self-help group is in and multiplies that percentage by the number of families (units) in the group. The result is the equivalent number of units completed. No credit may be given for Phase I, if the application is rejected. When this computation has been completed for

each group that falls within Phases I-IV, the total number of equivalent units is divided into the total grant funds expended to that date. The result is the TA cost per unit at that stage of the program's progress.

C. The per unit TA cost will be computed on a cumulative quarterly basis. Each grantee will compute the per unit TA costs by following the guidelines established in Attachment I of this Exhibit.

D. The description of phase breakdown consists of pre-construction and construction phases described as follows:

Pre-construction: Phase I: Hold community meetings; conduct interviews; obtain house plans; prepare cost estimates; begin search for land; submit family applications to the Farmers Home Administration (FmHA); FmHA runs credit check; applications are either "viewed with favor" or "rejected."

Phase II: Organize association of FmHA approved families; association conducts weekly meetings at which required FmHA forms are discussed and completed; house plans and land sites are selected; outside speakers explain and discuss taxes, insurance, how to keep a checking account, how interest is computed, home maintenance and decorating, landscaping, etc.; completed loan dockets for each family are submitted to FmHA.

Phase III: Family loan dockets are reviewed and recommendations made as to the loan amounts requested; the FmHA County Supervisor reviews family loan dockets; preliminary title search of each proposed building site is begun; requests loan check from Finance Office; when check arrives, final title search is made, loan closed, checking accounts opened, and construction begun.

Construction: Phase IV: The percentage of construction completed is determined for each family in a self-help group. These percentages are then added together to give the number of equivalent units (EU) constructed for each group as shown in paragraph E, Step 2 of this Exhibit. When more than one group is under construction the number of EU's for each group will be added together to provide the total number of EU's constructed for the entire project.

The following table will be used in determining the percentage of construction completed for each family.

## BREAKDOWN OF CONSTRUCTION DEVELOPMENT FOR DETERMINING PERCENTAGE CONSTRUCTION COMPLETED

	With basement	Without basement
	(Percent)	(Percent)
1. Excavation.....	1.4	( <sup>1</sup> )
2. Footing and foundations, walk, columns.....	4.9	2.8
3. Floor joist.....	1.4	1.4
4. Subfloor.....	.7	1.4
5. Wall framing (thru top plates).....	4.9	4.9
6. Wall sheathing.....	2.8	2.8
7. Roof framing, ceiling joist, sheathing, and felt.....	5.6	6.3
8. Roofing.....	2.1	2.1
9. Felt, siding, exterior trim, porches, etc.....	4.2	4.2
10. Siding, primed.....	.7	.7
11. Windows and exterior doors.....	5.6	6.3
12. Plumbing, roughed in.....	2.8	3.5
13. Sewage disposal.....	1.4	1.4
14. Heating, roughed in.....	.7	.7
15. Electric, roughed in.....	1.4	1.4

## BREAKDOWN OF CONSTRUCTION DEVELOPMENT FOR DETERMINING PERCENTAGE CONSTRUCTION COMPLETED—Continued

	With basement	Without basement
	(Percent)	(Percent)
16. Insulation, walls and ceiling.....	.7	.7
17. Dry wall or plaster.....	4.2	4.9
18. Basement and porch floors, steps.....	1.4	.7
19. Heating, finished.....	3.5	3.5
20. Flooring, including kitchen and bath.....	2.8	2.8
21. Interior carpentry, trim and doors.....	3.5	3.5
22. Cabinets and counter tops.....	2.8	2.8
23. Interior decoration.....	2.8	2.8
24. Exterior paint.....	1.4	1.4
25. Plumbing, complete fixtures, sink and water heater.....	2.8	3.5
26. Electric, complete fixtures.....	.7	.7
27. Finish hardware.....	.7	.7
28. Gutters and downspouts.....	.7	.7
29. Siding and finishing floors.....	.7	.7
30. Grading, walks and landscaping.....	.7	.7
	70	70

<sup>1</sup>Include with footings and foundations.

E. The computation of equivalent units and TA costs will be computed as follows:

Attachment I of this Exhibit will be used for recording the following information and construction in the example which starts January 1 with estimates for that month based on the proposal.

## Step 1

By reviewing the FmHA loan application records, one can determine the percentage of completion for each family in the pre-construction phase of the program. These are Phases I thru III. By totaling these percentages, one arrives at the number of "Equivalent Units" completed at that date during preconstruction. For example, if there are eight families in Group #2 and all have completed the 20% phase of preconstruction, then there would be 1.6 EU's (equivalent units) in the pre-construction phase of the program as of March 31. Each phase must be completed before it is considered in the calculation.

## Step 2

Refer to the records of construction progress for families in the construction phase IV. As of March 31 (assuming construction is on schedule) the director totals the percentage of completion figures for each family as in the following example:

	Equivalent units (percent)
Sandler.....	.45
Benjamin.....	.40
Vickerie.....	.40
Cochran.....	.38
Brown.....	.34
Mettger.....	.33
Thurber.....	.31
Richardson.....	.31
	2.92
Total production in the construction phase is therefore 2.92 EU's as of March 31.	

## Step 3

Add the pre-construction and construction subtotals together:

	Equivalent units (percent)
Preconstruction.....	1.60
Construction.....	2.92
Total.....	4.52

This provides the total E.U.'s of production during the first two months of operation. Steps 1, 2, and 3 will be used to complete items 16, 17, and 18 of Attachment I. (Evaluation Report of Self-Help Technical Assistance).

III Preparation. Attachment I (Evaluation Report of Self-Help Technical Assistance Grants) will be completed in an original and three copies. The Attachment will be signed by the TA Grantee. The original and two copies of the attachment will be submitted on a quarterly basis to FmHA on or before January 15, April 15, July 15 and October 15 of each year for the quarters ending March 31, June 30, September 30 and December 31 of each year. The County Supervisor will keep the original and forward two copies to the State Office. The State Office will forward the extra copy to the National Office. Information concerning TA grants closed within 30 days of the end of a quarter will be reported on the next quarterly report.

2868

## RULES AND REGULATIONS

2869

## Instruction for Preparation of the Evaluation Report of Self-Help Technical Assistance Grants

Attachment I will be used by all TA grantees obtaining self-help technical assistance grants. This attachment provides the grantee and FmHA a uniform method of reporting the performance progress of self-help projects. The TA Grantee will prepare an original and 3 copies of the attachment. The TA Grantee will sign the original and 2 copies and forward it to the local FmHA County Office. The TA Grantee will keep the unsigned copy for its records.

The evaluation report will be completed in accordance with the following:

1. Enter the date the quarter ends either March 31, June 30, September 30, or December 31 and the year.

2. Enter the full name of the TA grantee organization.

3. Enter the complete mailing address of the TA grantee organization.

4. Enter the date of the initial self-help technical assistance grant agreement.

5. Enter the date(s) of any subsequent self-help technical assistance grant agreement(s).

6. Enter the amount of the initial grant.

7. Enter the amount of each subsequent grant.

8. Enter the amount of the TA grant budgeted for the first month following the date entered in item 1.

9. Enter the cumulative amount of the TA grant advanced to the end of the quarter.

10. Enter the amount of TA grant funds advanced that are on hand at the end of the quarter.

11. Subtract item (2e) from (2d) to give the cumulative amount of grant used to the end of the quarter.

12. Enter the number of houses planned in the TA Grantee proposal(s).

13. Enter the number of houses completed and occupied at the end of the quarter.

14. Enter the total number of construction supervisors paid with TA grant funds.

15. Enter the number of employees paid with the TA grant funds including those listed in item 14.

16. Insert the number of EU's completed the first month of the quarter using steps 1, 2, and 3 of this Exhibit.

17. Insert the number of EU's completed the second month of the quarter by using steps 1, 2, and 3 of this Exhibit.

18. Insert the number of EU's completed the third month of the quarter by using steps 1, 2, and 3 of this Exhibit.

19. Add item (16) to item (21) from the previous quarterly report. If the grant was closed within 30 days of the end of the previous quarter the total EU's for those 30 days would be included in the first month of the present report.

20. Add item (17) to item (19) for the cumulative total number of EU's the second month of the reporting quarter.

21. Add item (18) to item (20) to obtain the cumulative total number of EU's for the third month of the quarter. This total is the cumulative total number of EU's for the quarter and the project.

22. Enter the grant funds spent the first month of the quarter. If the grant was closed within 30 days of the end of the previous quarter the total EU's for those 30 days would be included in the first month of the present report.

23. Enter the grant funds spent the second month of the quarter.

24. Enter the grant funds spent the third month of the quarter.

25. Add items 22, 23 and 24 together to give the total grant funds spent during the quarter.

26. Divide item (22) by item (16) and enter the quotient which will provide the TA cost per EU for the first month of the quarter.

27. Divide item (23) by item (17) and enter the quotient which will provide the TA cost per EU for the second month of the quarter.

28. Divide item (24) by item (18) and enter the quotient which will provide the TA cost per EU for the third month of the quarter.

29. Divide item (25) by the sum totals of items (16), (17) and (18) to obtain the TA cost per EU for the quarter.

30. Divide item (11) by item (21) to obtain the cumulative TA cost per EU.

31. Insert the average elapsed time needed per house from excavation to final inspection by FmHA to complete construction of a house. If no self-help homes have been completed by this grantee, use other projects or your best estimate as a guide.

32. Insert the current cost of similar houses built by a contractor(s) including lot costs. (attach detailed cost estimates for each model unless previously submitted.)

33. Insert the average cost including FmHA loan and borrower contribution of self-help borrower's house including lot costs for projects covered by the report.

34. Subtract item (33) from item (32) to obtain the self-help borrower savings per dwelling.

35. Subtract item (30) from item (34).

36. Insert the estimated current cost of lots where houses are built by the contractor method in item (32). In most cases this would be the cost of the lot as developed.

37. Insert the average current cost of lots where houses are built by the self-help method.

38. Answer (yes) or (no).

39. Insert average number of hours contributed for the quarter by each family. Obtain this information from Exhibit C of this Instruction.

40. Answer (yes) or (no).

41. Enter date of Exhibit.

42. Signature of grantee or his authorized representative.

43. Insert title of the grantee or his authorized representative.

44. County Supervisor should insert his comments concerning TA costs per EU, progress of construction, success of the project and any problems that the organization may have.

45. Insert date of County Supervisor's review.

46. Signature of County Supervisor.

47. State Office representative should insert his comments concerning but not limited to the comments listed in item 44.

48. Insert date of State Office review.

49. Signature of State Office representative.

EXHIBIT F—SITE OPTION LOAN TO TECHNICAL ASSISTANCE GRANTEES

I Objectives. The objective of a Site Option (SO) loan under section 523 (b)(1)(B) of Title V of the Housing Act of 1949 is to enable Technical Assistance (TA) grantees to establish revolving fund accounts to obtain options on land needed to make sites available to families that will build their own homes by the self-help method. An SO loan will be considered only when sites cannot be made available by other means including a regular Rural Housing Site (RHS) loan.

II Eligibility requirements. To be eligible for an SO loan, the applicant must be a TA

grantee that is currently operating in a satisfactory manner under a TA grant agreement. If the SO loan applicant has applied for TA funds but is not already a TA grantee and it appears that the TA grant will be made, the SO loan may be approved but not closed until the TA grant is closed.

III Loan purposes. Loans may be made only as necessary to enable eligible applicants to establish revolving accounts with which to obtain options on land that will be needed as building sites by self-help families participating in the TA self-help housing program. Loans will not be made to pay the full purchase price of land but only for the minimum amounts necessary to obtain an option from the seller. The option should be for as long as necessary but in no case should the option be for less than 90 days.

IV Limitations. (A) If the amount of an SO loan will exceed \$10,000, the prior consent of the National Office shall be obtained before approval.

(B) The amount of the SO loan should not exceed 15 percent of the purchase price of the land expected to be under option at any one time, unless a higher percent is authorized by the State Director when other land is not available or the particular area requires more down payment than elsewhere or similar circumstances exist.

(C) Form FmHA 440-34, "Option to Purchase Real Property," will be used without modification in all cases for obtaining options under this subpart.

(D) The limitations of § 1822.266 (b) (1) and (2) of this Chapter (FmHA Instruction 444.8 paragraph VI B (1) and (2)) concerning land purchase will apply to options purchased under this Subpart.

V Rates and terms.—(B) Repayment period. Each SO loan will be repaid in one installment which will include the entire principal balance and accrued interest. The maximum repayment period for each SO loan will be the applicant's remaining TA grant funding period.

(1) a shorter repayment period will be established if SO funds will not be needed for the entire TA grant funding period.

(2) If a regular RHS loan is to be processed, the SO loan should be scheduled for repayment when RHS loan funds will be available to purchase the land and repay the amount of SO funds advanced on the option, unless SO loan funds will still be needed to purchase other options. Under no circumstances, however, will the repayment period exceed the applicant's remaining TA grant funding period.

VI Processing application.—(A) Form of application. The application for assistance will be in the form of a letter to the Farmers Home Administration (FmHA) County Supervisor having jurisdiction over the area of the proposed site to be optioned. The letter will be signed by the applicant or its authorized representative and contain, as a minimum, the following information:

(1) A copy of the proposed option that shows a legal description of the land, option price, purchase price and terms of the option. If more than one site is to be purchased, a schedule of the proposed options should be included.

(2) Information to verify that a regular RHS loan cannot be processed in time to secure the option.

(3) Proposed method of repayment of the SO loan.

(4) Resolution from the applicant's governing body authorizing the application for an SO loan from FmHA.

(B) *Responsibility of the county supervisor.* Upon receipt of an SO loan application, the County Supervisor will:

(1) Determine whether the applicant is eligible. If the applicant is not eligible, or the loan cannot be made for other reasons, the application may be rejected by the County Supervisor with the concurrence of the District Director. The reasons for the rejection should be clearly stated and provided, in writing, to the applicant. The applicant will have the right to have the decision reviewed following the right procedure established in § 1933.419(b) of this Subpart and will receive notification in the manner provided in such section.

(2) Review and verify the accuracy of the information provided.

(3) Make an inspection and a memorandum appraisal of each proposed site "as is." The appraisal will include a narrative statement as to whether the site has been recently sold, verify that the seller is the owner of the property, and indicate whether the purchase price is acceptable based on the selling price of similar properties in the area.

(4) Indicate whether or not it appears that, considering the location and cost of development, adequate building sites can be provided at reasonable costs.

(5) If the option is for a tract of land on which 10 or more sites are proposed, the County Supervisor will request the Architect/Engineer in the State Office to review the proposal at this point and inspect the proposed site.

(6) If approval is recommended, prepare and have the applicant execute form FmHA 440-1, "Request for Obligation of Funds," for the amount needed. Copies of the form will be distributed as provided in the FMI.

(7) Forward the SO loan application and the applicant's TA application or TA docket to the State Director. The submission will include the appraisal report and the County Supervisor's comments and recommendations.

VII *Loan approval authority and State office actions.* The State director is authorized to approve SO loans developed in accordance with this Exhibit. The approval or disapproval of the loan will be handled in the same manner as provided in § 1822.272 of this Chapter (FmHA instruction 444.8, paragraph XII). A check may be requested at the time that Form FmHA 440-1 is submitted to the Finance Office.

VIII *Loan closing.*—(A) *General.* Loan closing instructions will be provided by the Office of the General Counsel (OGC) to assure that the Promissory Note is properly completed and executed. The County Supervisor may then close the loan.

(B) *Security for the loan.* The loan will be secured by a Promissory Note properly executed by the grantee using Form FmHA 440-16, "Promissory Note." A lien on the optioned real estate will not be taken.

(1) The "kind of loan" block on the note will read "SO loan."

(2) The note will be modified to show that the only installment on the loan will be the final installment.

(C) *Loan is closed.* The loan will be considered closed when the note is executed and the loan check delivered to the grantee.

IX *Establishment of SO loan revolving account.* (A) Supervised bank accounts will not be used for SO loans.

(B) Grantee will deposit SO loan funds in a depository institution of its choice. The use of minority institutions is encouraged. Such funds will remain separate from any

other account of the grantee and shall be established as an SO revolving account.

(C) Checks drawn on the revolving account will be for the sole purpose of purchasing land options and must be signed by at least two authorized officials of the borrower-organization who have been properly bonded in accordance with § 1933.409 (h) and (i) of this Subpart.

(D) Grantees will not expend funds for any options until the site and the option form have been reviewed and approved by the County Supervisor.

(1) Site option funds will not be left unused in the revolving account in excess of 60 days.

(2) If the funds are not used for the intended purpose within the 60 days specified above, the unused portion will be refunded on the account.

(E) When funds become available for repayment of the SO loan, such funds will be deposited in the revolving account for the purchase of additional site options if needed. If such funds are not needed to purchase more options, they will be applied on the SO loan.

X *Source of funds.* SO loans will be funded from the self-help housing land development fund.

NOTE.—The Farmers Home Administration has determined that this document does not contain a major rule requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: December 28, 1977.

JAMES E. THORNTON,  
Associate Administrator,  
Farmers Home Administration.

#### CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. SAB-19]

#### PART 211—INTERPRETATIVE RELEASES RELATING TO ACCOUNTING MATTERS

##### Subpart B—Staff Accounting Bulletins

#### STAFF ACCOUNTING BULLETIN No. 19

AGENCY: Securities and Exchange Commission.

ACTION: Publication of Staff Accounting Bulletin.

SUMMARY: This interpretation describes the disclosure believed appropriate by the Commission staff in the notes to financial statements concerning expected future costs of storing spent nuclear fuel and of decommissioning nuclear electric generating plants.

EFFECTIVE DATE: January 13, 1978.

FOR FURTHER INFORMATION CONTACT:

Lawrence J. Bloch, Office of the Chief Accountant, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549,

202-755-1182.

**SUPPLEMENTARY INFORMATION:** The statements in Staff Accounting Bulletins are not rules or interpretations of the Commission nor are they published as bearing the Commission's official approval; they represent interpretations and practices followed by the Division of Corporation Finance and Office of the Chief Accountant in administering the disclosure requirements of the Federal securities laws.

GEORGE A. FITZSIMMONS,  
Secretary.

JANUARY 13, 1978.

#### STAFF ACCOUNTING BULLETIN No. 19

The staff hereby adds Topic 10J regarding disclosure of estimated future costs related to storing spent nuclear fuel and to decommissioning nuclear electric generating plants.

#### TOPIC 10: MISCELLANEOUS DISCLOSURE

#### J. ESTIMATED FUTURE COSTS RELATED TO SPENT NUCLEAR FUEL AND NUCLEAR ELECTRIC GENERATING PLANTS

##### FACTS

Utility companies with nuclear electric generating plants have amortized nuclear fuel cost to expense on the basis of the quantity of heat produced for the generation of electric energy. In computing the periodic amortization of the nuclear fuel cost a net residual salvage value has been generally assumed that is predicated on the reprocessing of spent nuclear fuel to recover the unused uranium and plutonium. No facility is presently in operation or can be made operable to process spent nuclear fuel. Consequently, reprocessing cannot be presently accomplished, and it may be necessary to store spent nuclear fuel for an indefinite period.

In determining depreciation rates for nuclear generating plants the costs of dismantling or decontaminating a plant at the end of its useful life have generally not been considered. Such costs now appear to be substantial.

##### QUESTION

What disclosure should be made concerning the estimated future costs of storing spent nuclear fuel and decommissioning nuclear generating plants?

##### INTERPRETATIVE RESPONSE

With regard to both the storing of spent nuclear fuel and decommissioning of nuclear generating plants it appears that costs will be incurred. It may not be possible to reasonably estimate these costs when financial statements are prepared.

A note to the financial statements should describe the consideration given to the estimated future storage or disposal costs for spent fuel in amortizing the cost of nuclear fuel. If the amortization of nuclear fuel in prior years recognized a net residual salvage value, the note should disclose whether the residual salvage value was subsequently eliminated or is to be eliminated by a charge to current operations or otherwise.

Also disclose whether (1) estimated future storage or disposal costs and (2) residual salvage value recognized in prior years and now being written off are being recovered through a fuel adjustment clause or if it is expected that provision will be made for such costs in applications to regulatory commissions for rate increases.

A note should also disclose the estimated costs of dismantling or decontaminating nuclear generating plants and whether provision for these costs is being made in current operations and recognized in service rates. If such expected costs are not being currently provided for, disclose the reasons for omitting the costs and the potential impact on the financial statements.

##### Title 21—Food and Drugs

#### CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

#### SUBCHAPTER B—FOOD FOR HUMAN CONSUMPTION [Docket No. 77F-0077]

#### PART 172—FOOD ADDITIVES PERMITTED FOR DIRECT ADDITION TO FOOD FOR HUMAN CONSUMPTION

##### Emulsifiers

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The food additive regulations are amended to provide for the safe use of polysorbate 60, polysorbate 65, polysorbate 80, and sorbitan monostearate as emulsifiers in whipped edible oil topping rather than exclusively in whipped vegetable oil topping. The General Foods Corp. petitioned for the amendment.

DATES: Effective January 20, 1978; objections by February 21, 1978.

ADDRESS: Written objections to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

John J. McAuliffe, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-472-5690.

**SUPPLEMENTARY INFORMATION:** A notice published in the FEDERAL REGISTER of May 6, 1977 (42 FR 23170), announced that a food additive petition (FAP 7A3280) had been filed by General Foods Corp., Technical Center, 250 North Street, White Plains, N.Y. 10625, proposing that § 172.836 Polysorbate 60, § 172.838 Polysorbate 65, § 172.840 Polysorbate 80, and § 172.842 Sorbitan monostearate (21 CFR 172.836, 172.838, 172.840,

and 172.842, respectively) be amended to provide for the safe use of polysorbate 60, polysorbate 65, polysorbate 80, and sorbitan monostearate as emulsifiers in whipped edible oil topping rather than exclusively in whipped vegetable oil topping as currently permitted.

Having evaluated the data in the food additive petition and other relevant material, the Commissioner of Food and Drugs concludes that the regulations should be amended as set forth below.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1))) and under authority delegated to the Commissioner (21 CFR 5.1), Part 172 is amended as follows:

1. In § 172.836 by revising paragraph (c)(1) to read as follows:

§ 172.836 Polysorbate 60.

(c) • • •

(1) As an emulsifier in whipped edible oil topping with or without one or a combination of the following:

- (i) Sorbitan monostearate;
- (ii) Polysorbate 65;
- (iii) Polysorbate 80;

whereby the maximum amount of the additive or additives used does not exceed 0.4 percent of the weight of the finished whipped edible oil topping; except that a combination of the additive with sorbitan monostearate may be used in excess of 0.4 percent, provided that the amount of the additive does not exceed 0.77 percent and the amount of sorbitan monostearate does not exceed 0.27 percent of the weight of the finished whipped edible oil topping.

2. In § 172.838 by revising paragraph (c)(3) to read as follows:

§ 172.838 Polysorbate 65.

(c) • • •

(3) As an emulsifier in whipped edible oil topping with or without one or a combination of the following:

- (i) Sorbitan monostearate;
- (ii) Polysorbate 60;
- (iii) Polysorbate 80;

whereby the maximum amount of the additive or additives used does not exceed 0.4 percent of the weight of the finished whipped edible oil topping.

3. In § 172.840 by revising paragraph (c)(9) to read as follows:

§ 172.840 Polysorbate 80.

(c) • • •

(9) As an emulsifier in whipped edible oil topping with or without one or a combination of the following:

- (i) Sorbitan monostearate;
- (ii) Polysorbate 60;
- (iii) Polysorbate 65;

whereby the maximum amount of the additive or additives used does not exceed 0.4 percent of the weight of the finished whipped edible oil topping.

4. In § 172.842 by revising paragraph (c)(1) to read as follows:

§ 172.842 Sorbitan monostearate.

(c) • • •

(1) As an emulsifier in whipped edible oil topping with or without one or a combination of the following:

- (i) Polysorbate 60;
- (ii) Polysorbate 65;
- (iii) Polysorbate 80;

whereby the maximum amount of the additive or additives used does not exceed 0.4 percent of the weight of the finished whipped edible oil topping; except that a combination of the additive with polysorbate 60 may be used in excess of 0.4 percent. *Provided*, That the amount of the additive does not exceed 0.27 percent and the amount of polysorbate 60 does not exceed 0.77 percent of the weight of the finished whipped edible oil topping.

Any person who will be adversely affected by the foregoing regulation may at any time on or before February 21, 1978, submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Four copies of all documents shall be

submitted and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

Effective date: This regulation shall become effective January 20, 1978.

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1)).)

Dated: January 11, 1978.

WILLIAM F. RANDOLPH,  
Acting Associate Commissioner  
for Compliance.

[4110-03]

[Docket No. 75F-0096]

PART 173—SECONDARY DIRECT FOOD ADDITIVES PERMITTED IN FOOD FOR HUMAN CONSUMPTION

Defoaming Agents

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This document amends the regulations for direct food additives to provide for the safe use of polyethylene glycol (400) dioleate as a component in defoaming agents limited to use in processing beet sugar and yeast. This action is in response to a food additive petition submitted by the C. P. Hall Co.

DATES: Effective January 20, 1978; objections by February 21, 1978.

ADDRESS: Written objections to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

John J. McAuliffe, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: A notice published in the FEDERAL REGISTER of July 7, 1975 (40 FR 28502), announced that a food additive petition (FAP 5A3075) had been filed by the C. P. Hall Co., 7300 South Central Avenue, Chicago, Ill. 60638, proposing that § 173.340 (21 CFR 173.340), be amended to provide for the safe use of polyethylene glycol (400) dioleate as a component of defoaming agents used in processing beet sugar and yeast.

The Commissioner of Food and Drugs, having evaluated data in the petition and other relevant material,

concludes that § 173.340 should be amended as set forth below.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1))) and under authority delegated to the Commissioner (21 CFR 5.1), Part 173 is amended in § 173.340 in paragraph (a)(3) by alphabetically inserting a new item in the list of substances to read as follows:

§ 173.340 Defoaming agents.

Substances	Limitations
<p>...</p> <p>Polyethylene glycol (400) dioleate: Conforming with § 172.820(a)(2) of this chapter and providing the oleic acid used in the production of this substance complies with § 172.860 or § 172.862 of this chapter.</p>	<p>...</p> <p>As an emulsifier not to exceed 10 percent by weight of defoamer formulation.</p>

Any person who will be adversely affected by the foregoing regulation may at any time on or before February 21, 1978, submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Four copies of all documents shall be submitted and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

Effective date: This regulation shall become effective January 20, 1978.

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1)).)

Dated: January 11, 1978.

WILLIAM F. RANDOLPH,  
Acting Associate Commissioner  
for Compliance.

[Docket No. 77F-0172]

PART 175—INDIRECT FOOD ADDITIVES: ADHESIVE COATINGS AND COMPONENTS

Resinous and Polymeric Coatings

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This document amends the indirect food additive regulations in § 175.300 *Resinous and polymeric coatings* by providing for the safe use of tetrakis[methylene(3,5-di-*tert*-butyl-4-hydroxyhydrocinnamate)] methane in can-end cements. The Commissioner of Food and Drugs has concluded that such amendment is warranted after having evaluated data in a petition filed by W. R. Grace & Co., Dewey and Almy Chemical Division.

DATES: Effective January 20, 1978; objections by February 21, 1978.

ADDRESS: Objections to this regulation may be filed with the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

John J. McAuliffe, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: A notice published in the FEDERAL REGISTER of July 26, 1977 (42 FR 38017), announced that a food additive petition (FAP 7B3302) had been filed by W. R. Grace & Co., Dewey and Almy Chemical Division, proposing that § 175.300 *Resinous and polymeric coatings* (21 CFR 175.300) be amended to provide for the safe use of tetrakis[methylene(3,5-di-*tert*-butyl-4-hydroxyhydrocinnamate)] methane as an antioxidant at levels not to exceed 0.05 percent by weight of the divinylbenzene cross-linked butyl rubber component of can-end cements.

The Commissioner, having evaluated data in the petition and other relevant material, concludes that § 175.300 should be amended as set forth below.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1))), and under authority delegated to the Commissioner (21 CFR 5.1), Part 175 is amended in § 175.300 by alphabeti-

cally inserting in the list of substances in paragraph (b)(3)(xxxi) a new item, to read as follows:

§ 175.300 Resinous and polymeric coatings.

(b) \* \* \*  
 (3) \* \* \*  
 (xxxi) \* \* \*

Tetrakis[methylene(3,5-di-*tert*-butyl-4-hydroxyhydrocinnamate)] methane for use as an antioxidant at levels not to exceed 0.05 percent by weight of isobutylene-isoprene-divinylbenzene copolymers in the cement.

Any person who will be adversely affected by the foregoing regulation may at any time on or before February 21, 1978, submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Four copies of all documents shall be submitted and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

Effective date: This regulation shall become effective January 20, 1978.

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1)).)

Dated: January 11, 1978.

WILLIAM F. RANDOLPH,  
Acting Associate Commissioner  
for Compliance.

PART 175—INDIRECT FOOD ADDITIVES: ADHESIVE COATINGS AND COMPONENTS

Subpart C—Substances for Use as Components of Coatings

RESINOUS AND POLYMERIC COATINGS

Correction

In FR Doc. 77-25655 appearing on page 44222 in the issue of Friday, September 2, 1977, the 3rd column, the paragraph in small type should read as follows:

2-Ethylhexyl acrylate-ethyl acrylate copolymers prepared by copolymerization of 2-ethylhexyl acrylate and ethyl acrylate in a 7/3 weight ratio and having a number average molecular weight range of 5,800 to 6,500 and a refractive index,  $n_D^{25}$  (40 percent in 2,2,4-trimethyl pentane) of 1.4130-1.4190; for use as a modifier for nylon resins complying with § 177.1500 of this chapter and for phenolic and epoxy resins listed in paragraph (b)(3) (vi) and (viii) of this section, respectively, at a level not to exceed 1.5 percent of the coating.

[Docket No. 77F-0217]

PART 175—INDIRECT FOOD ADDITIVES: ADHESIVE COATINGS AND COMPONENTS

PART 178—INDIRECT FOOD ADDITIVES: ADJUVANTS, PRODUCTION AIDS, AND SANITIZERS

Antioxidants

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This rule amends the food additive regulations to provide for the safe use of 3,5-di-*tert*-butyl-4-hydroxyhydrocinnamic acid triester with 1,3,5-tris(2-hydroxyethyl)-s-triazine-2,4,6(1*H*, 3*H*, 5*H*)-trione as an antioxidant in food-packaging adhesives and certain polyolefin polymers intended for food-contact use. B. F. Goodrich Co. petitioned for the use of this additive.

DATES: Effective January 20, 1978; objections by February 21, 1978.

ADDRESSES: Written objections to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

John J. McAuliffe, Bureau of Foods

(HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: A notice published in the FEDERAL REGISTER of August 16, 1977 (42 FR 41324), announced that a food additive petition (FAP 7B3259) had been filed by B. F. Goodrich Co., 500 South Main Street, Akron, Ohio 44318, proposing that the food additive regulations be amended to provide for the use of 3,5-di-*tert*-butyl-4-hydroxyhydrocinnamic acid triester with 1,3,5-tris(2-hydroxyethyl)-s-triazine-2,4,6(1*H*, 3*H*, 5*H*)-trione as an antioxidant in food-packaging adhesives and certain polyolefin polymers intended for food-contact use.

The Commissioner of Food and Drugs, having evaluated data in the petition and other relevant material, concludes that § 175.105 (21 CFR 175.105) and § 178.2010 (21 CFR 178.2010) should be amended as set forth below.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1))) and under authority delegated to the Commissioner (21 CFR 5.1), Parts 175 and 178 are amended as follows:

1. In Part 175, § 175.105 is amended by alphabetically adding a new item to the list of substances in paragraph (c)(5) to read as follows:

§ 175.105 Adhesives.

Substances	Limitations
<p>...</p> <p>3,5-Di-<i>tert</i>-butyl-4-hydroxyhydrocinnamic acid triester with 1,3,5-tris(2-hydroxyethyl)-s-triazine-2,4,6(1<i>H</i>, 3<i>H</i>, 5<i>H</i>)-trione.</p>	<p>...</p> <p>For use as antioxidant only.</p>

2. In Part 178, § 178.2010 is amended by alphabetically adding a new item to the list of substances in paragraph (b) to read as follows:

§ 178.2010 Antioxidants and/or stabilizers for polymers.

(b) \* \* \*  
 ...

Substances	Limitations
3,5-Di- <i>tert</i> -butyl-4-hydroxyhydrocinnamic acid triester with 1,3,5-tris(2-hydroxyethyl)-s-triazine-2,4,6(1 <i>H</i> , 3 <i>H</i> , 5 <i>H</i> )-trione.	For use only: 1. At levels not to exceed 0.5 pct by weight of polypropylene complying with § 177.1520 of this chapter in articles that contact food not in excess of high temperature heat-sterilized condition of use A described in § 176.170(c) of this chapter, table 2. 2. At levels not to exceed 0.5 pct by weight of polyethylene complying with § 177.1520 of this chapter in articles that contact food not in excess of high temperature heat-sterilized condition of use A described in § 176.170(c) of this chapter, table 2. 3. In adhesives complying with § 175.105 of this chapter.

Any person who will be adversely affected by the foregoing regulation may at any time on or before February 21, 1978, submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Four copies of all documents shall be submitted and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

Effective date: This regulation shall become effective January 20, 1978.

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1)).)

Dated: January 16, 1978.

JOSEPH P. HILE,  
Associate Commissioner  
for Compliance.

[Docket No. 76F-0107]

#### PART 177—INDIRECT FOOD ADDITIVES: POLYMERS

##### Ethylene-Vinyl Acetate-Vinyl Alcohol Polymers

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This document amends the regulations for indirect food additives to provide for the safe use of ethylene-vinyl acetate-vinyl alcohol copolymers intended to contact fatty foods. This action is in response to a food additive petition filed by U.S. Industrial Chemicals.

DATES: Effective January 20, 1978; objections by February 21, 1978.

ADDRESSES: Written objections to the Hearing Clerk HFC-20, Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

#### FOR FURTHER INFORMATION CONTACT:

John J. McAuliffe, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: A notice published in the FEDERAL REGISTER of April 16, 1976 (41 FR 16194) announced that a food additive petition (FAP 5B3114) had been filed by U.S. Industrial Chemical, Cincinnati, Ohio 45237, proposing that § 177.1360 (21 CFR 177.1360) be amended to provide for the use of ethylene-vinyl acetate-vinyl alcohol copolymers as components of food-contact surfaces intended to contact fatty foods under conditions of refrigerated and frozen packaging and storage.

The Commissioner of Food and Drugs, having evaluated data in the petition and other relevant material, concludes that § 177.1360 should be amended as set forth below.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1))) and under authority delegated to the Commissioner (21 CFR 5.1), Part 177 is amended by revising § 177.1360 to read as follows:

§ 177.1360 Ethylene-vinyl acetate-vinyl alcohol copolymers.

Ethylene-vinyl acetate-vinyl alcohol copolymers (CAS Registry No. 26221-27-2) may be safely used as articles or components of articles intended for use in contact with food in accordance with the following prescribed conditions:

(a) Ethylene-vinyl acetate-vinyl alcohol copolymers are produced by the partial or complete alcoholysis or hydrolysis of those ethylene-vinyl acetate copolymers complying with § 177.1350. Those copolymers containing a minimum of 55 percent ethylene and a maximum of 30 percent vinyl alcohol units by weight may be used in contact with foods as described in paragraph (b) of this section. Those copolymers containing a minimum of 55 percent ethylene and a maximum of 15 percent vinyl alcohol units by weight may be used in contact with foods as described in paragraph (c) of this section.

(b) The finished food contact articles shall not exceed 0.005 inch thickness and shall contact foods only of the types identified in table 1 of § 176.170(c) of this chapter in categories I, II, IV-B, VI, VII-B, and VIII under the conditions of use D through G described in table 2 of § 176.170(c) of this chapter. *Provided*, That film samples of 0.005 inch thickness representing the finished article meet the following extractives limitation when tested by ASTM Method F34-63T:

(1) The film when extracted with distilled water at 70° F for 48 hours yields total extractives not to exceed 0.03 milligram per square inch of food-contact surface.

(2) The film when extracted with 50 percent alcohol at 70° F for 48 hours yields total extractives not to exceed 0.04 milligram per square inch of food-contact surface.

(c) The finished food contact article shall not exceed 0.003 inch thickness and shall contact foods only of the types identified in table 1 of § 176.170(c) of this chapter in categories III, IV-A, V, VII-A, and IX under the conditions of use F and G described in table 2 of § 176.170(c) of this chapter. *Provided*, That film samples of 0.003 inch thickness representing the finished articles meet the following extractives limitation when tested by ASTM Method F34-63T:

(1) The film when extracted with *n*-heptane at 100° F for 30 minutes yields total extractives not to exceed 0.05 milligram per square inch of food-contact surface, after correcting the total extractives by dividing by a factor of five.

Title 24—Housing and Urban Development

#### CHAPTER VIII—LOW INCOME PUBLIC HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-77-311]

#### PART 803—SECTION 23 HOUSING ASSISTANCE PAYMENTS PROGRAM

#### PART 888—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—FAIR MARKET RENTS AND CONTRACT-RENT AUTOMATIC ANNUAL ADJUSTMENT FACTORS

Amendment of Schedule B—Section 8 Existing Housing and Section 23 Existing Housing

AGENCY: Department of Housing and Urban Development (HUD).

ACTION: Final rule.

SUMMARY: HUD is amending for certain market areas the Schedule that sets forth the fair market rents for the section 23 and section 8 housing assistance payments programs for existing housing. These amendments are being made to correct typographical or proofreading errors which occurred in the preparation of the last publication, and also, amendments are being made in response to public and HUD field office comments on the May publication.

EFFECTIVE DATE: January 20, 1978.

#### FOR FURTHER INFORMATION CONTACT:

Bernard Horn, Acting Director, Office of Economic and Market Analysis, PD&R, HUD, Washington, D.C. 20410, 202-755-5816.

SUPPLEMENTARY INFORMATION: On May 4, 1977, HUD published for comment a revised schedule for existing housing fair market rents. To avoid delay in providing needed rent increases while the comments were being considered, HUD published the proposed schedule for effect without change on July 1, 1977, effective March 29, 1977. In the preamble to the July 1 publication, however, HUD announced that additional amendments to the schedule would be made once all comments received were analyzed.

On August 23, these additional amendments were published for effect.

Other amendments for certain specified localities are now being published for effect to correct typographical or proofreading errors which occurred in the preparation of the last publication. In addition, amendments are being published in response to public and HUD field office comments which were received in response to the May publication inviting comments but which were received too late for HUD to consider in connection with the August 23 publication. Since these additional amendments are based on comments received in response to the May 4 publication, HUD has determined that it is not necessary to publish again for comment.

A finding of inapplicability regarding the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A copy of this finding of inapplicability will be available for public inspection during regular business hours at the office of the Rules Docket Clerk, Office of the General Counsel, Room 5218, Department of Housing and Urban Development, 451 Seventh Street SW, Washington, D.C. 20410. It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with Executive Order 11821.

Accordingly, Title 24, Part 888, Schedule B and Part 803, Schedule B are revised for the specified market areas as set forth below.

(Sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d)).)

Issued at Washington, D.C., January 12, 1978.

LAWRENCE B. SIMONS,  
Assistant Secretary for Housing—Federal Housing Commissioner.

#### SCHEDULE B—FAIR MARKET RENTS FOR EXISTING HOUSING (INCLUDING HOUSING FINANCE AND DEVELOPMENT AGENCIES PROGRAM)

NOTE.—The Fair Market Rents for five and six bedroom units are calculated as follows:

- (1) Five bedrooms—150 percent of two bedroom fair market rent;
- (2) Six bedrooms—175 percent of two bedroom fair market rent.

(d) The provisions of this section are not applicable to ethylene-vinyl acetate-vinyl alcohol copolymers used in the food packaging adhesives complying with § 175.105 of this chapter.

Any person who will be adversely affected by the foregoing regulation may at any time on or before February 21, 1978, submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Four copies of all documents shall be submitted and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

Effective date: This regulation shall become effective January 20, 1978.

(Sec. 409(c)(1), 72 Stat. 1788 (21 U.S.C. 348(c)(1)).)

Dated: January 16, 1978.

JOSEPH P. HILE,  
Associate Commissioner  
for Compliance.

# Title 42—Public Health

## CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Updating Current Regulations

AGENCY: Public Health Service, HEW.

ACTION: Rule.

SUMMARY: This document amends the Code of Federal Regulations by deleting certain parts and subparts. The amendments are necessary because certain provisions are obsolete, in some cases due to the expiration of statutory authorizations. The effect of the amendments will be to update the current regulations of the Public Health Service.

EFFECTIVE DATE: January 20, 1978.

### FOR FURTHER INFORMATION CONTACT:

Mr. Joseph Moran, Regulations Officer, 5600 Fishers Lane, Room 17A-55, Rockville, Md. 20857. Phone: 301-443-6330.

### SUPPLEMENTARY INFORMATION:

#### PART 1—AVAILABILITY OF RECORDS AND INFORMATION [DELETED]

Part 1 was promulgated in 1956 (21 FR 9805) before the passage of the Freedom of Information Act (5 U.S.C. 552) and Privacy Act of 1974 (5 U.S.C. 552a) and the provisions of Part 1 governing the general availability of records and information of the Service have been superseded by Departmental regulations, procedures, and policies implementing such statutes (see 45 CFR Parts 5 and 5b). Part 1 is therefore obsolete and unnecessary. There-

fore, Part 1 is removed from Title 42 of the Code of Federal Regulations.

#### PART 23—NATIONAL HEALTH SERVICE CORPS

Subpart B—Grants to Assist Entities with National Health Service Corps Personnel [Deleted]

The statutory authority for appropriations for grants to assist entities with assigned National Health Service Corps personnel has expired. Therefore, Subpart B of Part 23 is removed from Title 42 of the Code of Federal Regulations.

#### PART 33—NARCOTIC ADDICTS [DELETED]

Part 33 governed the treatment of narcotic addicts at the Lexington, Ky. and Fort Worth, Tex., Public Health Service Hospitals. Those facilities have now been closed and the regulations are no longer needed. Therefore Part 33 is removed from Title 42 of the Code of Federal Regulations.

**PART 51—GRANTS TO STATES FOR COMPREHENSIVE PUBLIC HEALTH SERVICES**  
**Subpart A—Grants to States for Comprehensive Health Planning [Deleted]**

The program of grants to States for comprehensive health planning under section 314(a) of the Public Health Service Act, 42 U.S.C. 246(a), has been superseded by pertinent provisions of Title XV of the Public Health Service Act, 42 U.S.C. 300k-1 et seq. Subpart A of Part 51 is therefore obsolete. Accordingly, Subpart A of Part 51 is removed from Title 42 of the Code of Federal Regulations, and the heading of Part 51 is amended to read "Grants to States for Comprehensive Public Health Service."

**PART 56B—GRANTS FOR REGIONAL MEDICAL PROGRAMS [DELETED]**

The statutory authority for appropriations for grants for Regional Medical Programs has expired. Therefore, Part 56b is removed from Title 42 of the Code of Federal Regulations.

**PART 57—GRANTS FOR CONSTRUCTION OF TEACHING FACILITIES, EDUCATIONAL IMPROVEMENTS, SCHOLARSHIPS AND STUDENT LOANS**

The statutory authorities for appropriations for a number of programs under Part 57 have expired. Therefore, the heading of Part 57 is amended to read "Grants for Construction of Teaching Facilities, Educational Improvements, Scholarships and Student Loans," and the following subparts of Part 57 are removed from Title 42, Code of Federal Regulations:

**Subpart H—Grants To Improve the Quality of Training Centers for Allied Health Professionals [Deleted]**

**Subpart L—Special Project Grants to Schools of Medicine, Dentistry, Osteopathy, Optometry, Podiatry, Pharmacy and Veterinary Medicine [Deleted]**

**Subpart N—Grants for Conversion of 2-Year Schools of Medicine [Deleted]**

**Subpart Q—Grants to Hospitals for Training, Traineeships and Fellowships in Family Medicine [Deleted]**

**Subpart AA—Grants for Health Manpower Education Initiative Projects [Deleted]**

**Subpart CC—Grants To Assist Medical and Dental Schools in the District of Columbia [Deleted]**

**PART 58—GRANTS FOR PUBLIC HEALTH**

The statutory authority for Part 58 has been terminated. Therefore, Part 58 is removed from Title 42 of the Code of Federal Regulations.

**NOTE.**—The Department of Health, Education, and Welfare has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

Dated: December 15, 1977.

**JULIUS B. RICHMOND,**  
*Assistant Secretary for Health.*

Approved: January 11, 1978.

**JOSEPH A. CALIFANO, JR.,**  
*Secretary.*

[FR Doc. 78-1405 Filed 1-19-78; 8:45 am]

**[4110-39]**

**Title 45—Public Welfare**

**CHAPTER XIV—NATIONAL INSTITUTE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE**

**Part 1451—BASIC SKILLS RESEARCH GRANTS PROGRAM**

**Final Rule for Awarding Federal Funds**

**AGENCY:** National Institute of Education, Department of Health, Education, and Welfare.

**ACTION:** Final rule.

**SUMMARY:** This rule amends the basic skills research grants program by adding mathematics learning and literacy (writing skills and reading comprehension) as new research subjects. Editorial changes have been made to simplify the description of eligible research areas and to provide applicants with an address from which application information may be secured.

**EFFECTIVE DATE:** As required by section 431(d) of the General Education Provisions Act, as amended (20 U.S.C. 1232(d)), these regulations have been transmitted to the Congress concurrently with the publication of this document in the FEDERAL REGISTER. That section provides that regulations subject thereto shall become effective on the forty-fifth day following the date of such transmission, subject to the provisions therein concerning Congressional action and adjournment.

**FOR FURTHER INFORMATION CONTACT:**

Richard Werksman, Regulations Officer, OAM, National Institute of Education, 1200 19th Street NW., Washington, D.C. 20208, 202-254-7924.

**SUPPLEMENTARY INFORMATION:** Under the authority of section 405 of the General Education Provisions Act, as amended (20 U.S.C. 1221e), a notice of proposed rulemaking which set forth proposed amendments to the basic skills research grants program (45 CFR Part 1451) was published in the FEDERAL REGISTER on September 30, 1977 (42 FR 52448). Interested persons were invited to submit written comments concerning the proposed rule. One comment was received. A summary of the comment and the response to it is shown below.

**Comment.** The comment suggested that the program be structured "for

research, investigation, promotion, innovation, administration, teaching" of automated arithmetic systems at all education levels and in cooperation with other departments and organizations.

**Response.** No change has been made. The intent of the program is to focus fundamental research on the six selected areas which are described. Proposals for research on the subject described by the commenter could be appropriately considered under § 1451.5(a)(3), the mathematics learning area.

**Other changes.** The only change is correction of a typographical error in § 1451.6(c).

**APPLICATION INFORMATION**

The National Institute of Education is not inviting applications in response to this regulation at this time. A notice of closing date, including application information, was published in the FEDERAL REGISTER on September 30, 1977 (42 FR 52491). Program information is available from the Basic Skills Group, Room 819, National Institute of Education, 1200 19th Street NW., Washington, D.C. 20208, 202-254-5766.

**NOTE.**—The National Institute of Education has determined that this document does not contain a major proposal requiring preparation of an inflationary impact statement under Executive Order 11821 and OMB Circular A-107.

(Catalog of Federal Domestic Assistance No. 13.950, Educational Research and Development.)

Dated: November 16, 1977.

**PATRICIA ALBJERG GRAHAM,**  
*Director,*  
*National Institute of Education.*

Approved: January 13, 1978.

**JOSEPH A. CALIFANO, JR.,**  
*Secretary, Health,*  
*Education, and Welfare.*

Title 45, Subchapter B of Chapter XIV, Part 1451, of the Code of Federal Regulations is amended as follows:

1. Section 1451.5 is amended to read as follows:

§ 1451.5 Eligible research projects.

(a) **Eligible research areas.** An application submitted for a grant under this part must involve research in one of the following selected areas:

(1) **Teaching.** Investigations on the nature of teaching and ways to improve teaching effectiveness.

(2) **Literacy.** Investigations on writing skills, written materials, and reading comprehension.

(3) **Mathematics learning.** Investigations of the nature of mathematical tasks and on the development of mathematical concepts and processes.

(4) **Measurement.** Investigations to improve measurement procedures in basic skills.

(5) **Methodology.** Investigations to improve the quality of results in educational research through studies of methodological problems.

(6) **Law and education.** Investigations of the influence of judicial and legislative activities on educational quality.

(b) **Eligible research processes.** Projects that involve research in one of the selected areas described in paragraph (a) of this section may be carried out using any research process other than those specified in § 1451.6.

2. Section 1451.6(c) is amended to correct a typographical error and should read as follows:

§ 1451.6 Ineligible projects.

• • • • •

(c) Course development through the production of a new curriculum or the improvement of an existing curriculum, including the preparation of new instructional material or the modification of instructional material already in existence.

• • • • •

3. Section 1451.7 is amended to read as follows:

§ 1451.7 Application requirements.

(a) Applicants must submit an application in the form, and containing the detailed information, prescribed by the Director.

(b) Applicants for grants under this part may obtain application information from the Basic Skills Group, National Institute of Education, 1200 19th Street NW., Washington, D.C. 20208.

**CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION**  
(Docket No. 21370)

**PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS: GENERAL RULES AND REGULATIONS**

**Making Frequency 156.250 MHz Available for Port Operations Purposes in Certain Coast Guard Designated Vessel Traffic Services Radio Protection Areas; Correction**

**AGENCY:** Federal Communications Commission.

**ACTION:** Errata.

**SUMMARY:** Correction of certain errors contained in the report and order amending the rules to make the frequency 156.250 MHz available for port operations purposes in certain Coast Guard designated vessel traffic services radio protection areas.

**EFFECTIVE DATE:** January 24, 1978.

**ADDRESSES:** Federal Communications Commission, Washington, D.C. 20554.

**FOR FURTHER INFORMATION CONTACT:**

Robert McNamara, Safety and Special Radio Services Bureau, 202-632-7197.

**SUPPLEMENTARY INFORMATION:**

In the matter of amendment of Parts 2, 81, and 83 of the rules to make the frequency 156.250 MHz available for port operations purposes in certain Coast Guard designated vessel traffic services radio protection areas, Docket No. 21370.

Released: January 16, 1978.

1. In the appendix to the report and order (FCC 77-820) in the above-captioned matter, released December 19, 1977, and published in the FEDERAL REGISTER on December 29, 1977, at 42 FR 64896, the NG footnote in column 8 of the table in § 2.106 was mistakenly numbered NG116, and should be corrected to read NG117.

2. Additionally, in columns 8 and 11 of § 2.106 the services listed were inadvertently printed with the first letter capitalized and all the others in small type. These services should be printed in all capital letters in large block print.

3. In view of the foregoing, § 2.106 is amended as set forth below.

For the Federal Communications Commission.

**WILLIAM J. TRICARICO,**  
*Secretary.*

Part 2 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

Part 2—Frequency Allocations and Radio Treaty Matters; General Rules and Regulations.

In § 2.106 the table is amended by changing the NG footnote in column 8 in the band 154.6375-156.250 MHz to NG117, and in the bands 154.6375-156.250 MHz and 156.250-157.0375 MHz, the services listed in columns 8 and 11 are amended by being printed in all capital letters in large block print, to read as follows:

§ 2.106 Table of frequency allocations.

Band (MHz)	Service	OF SERVICES NATURE OF SERVICE
7	8	11
***	***	***
154.6375 - 156.250	LAND MOBILE - (NC117)	PUBLIC SAFETY.

[Docket No. 21410; RM-2935]

**PART 73—RADIO BROADCAST SERVICES**

**FM Broadcast Station in Alexandria, Ind.; Changes Made in Table of Assignments**

**AGENCY:** Federal Communications Commission.

**ACTION:** Memorandum opinion and order.

**SUMMARY:** Action taken herein reverses earlier action and assigns a class A FM channel to Alexandria, Ind., as that community's first FM assignment. Petitioner, Triplett Broadcasting Co., Inc., states that the proposed station would provide Alexandria with a first full-time local aural broadcast service.

**EFFECTIVE DATE:** March 6, 1978.

**ADDRESSES:** Federal Communications Commission, Washington, D.C. 20554.

**FOR FURTHER INFORMATION CONTACT:**

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

**SUPPLEMENTARY INFORMATION:**  
**MEMORANDUM OPINION AND ORDER**  
(PROCEEDING TERMINATED)

Adopted: January 10, 1978.

Released: January 12, 1978.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Alexandria, Ind.), Docket No. 21410, RM-2935.

1. The Commission herein reconsiders, on its own motion, a report and order adopted December 19, 1977, Docket No. 21410, denying the request of Triplett Broadcasting Co., Inc. ("petitioner"), proposing the assignment of FM channel 244A to Alexandria, Ind., as a first FM assignment to that community. No oppositions were filed to the proposal.

2. The Commission issued a notice of proposed rule making seeking comments on the proposal. The Commission failed to receive comments from petitioner and, consistent with our policy and procedures set forth in the appendix to the notice, refrained in the report and order from making the assignment to Alexandria in the absence of an expression of continuing interest. Upon receipt of the report and order, petitioner informed the Commission that timely comments were filed reiterating his continuing interest and intention to apply for the

<sup>1</sup>42 FR 55105, 42 FR 64914, December 29, 1977.

<sup>2</sup>The Commission's records do not show that this statement was received.

channel, if assigned, and submitted, by mail, a copy of his comments.

3. We believe that the public interest would be served by the assignment of channel 244A to Alexandria, Ind., since this assignment would provide the community an opportunity to obtain its first full-time aural broadcast service. Further, since the channel would have been assigned earlier had it not been for the lack of an expression of interest, now that we have a copy of petitioner's timely expression of interest, we believe that a reversal of our earlier denial of the petition is warranted and we will assign channel 244A to Alexandria, Ind.<sup>3</sup>

4. The Canadian Government has given its concurrence to the assignment at Alexandria, Ind.

5. Accordingly, it is ordered, That effective March 6, 1978, the FM Table of Assignments (§ 73.202(b) of the Commission's rules) is amended as to the named community to read as follows:

<sup>3</sup>Transmitter site shall be located at least 8 kilometers (5 miles) west of the community.

City Alexandria, Ind. Channel No. 244A

6. Authority for the action taken herein is found in sections 4(i), 5(d)(1), 303 (g) and (r), 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

7. It is further ordered, That this proceeding is terminated.

For the Federal Communications Commission.

WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

## proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

#### [3410-37]

#### DEPARTMENT OF AGRICULTURE

Food Safety and Quality Service

[9 CFR Parts 317, 381]

NET WEIGHT LABELING

Public Hearing

AGENCY: Food Safety and Quality Service, USDA.

ACTION: Notice of public hearing.

SUMMARY: This document announces a public hearing to be held concerning proposed amendments to the Federal Meat and Poultry Inspection Regulations on uniform labeling requirements and uniform procedures for determining compliance with label statements of net contents of containers of meat or poultry products.

DATE: Public hearing to be held on February 9, 1978, beginning at 10 a.m.

ADDRESSES: Public hearing to be held in Room 218-A, Administration Building, Department of Agriculture, 12th and Independence Avenue, SW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Dr. W. J. Minor, Chief Staff Officer, Issuance Coordination Staff, Scientific and Technical Services, Meat and Poultry Inspection Program, Food Safety and Quality Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-6189.

SUPPLEMENTARY INFORMATION: On December 2, 1977, there appeared in the FEDERAL REGISTER (42 FR 61279-61284) a notice that the Food Safety and Quality Service is considering amendments to the Federal Meat and Poultry Inspection Regulations concerned with uniform labeling requirements and uniform procedures for determining compliance with label statements of net contents of containers of meat or poultry products. The amendments, if implemented, would provide for more specific reasonable variations with respect to the statement of quantity of contents on labeling for meat and poultry products.

Comments and views expressed on the proposed amendments to the regulations indicate they have evoked widespread interest with opinions differing on the desirability of the proposal's provisions, and their effects on products and consumers if implemented.

The Administrator has concluded, therefore, that these circumstances require that further information and data be available to the fullest extent possible on the subject matter for consideration prior to decisions with respect to these proposed regulations. To foster the assembly of such information, the Administrator has scheduled a public hearing to consider the proposed amendments. The hearing will be held on February 9, 1978, beginning at 10 a.m., in Room 218-A, Administration Building, Department of Agriculture, 12th and Independence Avenue SW., Washington, D.C. At the hearing, the Administrator of the Food Safety and Quality Service, who will serve as chairman, will present a statement explaining the purpose and basis of the proposal. Any interested person may appear and be heard either in person or by a representative. Individual presentations should be scheduled in advance. To make a reservation to speak at the hearing, contact, Dr. W. J. Minor, Chief Staff Officer, Issuance Coordination Staff, Meat and Poultry Inspection Program, Food Safety and Quality Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-6189. A written copy of a speaker's comments should be given to the chairman prior to the speaker's oral presentation but is not required to be read into the record. Individuals making presentations may verbally summarize or emphasize certain points of their written comments. Opportunity will be provided for the chairman or other governmental officials at the hearing to comment upon or ask questions about each presentation made. The time for oral presentations and questions may be limited at the discretion of the chairman in order to give all persons at the hearing an opportunity to be heard. Transcripts of the oral hearing will be made, and copies of the transcripts and any written comments submitted at the hearing will be made a part of the record in this rulemaking proceeding and will be available for public inspection together with all other comments received in this proceeding.

Any interested person who desires to submit written data, views, or arguments on the proposal may do so by filing the same, in duplicate, on or before March 2, 1978, with the Hearing Clerk, U.S. Department of Agriculture, Room 1077, South Agriculture Building, Washington, D.C. 20250, or with the presiding officer at the hearing.

Comments should be addressed to Mr. John E. Shockey, Chief Counsel, Comptroller of the Currency, Washington, D.C. 20219.

ing. A copy of the net weight proposal may be obtained without charge from the Office of Information, Food Safety and Quality Service, U.S. Department of Agriculture, Washington, D.C. 20250.

After consideration of all information presented at the hearing and submitted pursuant to this notice and the notice of December 2, 1977, and any other information available to the Department, a determination will be made as to whether the regulations will be amended as proposed.

Done at Washington, D.C., on January 16, 1978.

ROBERT ANGELOTTI,  
Administrator,

Food Safety and Quality Service.

#### DEPARTMENT OF THE TREASURY

Comptroller of the Currency

[12 CFR Part 7]

OTHER REAL ESTATE OWNED

Proposed Revision to Interpretive Ruling

AGENCY: Comptroller of the Currency.

ACTION: Proposed revision to interpretive ruling.

SUMMARY: The purpose of this proposed revision is to ensure that national banks record the value of real estate which is received from a defaulted debtor. In a troubled debt restructuring, a national bank in its capacity as a creditor, will account for assets received, including real estate, in satisfaction of a receivable in a fashion which is consistent with generally accepted accounting principles as reflected in the Financial Accounting Standards Board's Statement of Financial Accounting Standards No. 15, paragraphs 29 and 91. In the current version of the interpretive ruling it is not clear that the value of real estate acquired in a troubled debt situation be treated in accordance with generally accepted accounting principles.

EFFECTIVE DATE: Written comments must be received on or before February 21, 1978.

ADDRESS: Comments should be addressed to Mr. John E. Shockey, Chief Counsel, Comptroller of the Currency, Washington, D.C. 20219.

FOR FURTHER INFORMATION CONTACT:

Albert L. Elder III, Staff Attorney, Office of the Comptroller of the Currency, Washington, D. C. 20219. 202-447-1880.

**SUPPLEMENTARY INFORMATION:** The current version of 7.3025 permits "other real estate owner" to be recorded initially at the lower of cost or fair market value. It also provides that if the book value exceeds the fair market value, the difference must be charged off. The existing interpretive ruling, in addition, notes that if a subsequent increase in fair market value occurs, book value should not be written up beyond the original cost.

Generally accepted accounting principles dictate that after a troubled debt restructuring, a creditor shall account for assets received in satisfaction of a receivable the same as if the assets had been acquired for cash. The fair value at the time of transfer of an asset transferred to a creditor in a troubled debt restructuring is a measure of its cost to the creditor and generally its carrying amount, (except for subsequent depreciation, amortization or writedown), until sale or other disposition of the asset.

In the current version of the interpretive ruling it is not clear that the value of real estate acquired in a troubled debt situation be treated in accordance with generally accepted accounting principles.

In order to insure that real estate obtained from troubled debtors is recorded and subsequently carried on the bank's books in an acceptable manner, the words "the original cost as described in (d)(1) of this section nor" have been removed from the last sentence in section (e) and have been replaced by the words "the amount at which the asset was originally booked or."

Consistent with generally accepted accounting principles, the assets in the "other real estate owned" account which are not acquired by the bank in a troubled debt situation (former banking premises and property originally acquired for future expansion) will continue to be valued at the lower of cost or fair market value. The annual adjustment requirement has been eliminated. However, other than land assets shall be depreciated. Partial or complete charge offs will result with respect to these properties only if the value of the assets is seriously impaired.

Two other minor changes are also proposed. The last sentence of section (c) is deleted. The Comptroller of the Currency intends to use any appropriate supervisory remedies including those enumerated at 12 U.S.C. 1818(b) to enforce the requirements of 12 U.S.C. 29. The sentence to be deleted is considered to be superfluous. In addition, the first sentence in section (h) is deleted and the words "as required by

## PROPOSED RULES

12 U.S.C. 29" are added to the end of the remaining sentence in the section so that it more accurately reflects the language of the statute.

### DRAFTING INFORMATION

The principal drafter of this document was Albert L. Elder III, staff attorney.

### PROPOSED RULING

For the reasons stated above, the Comptroller proposes to amend 12 CFR 7.3025, an interpretive ruling, to read as follows:

#### § 7.3025 Other real estate owned.

(a) "Other real estate owned" is real estate acquired by a national bank:

(1) Through purchases at sales under judgments, decrees or mortgages where the property was security for debts previously contracted;

(2) Through conveyance in satisfaction of debts previously contracted; or

(3) Through purchases to secure debts previously contracted.

(b) Former banking premises and property originally acquired for future expansion, for which banking use is no longer contemplated, will be considered "other real estate owned." A former banking house will be considered "other real estate owned" from the date of relocation to new banking quarters. When real estate is acquired for future expansion, utilization should be accomplished within a reasonable period, which normally will be considered not to exceed three years. After real estate acquired for future expansion has been held for one year, a board resolution with definitive plans for utilization must be available for inspection.

(c) The bank is under an affirmative duty to dispose of "other real estate owned" at a price sufficient to reimburse the bank for its investment and costs of acquisition. However, no national banking association shall hold "other real estate owned" for a period longer than five years. This five year period begins on the date legal title to the property is transferred to the bank except in instances described in paragraph (b) of this section.

(d) "Other real estate owned" should be initially recorded at the lower of cost or fair market value.

(1) Cost includes the unpaid loan balance (excluding accrued and uncollected interest); major replacements or renovations required to make the property salable; assessments; taxes accrued up to the time of acquisition; court costs, legal fees, title and recording fees due in connection with the acquisition; and similar costs incurred in acquiring the property.

(2) Fair market value must be substantiated by a current appraisal prepared by an independent qualified appraiser at the time of acquisition.

(e) The bank must obtain annually a new appraisal or a certification in letter form from an independent appraiser substantiating that the property has not declined in value. In the event that book value exceeds the fair market value, the difference must be charged off; however, if a subsequent increase in fair market value occurs, the book value shall not be written up beyond the amount at which the asset was originally booked or beyond the book value of December 31, 1975, whichever is less.

(f) Current documentation must be maintained reflecting the bank's continuing and diligent efforts to dispose of each parcel of "other real estate owned."

(g) If "other real estate owned" is an unfinished construction or development project, further prudent advances to complete the project may be included in investment cost. However, such additional advances will not be permissible unless the bank maintains on file evidence that the advances will result in a more salable property.

(h) Disposition of the property must occur through public or private sale within five years from the date of acquisition as required by 12 U.S.C. 29.

Dated: December 28, 1977.

JOHN G. HEIMANN,  
Comptroller of the Currency.

### INTERNATIONAL TRADE COMMISSION

[19 CFR Parts 201, 211]

### ENFORCEMENT PROCEDURES; RULES OF PRACTICE AND PROCEDURE

Enforcement, Modification, and Revocation of Final Commission Actions

AGENCY: U.S. International Trade Commission.

ACTION: Proposed rule.

**SUMMARY:** This subpart would establish procedures for the enforcement or revocation of final Commission actions issued under section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), prohibiting unfair methods of competition or unfair acts in the import trade of the United States. At present no such rules exist.

**EFFECTIVE DATE:** Comments by March 21, 1978.

**FOR FURTHER INFORMATION CONTACT:**

Jeffrey M. Lang, 202-523-0493.

Under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337), the Commission is authorized to take action to exclude articles traded in violation of section 337 or to order that the offending practices cease and desist. There are, at present, four exclusion orders outstanding<sup>1</sup> and one consent order outstanding.<sup>2</sup> There are no cease and desist orders in effect at present. These orders are not penal in nature, but rather condition the future conduct of persons affected by them. For this reason, it will be necessary in most cases to adjust these orders changing circumstances.

Such continuing supervision of outstanding orders is contemplated in section 337. Subsection 337(f) ("Cease and Desist Orders") provides, in part—

The Commission may at any time, upon such notice and in such manner as it deems proper, modify or revoke any such order, and, in the case of a revocation, may take action under subsection (d) or (e), as the case may be.

Subsection 337(h) ("Period of Effectiveness") provides—

Except as provided in subsections (f) and (g), any exclusion from entry or order under this section shall continue in effect until the Commission finds, and in the case of ex-

<sup>1</sup>The outstanding orders are—*Convertible Game Tables*, investigation No. 337-TA-2; *Chain Door Locks*, investigation No. 337-TA-5; *Reclosable Plastic Bags*, investigation No. 337-TA-22; *Certain Exercising Devices*, investigation No. 337-TA-24; *Certain Display Devices for Photographs and the Like*, investigation No. 337-TA-30.

<sup>2</sup>*Color Television Receivers*, investigation No. 337-TA-23.

## PROPOSED RULES

clusion from entry notifies the Secretary of the Treasury, that the conditions which led to such exclusion from entry or order no longer exist.

Previously, changes in outstanding orders were made case by case. Now, however, the Commission has a docket of cases sufficient to require procedural rules in this area. Such rules will also serve the objectives of the law by providing a system of standardized procedures, which will encourage compliance with the law.

The basic plan of these proposed regulations is in two parts. First: The regulations authorize the inclusion of information-gathering conditions in any final Commission action under section 337. The scope of this power is provided by 19 U.S.C. 1333, and failure to provide the information required would not only be subject to court action (see 19 U.S.C. 1333(d)), but would also constitute a violation of the final Commission action itself.

Secondly, the regulations detail procedures for the alteration of any final Commission action. Here, a range of actions, from informal advice to quite formal hearings that may result in the maximum remedies available under the law, are set forth.

### SECTION-BY-SECTION DISCUSSION

**Section 211.50.** The "applicability" and "purpose" subsections are mostly self-explanatory. These rules are intended to serve as the basis for all changes in final Commission actions. These rules are not limited to enforcing cease and desist orders. Dissolving orders that have ceased to serve a useful purpose, such as exclusion orders, is also contemplated. The rules also include temporary relief orders, but no other interlocutory orders are included. Final Commission actions have to undergo the rigors in the law relating to appeals (subsec. 337(c)) and Presidential review (subsec. 337(g)). However, this does not mean that when an adversely affected person fails to appeal a final Commission action, or appeals and loses, it may later collaterally attack the original action when that action is altered pursuant to these rules. In such a situation, it would appear that a court challenge, if any, can only attack the changed action.

The rule contains a "savings" provision, which serves to keep while the existing consent order in *Color Television Receivers*, investigation No. 337-TA-23.

**Section 211.51.** The power to gather information relating to the operation of a final Commission action is set out here. Any reporting provided for by law is permitted if it will either "aid the Commission to determine whether and to what extent there is compliance with the action" or "whether and to what extent the conditions which

led to the action are changed." The first of these relates to cease and desist orders.

The second condition, which is adapted from subsection 337(h), may relate to any kind of final Commission action. One example of such changed circumstances is when the holder of a domestic patent ceases to domestically produce articles that are the subject of an exclusion order. In that case, revocation of the exclusion may be in order.

Final Commission actions may also include provisions for gathering information by any other means provided by law, which includes gaining access to records, copying records, and requiring persons to produce books or papers (19 U.S.C. 1333(a)). This rule further provides for the collection of information from voluntary sources.

Under paragraph (b), the Commission is empowered to prescribe the form and detail of reporting. This implements 19 U.S.C. 1333.

Under paragraph (c), information gathering is enforceable in court or by any other means available to enforce the final action. In paragraph (d), discretion is kept to set the term of any informational requirements of a final action. This would allow for the adjustment of reporting requirements to meet the needs of individual cases and changes in international trade.

**Section 211.52** provides that information received pursuant to a final action can be held in confidence. The standards for this are the same as those under § 201.6 of the Commission's rules of practice and procedure. These regulations are not subject to § 201.6, however, since that rule is being simultaneously amended so as not to apply to proposed Subchapter C of these rules. The reference to "statutory functions" in the proposal is also intended to include Commission rules. Keeping the data confidential will encourage better reporting.

**Section 211.53.** This section sets forth enforcement powers and establishes the plan of the remaining sections of this subpart. Paragraphs (b) (1) to (5) inform persons subject to final Commission actions of the steps which may be taken in the exercise of the oversight of final Commission actions. The steps are set out in order of increasing complexity, and each step (except (b)(5), which is self-explanatory) corresponds to one of the next four sections of the regulations. These rules are intended to provide the greatest possible flexibility in enforcing the law. For example, the rules make it possible to avoid excluding articles that are affected by a cease and desist order, unless exclusion is necessary to stop an unfair act or method that is the subject of the cease and desist order.

**Section 211.54.** Advice to persons reporting may be sufficient in some

cases. When a cease and desist order is involved, and compliance with the order is the primary objective of reporting, then advising persons that their reporting evidences noncompliance may be an effective means of getting compliance. The Federal Trade Commission would appear to reserve the right to exercise this option (16 CFR 3.61(a)).

**Section 211.55.** Modification of reporting requirements will facilitate focusing on problems which require special study in order to determine how the oversight function will be exercised. It may also be used to document facts that justify change in a final order. Modifying reporting requirements will also assure compliance with many cease and desist orders. Finally, it will facilitate altering or abolishing reporting schemes that have proved useless, unreasonably burdensome, or undesirable for other reasons. The rule would allow any person to request changes in reporting requirements, which may be handled publicly or not, as conditions warrant.

**Section 211.56** represents a procedural framework for fundamental change in final Commission actions. Such matters may be handled by letter or conference under paragraph (a) or by complaint, followed by answer and then a decision. The formal procedures are adapted from existing rules of other Federal agencies that conduct their own enforcement proceedings short of court action. This rule is aimed primarily at enforcement (by modification or revocation and exclusion) of cease and desist orders, temporary cease and desist orders, and consent orders. (Parties to sec. 337 proceedings who want cease and desist orders or exclusion orders listed or modified may seek modification or revocation by a simpler process of motion and answer under paragraph (c) of this section or by recommendation under § 211.55.)

Upon conclusion of the enforcement process, which may include a hearing, a modified cease and desist order may issue or the existing final Commission action may be replaced with an exclusion order. All such orders are new final Commission actions, subject to court review (although not on the original record of the sec. 337 investigation), Presidential review, bonding, and so-called public interest determinations.

**Section 211.57.** This section provides for temporary relief action. Thus, when patterns of trade are changing rapidly or enforcement is needed immediately to be effective, a cease and desist order could be revoked and temporarily replaced by exclusion or any other temporary measure allowed by the law, if certain criteria are met. It must be "evident" that violations will occur or that temporary measures are

necessary to "accomplish the purpose of section 337." This section applies to all types of final Commission actions.

**Section 211.58.** Notice to Federal agencies is essential to the proper functioning of these rules. Under subsections 337(b), Government agencies have a role in Commission section 337 proceedings. These rules are supplementary to section 337, and therefore the agencies should have a role here, too. Furthermore, advice to the Secretary of the Treasury when an exclusion order of any type is made or revoked is required by subsections 337(d), 337(e), and 337(h).

#### § 201.6 [Amended]

Section 201.6(h) is amended by deleting the words "Part 210".

19 CFR Part 211, Subpart C, is added as follows:

#### Subpart C—Enforcement, Modification, and Revocation of Final Commission Actions

- Sec.  
211.50 Applicability, purpose, and savings.  
211.51 Information gathering.  
211.52 Confidentiality of information.  
211.53 Disposition of information: enforcement powers.  
211.54 Advice to persons submitting information.  
211.55 Modification of information requirements.  
211.56 Proceedings to enforce, modify, revoke, or substitute for final Commission actions.  
211.57 Immediate action.  
211.58 Notice of enforcement action to Government agencies.

**AUTHORITY:** The provisions of this Subpart C are issued under secs. 333, 335, and 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1333, 1335, and 1337).

#### § 211.50 Applicability, purpose, and savings.

(a) **Applicability.** The rules in this subpart apply to "final Commission actions" issued by the Commission under section 337, including exclusion orders, temporary exclusion orders, and cease and desist orders (cease and desist orders shall, for purposes of this subpart, mean cease and desist orders, temporary cease and desist orders, and consent orders).

(b) **Purpose.** The purpose of this subpart is to set forth procedures for the enforcement, modification, and revocation of final Commission actions.

(c) **Savings.** The rules in this subpart shall apply to final Commission actions taken before the effective date of these rules only to the extent not inconsistent with such final actions.

#### § 211.51 Information gathering.

(a) **Power to require information.** Whenever the Commission takes a final Commission action, it may attach to such action (or, in the case of a consent order, approve) terms and conditions requiring any person to report to the Commission facts in that person's

possession that will aid the Commission in determining whether and to what extent there is compliance with the action or whether and to what extent the conditions which led to the action are changed. The Commission may also include (or, in the case of a consent order, approve) provisions that exercise any other information-gathering power available to it by law. The Commission may at any time request the cooperation of any person or agency in supplying the Commission with information that will aid the Commission in achieving the same ends.

(b) **Form and detail of reports.** Reports under subsection (a) of this section may be required to be in writing, under oath, and in such detail and in such form as the Commission prescribes in the order. A final Commission action may also contain terms and conditions which exercise, or make possible the exercise of, on conditions precedent, any power of information gathering available to the Commission by law, subject to the standards of § 211.51(a).

(c) **Power to enforce informational requirements.** Terms and conditions of final Commission actions for reporting and information gathering, and modifications of such terms and conditions, shall be enforceable by the Commission by a civil action in the nature of mandamus pursuant to 19 U.S.C. 1333 or, at the Commission's discretion, in the same manner as any other provision of the final Commission action is enforced.

(d) **Term of reporting requirement.** The Commission may prescribe in the final Commission action (or, in the case of consent orders, approve) frequency of reporting or information gathering and the date on which these activities are to terminate. If no date for termination is provided, reporting and information gathering shall terminate when the final Commission action or any amendment to it expires by its own terms or is terminated. The Commission may modify informational requirements of a final Commission action at any time, pursuant to § 211.53(b)(2) and § 211.55.

#### § 211.52 Confidentiality of information.

In any final Commission action, the Commission may direct that information provided to the Commission pursuant to such action will be received by the Commission in confidence, if disclosure is likely to have the effect of either: (1) Impairing the Commission's ability to obtain such information as is necessary to perform its statutory functions, or (2) causing substantial harm to the competitive position of the person from whom the information was obtained.

#### § 211.53 Disposition of information; enforcement powers.

(a) The Commission will review reports submitted pursuant to any final Commission action and conduct such further investigation as it deems necessary, consistent with the action.

(b) Subsequent to the issuance of a final Commission action, the Commission may, upon request of a person or on its own motion, take any one or a combination of the following actions, in any order or all at once, subject to the requirements of this subpart, as applicable:

(1) Advise persons reporting or providing information whether and to what extent the acts set forth in their information evidence compliance with the final Commission action;

(2) Require further, different, or more frequent reports, or other forms of information gathering, consistent with the law;

(3) Modify or revoke a final Commission action, or substitute a new final Commission action after proceedings;

(4) Take immediate action to modify or revoke a final Commission action, or to substitute a new final Commission action;

(5) Institute appropriate court action to enforce the final Commission action.

#### § 211.54 Advice to persons submitting information.

The Commission may, upon request by any person or in its discretion, decide to advise persons reporting or providing information that it evidences lack of compliance with a final Commission action or constitutes a reason to modify or revoke such action.

#### 211.55 Modification of information requirements.

Any person may recommend that the Commission (or the Commission may on its own motion) order that a person required by the terms and conditions of a final Commission action to report or to provide information or access to information do so other than as prescribed in the final Commission action. The Commission may modify reporting requirements as necessary: (1) To assure compliance with an outstanding action, (2) to take account of changed circumstances, (3) to minimize the burden of reporting or informational access consistent with the objectives of section 337, or (4) on the basis of any combination of the above. A recommendation to modify reporting requirements shall identify the reports involved and state the reason or reasons for modification. No reporting requirement will be suspended during the pendency of such a recommendation unless the Commission orders it. The Commission may, if the public interest warrants, announce that a modification of reporting is under consideration and ask for comment, but it may also modify any reporting requirement at any time without notice, consistent with the standards of this section.

(2) **Parties.** The parties to an enforcement proceeding shall be the Commission (represented by an attorney employed by the Commission), the respondent, and any other person with

an interest sufficient to support intervention in a section 337 investigation under § 210.6 of these rules.

#### § 211.56 Proceedings to enforce, modify, revoke, or substitute for final Commission actions.

(a) **Informal complaints.** Informal complaints may be made in writing with respect to any act done or omitted by any person in violation of any provision of a final Commission action. If warranted, matters so presented may be handled by the Commission through correspondence or conference with the appropriate persons. Any matter not disposed of informally may be made the subject of a formal proceeding pursuant to this subpart. The filing of an informal complaint shall not bar the subsequent filing of a formal complaint.

(b) **Formal complaints.** The Commission may, in order to determine whether a cease and desist order is being violated, institute an enforcement proceeding by docketing a complaint setting forth the alleged violation and, following such proceeding, modify or revoke and enforce the order. The complaint shall be served upon the alleged violator and published in the FEDERAL REGISTER.

(1) **Answer.** Within fifteen (15) days after the date of service of a complaint docketed pursuant to this rule, the named respondent shall file an answer to the complaint. Answers shall fully and completely advise the Commission as to the nature of the defense and shall admit or deny each allegation of the complaint specifically and in detail unless the person complained of is without knowledge, in which case his answer shall so state and the statement shall operate as a denial. Allegations of fact not denied or controverted shall be deemed admitted. Matters alleged as affirmative defenses shall be separately stated and numbered and shall, in the absence of a reply, be deemed to be controverted. Failure of a respondent to file and serve an answer within the time and in the manner prescribed by this rule shall be deemed to authorize the Commission in its discretion to find the facts alleged in the petition to be true and to take such action as may be appropriate without notice or hearing, or, in its discretion, to proceed to take evidence, without notice, of the allegations or charges set forth in the complaint, provided that the Commission (or presiding officer, if one be appointed) may permit late filings of an answer for good cause shown.

(2) **Parties.** The parties to an enforcement proceeding shall be the Commission (represented by an attorney employed by the Commission), the respondent, and any other person with

an interest sufficient to support intervention in a section 337 investigation under § 210.6 of these rules.

(3) **Public hearings.** If, in the judgment of the Commission, there is good and sufficient reason therefor, the Commission, in the course of an enforcement investigation, may hold a public hearing and afford parties the opportunity to appear and be heard. If no notice of public hearing issues concurrently with a notice of investigation, any party who believes that a public hearing should be held may, by February 6, 1978, of the notice of investigation, submit a request in writing to the Secretary of the Commission that a public hearing be held, stating the reasons for such request.

(4) **Written statements.** At any time after a formal complaint under § 211.56(b) is published in the FEDERAL REGISTER, any party may submit to the Commission a written statement of information pertinent to the subject matter of the investigation. If a public hearing is held in the investigation, such statement may be presented in lieu of an appearance at the hearing. Statements shall conform to the requirements for documents set forth in § 201.8 of this chapter.

(5) **Commission action.** Upon conclusion of an enforcement proceeding relating to a cease and desist order, the Commission may modify the cease and desist order in any manner necessary to prevent the unfair practices which were originally the basis for issuing such order, or it may revoke the cease and desist order and direct that the articles concerned, imported by any person violating the provisions of this section, shall be excluded from entry into the United States. Such modification or revocation and exclusion shall not be made if, after considering the effect of such action upon the public health and welfare, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, and United States consumers, the Commission finds that such actions should not be taken. Any such order shall become effective and final as provided in § 210.56 of Part 210 [proposed] for purposes of setting bond (if applicable), appeal, and Presidential review under section 337. The hearings provided for under this section are not subject to §§ 554, 555, 556, 557, and 702 of Title 5, United States Code.

(c) **Modification or dissolution of final Commission actions by motion.** Whenever any party to a section 337 proceeding or an enforcement proceeding under this subpart or any person adversely affected by a final Commission action believes that changed conditions of fact or law, or the public interest, require that a final Commission action be modified or set aside, in

## PROPOSED RULES

By order of the Commission.

KENNETH R. MASON,  
Secretary.

[FR Doc. 78-1590 Filed 1-19-78; 8:45 am]

## [7020-02]

[19 CFR Part 209, 210 and 211]

INVESTIGATIONS OF UNFAIR PRACTICES IN  
IMPORT TRADE

## Supplementary Procedures

AGENCY: United States International  
Trade Commission.

ACTION: Proposed rules.

**SUMMARY:** These proposals would amend Part 210 of the Commission's rules to provide procedures for consent orders and for other purposes. They would further establish a new Part 211 to provide for certain nonadjudicative procedures incident to the exercise of Commission jurisdiction under section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337). The purpose of these rules is to propose regulations to govern these supplemental proceedings. The Commission's rules at present do not provide for these supplemental proceedings.

**EFFECTIVE DATE:** Comments by March 21, 1978.

**FOR FURTHER INFORMATION CONTACT:**

Warren L. Dean, Esq., Office of General Counsel, U.S. International Trade Commission, 701 E Street NW., Washington, D.C., telephone 202-523-0486.

**SUPPLEMENTARY INFORMATION:** In the exercise of its jurisdiction under section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), the Commission is authorized to conduct proceedings supplemental to the formal adjudicative investigations provided for by Part 210 of the Commission's rules of practice and procedure (19 CFR, Part 210). These proceedings may be authorized in part by other statutes, such as the Administrative Procedure Act (5 U.S.C. 551, et seq.) in the case of consent orders, and section 603 of the Trade Act of 1974 (19 U.S.C. 2482) in the case of preliminary investigations, as well as by section 337 itself. The Commission's rules at present do not provide for these supplemental proceedings.

The nature of these proposed amendments to the Commission's rules is to revise the format of Subchapter C to provide for these supplemental procedures, by dividing the subchapter into 3 parts. A new part 209, to provide procedures for the conduct of informal inquiries and preliminary investigations, will be the subject of subsequent rulemaking. Amendments to Part 210 of the Commission's

rules to provide procedures for determining a controversy by consent during the course of an adjudicative investigation are proposed here. Also proposed is a new Part 211, to provide procedures for the Commission's enforcement authority, including determining a controversy by consent during the course of preliminary investigations and informal inquiries.

The following is a section-by-section analysis of the proposed amendments.

SUBCHAPTER C—INVESTIGATIONS OF  
UNFAIR PRACTICES IN IMPORT TRADE

The Subchapter would be retitled to allow for both adjudicative and supplemental procedures necessary for the exercise of the Commission's jurisdiction under section 337.

Part 210—Adjudicative Procedures, this part would be retitled in a manner consistent with the new format of Part 210.

## § 210.14 Consent Order Settlement.

The Commission has determined that it has the authority to afford parties an opportunity to determine a controversy by consent. While section 337 requires the Commission to determine whether there is a violation of section 337, section 5 of the Administrative Procedure Act (5 U.S.C. 554) requires the Commission to afford parties an opportunity to waive their rights to such a determination and determine a controversy by consent and invoke the Commission's basic authority on that basis.

This section would prescribe a procedure whereby the parties could determine a controversy by consent order during the course of a formal adjudication. The proposed consent order agreement would be in the form of a joint motion to terminate the investigation as provided in section 210.51, together with a consent order agreement and proposed consent order as described in § 210.15.

The period proposed for public comment (30 days) concerning the proposed consent order settlement is relatively brief owing to the statutory time constraints for concluding a section 337 investigation. However, the Commission's consideration of the consent order agreement and proposed order would encompass the "public interest" consideration required by section 337 for other Commission action. For the meaning of the brackets, please refer to the analysis of proposed § 210.55.

## § 210.15 Consent Order Agreement.

This section would establish requirements for the consent order agreement by prescribing what must be contained in the agreement to invoke the basic authority of the Commission under section 337. The section also provides that the consent order would have the same force and effect as is provided by statute and regulation for other Commission orders, and provides for the interpretation of the consent order.

## § 210.51 Termination of Investigation.

This section would be amended to provide for licensing agreement settlements and consent order settlements. Termination of an investigation on the basis of such settlements involves determination of the controversy by consent, and a determination of whether there is a violation of section 337

appears not to be necessary. This section would reverse prior Commission practice with respect to licensing agreement settlements.

## § 210.55 Commission Determination and Action.

This section would be amended to provide for publication and transmittal to the President of Commission action as required by section 337(g). The bracketed language in this proposal section and in proposed §§ 210.14, 210.56 and 211.21 includes consent orders in the Commission action required to be transmitted to the President. Deletion of the brackets would allow consent orders to become final without such transmittal to the President. On July 14, 1977, the Commission voted that the proposed consent orders in investigation No. 337-TA-23, Certain Color Television Receiving Sets, be approved. The four commissioners voting were equally divided on the issue of whether the consent orders should be transmitted to the President for his review and possible disapproval for policy reasons, in the manner provided in section 337(g). That section by its terms only applies to determinations of a violation of section 337 and action taken with respect thereto, but section 337(g), as a limitation on the Commission's authority, may apply where the Commission's authority is invoked upon the consent of the parties. Accordingly, public comment is solicited on this issue.

## § 210.56 Effective Date of Commission Action.

This section would further implement section 337(g) by providing that Commission action shall become effective and final in the manner prescribed by the statute. Commission action includes enforcement orders of the Commission, as well as the other Commission action. Transmittal of Commission action is to the Special Representative for Trade Negotiations pursuant to Executive Order. For the meaning of the brackets, please refer to the analysis of proposed § 210.55.

The President has not yet exercised his statutory right to disapprove Commission action under section 337. The Commission at this time is uncertain of what action, if any, it might be authorized to take in response to possible disapproval of Commission action. For example, the President might disapprove an exclusion order and indicate that an appropriate cease-and-desist order would be acceptable, or he might disapprove a consent order in favor of a determination on the merits (assuming consent orders are made subject to Presidential disapproval). The rule allows for such a possibility. The period of Presidential review would be excluded from the statutory period for concluding the Commission's investigation should the President, for example, disapprove of a Commission consent order.

Part 211—Enforcement Procedures, this part would provide procedures for various enforcement actions available to the Commission in the exercise of its jurisdiction under section 337. The part contains three subparts. The first two are set out here. The third is the subject of a separate but simultaneous notice of proposed rulemaking.

## PROPOSED RULES

SUBPART A—INFORMAL ENFORCEMENT  
PROCEDURE

This subpart contains a procedure whereby assurances would be accepted by the Commission that practices in violation of section 337 will not occur, thus disposing of preliminary investigation activity by the Commission.

## § 211.10 Informal Disposition Through Compliance.

This procedure, which avoids the publicity and the potential impact on U.S. foreign relations of consent orders, may be useful in disposing of certain matters which are the subject of preliminary investigative activity by the staff. Opportunity for such informal disposition would be afforded only in a manner consistent with the Commission's public interest responsibilities.

SUBPART B—CONSENT ORDER  
PROCEDURE

This subpart proposes a procedure whereby a person may determine a controversy by consent order prior to the institution of an investigation under section 337 and Part 210.

## § 211.20 Opportunity to Submit Proposed Consent Order.

This section would provide for an opportunity to submit a proposed consent order to the Commission prior to the institution of a formal investigation under section 337 and Part 210, either during the course of a section 603 preliminary investigation or informal investigative activity upon receipt of a complaint under oath as provided in section 337(b). By and with the consent of the parties, the proposal provides that the Commission's authority under section 337 could be invoked prior to the institution of a formal investigation. Where a complaint has been filed under oath this procedure would be available only with the concurrence of the complainant, in light of the complainant's right to institution of an investigation on the basis of such complaint.

## § 211.21 Disposition.

This section would provide a procedure for disposition of consent order agreements submitted prior to the institution of a formal section 337 investigation, which procedure consists of (1) tentative acceptance of the agreement, (2) publication for comment, and (3) final acceptance and issuance of the agreement. Once tentatively accepted by the Commission, the procedure for disposing of the consent order proposal would be similar to that provided in new § 210.14 of Part 210 for such action during the course of a formal section 337 investigation. The rule further provides that a consent order issued by the Commission would become effective and final in the same manner as is provided by law and regulation for other Commission action. For the meaning of the brackets, please refer to the analysis of proposed § 210.55.

In consideration of the above, the following amendments are proposed to Chapter II, Title 19, of the Code of Federal Regulations:

- (1) Subchapter C of 19 CFR Chapter II is retitled Investigations of Unfair Practices in Import Trade;
- (2) Part 209 of Subchapter C, Preliminary Investigations and Procedures, is reserved;

(3) Part 210 of Subchapter C is retitled Adjudicative Procedures;

(4) Present §§ 210.14 and 210.15 of Part 210 are redesignated §§ 210.16 and 210.17 of Part 210, respectively, and present §§ 210.56 and 210.57 of Part 210 are redesignated §§ 210.57 and 210.58 of Part 210, respectively;

(5) New §§ 210.14, 210.15 and 210.56 are added, and present §§ 210.51 and 210.55 are amended; and

(6) New Part 211, Subparts A and B, are added, and new Part 211, Subpart C, is reserved, as follows:

## § 210.14 Consent order settlement.

(a) A proposal to settle a matter by consent order shall be submitted as a motion to terminate an investigation under § 210.51 of this part, together with a consent order agreement and a proposed consent order. Such a motion shall be filed at any time prior to commencement of a hearing as provided in § 210.41(a)(1) of this part jointly by one or more respondents, the Commission investigative attorney, and the complainant (when not the Commission investigative attorney). The Commission may, upon request and for good cause shown, consider such a motion certified to it by the presiding officer during the course of a hearing. The consent order agreement shall comply with the requirements of § 210.15 of this part. A party may not withdraw from the consent order agreement once it has been submitted pursuant to this section.

(b) The presiding officer shall certify the motion to the Commission together with his recommendation within ten (10) days after service of such motion. The filing of the motion shall not stay proceedings before the presiding officer unless the presiding officer or the Commission shall so order. For the purpose of the time limits for the completion of the hearing set forth in § 210.41(e)(1) of this part, there shall be excluded any period of time during which the proceeding is stayed by order of the Commission.

(c) After the motion has been certified to the Commission by the presiding officer the Commission shall promptly publish notice of such motion in the FEDERAL REGISTER and for a period of thirty (30) days thereafter will receive and consider any comments concerning the consent order agreement that may be filed by interested persons. During this period the Commission may conduct such public proceedings with regard to the motion as it deems appropriate. Thereafter, within an additional period of twenty (20) days, the Commission shall either (1) accept the agreement, issue the consent order, and terminate the investigation; (2) reject the agreement and deny the motion; or (3) take such other action as it deems appro-

PROPOSED RULES

prate, after considering the effect of the consent order upon the public health and welfare, competitive conditions in the U.S. economy, the production of like or directly competitive articles in the United States, and U.S. consumers, in the manner provided by § 210.16(a)(4) of this part. The Commission shall publish a statement of reasons in support of its action in the FEDERAL REGISTER, and serve the statement of reasons on all parties. (If accepted by the Commission, the consent order shall become effective and final in the manner provided by § 210.56 of this part.)

(d) Nothing in this section precludes the settlement of an investigation by the adjudicatory process through the filing of admissions pursuant to § 210.21 or § 210.34 of this part, or the submission of the case to the presiding officer on the basis of a stipulation of facts on which a recommended determination can be made.

§ 210.15 Consent order agreement.

(a) Every consent order agreement shall contain, in addition to the appropriate proposed consent order, (1) an admission of all jurisdictional facts; (2) an express waiver of further procedural requirements, including the requirement that the Commission's decision contain a determination of whether there is a violation of section 337; and (3) an express waiver of all rights to seek judicial review or otherwise challenge or contest the validity of the consent order. The consent order agreement may contain a statement that the signing thereof is for settlement purposes only and does not constitute an admission by any party that section 337 has been violated.

(b) The consent order shall have the same force and effect and may be enforced, modified, or revoked in the same manner as is provided in section 337 and Parts 210 and 211 for other Commission action, upon becoming final. Except as otherwise provided in the agreement, the complaint and notice of investigation or the proposed complaint, as the case may be, may be used in construing the terms of the consent order, but no agreement, understanding, representation or interpretation not contained in the consent order agreement or Commission decision accompanying the consent order may be used to vary the terms of the consent order. The Commission may require periodic compliance reports pursuant to subpart C of Part 211 to be submitted by the person entering into the consent order agreement.

§ 210.51 Termination of investigation.

(a) *Motions for termination.* Any party may move at any time for an order to terminate an investigation before the Commission, to terminate the investigation as to all issues in an

investigation in regard to one or more but not all of the respondents, or to terminate the investigation as to any parts of the issues in regard to any or all of the respondents.

(b) *Default.* Upon the occurrence of the condition of default, an investigation before the Commission may be terminated as to one or more of the parties in the investigation.

(c) *Licensing agreement settlement.*

(1) When a complaint is filed alleging patent, trademark, or copyright infringement, a misappropriation of trade secrets or technical knowledge, an investigation before the Commission directed to such subject matter may be terminated as provided in paragraph (a) of this section on the basis of a licensing agreement entered into between the parties (except the Commission investigative attorney). A motion for termination by such parties shall contain copies of the licensing agreement and any agreements supplemental thereto and an affidavit executed by the parties stating that there are no other agreements, written or oral, expressed or implied, between such parties concerning such licensing agreement.

(2) The licensing agreement and affidavit shall be certified by the presiding officer to the Commission with his recommendation. An order of termination based upon such licensing agreement shall not constitute a determination of the Commission under § 210.55 of this part.

(d) *Consent order settlement.* An investigation before the Commission may be terminated as provided in paragraph (a) of this section on the basis of a consent order settlement under § 210.14 of this part. An order of termination based upon such a settlement shall not constitute a determination of the Commission under § 210.55 of this part.

(e) *Effect of termination.* Except as provided in paragraph (c) and (d) of this section, an order of termination issued by the Commission shall constitute a determination of the Commission under § 210.55 of this part, and an order of termination issued by the presiding officer (when not the Commission) shall constitute a recommended determination of the presiding officer under § 210.53 of this part.

§ 210.55 Commission determination and action.

(a) *Review of recommended determination.* Subject to the provisions of § 210.54 of this part, upon receipt of a recommended determination and the record under § 210.53 of this part, the Commission shall review the same and determine, as the case may be, whether there is a violation of section 337 of the Tariff Act or whether there is reason to believe that there is such a violation, and, when appropriate,

whether any action (exclusion of articles from entry, exclusion of articles from entry except under bond, or cease and desist order) should be ordered, the form in which such action should be ordered, and the amount of any bond required.

(b) *When the presiding officer is the Commission.* When the Commission has presided at the taking of evidence, it shall determine, as the case may be, whether there is a violation of section 337 of the Tariff Act or whether there is reason to believe there is such a violation, and, when appropriate, whether any action (exclusion of articles from entry, exclusion of articles from entry except under bond, or cease-and-desist order) should be ordered, the form in which such action should be ordered, and the amount of any bond required.

(c) *Service of Commission determination upon the parties.* A Commission determination shall be served upon each party to the investigation.

(d) *Publication and transmittal to the President.* A Commission determination that there is a violation of section 337 or that there is reason to believe that there is such a violation, together with the action taken, or Commission action taken under [§ 210.14 of this part or] Subpart[s B and] C of Part 211 shall be immediately (1) published in the FEDERAL REGISTER, and (2) transmitted to the Special Representative for Trade Negotiations together with the record upon which the determination and action is based, or, in the case of action taken under [§ 210.14 of this part or] Subpart[s B and] C of Part 211, upon which such action is based.

§ 210.56 Effective date of Commission action.

(a) Commission action, consisting of the Commission determination and action taken under § 210.55 of this part, or, as the case may be, action taken under [§ 210.14 of this part or] Subpart[s B and] C of Part 211, shall, except for the purposes of § 210.61 of this part, be effective upon publication thereof in the FEDERAL REGISTER except that articles directed to be excluded from entry or subject to a cease-and-desist order shall be entitled to entry under bond determined by the Commission until such determination and action become final in the manner specified in paragraphs (b) and (c) of this section.

(b) If the President does not disapprove for policy reasons such Commission action within a period of sixty (60) days after a copy of such Commission action is delivered to the Special Representative for Trade Negotiations, or if the President notifies the Commission before the close of such period that he approves such Commission action, then such Commission

action shall become final on the day after the close of such period, or the day on which the President notifies the Commission of his approval, as the case may be.

(c) If, before the close of such period, the President for policy reasons disapproves the Commission action and notifies the Commission of such disapproval, then effective on the date the Commission receives such notice such Commission action shall have no force or effect, and consistent with the terms of the President's disapproval the Commission may then proceed with the investigation as if such action had never been taken. For the purposes of § 210.17 of this part, there shall be excluded the period of time during which the action was effective.

(d) Final Commission action shall remain in effect as provided in Subpart C of Part 211.

PART 211—ENFORCEMENT PROCEDURES

Subpart A—Informal Enforcement Procedure

Sec.  
211.10 Informal disposition through voluntary compliance.

Subpart B—Consent Order Procedure

211.20 Opportunity to submit proposed consent order.  
211.21 Disposition.

Subpart C—Enforcement Modification and Revocation of Final Commission Action (Reserved)

Subpart A—Informal Enforcement Procedure

§ 211.10 Informal disposition through voluntary compliance.

(a) The Commission, when it has information obtained during the course of any informal inquiry or preliminary investigation under Part 209 indicating that a person may be engaging in a practice which may involve a violation of section 337, may afford such person the opportunity to have the matter disposed of on an informal nonadjudicative basis, if the Commission deems that the public interest factors set forth in paragraph (a)(2) of § 210.16 of Part 210 will be fully safeguarded thereby.

(b) In determining whether the public interest factors set forth in paragraph (a)(2) of § 210.16 of Part 210 will be fully safeguarded through such informal administrative action, the Commission will consider—

- (1) The nature and gravity of the practice;
- (2) Whether the practice is likely to recur;
- (3) The prior record and good faith of the person involved;
- (4) Adequate assurance of voluntary compliance; and
- (5) Any other factor that the Commission deems appropriate.

PROPOSED RULES

Subpart B—Consent Order Procedure

§ 211.20 Opportunity to submit proposed consent order.

(a) Where time, the nature of the proceeding, and the public interest permit, any person being investigated under the provisions of Part 209 or § 210.11(b) of Part 210 shall be afforded the opportunity to submit to the Commission a proposal for disposition of the matter in the form of a consent order agreement executed by or on behalf of such person and complying with the requirements of § 210.15 of Part 210.

(b) The consent order procedure described in this subpart will only be available prior to institution of an investigation as provided in § 210.12 of Part 210. When proceedings have been commenced upon receipt of a complaint pursuant to § 210.10(a) of Part 210, the consent procedure described in this subpart will be available only with the concurrence of the complainant and upon proper application to the Commission to defer the institution of an investigation.

§ 211.21 Disposition.

Upon receiving an executed consent order agreement conforming with the requirements of § 210.15 of Part 210 the Commission shall within twenty (20) days either: (1) Provisionally accept the agreement and proposed consent order, (2) reject the agreement and institute an investigation, or (3) take such other action as it deems appropriate. If the consent order agreement is provisionally accepted the Commission shall: (1) Place the agreement and proposed consent order on the record, (2) publish the consent order agreement in the FEDERAL REGISTER for a period of public comment thereon for thirty (30) days, and (3) make available an explanation of the provisions of the consent order agreement and the relief to be obtained thereby and any other information which it deems helpful in assisting interested persons to understand the terms of the consent order agreement. A person may not withdraw from a consent order agreement once it has been placed upon the record. The Commission will receive and consider any comments, views or recommendations received concerning the agreement and proposed consent order from interested persons during the period of public comment. During this period the Commission may conduct such public proceedings with regard to the agreement and proposed consent order as it deems appropriate. Thereafter, within a period of twenty (20) days the Commission shall either accept the agreement and proposed consent order or withdraw its provisional acceptance after considering the effect of the consent order on the public health and

welfare, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, and United States consumers, in the manner provided by § 210.16(a)(2) of Part 210. The Commission shall publish a statement of reasons in the FEDERAL REGISTER, and serve the statement of reasons on all parties. (If accepted by the Commission, the consent order shall become effective and final in the manner provided by § 210.56 of Part 210.)

By order of the Commission.

Issued: January 17, 1978.

KENNETH R. MASON,  
Secretary.

Correction

In FR Doc. 77-34950 appearing at page 62282 in the issue for Friday, December 9, 1977; the following changes should be made:

1. In the second line of § 101.107(g), third column, page 62286, "dehydrated" should read "rehydrated".
2. In footnote 2 to the table in § 145.115(c)(1)(iii), page 62289, "X<sub>d</sub>" should have a bar over it.
3. In the third line of § 145.120(a)(1), middle column, page 62289, "operational" should read "optional".
4. In footnote 2 to Table 1 in § 145.125(c)(1)(ii), page 62291, "X<sub>d</sub>" should have a bar over it.
5. In Table 2 in § 145.125(c)(1)(ii), page 62291, the heading under "In heavy sirups (ounces)" reading "X<sub>d</sub>" should read "X<sub>e</sub>".
6. On page 62292, in the tenth entry under "Container designation" in the table in § 145.130(c)(1)(ii), "No. 10 (71 whole figs)" should read "No. 10 (70 whole figs)".
7. On page 62294, the last entry in the right-hand column of the table in § 145.145(c)(1)(ii), now reading "25.80", should read "25.85".
8. On page 62295, in the headings for Table 2A in § 145.170(c)(1)(iii), each italicized X should have a bar over it.
9. At the top of page 62296, in the headings for Table 2B in § 145.170(c)(1)(iii), each italicized X should have a bar over it.

10. In the third line of § 145.175(c)(1)(ii), middle column, page 62296, "X<sub>2</sub>" should have a bar over it.

11. In footnote 2 to the table in § 145.185(c)(1)(ii), on page 62298, the italicized X should have a bar over it.

## GELATIN

Affirmation of GRAS Status as a Direct and Indirect Human Food Ingredient; Extension of Comment Period

AGENCY: Food and Drug Administration.

ACTION: Proposed rule; extension of time for comment.

SUMMARY: This document extends to April 9, 1978, the comment period on the Commissioner of Food and Drugs' proposal to affirm the generally recognized as safe (GRAS) status of gelatin as a direct and indirect human food ingredient. The comment period on that proposal expired on January 9, 1978. This action is taken in response to a request for extension of the comment period.

DATE: Written comments by April 9, 1978.

ADDRESS: Written comments (preferably four copies) to the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Corbin I. Miles, Bureau of Foods (HFF-335), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, D.C. 20204, 202-472-4750.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of November 11, 1977 (42 FR 58763), the Commissioner issued a proposal to affirm the generally recognized as safe (GRAS) status of gelatin as a direct and indirect human food ingredient.

On December 19, 1977, a letter was received from the law firm of Riposanu, Joyce, Ahern, Aballi and Diaz-Cruz on behalf of the Gelatin Manufacturers Institute of America (the Institute). This letter requested an extension of the comment period for the GRAS affirmation proposal for gelatin for an additional 90 days, to April 9, 1978. The extension was requested to allow sufficient time for the Institute and its members to prepare comments on the proposed rule.

The Commissioner has decided that the opportunity to comment on GRAS affirmation proposals is an important

part of the GRAS review process, and that an extension to the comment period for this proposal would be appropriate, and that it should be extended to all interested parties.

Accordingly, interested persons may, on or before April 9, 1978, submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written comments (preferably four copies and identified with the Hearing Clerk docket number found in brackets in the heading of this document) regarding the Commissioner's proposal. The envelope containing the comments should be prominently marked "Gelatin." Received comments may be seen in the above-named office between 9 a.m. and 4 p.m., Monday through Friday.

Dated: January 16, 1978.

JOSEPH P. HILE,  
Associate Commissioner for  
Compliance.

## [4110-03]

[21 CFR Parts 610 and 640]  
[Docket No. 77N-0352]

## CITRATE PHOSPHATE DEXTROSE ADENINE SOLUTION

Proposed Addition to List of Approved Anticoagulants

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: The agency is proposing to amend the biologics regulations by adding the anticoagulant citrate phosphate dextrose adenine (CPDA) to the list of approved anticoagulants for Whole Blood (Human) and products derived from Whole Blood (Human). When CPDA is used as the anticoagulant, the permitted storage period for Whole Blood (Human) and Red Blood Cells (Human) may be extended from 21 to 35 days.

DATES: Comments by March 21 1978.

ADDRESS: Written comments to the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Michael L. Hooton or Al Rothschild, Bureau of Biologics (HFB-620), Food and Drug Administration, Department of Health, Education, and Welfare, 8800 Rockville Pike, Bethesda, Md. 20014, 301-443-1920.

SUPPLEMENTARY INFORMATION: The biologics regulations governing Whole Blood (Human) in § 640.4 Collection of blood (21 CFR 640.4) cur-

rently provide for the use of three anticoagulants—citrate dextrose solution (ACD), heparin solution, and citrate phosphate dextrose solution (CPD). The Commissioner of Food and Drugs is proposing to amend (1) § 640.4 to authorize the use of citrate phosphate dextrose solution supplemented with adenine (CPDA) as an additional anticoagulant, (2) § 610.53 Dating periods for specific products (21 CFR 610.53) to provide a dating period of 35 days for Whole Blood (Human) and Red Blood Cells (Human) collected and stored in CPDA, and (3) § 640.7 Labeling (21 CFR 640.7) to include CPDA in blood labeling.

The anticoagulants ACD and CPD containing small amounts of adenine have been shown to extend from 21 to 35 days the period within which whole blood and red blood cells may be safely stored. In Sweden ACD-adenine has been used as an anticoagulant for blood since 1965, and 2 million blood units containing ACD-adenine have been transfused. Similarly, during 1972 ACD-adenine was added to about 10 percent of the blood units collected in West Germany.

Data resulting from the European use and published studies of blood collected in anticoagulants supplemented with adenine demonstrate that:

1. Whole Blood (Human) and Red Blood Cells (Human) stored in anticoagulant supplemented with adenine for 35 days are as safe, potent, and effective as the same products stored in anticoagulant without adenine for 21 days.

2. Red blood cell antigens stored in anticoagulant supplemented with adenine retain their reactivity for compatibility testing during this additional time.

3. There are no reported differences in frequency, severity, or type of adverse reaction from transfusion with blood stored up to 21 days in anticoagulant solutions without adenine and blood stored up to 35 days in anticoagulant solutions supplemented with adenine.

4. There are no reported differences in the yield, stability, safety, potency, or effectiveness of Single Donor Plasma (Human), Cryoprecipitated Antihemophilic Factor (Human), Normal Serum Albumin (Human), Immune Serum Globulin (Human), Plasma Protein Fraction (Human), Fibrinogen, and Factor IX complex (Factors II, VII, IX, and X) derived from blood collected in anticoagulant supplemented with adenine and blood collected in anticoagulant without adenine.

5. The quality of the red blood cells during the extended storage period is improved, an effect which becomes increasingly significant after about 10 days of storage. It is expected also that the use of CPDA will promote ef-

ficient distribution and utilization of blood by reducing waste due to outdating.

The Commissioner therefore concludes that, based on the available data, blood collected and stored in CPDA for 35 days can be expected beyond reasonable doubt to yield its specific results and retain its safety, purity, potency, and effectiveness. The Commissioner is not aware of any data demonstrating the hemostatic effect of Platelet Concentrate (Human) prepared from blood collected in (Human) anticoagulant supplemented with adenine. For this reason, no amendment authorizing the use of Whole Blood (Human) collected in CPDA for the preparation of Platelet Concentrate (Human) is being proposed at this time. It should be noted that CPDA is not proposed for use in blood products collected by plasmapheresis. The anticoagulant CPDA increases the stability of red blood cells in whole blood. Because the red blood cells are returned during a plasmapheresis procedure, there is no need for this anticoagulant in blood collected during plasmapheresis.

The background data and information on which the Commissioner relies in proposing this regulation are on file with the Hearing Clerk, Food and Drug Administration, and include the following references:

Therefore, under the Public Health Service Act (sec. 351, 58 Stat. 702 as amended (42 U.S.C. 262)) and under authority delegated to him (21 CFR 5.1), the Commissioner proposes to amend Parts 610 and 640 of Subchapter F of Title 21 of the Code of Federal Regulations to read as follows:

1. In Part 610 by amending § 610.53 by revising the items, Red Blood Cells (Human) and Whole Blood (Human), to read as follows:

§ 610.53 Dating periods for specific products.

Red Blood Cells (Human):

(a) Twenty-one days from date of collection of source blood, provided labeling recommends storage between 1° and 6° C and the hermetic seal is not broken during processing. § 610.51 does not apply.

(b) Thirty-five days from date of collection of source blood, when collected and stored with anticoagulant citrate phosphate dextrose adenine solution, provided labeling recommends storage between 1° and 6° C and the hermetic seal is not broken during processing. § 610.51 does not apply.

(c) Twenty-four hours after plasma removal, provided labeling recommends storage between 1° and 6° C if the hermetic seal is broken during processing. § 610.51 does not apply.

(d) Frozen: Three years, provided labeling recommends storage at -65° C or colder.

(e) Twenty-four hours after removal from storage at -65° C or colder, provided labeling recommends storage between 1° and 6° C. § 610.51 does not apply.

Whole Blood (Human) collected in:

(a) ACD solution. Twenty-one days, provided labeling recommends storage between 1° and 6° C. § 610.51 does not apply.

(b) Heparin solution. Forty-eight hours, provided labeling recommends storage between 1° and 6° C. § 610.51 does not apply.

(c) CPD solution. Twenty-one days, provided labeling recommends storage between 1° and 6° C. § 610.51 does not apply.

(d) CPDA solution. Thirty-five days, provided labeling recommends storage between 1° and 6° C. § 610.51 does not apply.

2. In Part 640:

a. In § 640.4 by adding new paragraph (d)(4) to read as follows:

640.4 Collection of the blood.

(d) \*\*\*

(4) Anticoagulant citrate phosphate dextrose adenine solution (CPDA).

Tri-sodium citrate (Na<sub>3</sub>C<sub>6</sub>H<sub>5</sub>O<sub>7</sub> · 2 H<sub>2</sub>O) 26.3 gm.

Citric acid (C<sub>6</sub>H<sub>8</sub>O<sub>7</sub> · H<sub>2</sub>O) 3.27 gm.

Dextrose (C<sub>6</sub>H<sub>12</sub>O<sub>6</sub> · H<sub>2</sub>O) 31.9 gm.

Monobasic sodium phosphate (NaH<sub>2</sub>PO<sub>4</sub> · H<sub>2</sub>O) 2.22 gm.

Adenine (C<sub>5</sub>H<sub>5</sub>N<sub>5</sub>) 0.275 gm.

Water for injection (U.S.P.) to make 1,000 ml.

Volume per 100 ml. blood, 14 ml.

b. In § 640.7 by adding a new item (iv) to paragraph (b)(1) to read as follows:

§ 640.7 Labeling.

(b) Anticoagulant—(1) \*\*\*

(iv) Either "CPDA" or "citrate phosphate dextrose adenine solution".

c. In § 640.22 by revising paragraph (a) to read as follows:

§ 640.22 Collection of source material.

(a) Whole blood used as the source of Platelet Concentrate (Human) shall be collected as prescribed in § 640.4, except that paragraphs (d) (2) and (4) and paragraph (h) shall not apply.

Interested persons may, on or before March 21, 1978 submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857; written comments regarding this proposal. Four copies of all comments shall be submitted, except that individuals may submit single copies of comments, and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

NOTE.—The Food and Drug Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821 (as amended by Executive Order 11949) and OMB Circular A-107. A copy of the economic impact assessment is on file with the Hearing Clerk, Food and Drug Administration.

Dated: January 16, 1978.

JOSEPH P. HILE,  
Associate Commissioner for  
Compliance.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 301]

[LR-265-74]

ANNUAL REGISTRATION FOR EMPLOYEE RETIREMENT BENEFIT PLANS

Proposed Rulemaking

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to the requirement that the plan administrator of an employee retirement benefit plan annually report information relating to plan participants who separate from service covered by the plan and are entitled to a deferred vested retirement benefit under the plan, but are not paid this retirement benefit. This document also contains proposed regulations relating to the requirement that the plan administrator report certain changes in plan status, and proposed regulations relating to amounts imposed for failure to file with the Internal Revenue Service certain information required in connection with employee retirement benefit plans. Changes in the applicable tax law were made by the Employee Retirement Income Security Act of 1974 ("ERISA"). These regulations would provide plan administrators and employers with the guidance needed to comply with ERISA, and would also affect plan participants who separate from service covered by an employee retirement benefit plan and are entitled to a deferred vested retirement benefit under the plan.

DATES: Written comments and requests for public hearing are to be delivered or mailed by March 6, 1978. The regulations relating to the reporting of the deferred vested retirement benefit of a separated plan participant are generally proposed to be effective with respect to participants separating from service in plan years beginning after 1975. The regulations relating to the reporting of a change in plan status are also proposed to be effective for plan years beginning after 1975. The regulations relating to amounts imposed for failure to file certain information with respect to employee benefit plans are generally proposed to be effective for plan years beginning after September 2, 1974.

ADDRESS: Send comments and requests for public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T:LR-265-74, Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT:

Richard Johnson of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, D.C. 20224 (Attention: CC:LR:T:LR-265-74) (202-566-3603) (Not a toll-free number).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the Regulations on Procedure and Administration (26 CFR Part 301) under sections 6057, 6652 (e) and (f) and 6690 of the Internal Revenue Code of 1954. The amendments are proposed to conform the regulations to section 1031 of the Employee Retirement Income Security Act of 1974 (88 Stat. 943) ("ERISA"), and are to be issued under the authority contained in sections 6057 and 7805 of the Internal Revenue Code of 1954 (88 Stat. 943 and 68A Stat. 917; 26 U.S.C. 6057 and 7805).

IDENTIFICATION OF SEPARATED PARTICIPANTS WITH DEFERRED VESTED RETIREMENT BENEFIT

ERISA requires that the plan administrator of an employee retirement benefit plan file with the Internal Revenue Service information relating to each plan participant who separates from service covered by the plan, is entitled to a deferred vested retirement benefit under the plan and is not paid this retirement benefit. The information required describes the nature, amount and form of the benefit to which the participant is entitled. This description of the retirement benefit is also to be provided the participant. Information reported to the Internal Revenue Service will be delivered to the Social Security Administration. When an individual applies for benefits under the Social Security laws the Social Security Administration will then deliver to the applicant a description of the retirement benefit to which the applicant is entitled under the employee retirement benefit plan. The Social Security Administration will also provide the information to the participant upon request.

NOTIFICATION OF CHANGE IN STATUS

ERISA also requires that the plan administrator of an employee retirement benefit plan report to the Internal Revenue Service any change in the status of the plan. A change in the plan administrator, termination of the plan or merger of the plan with another plan are examples of changes in status which must be reported.

AMOUNTS IMPOSED FOR FAILURE TO PROVIDE INFORMATION WITH RESPECT TO EMPLOYEE BENEFIT PLAN

ERISA provides that plan administrators required to file with the Internal Revenue Service information relating to each plan participant who separates from service covered by the plan and is entitled to a deferred vested retirement benefit under the plan, but is not paid this retirement benefit. Plans subject to this filing requirement are described in subparagraph (3) of this paragraph. Subparagraph (4) describes how the information is to be filed with the Internal Revenue Service. In the case of a plan to which only one employer contributes, the time for filing the information with respect to each separated participant is described in subparagraph (5). In the case of a plan to which more than one employer contributes the time for filing the information with respect to a participant is described in paragraph (b)(2). Paragraph (b) also provides other rules applicable only to plans to which more than one employer contributes.

nal Revenue Service information relating to the deferred vested retirement benefit of a plan participant, or to file a notification of a change in plan status will be liable for certain amounts imposed in the case of a failure to do so. A penalty is also imposed if the plan administrator willfully fails to provide a participant with a statement of the deferred vested retirement benefit to which the participant is entitled.

In addition, certain amounts are imposed in the case of a failure to file the annual return required for employee benefit plans, the actuarial statement required in the case of a merger or consolidation of two or more plans or certain other information required with respect to certain plans benefiting an owner-employee.

DELETION OF SECTIONS MERELY REPRODUCING STATUTORY MATERIAL

As part of the effort to reduce the bulk of the Code of Federal Regulations, those sections of the regulations which merely reproduce provisions of the Internal Revenue Code are being deleted.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these regulations as final regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

DRAFTING INFORMATION

The principal author of these proposed regulations was Richard Johnson of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

ADOPTION OF AMENDMENT TO THE REGULATIONS

The proposed amendments to 26 CFR Part 301 are as follows:

PARAGRAPH 1. There is inserted in the appropriate place the following new sections:

§ 301.6057-1 Employee retirement benefit plans; identification of participant with deferred vested retirement benefit.

(a) Annual registration statement—(1) In general. Under section 6057(a), the plan administrator (within the meaning of section 414(g)) of an employee retirement benefit plan must file with the Internal Revenue Service

information relating to each plan participant who separates from service covered by the plan and is entitled to a deferred vested retirement benefit under the plan, but is not paid this retirement benefit. Plans subject to this filing requirement are described in subparagraph (3) of this paragraph. Subparagraph (4) describes how the information is to be filed with the Internal Revenue Service. In the case of a plan to which only one employer contributes, the time for filing the information with respect to each separated participant is described in subparagraph (5). In the case of a plan to which more than one employer contributes the time for filing the information with respect to a participant is described in paragraph (b)(2). Paragraph (b) also provides other rules applicable only to plans to which more than one employer contributes.

(2) Deferred vested retirement benefit. For purposes of this section, a plan participant's deferred retirement benefit is considered a vested benefit if it is vested under the terms of the plan at the close of the plan year described in paragraph (a)(5) or (b)(4) (whichever is applicable) for which information relating to any deferred vested retirement benefit of the participant must be filed. A participant's deferred retirement benefit need not be a nonforfeitable benefit within the meaning of section 411(a) for the filing requirements described in this section to apply. Accordingly, information relating to a participant's deferred vested retirement benefit must be filed as required by this section notwithstanding that the benefit is subject to forfeiture by reason of an event or condition occurring subsequent to the close of the plan year described in paragraph (a)(5) or (b)(4) (whichever is applicable) for which information relating to any deferred vested retirement benefit of the participant must be filed.

(3) Plans subject to filing requirement. The term "employee retirement benefit plan" means a plan to which the vesting standards of section 203 of part 2 of subtitle B of Title I of the Employee Retirement Income Security Act of 1974 (88 Stat. 854) apply for any day in the plan year. (For purposes of this section, "plan year" means the plan year as determined for purposes of the annual return required by section 6058(a)). Accordingly, a plan need not be a qualified plan within the meaning of section 401(a) to be subject to these filing requirements. A plan to which more than one employer contributes must file the report of deferred vested retirement benefits described in this section, but see paragraph (b) for special rules applicable to such a plan.

(4) Filing requirements. Information relating to the deferred vested retirement benefit of a plan participant

must be filed on Schedule SSA as an attachment to the Annual Return/Report of Employee Benefit Plan (Form 5500 series). Schedule SSA shall be filed on behalf of an employee retirement benefit plan for each plan year for which information relating to the deferred vested retirement benefit of a plan participant is filed under paragraph (a)(5) or (b)(2) of this section. There shall be filed on Schedule SSA the name and Social Security number of the participant, a description of the nature, form and amount of the deferred vested retirement benefit to which the participant is entitled, and such other information as is required by section 6057(a) or Schedule SSA and the accompanying instructions. The form of the benefit reported on Schedule SSA shall be the normal form of benefit under the plan, or, if the plan administrator (within the meaning of section 414(g)) considers it more appropriate, any other form of benefit.

(5) *Time for reporting deferred vested retirement benefit*—(i) *In general.* In the case of a plan to which only one employer contributes, information relating to the deferred vested retirement benefit of a plan participant must be filed no later than on the Schedule SSA filed for the plan year following the plan year within which the participant separates from service covered by the plan. Information relating to a separated participant may, at the option of the plan administrator, be reported earlier (that is, on the Schedule SSA filed for the plan year in which the participant separates from service covered by the plan). For purposes of this paragraph a participant is not considered to separate from service covered by the plan solely because the participant incurs a break in service under the plan. In addition, for purposes of this paragraph, in the case of a plan which uses the elapsed time method described in Department of Labor regulations for crediting service for benefit accrual purposes, a participant is considered to separate from service covered by the plan on the date the participant severs from service covered by the plan.

(ii) *Exception.* Notwithstanding subdivision (i), no information relating to the deferred vested retirement benefit of a separated participant is required to be reported on Schedule SSA if, after the participant separates from service covered by the plan, but before the end of the plan year following the plan year during which the participant so separates from service covered by the plan, the participant (A) is paid retirement benefits under the plan, (B) returns to service covered by the plan, or (C) forfeits the deferred vested retirement benefit under the plan.

(b) *Plans to which more than one employer contributes*—(1) *Application.*

Section 6057 and this section apply to a plan to which more than one employer contributes with the modifications set forth in this paragraph. For purposes of section 6057 and this section, whether or not more than one employer contributes to a plan shall be determined by the number of employers who are required to contribute to the plan. Thus, for example, this paragraph applies to plans maintained by more than one employer which are collectively bargained as described in section 413(a), multiple-employer plans described in section 413(c) and the regulations thereunder, multiemployer plans described in section 414(f), and plans adopted by more than one employer of certain controlled and common control groups described in section 414 (b) and (c).

(2) *Time for reporting deferred vested retirement benefit*—(i) *In general.* In the case of a plan to which more than one employer contributes, information relating to the deferred vested retirement benefit of a plan participant must be filed no later than on the Schedule SSA filed for the plan year within which the participant completes the second of two consecutive one-year breaks in service (as defined in the plan for vesting percentage purposes) in service computation periods (as defined in the plan for vesting percentage purposes) beginning after December 31, 1974. For the definition of the term "one-year break in service" in the case of a plan which uses the elapsed time method described in Department of Labor Regulations for crediting service for vesting percentage purposes, see § 1.411 (a)-6 (c)(2). At the option of the plan administrator, information relating to a participant's deferred vested retirement benefit may be filed earlier (that is, on the Schedule SSA filed for the plan year in which the participant incurs the first one-year break in service or, in the case of a separated participant, on the Schedule SSA filed for the plan year in which the participant separates from service).

(ii) *Exception.* Notwithstanding subdivision (i) of this subparagraph, no information relating to a participant's deferred vested retirement benefit is required to be filed on Schedule SSA if, before the end of the plan year in which the participant incurs the second consecutive one-year break in service, the participant (A) is paid some or all of such deferred vested retirement benefit under the plan, (B) accrues additional retirement benefits under the plan, or (C) forfeits the deferred vested retirement benefit under the plan.

(iii) *Special transitional rule.* Notwithstanding subdivision (i), if the second consecutive one-year break in service described in subdivision (i) is incurred in a plan year beginning

before January 1, 1977, information relating to the participant's deferred vested retirement benefit is to be reported on the Schedule SSA filed for the first plan year beginning after December 31, 1976. Further, no information relating to a participant's deferred vested retirement benefit is required to be reported on Schedule SSA if, before the end of the first plan year beginning after December 31, 1976, the participant (A) is paid some or all of such deferred vested retirement benefit under the plan, (B) accrues additional retirement benefits under the plan, or (C) forfeits the deferred vested retirement benefit under the plan.

(3) *Information relating to deferred vested retirement benefit*—(i) *Incomplete records.* Section 6057(a) and paragraph (a)(4) of this section require the filing on Schedule SSA of a description of the deferred vested retirement benefit to which the participant is entitled. If the plan administrator of a plan to which more than one employer contributes maintains records of a participant's service covered by the plan which are incomplete as of the close of the plan year with respect to which the plan administrator files information relating to the participant on Schedule SSA, the plan administrator may elect to file the information required by Schedule SSA based only upon these incomplete records. The plan administrator is not required, for purposes of completing Schedule SSA, to compile from sources other than such records a complete record of a participant's years of service covered by the plan. Similarly, if retirement benefits under the plan are determined by taking into account a participant's service with an employer which is not service covered by the plan, but the plan administrator maintains records only with respect to periods of service covered by the plan, the plan administrator may complete Schedule SSA taking into account only the participant's period of service covered by the plan.

(ii) *Inability to determine correct amount of participant's deferred vested retirement benefit.* If the amount of a participant's deferred vested retirement benefit which is filed on Schedule SSA is computed on the basis of plan records maintained by the plan administrator which—

(A) Are incomplete with respect to the participant's service covered by the plan (as described in subdivision (i)), or

(B) Fail to account for the participant's service not covered by the plan which is relevant to a determination of the participant's deferred vested retirement benefit under the plan (as described in subdivision (i)),

then the plan administrator must indicate on Schedule SSA that the

amount of the deferred vested retirement benefit shown therein may be other than that to which the participant is actually entitled because the amount is based upon incomplete records.

(iii) *Inability to determine whether participant vested in deferred retirement benefit.* Where, as described in subdivision (i), information to be reported on Schedule SSA is to be based upon records which are incomplete with respect to a participant's service covered by the plan or which fail to take into account relevant service not covered by the plan, the plan administrator may be unable to determine whether or not the participant is vested in any deferred retirement benefit. There may be reason to believe, however, that, because plan records are incomplete, the participant may in fact be vested in a deferred retirement benefit. In such a case, information relating to the participant must be filed on Schedule SSA with the notation that the participant may be entitled to a deferred vested retirement benefit under the plan, but information relating to the amount of the benefit may be omitted. This subdivision (iii) does not apply in a case in which it can be determined from plan records maintained by the plan administrator that the participant is vested in a deferred retirement benefit. Subdivision (ii), however, may apply in such a case.

(c) *Voluntary reports.* The plan administrator of an employee retirement benefit plan described in paragraph (a)(3) of this section, or any other employee retirement benefit plan, may at its option, file on Schedule SSA information relating to the deferred vested retirement benefit of any plan participant who separates at any time from service covered by the plan, including plan participants who separate from such service in plan years beginning prior to 1976.

(d) *Individual statement to participant.* The plan administrator of an employee retirement benefit plan defined in paragraph (a)(3) of this section must provide each participant with respect to whom information is required to be filed on Schedule SSA a statement describing the deferred vested retirement benefit to which the participant is entitled. The description provided the participant must include the information filed with respect to the participant on Schedule SSA, and any other information the Internal Revenue Service may require. The statement is to be delivered to the participant or forwarded to the participant's last known address no later than the date on which any Schedule SSA reporting information with respect to the participant is required to be filed.

(e) *Penalties.* For amounts imposed in the case of failure to file the report

of deferred vested retirement benefits required by section 6057 (a) and paragraph (a) or (b) of this section, see section 6652(e)(1). For the penalty relating to a failure to provide the participant the individual statement of deferred vested retirement benefit required by section 6057 (e) and (d) of this section, see section 6690.

(f) *Effective dates.*—(1) *Plans to which only one employer contributes.* In the case of a plan to which only one employer contributes, this section is effective for plan years beginning after December 31, 1975, and with respect to a participant who separates from service covered by the plan in plan years beginning after that date.

(2) *Plans to which more than one employer contributes.* In the case of a plan to which more than one employer contributes, this section is effective for plan years beginning after December 31, 1976.

§ 301.6057-2 Employee retirement benefit plans; notification of change in plan status.

(a) *Change in plan status.* The plan administrator (within the meaning of section 414(g)) of an employee retirement benefit plan defined in § 301.6057-1 (a) (3) (including a plan to which more than one employer contributes, as described in § 301.6057-1 (b) (1)) must notify the Internal Revenue Service of the following changes in plan status—

(1) A change in the name of the plan,

(2) A change in the name or address of the plan administrator,

(3) The termination of the plan, or

(4) The merger or consolidation of the plan with another plan or the division of the plan into two or more plans.

(b) *Notification.* A notification of a change in status described in paragraph (a) must be filed on the Annual Return/Report of Employee Benefit Plan (Form 5500 series) for the plan year in which the change in status occurred. The notification must be filed at the time and place and in the manner prescribed in the form and any accompanying instructions.

(c) *Penalty.* For amounts imposed in the case of failure to file a notification of a change in plan status required by section 6057(b) and this section, see section 6652(e)(2).

(d) *Effective date.* This section is effective for changes in plan status occurring within plan years beginning after December 31, 1975.

§ 301.6652 [Deleted.]

P.A.R. 2. Section 301.6652 is deleted.

P.A.R. 3. There is added immediately after § 301.6652-2 the following new section:

§ 301.6652-3 Failure to file information with respect to employee retirement benefit plan.

(a) *Amount imposed*—(1) *Annual registration statement.* The plan administrator (within the meaning of section 414(g)) of an employee retirement benefit plan defined in § 301.6057-1(a)(3) is liable for the amount imposed by section 6652(e)(1) in each case in which there is a failure to file information relating to the deferred vested retirement benefit of a plan participant, as required by section 6057(a) and § 301.6057-1, at the time and place and in the manner prescribed therefor (determined without regard to any extension of time for filing). The amount imposed by section 6652(e)(1) on the plan administrator is \$1 for each participant with respect to whom there is a failure to file the required information, multiplied by the number of days during which the failure continues. However, the total amount imposed by section 6652(e)(1) on the plan administrator with respect to a failure to file on behalf of a plan for a plan year shall not exceed \$5,000.

(2) *Notification of change in status.* The plan administrator (within the meaning of section 414(g)) of an employee retirement benefit plan defined in § 301.6057-1(a)(3) is liable for the amount imposed by section 6652(e)(2) in each case in which there is a failure to file a notification of a change in plan status, as described in section 6057(b) and § 301.6057-2, at the time and place and in the manner prescribed therefor (determined without regard to any extension of time for filing). The amount imposed by section 6652(e)(2) on the plan administrator is \$1 for each day during which the failure to so file a notification of a change in plan status continues. However, the total amount imposed by section 6652(e)(2) on the plan administrator with respect to a failure to file a notification of a change in plan status shall not exceed \$1,000.

(3) *Annual return of employee benefit plan.* [Reserved.]

(4) *Actuarial statement in case of mergers.* The plan administrator (within the meaning of section 414(g)) is liable for an amount imposed by section 6652(f) in each case in which there is a failure to file the actuarial statement described in section 6058(b) at the time and in the manner prescribed therefor (determined without regard to any extension of time for filing). The amount imposed by section 6652(f) on the plan administrator is \$10 for each day during which the failure to file the statement with respect to a merger, consolidation or transfer of assets or liabilities continues. However, the amount imposed by section 6652(f) on the plan administrator with respect to a failure to file the

statement with respect to a merger, consolidation or transfer shall not exceed \$5,000.

(5) *Information relating to certain trusts and annuity and bond purchase plans.* Under section 6652(f) the amount described in this subparagraph is imposed in each case in which there is a failure to file a return or statement required by section 6047 at the time and in the manner prescribed therefor in § 1.6047-1 (determined without regard to any extension of time for filing). The amount is imposed upon the trustee of a trust described in section 401(a), custodian of a custodial account or issuer of an annuity contract, as the case may be (see § 1.6047-1(a)(1) (i) and (ii)). The amount imposed by section 6652(f) is \$10 for each day during which the failure to file with respect to a payee for a calendar year continues. However, the amount imposed with respect to a failure to file with respect to a payee for a calendar year shall not exceed \$5,000.

(b) *Showing of reasonable cause.* (1) No amount imposed by section 6652(e) shall apply with respect to a failure to file information relating to the deferred vested retirement benefit of a plan participant under section 6057(a), or a failure to give notice of a change in plan status under section 6057(b), if it is established to the satisfaction of the director of the internal revenue service center at which the information or notice is required to be filed that the failure was due to reasonable cause.

(2) No amount imposed by section 6652(f) shall apply with respect to a failure to file a return or statement required by section 6058 or 6047, or a failure to provide material items of information called for on such a return or statement, if it is established to the satisfaction of the appropriate district director or the director of the internal revenue service center at which the return or statement is required to be filed that the failure was due to reasonable cause.

(3) An affirmative showing of reasonable cause must be made in the form of a written statement setting forth all the facts alleged as reasonable cause. The statement must contain a declaration by the appropriate individual that the statement is made under the penalties of perjury.

(c) *Joint liability.* If more than one person is responsible for a failure to comply with sections 6057 (a) or (b) or section 6058 (a) or (b) or section 6047, all such persons shall be jointly and severally liable with respect to the failure.

(d) *Manner of payment.* An amount imposed under section 6652 (e) or (f) and this section shall be paid in the same manner as a tax upon the issuance of notice and demand therefor.

(e) *Effective dates—(1) Annual registration statement.* With respect to the

annual registration statement described in section 6057(a), this section is effective—

(i) In the case of a plan to which only one employer contributes, for plan years beginning after December 31, 1975, with respect to participants who separate from service covered by the plan in plan years beginning after that date, and

(ii) In the case of a plan to which more than one employer contributes, for plan years beginning after December 31, 1976.

(2) *Notification of change in status.* With respect to the notification of change in plan status required by section 6057(b), this section is effective with respect to a change in status occurring within plan years beginning after December 31, 1975.

(3) *Annual return of employee benefit plan.* With respect to the annual return of employee benefit plan required by section 6058(a), this section is effective for plan years beginning after September 2, 1974.

(4) *Actuarial statement in case of mergers.* With respect to the actuarial statement required by section 6058(b), this section is effective with respect to mergers, consolidations or transfers of assets or liabilities occurring after September 2, 1974.

(5) *Information relating to certain trusts and annuity and bond purchase plans.* With respect to reports or statements required to be filed by section 6047 and the regulations thereunder, this section is effective with respect to calendar years ending after September 2, 1974.

PAR. 4. There is added in the appropriate place the following new section:

§ 301.6690-1 Penalty for fraudulent statement or failure to furnish statement to plan participant.

(a) *Penalty.* Any plan administrator required by section 6057(e) and § 301.6058-1(d) to furnish a statement of deferred vested retirement benefit to a plan participant is subject to a penalty of \$50 in each case in which the administrator (1) willfully fails to furnish the statement to the participant in the manner, at the time, and showing the information required by section 6057(e) and § 301.6057-1(d), or (2) willfully furnishes a false or fraudulent statement to the participant. The penalty shall be assessed and collected in the same manner as the tax imposed on employers under the Federal Insurance Contributions Act.

(b) *Effective date.* This section shall take effect on September 2, 1974.

WILLIAM E. WILLIAMS,  
Acting Commissioner  
of Internal Revenue.

## ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 845-6]

### APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Revisions to the Rules and Regulations of the Amador County Air Pollution Control District in the State of California

AGENCY: Environmental Protection Agency.

ACTION: Proposed rulemaking.

SUMMARY: The Amador County Air Pollution Control District (APCD) has adopted changes to its rules and regulations. The revisions have been submitted to the Environmental Protection Agency (EPA) by the California Air Resources Board (ARB) as revisions to the California State Implementation Plan (SIP). The intended effect of the revisions is to update the rules and regulations, and to correct certain deficiencies in the SIP. The EPA invites public comments on these proposed rules, especially as to their consistency with the Clean Air Act.

DATES: Comments may be submitted up to February 21, 1978.

ADDRESSES: Comments may be sent to: Regional Administrator, Attn: Air and Hazardous Materials Division, Air Programs Branch, California SIP Section (A-4), U.S. Environmental Protection Agency, Region IX, 215 Fremont Street, San Francisco, Calif. 94105. Copies of the proposed revisions are available for public inspection during normal business hours at the EPA Region IX Office at the above address and at the following locations:

Amador County Air Pollution Control District, 810 Court Street, Jackson, Calif. 95642.

California Air Resources Board, 1709 11th Street, Sacramento, Calif. 95814. Public Information Reference Unit, Room 2922 (EPA Library), 401 M Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

David R. Souten, Chief, California SIP Section, EPA, Region IX, 415-556-7288.

SUPPLEMENTARY INFORMATION: The ARB submitted to EPA on behalf of the Amador County APCD on October 13, 1977 proposed revisions to the following rules:

#### Rules and titles

- 102—Definitions.
- 103—Enforcement.
- 203—Nuisance.
- 205—Exceptions (to Rule 202, Visible Emissions).
- 207—Particulate Matter.

- 212—Process Weight Table—Dust and Condensed Fumes.
- 216—Abrasive Blasting.
- 302—Prohibitions on Open Burning.
- 304—Open Burning Permitted.
- 305—Permit Conditions.
- 313—Penalty.
- 507—Provision of Sampling and Testing Facilities.
- 602.1—Authority to Construct Schedules.
- 604—Analysis Fees.
- 605—Technical Reports.
- 701—General (provisions for hearings).
- 703—Contents of Petitions.
- 710—Notice of Public Hearing.

In addition, a rule on new source review was also submitted. It will be addressed in another FEDERAL REGISTER notice.

Pursuant to Section 110 of the Clean Air Act, as amended, and 40 CFR Part 51, the Administrator is required to approve or disapprove the proposed regulations as SIP revisions. The Regional Administrator hereby issues this notice setting forth these revisions as proposed rulemaking and advises the public that interested parties may participate by submitting written comments to the EPA Region IX Office. Comments received on or before February 21, 1978, will be considered, and made available for public inspection at the EPA Regional Office and the EPA Public Information Reference Unit.

(Secs. 110, 301(a) Clean Air Act, as amended (42 U.S.C. 7410, 7601(a)).)

Dated: December 27, 1977.

CLYDE B. ELLER,  
Acting Regional Administrator.

### APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Revisions to the Rules and Regulations of the Placer County Air Pollution Control District in the State of California

AGENCY: Environmental Protection Agency.

ACTION: Proposed rulemaking.

SUMMARY: The Placer County Air Pollution Control District (APCD) has adopted changes to its rules and regulations. The revisions have been submitted to the United States Environmental Protection Agency (EPA) by the California Air Resources Board (ARB) as revisions to the California State Implementation Plan (SIP). The intended effect of the revisions is to update the rules and regulations, and to correct certain deficiencies in the SIP. The EPA invites public comments on these proposed rules, especially as to their consistency with the Clean Air Act.

DATES: Comments may be submitted up to February 21, 1978.

ADDRESSES: Comments may be sent to: Regional Administrator, Attention: Air and Hazardous Materials Division, Air Programs Branch, California SIP Section (A-4), United States Environmental Protection Agency, Region IX,

2898

PROPOSED RULES

215 Fremont Street, San Francisco, Calif. 94105.

Copies of the proposed revisions are available for public inspection during normal business hours at the EPA Region IX office at the above address and at the following locations:

Placer County Air Pollution Control District, DeWitt Center, Auburn, Calif. 95603.

California Air Resources Board, 1709, 11th Street, Sacramento, Calif. 95814.

Public Information Reference Unit, Room 2922 (EPA Library) 401 "M" Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

David R. Souten, Chief, California SIP Section, EPA, Region IX, 415-556-7288.

SUPPLEMENTARY INFORMATION:

The ARB submitted to EPA on behalf of the Placer County APCD on October 13, 1977 proposed revisions to the following rules:

Rules and Titles

- 101—Title
- 102—Definitions
- 103—Validity
- 104—Effective Date.
- 203—Exceptions (to Rule 202, Visible Emissions)
- 205—Nuisance
- 206(A)—Incinerator Burning
- 206(B)—Pathological Incineration
- 207—Particulate Matter
- 208—Orchard or Citrus Heaters
- 210—Specific Contaminants
- 211—Process Weight
- 212—Storage of Petroleum Products
- 213—Reduction of Animal Matter
- 214—Abrasive Blasting
- 301—Prohibitions on Open Burning
- 302—Regulated Open Burning
- 303—Burning Permits
- 304—Exceptions to Rule 303
- 305—Permit Validity
- 306—No-Burn Days
- 307—Exceptions to Rule 306
- 308—Agricultural Burning Reports
- 309—Amount Burned Daily
- 310—Approved Ignition Device
- 311—Restricted Burning Day
- 312—Wind Direction
- 313—Minimum Drying Times
- 314—Exceptions to Rule 313
- 315—Preparation of Material to be Burned
- 316—Burning of Agricultural Waste
- 317—Range Improvement Burning
- 318—Forest Management Burning
- 319—Open Burning of Wood Waste on Property Where Grown
- 320—Right-of-Way Clearing and Levee, Ditch and Reservoir Maintenance Burning
- 321—Hazard Reduction Burning
- 322—Mechanized Burners
- 401—Responsibility
- 402—Authority to Inspect

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Revisions to the Rules and Regulations of the Santa Barbara County Air Pollution Control District in the State of California

AGENCY: Environmental Protection Agency.

ACTION: Proposed rulemaking.

SUMMARY: The Santa Barbara County Air Pollution Control District (APCD) has adopted changes to its rules and regulations. The revisions have been submitted to the Environmental Protection Agency (EPA) by the California Air Resources Board (ARB) as revisions to the California State Implementation Plan (SIP). The intended effect of the revisions is to update the rules and regulations, and

to correct certain deficiencies in the SIP. The EPA invites public comments on these proposed rules, especially as to their consistency with the Clean Air Act.

DATES: Comments may be submitted up to February 21, 1978.

ADDRESSES: Comments may be sent to: Regional Administrator, Attention: Air and Hazardous Materials Division, Air Programs Branch, California SIP Section (A-4), U.S. Environmental Protection Agency, Region IX, 215 Fremont Street, San Francisco, Calif. 94105.

Copies of the proposed revisions are available for public inspection during normal business hours at the EPA Region IX office at the above address and at the following locations:

Santa Barbara County Air Pollution Control District, 4440 Calle Real, Santa Barbara, Calif. 93110.

California Air Resources Board, 1709 11th Street, Sacramento, Calif. 95814.

Public Information Reference Unit, Room 2922 (EPA Library) 401 "M" Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

David R. Souten, Chief, California SIP Section, EPA, Region IX, 415-556-7288.

SUPPLEMENTARY INFORMATION:

The ARB submitted to EPA on behalf of the Santa Barbara County APCD on November 4, 1977 proposed revisions to the following rules:

- Rule 23—Storage of Petroleum and Petroleum Products
- Rule 35—Storage and Transfer of Gasoline
- Rule 39.3—Continuous Emission Monitoring

In addition, a rule on new source review was also submitted. It will be addressed in another FEDERAL REGISTER notice.

Pursuant to section 110 of the Clean Air Act, as amended, and 40 CFR Part 51, the Administrator is required to approve or disapprove the proposed regulations as SIP revisions. The Regional Administrator hereby issues this notice setting forth these revisions as proposed rulemaking and advises the public that interested parties may participate by submitting written comments to the EPA Region IX Office. Comments received on or before February 21, 1978, will be considered, and made available for public inspection at the EPA Regional Office and the EPA Public Information Reference Unit.

## CIVIL AERONAUTICS BOARD

[Docket No. 31914; Order 78-1-45]

### AMERICAN AIRLINES, INC. ET AL

Order Dismissing Complaint Regarding U.S. Mainland-Puerto Rico/Virgin Islands, Fare Increase

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 11th day of January 1978.

By tariff revisions<sup>1</sup> marked to become effective January 15, 1978, American Airlines, Inc. (American), Eastern Air Lines, Inc. (Eastern), and Pan American World Airways, Inc. (Pan American) propose to increase all fares in the U.S. mainland-Puerto Rico/Virgin Islands market by 3.3 percent. American and Eastern base their proposals on carrier results for the year ended September 1977, applying the ratemaking adjustments set forth in Order 76-12-96. In matching Eastern's filing, American has combined its results with Eastern's and has calculated the entity return on investment (ROI) at 11.6 percent with the proposed increase, projecting costs to February 1, 1978.

The carriers state that they are merely catching-up with the allowable 12-percent ROI; and American alleges that it would not expect to make any further increase effective before May 1, six months after the fare increase authorized when the Board changed its cost-escalation policy in this entity.

The Commonwealth of Puerto Rico (Commonwealth) has filed a complaint against American's proposal claiming that while this would be the first major increase of 1978, it cumulatively represents 14.2 percent in increases since January 1977; this is significantly greater than increases permitted in both the Hawaii and domestic 48-State entities; the realization of public benefit built-in to the anticipation of costs beyond the tariff-effective date is questionable; and the lack of low-fare competition for American and Eastern is at the heart of the Commonwealth's concern about rising air fares.

The Board finds that the complaint does not set forth sufficient facts to

<sup>1</sup>Revisions to American Airlines, Inc. Tariff C.A.B. No. 294, Eastern Air Lines, Inc. Tariff C.A.B. No. 294, and Pan American World Airways, Inc. Tariff C.A.B. No. 53.

warrant investigation and consequently the request for suspension will be denied and the complaint dismissed.

In keeping with the Board's analysis as set forth in the "Mainland U.S.-Puerto Rico/Virgin Islands Fares" case, the combined results of the carriers for the year ended September 1977 have been adjusted to reflect established ratemaking standards to determine ROI from operations in this entity reflecting the proposed increase. Costs have been carried forward to February 1, 1978.<sup>2</sup> The final result reflects an adjusted ROI of 10.5 percent. (See Appendix A). Accordingly, we will permit the proposed increase to become effective.<sup>3</sup>

The results indicate that the entity is experiencing upward cost pressures, both in fuel and non-fuel elements. Fuel costs have jumped nearly 50 percent for American from August through November.<sup>4</sup> The annual rate of increase in non-fuel unit costs has risen to 8.8 percent compared to 7.4 percent for the year ended June 1977.<sup>5</sup>

The Commonwealth correctly recognizes that cost pressures in this market have warranted larger increases over the past year than in the domestic 48 States.<sup>6</sup> This is exemplified by the difference in the non-fuel unit-

<sup>2</sup>February 1, 1978 is three months beyond the date of the last fare increase in this entity (November 1, 1977). It was then that the Board first projected costs beyond the tariff-effective date in this entity (Order 77-10-57), and the carriers characterize this proposal as a "catch-up" to that new policy, as was permitted by Order 77-11-2, after anticipated costs were first recognized in the 48-State entity.

<sup>3</sup>The Board's correction for a mathematical error in Eastern's justification and the updating of fuel costs account for the difference between the Board's and American's calculated ROI. Details of the Board's analysis will be available for public inspection in the Public Reference Room, Room 710.

<sup>4</sup>American's renewal of its contract with its fuel supplier has produced this large increase. American's cost per gallon of fuel for November 1977 was 38.38 cents, rising from 25.80 cents in August. Meanwhile, Eastern's fuel costs have averaged 36.18 cents for the year ended September 1977 versus 27.73¢ for American.

<sup>5</sup>Increasing labor costs in Puerto Rico combined with payment of deferred employee compensation by Eastern have contributed to this rising rate.

<sup>6</sup>The increase permitted here brings the level of increases over the past 12 months to 14.2 percent versus seven percent in the domestic 48 States.

cost inflation factor in the Puerto Rico/Virgin Island market of 1.0878 percent compared to 1.0433 percent in the domestic 48-State entity for the year ended September 1977. In addition, although American's fuel increase has been relatively comparable in both entities, the impact is felt much more in the smaller Puerto Rico/Virgin Islands entity, because fares here are based on the costs of only two carriers. Whether additional market competition would change these facts cannot be resolved in this context.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002:

It is ordered, That: 1. The complaints in Docket 31914 are dismissed; and

2. A copy of this order will be served upon American Airlines, Inc., Eastern Air Lines, Inc., Pan American World Airways, Inc., and the Commonwealth of Puerto Rico.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,  
Secretary.

[Docket Nos. 24694, 31976; Order 78-1-35]

### DELTA AIR LINES, ET AL

#### Order Regarding Miami-Los Angeles Competitive Nonstop and Low-Fare Cases

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on 11th day of January 1978.

#### INTRODUCTION

On September 16, 1977, the Board, by Order 77-9-62, solicited comments from parties to this case on the further steps to be taken in light of the remand of the Board's original decision by the U.S. Court of Appeals for the District of Columbia Circuit. *Delta Air Lines, et al v. CAB*, 561 F.2d 293 (D.C. Cir. 1977). Comments were filed on October 6 and reply comments were submitted by October 18.<sup>1</sup> By and large, the parties present three al-

<sup>1</sup>All Members concurred.

<sup>2</sup>TWA's comments were filed on October 11, accompanied by a motion for leave to file late. We shall grant the motion.

ternatives. First, Pan American and Western urge the Board to limit the remand to the narrow issue specifically returned by the court, i.e., the choice between Pan American and Western. Delta Air Lines, although originally a losing applicant, now argues that such a limited remand is required by the court's order. Second, Eastern Air Lines, Trans World Airlines, and American Airlines urge the Board to reopen the entire question of carrier selection and permit updating of the record by all interested carriers. Finally, National Airlines, which is the incumbent certificated carrier (Western, the Board's original selection, continues to operate temporarily pending the outcome of the remand), urges the Board to undertake a full-scale reexamination of the need for competition in the market or, at a minimum, to wait until National's petition for certiorari is disposed of by the Supreme Court.<sup>2</sup> National requests oral argument on the scope of the remand.

#### GENERAL CONCLUSIONS

We find that Docket 24694 should be reopened for the limited purpose of allowing Pan American an opportunity for adversarial exploration of the developments which have occurred since the close of the record, in accordance with the court's direction. We shall examine these matters through the use of expedited, non-trial procedures, and without a further initial decision. This will allow the Board to move promptly to final decision. At the same time, we shall initiate a new Miami-Los Angeles case to examine whether or not we can secure the introduction of low-fare Miami-Los Angeles service and thus support the movement within the industry from its historic, near-exclusive reliance on service competition to a greater measure of price competition. We shall consider these matters in a new docket. We discuss these two proceedings separately below.

#### THE CURRENT CASE

We think it proper to bring the current case to a prompt conclusion. The Board's original decision makes clear that, from the perspective of the traveling and shipping public, no carrier can provide appreciably better service than Western or Pan American. All applicants had proposed two or three daily round trips and none has suggested in the comments that a greater quantum of service is likely to be provided in the primary market. Similarly, no carrier has challenged the Board's earlier finding that Pan

<sup>2</sup>National filed its petition on September 21, 1977, arguing that the Court of Appeals exceeded its authority when it limited the remand to the question of carrier selection between Western and Pan American.

American could convenience more beyond traffic than other applicants, notwithstanding its recent reductions in service. Several parties argue that Western's earlier advantage in terms of beyond service has been eroded. This contention is not entirely convincing since Western's impressive route structure beyond Los Angeles remains. We are nonetheless prepared to accept, for present purposes, the argument that Western's beyond-segment capabilities no longer give it a substantial edge over other carriers. Two key underpinnings of the Board's original award, however, continue to distinguish Western from the remaining candidates on the current record—Western's selection is consistent with the Board's historic policy favoring the strengthening of smaller carriers, and Western's dominant position at Los Angeles serves as a counterweight to National's strength at Miami. In such circumstances, and consistently with the mandate of the Court of Appeals, we believe the public interest requires that we update the record but promptly bring this case to a close and select either Western or Pan American to operate pending a more complete examination of low fare options and other applications. This course of action complies with our obligation to accord Pan American the procedural opportunity which the Court of Appeals concluded we had improperly denied it.

We are pleased to see the general willingness of interested parties to utilize expedited nontrial procedures similar to those recently employed successfully in the *Service to Saipan Case*, Docket 24421, and the *Service to Richmond Case*, Docket 24412, and we have decided to use such procedures to decide the limited issue remaining in this case. We shall require, first, that Western file, within 10 days of the service date of this order, the information relating to its actual experience in the market, as requested in the appendix to Pan American's comments of October 6. Upon review of Western's objections, we find ourselves in agreement with Pan American that the court's directive did not circumscribe the Board's power to require the submission of useful evidence. Upon submission of the evidence, Western will have a full opportunity to argue about its relevance to the Board's inquiry. We shall also authorize the simultaneous filing of comments by Western, Pan American, and any other parties on the narrow issue to be considered, along with information, exhibits, and data that they believe necessary or desirable for an informed examination of events subsequent to the close of the original record. Such comments and data shall be due 28 days from the service date of this order. We will also permit the filing of rebuttal com-

ments, information, data, and exhibits. All rebuttal material shall be filed within 28 days of the due date for the filing of the initial material. Finally, briefs to the Board, which shall conform to the requirements of Rule 31, shall be due 14 days after the due date for the filing of rebuttal material. This schedule is designed to bring the case before the Board in about 75 days and we shall endeavor to conclude it no more than 75 days later.

#### THE NEW CASE

The Board is keenly interested in promoting market conditions that provide the increased likelihood of low-fare service. The current and historic load factors in the Miami-Los Angeles market suggests it both needs fare competition and offers a particularly attractive opportunity for getting it promptly. As the data in National's comments show, the carrier is operating a wasteful level of capacity for the traffic it is carrying. During the 18 months ended in July 1977, National's load factor never exceeded 47 percent and was generally lower. Western's have been even lower. Moreover, this situation cannot be attributed to the recent entry of Western. National's oral argument materials demonstrate that the condition is chronic, with load factors occasionally dropping below 35 percent. See charts 1 and 2.

In our judgment there is at least one explanation of National's willingness to operate at chronically low load factors: the fare is so high that its breakeven point is even lower. If fares are reduced, the breakeven point will rise, and National will have to increase its actual load factors, either by reducing frequencies or attracting additional traffic. In our view, a substantial fare reduction is likely to attract sufficient traffic to produce reasonable load factors without any reduction in service perhaps enough to permit an increase in service. Such a prospect in this large and important transcontinental market, so long the recipient of subpar service is, in our view, worth the commitment of time and resources necessary to explore this issue despite the time and effort already expended.

We shall therefore institute a *Miami-Los Angeles Low-Fare Case*, Docket 31976, for the purpose of considering whether the public convenience and necessity require additional carriers between Miami and Los Angeles.

We actively solicit reduced fare proposals from new entrants, National, and whichever carrier is selected in Docket 24694 to compete temporarily with National.<sup>3</sup> We have determined,

<sup>3</sup>We are aware that Western has filed a tariff introducing Super Saver fares, effective January 23, 1978. This development does not dissuade us from the need for a more general route investigation.

as a matter of general policy, that in this and future cases the offer or failure to offer lower prices will be taken into account in determining whether the public convenience and necessity require the award of new or additional authority and, if so, which carrier or carriers should be selected. For these purposes, the Board expects the record to be developed to examine the need for and feasibility of various new price/quality options.

The price options which should be explored include, but are not limited to, reduced normal fares, promotional fares, and off-peak pricing.\* The quality options which should be considered in order to justify lower prices economically should include, but not be limited to, reduced on-board amenities, higher seating densities, increased load factors, and improved aircraft utilization. Further, we shall consider how lower prices and price competition can be maintained once a case is concluded, whether by making awards temporary or contingent upon the price performance of the carrier receiving new authority, or by other means. We believe that the grant of temporary authority in Docket 24694, coupled with an examination of the issue of renewal, will serve as a useful spur to the establishment of lower fares by the incumbent carriers.

As we have done before, we shall determine whether any new authority should be permissive; whether, particularly if permissive authority is decided upon, multiple awards should be made; and whether multiple awards, under the present statute, are consistent with encouraging real price competition. See Orders 77-12-50, December 9, 1977, and 77-12-115, December 22, 1977. Nothing in the foregoing discussion should be regarded as indicating that traditional service benefits, or the Board's traditional preference for the renewal of temporary authority, should be disregarded. On the contrary, these are important considerations to be weighed with the price and price/quality considerations discussed above. The bases for new route awards, however, will now include the consideration of realistic, cost-based price proposals.

Accordingly, it is ordered, That:

1. Docket 24694 is reopened for the limited purposes outlined above;

2. Western shall file within 10 days of the service date of this order the information requested in the appendix to Pan American's comments of October 6, 1977.

\*Off-peak pricing options should include traditional night coach fares, as well as differential pricing at other slack periods, such as weekends and at certain hours of the day, in order to permit higher load factors and more efficient aircraft utilization.

3. Initial comments concerning changes in circumstances occurring after the close of the original record which may affect the Board's selection of Western or Pan American in docket 24694 may be filed within 28 days of the service date of this order;

4. Rebuttal information and comments may be filed within 28 days of the due date for the filing of the initial material;

5. Briefs to the Board may be filed within 14 days after the due date for the filing of rebuttal material;

6. The motion of Trans World Airlines in Docket 24694 for leave to file late is granted;

7. A proceeding to be known as the *Miami-Los Angeles Low-Fare Case*, Docket 31976, shall be instituted and set for hearing before an administrative law judge of the Board at a time and place to be designated later, as the orderly administration of the Board's docket permits;

8. The proceeding instituted in paragraph 7, above, shall consider whether the public convenience and necessity require: (i) The modification, alteration or amendment of the certificate of the successful applicant in Docket 24694 so as to renew the authority to operate nonstop service between Miami-Ft. Lauderdale, Fla., and Los Angeles-Ontario-Long Beach, Calif., and (ii) the authorization of a different, or an additional, carrier or carriers to engage in nonstop air transportation between Miami-Fort Lauderdale, Fla., and Los Angeles-Ontario-Long Beach, Calif.

9. If the answer to the issues in paragraph 8, above, are in the affirmative, the proceeding shall consider which air carrier or carriers should be authorized, and whether the new or existing authority should be subject to any terms, conditions, or limitations;

10. Any authority awarded in Docket 31976 shall be granted without eligibility for subsidy;

11. Applications and motions to consolidate in connection with Docket 31976 shall be filed within 28 days of the service date of this order and answers thereto shall be filed within 25 days thereafter;

12. Petitions for reconsideration of this order, insofar as it institutes the *Miami-Los Angeles Low-Fare Case*, may be filed by all interested persons within 21 days of the service date of this order.

13. This order shall be subject to any approval deemed necessary by the U.S. Court of Appeals for the District of Columbia Circuit.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,  
Secretary.

\*All Members concurred.

INTERNATIONAL AIR TRANSPORT  
ASSOCIATION

## Order Regarding Specific Commodity Rates

JANUARY 12, 1978.

Issued under delegated authority.

Agreements have been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA), and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreements name four specific commodity rates under existing commodity descriptions as set forth below, reflecting reductions from general cargo rates; and were adopted pursuant to unopposed notice to the carriers and promulgated in IATA letters dated December 29, 1977.

Agreement CAB	Specific Commodity Item No.	Description and rate
27085:		
R-1	4700	Machinery and tools—excluding steamship and/or motorship machinery parts, 79 cents per kg., minimum weight 250 kgs., from Auckland to Pago Pago.
R-2	6002	Chemicals, dyes, fertilizers, insecticides, paints, pigments, varnishes, drugs, pharmaceuticals and medicines, cosmetics, soaps, toilet preparations and articles, perfumes, essential oils, gums and resins and plastics solely in the form of sheets, slabs, rods, tubings, powder, and other unfinished forms, 80 cents per kg., minimum weight 100 kgs., from Auckland to Pago Pago.
R-3	6810	Plastic articles, 61 cents per kg., minimum weight 100 kgs., from Auckland to Pago Pago.
27086	4109	Aircraft engines and parts of aircraft—excluding fuselages, wings, aircraft tail assemblies, stabilizers and/or stabilators, 315 cents per kg., minimum weight 100 kgs., 275 cents per kg., minimum weight 200 kgs., 220 cents per kg., minimum weight 500 kgs., between New York and Addis Ababa.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that the agreements are adverse to the public interest or in violation of the Act: *Provided*, That approval is subject to the conditions ordered.

Accordingly, it is ordered, That: Agreements C.A.B. 27085, R-1 through R-3, and C.A.B. 27086 are approved: *Provided*, That (a) approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publications; (b) tariff filings shall be marked to become effective on not less than 60 days' notice from the date of filing; and (c) where a specific commodity rate is published for a specified minimum weight at a level lower than the general commodity rate applicable for such weight, and where a general commodity rate is published for a greater minimum weight at a level lower than such specific commodity rate, the specific commodity rate shall be extended to all such greater minimum weights at the applicable general commodity rate level.

Persons entitled to petition the Board for review of this order, pursu-

ant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order will be published in the FEDERAL REGISTER.

PHYLLIS T. KAYLOR,  
Secretary.  
(FR Doc. 78-1678 Filed 1-19-78; 8:45 am)

## [6320-01]

(Docket Nos. 31810, 31819; Order 78-1-631)

OLYMPIC AIRWAYS, S.A. AND TRANS WORLD  
AIRLINES, INC.Order Dismissing Complaints Regarding Trans-  
atlantic Passenger Fares Between United  
States and Greece

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 16th day of January 1978.

By tariff revisions filed December 7, 1977, for effectiveness January 6, 1978, Olympic Airways, S.A. (Olympic), and

Trans World Airlines, Inc. (TWA), propose new reduced fares in U.S.-Greece markets similar to those recently implemented between the United States and Italy by Alitalia-Linee Aeree Italiane, S.p.A. (Alitalia) and other carriers. The proposals would reduce normal first-class and economy fares by amounts ranging from \$78 to \$292, roundtrip, and would replace most existing promotional fares by new 14/60-day excursion and 7/21-day group inclusive-tour (GIT) fares as in the case of the Alitalia filing.<sup>1</sup>

In its justification for the filing, Olympic submits that normal-fare traffic accounts for only about seven percent of its U.S.-Greece passengers, and the reduced normal fares will attract passengers who desire stopovers and previously traveled on the normal fares or the 14/21-day excursion fare, which is to be discontinued; the new excursion fares at \$535 winter and \$595 peak, New York-Athens, will be more attractive to vacation travelers than the \$526 (winter) and \$633 (peak)

<sup>1</sup>TWA, however, would retain existing fares alongside the new fares.

existing nonaffinity group fares, which, however, are government-ordered and will be retained; the GIT fare at \$495 will be attractive in putting together tourist packages during the winter, when the market is depressed; and both fares will be more remunerative to the carrier and less costly to offer than the recently effective \$473 winter super-APEX.

In complaints against both tariffs,<sup>2</sup> Homeric Tours, Inc. (Homeric), and Tourlite International, Inc. (Tourlite), which operate charter tours to Greece, request suspension and investigation of the proposed peak season excursion fares (\$595-New York/Athens round-trip) alleging that the proposed fares are predatory and would put U.S.-Greece charter tour operators out of business; and if the fares are approved, the Board should require TWA to amend its charter tariff to waive any cancellation penalties and forfeiture provisions, and require all scheduled carriers to renegotiate all existing charter contracts so that charter tour operators may have the opportunity to minimize their anticipated losses.

In support of their request, the complainants allege that the U.S.-Greece charter market is highly seasonal and in the crucial summer season the proposed \$595 excursion fare will prove predatory; this market is family-oriented (30 percent of all charter passengers are children) and with a 50 percent children's discount on the scheduled service excursion fare, a family could save a considerable sum compared to a charter where all passengers pay the full price; the scheduled carriers have a further advantage in that the add-ons they offer for travel to New York from cities with a Greek ethnic market are lower than the full domestic fare which charter passengers must pay; the rules are more liberal on the excursion fare, which has no advance payment feature or cancellation penalty, than on charters; and in 1973 the non-affinity group fare to Greece was \$323 and it is now \$677, an indication that if competition from charters is eliminated, scheduled fares may again rise.

In answer to the complaints, Olympic states that since the proposed excursion fare would be \$62 higher than the already effective super-APEX fare during the winter season, it increases the differential of scheduled over charter fares, and thus can hardly be characterized as predatory; that the minimum tour price applicable to the GIT fare actually boosts its packaged level to over \$700; and that the GIT fare would not be available during the

<sup>1</sup>On December 27, 1977, the complainants filed a motion for leave to submit a reply to TWA's answer which we will grant.

peak season, when the large majority of the complainants' charter tours are scheduled to depart.

TWA, in support of its tariff and in answer to the complaints, states that, although it feels there are numerous shortcomings in Olympic's proposal,<sup>3</sup> nevertheless it has chosen to match it because it simplifies the fare structure and limits free stopovers and consequent yield erosion; the reduced New York-Athens normal economy fare at 9.15 cents per-mile would still yield more than the existing New York-London fare at 9.06 cents per-mile; Olympic's filing raises substantially the same issues as Alitalia's recent U.S.-Italy fare structure, which the Board approved; TWA, the largest charter carrier in the New York-Athens market, has no intention of driving out charters, since its contracted U.S.-Greece charter operations for 1978 have tied up a significant amount of its available charter capacity, which probably could not be resold if canceled and TWA would lose regardless of what cancellation penalties it collected; the proposed fares are higher than the current super-APEX fare, are well above prevailing charter rates, and do not present a serious threat to charters; the complaints are a mere subterfuge by which Homeric and Tourlite seek to shift the risk of their 1978 charter programs back to TWA, and Homeric has even agreed to a clause in its charter contract with TWA acknowledging the possibility of new low scheduled fares and agreeing to pay cancellation charges in any event; and consistent enforcement of charter cancellation penalties is necessary to prevent speculative bookings by unreliable tour operators and to avoid tremendous losses by the charter carrier.<sup>4</sup> In their reply, the complainants contend that TWA has misled the Board in alleging that the so-called "rider" to its charter contracts was agreed to by the tour operators.

Upon consideration of the tariffs, complaints and answers, the Board finds that the complaints do not set forth facts sufficient to warrant suspension or investigation; they will therefore be dismissed.

The proposals raise the same issues as were presented in the recent Alitalia case; in fact, Olympic indicates its filing is in direct response to develop-

<sup>2</sup>TWA cites points similar to those raised by its complaint against Alitalia's U.S.-Italy fares. See Order 77-11-78, November 18, 1977.

<sup>3</sup>TWA states that in 1975, when speculative bookings and cancellations were common, unpaid ferry mileage amounted to 14.4 percent in its international charter operations, but through consistent enforcement of penalties unpaid ferry mileage was reduced to 5.6 percent in 1977.

ments in the U.S.-Italy market. These new filings would extend to the U.S.-Greece market improvements similar to the ones in the U.S.-Italy fare structure, which the Board noted with approval in its Order 77-11-78, dismissing complaints against Alitalia's fares. Normal first-class and economy fares would be reduced significantly, the number of fares would be reduced and the overall structure simplified, and strict limitations would be placed on stopovers.<sup>5</sup> Yields per mile under the Olympic fares would be similar to those achieved under Alitalia's fares to Italy.

In these circumstances, the Board would suspend the proposed fares only upon the most convincing showing that they are uneconomic and likely to be predatory with respect to charter services. We cannot make such a finding in this case. Short-run marginal costs would easily be covered by all the proposed fares, and we are not convinced that the new excursion fares present a serious threat to the viability of charter services in this market.

Homeric and Tourlite use a figure of \$569 as an average 1978 summer ABC price in the New York-Athens market, but we have been unable to confirm this based on information available to the Board, and as with our consideration of this issue in the Alitalia case there is at present insufficient information to conclude that the proposed fares would be predatory as to charters during the 1978 peak season.<sup>6</sup> The complainants have not supported their estimate that 30 percent of U.S.-Greece charter passengers are children, and in any event the children's discount on scheduled service fares is not a factor unique to this case. Since the adult excursion fares appear to fall above prevailing charter rates, we fail to understand why the complainants waited to raise the issue of children's fares until the last minute. If, as the complainants such as Chicago, Detroit, Washington and Boston, the charter groups would not necessarily have to assemble in New York, and thus the question of scheduled service proportional fares over new York is not particularly germane, and has no bearing on the reasonableness of the proposed transatlantic

<sup>4</sup>We do have reservations about the necessity for maintaining the nonaffinity group fare, since it would appear that the new promotional fares could probably accommodate the traffic now moving on that fare.

<sup>5</sup>We note, however, that Bamaco Airtours International is marketing ABC's using an Overseas National Airlines DC-10 with weekly departures from May 25 through October 12, 1978, with minimum per-seat prices ranging from \$454 to \$498.

<sup>6</sup>See Order 77-11-78, page 9.

fare.\* Concerning advance payments and other rules, the Board recently liberalized its charter rules in several important respects including reducing the ABC advance purchase period to 15 days. Since we are not convinced that the proposed fares are predatory, the lack of an advance purchase requirement on the excursion fare is not sufficient grounds for suspension.

Finally, we would state that our conclusions as to the appropriateness of TWA's charter cancellation charges were not based on that carrier's allegations about the so-called "rider" to its charter contracts, and for this reason, we will not require TWA and other scheduled carriers to waive their charter cancellation fees and abrogate their existing charter contracts, as suggested by Homeric and Tourlite. Although we are not persuaded by TWA that strict enforcement of cancellation penalties was the only factor affecting its unpaid ferry mileage over the last two years, neither are we convinced that the Board should routinely disapprove charter cancellation fees every time a low fare is introduced in scheduled service. The proposed fares do not appear to be predatory against charters and, in these circumstances, the relief sought by the tour operators is excessive and unnecessary.

Accordingly, pursuant to the Federal Aviation Act of 1958 and particularly sections 102, 204(a), 403, and 1002(j) thereof:

*It is ordered, That:* 1. Except to the extent granted herein, the complaints of Homeric Tours, Inc. and Tourlite International, Inc., in Dockets 31810 and 31819, respectively, are dismissed; and

2. Copies of this order be served upon Olympic Airways, S.A., Trans World Airlines, Inc., Homeric Tours, Inc., and Tourlite International, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,\*  
Secretary.

#### [6320-01]

[Docket No. 31564; Order 78-1-64]

#### AIR INDIA

Order Vacating Suspension Regarding Transatlantic Super-APEX Fares  
Adopted by the Civil Aeronautics Board at its office in Washington,

\*Even when the charter group does assemble in New York, the fact that charter passengers traveling by air pay the full domestic fare (compared to a lower add-on for scheduled transatlantic fares) is a situation not unique to the proposed U.S.-Greece excursion fares. Further, we note that Homeric and Tourlite's citations of the add-ons to be used with the proposed fares are incorrect. In addition, their citation of the histo-

D.C., on the 9th day of January 1978.

By Order 77-10-139, October 25, 1977, the Board suspended, pending investigation, super-APEX (advance-purchase excursion) fares proposed by Air India and other carriers for use between the United States, on the one hand, and various points in Europe/Africa, on the other. The Board stated that it was suspending the fares because the United States had been unable to secure an ad hoc agreement with India which would permit us to suspend the fares after they became effective, and in those circumstances, failure to suspend the fares before they became effective might foreclose any future action by this Government with regard to such fares.

On December 26, 1977, the Government of India signed an ad hoc agreement confirming the right of the United States to take action against the super-APEX fares after they became effective. Thus there is no reason for Air India's fares to countries whose Governments have signed appropriate ad hoc agreements to remain under suspension, and this order will vacate our previous action in that respect.

Accordingly, pursuant to sections 102, 204(a), 403, 801, and 1002(j) of the Federal Aviation Act of 1958.

*It is ordered, That:*

1. Order 77-10-139 is hereby vacated insofar as it suspends and investigates advance purchase excursion fares as follows:

INTERNATIONAL PASSENGER FARES  
TARIFF No. 4, CAB No. 22, ISSUED BY JOHN M. SAMPSON, AGENT

On 9th and 10th Revised Pages 269 the fares applicable to Air India between Boston and New York, on the one hand, and the following points, on the other:

Algiers, Ankara, Athens, Barcelona, Berlin, Bremen, Bucharest, Cologne, Düsseldorf, Frankfurt, Geneva, Hamburg, Hanover, Helsinki, Istanbul, Madrid, Moscow, Munich, Nuremberg, Rome, Stuttgart, Tunis, and Turin.

On 9th and 10th Revised Pages 270 all basic fares applicable to Air India between Boston and New York, on the one hand, and Venice and Zurich, on the other.

2. This order shall be submitted to

ry of the Greek Government-ordered non-affinity group fare is somewhat confused. In January 1973 the New York-Athens fare, for the basic season, was \$320. The complainants compared this fare with the current "peak-of-the-peak" season fare of \$673, while the current *basic* season fare is \$526. Much of the increase over the last five years is directly attributable to devaluation of the dollar and fuel surcharges; the balance of the price increase can hardly be explained as the action of a monopolist since competition in the form of charter programs has been present throughout the period.

\*All Members concurred except Member Minetti who did not participate.

the President\* and shall be effective on January 16, 1978; and

3. Copies of this order shall be filed in the above tariff and served upon Air India.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,\*  
Secretary.

#### CIVIL SERVICE COMMISSION COMMITTEE ON PRIVATE VOLUNTARY AGENCY ELIGIBILITY

#### Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the U.S. Civil Service Commission announces the following meeting:

COMMITTEE ON PRIVATE VOLUNTARY AGENCY ELIGIBILITY

Date and time: February 7, 1978, 10 a.m.  
Place: U.S. Civil Service Commission, 1900 E Street NW., Washington, D.C., room 7B09.  
Type of meeting: Open. Any interested person may file a written statement with the Committee in advance of or at the meeting.

Contact person: Margaret Davis, Office of the Assistant to the Chairman, U.S. Civil Service Commission, 1900 E Street NW., Washington, D.C. 20415, telephone 202-632-5564.

Purpose of committee: To make recommendations to the Chairman of the Civil Service Commission regarding eligibility of national voluntary agencies to participate in the Federal fund-raising program.

Agenda: To review applications for fund-raising privileges which have been submitted to voluntary organizations to the Commission in compliance with the Federal Fund-Raising Manual.

Dated: January 20, 1978.

GEORGE J. MCQUOID,  
Assistant to the Chairman.

#### MARILYN HANDBAGS, INC., ET AL.

#### Petitions for a Determination of Eligibility To Apply for Trade Adjustment Assistance

Petitions were accepted for filing on January 10, 1978, from three firms: (1) Marilyn Handbags, Inc., 1910 Cross Bronx Expressway, Bronx, N.Y. 10473, a producer of handbags; (2) Breezy Bay Inc., 1773 West 33rd Place, Hialeah, Fla. 33012, a producer of women's coats; and (3) Kessler Shoe Manufacturing Co., Inc., 191 Shaeffer Avenue, Westminster, Md. 21157, a producer of children's shoes. The petitions, were submitted pursuant to section 251 of the Trade Act of 1974 (Pub. L. 93-618) and § 315.23 of the Adjustment Assistance Regulations for Firms and Communities (13 CFR Part 315). Consequently, the U.S. Department of Commerce has initiated separate investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of the petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Chief, Trade Act Certification Division, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business January 30, 1978.

CHARLES L. SMITH,  
Acting Chief, Trade Act Certification Division, Office of  
Planning and Program Support.

#### [3510-25]

#### TELECOMMUNICATIONS EQUIPMENT TECHNICAL ADVISORY COMMITTEE

#### Partially Closed Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (1976 ed.), notice is

hereby given that a meeting of the Telecommunications Equipment Technical Advisory Committee will be held on Thursday, February 9, 1978, at 10 a.m. in Room 3817, Main Commerce Building, 14th and Constitution Avenue, NW., Washington, D.C.

The Telecommunications Equipment Technical Advisory Committee was initially established on April 5, 1973. On March 12, 1975 and March 16, 1977, the Acting Assistant Secretary for Administration approved the recharter and extension of the Committee pursuant to section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act.

The Committee advises the Office of Export Administration with respect to questions involving (A) technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to telecommunications equipment, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls.

The Committee meeting agenda has six parts:

#### GENERAL SESSION

- (1) Opening remarks by the Chairman.
- (2) Presentation of papers or comments by the public.
- (3) Review of December 14, 1977 meeting.
- (4) Report on recent market developments in USSR and Eastern Europe since the last meeting.
- (5) Review of final draft outlines for the annual report.

#### EXECUTIVE SESSION

- (6) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The General Session of the meeting is open to the public, at which a limited number of seats will be available. To the extent time permits, members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (6), the Acting Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on April 22, 1977, pursuant to section 10(d) of the Federal Advisory Committee Act, as amended by Section 5(c) of the Government In The Sunshine Act, Pub. L. 94-409, that the matters to be discussed in the Executive Session should be exempt from the provisions of the Federal Advisory Committee Act

relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552b(c)(1). Such matters are specifically authorized under criteria established by an Executive Order to be kept secret in the interests of national defense or foreign policy. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under the Executive Order. All Committee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Industry and Trade Administration, Room 3012, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Industry and Trade Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202-377-4196.

The complete Notice of Determination to close meetings or portions thereof of the series of meetings of the Telecommunications Equipment Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER on May 25, 1977 (42 FR 26682).

Dated: January 17, 1978.

RAUER H. MEYER,  
Director, Office of Export Administration, Bureau of Trade Regulation, U.S. Department of Commerce.

[FR Doc. 78-1620 Filed 1-19-78; 8:45 am]

#### [3510-25]

##### HARDWARE SUBCOMMITTEE OF THE COMPUTER SYSTEMS-TECHNICAL ADVISORY COMMITTEE

#### Closed Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (1976 ed.), notice is hereby given that a meeting of the Hardware Subcommittee of the Computer Systems Technical Advisory Committee will be held on Wednesday, February 15, 1978, at 9 a.m. in Room 4833, Main Commerce Building, 14th and Constitution Avenue NW., Washington, D.C.

The Computer Systems Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974 and January 13, 1977, the Assistant Secretary for Administration approved the recharter and extension of the Committee, pursuant to section 5(c)(1) of the Export Adminis-

tration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act. The Hardware Subcommittee of the Computer Systems Technical Advisory Committee was established on July 8, 1975, with the approval of the Director, Office of Export Administration, pursuant to the Charter of the Committee.

The Committee advises the Office of Export Administration with respect to questions involving (A) technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to computer systems, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls. The Hardware Subcommittee was formed to continue the work of the Performance Characteristics and Performance Measurements Subcommittee, pertaining to (a) Maintenance of the processor performance tables and further investigation of total systems performance; and (b) Investigation of array processors in terms of establishing the significance of these devices and determining the differences in characteristics of various types of these devices.

The subcommittee will meet only in executive session to discuss matters properly classified under Executive Order 11652, dealing with the United States and COCOM control program and strategic criteria related thereto.

Written statements may be submitted at any time before or after the meeting.

The Acting Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on January 27, 1977, pursuant to section 10(d) of the Federal Advisory Committee Act, as amended by section 5(c) of the Government In The Sunshine Act, Pub. L. 94-409, that the matters to be discussed during the meeting should be exempt from the provisions of the Federal Advisory Committee Act relating to open meetings and public participation therein, because the meeting will be concerned with matters listed in 5 U.S.C. 552b(c)(1). Such matters are specifically authorized under criteria established by an executive order to be kept secret in the interests of national defense or foreign policy. All materials to be reviewed and discussed by the Subcommittee during the meeting have been properly classified under Executive Order 11652. All subcommittee members have appropriate security clearances.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Industry and Trade Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230 telephone: 202-377-4196.

The complete Notice of Determination to close meetings or portions thereof of the series of meetings of the Computer Systems Technical Advisory Committee and of any Subcommittees thereof, was published in the FEDERAL REGISTER on February 2, 1977 (42 FR 6374).

Dated: January 17, 1978.

RAUER H. MEYER,  
Director, Office of Export Administration, Bureau of Trade Regulation, U.S. Department of Commerce.

#### [3510-25]

##### Industry and Trade Administration

##### EXPORT MONITORING REPORT FOR COAL AND COKE OF COAL

Week Ending December 9, 1977

On December 7, 1977, the Department of Commerce announced the monitoring of exports and anticipated exports of bituminous coal and coke of coal under section 4(c)(1) of the Export Administration Act of 1969, as amended. This announcement followed by one day the commencement of a United Mine Workers' strike, which began upon the expiration of the union's contract with the Bituminous Coal Operators' Association. Similar monitoring programs were conducted by the Department during the coal strikes of 1974 and 1971. Details of the monitoring program were published in the FEDERAL REGISTER December 12, 1977 (42 FR 62361-2).

Total bituminous coal exports for the week ending December 9 were 679,883 short tons. This level of coal exports is substantially below December weekly exports for prior years. In December 1976, average weekly exports were 1,044,281 short tons and, in December 1975, were 1,023,827 short tons. Export contracts calling for shipment during the next 6 and 12 weeks indicate that, if sufficient coal is available, exports will continue at close to this lower than normal level. The present reduced level of bituminous coal exports reflects the fact that these exports consist primarily of metallurgical grades of coal used in the production of coke, the major energy source in steel-making operations. Reduced steelmaking operations worldwide have resulted in ample stocks of metallurgical coal in most developed countries; and the expectation that foreign steel operations will continue at the

current reduced rate has resulted in decreased purchases of U.S. coal. The low level of exports also reflects, in part, efforts by certain major importing countries within recent years to reduce their dependence on the U.S. for metallurgical coal, by purchasing from other countries, such as Canada, Australia, and the Soviet Union.

Low volatile metallurgical coal is a critical ingredient in the coal mix used to produce coke and usually is the most costly coal variety. If the current coal strike continues for an extended period, shortages of this type of coal will probably be the first to occur, since its production is limited and concentrated predominantly in areas heavily impacted by the U.M.W. strike. Moreover, the strike may lead to increased use of lower than normal grades of coal for coke production, and this in turn could increase the demand for low volatile coal for blending with those lower grades in order to achieve desired coke properties.

During this survey period, 199,136 short tons of low volatile metallurgical coal were exported. Projected export data, based upon contracts outstanding at the end of the week, indicate that this level of exports of low volatile coal will continue if supplies are available to the exporters. In the week under review, Asia was the major geographical area importing low volatile coal, taking 111,525 short tons. The remaining exports were divided almost equally between Europe and the Western Hemisphere. Reported export contracts show that exports to Asia and Europe will continue at about this week's level. However, the shipments to the Western Hemisphere, primarily to Canada via the Great Lakes, are expected to drop as the lakes freeze over to a weekly level of 5,000 short tons, or less. The average export price of this coal, which reflects world prices, was \$60.38. The high and low prices included in this weighted average were \$62.21 and \$52.19, respectively.

Medium volatile metallurgical coal exports for the week were 283,420 short tons, and forward contract data indicate that, with adequate coal availability, this export level will continue. Europe was the primary importing region, with 173,711 short tons, followed closely by Asia, with 102,906 short tons. The Western Hemisphere accounted for 6,803 short tons of medium volatile metallurgical coal exports. The average price of this coal variety was \$53.16, with a high and low price for the week of \$59.90 and \$42.00, respectively. High volatile metallurgical coal exports for the week were 47,055 short tons. This appears to be a relatively low level of exports for this grade of coal, since contracts calling for export during the next three weeks indicate weekly exports of between 129,000 and 297,000 short tons.

This lesser value and quality metallurgical coal faces greater competition from foreign coal producers located closer to the consuming countries. The Western Hemisphere thus accounts for the largest share of U.S. exports of this grade of coal, with significantly lesser quantities being exported to Asia and Europe, where Australian/Chinese and Polish/Russian coal, respectively, are competitive with U.S. production. The average export price of this grade of coal during the week was \$47.76, with a high of \$53.30 and a low of \$43.71.

Other bituminous coal, i.e. steam or boiler coal, is the lowest and least costly grade of bituminous coal. It is also the most readily available and widely consumed grade, being used primarily by electric utilities. Greater foreign availability of this type of coal has resulted in its transportation over the shortest, most economical distance between producer and consumer, with U.S. exports being limited economically to Western Hemisphere destinations. During the week ending December 9, exports of this grade of coal were 129,424 short tons, a somewhat higher figure than projected weekly exports for the next twelve weeks. This comparatively high export level probably reflects power plant stockpiling in anticipation of the current strike. Prices of these coal exports averaged \$35.64. The low was \$33.53. The high of \$38.50 is abnormal, reflecting unusual circumstances applicable to a reported transaction.

Exports of coke of coal during the week were only 3,922 short tons. Future export contracts vary widely, however, ranging between approximately 1,900 and 85,700 short tons. The U.S. is neither a major exporter nor importer of this commodity. Historically, the U.S. exports about 1.3 million short tons of coke of coal per year and imports about 0.2 million short tons. Average prices of U.S. coke exports during the week were \$126.84, with a high and low, respectively, of \$137.79 and \$94.60.

Total bituminous coal imports into the U.S. have historically run about 2.0 million short tons per year (compared to total exports of approximately 60 million short tons) and are not considered significant. Therefore, import data is not being collected on a weekly basis by either the Department of Commerce or the Department of Energy, and weekly import data is not included in this report. Similarly, the Department of Commerce is collecting weekly data on the export of coke, but neither the Department of Commerce nor the Department of Energy is collecting data on coke imports on a weekly basis.

Domestic coal data being developed by the Department of Energy show that total coal production for the

## NOTICES

week ending December 10, was 9,100,000 short tons, a drop of 61 percent as a result of the strike, from 14,798,000 short tons produced the preceding week. Coal consumption for the week ending December 10 showed no significant change from weekly averages for the month of December in the two preceding years. Coal stocks, however, increased significantly over prior years in the categories of both metallurgical coal used by the steel industry and steam coal used by electric utilities and general industry. Total domestic stocks of bituminous coal for the week were calculated by the Department of Energy at 171,925,000 short tons, compared with December month-end stocks, in 1976 and 1975, of 134,172,000 and 126,882,000 short tons, respectively.

The Department of Energy is not collecting data on domestic coal prices on a weekly basis. Therefore, price data on coal (f.o.b. mine) and coke (f.o.b. coke plant) presented in the publication "Coal Week" were selected for inclusion in this report. These data show that low volatile metallurgical coal was selling on the domestic spot market, during the week ending December 10, at \$44-\$51 per short ton, while domestic selling prices under long term contract ranged from \$43-\$50 a short ton. Medium volatile metallurgical coal domestic selling prices on a spot and contract basis were \$31-

\$37 and \$40-\$43 a short ton, respectively. High volatile metallurgical coal spot and contract sales prices in the domestic market were \$29-\$36 and \$31-\$38, respectively. Other bituminous, or steam, coal was priced on the spot market at \$18.87 and, on the contract market, at \$19.12 a short ton. Spot market furnace coke, used in steel plant blast furnaces, was priced at \$85-\$90 per short ton, while spot foundry coke, used in foundry cupolas, was priced at \$129-\$134 short ton. No unusual movement in coal or coke of coal pricing was noted during the week, with domestic prices for all grades of bituminous coal remaining substantially beneath export prices reported on an f.o.b. port of export basis, while coke prices were nearly comparable.

In general, data developed during the first week of coal export monitoring showed that the strike had not yet had an appreciable impact on exports. If the strike continues, coal and coke of coal exports are expected to continue at near their present levels for two or three more weeks, while coal and coke at port in transit to port of export when the strike began is moved out. Thereafter, exports will probably drop significantly.

Tables of exports; export contracts; exports and imports; production, consumption and stocks; and domestic and export prices follow:

NEW ENGLAND FISHERY MANAGEMENT  
COUNCIL

Public Meeting

The New England Fishery Management Council, established by section 302 of the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265), will meet February 8-9, 1978, at the Holiday Inn, junction of Routes 1 and 128, Peabody, Mass. The meeting starts at 10 a.m. on February 8th and adjourns at approximately 5 p.m.; on February 9th starts at 9 a.m. and adjourns at approximately 5 p.m.

PROPOSED AGENDA

(1) Groundfish Plan for 1978; (2) Herring Plan for 1978; the Council will schedule a public hearing at 1:30 p.m., February 9, 1978, during its regular meeting to receive public comment on the proposed herring management plan seasonal and real quotas; and (3) other business.

Meeting is open to the public. For more information on seating, changes to the agenda, or written comments, contact Spencer Apollonio, Executive Director, New England Fishery Management Council, Peabody Office Building, One Newbury Street, Peabody, Mass. 01960, telephone: 617: 535-5450.

Dated: January 17, 1978.

WINFRED H. MEIBOHM,  
Associate Director,  
National Marine Fisheries  
Service.

COMMITTEE FOR PURCHASE FROM  
THE BLIND AND OTHER SEVERELY  
HANDICAPPED

PROCUREMENT LIST 1978

Proposed Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed addition to procurement list.

SUMMARY: The Committee has received a proposal to add to Procurement List 1978 a commodity to be produced by workshops for the blind and other severely handicapped.

COMMENTS MUST BE RECEIVED ON OR BEFORE: February 22, 1978.

ADDRESS: Committee for Purchase from the Blind and Other Severely

NOTICES

Handicapped, 2009 14th Street North, Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher 703-557-1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77.

If the Committee approves the proposed addition, all entities of the Federal Government will be required to procure the commodity listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following commodity to Procurement List 1978, November 14, 1977 (42 FR 59015):

CLASS 1440

Circuit card Assembly, 1440-00-454-8574.

E. R. ALLEY, Jr.,  
Acting Executive Director.

[FR Doc. 78-1616 Filed 1-19-78; 8:45 am]

[6820-33]

PROCUREMENT LIST 1978

Proposed Deletions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed deletion from the procurement list.

SUMMARY: The Committee has received a proposal to delete from Procurement List 1978 services provided by workshops for the blind or other severely handicapped.

COMMENTS MUST BE RECEIVED ON OR BEFORE: February 22, 1978.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77.

It is proposed to delete the following services from Procurement List 1978, November 14, 1977 (42 FR 59015):

SIC 7349

Janitorial/Custodial, National Marine Fisheries Complex, 2725 Montlake Boulevard East, Seattle, Wash., for the West, Central, East, and Pilot Plant Buildings; and the Behavior Laboratory.

SIC 7641

Furniture Rehabilitation, Rickenbacker Air

Force Base, Columbus, Ohio; Wright-Patterson Air Force Base, Dayton, Ohio.

E. R. ALLEY, Jr.,  
Acting Executive Director.

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Deletion from procurement list.

SUMMARY: The Committee has received a proposal to delete from Procurement List 1978 a service provided by workshops for the blind or other severely handicapped.

EFFECTIVE DATE: January 20, 1978.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: On November 28, 1977, the Committee for Purchase from the Blind and Other Severely Handicapped published a notice (42 FR 60587) of proposed deletion from Procurement List 1978, November 14, 1977 (42 FR 59015).

After consideration of the relevant matter presented, the Committee has determined that the service listed below is no longer suitable for procurement by the Federal Government under 41 U.S.C. 46-48(c), 85 Stat. 77.

Accordingly, the following service is hereby deleted from Procurement List 1978:

SIC 7542

Vehicle Detailing, Duluth, Minn., plus 10-mile radius.

E. R. ALLEY, Jr.,  
Acting Executive Director.

PROCUREMENT LIST 1978

Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Additions to procurement list.

SUMMARY: This action adds to Procurement List 1978 commodities to be produced by workshops for the blind or other severely handicapped.

NOTICES

2917

Dated: January 16, 1978.

FRANCIS C. CADIGAN, Jr.,  
Colonel, MC,

Director, Biomedical Laboratory.

DEPARTMENT OF ENERGY

VOLUNTARY AGREEMENT AND PLAN OF  
ACTION TO IMPLEMENT THE INTERNATIONAL  
ENERGY PROGRAM

Meetings

In accordance with section 252(c)(1)(A)(i) of the Energy Policy and Conservation Act (Pub. L. 94-163), notice is hereby provided of the following meetings:

A meeting of Subcommittee A of the Industry Advisory Board (IAB) to the International Energy Agency (IEA) will be held on January 23, 1978, at the offices of Exxon Corp., 1251 Avenue of the Americas, New York, N.Y., beginning at 9:30 a.m. The agenda is as follows:

1. Opening remarks.
2. Finalize proposed test guide for Allocation Systems Test-2 (AST-2) including:
  - (a) Review comments on preliminary guide made by Reporting Companies and National Emergency Sharing Organizations (NESOs).
  - (b) Review items covered in Exxon telex dated December 22, 1977, to IEA Secretariat.
  - (c) Handling of base period final consumption.
3. Review Gulf proposal for data to be used by the Industry Supply Advisory Group (ISAG) in AST-2.
4. Review ISAG work procedures in evaluating Phase 2 offers in AST-2.
5. Review ISAG data formats.
6. Review reference materials required by ISAG in AST-2.
7. Future work program.
  - (a) Plans for NESO and Reporting Company briefing meetings—schedule, agenda, participation and responsibility.
  - (b) Schedule for other meetings required prior to AST-2.
  - (c) Tentative schedule of meetings required following AST-2.

A meeting of Subcommittee A of the Industry Advisory Board to the International Energy Agency (IEA) will be held on January 24 and 25, 1978, at the offices of Exxon Corp., 1251 Avenue of the Americas, New York, N.Y., beginning at 9 a.m. on January 24. The agenda is as follows:

1. Opening remarks.
2. Approve proposed final test guide for AST-2.
3. Review items related to AST-2.
  - (a) Proposed data to be used by ISAG.
  - (b) Status of government legal clearances required.
  - (c) ISAG work procedures for evaluation of Phase 2 offers.
  - (d) ISAG data formats.
  - (e) Reference material required by ISAG.
  - (f) Plans for Reporting Company/NESO briefing meetings.

4. Review Secretariat proposal for revised handling of base period final consumption.
5. Future work program.

A meeting of the Industry Advisory Board (IAB) to the International Energy Agency (IEA) will be held on January 26, 1978, at the offices of Mobil Oil Corp., 150 East 42nd Street, New York, N.Y., beginning at 9:30 a.m. The agenda is as follows:

1. Opening remarks by Chairman including:
  - (a) Communications to and from IEA.
  - (b) Report on meeting of the Standing Group on Emergency Questions (SEQ) of December 13, 1977.
2. Matters arising from record note of IAB meeting on December 1, 1977.
3. Position of Reporting Companies under:
  - (a) EEC competition regulations.
  - (b) U.S. Voluntary Agreement.
4. Report by IEA Secretariat on status of National Emergency Sharing Organizations (NESOs).
5. Report on and discussion of work of Subcommittee A, including:
  - (a) Spring 1978 Allocations Systems Test, including:
    - i. Approval of final test guide and associated procedures.
    - ii. Review of clearances required for data seen by ISAG members.
    - iii. Review of status of other governmental or legal clearances required for AST-2.
    - iv. Future work program.
  - (b) Review of IEA Secretariat's revised proposal for handling base period final consumption data.
6. Report on and discussion of work of Subcommittee C, including:
  - (a) Extraordinary and additional costs.
  - (b) Settlement of disputes.
  - (c) Pricing in an emergency.
  - (d) Membership of subcommittee.
7. Report on Industry Supply Advisory Group (ISAG).
8. Dates and venues of future meetings of IAB and subcommittees.

As provided in section 252(c)(1)(A)(ii) of the Energy Policy and Conservation Act, these meetings will not be open to the public. As provided by section 209.32 of DOE regulations, IEP requirements and anticipated procedural delays in processing this notice require the usual seven day notice period to be shortened.

Issued in Washington, D.C., January 18, 1978.

WILLIAM S. HEFFELFINGER,  
Director of Administration,  
Department of Energy.

[FR Doc. 78-1922 Filed 1-19-78; 8:45 am]

[3128-01]

Economic Regulatory Administration

SYSTEM TO MONITOR NO. 2 (HOME)  
HEATING OIL PRICES

Notice of Adoption

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of adoption of monitoring system.

**SUMMARY:** The Economic Regulatory Administration ("ERA") of the Department of Energy ("DOE") hereby announces the adoption of a system to be used by ERA to monitor No. 2 heating oil (also referred to as home heating oil) prices during the current heating season (November 1977 through March 1978). The Energy Information Administration ("EIA") of DOE will conduct a survey of sellers of No. 2 heating oil to obtain information on actual prices and gross margins for the refining, wholesaling and retailing sectors and will publish such information monthly. During the current heating season ERA will review this price information and any other available information on the marketing of No. 2 heating oil to determine whether any further regulatory actions are appropriate. DOE will task a subcommittee of its Fuel Oil Marketing Advisory Committee, comprised of representatives from ERA, industry, consumers and State Energy Offices, to advise and assist ERA in its evaluation of the marketing of No. 2 heating oil during the current heating season.

To assist in the evaluation of price increases to nonultimate consumers at the refining level, an index estimating what price levels would have been allowed under continued price controls will be computed and published monthly. To assist in the evaluation of price increases at the wholesaling and retailing levels, ERA will develop benchmark margins for No. 2 heating oil at the wholesaling and retailing levels which will reflect the marketing costs and allow sufficient margins to further the objectives of the Emergency Petroleum Allocation Act of 1973 (Pub. L. 93-159, "EPAA"). DOE will hold a public evidentiary hearing in August 1978 to consider the need for further regulatory action with regard to No. 2 heating oil in light of all available information. In order to ensure that consumer interests are adequately represented at the hearing, representatives of consumer interests are invited to submit applications to the DOE Office of Administrative Review of the ERA for financial assistance to facilitate their participation.

**ADDRESSES:** Send complaints to: Middle Distillate Complaint Section, Office of Fuels Regulation, Economic Regulatory Administration, Department of Energy, Room 6222, 2000 M Street NW., Washington, D.C. 20461, Telephone: Washington, D.C. metropolitan area, Alaska, and Hawaii: 202-254-8583, all other areas 800-424-8002. Send petitions for intervenor funding to Office of Administrative Review, Economic Regulatory Administration, Department of Energy, 2000 M Street NW., Washington, D.C. 20461, 202-254-5134.

**FOR FURTHER INFORMATION CONTACT:**

Ed Villade (Media Relations), Department of Energy, 12th & Pennsylvania Avenue NW., Room 3104, Washington, D.C. 20461, 202-566-9833.

Gerald P. Emmer (Office of Petroleum Allocation), Economic Regulatory Administration, 2000 M Street NW., Room 2304, Washington, D.C. 20461, 202-254-7200.

Ben McRae (Office of General Counsel), Department of Energy, 12th & Pennsylvania Avenue NW., Room 5134, Washington, D.C. 20461, 202-566-9565.

Paul Burke (Office of Fuels Regulation), Economic Regulatory Administration, 2000 M Street NW., Washington, D.C. 20461, 202-254-5338.

William C. Gillespie (Prices, Costs, and Marketing Branch), Energy Information Administration, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, 202-566-9307.

#### SUPPLEMENTARY INFORMATION:

##### I. BACKGROUND

##### II. DISCUSSION OF COMMENTS

##### III. MONITORING SYSTEM ADOPTED

###### A. COLLECTION OF DATA

###### B. PUBLICATION OF DATA

###### C. EVALUATION OF REFINING, WHOLESALING AND RETAILING SECTORS

1. Refining sector.
2. Wholesaling and retailing sectors.
3. Complaints from the public.
4. Evidentiary hearing.
5. Intervenor funding.

###### D. REMEDIAL ACTIONS

1. Audits.
2. Hearings.
3. Further measures.
4. Reimposition of controls.

##### I. BACKGROUND

Following the July 1, 1976 exemption of middle distillates, including No. 2 heating oil and No. 2-D diesel fuel, from price and allocation controls (41 FR 24518, June 16, 1976), the Federal Energy Administration ("FEA") instituted a system which monitored the actual average prices of No. 2 heating oil to ultimate consumers and No. 2-D diesel fuel to ultimate consumers for on-highway use on a national and regional level (41 FR 41155, September 21, 1976; 42 FR 9415, February 16, 1977). Pursuant to a commitment given to Congress for the 1976-77 heating season, FEA compared these prices against indices which FEA had developed as estimates of what the national and regional prices of No. 2 heating oil to ultimate consumers and No. 2-D diesel fuel to ultimate consumers for on-highway use would have been if regulatory controls were still in effect, plus a flexibility factor of two

cents per gallon. FEA published both the actual prices and the index prices.

In July and August 1977, FEA held regional and national hearings at which consideration was given to what action, if any, should be undertaken with respect to middle distillate prices. In light of the statements presented at these hearings and written comments received with regard to this matter, FEA determined not to reimpose price controls on middle distillates, but to continue the monitoring of middle distillate prices so that the Agency would possess the information with which to determine what further action, if any, would be appropriate with regard to middle distillates.

On September 30, 1977 (42 FR 54444, October 6, 1977), FEA issued a proposed system to monitor middle distillate prices. Under this system, FEA would have continued to survey the prices of No. 2 heating oil and No. 2-D diesel fuel. However, since prior hearings and written comments had indicated that the greatest concern of consumers related to residential prices of No. 2 heating oil, FEA proposed calculation and publication of national and regional indices only for residential sales of No. 2 heating oil. These indices would have been calculated in the same manner as the indices for No. 2 heating oil during the 1976-77 heating season except that only residential prices would have been estimated as though controls had been continued and the calculation mechanism would have been refined to reflect criticisms that had been made of specific components thereof.

On October 17 and 20, 1977, regional hearings on this proposed system were held in Boston, Chicago and New York. On October 19 and 20, 1977, a national hearing was held in Washington, D.C. Written comments were requested by October 21, 1977. Following an analysis of the statements made at the hearings and of the written comments, representatives of DOE (which, effective October 1, 1977, had assumed the functions of FEA) met with representatives of the industry, of consumer groups and of the general public in an effort to identify their concerns more precisely. On December 5, 1977, the DOE Fuel Oil Marketing Advisory Committee submitted its extensive White Paper on the competitive viability of independent fuel oil marketers.

##### II. DISCUSSION OF COMMENTS

In their comments, retailers contended that the market for retail sales of No. 2 heating oil is highly competitive. Retailers generally opposed any index that reflected DOE's calculation of hypothetically controlled prices at the retail level on the grounds that such a system would threaten the economic viability of many retailers by focusing too much public attention on

retail sales and by forcing the freezing of retail margins at an unrealistically low figure. They stated that the monitoring of actual prices at each market level would give DOE adequate information. In addition, retailers commented unfavorably on the reporting burden which the proposed monitoring system would place on them.

Refiners opposed the proposed monitoring system as unnecessary in light of the performance of the industry during the 1976-77 heating season. Moreover, several difficulties with the calculation of the index contained within the proposed system were asserted. Several refiners also indicated that they would prefer a system which would furnish the public with the average prices charged at different market levels.

Consumer groups generally supported the proposed monitoring system as an improvement over the system employed during the last heating season, especially with regard to its emphasis on residential sales and the use of smaller geographic regions. They indicated preference, however, for a system which would produce information of a more current and localized nature with regard to actual prices and stated that the proposed system would not provide sufficient data for distribution levels other than the retail level. They also contended that an analysis based on the margins of firms at each distribution level would provide a more valid indication of possible abuses than a comparison of actual prices against the proposed index at the retail level.

##### III. MONITORING SYSTEM ADOPTED

Based on all the information available, DOE has determined that a program of continued and expanded monitoring of No. 2 heating oil is needed. Accordingly, DOE will implement a program designed to monitor each level of the No. 2 heating oil distribution system—refining, wholesaling, and retailing. Monitoring will be effectuated through a number of approaches. Whenever any element of this process of gathering and evaluating information on the marketing of No. 2 heating oil produces a finding that regulatory action is necessary to achieve the objectives of the EPAA, DOE will undertake appropriate action. This program for monitoring and evaluating the performance of refiners, wholesalers and retailers with regard to the marketing of No. 2 heating oil has been established only for the 1977-1978 heating season. Any program for future heating seasons will be considered in light of the findings on this heating season.

###### A. COLLECTION OF DATA

To insure that ERA has sufficient information on the prices charged for

No. 2 heating oil so that it might determine what action, if any, is appropriate, EIA will collect information with regard to the prices of No. 2 heating oil through the utilization of the following forms: (1) Form P-302-M-1 which surveys all refiners and all resellers and retailers who derive \$50 million or more in annual revenues from the sale of petroleum products to determine the amounts sold and the weighted average selling prices for various petroleum products, including No. 2 heating oil, sold at the wholesaling and retailing levels by the reporting firms; (2) Form P-110-M-1 which surveys all refiners to determine the monthly allocation to covered products of increased costs over the base period for calculating the appropriate cost pass through under the regulations; and (3) Form P-112-M-1 which surveys a scientifically selected sample of firms which sell No. 2 heating oil to determine the cost of purchased product, the selling price and the amounts of No. 2 heating oil sold to various categories of buyers by the reporting firms. Form P-302-M-1 is being revised to require disclosure of the percentage of the volume of total refinery output accounted for by No. 2 heating oil, and more complete information on refiners' non-product costs.

###### B. PUBLICATION OF DATA

DOE believes that both industry and consumers will find the information reported to DOE valuable in evaluating the performance of market forces in establishing the prices charged for residential sales of No. 2 heating oil. Therefore, after EIA has compiled these data, it will publish a summary of its findings with regard to average sales prices and average gross margins at the refining, wholesaling, and retailing levels. This summary will enable consumers to determine the degree to which any increases in price reflect changes in product costs or increases in gross margins. (In any analysis based on gross margins, it should be recognized that average gross margins do not reflect average net profits of said firms, since a firm's average gross margin generally includes various cost elements, such as transportation, storage, wages, insurance, interest expenses, services, etc.) Publication of the summary will necessarily occur two months after the month to which the findings pertain, to allow for the reporting, verification and compilation of the data.

For sales of No. 2 heating oil to non-ultimate consumers by refiners, DOE will publish for the nation and each DOE region (1) the actual average price, (2) the range of prices, and (3) the average gross margin (i.e., the weighted average of the difference between selling prices for sales to non-ultimate consumers and the weighted

average cost of crude oil and purchased product for each refiner; Appendix I contains a more detailed explanation of the calculation of this gross margin).

For sales of No. 2 heating oil to non-ultimate consumers (i.e., resellers, retailers, and reseller/retailers) by non-refiners, DOE will publish for the nation and each DOE region (1) actual average prices, (2) the range of prices, and (3) the average gross margin (i.e., the weighted average of the difference between selling prices for sales to non-ultimate consumers and the weighted average cost of purchased product for each non-refiner; Appendix II contains a more detailed explanation of the calculation of this gross margin).

For residential sales of No. 2 heating oil, DOE will publish for the nation, each DOE region and those states with significant sales of residential No. 2 heating oil (a list of which appears in Appendix V) (1) the actual average prices, (2) the range of prices, and (3) the average gross margin for non-refiner firms selling to residential users (i.e., the weighted average of the difference between the residential selling price and the weighted average cost of purchased product for each non-refiner; Appendix III contains a more detailed explanation of the calculation of this gross margin).

DOE recognizes the value of information of a more current and localized nature regarding actual average prices for residential sales of No. 2 heating oil than that which DOE will collect. To that end, DOE has established a pilot program assisting the New England States in pursuing alternative methods of monitoring residential heating oil prices on either a weekly or biweekly basis during the current heating season. These efforts are designed to identify and test methods to be utilized by State Energy Offices in developing price monitoring systems to meet their own state needs. States participating include Vermont, Connecticut, Massachusetts, Rhode Island, New Hampshire, and Maine.

###### C. EVALUATION OF REFINING, WHOLESALING AND RETAILING SECTORS

1. *Refining sector.* DOE will evaluate the available information on prices charged by refiners for sales of No. 2 heating oil to non-ultimate consumers so that possible unjustified price increases can be identified and appropriate action taken. To aid in this evaluation of prices at the refining level for sales to non-ultimate consumers, DOE will establish an index for the nation and each DOE region which will estimate what price levels would have been allowed under the provisions of 10 CFR 212.83 if price controls had been continued. The indices will be based on June 1977 instead of May 1973) prices adjusted to reflect

changes in crude oil, non-product and purchased product costs, computed in the same manner as in 10 CFR 212.83, plus cost increases not recouped between June 1977 and the month to which the indices refer. (Appendix IV contains a more detailed explanation of these indices.) DOE will compare against these indices the corresponding actual average prices for sales of No. 2 heating oil to non-ultimate consumers by refiners. In order to assist the industry and the public in evaluating the published information on refiner prices, DOE will publish on a national and regional basis the index prices for refiner sales of No. 2 heating oil.

The Office of Fuels Regulation of ERA will analyze refiner prices and gross margins throughout the current heating season, and will present this analysis to a subcommittee of the Fuel Oil Marketing Committee ("Subcommittee"), comprised of representatives of industry, consumer groups, state energy offices, and DOE, established to advise the Office of Fuels Regulation on the evaluation of the marketing of No. 2 heating oil during the current heating season. The Subcommittee will assist the Office of Fuels Regulation in the analysis of refiner prices and gross margins throughout the current heating season. DOE will make available data from its present refinery audit program, and ERA Office of Enforcement or the Office of Special Counsel for Compliance may initiate refinery audits either on their own initiative, or in response to requests by the Subcommittee, State Energy Offices or complaints to DOE.

2. *Wholesaling and retailing sectors.* Section 4(b)(1) of the EPAA sets forth the objectives to be achieved with regard to the allocation and pricing of petroleum products. In order to establish more clearly whether these objectives are being achieved with regard to No. 2 heating oil, the Office of Fuels Regulation will study the marketing of No. 2 heating oil by wholesalers and retailers during the current and prior heating seasons so that trends within the heating oil industry can be identified and their impact on the goals of the EPAA can be analyzed. Inasmuch as the policy stated in section 4(b)(1) of the EPAA contemplates more than equitable price levels, such study will include not only the causes of any price increases for No. 2 heating oil, but also the nature and intensity of competition in the heating oil market and the economic viability of various sectors of that market. Copies of the DOE Fuel Oil Marketing Advisory Committee White Paper analyzing the competitive viability of independent marketers will be available to the public through the Office of Fuels Regulation.

Although this study by the Office of Fuels Regulation will yield a compre-

hensive analysis of the factors which influence the marketing of No. 2 heating oil by wholesalers and retailers, DOE believes that the wholesale and retail marketing of No. 2 heating oil should be evaluated on a continuous basis throughout the current heating season so that appropriate regulatory actions can be considered on a timely basis. The effectiveness of any action by DOE during the heating season will be dependent on the length of time necessary for an identification and evaluation of indicators of whether the objectives of the EPAA are being achieved. If the marketing of No. 2 heating oil is subject to an event, such as an embargo on foreign crude oil, resulting in a large increase in prices charged for No. 2 heating oil, which is not justified by corresponding increases in product and non-product costs, DOE will immediately undertake the necessary regulatory response, including reimposition of controls. With regard to events for which the causes and effects are not so clear, DOE will not undertake regulatory action without the verification and evaluation of data concerning those events.

The information collected and verified by EIA with regard to prices charged for No. 2 heating oil may indicate possible frustration of the objectives of the EPAA. The timely utilization of this information, however, requires fair benchmarks against which the information can be compared. Therefore, the Office of Fuels Regulation will develop benchmark margins at the wholesaling and retailing levels for the nation and DOE regions for each month of the current heating season. Development of these benchmark margins will seek to accommodate the recoupment of all increased product and non-product costs and allow margins appropriate to the objectives of the EPAA, including preserving the competitive viability of independent marketers.

To insure a balanced analysis of each month's information, the Office of Fuels Regulation will present to the Subcommittee, by the fifteenth day of the month in which EIA publishes survey data on the price of No. 2 heating oil during a particular month of the current heating season, the following information: (1) the initial analysis of published data; (2) identification of distribution levels and/or regions where the data indicate potential unreasonable margin increases; (3) preliminary benchmark margins utilized in its analysis; and (4) the factors included in determining such benchmark margins. The Subcommittee will convene to consider this presentation from the Office of Fuels Regulation. ERA will choose a disinterested mediator who shall guide the discussion so that proper consideration shall be

given to the views of each Subcommittee member and qualified nonmember with regard to the cost elements to be considered in determining appropriate benchmarks and the relationship between such benchmarks and actual surveyed gross margins. The Subcommittee will then forward to the Office of Fuels Regulation its recommendations with respect to the reasonableness of gross margins for any particular distribution level or region of the nation. Moreover, the Subcommittee may suggest to the Office of Fuels Regulation the need for audits, conferences, or hearings to clarify discrepancies between actual average prices and benchmarks or to determine the actual wholesaler or retailer costs with regard to a specific item in the benchmark calculation.

After the conclusion of the Subcommittee meeting, the Office of Fuels Regulation will hold a public hearing to allow public comment on the reasonableness of No. 2 heating oil prices and the degree of competition and the viability of the retailing and wholesaling sectors, using the most recently published survey data by EIA on prices of No. 2 heating oil as the basis for such hearings. It is anticipated that the Subcommittee or members thereof may participate in these hearings.

Based on the results of the Subcommittee meeting, public hearings, analyses undertaken as a result of Subcommittee recommendations, and other action undertaken by DOE, the Office of Fuels Regulation will make and publish reports for each month of the heating season. These reports will detail the current status of the development of procedures to construct benchmarks for analyzing the reasonableness of No. 2 heating oil prices at the retailing and wholesaling levels and set forth actual average prices and actual average gross margins as well as benchmark margins for the latest month with regard to which EIA has published information on prices of No. 2 heating oil. A final report will be made on or before June 30, 1978, detailing procedures for the calculations of benchmarks for No. 2 heating oil at the wholesaling and retailing levels and containing benchmarks for each month of the current heating season based upon this procedure.

Moreover, DOE will request the Office of Enforcement to conduct audits of individual wholesalers and retailers in response to requests by the Subcommittee, State Energy Offices, or a significant number of complaints against a particular firm. DOE may also select firms for audit on a basis independent of their inclusion or exclusion for the list of firms which must file Form P-112-M-1.

If an audit discloses that a firm has a gross margin substantially in excess

of its historical gross margin and the gross margin currently employed in calculating the benchmark for that particular distribution level or region, DOE will promptly schedule a conference with that firm to determine whether the firm is charging excessive prices. DOE will attempt to negotiate a remedial course of action with respect to any entity which is found to be charging excessive prices. Moreover, as a result of such audits, DOE may undertake audits and hold hearings concerning the distribution level and/or region or particular area which contains the firm(s) potentially charging excessive prices to determine whether controls should be reimposed upon the particular distribution level and/or region.

3. *Complaints from the public.* To insure the achievement of all of the objectives of EPAA, DOE hereby establishes a mechanism to receive and evaluate complaints from individuals, organizations or State Energy Offices concerning the marketing of No. 2 heating oil. Complaints with respect to prices charged by refiners, wholesalers and retailers should be addressed to: Middle Distillate Complaint Section, Office of Fuels Regulation, Economic Regulatory Administration, Department of Energy, Room 6222, 2000 M Street NW., Washington, D.C. 20461; Telephone: Washington, D.C. metropolitan area, Alaska and Hawaii, 202-254-8583; all other areas, 800-424-8002.

4. *Evidentiary Hearing.* In July 1978, the Office of Fuels Regulation will publish its preliminary findings regarding the reasonableness of No. 2 heating oil prices during the 1977-78 heating season. In August 1978, the Office of Administrative Review will hold an evidentiary hearing to evaluate the performance of all levels of distribution of the heating oil industry and the need for any further regulatory action. The preliminary findings of the study of the marketing of No. 2 heating oil during the current and prior heating seasons by the Office of Fuels Regulation, the June report of the Office of Fuels Regulation on benchmarks for the 1977-78 heating season, and any other information obtained during the 1977-78 heating season will be considered at this hearing. The hearing will be conducted in a manner designed to test the validity of all data and conclusions introduced therein, including cross examination and rebuttal. Petitions which request specific administrative action by DOE with regard to the manner in which the evidentiary hearing will be conducted, or any other matter which bears on the hearing, should be filed with the Office of Administrative Review. With regard to the evaluation of the need for further regulatory action, actual average gross margins in

excess of the corresponding benchmarks contained in the final report will create the presumption of a need for further regulatory action. After consideration of the testimony, written comments and other available information, the Office of Administrative Review will transmit its findings to the ERA for a determination by the Administrator as to what further regulatory action, if any, is needed.

5. *Intervenor funding.* In order to ensure that consumer interests are adequately represented at the evidentiary hearing, any non-profit organization whose principal function involves the furtherance of consumer interests may submit an application for financial assistance to the Office of Administrative Review. An application to receive financial assistance to enable the organization to participate in the hearing should be filed in the form of a Petition for Special Redress. Each petition of this type should contain a detailed description of the purposes and functions of the organization which requests financial assistance and should indicate whether the organization operates on a non-profit basis. The Petition should also contain a description of the type of information which the petitioner plans to present at the hearing and the reasons why the petitioner's involvement in the hearing will substantially contribute to a full and fair determination of the complex and important issues to be considered in that proceeding. A budget which itemizes the expenses that the petitioner projects it will incur in order to present its position to the DOE should also be included. Finally, the Petition should be accompanied by documentation which establishes that unless the requested financial assistance is provided the organization involved will be unable to bear the costs of participating in the proceedings. The Petition must be filed with the Office of Administrative Review on or before February 21, 1978. The following Decision and Orders may be consulted for guidance as to the principles which have been applied in the past to applications for financial assistance of this type. *Consumers Union of United States, Inc.*, 5 FEA ¶ 87,014 (February 18, 1977), Supplemental Order, 5 FEA ¶ 87,014 (March 17, 1977); *Consumer Federation of America*, 5 FEA ¶ 87,034 (April 15, 1977), 5 FEA ¶ 87,040 (May 6, 1977), 5 FEA ¶ 87,051 (June 10, 1977).

#### D. REMEDIAL ACTIONS

If the analysis of the information supplied by any element of the monitoring system indicates that some price increases for No. 2 heating oil might be unjustified, ERA will undertake appropriate actions with regard to No. 2 heating oil which may include:

1. *Audits.* DOE may, at any time, conduct audits of firms to obtain more detailed information than the monitoring system provides. Firms will be selected for auditing on a basis independent of their inclusion or exclusion from the list of firms which must file Form EIA-9. The information obtained from these audits will be utilized to develop a more comprehensive background on the various factors which influence the price levels for No. 2 heating oil.

In order to have the capability to pursue audits on a timely basis, DOE will complete standby audit plans and designate standby audit groups which will allow such a "quick reaction" capability.

2. *Hearings.* ERA will hold public hearings throughout the current heating season to examine the factors which influence price levels for home heating oil. Such hearings may focus on the entire industry or on a particular market level and/or region. If appropriate, public hearings and audits will be coordinated to insure the inclusion of audit findings in the hearing records. Moreover, no later than August 1978, ERA will hold an evidentiary hearing to evaluate the performance of the industry during the 1977-78 heating season in light of the objectives of section 4(b)(1) of the EPAA and the effectiveness of the monitoring system.

3. *Further Measures.* DOE recognizes that there are other intermediate actions which may be more effective than audits or hearings. If there are significant price increases at any market and/or regional level, ERA may suggest price restraint on a voluntary basis for the appropriate sectors of the industry concerned. If it appears that the degree of voluntary price restraint is insufficient to achieve the goals of the EPAA, DOE will consider reimposition of controls.

4. *Reimposition of Controls.* Unless there is a strong showing that immediate reimposition of partial or complete controls is required to achieve the objectives of the EPAA during the current heating season, taking into account the possible dislocations that might result, ERA would not consider reimposition of controls until possibly the following heating season. Furthermore, ERA may reimpose controls on the entire industry or only on a particular market level and/or region.

In this regard, to the extent that market forces may in some instances be inadequate to restrain prices, ERA believes that individual firms should not be encouraged to charge prices that reflect excessive margins in the belief that excessive revenues obtained during a period of decontrol would be permitted to be retained following the reimposition of controls. Accordingly, should reimposition of controls

become necessary, ERA may require such firms to demonstrate that prices charged during the period of decontrol did not reflect excessive margins. To the extent that firms are found to have charged prices that reflect excessive margins, ERA may (following the reimposition of controls) require such firms to make adjustments to prices to reflect revenues received during the period of decontrol, which are found to have resulted from prices unreasonably in excess of those sufficient to insure the survival of the firm as an economically viable and competitive entity, and reflective of a competitive market place.

Issued in Washington, D.C., January 13, 1978.

JOHN F. O'LEARY,  
Deputy Secretary,  
Department of Energy.

#### APPENDIX I.—GROSS MARGIN FOR REFINERS' SALES TO NONULTIMATE CONSUMERS

$$M_n = \frac{\sum_{i=1}^n \sum_{t=1}^m \frac{P_{ni} - C_{ni}}{P_{ni}} \cdot \frac{V_{ni}}{V_{ni}}}{\sum_{i=1}^n \sum_{t=1}^m \frac{V_{ni}}{V_{ni}}}$$

Where:

$M_n$  = Refiners' average gross margin for sales of No. 2 heating oil to nonultimate consumers.

$P_{ni}$  = Average selling price for the  $i$ th refiner in month  $t$  for all sales of No. 2 heating oil to nonultimate consumers reported on Form EIA-9.

$C_{ni}$  = Average per unit cost of crude oil purchased by the  $i$ th refiner in month  $t$  reported on Form P-110.

$V_{ni}$  = Ratio of purchases of No. 2 heating oil to total sales of No. 2 heating oil by the  $i$ th refiner in month  $t$ . If purchases are greater than sales, then  $V_{ni} = 1$ .

$C_{ni}$  = Average per unit cost of No. 2 heating oil purchased by the  $i$ th refiner in month  $t$  reported on Form EIA-9.

$N_i$  = Volume of sales of No. 2 heating oil to nonultimate consumers in month  $t$  by the  $i$ th refiner as reported on Form EIA-9.

$m$  = Number of refiners with sales to nonultimate consumers as reported on Form EIA-9.

This formula refers to the national average gross margin for sales of refiners to nonultimate consumers. Regional margins would be calculated by using average prices derived for the given region.

#### APPENDIX II.—GROSS MARGIN FOR WHOLESALERS' SALES TO NONULTIMATE CONSUMERS

$$M_w = \frac{\sum_{i=1}^n \sum_{t=1}^m \frac{P_{wi} - C_{wi}}{P_{wi}} \cdot \frac{V_{wi}}{V_{wi}}}{\sum_{i=1}^n \sum_{t=1}^m \frac{V_{wi}}{V_{wi}}}$$

where:

$M_w$  = Wholesalers' (i.e., nonrefiners) average gross margin for sales of No. 2 heating oil to nonultimate consumers in month  $t$ .

$P_{wi}$  = Average selling price for all sales of No. 2 heating oil by the  $i$ th nonrefiner to nonultimate consumers in month  $t$  as reported on Form EIA-9.

$C_{wi}$  = Average per unit cost of No. 2 heating oil purchased by the  $i$ th nonrefiner in month  $t$  as reported on Form EIA-9.

$V_{wi}$  = Volume of sales of No. 2 heating oil to nonultimate consumers in month  $t$  by the  $i$ th nonrefiner as reported on Form EIA-9.

$n$  = Number of nonrefiners with sales of No. 2 heating oil to nonultimate consumers reporting Form EIA-9.

This formula refers to the national average gross margin for sales by nonrefiners to nonultimate consumers. Regional margins would be calculated by using data only for the given region.

#### APPENDIX III.—NONREFINERS' GROSS MARGIN FOR RESIDENTIAL SALES OF NO. 2 HEATING OIL

$$M_r = \frac{\sum_{i=1}^n \sum_{t=1}^m \frac{P_{ri} - C_{ri}}{P_{ri}} \cdot \frac{V_{ri}}{V_{ri}}}{\sum_{i=1}^n \sum_{t=1}^m \frac{V_{ri}}{V_{ri}}}$$

Where:

$M_r$  = Average gross margin for residential sales of No. 2 heating oil in month  $t$  by nonrefiners.

$P_{ri}$  = Average selling price in month  $t$  for all residential sales of No. 2 heating oil reported by the  $i$ th nonrefiner on Form EIA-9.

$C_{ri}$  = Average per unit cost of No. 2 heating oil purchased in month  $t$  reported by the  $i$ th nonrefiner on Form EIA-9.

$R_i$  = Volume of sales of No. 2 heating oil to residential users in month  $t$  reported by the  $i$ th nonrefiner on Form EIA-9.

$n$  = Number of nonrefiner firms with sales of No. 2 heating oil to residential users reporting on Form EIA-9.

This formula refers to the national average gross margin for sales to residential consumers by nonrefiners. Regional margins would be calculated by using data only for the given region.

#### APPENDIX IV.—GUIDELINE FOR REFINERS' PRICE FOR SALES OF NO. 2 HEATING OIL TO NONULTIMATE CONSUMERS

$$P_{ni} = \frac{P_{ni} - C_{ni}}{P_{ni}} \cdot \frac{V_{ni}}{V_{ni}} + C_{ni}$$

Where:

$P_{ni}$  = Actual weighted average wholesale price of refiners in June 1977, for No. 2 heating oil, derived from form EIA-9.

Only those refiners reporting the form EIA-9 will be included (nearly all refiners that sell No. 2 heating oil report form EIA-9). The wholesale price is the weighted average price for nonultimate consumer sales, which includes rack, delivered, and bulk sales.

$P_{ni}$  = Guideline wholesale price of refiners in month  $t$  for sales of No. 2 heating oil to nonultimate consumers.

$S'$  = Volume of sales of No. 2 heating oil sold by refiners in month  $t$  to nonultimate consumers.

$d'$  = Increased costs over June 1977 in month  $t$  allocated by refiners to sales of No. 2 heating oil to nonultimate consumers, computed as follows:

$$d' = \frac{S' - S}{S} \cdot \frac{C' - C}{C} \cdot \frac{P' - P}{P} \cdot \frac{V' - V}{V}$$

Where:

$S'$  = Volume of sales of No. 2 heating oil by refiners to nonultimate consumers in month  $t$ , reported on form EIA-9.

$V'$  = Total volume of sales of refined products in month  $t$ , reported on form P-302.

$Q^{t-1}$  = Volume of crude oil purchased in month  $t-1$ , reported on form P-110.

$Q^t$  = Volume of crude oil purchased by refiners in June 1977, reported on form P-110.

$C^{t-1}$  = Total cost of crude oil purchased by refiners in month  $t-1$ , reported on form P-110.

$C^t$  = Total cost of crude oil purchased by refiners in June 1977, reported on form P-110.

$V^{t-1}$  = Volume of sales of all refined products in month  $t-1$ , reported on form P-302.

$V^t$  = Volume of sales of all refined products in June reported on form P-302.

$V^t$  = Volume of sales for controlled products in June 1977 reported on form P-302.

$N^{t-1}$  = Increased nonproduct costs for controlled products in month  $t-1$ , reported on form P-110.

$N^t$  = Increased nonproduct costs for controlled products in June 1977, reported on form P-110.

$Q^{t-1}$  = Volume of No. 2 heating oil purchased by refiners in month  $t-1$ , reported on form EIA-9.

$Q^t$  = Volume of No. 2 heating oil purchased by refiners in June 1977, reported on form EIA-9.

$C^{t-1}$  = Total cost of No. 2 heating oil purchased by refiners in month  $t-1$ , reported on form EIA-9.

$C^t$  = Total cost of No. 2 heating oil purchased by refiners in June 1977, reported on form EIA-9.

$B'$  = Accumulated unrecovered costs applicable to time period  $t$ .

Accumulated unrecovered increased costs = Sum of increases in costs attributable to No. 2 heating oil—prior to current month. Sum of increases of revenue obtained from sales of No. 2 heating oil prior to current month.

$$B' = \sum_{i=1}^{t-1} [d' - S' (P' - C')]$$

Where:

$d'$  = Increased costs over June 1977 incurred by refiners allocated to sales of No. 2 heating oil to nonultimate consumers in month  $t$ .

$S'$  = Sales of No. 2 heating oil by refiners to nonultimate consumers in month  $t$ .

$B'$  = Accumulated unrecovered costs applicable to time period  $t$ .

$P_{ni}$  = Actual weighted average price of refiners in month  $t$  for sales of No. 2 heating oil to nonultimate consumers derived from form EIA-9.

$P_{ni}$  = Actual weighted average price of refiners in June 1977 for sales of No. 2 heating oil to nonultimate consumers, derived from form EIA-9.

Symbols used in the formula refer to time periods as follows:

$t$ —Refers to each month accumulated in the summation formula for unrecovered costs.

$o$ —Refers to June 1977.

$t$ —Refers to the month for which the selling price is being computed.

$t-1$ —Refers to the month one month before the month for which the selling price is being computed.

Subscripts used in the formulas refer to the following:

$a$ —Refers to actual prices.

$c$ —Refers to controlled products.

$r$ —Refers to residential prices and sales volumes.

These formulas calculate the guideline price for the national average.

The formulas used to calculate the guideline prices for the DOE regions are the same except the June 1977 national price to nonultimate consumers ( $P_{ni}$ ) would be replaced by average prices to nonultimate consumers for the regions.

These formulas are not entirely consistent with the calculations under 10 CFR 212.83 in that allocations are based on sales of No. 2 heating oil rather than production of No. 2 heating oil, refiners' nonproduct cost increases for No. 2 heating oil are estimated based on refiners' nonproduct cost increases for controlled products reported to the DOE, and the base period is June 1977 rather than May 1973.

The revised form P-302-M-1 will provide information as to the production of No. 2 heating oil and refiners' total nonproduct costs. When this information becomes available, the formulas will be adjusted to make allocations on the basis of production and revised nonproduct cost estimates. The estimated prices for prior months will be recalculated to reflect allocation on the basis of production and revised nonproduct estimates.

#### APPENDIX V

States with statistically valid residential heating oil survey prices

State	State code	DOE region
Alaska	AK	10
Connecticut	CT	1
Delaware	DE	3
District of Columbia	DC	3
Idaho	ID	10
Illinois	IL	5
Indiana	IN	5

#### APPENDIX V—Continued

States with statistically valid residential heating oil survey prices

State	State code	DOE region
Maine	ME	1
Maryland	MD	2

#### ENVIRONMENTAL PROTECTION AGENCY

[EPA 846-2]

#### RECEIPT OF ENVIRONMENTAL IMPACT STATEMENTS

Pursuant to the President's Reorganization Plan No. 1, the Environmental Protection Agency is the official recipient for environmental impact statements (EIS) and is required to publish the availability of each EIS received weekly. The following is a list of environmental impact statements received by the Environmental Protection Agency from January 9 through January 13, 1978. The date of receipt for each statement is noted in the statement summary. Under the Guidelines of the Council on Environmental Quality the minimum period for public review and comment on draft environmental statements is forty-five (45) days from this FEDERAL REGISTER notice of availability (March 6, 1978). The thirty (30) day period for each final statement begins on the day the statement is made available to the Environmental Protection Agency and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies are also available at 10 cents per page from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

Dated: January 17, 1978.

PETER L. COOK,  
Acting Director,  
Office of Federal Activities.

DEPARTMENT OF AGRICULTURE

Contact: Mr. Brett Deck, Coordinator, Environmental Quality Activities, U.S. Department of Agriculture, Room 307A, Washington, D.C. 20250, 202-447-6827.

#### FOREST SERVICE

Draft

Cooperative Gypsy Moth Suppression Program, 1978, January 8: This draft EIS presents the selection criteria for regulatory programs and discusses each viable alternative which may be considered for state-federal cooperative projects in suppressing gypsy moth infestations in the Northeastern United States. Several alternative plans are suggested, utilizing the aerial application of carbaryl, trichlorfon, diflubenzuron, and acephate. Adverse impacts include the possible adverse effect of diflubenzuron upon aquatic organisms and carbaryl upon honeybees. (ELR Order No. 80019.)

Tahoe NF Timber Management Plan, several California counties, January 11: Proposed is a revision of the existing Timber Management Plan which establishes a timber harvesting level and schedule for the Tahoe National Forest, Calif., for the next decade beginning FY 1978. Six alternatives are outlined with a yield of between 2,000 million board feet to 1,000 million board feet per decade. Adverse impacts include a possible effect upon water and soil quality, including some erosion; changes in fish and wildlife habitat; and changes in the vegetative structure, microclimate and plant relationships. (ELR Order No. 80032.)

Salt Lake Planning Unit, several Utah counties, January 13: Proposed is a land management plan for the Salt Lake Planning Unit, an area encompassing 138,000 acres of National Forest and other lands in the State of Utah. Four alternative plans outline resource management in areas such as air, water, recreation, wildlife, range forage, timber, insect and disease control, and mineral development. The proposed plan calls for 95 percent of the Unit to remain relatively undisturbed except for trail construction, ski area expansion, and people-use associated with recreation activities. (ELR Order No. 80035.)

Final

Beaver Creek Wilderness, Mineral Prospecting, McCreary County, Ky., January 11: Proposed is the conditional approval, with prescribed modifications, of a prospecting plan submitted by the Greenwood Land and Mining Co. of Parkers Lake, Ky. The Company claims to own mineral rights beneath and around the Beaver Creek Wilderness, and proposes to use motorized equipment to prospect for coal at 22 sites. It also intends to deep and surface mine in the Wilderness, based on information gathered by prospecting. Approximately 11 acres of land surface will be cleared, excavated, regraded and revegetated at 17 prospecting sites within the Wilderness. Comments made by: USDA, COE, DOI, EPA, and State and local agencies. (ELR Order No. 80025.)

Supplement

Naches-Tieton-White River (S-1), several Washington counties, January 13: This statement supplements a draft EIS originally filed with CEQ in August 1977. The Forest Service has subsequently re-inventoried roadless and undeveloped areas within the planning unit and has added 84,970 acres for a total of 375,750 acres under consideration for wilderness study. (ELR Order No. 80038.)

DEPARTMENT OF DEFENSE, ARMY CORPS  
Contact: Dr. C. Grant Ash, Office of Environmental Policy Department, Attn: DAEN-CWR-P, Office of the Chief of Engineers,

U.S. Army Corps of Engineers, 1000 Independence Avenue, SW., Washington, D.C. 20314, 202-693-6795.

## Final

Wilson Lake, O. & M., Russell and Lincoln Counties, Kans., January 11: Proposed is the continued operation and maintenance of Wilson Lake in Russell and Lincoln Counties, Kans. The project consists of water control operations, operation and maintenance of recreation areas, and management of project land and water resources. Adverse impacts, such as loss of vegetation and occurrence of soil erosion, will result from recreational use. (Kansas City District.) Comments made by: USDA, DOT, HUD, USCG, HEW, DOI, EPA, and State and local agencies. (ELR Order No. 80027.)

## Supplement

Bear Creek Lake (S-1), Colorado, January 11: This statement supplements a final EIS originally filed with CEQ in February of 1972; changes have occurred in project features, total project lands and the proposed recreation development since completion of the final EIS. Project implementation calls for two separate earthfilled embankments and an emergency spillway; a multipurpose lake with a surface area of 110 acres; a flood control pool of 640 acres; and recreational facilities. Adverse impacts include construction-related pollution; the relocation of Colorado Highway 8; and the inundation of 750 acres of land. (Omaha District.) (ELR Order No. 80029.)

## Supplement

Surfside-Sunset and Newport Beach, Orange County, California, January 10: Proposed is a beach nourishment project to restore the eroding Surfside-Sunset Beach shoreline and help maintain the integrity of the sandy beach shoreline downcoast from Surfside-Sunset Beach. The nourishment beach extends along approximately 8,000 feet of the Surfside-Sunset sandy beach shoreline. The nourishment material will be obtained from within a 190-acre subtidal borrow site located about 6,500 feet offshore from the feeder beach. Adverse impacts include the destruction of benthic organisms within the 190-acre offshore borrow site; displacement of fish species; destruction of open coast sandy beach organisms; and construction-related pollution. (L.A. District.) (ELR Order No. 80024.)

## ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Peter L. Cook, Acting Director, Office of Federal Activities, Room WSMW 537, 401 M Street, SW., Washington, D.C. 20460, 202-755-0777.

E. Marin-S. Sonoma Wastewater Management Plan (S-1), California, January 11: This statement supplements a draft EIS originally filed with CEQ in November 1977. Proposed is the inclusion of the Greenwood Beach Area in Southern Marin County into the Eastern Marin-Southern Sonoma Wastewater Management Plan. Greenwood Beach is a subdivision in the city of Tiburon containing 20 homes along approximately one mile of Richardson Bay shoreline. (ELR Order No. 80031.)

Contact: Mr. Richard H. Brown, Director, Office of Environmental Quality, Department of Housing and Urban Development, 451 7th Street SW., Washington, D.C. 20410, 202-755-6308.

## Draft

Elmwood III Development, Wayne County, Mich., January 9: Proposed is the

construction, by the city of Detroit, of 2,100 dwelling units as the final development phase in a cleared 188 acre urban renewal site for subsidized and nonsubsidized rental and sales housing in townhouse, garden apartment, and mid and hi-rise structures. A community center, institutional uses and recreational space are included. Adverse impacts include construction-related pollution; increased noise and air pollution; and redistributed loads on city services. (ELR Order No. 80016.)

Kirby Meadows Subdivision, Shelby County, Tenn., January 9: Proposed is the development of 260 acres in southeast Shelby County, Tenn., into the Kirby Meadows subdivision. Plan implementation calls for the construction of single-family, multi-family, commercial and office structures for a planned community of approximately 1,700 families. Adverse impacts include an increase in storm water runoff; the covering of 6 minor archeological sites; construction-related pollution; and increased levels of air and noise pollution. (ELR Order No. 80021.)

Piper's Meadow Subdivision, Harris County, Tex., January 11: Proposed is the granting of HUD-FHA mortgage insurance for the development of the 282-acre Piper's Meadow Subdivision located in Harris County, Tex. The proposed subdivision will contain approximately 1,000 single family homes, shopping facilities and recreational facilities. Adverse impacts include the loss of agricultural land and an increased demand for fossil fuels through heavy dependence on the automobile for transportation. (ELR Order No. 80033.)

## Final

Amberly Subdivision, DeKalb County, Ga., January 11: The proposed project consists of the development of 2 subdivisions, Amberly and Amberly East, approximately 4.5 miles from Stone Mountain, Ga. The plan calls for land uses of 648 single-family detached units, on 283.04 acres and a flood plain of 25.5 acres. Completion of the project will result in increased pressure on community services and facilities, as well as higher levels of air and noise pollution. Comments made by: USDA, HEW, DOI, EPA, GSA, and State and local agencies. (ELR Order No. 80028.)

Martins Crossing Subdivision, DeKalb County, Ga., January 11: The proposed project is the construction of Martins Crossing Subdivision in DeKalb County, Ga. The 246-acre development has proposed land use of 535 single-family detached units. Common recreational amenities, including a swimming pool, cabana, and tennis courts, will be provided and 78.3 acres will be left in open space. Negative effects include increased traffic; additional demand on utilities, municipal and community services and facilities, and increased surface water run-off. Comments made by: USDA, HEW, DOI, DOT, ERDA, EPA, GSA, FEA, FPC, and State and local agencies. (ELR Order No. 80030.)

Greensbrook and Lake Forest Subdivisions, Harris County, Tex., January 9: The proposed action is for the Department of HUD to accept for HUD-FHA mortgage insurance purposes the Greensbrook and Kings Lake Forest Subdivisions located in the northeast section of Harris County, Tex. When completed in approximately ten years, the subdivisions will contain approximately 2,628 single-family homes plus recreational facilities to serve the subdivisions. Adverse effects include the removal of potential forestland and livestock grazing land

from production. Comments made by: EPA, COE, DOT, HEW, AHP, and State and local agencies. (ELR Order No. 80020.)

Camden Park Subdivisions, Harris County Tex., January 9: Proposed is the acceptance of the 311-acre Camden Park Subdivision for mortgage insurance purposes. Project plans call for the development of single-family homes, with some commercial reserves, in Harris County, Texas. Adverse effects include the loss of agricultural land and an increased demand for fossil fuels through heavy dependence on the automobile for transportation. Comments made by: EPA, COE, DOI, USDA, and State and local agencies. (ELR Order No. 80023.)

Westbury Development, Oklahoma City, Canadian County, Okla., January 9: The proposed action is for the Department of HUD to accept part of the undeveloped areas of the Westbury Development in Oklahoma City for HUD-FHA home mortgage insurance purposes. The remaining area will be used for commercial and recreational purposes. The impact of Westbury will be the urbanization of about 1048 acres, formerly used for agriculture and an uncontrolled flood plain. Adverse effects include increased load on schools, possible reduction in air quality, and increased noise levels. Comments made by: EPA, USDA, DOT, AHP, and USDA. (ELR Order No. 80022.)

## Final

Jefferson, La.—Marrero to Lafitte Waterline, Jefferson Parish, La., January 9: Proposed is the construction of a water line from Marrero to Lafitte in Jefferson Parish, La., to provide improved water service to the people of Ward Six of the parish and to provide for the area's domestic, recreational, commercial, and industrial needs. The water line would originate as a 36-inch diameter pipe in Marrero and would terminate approximately seventeen miles south near the end of State Highway 45 Lafitte, as an 18-inch diameter pipe. Its size would be reduced sequentially as it moves south from Marrero. Construction of the pipeline will remove approximately 20.4 acres of land from future development. Comments made by: EPA, COE, and concerned groups and individuals. (ELR Order No. 80018.)

## NUCLEAR REGULATORY COMMISSION

Contact: Mr. Voss A. Moore, Assistant Director for Environmental Projects, P-518, Washington, D.C. 20555, 301-492-8448.

## Final

Co-60 Spark-Gap Irradiators, Licensing Exemption, January 9: The statement concerns a proposed amendment to NRC regulations to exempt from requirements for a license the receipt, possession, use, transfer, export, ownership, or acquisition of spark-gap irradiators that contain cobalt-60 for use in spark-ignited fuel-oil burners. About 6000 microcurie of Co-60 could be distributed into the environment in 6,000 discrete sources, each containing no more than 1 microcurie. Estimated external radiation doses to maximally exposed individuals are included. Comments made by: USDA, NRC, ERDA, EPA, HEW, DOT, and State and local agencies. (ELR Order No. 80034.)

## DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 400 7th Street, SW., Washington, D.C. 20590, 202-426-4357.

## FEDERAL AVIATION ADMINISTRATION

## Draft

Walker County Airport, Walker County, Ala., January 13: Proposed is the construction of a new Walker County Airport with a basic transport runway which will allow jets to use the airport facility. Plan implementation calls for runways and taxiways, lighting systems, parking, a service hangar, and roads. Adverse impacts include construction-related pollution; increased levels of air and noise pollution; and possible water impacts. (ELR Order No. 80036.)

## FEDERAL HIGHWAY ADMINISTRATION

## Final

F.A.S. Route 1270, Dundy County, Nebr., January 13: The proposed project consists of the upgrading and placement of a bridge on an 0.8 mile segment of county road (F.A.S. Route 1270) 0.3 mile east of Benkelman. Also included is grading, a gravel surface course, a major 1,700 foot long channel change, and culverts. The proposed improvement is included in Dundy County's One and Six Year Plan with the intent that the completed project will be coordinated in a total intercounty network of roads throughout the state. Between 2.4 and 10 acres of land will be acquired for right-of-way. (Region 7.) Comments made by: COE, DOI, EPA, and USDA. (ELR Order No. 80037.)

Montgomery County, Md., January 11: Proposed is the granting of Federal capital grant assistance to the Washington Metropolitan Area Transit Authority for a Metrobus Garage and Maintenance Facility for 250 buses in Montgomery County, Md. The garage is proposed for suburban bus service particularly in conjunction with the future complementary operation of Metrobus-Metrorail. The EIS reviews 3 alternative sites for the new facility. Adverse impacts include the clearing of some woodlands. Comments made by: DOT, USDA, EPA, AHP, State and local agencies, and concerned interest groups. (ELR Order No. 80026.)

## OFFICIAL NOTICE OF RETRACTION

The final EIS prepared by the Corps of Engineers, for Kanapolis Lake, Operation and Maintenance, Elsworth County, Kans., was received by EPA on December 22 and Notice of Availability was published in the December 30, 1977 FEDERAL REGISTER. Since that time it has come to EPA's attention that the FEIS is not available for public distribution at this time. Therefore, EPA officially rescinds the availability date of this statement. When EPA is notified by the Corps of Engineers that the statement is ready for distribution, EPA will at that time republish its availability in the FEDERAL REGISTER.

[FR Doc. 78-1701 Filed 1-19-78; 8:45 am]

## [6560.01]

[FRL 845-1; OOP-42045A1]

## STATE OF ARIZONA

State Plan for Certification of Commercial and Private Applicators of Restricted Use Pesticides; Approval Status

Section 4(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136 et seq.), and the implement-

ing regulations of 40 CFR Part 171, require each state desiring to certify applicators to submit a plan for such purpose, subject to approval by the Environmental Protection Agency (EPA). On June 20, 1977, a Notice of Intent to Approve the Arizona State Plan was published in the FEDERAL REGISTER (42 FR 31181). Approval was contingent upon promulgation of necessary regulations implementing Arizona legislation. Subsequently, the Arizona Board of Pesticide Control, on July 11, 1977, and the Structural Pest Control Board, on September 9, 1977, promulgated final regulations necessary to implement Arizona legislation.

During the comment period following the June 20, 1977, FEDERAL REGISTER notice, EPA received numerous comments from interested parties regarding an error in the FEDERAL REGISTER notice. The notice stated that commercial applicators will be recertified by the Board of Pesticide Control every odd calendar year by written examination. The notice properly should have indicated that the Board of Pesticide Control will relicense (not to be confused with recertification) commercial applicators every odd calendar year by written examination. The Arizona State Plan indicates that specific procedures for recertifying applicators will be developed at a later date. These procedures will require that applicators demonstrate continued competence in applying pesticides in light of changes in technology. At such time as recertification procedures are finalized by Arizona, an appropriate FEDERAL REGISTER notice will be prepared which provides for public comment.

In addition, during the comment period, the Board of Pesticide Control decided to add a new commercial applicator category to their certification program. The new category, Regulatory Pest Control, is consistent with EPA certification requirements. Therefore, the agency does not consider this a sufficient action to warrant additional public comment.

Having reviewed the final regulations to Arizona legislation and finding that all requisite legal authorities required by FIFRA and 40 CFR Part 171 are now enacted and promulgated, the Regional Administrator, EPA, Region IX, hereby gives notice that the Arizona State Plan is now a fully approved State Plan.

Dated: January 6, 1978.

PAUL DE FALCO, Jr.,  
Regional Administrator,  
Region IX.

## FEDERAL COMMUNICATIONS COMMISSION

[SS Docket Nos. 78-11, 78-12; File Nos. 381-A-RL-87, 66-A-L-107]

## CASPER AIR SERVICE, INC. AND WYOMING CENTRAL AERO-WAYS, INC.

Order Designating Applications for Consolidated Hearing on Stated Issues

Adopted: January 11, 1978.

Released: January 16, 1978.

In re application of Casper Air Service, Inc., Casper, Wyo., SS Docket No. 78-11, File No. 381-A-RL-87, Wyoming Central Aero-Ways, Inc., Casper, Wyo., SS Docket No. 78-12, File No. 66-A-L-107, for an Aeronautical Advisory Station to serve Natrona County International Airport, Casper, Wyo.

1. Casper Air Service, Inc. (hereinafter called Casper), and Wyoming Central Aero-Ways, Inc. (hereinafter called Wyoming) have filed an application for authority to operate an aeronautical advisory station at the same airport. Casper seeks renewal of its current station license while Wyoming has filed for a new station authorization. In that § 87.251(a) of the Commission's rules provides that only one aeronautical advisory station may be authorized at a landing area, the above-captioned applications are mutually exclusive. Accordingly, it is necessary to designate these applications for comparative hearing in order to determine which, if any, should be granted.

2. In view of the foregoing: It is ordered, That pursuant to the provisions of section 309(e) of the Communications Act of 1934, as amended, and § 0.331 of the Commission's rules, the above-captioned applications are hereby designated for hearing in a consolidated proceeding at a time and place to be specified in a subsequent Order on the following comparative issues.

(a) To determine which applicant would provide the public with better aeronautical advisory service based on the following considerations:

(1) Location of the fixed-based operation and proposed radio station in relation to the landing area and traffic patterns;

(2) Hours of operation;

(3) Personnel available to provide advisory service;

(4) Experience of applicant and employees in aviation and aviation communications, including but not limited to operation of stations in the Aviation Services (Part 87) that may be or have been authorized to the applicant;

(5) Ability to provide information pertaining to primary and secondary communications as specified in § 87.257 of the Commission's rules;

(6) Proposed radio system including control and dispatch points; and  
(7) The availability of the radio facilities to other fixed-based operators;  
(b) To determine the manner in which Casper has operated aeronautical advisory station KPO 8 at Natrona County International Airport; and  
(c) To determine in light of the evidence adduced on the foregoing issues which of the applications should be granted.

3. *It is further ordered*, That the burden of proof and the burden of proceeding with the introduction of evidence is on each applicant with respect to its application except issue (b) where the burdens are on Casper and issue (c) which is conclusory.

4. *It is further ordered*, That to avail themselves of an opportunity to be heard, Casper and Wyoming, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date set for hearing and present evidence on the issues specified in this Order. Failure to file a written appearance within the time specified may result in dismissal of the application with prejudice.

CHARLES A. HIGGINBOTHAM,  
Chief, Safety and Special  
Radio Services Bureau.

[SS Docket Nos. 78-13, 78-14; File Nos. 145-A-L-57, 49-A-L-67]

JOHNSTOWN AVIATION AND AIR EAST, INC.

Order Designating Applications for  
Consolidated Hearing on Stated Issues

Adopted: January 11, 1978.

Released: January 16, 1978.

In re application of Johnstown Aviation, Johnstown, Pa., SS Docket No. 78-13, File No. 145-A-L-57, Air East, Inc., Johnstown, Pa., SS Docket No. 78-14, File No. 49-A-L-67, for an Aeronautical Advisory Station to serve Johnstown Cambria County Airport, Johnstown, Pa.

1. Johnstown Aviation (hereinafter called Johnstown), and Air East, Inc. (hereinafter called Air East) have filed an application for authority to operate an aeronautical advisory station at the same airport. Johnstown and Air East have both filed for new station authorizations. In that § 87.251(a) of the Commission's rules provides that only one aeronautical advisory station may be authorized at a landing area, the above-captioned applications are mutually exclusive. Accordingly, it is necessary to designate these applications for comparative hearing in order to determine which, if any, should be granted.

2. In view of the foregoing; *It is ordered*, That pursuant to the provisions of section 309(e) of the Communications Act of 1934, as amended, and § 0.331 of the Commission's rules, the above-captioned applications are hereby designated for hearing in a consolidated proceeding at a time and place to be specified in a subsequent Order on the following comparative issues:

(a) To determine which applicant would provide the public with better aeronautical advisory service based on the following considerations;

(1) Location of the fixed-base operation and proposed radio station in relation to the landing area and traffic patterns;

(2) Hours of operation;

(3) Personnel available to provide advisory service;

(4) Experience of applicant and employees in aviation and aviation communications, including but not limited to operation of stations in the Aviation Services (Part 87) that may be or have been authorized to the applicant;

(5) Ability to provide information pertaining to primary and secondary communications as specified in § 87.257 of the Commission's rules;

(6) Proposed radio system including control and dispatch points; and

(7) The availability of the radio facilities to other fixed-base operators; and

(b) To determine in light of the evidence adduced on the foregoing issues which of the applications should be granted.

3. *It is further ordered*, That the burden of proof and the burden of proceeding with the introduction of evidence is on each applicant with respect to its application except issue (b) which is conclusory.

4. *It is further ordered*, That to avail themselves of an opportunity to be heard, Johnstown and Air East, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date set for hearing and present evidence on the issues specified in this Order. Failure to file a written appearance within the time specified may result in dismissal of the application with prejudice.

[6712-01]

[SS Docket No. 78-8]

S. C. McCLUNEY

Order Designating Application for Hearing on  
Stated Issues

Adopted: January 11, 1978.

Released: January 16, 1978.

In the matter of the application of: S. C. McCluney, 1347 South Capitol, Washington, D.C. 20003, SS Docket No. 78-8, for an amateur General Class Operator License and Amateur Radio Station License.

The Chief, Safety and Special Radio Services Bureau, has under consideration the above-captioned application for an Amateur General Class operator license and Amateur Radio Station license, filed by Samuel C. McCluney.

1. McCluney previously was the holder of Amateur Extra Class operator and station licenses, KOECG. An Order to Show Cause why his Amateur Station license should not be revoked was released on June 29, 1972, and, on the same day, the Commission released an order proposing suspension of McCluney's Amateur Extra Class operator license for the remainder of its term. A hearing was held in Jacksonville, Fla., on August 13, 1973. In an Initial Decision released on February 19, 1974, it was concluded that a renewal application which had been filed by McCluney on August 20, 1970, was part of a fraudulent scheme to upgrade McCluney's operator privileges without his having taken and passed the required examination. "Samuel C. McCluney, III," 46 FCC 2d 806, 813 (1974).

2. The Decision also concluded that McCluney deliberately misled and deceived the Commission in his August 20, 1970, application and that he continued the deception in September 3, 1971, and April 20, 1972, letters to the Commission and throughout the hearing. Id. at 814. The Decision ordered McCluney's Amateur station license revoked and his operator's license suspended for the remainder of the license term. Id. at 814. The Initial Decision was affirmed in its entirety by the Review Board in "Samuel C. McCluney, III," 46 FCC 2d 802 (1974). Subsequently, by an Order (FCC 74-1281) released December 3, 1974, the Commission denied McCluney's informal application for review of the Review Board Decision. The revocation and suspension of McCluney's Amateur license KOECG, became effective on that date.

Individual Amateur licensees must hold an operator license and a station license (§§ 97.3(d), 97.37 and 97.40(b) of the Commission's Rules). The station license may be revoked but the operator license may only be suspended. Sections 312(c) and 303(m) of the Communications Act of 1934, as amended; §§ 1.91 and 1.85 of the rules.

3. On August 12, 1977, the Commission administered Amateur Radio operator examinations at the Glade Valley Amateur Radio School in Sparta, N. C. At that time an examinee submitted an application for Amateur Radio operator and station licenses, dated July 15, 1977, which bore the hand-printed name, "S. NMN Copp," and an illegible signature. The applicant's mailing address was listed as "1347 S. Capitol, Washington, D.C. 20003." The applicant's station location for fixed operation was listed as "1919 M Street, Washington, D.C."

4. The "1919 M Street, Washington, D.C." address is that of the Commission. Upon questioning prompted by this address, the applicant produced identification which revealed that he was, in fact, Samuel C. McCluney. Thereupon, a second application, in the name of "S. C. McCluney" was submitted. The "1919 M Street" address was again listed but was changed to "1347 S. Capitol" when the Commission's examination personnel refused to accept the application with the former address. Thus, it appears that McCluney may have attempted to mislead or deceive the Commission in applying for Amateur Radio licenses on August 12, 1977, by concealing his true identity.

5. In view of McCluney's actions on August 12, 1977, his past conduct in obtaining an Amateur license by fraud, and his past attempts to mislead or deceive the Commission, it cannot be determined that a grant of his amended application would serve the public interest, convenience and necessity. Therefore, the Commission must designate the application for hearing.

Accordingly, *it is ordered*, Pursuant to section 309(e) of the Communications Act of 1934, as amended, and §§ 0.331 and 1.973(b) of the Commission's rules, that the captioned application is designated for hearing at a time and place to be specified by subsequent Order, upon the following issues:

(1) To determine the facts and circumstances surrounding the submission of applications for Amateur Radio Station and Operator Licenses by Samuel C. McCluney on August 12, 1977, at the Glade Valley Amateur Radio School.

(2) To determine, in light of the evidence adduced pursuant to Issue (1), above, whether Samuel C. McCluney attempted to mislead or deceive the Commission in applying for Amateur Radio licenses on August 12, 1977.

(3) To determine, in light of the resolution of Issue (2), above, and in light of the Decision in "Samuel C. McCluney, III," 46 FCC 2d 802 (1974), whether the applicant possesses the

requisite character qualifications to be a licensee of the Commission.

(4) To determine whether the public interest, convenience and necessity would be served by a grant of the captioned application.

*It is further ordered*, That, to avail himself of the opportunity to be heard, the applicant herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within twenty days of the mailing of this Order, file with the Commission in triplicate a written appearance stating an intent to appear on the date fixed for hearing and to present evidence on the issues specified in this Order. Failure to file a written appearance within the time specified may result in dismissal of the application with prejudice.

*It is further ordered*, That a copy of this Order shall be sent by Certified mail—Return Requested to applicant at 1347 South Capitol, Washington, D.C. 20003.

For the Chief, Safety and Special Radio Services Bureau.

GERALD M. ZUCKERMAN,  
Chief, Legal, Advisory and  
Enforcement Division.

[Report No. 893]

COMMON CARRIER SERVICES INFORMATION

Applications Accepted for Filing

JANUARY 16, 1978.

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of these applications, if upon further examination, it is determined they are defective and not in conformance with the Commission's rules and regulations or its policies.

Final action will not be taken on any of these applications earlier than 31 days following the date of this notice, except for radio applications not requiring a 30 day notice period (See section 309(c) of the Communications Act), applications filed under Part 68, applications filed under Part 63 relative to small projects, or as otherwise noted. Unless specified to the contrary, comments or petitions may be filed concerning radio and Section 214 applications within 30 days of the date of this notice and within 20 days for Part 68 applications.

In order for an application filed under Part 21 of the Commission's rules (Domestic Public Radio Services) to be considered mutually exclusive with any other such application appearing herein, it must be substantially complete and tendered for filing by whichever date is earlier: (a) The close

of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which the subsequent application is in conflict) as having been accepted for filing. In common carrier radio services other than those listed under Part 21, the cut-off date for filing a mutually exclusive application is the close of business one business day preceding the day on which the previously filed application is designated for hearing. With limited exceptions, an application which is subsequently amended by a major change will be considered as a newly filed application for purposes of the cut-off rule. (See §§ 1.227(b)(3) and 21.30(b) of the Commission's rules.)

For the Federal Communications Commission.

WILLIAM J. TRICARICO,  
Secretary.

APPLICATIONS ACCEPTED FOR FILING  
DOMESTIC PUBLIC LAND MOBILE RADIO  
SERVICE

- 20611-CD-AL-78 AAA Anserphone, Inc.—Jackson consent to assignment of license from AAA Anserphone, Inc.—Jackson, assignor to L & L Services, Inc. d.b.a. Metro Communication Services, assignee. Station: KRS705, Jackson, Miss.
- 20612-CD-AL-(2)-78 Eastern Oregon Telephone Co. Consent to assignment of license from Eastern Oregon Telephone Co., assignor to Blue Mountain Telephone, Inc., assignee. Stations: KFL944, Pilot/Rock, Ore. and KRH637, Boardman, Ore.
- 20614-CD-AL-78 Office Associates Telephone Answering consent to assignment of license from Office Associates Telephone Answering, assignor to Miami Valley Radiotelephone, assignee. Station: KWU420, Dayton, Ohio.
- 20615-CD-P-78 General Telephone Co. of California (KUA300) C.P. to relocate facilities and change antenna system operating on 35.22 MHz at Loc. No. 2: 730 Mira Monte Drive, Santa Barbara, Calif.
- 20619-CD-P-78 The Ohio Bell Telephone Co. (KWU263) C.P. to relocate facilities operating on 152.84 MHz at Loc. No. 4 to be located 2.8 miles SW. (245') of Carroll, Ohio on Pickerington Rd., 65' North of Lithopolis Rd., Carroll, Ohio.
- 20620-CD-P-(2)-78 St. John Co-operative Telephone & Telegraph Co. (KRS675) C.P. for additional facilities to on 2118.0 MHz (control) to be located at a new site described as Loc. No. 3: Front Street, St. John; 2168.0 MHz (repeater) at Loc. No. 2: Steptoe Butte, 3.3 miles NE. of Steptoe, Wash.
- 20621-CD-MP-78 Services Unlimited, Inc. (KUS332) C.P. to relocate facilities operating on 43.22 MHz at Loc. No. 1: Wachovia Building, Winston-Salem, N.C.
- 20624-CD-P-78 James D. & L. Lawrence D. Garvey d.b.a. Radiofone (KUS290) C.P. for additional facilities to operate on 35.58 MHz at a new site described as Loc. No. 3: 1.5 miles west of Bench Mark 10 Bayou Blue, Houma, La.
- 20627-CD-AL-78 Lynwood A. Williams d.b.a. Rockfish Radio Telephone Service,

consent of assignment of license from Lynwood A. Williams d.b.a. Rockfish Radio Telephone Service, assignor to Rockfish Radio Telephone Service, Inc., assignee. Station: KUS229, Wallace, N.C.

## MAJOR AMENDMENTS

- 21789-CD-P-77 Advance Business Communications, Inc. (new) Amend application to indicate that the frequency requested is 152.240 MHz instead of 158.70 MHz. All other particulars to remain as reported on PN No. 869 dated August 1, 1977.
- 20551-CD-P-77 Advanced Electronics, Inc. (new) Amend application to change frequency to 35.22 MHz and to change antenna system. All other particulars to remain the same as reported on PN No. 840 dated January 10, 1977.

## CORRECTIONS

- 20539-CD-P-78 Pacific Northwest Bell Telephone Co. (KOA246) correct entry to read: also additional facilities to operate on 459.625 MHz, test located at 819 SW Oak Street, Portland, Ore. All other particulars remain as reported on PN No. 891 dated January 3, 1978.
- 20163-CD-P-78 Radiotelephone Communications of Puerto Rico, Inc. (KQZ767) correct entry to read: 152.24 MHz & 158.70 MHz at a new site described as Loc. No. 5. All other particulars remain as reported on PN No. 883 dated November 7, 1977.

## INFORMATIVE

- 20034-CD-P-78 (KQZ707).
- 20035-CD-P-78 (KTS281).
- South Shore Radio-Telephone, Inc. (formerly William L. Eisele d.b.a. Lake Shore Communications). As listed on PN 10-17-77 the proposed construction has been determined to be a "Major Action" as defined by §1.1305 of the Commission's rules.
- It appears that the following applications may be mutually exclusive and subject to the Commission's rules regarding Ex-Parte presentations by reason of potential Electrical Interference: Frequency: 43.580 MHz.
- Pass Word, Inc., Moscow, Idaho 20333-CD-P-78.
- Bestline Answering Service, Inc., Spokane, Wash. 20075-CD-P-78.

## COMMON CARRIER SERVICES INFORMATION

International and Satellite Radio Applications Accepted for Filing

JANUARY 16, 1978.

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of these applications if, upon further examination, it is determined they are defective and not in conformance with the Commission's rules, regulations, and its policies. Final action will not be taken on any of these applications earlier than 31 days following the date of this notice. Section 309(d)(1).

For the Federal Communications Commission.

WILLIAM J. TRICARICO,  
Secretary.

[Docket No. 19660, RM-690, FCC 77-805]

INTERNATIONAL RECORD CARRIERS

Memorandum Opinion and Order

Adopted: November 30, 1977.

Released: January 6, 1978.

INTRODUCTION

In the matter of International Record Carriers' scope of operations in the Continental United States, including possible revisions to the formula prescribed under section 222 of the Communications Act, Docket No. 19660, RM-690.

1. In our *Report and Order and Notice of Proposed Rulemaking* in Docket No. 19660, 57 FCC 2d 190 (1975), we: (1) Ruled that the then existing formula prescribed pursuant to section 222(e)(3) of the Communications Act of 1934, as amended, to govern the distribution of outbound unrouted telegraph messages among the international record carriers (IRCs) was unjust, unreasonable, inequitable, and not in the public interest; (2) instituted a proposed rulemaking examining the legal, economic, and operational implications of placing traffic distribution on a required customer routing basis; and (3) prescribed an interim formula pending the outcome of the inquiry looking into the

all routed system of distribution. RCA Global Communications, Inc. (RCA Globcom), appealed our decision to the U.S. Court of Appeals for the Second Circuit. On July 27, 1977, the Court issued an opinion vacating our decision and remanding the case for further proceedings consistent with the standards set forth in section 222(e)(3) of the Communications Act, 47 U.S.C. 222(e)(3).<sup>1</sup> Thereupon, the Commission, TRT Telecommunications Corp. (TRT) and ITT World Communications, Inc. (ITT Worldcom), requested rehearing. On October 5, 1977, the Court granted the petitions for rehearing and issued a stay of its mandate. See *RCA Global Communications, Inc.*, Case No. 522.

2. In granting the petitions for rehearing the Court remanded the case for further proceedings primarily to examine "whether the promulgation of the interim formula (for distribution of outbound, unrouted international telegram messages among the international record carriers) has, in the opinion of the FCC, a factual basis in the record independent of the FCC's tentative preference for an all routed system." The court also asked us to determine whether "the interest of the telegram sending public may be ascertained with respect to an all routed requirement."

3. Pursuant to a suggestion from the Court, we invited the parties to the proceeding to file comments on the above issues. Comments have now been filed by RCA Globcom, ITT Worldcom, TRT, Western Union International, Inc. (WUI), and the Western Union Telegraph Co. (Western Union). In addition to these pleadings, we have the benefit of statistical reports filed with us and the parties by the International Quota Bureau showing the distribution of outbound international telegram messages under the interim formula during the period January 1, 1977, to June 30, 1977. Based on the views of the parties, the background of the formula, present circumstances in the international telegraph service, and the facts and statistical records before us, we find that the following actions will serve the public interest: (1) The rulemak-

<sup>1</sup>Section 222(e)(3), 47 U.S.C. 222(e)(3), states that whenever: "the Commission finds that any such distribution of telegraph traffic among telegraph carriers or any such division of charges for such traffic, which is being made or which is proposed to be made, is or will be unjust, unreasonable, or inequitable, or not in the public interest, the Commission shall by order prescribe the distribution of such traffic, or the division of charges therefor, which will be just, reasonable, equitable, and in the public interest, and will be, so far as is consistent with the public interest, in accordance with the existing contractual rights of the carriers." See 41 FR 51648, November 23, 1976.

ing looking toward designating a new formula shall be terminated without prescribing an all routed formula; and (2) the interim formula which allocates to each IRC a portion of unrouted traffic in the ratio it receives customer routed messages will be prescribed on a permanent basis.<sup>2</sup>

ALL ROUTED FORMULA

4. Our review of the comments filed by the parties, and the operating results under the interim formula persuades us that a prescription of the all routed formula is not necessary to achieve our basic public interest objectives and indeed would not be "just, reasonable, equitable, and in the public interest." At the time we called for comments on the all routed proposal, we indicated our preference for a system of traffic distribution based completely on customer choice, as a stimulus to greater competition which we believe would better serve the public interest. At paragraph 44 of the "Report and Order," we stated, however, that the record then before us was inadequate to adopt the all routed method of distribution. Instead, we prescribed the interim formula for the distribution of international message telegraph traffic until we were in a position to determine whether the all routed method of distribution would in fact result in better service to the public without, *inter alia*, proving to be an undue economic burden to the carriers.

5. Based on the comments we have received, we do not find sufficient merit in the all routed formula to warrant its prescription. ITT Worldcom, RCA Globcom, and TRT oppose prescription of the all routed formula since they believe that the added costs to the carriers and consequently to the public arising from the implementation of or reliance upon the all routed formula would yield no real benefit to the public generally or to those customers—representing approximately one-third of international message telegraph market—who do not route and to whom the all routed formula is directed. Likewise, Western Union opposes the all routed formula and concludes that it is uneconomic and, more than likely, unworkable due to the vast number of unrouted messages. Western Union, however, points out that under the interim formula it has recently initiated a system of distributing unrouted traffic among the IRCs on an automated basis and that this system is functioning smoothly. It further states "that the operating expenses required to continue to distribute traffic automatically are relatively minor (approximately \$50,000 per

<sup>2</sup>The background of this decision is set forth in our report and order and in the Court's decisions.

year) when compared to the millions of dollars required to implement an all-routed solution."<sup>3</sup> Since so many users are satisfied to place these messages with Western Union, we do not now believe that an all routed formula would add significant public benefits, whereas it could add to customer costs and even disrupt the convenient service through Western Union to which the public has become accustomed. Accordingly, we will terminate the proceeding without further action with respect to an all routed distribution system.

THE INTERIM FORMULA

6. When we prescribed the interim formula we were confident that it would be a vast improvement over the 1943 formula (although we had hopes that the all routed method would prove to be even better). Appendix A of this decision sets forth the interim formula in its entirety. The formula provides a direct ratio method for distribution by Western Union among the IRCs of outbound international message telegraph traffic. It allocates unrouted traffic among the IRCs in proportion to the share of specifically routed traffic to a particular destination country each IRC receives from its users.

7. Under the interim formula, a carrier is entitled to handle any specifically routed traffic to any destination area for which it has a tariff on file. A message is considered specifically routed if it is filed at a carrier's office by the sender in person, by telephone or other electronic means, or at a Western Union office so long as the particular IRC is designated by the sender and the carrier is authorized to serve the destination point sender.

8. A message is considered unrouted anytime the sender does not specify a carrier.<sup>4</sup> Each IRC is entitled to receive from Western Union unrouted traffic for each destination point in the carrier's effective outbound message telegraph traffic whether service to the destination is direct or by interconnection. A carrier's quota of unrouted traffic to a destination point is derived from the ratio of the number of routed messages to that point handled by the carrier during the base period to the total number of mes-

<sup>3</sup>While making plain that it favors a formula mode of distributing traffic over the all routed approach, Western Union takes no position as to the precise formula to be prescribed or the appropriateness of the interim formula per se.

<sup>4</sup>Traffic specifically routed to a sender by way of a carrier to a point not tariffed by the carrier is also considered unrouted and is allocated under the formula to a carrier serving that point.

sages to the destination handled by all the carriers serving that point during the base period. Unassigned traffic is allocated to each carrier without regard to its length or its category in the message telegraph service on a rotational basis.

THE PLEADINGS

9. The primary question the Court has asked us to determine is whether the interim formula may be justified outside of its role as precursor to an all routed allocation formula. At our invitation the parties have filed comments respecting the question of independent justification for the interim formula.

A. COMMENTS BY RCA GLOBCOM.

10. RCA does not believe that sufficient independent support exists to retain the interim formula. It argues that the interim formula during its year of operation has disserved the public interest by imposing unnecessary costs on the industry and by shifting traffic to less efficient routes. In the first place, according to RCA Globcom, the public interest is affected adversely by the wasteful spending on advertising that is encouraged by the interim formula since its market research shows that in excess of 90 percent of all social traffic and approximately 65 percent of all business traffic transferred to RCA Globcom is unrouted. Following implementation of the interim formula, RCA Globcom doubled its combined advertising and marketing expenditures devoted to international telegram service, from approximately \$340,000 in 1976 to approximately \$670,000 (annualized in 1977). However, despite its substantial increase in marketing effort, it states that there has been no discernable effect on the volume of unrouted traffic generated by the public. In addition, RCA Globcom states that a minimum nationwide marketing and advertising campaign would require an expenditure of \$2,007,000.

11. RCA's second argument concerns inefficient routing of unrouted traffic. It contends that the interim formula has caused a shift of over 50,000 message transfers by Western Union from international carriers with direct international circuits to specified destination points to carriers with only indirect capability to the customer's desired point. This has resulted in less efficient traffic handling, an increased payout of \$130,000 by the IRCs to foreign correspondents, and the idling of communications capacity which RCA Globcom has in place. Thus, RCA Globcom points out that this effect of the interim formula is inconsistent with our position in the gateway proceeding where we stated that

An authorization . . . to provide service . . . on a direct basis rather than an indi-

rect basis . . . should improve efficiency to the extent that traffic no longer must be switched through (a second country's) switching system and be hauled between (a second country and its ultimate destination) over landline facilities. *International Record Carrier's Communications*, 58 FCC 2d 250, 257 (1976).

From this, RCA Globcom concludes that essentially the same considerations mitigate against the use of indirect, less efficient routing as fostered by the interim formula.

12. RCA Globcom also challenges our position that the additional degree of competition the interim formula fosters will serve the public interest. RCA Globcom states that the interim formula creates incentives which encourage the IRCs to seek to increase their share of unrouted traffic, not by pursuing the occasional hinterland customer who does not route, but by intensifying their solicitation efforts to change the routing of large business customers already routing traffic and located in the gateways and in other major metropolitan centers. This emphasis on customers already routing traffic, according to RCA Globcom, arises from the feature of the interim formula which rewards a carrier for every routed message with two or three other messages. RCA Globcom states that this effect is inconsistent with our expressed desire to promote "customer choice" and thus to achieve a consequential reduction in unrouted traffic.

13. In addition to the absence of benefits accruing to the public, RCA Globcom states that the interim formula abruptly and unfairly shifts large blocks of traffic from RCA Globcom to other carriers. RCA Globcom submits that such action can only be justified on a finding that the carrier potentially losing traffic has misused or abused its position, thereby rendering the operation of the formula "unjust, or unreasonable or inequitable or not in the public interest." Likewise RCA Globcom further contends that in virtually all cases in which one carrier or another received, under the prior formula, most of the unrouted traffic to a given area, that carrier occupied its lead position before section 222 was enacted. Thus, just as its competitors' efforts may have been hampered by the formula so too was the competitive effort of the carrier responsible for transmission of the major portion of traffic. With respect to the effect of the formula on its own operations, RCA Globcom estimates it will "lose approximately 400,000 messages in 1977 and substantial unrecoverable revenues from the formula change on authorized traffic alone." Finally, RCA expects its total traffic and revenue losses to grow if the interim formula remains operative since it states that "outbound traffic to a major extent affects the amount of in-

bound traffic carriers receive from overseas."

14. Following its arguments that the interim formula is neither fair to the carriers nor in the public interest, RCA Globcom proposes alternate approaches to revising the formula. It argues that each alternative will minimize or eliminate the detrimental effects it sees arising from the interim formula. First, RCA Globcom suggests a phased-in approach to implement the interim formula. This approach would provide whatever long-term benefits we see flowing from the interim formula, while allowing management to adjust to reasonably predictable changes and to minimize short term idling of capacity. Another alternative RCA Globcom suggests is a formula using only traffic generated in the gateways as the allocation base. This approach would encourage limiting marketing efforts resulting from the formula change to an area where the IRCs currently are authorized to provide full direct service, maintain offices and where the bulk of their marketing efforts are concentrated. Since each of the carriers operate in the same gateways, RCA Globcom submits that this approach equalizes their competitive positions and would eliminate the need for a competitive response to another carrier's solicitation efforts in those areas outside the gateways. Finally, RCA Globcom urges us to reconsider our action denying the IRCs direct access to customers outside the gateways. In support, RCA Globcom states that it is likely that if direct access were permitted, a larger fraction of the overseas messages would be routed according to customer choice since many customers outside the gateways already route their messages directly to the IRCs at their own additional expense.

#### B. COMMENTS BY WUI

15. WUI also opposes adoption of the interim formula on a permanent basis. WUI argues that a large shift of traffic from one carrier to another would leave the carrier losing traffic with substantial unused switching and transmission capacity, and could overload the recipient's facilities leading to a reduced quality of service. Further, WUI claims that these dual effects are contrary to our policy that carriers "utilize their investment in the most economical, cost efficient manner in order to generate sufficient revenues to cover their embedded costs." See AT&T Series 1000, Docket No. 21417, released October 21, 1977.

16. With respect to the competitive incentive contained in the interim formula, WUI's vice president of sales in an affidavit states "that the intensity of competition in terms of selling and marketing activities and precise offerings was no less under the original for-

mula than they are under the interim formula." The reason for this, according to WUI, is that outbound traffic generates inbound traffic and a customer satisfied with WUI's message telegraph service is likely a customer for WUI's other services.

#### C. COMMENTS BY ITT WORLDCOM

17. Contrary to the views of RCA Globcom and WUI, both ITT Worldcom and TRT argue that the interim formula possesses an independent justification supporting its retention. These carriers point to their experience with the interim formula during the past year as sufficient support for its justification. ITT Worldcom believes that the interim formula provides a significant improvement for the public interest and that it produces an allocation of traffic which is clearly "just, reasonable and equitable" on the record before us and on operating experience to date. In ITT Worldcom's opinion our primary responsibility is the development of a formula which provides a fair allocation of traffic among each of the participating carriers. It states that the interim formula is administratively simpler than the original formula and, consequently, that there is substantially less chance for error on the part of the Quota Bureau or Western Union in calculating the allocation to each carrier. Moreover, since Western Union has automated the distribution of unrouted traffic, according to ITT Worldcom, as a result of the adoption of the interim formula, the unrouted traffic can now be distributed faster and more efficiently and ultimately at a lower cost to the carriers.

18. ITT Worldcom has submitted an affidavit by its executive vice president and general manager describing several improvements it has undertaken since the adoption of the interim formula and which it states were in part due to the incentives created by that formula. According to this statement, ITT has already undertaken a program of improvement in its overseas message service with the goal of increasing its share of routed messages traffic and thereby increasing its share of unrouted traffic pursuant to the formula. ITT Worldcom lists the following service improvements as resulting at least in part from the formula's implementation.

(a) June 1977—placed into service a new duplex international message switch to provide standby capability to enhance reliability and access time for customer transmissions. This first phase of improvement increased in-service time for message switching from approximately 95 percent to 98.5 percent. When full duplex capability is completed at the end of 1977, then in-service time for the switch is expected to be 99.9 percent.

(b) July 1977—implementation via the new message switch of automatic processing

of virtually all routed and unrouted traffic from the Western Union system.

(c) September 1976—provided a full speed interface for West Coast TWX subscribers of Western Union wishing to file message traffic directly with ITT Worldcom. This change permits a 50 percent decrease in a customer's transmission time. A similar capability is scheduled to go into service by January, 1978 for Atlantic Coast subscribers.

(d) 1976—instituted a service available twelve hours each day to answer questions from customers sending messages directly via telex or TWX or via the Western Union system, to answer questions about rates, to provide assistance in message tracing, and to answer other questions. This service is available free throughout the country by way of inbound WATS.

(e) July 1977—expanded on-line message storage capability of the message switch from one half day of on-line traffic storage to approximately 30 days. This change also provides virtually instantaneous on-line retrievals. Retrieval time is now two seconds as opposed to the formerly variable time which, dependent on load, could run from minutes to hours.

(f) September 1977—undertook steps to speed up operator processing for messages filed with ITT Worldcom by telephone.

(g) November 1977—made facility changes improving access for all gateway subscribers and for all Western Union TWX originated traffic into the new message switch.

The affidavit states that without the incentive provided by the interim formula much of the allocation of resources and manpower which went toward improving the efficiency of its message telegraph service might have been channeled to other services.

#### D. COMMENTS BY TRT

19. TRT in supporting retention of the interim formula asks us not to disregard the important public interest element supporting that formula or to misconceive the public interest responsibilities delegated to us by section 222 of the Act. TRT states that the interim formula performs an important public service by which the choices of knowledgeable consumers can be extended to those consumers who have inadequate overseas communication requirements to become sufficiently informed about the merit of particular carriers. Moreover, TRT argues that the formulation of a device which allows the free functioning of a competitive market, in and of itself, serves the public interest, unless the parties supporting retention of the former scheme can bring forward specific justifications which outweigh the implementation of a competitive policy. TRT contends that there is nothing in the basic purpose or language of section 222 suggesting that it was designed to repress fair competition among the carriers permitted pursuant to section 214 to enter the market once Western Union had divested its international operations and the possibility of anticompetitive abuses had passed.

20. Next TRT states that in its experience the implementation of the interim formula has not caused the carriers to embark on a course of undue promotional expenditures. Rather, TRT itself has aimed its promotional efforts at high-volume users who subscribe to telex services of either the IRCs or Western Union, and has not undertaken any significant effort to obtain routed traffic from those who customarily do not route messages. Thus, according to an affidavit filed by its vice president of marketing, TRT has not altered its "sales and marketing approach with respect to industry-wide marketing and sales efforts."

21. TRT also states that implementation of the interim formula has not increased the IRCs' operational costs. With a single exception it has transmitted all traffic received under the interim formula via circuits then in place or necessitated by the commencement of direct circuit operations to a new overseas point. Nor has TRT been obliged to employ additional message operators as a result of the interim formula. Finally, TRT states that the capacity of its automated message switch has been adequate to handle the additional volumes of traffic that have been generated by TRT's participation in the new formula. In sum, TRT has experienced no increase in either promotional or operating expenses as a result of the adoption of the interim formula. According to TRT, its experience stands as a clear demonstration that there is no reason whatsoever to believe that the interim formula may cause increased promotional or operational expenses among the carriers in providing the public with message telegraph service.

#### E. COMMENTS BY WESTERN UNION

22. Western Union has filed a letter stating that the existing formula mode of routing international message traffic should be continued. However, it takes no position as to the precise formula to be implemented or the appropriateness of the interim formula.

#### DISCUSSION

23. Our review of the comments filed by RCA Globcom and WUI opposing a permanent prescription of the interim formula shows that these carriers essentially have raised three possible defects in the formula. We will address each of these matters separately.

24. The first alleged defect arising from the operation of the interim formula is that it requires potentially millions of dollars in additional advertising and marketing costs to be incurred by the IRCs. RCA Globcom rests this argument on an analysis of the cost of a nationwide marketing and advertising campaign. It states that the cost of such an effort for

itself would be \$2,007,000. Despite this projection, it is plain to us that no carrier including RCA Globcom plans to undertake such an effort. RCA Globcom indicates it has budgeted \$670,000 for solicitation of message telegraph traffic. While this is a substantial increase over its prior message service marketing expenditures, we find no indication in RCA Globcom's pleadings that it is considering increasing its solicitation expenditures to the scale it claims is necessary for nationwide coverage. In any event, RCA does not advance specific facts to show that the public interest would be disserved by increased marketing efforts. Indeed, it appears that the basis for RCA's increased solicitation efforts lies in its recognition that the interim formula has brought about greater competitive efforts by the IRCs and that to expand its volume of message traffic, or to retain its substantial standing in the market it must increase its marketing efforts. We believe that this added emphasis on marketing will soon give rise to efforts, like those of ITT Worldcom, to improve, where possible, the facilities underlying service to the public. In sum, as the Court in its decision granting rehearing has noted the purpose of the original formula

cannot be stretched to giving RCA a right in perpetuity to a fixed share of the telegraphic market regardless of changing conditions and circumstances. It certainly could not have been the intention of the Congress or the FCC to permit RCA to sit back and do nothing to counteract tactics by its competitors and rely upon the "formula" to give it the lion's share of the unrouted business.

Accordingly, we reject this argument.

25. Secondly, both RCA Globcom and WUI argue that the interim formula diminishes use of existing circuitry of communications and consequently may cause the idling of direct circuit capacity already in place. The point that RCA and WUI are attempting to make is that the implementation of the interim formula has resulted in a shift of traffic from carriers with a direct circuit to a particular destination point to carriers which cannot directly serve that point but, instead, must interconnect with another entity before handing over the message for ultimate delivery. RCA Globcom estimates that in 1977 over 50,000 messages will be shifted to carriers lacking direct service capability to the 21 countries RCA Globcom has indicated. Moreover, RCA Globcom estimates that this reliance on indirect service will result in an increased payout of \$130,000 to foreign carriers.

26. We find no significant merit in this argument. At paragraphs 49 and 50 of our "Report and Order, we considered a proposal to allocate unrouted traffic on a country by country basis

among only those IRCs authorized direct circuits to a customer's desired points. Nevertheless, we chose to base distribution of unrouted traffic on the destinations a carrier is authorized to serve via direct circuits or by interconnection. One reason we rejected the direct circuit approach is because it would leave significant gaps in the distribution of unrouted traffic since there are numerous foreign destinations points which no carrier serves directly. We also rejected this proposal because it would deny substantial portions of unrouted traffic to small carriers who serve a higher percentage of their service points through intermediate connections. We believe that those carriers now providing indirect service will seek authorization to serve those points directly if the demand for their services to a particular destination point becomes sufficient. Moreover, we note that the 50,000 messages which RCA becomes sufficient. Moreover, we note that the 50,000 messages which RCA Globcom states have been shifted to indirect circuits due to the formula, amount to less than one half of one percent of the 7,887,664 worldwide annual messages the carriers transmit. This de minimis shift of traffic to indirect service is not in our opinion a threat to the public interest.

27. Finally, RCA Globcom contends that the interim formula encourages the IRCs to concentrate their efforts on existing customers who already route traffic. Here, TRT as well as our review of RCA Globcom's marketing experience to date underlines the validity of RCA Globcom's claim. However, we do not find anything in this marketing approach that persuades us to set aside the interim formula. Western Union's study shows that in 1974 three quarters of the international message traffic handled by it was unrouted. Much of this traffic appears to be originated by persons with only an occasional use for message telegraph traffic.

28. We emphasize that our goal is to encourage the carriers to continually strive to offer the public the best service possible at the lowest possible rates. The interim formula is a powerful incentive towards achievement of this goal. As RCA has noted, the interim formula rewards a carrier for every routed message with two or three unrouted messages. In contrast, the 1943 formula did not reward improvements in services or prices at all, but stood as a disincentive to such improvements. The customers who do route their traffic, for the most part business cus-

\*See p. 201 of the report and order demonstrating that "the ultimate effect (of the original formula) was that the carrier with the largest deficiency eventually came to receive all unrouted traffic to a given destination."

tomers, are keenly interested in the best service for the lowest cost and do educate themselves about the IRCs.\* By correlating the distribution of unrouted messages with routed messages, we insure that improvements in service or prices which earn the business of knowledgeable users will also be rewarded by unrouted messages. Thus, the incentive to provide the very best is maximized, and the public interest will benefit accordingly. The service and price improvements made to attract knowledgeable users also enhance the quality of service to casual users since the facilities making up the service are blind to the identity of customers and to the manner in which the message came to be the responsibility of the carrier. In this regard it is particularly interesting to note that ITT Worldcom while making no representation concerning its present marketing efforts has by affidavit described the service improvements which in the judgment of its chief executive officer have been brought about in part due to the additional degree of competitive incentives contained in the interim formula.

29. In sum, we cannot find that RCA Globcom's reduction in routed messages is a sufficient reason to bar or defer the operation of the interim formula. As we stated at paragraph 53 of the "Report and Order":

RCA appears to be asserting that its quota gives it a claim to a guaranteed amount of traffic. The present formula does not guarantee any carrier that it will receive traffic. As more customers routed messages and the unrouted pool shrank, traffic available for distribution became inadequate to satisfy quotas. Such changes in the marketplace can hardly be said to have wronged RCA particularly since its own increases in self generated traffic and the benefits it received under schedule B (special provisions applying to RCA) contributed to this process.

In this instant proceeding, RCA has brought forward nothing to cause us to modify that finding. Moreover, we can find no indication by RCA that the quality of service it provides to the public would suffer in any way by retention of the interim formula.

#### RCA GLOBCOM'S PROPOSED ALTERNATIVE FORMULAS

30. In addition to opposing retention of the interim formula, RCA Globcom has suggested various alternative proposals which it believes to be more equitable among the carriers and to better serve the public interest. It recommends: (1) Consideration of a phase-in period for the interim formula, (2) limiting the formula's oper-

\*Whether customers learn of the advantage of using an individual IRC by solicitation, advertisement, or customer word-of-mouth is not a matter of concern to us.

ations to traffic originating in the gateway cities, or (3) if the interim formula remains in effect, permitting the carriers at their expense to serve directly message telegraph customers located outside the gateways.

31. We are of the opinion that these alternatives are unnecessary to the implementation of the interim formula or would fail to serve the public interest as positively as the interim formula. Therefore, we shall reject them. In the first place, we are satisfied based on our own expertise and the remarks the carriers have filed concerning the actual operation of the interim formula that it is functioning smoothly. Indeed, we have seen no persuasive evidence that a phase-in period is necessary for the carriers to provide their services to the public. Aside from the wholly unsupported claim of adverse financial impact RCA Globcom has alleged, it appears that only minor short term adjustments such as a slightly greater reliance on indirect circuits, and consequent pay-outs have occurred due to the implementation of the interim formula. In sum, the actual experience of the IRC under the interim formula persuades us that a phase-in period is totally unnecessary and would disserve the public interest by delaying the incentives the IRCs have under the formula to improve their services and to offer them at the lowest possible rates.

32. Likewise, we can find no merit in artificially limiting the competitive incentive of the carriers to customers located in the gateways. We recognize that much of the carriers present solicitation efforts are directed toward customers in those discrete areas and may continue to be at least in the short run. However, to focus the efforts of the carrier on these points would go far toward institutionalizing the very criticism RCA Globcom has put forward supporting rejection of the interim formula, since the carriers would then be free to concentrate their efforts on those major customers located in the gateways without any incentive whatsoever to take into consideration the needs of the public outside the gateways. In this regard, we specifically affirm our findings in the "Report and Order" at paragraph 51 with respect to inclusion of all areas of the Continental United States in the formula. We stated that

[w]e believe that the volume (for inclusion in the quota base) should be based on all routed traffic. This includes direct pickups, direct access and routed WU transfers. This is the most likely way to achieve the goal of distributing unrouted traffic on the same basis as routed. Direct pickups (traffic routed directly to the designated carrier by a customer located either inside or outside the gateways) are by definition specifically routed and represent a significant portion of overall traffic. Therefore, to ignore such traffic would be unrealistic and contrary to our policy herein.

33. Finally, we deny RCA Globcom's request that we revisit our action rejecting the tariffs underlying the free direct access concept in International Carriers Communication, 40 FCC 2d 1082 (1973). In that case we found that the IRCs must file applications pursuant to section 222 to expand their operations beyond the gateways rather than proceeding by tariff because adoption of "free direct access would alter the structure of the industry by altering the relationships between the domestic and the international carriers as to the handling of international traffic." Thus, we have already concluded that the filing of applications justifying any expansion of operations outside the gateways is a prerequisite to any proposed expansion. We will not entertain RCA Globcom's suggestion here. It is sufficient to note we are considering the application and comments RCA Globcom has filed in Docket No. 19660.

#### FINDINGS REGARDING INTERIM FORMULA'S OPERATIONS

34. In our "Report and Order" we found that the interim formula provides the carriers with an equitable means of distribution, focusing on customer selection and giving each carrier an opportunity to increase its share of unrouted traffic. The interim formula, by functioning in a direct ratio method has simplified administration of routing allocations to the carriers and eliminated many of the sources of controversies found in the original formula. This simplification is accomplished through treating all classes of messages as a whole rather than retaining the aspect of the original formula which required allocation of unrouted traffic to be made according to the various classifications of the messages in the message telegraph service, and which also necessitated separate treatment of gateway and non-gateway traffic. Instead, the interim formula treats all message traffic generated in the continental United States in the same way, distinguishing only between route and unrouted messages.

35. It remains Western Union's function to distribute specifically routed traffic to the designated carriers. The unrouted traffic Western Union receives is distributed to the IRCs in the ratio each receives specifically routed traffic. Rotational distribution of messages to the carriers as they are received by Western Union insures that over the long run each carrier receives the revenues to which it is entitled under the formula. The deletion of the balancing provisions, since there is no longer any need or justification for them, eliminates distortions in distribution as well as long term accumulation of averages and deficiencies. Short run imbalances arising due to traffic variations are corrected by adjustment of the carriers' ratios. The provision for periodically adjusting the ratios assures that traffic distribution remains responsive to changing conditions brought about by customer selection.

36. Under the interim formula each carrier receives unrouted traffic to all points it is authorized to serve. If a carrier adds a new service point, the formula is adjusted to include that carrier in the distribution of unrouted traffic according to the amount of traffic specifically routed through it to that point. Since adjustments concerning new points of service are made at six month intervals, Western Union has added certainty in meeting its responsibilities under the formula and is spared too frequent changes in its distribution practices. The Quota Bureau calculates the IRC's ratios of unrouted traffic for each country of destination by determining the number of messages specifically designated by customers to a particular carrier. The individual carrier figures are then totaled every six months for each destination and each carrier's figures compared to that total. The resulting ratios represent each carrier's share of routed traffic for each destination point and therefore, its portion of unrouted traffic under the interim formula to that point.

#### INDEPENDENT JUSTIFICATION OF THE INTERIM FORMULA

37. The interim formula provides each carrier with the same opportunity as every other carrier to share in the pool of unrouted overseas messages Western Union receives. Through the mechanism of distributing these unrouted messages to carriers in direct proportion to the number each receives to various overseas destinations, the formula encourages each carrier to strive to secure as many messages on a routed basis as possible. In other words, a carrier's share of total message traffic is dependent upon its success in persuading users of the service to place messages directly with it. This method of distribution provides a simple means for the Quota Bureau to administer the formula and for Western Union to distribute traffic. Since all messages originating in the continental United States are treated the same, rotational distribution of messages insures a random distribution among the carriers. The direct ratio mechanism ensures that the formula will generate few complaints about the number of unrouted messages allocated to the individual carriers. As a result, Western Union may meet its allocation responsibilities through an automated distribution system, thereby greatly reducing its own administrative costs and limiting the need for the Quota Bureau to resolve complaints. Those few com-

plaints the carriers bring to the Quota Bureau, and none have been brought to our attention in the pleadings, may be equitably disposed of since the formula leaves little room for dispute once the facts, based on the Quota Bureau statistical reports are ascertained and the straight forward allocation system we have prescribed is applied to those facts. Disputes which the Quota Bureau cannot resolve are referred to us for action.

38. The improvements already made by ITT Worldcom under the interim formula are of the type we anticipated the formula would inspire, and provide concrete confirmation of the new formula's service to the public interest. We expect that once the formula is accepted as the rule, such further improvements will soon be forthcoming from all the carriers. All the IRCs, whether opposing or favoring retention of the interim formula, acknowledge that it maintains or increases the incentive to secure as many direct routings as possible. Our past experience in other areas, confirmed now by ITT's actions under the interim formula, has shown that carriers competing in this fashion must out of self interest strive to improve service efficiency and to keep charges as low as is feasible. Such improvements benefit all customers, routing and non-routing alike, because the facilities provide the same service to both without distinction. Therefore, we find that the interim formula is just, equitable, reasonable and in the public interest on its own merits and that it is in no way dependent for its justification on a required routing system of distributing international message telegraph traffic.

39. Accordingly, it is ordered, Pursuant to sections 1, 4(i), 4(j), 201, 222(e)(1), 222(e)(3), and 403 of the Communications Act of 1934, as amended, that the formula set forth in the Appendix hereto is prescribed as the distribution formula for outbound international message telegraph traffic.

40. It is further ordered, That this proceeding is terminated without further action concerning the proposed required routing formula for the distribution of outbound international message telegraph traffic.

\*We will continue to closely monitor the carriers' activities in the messages telegraph service, and remain ready to further modify the formula should the public interest so require.

\*Appendix was filed as a part of the original document.

For the Federal Communications Commission.\*

WILLIAM J. TRICARICO,  
Acting Secretary.

[FR Doc. 78-1099 Filed 1-19-78; 8:45 am]

[6712-01]

[SS Docket Nos. 78-4-78-7]

JOHN N. SICHERT

Order Designating Application for Hearing on Stated Issues

Adopted: January 12, 1978.

Issued: January 16, 1978.

In the matter of revocation of license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-4, licensee of Station KSL-5113 in the citizens band radio service; revocation of license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-5, licensee of Station WB3CMR in the amateur radio service; suspension of license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-6, amateur novice class operator licensee; application for technician class operator license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-7.

The Chief, Safety and Special Radio Services Bureau, has under consideration the license for Citizens Band radio station KSL-5113, licensed to John W. Sichert, as well as Sichert's license for Amateur radio station WB3CMR. Also under consideration is Sichert's Novice Class operator license and his application for a Technician Class operator license.

John W. Sichert is the licensee of Citizens Band radio station KSL-5113, granted on July 25, 1975, and Amateur radio station WB3CMR, granted on June 18, 1976.

On September 22, 1976, Sichert transmitted radio communications on the frequency 27.655 MHz, which is not authorized for use in the Citizens Band but is in the band of frequencies allocated to the United States Government, in willful violation of § 95.41(d) of the Commission's rules.

It appears, That Sichert's radio transmissions on September 22, 1976, were not identified by a call sign issued by the Commission but instead were identified by the designation "7W198," in violation of § 95.95(c) of the Commission's rules.

\*Commissioner Brown not participating.  
Certain sections of the Commission's rules have been renumbered, revised or deleted. The rules cited herein are those which were in effect at the time of the radio operation.

*It further appears,* That the radio transmissions specified above, identified by the designation "7W198," demonstrate that Sichert has participated in an organized scheme to operate radio transmitting apparatus illegally and to avoid detection.

*It further appears,* That on September 22, 1976, Sichert's station was operated with a transmitter equipped to operate on frequencies not assigned to the Citizens Band Radio Service, in violation of §95.55(c)(4) of the Commission's rules.

*It further appears,* That on September 22, 1976, Sichert's station was operated with a transmitter equipped with controls allowing it to be operated in violation of the Commission's Technical regulations regarding the Citizens Band Radio Service, in violation of §95.55(e) of the Commission's rules.

*It further appears,* That during his radio operation on September 22, 1976, Sichert operated with transmitter output power greater than that allowed by §95.43(b) of the Commission's rules.

As a result of his radio operation on September 22, 1976, Sichert was convicted on March 28, 1977, in the United States District Court, District of Maryland, under 47 U.S.C. 502 upon his plea of guilty to violations of 47 CFR 95.41(d).

*It appears,* That thereafter, on April 22 and 28, 1977, Sichert transmitted radio communications on the frequencies 145-148 MHz, which frequencies are not authorized for Novice Class licensees, in willful violation of §97.7 of the Commission's rules.

*It further appears,* That Sichert's conduct described herein is contrary to the public interest, convenience and necessity standards provided for in section 307(a) of the Communications Act of 1934, as amended, and raises substantial questions regarding his qualifications to remain a licensee of the Commission.

*It further appears,* That, in view of the above, the Commission would be warranted in refusing to grant an application filed by the licensee if his original application were now before it.

*Accordingly, it is ordered,* Pursuant to section 312(a) (2), (4), and (c) of the Communications Act of 1934, as amended, and §0.331 of the Commission's rules, that Sichert show cause why the licenses for Citizens Band radio station KSL-5113 and Amateur radio station WB3CMR should not be revoked, and appear and give evidence in respect thereto at a hearing to be held at a time and place before an Administrative Law Judge, to be specified by a subsequent order. (See Enclosures 1, 2.)

*It is further ordered,* That the rule violation of which Sichert was convicted

shall be res judicata in this proceeding.

*It is further ordered,* Under authority contained in section 303(m)(1)(A) of the Communications Act of 1934, as amended and §0.331 of the Commission's rules, that the Novice Class Amateur Operator license of John W. Sichert is suspended for the remainder of the license term; and,

*It is further ordered,* That pursuant to section 309(e) of the Communications Act of 1934, as amended and §1.973(b) and 0.331 of the Commission's rules, that Sichert's application for Technician Class Amateur operator license is designated for hearing, at a time and place to be specified by subsequent Order upon the following issues:

(1) To determine whether John W. Sichert operated radio transmitting equipment in violation of §§95.41(d), 95.95(c), 95.55(c)(4), 95.55(e), and 97.7 of the Commission's Rules.

(2) To determine the effect of Sichert's conviction in United States District Court on March 28, 1977, for violation of 47 CFR 95.43(b) on his qualifications to be a Commission licensee.

(3) To determine, in light of the facts adduced under issues (1) and (2), whether Sichert possesses the requisite qualifications to be a licensee of the Commission.

(4) To determine, in light of the foregoing issues, whether the public interest, convenience and necessity would be served by a grant of the Technician Class operator application of John W. Sichert.

*It is further ordered,* That the burden of proceeding with the introduction of evidence and the burden of proof for revocation of station licenses (Docket Nos. 78-4 and 78-5) and suspension of operator license (Docket No. 78-6) is on the Bureau, pursuant to section 312(d) of the Communications Act of 1934, as amended; and the burden of introduction of evidence and the burden of proof for grant of the application (Docket No. 78-7) is on the respondent, pursuant to section 309(e) of the Act.

*It is further ordered,* That §1.85 of the Commission's rules, which requires that persons whose operator licenses are suspended must, in order to have a hearing on the matter, file an application for a hearing within fifteen days, is waived; and

*It is further ordered,* That §1.221(c) of the Commission's Rules, which requires that applicants whose applications are designated for hearing file a notice of appearance within 20 days in order to have a hearing on the issues, is waived; and

*It is further ordered,* That, in order to obtain a hearing on the suspension matter, Sichert shall, within 30 days after receipt of the suspension order,

make a written request for a hearing, whereupon the suspension will be held in abeyance until the conclusion of the proceedings on the suspension; that if Sichert elects not to make such a request, he shall mail his Amateur Radio Operator license to the Commission in Washington, D.C., before the expiration of thirty days. (See Enclosure 3.)

*It is further ordered,* That, in order to obtain a hearing on his application, Sichert, in person or by attorney, shall within thirty days of the mailing of this Order, file with the Commission in triplicate a written appearance stating an intent to appear on a date fixed for hearing to present evidence on the issues specified in the foregoing paragraph. Failure to file a written appearance within the time specified will result in the dismissal of the application with prejudice. (See Enclosure 4.)

*It is further ordered,* Pursuant to the provisions of §1.227 of the Commission's rules, that the proceedings on the above-stated issues regarding the Order to Show Cause, the Suspension and the Application are consolidated for hearing.

*It is further ordered,* That a copy of this Order shall be sent by Certified Mail—Return Receipt Requested and by Regular Mail to the licensee at his address of record as shown in the caption.

For the Chief, Safety and Special Radio Services Bureau.

GERALD M. ZUCKERMAN,  
Chief, Legal, Advisory and  
Enforcement Division.

## ENCLOSURE 1

RESPONDENT'S REPLY TO ORDER TO SHOW CAUSE  
WHY CITIZENS BAND RADIO STATION LICENSE  
KSL-5113 SHOULD NOT BE REVOKED

SECRETARY,  
Federal Communications Commission,  
Washington, D.C.

In the matter of revocation of license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-4, licensee of Station KSL-5113 in the citizens band radio service; revocation of license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-5, licensee of Station WB3CMR in the amateur radio service; suspension of license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-6, amateur novice class operator licensee; application for technician class operator license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-7.

In response to the above-mentioned Order to Show Cause, Respondent hereby informs the Commission, by the placing of a check mark in the appropriate block below, which course of action he will take in the above-entitled matter:

(See Page 3)

- ☐ 1. Respondent will appear and present evidence at the hearing.  
☐ 2. Respondent waives his right to a hearing in the above-entitled matter and does not submit a written statement.

☐ 3. Respondent waives his right to a hearing in the above-entitled matter and submits the attached written statement.\*

Respectfully submitted,

Date: \_\_\_\_\_, 1978.

JOHN W. SICHERT,  
Respondent.

Section 1.91 of the Commission's rules provides that a licensee, in order to avail himself of the opportunity to be heard in a hearing presided over by an Administrative Law Judge, shall file with the Commission, within 30 days after service of the Order to Show Cause, a written statement that he will appear at the hearing and present evidence on the matter specified in the Order. If Respondent is unable to appear at a hearing held in Washington, D.C., he may request that the hearing be held at a location near his residence. Any such request should contain whatever facts Respondent feels necessary in support of his request.

The right to a hearing is waived if the licensee (1) fails to file a timely written appearance, or (2) files with the Commission, within the time specified for a written appearance, a written statement expressly waiving the right to a hearing. When hearing is waived, the licensee, within the time specified for a written appearance, may submit to the Commission a written statement denying or seeking to mitigate or justify the circumstances or conduct complained of in the Order to Show Cause. When a hearing is waived, the Chief Administrative Law Judge will issue an order certifying the case to the Commission. Thereupon, the matter normally will be handled by the Chief, Safety and Special Radio Services Bureau, under applicable delegations of authority, who will make a determination, on the basis of all information available, including statements filed by the respondent, respondent's past violation record, etc., whether a revocation order should be issued or whether the matter should be dismissed.

## ENCLOSURE 2

RESPONDENT'S REPLY TO ORDER TO SHOW CAUSE  
WHY AMATEUR RADIO STATION LICENSE  
WB3CMR SHOULD NOT BE REVOKED

In the matter of revocation of license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-4, licensee of Station KSL-5113 in the citizens band radio service; revocation of license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-5, licensee of Station WB3CMR in the amateur radio service; suspension of license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-6, Amateur novice class operator licensee; application for technician class operator license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-7.

In response to the above-mentioned Order to Show Cause, Respondent hereby informs the Commission, by the placing of a check mark in the appropriate block below, which

\*If this statement is intended to be in mitigation, it should include information as to (1) the corrective action, if any, that has been taken in connection with each of the related violations; (2) the reasons, if any, why you believe that your radio station license should not be revoked.

course of action he will take in the above-entitled matter:

(See Page 3)

☐ 1. Respondent will appear and present evidence at the hearing.

☐ 2. Respondent waives his right to a hearing in the above-entitled matter and does not submit a written statement.

☐ 3. Respondent waives his right to a hearing in the above-entitled matter and submits the attached written statement.\*

Respectfully submitted,

Date: \_\_\_\_\_, 1978.

JOHN W. SICHERT,  
Respondent.

Section 1.91 of the Commission's rules provides that a licensee, in order to avail himself of the opportunity to be heard in a hearing presided over by an Administrative Law Judge, shall file with the Commission, within 30 days after service of the Order to Show Cause, a written statement that he will appear at the hearing and present evidence on the matter specified in the Order. If Respondent is unable to appear at a hearing held in Washington, D.C., he may request that the hearing be held at a location near his residence. Any such request should contain whatever facts Respondent feels necessary in support of his request.

The right to a hearing is waived if the licensee (1) fails to file a timely written appearance, or (2) files with the Commission, within the time specified for a written appearance, a written statement expressly waiving the right to a hearing. When hearing is waived, the licensee, within the time specified for a written appearance, may submit to the Commission a written statement denying or seeking to mitigate or justify the circumstances or conduct complained of in the Order to Show Cause. When a hearing is waived, the Chief Administrative Law Judge will issue an order certifying the case to the Commission. Thereupon, the matter normally will be handled by the Chief, Safety and Special Radio Services Bureau, under applicable delegations of authority, who will make a determination, on the basis of all information available, including statements filed by the respondent, respondent's past violation record, etc., whether a revocation order should be issued or whether the matter should be dismissed.

## ENCLOSURE 3

RESPONDENT'S REPLY TO ORDER SUSPENDING  
NOVICE CLASS AMATEUR RADIO OPERATOR LICENSE

In the matter of revocation of license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-4, Licensee of Station KSL-5113, in the citizens band radio service; revocation of license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-5, Licensee of Station WB3CMR in the Amateur Radio Service; suspension of license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-6, Amateur novice class operator licensee; application for technician class operator license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-7.

\*If this statement is intended to be in mitigation, it should include information as to (1) the corrective action, if any, that has been taken in connection with each of the related violations; (2) the reasons, if any, why you believe that your radio station license should not be revoked.

application for technician class operator license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-7.

In response to the above-mentioned Order, Respondent hereby informs the Commission, by the placing of a check mark in the appropriate block below, which course of action he will take in the above-entitled matter:

☐ 1. Respondent will appear at a hearing on the suspension order.

☐ 2. Respondent does not desire a hearing on the suspension order, and encloses his Amateur Radio Operator license to be held by the Commission for duration of the suspension.

Respectfully submitted,

Date: \_\_\_\_\_, 1978.

JOHN W. SICHERT,  
Respondent.

## ENCLOSURE 4

RESPONDENT'S REPLY TO THE ORDER DESIGNATING  
TECHNICIAN CLASS OPERATOR APPLICATION  
FOR HEARING

In the matter of revocation of license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-4, Licensee of Station KSL-5113, in the citizens band radio service; revocation of license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-5, Licensee of Station WB3CMR in the Amateur Radio Service; suspension of license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-6, Amateur novice class operator licensee; application for technician class operator license of John W. Sichert, 2704 Spencerville Road, Burtonsville, Md. 20730, SS Docket No. 78-7.

In response to the above-mentioned Order, Respondent hereby informs the Commission, by the placing of a check mark in the appropriate block below, which course of action he will take in the above-entitled matter:

☐ 1. Respondent will appear on the date fixed for the hearing and present evidence on the issues specified in the order of designation.

☐ 2. Respondent will not present evidence on the issues specified in the order of designation and understands that, as a result, his application will be dismissed with prejudice.

Respectfully submitted,

Date: \_\_\_\_\_, 1978.

JOHN W. SICHERT,  
Respondent.

FEDERAL HOME LOAN BANK BOARD

[H. C. No. 236]

HOME INSURANCE CO.

Receipt of Application for Permission to Acquire Control of Southern California Savings and Loan Association

JANUARY 17, 1978.

Notice is hereby given that the Federal Savings and Loan Insurance Corp., has received an application from The Home Insurance Co., New

York, N.Y., a New Hampshire corporation, for approval of acquisition of control of Southern California Savings and Loan Association, Los Angeles, Calif., an insured institution, under the provisions of section 408(e) of the National Housing Act, as amended (12 U.S.C. 1730(a)(e)), and §584.4 of the regulations for Savings and Loan Holding Companies, said acquisition to be effected through the purchase of all the guarantee stock of Southern California Savings and Loan Association. The entire guarantee stock of Southern California Savings and Loan Association is owned by City Investing Co., New York, N.Y., a Delaware corporation. City Investing Co. is a diversified registered savings and loan holding company. The Home Insurance Co. also is a subsidiary of City Investing Co. Comments on the proposed acquisition should be submitted to the Director, or Deputy Director, Office of Examinations and Supervision, Federal Home Loan Bank Board, Washington, D.C. 20522, on or before February 21, 1978.

RONALD A. SNIDER,  
Assistant Secretary,  
Federal Home Loan Bank Board.

#### DEPARTMENT OF HEALTH, EDUCATION AND WELFARE

Alcohol, Drug Abuse, and Mental Health  
Administration

#### ADVISORY COMMITTEES

##### Meetings

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. Appendix I), announcement is made of the following National Advisory bodies scheduled to assemble during the month of February 1978:

#### NATIONAL ADVISORY COUNCIL ON DRUG ABUSE

Date and time: February 2-3; 9:30 a.m.  
Place: Conference Room 10-04, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857.  
Closed—February 2; 9:30 a.m.-noon.  
Open—Otherwise.  
Contact—Ms. Pamela Thurber, Room 10A-23, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-6618.

**Purpose.** The National Advisory Council on Drug Abuse advises and makes recommendations to the Secretary, Department of Health, Education, and Welfare, the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, and the Director, National Institute on Drug Abuse, on the development of new initiatives and priorities and the efficient administration of drug abuse research, training, demonstration, prevention and community services programs. The Council also gives advice on policies and priorities for drug abuse grants

and contracts and reviews and makes recommendations on grant applications.

**Agenda.** From 9:30 a.m. to 12 noon, February 2, the meeting shall be closed for final review of grant applications for Federal assistance in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5, U.S.C. Code Section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

The remainder of the meeting from 1:00 p.m. on February 2 until 5:00 p.m. on February 3 will be open to the public for a discussion of issues in the field of drug abuse, orientation to the programs of the Institute, development of priorities for action by the Council, and administrative announcements.

#### METROPOLITAN MENTAL HEALTH PROBLEMS REVIEW COMMITTEE

Date and time: February 2-4; 9:00 a.m.  
Place: Suite C-130, Shoreham Americana, Connecticut Avenue at Calvert Street, Washington, D.C.  
Open—February 2, 9-9:30 a.m.  
Closed—Otherwise.  
Contact—Mrs. Phyllis Pinzow, Room 15-99, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3373.

**Purpose.** The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to metropolitan mental health problems and makes recommendations to the National Advisory Mental Health Council for final review.

**Agenda.** From 9:00 a.m. to 9:30 a.m., February 2, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5, U.S.C. Code and section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

#### DEVELOPMENTAL PROBLEMS RESEARCH REVIEW COMMITTEE

Date and time: February 2-4, 9 a.m.  
Place: Lobby Room, Holiday Inn, 5520 Wisconsin Avenue, Chevy Chase, Md. 20015.  
Open—February 2, 9-10 a.m.  
Closed—Otherwise.  
Contact—Mrs. Diana Souder, Room 10-104, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3566.

**Purpose.** The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to the developmental growth of juveniles and makes recommendations to the National Advisory Mental Health Council for final review.

**Agenda.** From 9:00 a.m. to 10:00 a.m., February 2, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Ad-

ministrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5, U.S.C. Code and section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

#### DRUG ABUSE RESEARCH REVIEW COMMITTEE

Date and time: February 8-10; 9 a.m.  
Place: Conference Rooms M, J, and L, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857.  
Open—February 8, 9-9:30 a.m.  
Closed—Thereafter.  
Contact: Mrs. Lucy Stevens, Room 9-46, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-6664.

**Purpose.** The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute on Drug Abuse relating to research activities and makes recommendations to the National Advisory Council on Drug Abuse for final review.

**Agenda.** From 9 a.m. to 9:30 a.m., February 8, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public, in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5, U.S.C. Code, section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

#### PRECLINICAL PSYCHOPHARMACOLOGY RESEARCH REVIEW COMMITTEE

Date and time: February 9-10; 9 a.m.  
Place: Dupont Plaza Hotel, Capital Suite, 1500 New Hampshire Avenue, Washington, D.C. 22036.  
Open—February 9, 9-9:30 a.m.  
Closed—Otherwise.  
Contact: Nina Young, Room 9-97, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3454.

**Purpose.** The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to preclinical psychopharmacology research and makes recommendations to the National Advisory Mental Health Council for final review.

**Agenda.** From 9 a.m. to 9:30 a.m., February 9, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5, U.S.C. Code, and section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

#### SOCIAL SCIENCES TRAINING REVIEW COMMITTEE

Date and time: February 9, 10, 11; 9 a.m.  
Place: Sheraton Silver Spring Hotel, 8727 Colesville Road, Silver Spring, Md.  
Open—February 9, 9-11 a.m.  
Closed—Otherwise.  
Contact: Barbara Friedland, Room 9C-09, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3857.

**Purpose.** The Committee is charged with the initial review of grant applications for

Federal assistance in the program areas administered by the National Institute of Mental Health relating to social science training and makes recommendations to the National Advisory Mental Health Council for final review.

**Agenda.** From 9 a.m. to 11 a.m., February 9, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5, U.S.C. Code, and section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

#### RESEARCH SCIENTIST DEVELOPMENT REVIEW COMMITTEE

Date and time: February 9-11; 9 a.m.  
Place: Board Room, Ramada Inn, Rosslyn, 1900 North Fort Meyer Drive, Arlington, Va. 22209.  
Open—February 9, 9-10 a.m.  
Closed—Otherwise.  
Contact: Marjorie Cross, Room 9C-18, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4347.

**Purpose.** The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to developmental research and makes recommendations to the National Advisory Mental Health Council for final review.

**Agenda.** From 9 a.m. to 10 a.m., February 9, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5, U.S.C. Code, and section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

#### SOCIAL PROBLEMS RESEARCH REVIEW COMMITTEE

Date and time: February 9-11; 9 a.m.  
Place: Plaza Room, Dupont Plaza Hotel, 1500 New Hampshire Avenue NW., Washington, D.C. 20036.  
Open—February 9, 9-9:30 a.m.  
Closed—Otherwise.  
Contact: Mrs. Vi Kemp, Room 10-104, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4843.

Federal assistance in the program areas administered by the National Institute of Mental Health relating to biological sciences research training and makes recommendations to the National Advisory Mental Health Council for final review.

**Agenda.** From 8:30 a.m. to 9:30 a.m., February 22, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5, United States Code, and section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

**CLINICAL PSYCHOPHARMACOLOGY RESEARCH REVIEW COMMITTEE**

Date and time: February 23-24; 9 a.m.  
Place: The Wellington Holiday Inn, 2505 Wisconsin Avenue NW, Washington, D.C.

Open—February 23, 9-10 a.m.

Closed—Otherwise.

Contact: Jane Gascoyne, Room 9-105, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3568.

**Purpose.** The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to research activities and makes recommendations to the National Advisory Mental Health Council for final review.

**Agenda.** From 9 a.m. to 10 a.m., February 23, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance, and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5, United States Code, and section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

**COMMUNITY ALCOHOLISM SERVICES REVIEW COMMITTEE**

Date and time: February 24-March 1; 9 p.m.  
Place: Linden Hill Hotel, 5400 Pooks Hill Road, Bethesda, Md. 20014.

Open—February 24; 9 p.m.-11 p.m.

Closed—Otherwise.

Contact: Mr. Sidney Leopold, Room 11-10, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857.

**Purpose.** The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute on Alcohol Abuse and Alcoholism relating to alcoholism services activities and makes recommendations to the National Advisory Council on Alcohol Abuse and Alcoholism for final review.

**Agenda.** From 9 p.m. to 11 p.m., February 24, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5,

United States Code, and section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

Attendance by the public will be limited to space available. Substantive program information may be obtained from the contact person listed above.

The NIDA Information Officer who will furnish summaries of the meeting and rosters of the committee is Mr. Kenneth Howard, Program Information Officer for Drug Abuse, NIDA, Room 10A-56, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-6500. The NIMH Information Officer who will furnish upon request summaries of the meeting and rosters of the committee members is Dr. Jacquelyn Hall, Acting Chief, Public Information Branch, Division of Scientific and Public Information, NIMH, Room 15C-17, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4573. The NIAAA Information Officer who will furnish upon request summaries of the meeting and rosters of the committee members is Mr. Harry Bell, Associate Director, Office of Public Affairs, NIAAA, Room 11A-17, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3308.

**NOTE.**—Less than 15 days notice is provided for the first meetings in the month due to a delay in mail deliveries.

Dated: January 16, 1978.

**Center for Disease Control  
CENTER FOR DISEASE CONTROL PROGRAMS  
AND POLICIES ADVISORY COMMITTEE (AD HOC)**

**Establishment**  
Pursuant to the Federal Advisory Committee Act, 5 U.S.C. Appendix I, the Center for Disease Control (CDC) announces the establishment by the Secretary, Department of Health, Education, and Welfare, on December 19, 1977, of the following advisory committee:

**Designation:** CDC Programs and Policies Advisory Committee (Ad Hoc).  
**Purpose:** The CDC Programs and Policies Advisory Committee (Ad Hoc) will review solicited responses from professionals in the fields of public health and preventive medicine and based on these responses, current data on morbidity and mortality, and their own expertise make recommendations to the Secretary, HEW, the Assistant Secretary for Health, and the Director, CDC, pertaining to future direction, programs, and policies for CDC.

Authority for this Committee will expire April 30, 1978, unless the Secretary formally determines that continuance is in the public interest.

**NOTICES**

Dated: January 6, 1978.

**CENTER FOR DISEASE CONTROL PROGRAMS  
AND POLICIES ADVISORY COMMITTEE (AD HOC)**

**Meeting**

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Center for Disease Control announces the following Committee meeting:

**Name:** Center for Disease Control (CDC) Programs and Policies Advisory Committee (Ad Hoc).

**Dates:** February 21-23, 1978.

**Place:** Room 207, Building 1, Center for Disease Control, 1600 Clifton Road, NE., Atlanta, Ga. 30333.

**Time:** 9 a.m.

**Type of Meeting:** Open.

**Contact Person:** Ms. Patsy Whitesell, Executive Secretary of Committee, Bureau of Training, Center for Disease Control, 1600 Clifton Road, NE., Atlanta, Ga. 30333. Phone: AC/404 633-3311, Extension 6502, FTS: 236-6502.

**Purpose:** The CDC Programs and Policies Advisory Committee (Ad Hoc) will make recommendations to the Secretary, the Assistant Secretary for Health, and the Director, Center for Disease Control, pertaining to future direction, programs, and policies for CDC.

**Agenda:** The Committee will review solicited suggestions on the future direction of CDC from professionals in the fields of public health and preventive medicine, and will develop recommendations based on these responses, current morbidity and mortality data, and their own expertise.

Agenda items are subject to change as priorities dictate.

The meeting is open to the public for observation and participation. Anyone wishing to have a question answered during the meeting by a scheduled speaker should submit the question in writing, along with his or her name and affiliation, through the Executive Secretary to the Chairperson. At the discretion of the Chairperson and as time permits, appropriate questions will be asked of the speakers.

A roster of members and other relevant information regarding the meeting may be obtained from the contact person listed above.

Dated: January 6, 1978.

## REPORT ON BIOASSAY OF ISOPHOSPHAMIDE FOR POSSIBLE CARCINOGENICITY

Availability

Isophosphamide has been tested for cancer-causing activity with rats and mice in the Carcinogenesis Program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

**Summary:** A bioassay of the anticancer drug isophosphamide for possible carcinogenicity was conducted by injecting the test chemical intraperitoneally into Sprague-Dawley rats and B6C3F1 mice.

Groups of 35 rats and 35 mice of each sex were given the injections at one of two doses three times per week for 52 weeks. Doses for rats were either 6 or 12 mg/kg, and for mice either 10 or 20 mg/kg. After the period of administration of the isophosphamide, the surviving rats were observed for 31 weeks and the mice for 28 weeks. Untreated controls as well as vehicle controls (buffered saline) were used. The matched vehicle-control groups each consisted of 10 rats or 15 mice of each sex; pooled vehicle-control groups, used for statistical evaluation, consisted of the matched vehicle controls of each species combined with 20 male and 20 female matched vehicle-control rats or 15 male and 15 female matched vehicle-control mice from a similar bioassay of another test chemical. All surviving rats were killed at 79-84 weeks, all surviving mice at 79-81 weeks.

Mean body weights of the high-dose rats of either sex were lower than those of the matched vehicle controls after approximately 25 weeks on study. Survival was low among the high-dose male and female rats, but in the low-dose groups it was adequate for meaningful statistical analyses of the incidences of tumors. Mean body weights of the mice did not show any consistent effect from the isophosphamide treatment. Survival was adequate for meaningful statistical analyses in both groups of female mice, while survival of the males was 31 percent for both treated groups at the end of the study.

In male rats, tumors of the hematopoietic system included six malignant lymphomas and two granulocytic leukemias. With the unadjusted analysis, these tumors showed a dose-related trend in male rats using pooled vehicle controls (controls 0/29, low-dose 3/32, high-dose 5/34,  $P = 0.032$ ) and a higher incidence in the high-dose males than in the pooled vehicle controls ( $P = 0.040$ ). These tumors were not significant when compared with matched vehicle controls using adjusted analyses, and they cannot clearly be associated with treatment. However, it should be noted that five rats with these tumors were observed in the high-dose group whose median survival was only 35 weeks.

In female rats, the incidence of uterine leiomyosarcoma was significant in the low-dose group using pooled vehicle controls (controls 0/27, low-dose 15/32,  $P < 0.001$ ). There was also a significant incidence of mammary fibroadenoma among low-dose females using pooled vehicle controls (controls 8/28, low-dose 28/33,  $P < 0.001$ ). The incidence of each tumor was also significant when compared with matched vehicle controls using time-adjusted analyses. The low survival of the high-dose group (median time on study, 35 weeks) may explain the lower incidences of the uterine leiomyosarcomas and the mammary fibroadenoma in this group. In some rats, the leiomyosarcomas metastasized to the lungs, urinary bladder, spleen, and other abdominal sites.

In female mice, the incidence of malignant lymphoma of the hematopoietic system showed a significant dose-related trend using either matched vehicle controls (controls 0/14, low-dose 3/32, high-dose 13/34,  $P = 0.001$ ) or pooled vehicle controls (controls 1/29,  $P < 0.001$ ). Further, incidences of this tumor in the high-dose females were significantly higher than incidences in the matched vehicle ( $P = 0.005$ ) or pooled vehicle ( $P = 0.001$ ) controls.

It is concluded that under the conditions of this bioassay, isophosphamide was not carcinogenic in male Sprague-Dawley rats or in male B6C3F1 mice. However, the incidence of leiomyosarcomas of the uterus indicates that isophosphamide was carcinogenic in female Sprague-Dawley rats, and the incidence of fibroadenoma of the mammary gland in female rats was associated with treatment with isophosphamide. Isophosphamide was carcinogenic in female B6C3F1 mice, producing malignant lymphomas of the hematopoietic system.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

## ADVISORY COMMITTEE ON NATIONAL HEALTH INSURANCE ISSUES

Meeting

Notice of the establishment of the Advisory Committee on National Health Insurance Issues was published in the April 21, 1977, FEDERAL REGISTER (Vol. 42, No. 77, Pages 20675 and 20676).

Pursuant to the Pub. L. 92-463, notice is hereby given of one meeting of the Advisory Committee to be held on Friday, February 10, 1978, and another on Saturday, February 11, 1978.

The February 10 meeting will be held from 9 a.m. to 12:30 p.m. and from 1:30 p.m. to 5 p.m. The February 11 meeting will be held from 9 a.m. to 1 p.m. Both meetings are to be held in the Hubert H. Humphrey Building Auditorium at 200 Independence Avenue, SW., Washington, D.C.

The purpose of the meetings is to discuss issues related to the development of a National Health Insurance Proposal.

These meetings are open to the public.

Further information on these meetings may be obtained from Dr. James J. Mongan in Washington, D.C. on 202-245-6275.

Dated: January 16, 1978.

JAMES J. MONGAN,  
Deputy Assistant Secretary for  
Health, National Health Insurance.

## [4410-01]

## DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. 77-12]

LONDON BOYCE SNAPP, II

Revocation of Registration

On March 7, 1977, the Administrator of the Drug Enforcement Administration (DEA) issued an Order to Show Cause to Landon Boyce Snapp, II, M.D. (Respondent), giving the Respondent an opportunity to show cause why his DEA Certificate of Registration, No. AS0367044, should not be revoked, and why his application for registration dated January 20, 1977, should not be denied, for reason that on March 4, 1977, in the United States District Court for the Middle District of Tennessee, the Respondent was convicted of 25 counts of unlawfully distributing and dispensing controlled substances and one count of conspiracy, all felonies relating to controlled substances, and for further reason that by order of the same

Court, the Respondent had been prohibited from practicing medicine, thereby depriving him of his authorization to prescribe, administer, dispense or otherwise handle controlled substances. Simultaneously, the Administrator suspended the Respondent's registration pending the outcome of the proceedings initiated by the Order to Show Cause. The Respondent, through counsel, requested a hearing on the issues raised by the Order to Show Cause.

Following the exchange of written prehearing statements, a prehearing conference was held by telephone, the Administrative Law Judge and counsel for the Government and for the Respondent participating. At the outset of that conference, the Respondent's attorney requested that the administrative hearing be postponed pending the Respondent's challenges, in Tennessee, to various aspects of the District Court's order and to the action of the State Board of Medical Examiners in revoking the Respondent's license to practice medicine. With the agreement of the parties hereto, the Administrative Law Judge entered an Order staying these proceedings pending a final decision by the Federal courts and the courts of Tennessee. By stipulation, the suspension of the Respondent's DEA registration remained in effect and unchallenged while these proceedings were stayed.

On November 2, 1977, the Government filed with the Administrative Law Judge a motion to vacate the stay and a motion to terminate proceedings then pending before the Judge, together with supporting memoranda. Counsel for the Respondent not responding to these motions, the Administrative Law Judge concluded that the Respondent had conceded to the motion and that there were no valid grounds for opposing them.

On December 30, 1977, the Administrative Law Judge, pursuant to 21 CFR 1316.65, transmitted to the Administrator the record of these proceedings together with his report containing recommended findings of fact and conclusions of law. Judge Young concluded that in an Order of Revocation entered April 20, 1977, the Tennessee Board of Medical Examiners revoked the license of the Respondent to practice medicine in the State of Tennessee; that in the instant administrative proceeding, the Government has served on the Respondent's attorney a motion to terminate these proceedings based upon the aforesaid order of the Tennessee Board of Medical Examiners; that the Respondent has been given ample opportunity to oppose or make other response to the Government's motion, but that the Respondent has failed to do so; that the record in this matter indicates that there is no genuine issue as to any ma-

terial fact with respect to Respondent's entitlement to a DEA registration as a practitioner pursuant to 21 U.S.C. 823(f), because the record reveals that he is not authorized to dispense controlled substances under the law of the State of Tennessee in which, heretofore, he practiced medicine; that there is a lawful basis for revoking the Respondent's registration and for denying his pending application; and that since the Respondent is no longer licensed to practice medicine in Tennessee, his DEA registration must be revoked and his pending application denied.

The Administrator hereby adopts the findings of fact and conclusions of law recommended to him by the Administrative Law Judge. For reason that the Respondent is no longer licensed to practice medicine, nor is he authorized to dispense controlled substances, in the State of Tennessee, the State in which he heretofore practiced and was registered with the Drug Enforcement Administration, and for further reason that the Respondent stands convicted of numerous felony offenses related to controlled substances, a fact which he cannot refute or deny, it is the Administrator's decision that the Respondent's registration must be revoked and his pending application for registration denied.

Therefore, pursuant to the authority vested in the Attorney General by sections 823 and 824 of Title 21, United States Code, and redelegated to the Administrator of the Drug Enforcement Administration, the Administrator orders that Certificate of Registration No. AS0367044, previously issued to Landon Boyce Snapp, II, M.D., be, and it hereby is, revoked. The Administrator further orders that the pending application for registration of the said Landon Boyce Snapp, II, M.D., be, and it hereby is, denied, effective immediately.

Dated: January 16, 1978.

PETER B. BENSINGER,  
Administrator,  
Drug Enforcement Administration.

## [4510-30]

## DEPARTMENT OF LABOR

Employment and Training Administration

## EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS UNDER THE RURAL DEVELOPMENT ACT

Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations

listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 U.S.C. 1924(b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75. In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.
2. Employment trends in the same industry in the local area.
3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.
4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).
5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding these applications are invited to submit such information in writing within two weeks of publication of this notice to: Deputy Assistant Secretary for Employment and Training, 601 D St., NW., Washington, D.C. 20213.

Signed at Washington, D.C. this 16th day of January 1978.

ERNEST G. GREEN,  
Assistant Secretary for  
Employment and Training.

##### FEDERAL SUPPLEMENTAL BENEFITS (EMERGENCY UNEMPLOYMENT COMPENSATION)

Availability of Federal Supplemental Benefits  
in the State of Vermont

This notice announces the beginning of a new Federal Supplemental Benefit Period in the State of Vermont, effective on January 15, 1978. The new benefit period will terminate on January 28, 1978, however, because of the

termination of the Federal Supplemental Benefits Program.

#### BACKGROUND

The Emergency Unemployment Compensation Act of 1974 (Pub. L. 93-572, enacted December 31, 1974) (the Act) created a temporary program of supplementary unemployment benefits (referred to as Federal Supplemental Benefits) for unemployed individuals who have exhausted their rights to regular and extended benefits under State and Federal unemployment compensation laws. Federal Supplemental Benefits are payable during a Federal Supplemental Benefit Period in a State which has entered into an Agreement under the Act with the United States Secretary of Labor. A Federal Supplemental Benefit period is triggered on in a State when unemployment in the State or in the State and the nation reaches the high levels set in the Act. During a Federal Supplemental Benefit Period the maximum amount of Federal Supplemental Benefits which are payable under the current law to eligible individuals are up to 13 weeks.

There is a Federal Supplemental Benefit "on" indicator in a State for a week if the United States Secretary of Labor determines with respect to the State that, (a) there is a State or National "on" indicator for the week, as determined for the purposes of payment of extended benefits under the Federal-State Extended Unemployment Compensation Act of 1970, as amended, and (b) the employment security agency of the State has determined that the average rate of insured unemployment in the State for the period consisting of that week and the immediately preceding twelve weeks equalled or exceeded 5.0 percent. The Federal Supplemental Benefit Period actually begins with the third week following the week for which there is an "on" indicator, and under the current law lasts for a minimum period of not less than 13 weeks or until the termination of the program, whichever occurs first. Since the program terminates with the last week that ends on or before January 31, 1978, the new benefit period in Vermont will end on January 28, 1978.

#### DETERMINATION OF "ON" INDICATOR

The Secretary of Labor has determined under section 203(d) of the Federal-State Extended Unemployment Compensation Act of 1970, as amended, that there is a National "on" indicator in effect which is applicable to every State, as announced in the notice published in the FEDERAL REGISTER on September 9, 1977, at 42 FR 45387. The employment security agency of the State of Vermont has determined under the Act and 20 CFR

618.19(a)(2) (published in the FEDERAL REGISTER on March 23, 1976, at 41 FR 12151, 12157) that the average rate of insured unemployment in the State for the period consisting of the week ending on December 31, 1977, and the immediately preceding twelve weeks, equalled or exceeded 5.0 percent.

Therefore, I have determined in accordance with the Act and 20 CFR 618.19(a), and as authorized by the Secretary of Labor's Order 4-75, dated April 16, 1975 (published in the FEDERAL REGISTER on April 28, 1975, at 40 FR 18515), that there was a Federal Supplemental Benefit "on" indicator in the State of Vermont for the week ending on December 31, 1977, and that a Federal Supplemental Benefit Period therefore commenced in that State with the week beginning on January 15, 1978.

#### INFORMATION FOR CLAIMANTS

The duration of Federal Supplemental Benefits payable in the new Federal Supplemental Benefit Period, and the terms and conditions on which they are payable, are governed by amendments to the Act in Pub. L. 95-19 (91 Stat. 39), including the termination of the Program in Vermont on January 28, 1978.

The State employment security agency will furnish a written notice of potential entitlement to Federal Supplemental Benefits to each individual who has a previously established Federal Supplemental Benefit Account in which there is any balance as of the beginning of the new Federal Supplemental Benefit Period.

Persons who believe they may be entitled to Federal Supplemental Benefits in the State of Vermont, or who wish to inquire about their rights under this program, should contact the nearest Local Office of the Vermont Department of Employment Security in their locality.

Signed at Washington, D.C., on January 16, 1978.

ERNEST G. GREEN,  
Assistant Secretary for  
Employment and Training.

##### SUBCOMMITTEE ON EQUAL APPRENTICESHIP OPPORTUNITY FEDERAL COMMITTEE ON APPRENTICESHIP

#### Meeting

Pursuant to section 10 (a) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App.) of October 6, 1972, notice is hereby given of a meeting of the Subcommittee on Equal Apprenticeship Opportunity to be held on February 23, 1978, at the Americana Hotel, Oceanfront at 9701 Collins

Avenue, Miami Beach, Fla. The meeting will be in session from 10:30 a.m. until 4:00 p.m., approximately.

The agenda for the meeting includes a review of proposed agenda items previously initiated regarding modification of new language of affirmative action procedures in 29 CFR Part 30, Equal Employment in Apprenticeship Programs.

Members of the public are invited to attend the proceedings. Any member of the public who wishes to file written data, views, or arguments pertaining to the agenda may do so by furnishing it to the Executive Secretary at any time prior to the meeting. Thirty duplicate copies are needed for the members and for inclusion in the minutes of the meeting.

If time permits, members may be permitted to address the Subcommittee on the above issues.

Any member of the public who wishes to speak at this meeting should so indicate in a written statement, also the nature of intended presentation and amount of time needed. The Chairman will announce at the beginning of the meeting the extent to which time will permit the granting of such requests.

Communications to the Executive Secretary should be addressed as follows:

Mrs. M. M. Winters, Bureau of Apprenticeship and Training, ETA, U.S. Dept. of Labor, 601 D Street NW., (Room 5434), Washington, D.C. 20213.

Signed at Washington, D.C., this 17th day of January 1978.

ERNEST G. GREEN,  
Assistant Secretary for Employment  
and Training Administration.

(FR Doc. 78-1682 Filed 1-19-78; 8:45 am)

#### WEST CO.

#### Grant of Variance

AGENCY: Occupational Safety and Health Administration, Department of Labor.

ACTION: Grant of Variance.

SUMMARY: This notice announces the grant of a variance to The West Co. from certain standards prescribed in 29 CFR 1910.217 (c)(3)(i)(e) and (c)(3)(ii) concerning the guarding of mechanical power presses.

DATES: The effective date of the variance is January 20, 1978.

#### I. BACKGROUND

The West Co., West Bridge Street, Phoenixville, Pa., 19460, made application pursuant to section 6(d) of the Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11 for a variance, and for an interim order pending a decision on the application for a variance, from the safety standards prescribed in 29 CFR 1910.217(c)(3)(i)(e). The standard requires that the two-hand tripping controls be located at such a distance from the point of operation that the slide completes its downward motion or stops before the operator can reach into the point of operation. As part of its guarding method, the applicant has developed a sliding barrier which is similar to, but does not comply with, those discussed in 29 CFR 1910.217(c)(3)(ii). Therefore, a variance from is sought in lieu of complying with § 1910.217(c)(3)(ii) or the distance requirements of § 1910.217(c)(3)(i)(e).

The facilities affected by this application are:

The West Co., Inc., West Bridge Street, Phoenixville, Pa. 19460.

The West Co., Inc., 10th and G Streets, Millville, N.J. 08332.  
The West Co., Inc., P.O. Box 698, Kearney, Nebr. 68847.  
The West Co., Inc., North Carolina State Road, Kinston, N.C. 28501.  
The West Co., Inc., 5111 Park Street, North Petersburg, Fla. 33709.

Notice of the application, and of the granting of an interim order, was published in the *FEDERAL REGISTER* on July 1, 1977 (42 FR 33816). The notice invited interested persons, including affected employers and employees, to submit written data, views, and arguments regarding the grant or denial of the variance requested. In addition, affected employers and employees were notified of their right to request a hearing on the application for a variance. No written comments or requests for a hearing have been received.

#### II. FACTS

The applicant operates mechanical power presses in the manufacture of molded rubber pharmaceutical products. The presses used are equipped with full revolution clutches with three engaging points per revolution. The trips are two-hand, single stroke, non-repeat type.

The presses are operated in a slow manner. Preparation time of up to 45 seconds-1 minute is required to dip the sheets of rubber in water and glycerine and rub the rubber sheet into place on the die. Most of the presses are then operated at 90 RPM, and a few 40 RPM. Due to the slow speed of the press, the two-hand trips must be located at distances of 35" to 79" from the point of operation in order to comply with § 1910.217(c)(3)(i)(e). The employees are on straight time, rather than incentive pay.

Because of the length of time the operator's hands are in the die area during preparation for the stroke, the applicant has developed the use of safety blocks to guard against injury in the event of a malfunction. The safety blocks, which consist of 2 pieces of 2" pipe approximately 9" long, are placed between the upper and lower die shoes before the operator reaches into the die area. When preparations are completed, the applicant removes the safety blocks from between the dies and uses them to press the two-hand trips. These two-hand trips are located closer to the die area than permitted under § 1910.217(c)(3)(i)(e).

In order to prevent damage or hazard if an unintentional stroke should occur while the safety blocks are in position, the presses are equipped with lightened flywheels, and with a reduced number of drive belts. The drive belts are loosened, allowing them to slip if there should be an incident which strains the motor.

In order to provide additional safety to the employees the applicant has de-

veloped a sliding barrier which is tripped by an air cylinder actuated by the same valves that trip the press. The barrier drops by gravity with a spring assist so that it falls well ahead of the slide and prevents the operator from reaching into the point of operation. The barrier is automatically raised by the ram at the end of the stroke, allowing the operator to place the safety blocks between the die shoes and prepare for the next stroke. The barrier is made of clear plastic with a rubber gasket across the bottom to prevent injury if it should strike an employee's hand.

#### III. DECISION

Section 1910.217(c)(3)(i)(e) requires, among other things, that two-hand trips be located at such distance from the point of operation that the slide completes its downward travel before the operator can reach into the point of operation.

The applicant's press operations differ greatly from the usual metal stamping operation. This is a slow operation requiring extensive manipulation of the rubber material in the die prior to each stroke, while metal stamping is a much more repetitive operation.

Because the applicant's power presses operate at slow speeds of 40 and 90 RPM, compliance with this standard would require the trips to be located at such distances from the point of operation that they would no longer be solely under the operator's control. There would then be the added hazard of a passerby tripping the press without the operator's knowledge.

In order to provide for safe operation of these presses, the applicant has developed a system of dual safeguards using safety blocks and a sliding barrier to safeguard employees during preparation time and during the stroke.

Strict operating procedures require that two pieces of 2" pipe each approximately 9" long (called safety blocks) be placed between the two shoes of the die before the operator reaches into the point of operation. These safety blocks are removed after the preparation is complete, and are used to press the two-hand trips. They are then replaced between the die shoes. In this way the safety blocks are always in position to prevent the die from closing while the operator's hands are in the point of operation. The applicant has long experience and a good safety record using these safety blocks. This long history of strictly enforcing their use contributes significantly to the safety of this procedure, as used by this applicant.

In addition to this method which is dependent on proper operating procedures, the applicant has developed a

sliding barrier which falls ahead of the slide and prevents the operator from reaching into the point of operation during the stroke. This barrier does not meet the requirements of § 1910.217(c)(3)(ii) in that it does not enclose the point of operation before the stroke can be initiated. Rather, the barrier is tripped by an air cylinder activated by the same valves that trip the press. The barrier then falls rapidly enough to prevent the operator, who is holding the safety blocks in his hands, from reaching into the point of operation.

Section 1910.217(c)(3) permits, among other things, the point of operation to be safeguarded either by (1) two-hand trips properly located or (2) by Type A or Type B gates. In this instance the applicant is partially using both methods. While neither of the applicant's methods by itself totally meets the requirements of the standards, the combination of the two, which would be used by the applicant, would provide safety to the employees.

The applicant's press operators are paid hourly wages rather than by piecework. Thus there is not the incentive for the operator to attempt to speed up production, perhaps bypassing some of the safety procedures.

Accordingly, it has been determined that the use of the safety blocks in combination with a sliding barrier, as described, will provide employment as safe as that which would be obtained by complying with the standard.

The State of North Carolina has reviewed the variance application. The State's comments were considered in reaching this decision. Accordingly, the State of North Carolina is made a party to this decision.

#### IV. ORDER

Pursuant to authority in section 6(d) of the Occupational Safety and Health Act of 1970, and in Secretary of Labor's Order No. 8-76 (41 FR 25059), it is ordered that The West Co. be, and it is hereby, authorized to operate its power presses using safety blocks in combination with a sliding barrier in lieu of complying with the distance requirement in 29 CFR 1910.217(c)(3)(i)(e) or 29 CFR 1910.217(c)(3)(ii), with the following conditions:

(1) The employer shall assure that two pieces of 2" pipe each approximately 9" long (called safety blocks) are available at each press, and that they are placed between the upper and lower die shoes before the operator's hands enter the point of operation;

(2) The employer shall assure that the safety blocks are removed and used to press the two-hand trips which activate the press;

(3) The presses shall be equipped with lightened flywheels and with the minimum number of drive belts re-

quired to stroke the press. These drive belts shall be loosened to allow slippage if the press should stroke while the blocks were in place;

(4) The presses shall be equipped with a sliding barrier which drops when the press is tripped, preventing access to the die area;

(5) The barrier shall drop by gravity assisted by springs; it shall fall freely; and the closing time for the barrier shall be .20 seconds  $\pm$  .05 seconds. These items shall be routinely checked as part of the maintenance checks and necessary adjustments or repairs made to maintain the closing speed;

(6) Two-hand trips shall be the only method of actuating the press;

(7) The operating procedures for use of these safety blocks and the sliding barrier on the power presses shall be written and shall be strictly enforced. All press operators shall be trained in the procedures, and supervisory personnel shall be responsible for assuring that the procedures are observed at all times;

(8) The presses shall not operate at less than 40 RPM;

(9) The two-hand trips shall be located at such distance from the barrier that the falling of the barrier would prevent the operator from reaching into the die; and,

(10) The operators shall be assured of sufficient time to safely perform each press operation.

As soon as possible The West Co. shall give notice to affected employees of the terms of this order by the same means required to be used to inform them of the application for variance.

Effective date. This order shall become effective on January 20, 1978, and shall remain in effect until modified or revoked in accordance with section 6(d) of the Occupational Safety and Health Act of 1970.

Signed at Washington, D.C., this 16th day of January 1978.

EULA BINGHAM,  
Assistant Secretary of Labor.

[FR Doc. 78-1684 Filed 1-19-78; 8:45 am]

[4510-28]

Office of the Secretary  
[TA-W-1534]

BETHLEHEM STEEL CORP. SPARROWS POINT  
PLANT, BALTIMORE, MD.

Revised Determination

Following a Department of Labor investigation under section 222 of the Trade Act of 1974 and in accordance with section 223 of the Act, the Department of Labor on August 26, 1977, issued a notice of determinations regarding eligibility to apply for worker adjustment assistance applicable to workers and former workers of the

#### SALES OR PRODUCTION OR BOTH, HAVE DECREASED ABSOLUTELY

Sales and production of both continuous-weld and electric-weld pipe and tubing declined in the 4th quarter of 1975 compared to the like quarter of 1974 and from 1975 to 1976.

#### INCREASED IMPORTS

Imports of welded carbon steel pipe and tube increased from 1,207.3 thousand tons in 1975 to 1,499.5 thousand tons in 1976. Imports increased from 1,060.8 thousand tons in the first nine months of 1976 to 1,354.4 thousand tons in the first nine months of 1977. The ratio of imports to domestic shipments increased from 33.6 percent in 1975 to 50.7 percent in 1976. The ratio increased from 46.8 percent in the first nine months of 1976 to 52.1 percent in the first nine months of 1977.

#### CONTRIBUTED IMPORTANTLY

A survey of some of the customers of the Sparrows Point plant purchasing each of the types of pipe and tubing was conducted by the Department. Among the customers responding to the survey several had decreased purchases from Bethlehem and switched to imports in 1976.

#### B. TIN PLATE

A survey of some of the customers of the Sparrows Point plant that purchase tin plate was conducted by the Department. None of the customers that responded to the survey decreased purchases from Bethlehem in 1976 compared to 1975.

#### C. GALVANIZED SHEET

A survey of some of the customers of the Sparrows Point plant that purchase galvanized sheet was conducted by the Department. Only one customer that responded to the survey had decreased purchases from 1975 to 1976 and this customer represented a very small decline.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with the pipe and tubing produced at the Sparrows Point, Md., plant of Bethlehem Steel Corp., contributed importantly to the total or partial separations of workers engaged in the production of those products at that plant. In accordance with the provisions of the Act, I make the following certification:

All workers at the Sparrows Point, Md., plant of Bethlehem Steel Corp., engaged in employment related to the production of continuous-weld or electric-weld pipe and tubing who became totally or partially separated from employment on or after November 15, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Trade Act of 1974.

Sparrows Point plant of the Bethlehem Steel Corp., engaged in employment related to the production of nails and staples, wire, cold-rolled sheet, and hot-rolled sheet. The notice was published in the *FEDERAL REGISTER* on September 9, 1977 (42 FR 45390).

At the request of the United Steelworkers of America the Department re-opened its investigation to determine whether workers and former workers producing tin plate, galvanized sheet, pipe and tubing at the Sparrows Point plant of Bethlehem Steel Corp., are eligible to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The information upon which the determination was made was obtained principally from officials of the Bethlehem Steel Corp., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met with regard to workers engaged in employment related to the production of pipe and tubing. The investigation also revealed that without regard to whether any of the other criteria have been met, criterion (4) has not been met for workers engaged in employment related to the production of tin plate or galvanized sheet.

#### A. PIPE AND TUBING

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Pipe and tubing at Sparrows Point is produced on the electric resistance-weld pipe mill and the continuous-weld pipe mill. Employment of workers at both pipe mills declined in the 4th quarter of 1975 compared to the like quarter in 1974 and from 1975 to 1976.

It is further concluded that increased imports of articles like or directly competitive with tin plate and galvanized sheets produced at the Sparrows Point plant of the Bethlehem Steel Corp., did not contribute importantly to the total or partial separation of workers producing those products in the 4th quarter of 1975 and the full year 1976. Therefore, all workers at the Sparrows Point plant engaged in employment related to the production of tin plate or galvanized sheet who were separated from employment on or after November 15, 1975 and before December 31, 1976 are denied eligibility to apply for adjustment assistance.

Signed at Washington, D.C. this 11th day of January 1978.

JAMES F. TAYLOR,  
Director, Office of Management,  
Administration, and Planning.

[FR Doc. 78-1687 Filed 1-19-78; 8:45 am]

## [4510-28]

[TA-W-2399]

## CHARMIL SPORTSWEAR, INC., BOSTON, MASS.

## Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2399: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on September 29, 1977, in response to a worker petition received on September 27, 1977, which was filed on behalf of workers and former workers of Charmil Sportswear, Inc., Boston, Mass.

During the investigation, it was determined that women's sportswear, primarily skirts since 1975, are produced by Charmil Sportswear.

The notice of investigation was published in the FEDERAL REGISTER on October 14, 1977 (42 FR 55314). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Charmil Sportswear, Inc., its customers, the National Cotton Council of America, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have

become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (2) has not been met.

The Department's investigation revealed that company sales increased 7 percent in quantity in 1976 compared to 1975, then increased 12 percent in the January-October period in 1977 compared to the like 10 month period in 1976. Sales increased in quantity in each quarter beginning in the third quarter of 1976 through the third quarter of 1977 when compared to each like quarter in the previous year.

Charmil Sportswear is a contractor. As such, all production is to order from the manufacturer, so production is equal to sales.

## CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that sales or production of women's sportswear produced by Charmil Sportswear, Inc., Boston, Mass., have not declined as required for certification under section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 11th day of January 1978.

JAMES F. TAYLOR,  
Director, Office of Management,  
Administration, and Planning.

## [4510-28]

[TA-W-2223]

COLORITE TEXTILE PRINTWORKS, INC.  
BROOKLYN, N.Y.

## Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2223: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on July 25, 1977, in response to a worker petition received on July 22, 1977, which was filed by the Amalgamated Clothing and Textile Workers Union

of America on behalf of workers and former workers producing prints on bedspreads, drapes, and quilts at Colorite Textile Printworks, Inc., Brooklyn, N.Y.

During the investigation, it was determined that Colorite produces printed fabric which finds its end uses primarily in draperies and bedspreads.

The notice of investigation was published in the FEDERAL REGISTER on August 9, 1977 (42 FR 40286). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Colorite Textile Printworks, Inc., its customers, the American Textile Manufacturers Institute, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (4) has not been met.

The Department's investigation revealed that Colorite Textile Printworks, Inc., Brooklyn, N.Y., is a commission fabric printer. Manufacturers and fabric converters send unfinished material to Colorite. Colorite prints the fabric and returns the finished fabric to the customers.

Customers of Colorite who reduced purchases from the company in 1976 or the first half of 1977 compared to the like periods in the previous year were surveyed. They stated that they did not purchase imported printed fabric nor contract fabric printing work offshore. Customers which are fabric converters experienced increased sales in 1976 compared to 1975 and in the first nine months of 1977 compared to the like period in 1976.

Inasmuch as all types of finished fabric, flocked, dyed and printed, are

generally interchangeable and substitutable in their end uses, all types of finished fabric may be considered like or directly competitive with the fabric printed at Colorite.

Aggregate imports of finished fabric (including dyed, printed, and flocked), in absolute terms, declined from 1972 to 1973, declined from 1973 to 1974, and increased from 1974 to 1975. Imports increased 20 percent from 1975 to 1976.

Imports of finished fabric declined in each quarter of 1976 when compared to the previous quarter. Imports declined 38 percent in the first six months of 1977 compared to the like period of 1976.

Since 1973 the ratio of imports to domestic production has not exceeded 2.0 percent.

## CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with fabric printed at Colorite Textile Printworks, Inc., Brooklyn, N.Y., did not contribute importantly to the decline in sales or production and to the total or partial separation of the workers of that firm as required for certification under section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 13th day of January 1978.

HARRY GRUBERT,  
Director, Office of  
Foreign Economic Research.

## COPPER QUEEN BRANCH OF PHELPS DODGE CORP., BISBEE, ARIZ.

## Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2422: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 5, 1977 in response to a worker petition received on September 30, 1977, which was filed by the United Steel Workers of America on behalf of workers and former workers producing copper ore and refined copper at the Copper Queen, Bisbee, Ariz., Branch of Phelps Dodge Corp.

The notice of investigation was published in the FEDERAL REGISTER on October 25, 1977 (42 FR 56374). No public hearing was requested and none was held.

The information upon which the determination was made was obtained

principally from officials of Phelps Dodge Corp., the U.S. Department of Commerce, the U.S. International Trade Commission, the Department of the Interior, The American Metals Market, Metal Bulletin, and Metals Week, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that without regard to whether the other criteria have been met, the fourth criterion has not been met.

The Copper Queen Branch of Phelps Dodge located in Bisbee, Ariz., was founded in 1878 as Phelps Dodge's first copper mine. Until December 1974, the branch operated two copper mines: an open pit mine and an underground mine as well as a concentrator. The branch produced copper concentrate which was shipped to Phelps' smelter at Douglas to be transformed into copper anode. In December, 1974 the open pit mine became exhausted and it was permanently shut down. At this time the mine also shut down its concentrator and ceased production of copper concentrate. In June, 1975 the underground mine became exhausted and it was also shut down.

Thus, from July, 1975 to the present, the Copper Queen Branch has produced cement copper only, which is shipped to Phelps Dodge's smelter at Douglas.

The Copper Queen Branch produces cement copper by irrigating copper materials, low grade ore and rocks, which are spread on the open grounds at the property. The water, with its copper content (approximately 4 pounds of copper per 1000 gallons of water), is conducted through pipes and deposited into big cement containers located in the property. Once there, the copper is precipitated by dumping pieces of iron into the containers.

The process of production for cement copper has the following characteristics:

(1) It is a very slow process, which serves to produce copper that would be uneconomical to obtain by other processes of production, (2) it requires a fairly steady labor force, (3) its output (as well as employment) is not affected by demand for cement copper from the smelter, but by working conditions, such as whether conditions, which complicate the process of gathering and/or irrigating the copper materials. Leaching and precipitating copper at Copper Queen is therefore, a slow and comparatively inexpensive procedure, through which the company is able to obtain the last vestiges of copper from nearly exhausted resources.

Decreases in employment of production workers at Bisbee are attributed mainly to the conclusion of salvage operations related to the closing of the two mines and the concentrator, and, to a lesser degree, to changes in working conditions, such as weather.

## CONCLUSION

After careful review of the facts obtained in the investigation, it is concluded that increased imports of articles like or directly competitive with cement copper produced at the Copper Queen, Bisbee, Ariz., Branch of Phelps Dodge Corp., did not contribute importantly to the decline in production or to the total or partial separation of workers at that branch as required for certification under section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 13th day of January 1978.

HARRY GRUBERT,  
Director, Office of  
Foreign Economic Research.

## [4510-28]

[TA-W-2322]

## CORY-ERIC, FARMINGVILLE, N.Y.

## Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2322: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on September 12, 1977, in response to a worker petition received on September 6, 1977, which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers at the Cory-Eric, Farmingville, plant. The petition incorrectly states that the Cory-Eric plant was located in Farmingdale, N.Y. Cory-Eric was located in Farmingville, N.Y.

The notice of investigation was published in the *FEDERAL REGISTER* on October 4, 1977 (42 FR 54031). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Micky Blumfield Enterprises, the International Ladies' Garment Workers' Union, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation revealed that all of the above criteria have been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Although the average number of production workers employed at Cory-Eric increased by 23 percent from 1975 to 1976, the average number of production workers declined in the last half of 1976 and the first two months of 1977 compared to the same periods in the previous years by 29 percent and 49 percent, respectively.

#### SALES OR PRODUCTION OF BOTH, HAVE DECREASED

Production (assembly) of women's leather coats declined 37 percent in quantity in 1976 compared to 1975. Production declined in the last half of 1976 and the first two months of 1977 compared to the same period in the previous years by 70 percent and 58 percent, respectively.

#### INCREASED IMPORTS

Imports of women's, misses' and children's leather coats and jackets increased in absolute terms, from 1972 to 1973, decreased from 1973 to 1974, and increased from 1974 to 1975. Imports increased 48.5 percent from 1975 to 1976. The ratios of imports to do-

mestic production and consumption increased from 38.9 percent and 28.0 percent, respectively, in 1975 to 57.5 percent and 36.5 percent, respectively in 1976.

#### CONTRIBUTED IMPORTANTLY

The Department interviewed the apparel manufacturer who accounted for approximately 100 percent of Cory-Eric's business from 1970 to 1977. The manufacturer reported that it had decreased its orders to Cory-Eric for women's leather coats and had increased its purchases of imported women's leather coats.

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with women's leather coats produced at Cory-Eric, Farmingville, N.Y., contributed importantly to the decline in production and to the total or partial separation of the workers of the plant. In accordance with the provisions of the Act, I make the following certification:

All workers at Cory-Eric, Farmingville, N.Y., who became totally or partially separated from employment on or after September 1, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 13th day of January 1978.

HARRY GRUBERT,  
Director, Office of  
Foreign Economic Research.

[4510-28]

[TA-W-2420]

#### DOUGLAS REDUCTION WORKS OF PHELPS DODGE CORP., DOUGLAS, ARIZ.

#### Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2420: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 5, 1977, in response to a worker petition received on September 30, 1977, which was filed by the United Steel Workers of America on behalf of workers and former workers producing refined copper at the Douglas Reduction Works of Phelps Dodge Corp., Douglas, Ariz.

The notice of investigation was published in the *FEDERAL REGISTER* on October 25, 1977 (42 FR 56374). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Phelps

Dodge Corp., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, Department files, the Department of Interior, The American Metal Market, Metal Bulletin and Metals Week.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all of the above criteria have been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employment of production workers at the Douglas Reduction Works decreased in 1976 compared to 1975 and in the first three quarters of 1977 compared to the same quarters in 1976. Production workers were on strike from July 1, 1977 through August 11, 1977. Layoffs equal to or greater than 5 percent of average employment occurred in the September-December 1976 period, January 1977 and August 1977. Production increases coincident with employment declines are explained by the company's policy of first laying off those workers not directly involved in the production process (e.g. the removal of waste ore from the mine vicinity).

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production of anode copper at the Douglas Reduction Works declined in each of the first three quarters of 1977 compared to the like quarters in 1976.

#### INCREASED IMPORTS

U.S. imports of refined copper increased from 192 thousand short tons in 1972 to 203 thousand short tons and 314 thousand short tons, respectively, in 1973 and 1974. U.S. imports declined to 147 thousand short tons in 1975 before increasing to 384 thousand short tons in 1976. U.S. imports declined from 313 thousand short tons in

the first three quarters of 1976 to 275 thousand short tons in the first three quarters of 1977. U.S. imports increased from 101 thousand short tons in the third quarter of 1976 to 111 thousand short tons in the third quarter of 1977.

The ratio of imported refined copper to domestic production increased from 8.6 percent in 1972 to 9.0 percent and 15.2 percent, respectively, in 1973 and 1974. The ratio of imports to domestic production declined to 8.6 percent in 1975 before increasing to 21.0 percent in 1976. The ratio of imports to domestic production declined from 23.9 percent in the first six months of 1976 to 14.8 percent in the first six months of 1977.

#### CONTRIBUTED IMPORTANTLY

The evidence developed during the Department's investigation revealed that while imports of refined copper had increased by 161 percent in 1976 compared to 1975, domestic demand increased at only a fraction of that rate. Inventory levels of domestic and imported copper on consignment at domestic refineries in December 1976 were 31.4 percent above December 1975 levels and were 143.2 percent above December 1974 levels. Phelps Dodge and other domestic producers of refined copper lost sales in 1977 because of the excessive inventories of domestic and imported refined copper.

Imports of copper are affected by the differential between the domestic price of copper established by COMEX (Commodity Metal Exchange) and the price established by the LME (London Metals Exchange). When the LME price drops more than the estimated transportation costs of 5 to 8 cents per pound below the COMEX price, the demand for imported copper increases. During May and June 1977 the LME price was almost 11 cents per pound below the COMEX price and in July and August 1977 the LME price was almost 12 cents per pound below the COMEX price. At the same time, the abundant supply of copper stocks in the foreseeable future provides no reason for domestic consumers of copper to maintain ties with domestic producers for purposes of a guarantee against copper shortages. Consequently, in the third quarter of 1977, when many domestic copper producers curtailed production because of the depressed market price for copper, imports of refined copper increased 9.9 percent compared to the third quarter of 1976.

Price pressure from imported copper has reduced the ability to profitably mine domestic ore and convert it to copper concentrate and refined copper. Industry sources state that the weighted average production costs of the lowest cost domestic copper mines are 63 cents per pound. The weighted

average costs for the highest cost domestic copper mines are \$1.05 per pound. Thus, with a current domestic market price of 60 cents per pound, domestic producers lose, on the average, 3 to 45 cents on each pound of copper they choose to sell.

Phelps Dodge's decision to lay off workers and reduce its smelting operations at Douglas was based mainly on an attempt to minimize losses which the company could not avoid were it to run at normal production levels at the current market prices for copper.

Comments made by customers purchasing copper from Phelps Dodge substantiate the fact that increased imports have contributed to record inventory levels which have driven the price of domestic copper below the level at which many domestic firms can profitably produce copper.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with anode copper produced by the Douglas Reduction Works, Douglas, Ariz., facility of Phelps Dodge Corp., contributed importantly to the decline in production and to the total or partial separation of the workers at that facility.

In accordance with the provisions of the Act, I make the following certification:

All employees at the Douglas Reduction Works, Douglas, Ariz., facility of Phelps Dodge Corp., who became totally or partially separated from employment on or after September 20, 1976, and before July 1, 1977, and all employees at the Douglas Reduction Works, Douglas, Ariz., facility of Phelps Dodge Corp., who became totally or partially separated from employment on or after August 12, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

It is further concluded that all employees separated on or after July 1, 1977, and before August 12, 1977, are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade of 1974.

Signed at Washington, D.C., this 11th day of January 1978.

JAMES F. TAYLOR,  
Director, Office of Management,  
Administration, and Planning.

[4510-28]

[TA-W-2484]

#### HECLA MINING CO., CASA GRANDE, ARIZ.

#### Certification Regarding Eligibility To Apply For Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2482: investigation regarding

certification of eligibility to apply for worker adjustment assistance prescribed in section 222 of the Act.

The investigation was initiated on October 19, 1977 in response to a worker petition received on October 13, 1977 which was filed by the United Steel Workers of America on behalf of workers and former workers producing refined copper at the Casa Grande, Ariz. properties of Hecla Mining Co.

The notice of investigation was published in the *FEDERAL REGISTER* on December 6, 1977 (42 FR 61666). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Hecla Mining Co., the U.S. Department of Commerce, the U.S. International Trade Commission, the U.S. Department of Interior, the American Metal Market, Metal Bulletin, Metals Week, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all of the above criteria have been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Layoffs occurred at the Hecla Mining Co.'s Lakeshore Mine Operations in Casa Grande, Ariz. in October 1976 and continued in 1977. Separations occurred prior to production declines because of the company's policy of laying off those workers not directly involved with the production process whose duties can be performed at other times (e.g. the removal of waste ore from the mine vicinity). Most production workers were laid off on September 15, 1977 when the operations were shut down. No date has yet been set for reopening the operations.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production at the Lakeshore Mine declined in the third quarter of 1977 compared to the third quarter of 1976. The operations were shut down on September 15, 1977.

INCREASED IMPORTS

U.S. imports of refined copper increased from 192 thousand short tons in 1972 to 203 thousand short tons and 314 thousand short tons, respectively, in 1973 and 1974. U.S. imports declined to 147 thousand short tons in 1975 before increasing to 384 thousand short tons in 1976. U.S. imports declined from 313 thousand short tons in the first three quarters of 1976 to 275 thousand short tons in the first three quarters of 1977. U.S. imports increased from 101 thousand short tons in the third quarter of 1976 to 111 thousand short tons in the third quarter of 1977.

The ratio of imported refined copper to domestic production increased from 8.6 percent in 1972 to 9.0 percent and 15.2 percent, respectively, in 1973 and 1974. The ratio of imports to domestic production declined to 8.6 percent in 1975 before increasing to 21.0 percent in 1976. The ratio of imports to domestic production declined from 23.9 percent in the first six months of 1976 to 14.8 percent in the first six months of 1977.

CONTRIBUTED IMPORTANTLY

The evidence developed in the Department's investigation revealed that while imports of refined copper had increased by 161 percent in 1976 compared to 1975, domestic demand increased at only a fraction of that rate. Inventory levels of domestic and imported copper on consignment at domestic refineries in December 1976 were 31.4 percent above December 1975 levels and were 143.2 percent above December 1974 levels. Hecla and other domestic producers of refined copper lost substantial sales in 1977 because of the excessive inventories of domestic and imported refined copper.

Imports of copper are affected by the differential between the domestic price of copper established by COMEX (Commodity Metal Exchange) and the price established by the LME (London Metals Exchange). When the LME price drops more than the estimated transportation costs of 5-8 cents per pound below the COMEX price, the demand for imported copper increases. During May and June 1977 the LME price was almost 11 cents per pound below the COMEX price and in July and August 1977 the

NOTICES

LME price was almost 12 cents per pound below the COMEX price. At the same time, the abundant supply of copper stocks in the foreseeable future provides no reason for domestic consumers of copper to maintain ties with domestic producers for purposes of a guarantee against copper shortages. Consequently, in the third quarter of 1977, when many domestic copper producers curtailed production because of the depressed market price for copper, imports of refined copper increased 9.9 percent compared to the third quarter of 1976.

Price pressure from imported copper has reduced the ability to profitably mine domestic ore and convert it to copper concentrate and refined copper. Industry sources state that the weighted average production costs of the lowest cost domestic copper mines are 63 cents per pound. The weighted average costs for the highest cost domestic copper mines are \$1.05 per pound. Thus, with a current domestic market price of 60 cents per pound, domestic producers lose, on the average, 3 to 45 cents on each pound of copper they choose to sell.

Comments made by customers purchasing copper from Hecla Mining Co. substantiate the fact that increased imports have contributed to record inventory levels which have driven the price of domestic copper below the level at which many domestic firms can profitably produce copper.

Hecla's decision to lay off workers and reduce its mining operations and shut down the Lakeshore Mine in September 1977 was based mainly on an attempt to minimize losses which the company could not avoid were it to run at normal production levels at the current market price for copper.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with refined copper produced by Lakeshore Mine Operations of Hecla Mining Co. in Casa Grande, Ariz. contributed importantly to the decrease in company production and to the total or partial separation of the workers at that firm.

In accordance with the provisions of the Act, I make the following certification:

All employees at the Casa Grande, Ariz. property of Hecla Mining Co.'s Lakeshore Mine Operations who became totally or partially separated from employment on or after October 1, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 10th day of January 1978.

JAMES F. TAYLOR,  
Director, Office of Management,  
Administration, and Planning.

[4510-28]  
INVESTIGATIONS REGARDING CERTIFICATIONS OF ELIGIBILITY TO APPLY FOR WORKER ADJUSTMENT ASSISTANCE

Petitions have been filed with the Secretary of Labor under section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to section 221(a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than January 30, 1978.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than January 30, 1978.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210

Signed at Washington, D.C., this 5th day of January 1978.

MARVIN M. FOOKS,  
Director, Office of Trade  
Adjustment Assistance.

[TA-W-1981]

MILLER ABATTOIR CO., NORTH BERGEN, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1981: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on April 14, 1977, in response to a worker petition received on April 13, 1977 which was filed on behalf of former workers slaughtering, cutting and shipping meat at Miller Abattoir Co., North Bergen, N.J.

The Notice of Investigation was published in the FEDERAL REGISTER on April 29, 1977 (42 FR 21874). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Miller Abattoir Co., its customers, the U.S. Department of Agriculture, the U.S. De-

partment of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and
- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (4) has not been met.

Miller Abattoir Co. was established in 1937 in North Bergen, N.J. as a meat processing plant. About 90 percent of the meat handled at the plant was lamb, the rest beef. Miller Abattoir Co. closed in May 1976.

Miller Abattoir was primarily a kosher slaughterhouse which supplied kosher lamb cuts (forequarters) to kosher butcher shops in the New York City area. Industry analysts indicate, however, that all imported lamb is shipped frozen and consists of the non-kosher cuts, that is, of the hind-quarters of the lamb.

Customers surveyed who decreased purchases from Miller Abattoir Co. in 1975 and 1976 did not purchase imported lamb or beef during this period.

The red meat market is composed of beef, veal, lamb, and pork. In recent years lamb has accounted for a decreasing share of the total red meat market. The downward trend in lamb meat production may be largely attributed to consumer preferences and to the relatively high price of lamb meat compared to the price of other competitive meats. Due to the growing popularity of the fast foods industry, it has become increasingly difficult for lamb meat to compete effectively with

other red meats, especially ground beef.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that imports of articles like or directly competitive with lamb and beef meat processed by Miller Abattoir Co., North Bergen, N.J. did not contribute importantly to the decline in sales or production or to the total or partial separations of workers of that firm as required for certification under section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 13th day of January 1978.

[TA-W-2423]

#### MORENCI BRANCH OF PHELPS DODGE CORP. MORENCI, ARIZ.

##### Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2423: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 5, 1977, in response to a worker petition received on September 30, 1977, which was filed by the United Steel Workers of America on behalf of workers and former workers producing anode copper at the Morenci, Ariz., Branch of Phelps Dodge Corp.

The notice of investigation was published in the FEDERAL REGISTER on October 25, 1977 (42 FR 56374). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Phelps Dodge Corp., the U.S. Department of Commerce, the U.S. International Trade Commission, The Department of the Interior, The American Metals Market, Metal Bulletin, Metals Week, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

#### NOTICES

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all of the above criteria have been met.

##### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Production workers were on strike from July 1, 1977, through August 11, 1977. Layoffs equal to or exceeding 5 percent of average employment began at the Morenci Branch of Phelps Dodge Corp. in August 1977 subsequent to the strike and continued in September 1977. Additional layoffs are imminent.

##### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production of anode copper at the Morenci Branch declined in the first 9 months of 1977 compared to the like period in 1976. Projected production levels for the last quarter of 1977 are lower than the same quarter in 1976.

##### INCREASED IMPORTS

U.S. imports of refined copper increased from 192 thousand short tons in 1972 to 203 thousand short tons and 314 thousand short tons, respectively, in 1973 and 1974. U.S. imports declined to 147 thousand short tons in 1975 before increasing to 384 thousand short tons in 1976. U.S. imports declined from 313 thousand short tons in the first three quarters of 1976 to 275 thousand short tons in the first three quarters of 1977. U.S. imports increased from 101 thousand short tons in the third quarter of 1976 to 111 thousand short tons in the third quarter of 1977.

The ratio of imported refined copper to domestic production increased from 8.6 percent in 1972 to 9.0 percent and 15.2 percent, respectively, in 1973 and 1974. The ratio of imports to domestic production declined to 8.6 percent in 1975 before increasing to 21.0 percent in 1976. The ratio of imports to domestic production declined from 23.9 percent in the first 6 months of 1976 to 14.8 percent in the first 6 months of 1977.

##### CONTRIBUTED IMPORTANTLY

The evidence developed during the Department's investigation revealed that while imports of refined copper

had increased by 161 percent in 1976 compared to 1975, domestic demand increased at only a fraction of that rate. Inventory levels of domestic and imported copper on consignment at domestic refineries in December 1976 were 31.4 percent above December 1975 levels and were 143.2 percent above December 1974 levels. Phelps Dodge and other domestic producers of refined copper lost sales in 1977 because of the excessive inventories of domestic and imported refined copper.

Imports of copper are affected by the differential between the domestic price of copper established by COMEX (Commodity Metal Exchange) and the price established by the LME (London Metals Exchange). When the LME price drops more than the estimated transportation costs of 5-8 cents per pound below the COMEX price, the demand for imported copper increases. During May and June 1977 the LME price was almost 11 cents per pound below the COMEX price and in July and August 1977 the LME price was almost 12 cents per pound below the COMEX price. At the same time, the abundant supply of copper stocks in the foreseeable future provides no reason for domestic consumers of copper to maintain ties with domestic producers for purposes of a guarantee against copper shortages. Consequently, in the third quarter of 1977, when many domestic copper producers curtailed production because of the depressed market price for copper, imports of refined copper increased 9.9 percent compared to the third quarter of 1976.

Price pressure from imported copper has reduced the ability to profitably mine domestic ore and convert it to copper concentrate and refined copper. Industry sources state that the weighted average production costs of the lowest cost domestic copper mines are 63 cents per pound. The weighted average costs for the highest cost domestic copper mines are \$1.05 per pound. Thus, with a current domestic market price of 60 cents per pound, domestic producers lose, on the average, 3 to 45 cents on each pound of copper they choose to sell.

Phelps Dodge's decision to lay off workers and reduce its Morenci Branch's mining operations in August and September 1977 was based mainly on an attempt to minimize losses which the company could not avoid were it to run at normal production levels at the current market prices for copper.

Comments made by customers purchasing copper from Phelps Dodge substantiate the fact that increased imports have contributed to record inventory levels which have driven the price of domestic copper below the level at which many domestic firms can profitably produce copper.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with anode copper produced by the Morenci, Ariz., Branch of Phelps Dodge Corp. contributed importantly to the decline in production and to the total or partial separation of the workers at that branch.

In accordance with the provisions of the Act, I make the following certification:

All employees at the Morenci, Ariz., Branch of Phelps Dodge Corp. who became totally or partially separated from employment on or after August 12, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 13th day of January 1978.

HARRY GRUBERT,  
Director, Office of  
Foreign Economic Research.

[TA-W-2421]

#### NEW CORNELIA BRANCH OF PHELPS DODGE CORP., AJO, ARIZ.

##### Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2421: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 5, 1977, in response to a worker petition received on September 30, 1977, which was filed by the United Steel Workers of America on behalf of workers and former workers producing anode copper at the New Cornelia, Ajo, Ariz., Branch of Phelps Dodge Corp.

The notice of investigation was published in the FEDERAL REGISTER on October 25, 1977, (42 FR 56374). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Phelps Dodge Corp., the U.S. Department of Commerce, the U.S. International Trade Commission, the Department of the Interior, The American Metals Market, Metal Bulletin, Metals Week, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) that a significant number or proportion of the workers in such workers' firm, or

#### NOTICES

an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all of the above criteria have been met.

##### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Production workers at the New Cornelia Branch were on strike from July 1, 1977, through August 11, 1977. Layoffs equal to or exceeding 5 percent of average employment began in August and September of 1977, subsequent to the strike. Employment of production workers declined in the third quarter of 1977 compared to the third quarter of 1976.

##### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production of anode copper at the New Cornelia Branch declined in the first six months of 1977 compared to the same period in 1976, and then ceased entirely from August 12, 1977, to October 1, 1977, immediately after the strike, due to lack of demand.

##### INCREASED IMPORTS

U.S. imports of refined copper increased from 192 thousand short tons in 1972 to 203 thousand short tons and 314 thousand short tons, respectively, in 1973 and 1974. U.S. imports declined to 147 thousand short tons in 1975 before increasing to 384 thousand short tons in 1976. U.S. imports declined from 313 thousand short tons in the first three quarters of 1976 to 275 thousand short tons in the first three quarters of 1977. U.S. imports increased from 101 thousand short tons in the third quarter of 1976 to 111 thousand short tons in the third quarter of 1977.

The ratio of imported refined copper to domestic production increased from 8.6 percent in 1972 to 9.0 percent and 15.2 percent, respectively, in 1973 and 1974. The ratio of imports to domestic production declined to 8.6 percent in 1975 before increasing to 21.0 percent in 1976. The ratio of imports to domestic production declined from 23.9 percent in the first six months of 1976 to 14.8 percent in the first six months of 1977.

#### CONTRIBUTED IMPORTANTLY

The evidence developed during the Department's investigation revealed that while imports of refined copper had increased by 161 percent in 1976 compared to 1975, domestic demand increased at only a fraction of that rate. Inventory levels of domestic and imported copper on consignment at domestic refineries in December 1976 were 31.4 percent above December 1975 levels and were 143.2 percent above December 1974 levels. Phelps Dodge and other domestic producers of refined copper lost sales in 1977 because of the excessive inventories of domestic and imported refined copper.

Imports of copper are affected by the differential between the domestic price of copper established by COMEX (Commodity Metal Exchange) and the price established by the LME (London Metals Exchange). When the LME price drops more than the estimated transportation costs of 5 to 8 cents per pound below the COMEX price, the demand for imported copper increases. During May and June 1977 the LME price was almost 11 cents per pound below the COMEX price and in July and August 1977 the LME price was almost 12 cents per pound below the COMEX price. At the same time, the abundant supply of copper stocks in the foreseeable future provides no reason for domestic consumers of copper to maintain ties with domestic producers for purposes of a guarantee against copper shortages. Consequently, in the third quarter of 1977, when many domestic copper producers curtailed production because of the depressed market price for copper, imports of refined copper increased 9.9 percent compared to the third quarter of 1976.

Price pressure from imported copper has reduced the ability to profitably mine domestic ore and convert it to copper concentrate and refined copper. Industry sources state that the weighted average production costs of the lowest cost domestic copper mines are 63 cents per pound. The weighted average costs for the highest cost domestic copper mines are \$1.05 per pound. Thus, with a current domestic market price of 60 cents per pound, domestic producers lose, on the average, 3 to 45 cents on each pound of copper they choose to sell.

Phelps Dodge's decision to lay off workers and reduce its New Cornelia Branch's mining operations in August and September 1977, was based mainly on an attempt to minimize losses which the company could not avoid were it to run at normal production levels at the current market prices for copper.

Comments made by customers purchasing copper from Phelps Dodge substantiate the fact that increased imports have contributed to record in-

ventory levels which have driven the price of domestic copper below the level at which many domestic firms can profitably produce copper.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with anode copper produced by the New Cornelia, Ajo, Ariz. Branch of Phelps Dodge Corp., contributed importantly to the decline in production and to the total or partial separation of the workers at that branch.

In accordance with the provisions of the Act, I make the following certification:

All employees at the New Cornelia, Ajo, Ariz. Branch of Phelps Dodge Corp., who became totally or partially separated from employment on or after August 12, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 11th day of January 1978.

#### [4510-28]

(TA-W-2040)

#### PRAIRIE MANUFACTURING CO., EAST PRAIRIE, MO.

#### Revised Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor issued a Notice of Negative Determination on August 31, 1977, published in the FEDERAL REGISTER on September 20, 1977, (42 FR 47276), regarding eligibility to apply for adjustment assistance applicable to former workers producing men's slacks, jeans, and uniforms at the Prairie Manufacturing Co., of East Prairie, Mo.

On the basis of additional information provided by workers of the Prairie Manufacturing Co., the Office of Trade Adjustment Assistance initiated a review investigation.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or sub-

division are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The reinvestigation has revealed that all four criteria have been met.

The original investigation had established the fact that: Average employment of production workers had fallen 10.3 percent in the first quarter of 1977 compared to the same period in 1976 and average weekly hours declined in the same period by 9.4 percent; production had fallen in 1976 compared to 1975 and in the first quarter of 1977 compared to the same period a year earlier; and that imports of men's and boys' dress and sport trousers and shorts had increased absolutely and relative to domestic production in 1976 compared to 1975 and increased absolutely in the first quarter of 1977 compared to the first quarter 1976.

Prairie Manufacturing Co. produces men's dress slacks, jeans and men's uniform slacks for one customer. This customer reduced purchases from Prairie in 1976 compared to 1975 and in the first quarter of 1977 compared to the same period in 1976. In early 1977 this customer began significant purchases of imported jeans directly competitive with articles made by Prairie. The purchases continued over a period of several months in 1977.

#### CONCLUSION

After careful review of the facts obtained in the reinvestigation I conclude that increases of imports of articles like or directly competitive with the jeans produced at the Prairie Manufacturing Co., contributed importantly to the total or partial separations of the workers of that firm. In accordance with the provisions of the Trade Act of 1974, I hereby issue the following revised determination:

All workers at the Prairie Manufacturing Co., of East Prairie, Mo., engaged in employment related to the production of jeans who became totally or partially separated from employment on or after January 8, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 13th day of January 1978.

JAMES F. TAYLOR,  
Director, Office of Management,  
Administration, and Planning.

#### [4510-28]

(TA-W-2424)

#### TYRONE BRANCH OF PHELPS DODGE CORP. TYRONE, N. MEX.

#### Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2424: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 5, 1977, in response to a worker petition received on September 30, 1977, which was filed by the United Steel Workers of America on behalf of workers and former workers producing copper ore and refined copper at the Tyrone, N. Mex. Branch of Phelps Dodge Corp.

The notice of investigation was published in the FEDERAL REGISTER on October 25, 1977 (42 FR 56374). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Phelps Dodge Corp., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, Department files, Department of Interior, The American Metals Market, Metal Bulletin and Metals Week.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, the first criterion has not been met.

From January, 1976 through September, 1977, the only layoffs at the Tyrone Branch took place in September, 1977. These layoffs amounted to only 1.3 percent of the average number of production workers employed in that month, and were less than 50 workers.

In addition, in 1976 and the first nine months of 1977, the average weekly hours worked were not reduced to 80 percent or less of the normal work week at Tyrone.

From January 1976, through September 1977, employment declines of over 5 percent occurred only in the third quarter of 1976 and the third quarter of 1977, compared to the same quarters of the previous year. These declines are attributable to quits by college students employed for the summer, who usually leave in August.

There is no indication that current workers are threatened with any involuntary total or partial separations from employment at the Tyrone Branch.

#### CONCLUSION

After careful review of the facts obtained in the investigation, it is concluded that a significant number or proportion of workers at the Tyrone, N. Mex. Branch of Phelps Dodge Corp., have not become totally or partially separated and are not threatened to become totally or partially separated as required for certification under section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 13th day of January 1978

#### VIRGIN ISLANDS UNEMPLOYMENT COMPENSATION LAW

#### Approval

The Government of the Virgin Islands of the United States, in December 1977, submitted its unemployment compensation law, which is entitled the "Virgin Islands Unemployment In-

surance Act," for approval under section 3304(a) of the Internal Revenue Code of 1954, 26 U.S.C. 3304(a), as most recently amended by Pub. L. 94-566, approved October 20, 1976 (90 Stat. 2867), and Pub. L. 95-19, approved April 12, 1977 (91 Stat. 39).

Pursuant to section 3304(a) of the Internal Revenue Code of 1954, amended as set forth above, and in accordance with the delegation of authority in Secretary's Order 4-75, dated April 16, 1975 (40 FR 18515), the Employment and Training Administration in this Department examined the Virgin Islands law submitted for approval and found that it contains among its words and phrases all of the provisions required by said section 3304(a) to be contained therein, and which were to be in effect from and after January 1, 1978, or at an earlier date. Accordingly, the Assistant Secretary for Employment and Training approved the Virgin Islands law under section 3304(a) as of December 31, 1977.

In accordance with section 116(g) of Pub. L. 94-566 (90 Stat. 2673), and as a condition of the approval under section 3304(a), the Governor of the Virgin Islands, by approval of the Virgin Islands law, has approved the transfer to the Federal unemployment trust fund established by section 904 of the Social Security Act of an amount equal to the dollar balance credited to the unemployment subfund of the Virgin Islands established under section 310 of title 24 of the Virgin Islands Code.

In view of the foregoing, I hereby confirm the approval of the Virgin Islands Unemployment Insurance Act under section 3304(a) of the Internal Revenue Code of 1954, subject to the provisions of subsections (c) and (d) of section 3304, as of the date of such approval by the Assistant Secretary for Employment and Training.

Signed at Washington, D.C., on January 13, 1978.

RAY MARSHALL,  
Secretary of Labor.

#### [7590-01]

#### NUCLEAR REGULATORY COMMISSION

#### ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON THE MAINE YANKEE NUCLEAR PLANT

#### Meeting

The ACRS Subcommittee on the Maine Yankee Nuclear Plant will hold a meeting on February 4, 1978 in Room 1046, 1717 H Street NW., Washington, D.C. 20555 to review the request of the Maine Yankee Atomic Power Corp. for a power level increase for this plant.

In accordance with the procedures outlined in the FEDERAL REGISTER on October 31, 1977, page 56972, oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The agenda for subject meeting shall be as follows:

SATURDAY, FEBRUARY 4, 1978

8:30 A.M. UNTIL THE CONCLUSION OF BUSINESS

The Subcommittee may meet in Executive Session, with any of its consultants who may be present, to explore and exchange their preliminary opinions regarding matters which should be considered during the meeting and to formulate a report and recommendations to the full Committee.

At the conclusion of the Executive Session, the Subcommittee will hear presentations by and hold discussions with representatives of the NRC Staff, the Maine Yankee Atomic Power Corp., and their consultants, pertinent to this review.

The Subcommittee may then caucus to determine whether the matters identified in the initial session have been adequately covered and whether the project is ready for review by the full Committee.

In addition, it may be necessary for the Subcommittee to hold one or more closed sessions for the purpose of exploring matters involving proprietary information. I have determined, in accordance with Subsection 10(d) of Pub. L. 92-463, that, should such sessions be required, it is necessary to close these sessions to protect proprietary information (5 U.S.C. 552b(c)(4)).

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the Designated Federal Employee for this meeting, Mr. Elpidio G. Igne, (telephone 202-634-1920) between a.m. and 5 p.m., e.s.t.

Background information concerning items to be considered at this meeting can be found in documents on file and available for public inspection at the NRC Public Document Room, 1717 H Street NW., Washington, D.C. 20555 and at the Wiscasset Public Library, High Street, Wiscasset, Maine 04578.

Dated: January 16, 1978.

JOHN C. HOYLE,  
Advisory Committee  
Management Officer.

## [7590-01]

[Docket No. 50-389A]

FLORIDA POWER & LIGHT CO. (ST. LUCIE  
PLANT, UNIT 2)

## Order

On October 19, 1977, the Commission decided to review ALAB-420, and requested briefing on questions set out in the order of that date. Oral argument in this case, previously set down for Thursday, January 12, 1978, has been rescheduled. The Commission will hear oral argument on Tuesday, January 24, 1978, at 9:30 a.m., in the Commission's conference room, 11th floor, 1717 H Street NW., Washington, D.C. As indicated in the Commission's order dated December 29, 1977, the parties should be prepared to address whether and how licensing boards might take into account the lateness of a request for an antitrust hearing in (1) determining the scope of the hearing, and (2) granting relief. The parties should also discuss whether the Licensing Board, in view of the lateness of the request for hearing, should have looked behind the allegations contained in the Florida Cities affidavits filed with the Board in determining whether good cause existed to have a late antitrust hearing. As previously indicated, the order and time limits for argument will be as follows:

Florida Power & Light Co.—20 minutes.  
The Florida Cities—20 minutes.  
NRC Staff and U.S. Department of Justice—20 minutes, to be divided by them by agreement. If there is no agreement, then divided equally.

Each party may elect to reserve a portion of its allotted time for rebuttal. It is so ordered.

Dated at Washington, D.C., on this 17th day of January, 1978.

By the Commission.

SAMUEL J. CHILK,  
Secretary of the Commission.

[FR Doc. 78-1813 Filed 1-19-78; 8:45 am]

The "Florida Cities" is the collective name used in this litigation for 21 Florida municipalities and utility commissions and the Florida Municipal Utilities Association. The individual names have been specified in previous filings before the Commission and in Commission orders.

## NOTICES

## [7590-01]

[Docket No. 50-302]

FLORIDA POWER CORP. ET AL.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 11 to Facility Operating License No. DPR-72, issued to the Florida Power Corp., City of Alachua, City of Bushnell, City of Gainesville, City of Kissimmee, City of Leesburg, City of New Smyrna Beach and Utilities Commission, City of New Smyrna Beach, City of Ocala, Orlando Utilities Commission and City of Orlando, Sebring Utilities Commission, Seminole Electric Cooperative, Inc., and the City of Tallahassee (the licensees) which revised Technical Specifications for operation of the Crystal River Unit No. 3 Nuclear Generating Plant located in Citrus County, Fla. The amendment is effective as of the date of issuance.

This amendment resolves conflicting requirements with respect to the Reactor Building Purge Exhaust Duct Monitor trip setpoints, amplifies an emergency feedwater pump surveillance requirement, corrects typographical errors and deletes improperly characterized valves from a table of containment isolation valves.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated July 15, 1977, (2) Amendment No. 11 to License No. DPR-72, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Crystal River Public Library, Crystal River, Fla. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commis-

sion, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 11th day of January 1978.

For the Nuclear Regulatory Commission.

ROBERT W. REID,  
Chief, Operating Reactors  
Branch No. 4, Division of Operating Reactors.

## [7590-01]

[Docket No. 50-333]

POWER AUTHORITY OF THE STATE OF NEW YORK

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 32 to Facility Operating License No. DPR-59, issued to the Power Authority of the State of New York (the licensee), which revised Technical Specifications for operation of the James A. FitzPatrick Nuclear Power Plant (the facility) located in Oswego County, N.Y. The amendment is effective as of its date of issuance.

The amendment provides for changes in the Technical Specifications which (1) utilize words from Regulatory Guide 1.16 instead of referencing the Guide and (2) delete the requirement for an Annual Operating Report.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment submitted by letter dated November 2, 1977, (2) Amendment No. 32 to License No. DPR-59, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H

## NOTICES

Street, NW., Washington, D.C. and at the Oswego County Office Building, 48 E. Bridge Street, Oswego, N.Y. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 13th day of January 1978.

For the Nuclear Regulatory Commission.

## [7590-01]

[Dockets Nos. 50-280, 50-281]

VIRGINIA ELECTRIC AND POWER CO., SURRY  
POWER STATION, UNITS NOS. 1 AND 2

## Order for modification of license

I. Virginia Electric and Power Co. (the licensee), is the holder of Facility Operating Licenses Nos. DPR-32 and DPR-37 which authorize the operation of two nuclear power reactors known as Surry Power Station, units Nos. 1 and 2 (the facility) at steady state reactor power levels not in excess of 2441 thermal megawatts (rated power). The reactors are pressurized water reactors (PWR) located at the Licensee's site in Surry County, Va.

II. On August 24, 1977, the Commission authorized the installation of flow-limiting orifices in the discharge of the outside recirculation spray pumps for the facility and imposed limitations on certain operating parameters for the facility. These limitations were designed to assure adequate minimum flow of the containment recirculation spray pumps for design basis Loss of Coolant Accident (LOCA) conditions. One of these limitations was a minimum service water temperature of 55° F. On October 17, 1977, we authorized lowering the minimum limit to 35° F. The service water cools, through heat exchangers, the recirculating containment spray water. Adequate service water cooling serves to limit the recirculating containment spray water temperature. The lower limit on temperature was intended to assure that containment depressurization rate did not result in an inadequate net positive suction head (NPSH).

By letter dated September 12, 1977, the licensee submitted the results of more complete analyses regarding the available net positive suction head for the low head safety injection pumps for interim operation of the plants. The methods used to calculate the containment pressure, containment sump temperature, and available

NPSH have been reviewed for the North Anna plant and found to be acceptable. The same methods were used in the calculations for Surry.

By letter dated December 28, 1977, the licensee submitted the results of similar analyses regarding the lowering of the minimum service water temperature from 35° F to 25° F. Technical Specification 3.14, Circulating and Service Water Systems, provides a requirement for two operable service water flow paths to the recirculation spray system. The definition of "operable" includes a requirement that the service water is unfrozen and available for use. The Technical Specification requires plant shutdown should the flow paths not be operable. The following discussion indicates that the recirculating spray system would perform its required safety functions even if the service water reached 25° F, a physically unattainable lower value, since the freezing point for the service water is approximately 29° F.

The analyses in the December 28th letter indicate the effects of 25° F service water temperature on minimum available net positive suction head (NPSH) on the containment recirculation spray (RS) pumps and the low head safety injection (LHSI) pumps. The most severe operating condition provides sufficient NPSH and is therefore acceptable.

The decrease in service water temperature below 35° F provides added assurance that the containment will depressurize within one hour in the unlikely event of a loss of coolant accident.

For the foregoing reason, it is concluded that deleting the minimum service water temperature limit will still provide adequate recirculation spray pump flow to assure that continued operation will not impose an undue threat to public health and safety.

Copies of the following documents are available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington D.C. 20555, and at the Swem Library, College of William and Mary, Williamsburg, Va.: (1) Letters from Licensee dated September 12, and December 28, 1977, and (2) this Order for Modification of License, in the matter of Virginia Electric and Power Co., Surry Power Station units Nos. 1 and 2, Dockets Nos. 50-280 and 50-281.

III. Accordingly, pursuant to the Atomic Energy Act of 1954, as amended, and the Commission's rules and regulations in 10 CFR Parts 2 and 50:

It is ordered, That Facility Operating Licenses Nos. DPR-32 and DPR-37 are hereby amended by supplementing our August 24, 1977 Order for Modification of License to include the following limits on operation, effective immediately:

Maximum service water temperature 85° F.

Containment temperature 100° to 125° F.  
Containment air partial maximum pressure 9.3 PSIA at 85° F service water temperature and 45° F RWST temperature. This value will vary in a manner similar to existing Technical Specification 3.8

Dated in Bethesda, Md. this 10th day of January 1978.

For the Nuclear Regulatory Commission.

VICTOR STELLO, Jr.,  
Director, Division of Operating Reactors, Office of Nuclear Reactor Regulation.

[FR Doc. 78-1597 Filed 1-19-78; 8:45 a.m.]

OFFICE OF MANAGEMENT AND  
BUDGET

## CLEARANCE OF REPORTS

## List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on January 11, 1978 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Request for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, 202-395-4529, or from the reviewer listed.

## NEW FORMS

## NATIONAL SCIENCE FOUNDATION

User Survey, Technical Report Author Survey, survey of federally funded projects, single time, individuals, Laverne V. Collins, 395-3214, Office of Federal Statistical Policy and Standard.

## U.S. INTERNATIONAL TRADE COMMISSION

(1) U.S. Producers' and (2) U.S. Importers' Questionnaires on Stainless Steel Table Flatware, single time, producers and importers of stainless steel flatware, C. Louis Kincannon, 395-3211.

## GENERAL SERVICES ADMINISTRATION

Claim for Exemption From Submission of Certified Cost or Pricing Data, OF-277, on occasion, suppliers of commercial items, Office of Federal Procurement Policy, 395-3436.

2960

NOTICES

**TENNESSEE VALLEY AUTHORITY**  
Commercial and Industrial Interview Guide, 8252, 8252A, single time, larger accounts, C. Louis Kincannon, 395-3211.

SECURITIES AND EXCHANGE  
COMMISSION

[Release No. 5897; 18-5]

## COVINGTON AND BURLING RETIREMENT PLAN

Filing of Application for an Order Exempting  
From Provisions of Interests or Participations  
in Covington and Burling Retirement Plan

JANUARY 12, 1978.

Notice is hereby given that Covington and Burling ("Applicant"), 888 Sixteenth Street, N.W., Washington, D.C. 20006, a law firm organized as a partnership under the laws of the District of Columbia, has, by letter dated July 29, 1977, applied for an exemption from the registration requirements of the Securities Act of 1933 (the "Act") for participations or interests issued in connection with The Covington and Burling Retirement Plan (the "Plan"). All interested persons are referred to that document, which is on file with the Commission, for the facts and representations contained therein, which are summarized below.

## I. INTRODUCTION

Applicant's Plan provides that partners of the Applicant (except senior partners who no longer have the obligation to practice law) and employees of the Applicant (except employees whose employment depends primarily on legal education, such as lawyers and law clerks who are not partners) are eligible for participation therein if they are at least 25 years of age and have completed one year of service with the Applicant. Participation in the Plan begins on the January 1, or July 1, next succeeding the date on which a person first becomes eligible for participation. As of January 1, 1977, approximately 68 partners and 186 employees were eligible to participate in the Plan. The Plan is of the type commonly referred to as a "Keogh" plan, which covers persons (in this case, certain of Applicant's partners and employees) who are employees within the meaning of Section 401(c)(1) of the Internal Revenue Code of 1954 (the "Code"), and, therefore, is excepted from the exemption provided by Section 3(a)(2) of the Act for interests or participations in cer-

tain employee benefit plans of corporate employers. Section 3(a)(2) of the Act provides, however, "the Commission, by rules and regulations or order, shall exempt from the provisions of section 5 of the Act any interest or participation issued in connection with a stock bonus, pension, profit-sharing or annuity plan which covers employees some or all of whom are employees within the meaning of section 401(c)(1) of the Code, if and to the extent that the Commission determines this to be necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act."

II. DESCRIPTION AND ADMINISTRATION  
OF THE PLAN

Applicant represents that the Plan was originally established effective January 1, 1960, as a fixed benefit plan for non-legal employees (i.e., employees other than partners, associates or law clerks) and all contributions to the Plan were made by the Applicant, there being no provision for voluntary employee contributions. Effective as of January 1, 1968, the Plan was amended to provide for participation by partners, for annual contributions by Applicant of a fixed percentage of earnings of each participant, or for benefits to non-legal personnel on either a money purchase or a fixed benefit basis, whichever provision would produce the highest benefits. At that time the Plan was also amended to provide for voluntary contributions by participants of 1 percent to 10 percent of annual earnings, as defined in the Plan, to provide benefits on a money purchase basis. The Plan and related trust agreement have been amended effective January 1, 1976. These amendments were designed primarily for the purpose of complying with the Employment Retirement Income Security Act of 1974 ("ERISA"), to which the Plan is subject. The Internal Revenue Service has issued a determination letter to the effect that the Plan and trust agreement, as amended to date, continue to meet the requirements of section 401(a) of the Code and that the trust remains tax exempt under section 501(a) of the Code.

Applicant states that under the Plan, Applicant contributes to American Security Bank, N.A. (the "Trustee") with respect to each participant in the Plan an amount equal to 7½ percent of the participant's "earnings" (not in excess of \$100,000) from Applicant in every calendar year in which a participant has at least 1,000 hours of service unless the participant's participation commenced on July 1 in which case Applicant contributes in that year 3½ percent of such earnings. Each participant under the Plan is

permitted, at his option, to make voluntary contributions in an amount not less than 1 percent nor more than 10 percent of his earnings (not in excess of \$100,000) from the Firm for each calendar year. The amount of the voluntary contributions by participants during each fiscal year of the Applicant is also limited as required by section 415 of the Internal Revenue Code.

Applicant represents that the Plan is administered by Applicant's Pension Committee (the "Committee"), appointed by Applicant's Management Committee and consisting, as presently constituted, of three partners of the Applicant. The Committee is responsible for the day-to-day administration of the Plan, including the making and enforcement of rules relating to administration, interpretation of the Plan, determining the eligibility of each employee, authorizing disbursements, etc.

Applicant states that the assets of the Plan are to be held by the Trustee pursuant to a trust agreement between the Trustee and Applicant. The Committee is authorized to establish one or more trust funds and to allocate assets of the trust and contributions of the Applicant and the employees to such trust funds. Applicant represents that the trust agreement contemplates that there may be a discretionary fund managed by the Trustee, a directed fund to be managed by an "investment manager" as defined in ERISA, and a segregated fund to be managed by some other designated fiduciary. Applicant further represents that initially T. Rowe Price Associates has been designated an investment manager of a directed fund to hold substantially all Plan assets except assets which may be invested on a short-term basis by the Trustee. To the extent that a fund is managed by a person other than the Trustee, the Trustee has no investment discretion except as it may be requested to handle short-term investments.

Applicant represents that the Committee is authorized to establish general policy guidelines for the investment of Plan assets and to the extent that the Trustee, an investment manager, or a designated fiduciary acts in compliance with such guidelines, they are relieved of responsibility.

The Plan authorizes the Trustee to invest in collective or commingled funds containing assets other than assets of the Plan but the Committee will establish a policy guideline permitting such investment only if interests or participations in such fund are effectively registered under the Act. The Trustee currently has such a fund for investment of assets of Keogh plans. The provision for a segregated fund to be managed by a designated fiduciary was included to enable the Committee to direct application of

assets of the Plan to insurance or annuity contracts to provide Plan benefits.

Applicants state that the Committee is responsible for the funding policy of the Plan, but does not exercise investment discretion. The Committee also has authority to employ actuaries, accountants and other experts to assist in the administration of the Plan.

Applicant further submits that as an "employee pension benefit plan" within the meaning of ERISA, the Plan is subject to certain reporting and disclosure requirements.

Applicant contends that the exemption from registration under Section 3(a)(2) of the Act would clearly be available if Applicant were incorporated, for there would be no section 401(c)(1) employees. Applicant argues that merely because Applicant is unincorporated is no reason for subjecting such interests and participations to the registration requirements of the Act. Similarly, were partners of Applicant excluded from participation, the exemption would clearly be available. Again there would seem to be no policy basis for requiring registration simply because the principals responsible for establishing and administering the Plan, that is, the partners, are included as participants.

Applicant concludes that under the circumstances, granting the requested exemptive order would be appropriate in the public interest, consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given, that any interested person may, not later than January 30, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

The Applicant states, in part: (1) The Applicant is a wholly-owned subsidiary of Cummins Engine Co., Inc., and was incorporated to assist in financing Cummins' foreign operations. (2) The Applicant's 5% Subordinated Guaranteed Convertible Debentures due 1988 (the "Eurodollar Debentures") are the only class of securities issued by the Applicant which is registered under the 1934 Act. The Eurodollar Debentures are listed on the New York Stock Exchange where negligible trading has occurred since they were admitted to trading in 1968. (3) The Eurodollar Debentures are guaranteed by Cummins and are convertible into Cummins Common Stock. None of the securities of Applicant (other than the Eurodollar Debentures) are presently held by any person other than Cummins.

For the Commission, by the Division  
of Investment Management, pursuant  
to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

[File No. 81-298]

## CUMMINS INTERNATIONAL FINANCE CORP.

Application and Opportunity for Hearing

JANUARY 12, 1978.

Notice is hereby given, that Cummins International Finance Corp. ("Applicant") has filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended, (the "1934 Act"), for an order exempting the Applicant from the provisions of Section 13 of that Act.

Section 13 of the 1934 Act provides that every issuer of a security registered pursuant to Section 12 of that Act, shall file with the Commission, in accordance with such rules and regulations as the Commission may prescribe as necessary or appropriate for the proper protection of investors and to insure fair dealing in the security, such information and documents as the Commission shall require to keep reasonably current the information included in the registration statement, and such annual and quarterly reports the Commission may prescribe.

Section 12(h) of the 1934 Act empowers the Commission to exempt, in whole or in part, any issuer or class of issuers from the periodic reporting provisions of section 13 of the 1934 Act, if the Commission finds by reason of the number of public investors, amount of trading interest in the securities, the nature and extent of trading interest in the securities, the nature and extent of the activities of the issuer, or otherwise, that such exemption is not inconsistent with the public interest or the protection of investors.

The Applicant states, in part: (1) The Applicant is a wholly-owned subsidiary of Cummins Engine Co., Inc., and was incorporated to assist in financing Cummins' foreign operations. (2) The Applicant's 5% Subordinated Guaranteed Convertible Debentures due 1988 (the "Eurodollar Debentures") are the only class of securities issued by the Applicant which is registered under the 1934 Act. The Eurodollar Debentures are listed on the New York Stock Exchange where negligible trading has occurred since they were admitted to trading in 1968.

(3) The Eurodollar Debentures are guaranteed by Cummins and are convertible into Cummins Common Stock. None of the securities of Applicant (other than the Eurodollar Debentures) are presently held by any person other than Cummins.

(4) The holder of Eurodollar Debentures can be fully informed as to their investment by the reports required to be filed by Cummins pursuant to section 13 of the 1934 Act.

For a more detailed statement of the information presented, all persons are referred to the application which may be examined at the Commission's Public Reference Section, 1100 L Street NW., Washington, D.C.

Notice is further given, that any interested person, not later than Feb. 6, 1978, may submit to the Commission in writing his view or any substantial facts bearing on this application or the desirability of a hearing thereon. Any such communication or request should be addressed to Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof. At any time after said date, an order granting the application may be issued upon request or upon the Commission's own motion.

For the Commission, by the Division  
of Corporation Finance, pursuant to  
delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

[8010-01]

[File No. 81-264]

CYANAMID INTERNATIONAL DEVELOPMENT  
CORP.

Application and Opportunity for Hearing

JANUARY 9, 1978.

Notice is hereby given, that Cyanamid International Development Corp. ("Applicant") has filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended, (the "Exchange Act") seeking an exemption from the requirement to file reports pursuant to section 13 of the Exchange Act.

Section 12(b) of the Exchange Act provides that an issuer may register securities on a national securities exchange by filing a registration statement with both the exchange and the Securities and Exchange Commission, which registration statement contains information as to the issuer and any person directly or indirectly controlling or controlled by the issuer as the

## NOTICES

commission may require for the protection of investors or in the public interest.

Section 13 of the Exchange Act requires that issuers of securities registered pursuant to section 12 must file certain periodic reports with the Commission for the protection of investors and to insure fair dealing in the security.

Section 12(h) of the Exchange Act empowers the Commission to exempt, in whole or in part, any issuer or class of issuers from the periodic reporting provisions of section 13, if the Commission finds, by reason of the number of public investors, amount of trading interest in the securities, the nature and extent of the activities of the issuer, income or assets of the issuer or otherwise, that such exemption is not inconsistent with the public interest or the protection of investors.

The Applicant states, in part: 1. Applicant, a New Jersey corporation, is wholly-owned subsidiary of American Cyanamid Co. ("Cyanamid"). The Applicant was formed by Cyanamid for the principal purpose of obtaining funds for foreign subsidiaries and affiliated companies of Applicant and Cyanamid.

2. In September 1965, Applicant issued \$20,000,000 principal amount of 5 1/4% Guaranteed Sinking Fund Debentures due 1980 (the "Debentures").

3. The Debentures are unconditionally guaranteed as to the payment of principal, premium, if any, and sinking fund by Cyanamid.

4. The Debentures were offered abroad to foreign nationals and sales were not effected to or for the account of United States citizens or persons normally resident in the United States.

5. The Debentures are listed on the New York Stock Exchange and are registered pursuant to section 12(b) of the Exchange Act.

In the absence of an exemption, Applicant is required to file certain periodic reports with the Commission pursuant to Section 13 of the Exchange Act because the Debentures are registered both with the New York Stock Exchange and the Commission.

Applicant contends that the exemptive order requested is appropriate in view of the fact that none of the securities of the Applicant (other than the Debentures) are held by any person other than Cyanamid; that since the Debentures are unconditionally guaranteed by Cyanamid it is the reports of Cyanamid in which investors would be primarily interested; and because there has only been very limited and occasional trading in the Debentures on the New York Stock Exchange since their listing.

For a more detailed statement of information presented, all persons are referred to the application which is on

file in the offices of the Commission at 500 North Capitol Street, Washington, D.C. 20549.

Notice is further given that any interested person not later than February 3, 1978, may submit to the Commission in writing his views or any substantial facts bearing on this application or the desirability of a hearing thereon. Any such communication or request should be addressed to: Secretary, Securities and Exchange Commission, 500 North Capitol Street NW., Washington, D.C. 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert.

Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof. At any time after said date, an order granting an application may be issued upon request or upon the Commission's own motion.

By the Commission.

GEORGE F. FITZSIMMONS,  
Secretary.

[FR Doc. 78-1565 Filed 1-19-78; 8:45 am]

## [8010-01]

[Rel. No. 20377, 70-6108]

## INDIANA &amp; MICHIGAN ELECTRIC CO.

## Proposed Issuance and Sale at Competitive Bidding of First Mortgage Bonds and Cumulative Preferred Stock

JANUARY 12, 1978.

Notice is hereby given, that Indiana and Michigan Electric Co. ("I&M"), 2101 Spy Run Avenue, Fort Wayne, Indiana 46801, an electric utility subsidiary company of American Electric Power Company, Inc. ("AEP"), a registered holding company, has filed with this Commission an application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(b) and 12(c) of the Act and Rules 42 and 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

I&M proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, up to \$100,000,000 aggregate principal amount of its first mortgage bonds of a new series ("Bonds"), having a maturity date of March 1, 2008. The interest rate (which will be expressed in a multiple of 1/4 of 1 percent) and the

price to be paid to I&M for the Bonds (which shall not be less than 100 percent, unless I&M shall authorize a lower percentage not less than 99 percent, and shall not exceed 102 1/2 percent) will be determined by competitive bidding. None of the Bonds may be redeemed prior to March 1, 1983, if such redemption is for the purpose of refunding such Bond through the use, directly or indirectly, of borrowed funds at an effective interest cost less than the effective interest cost of the Bonds.

I&M also proposes to issue and sell at competitive bidding up to 1,600,000 shares of a new series of its cumulative preferred stock ("Preferred Stock"), par value \$25 per share. The price to be paid to I&M shall be \$25 per share, which shall also be the price at which the Preferred Stock shall be initially offered to the public. The dividend rate (which will be expressed in a multiple of .01) and the amount per share to be paid by I&M as compensation to the purchasers will be determined by competitive bidding. None of the shares of the Preferred Stock may be redeemed prior to March 1, 1983, if such redemption is for the purpose of refunding such stock, directly or indirectly, through the incurring of debt or the issuance of stock ranking equally with or prior to the Preferred Stock at an effective interest cost or effective dividend cost less than the effective dividend cost of the Preferred Stock. The terms of the Preferred Stock may also include a sinking fund provision pursuant to which I&M would retire at \$25 per share, commencing no earlier than five years after the sale, not more than 5 percent annually of the number of shares initially issued, with the non-cumulative option on any sinking fund date of redeeming at \$25 per share an additional like number of shares and with the option to credit against any sinking fund requirement the shares of Preferred Stock theretofore purchased or otherwise acquired by I&M. It is proposed that I&M will decide upon the necessity for a sinking fund provision at a subsequent date and notify prospective bidders of its decision by telegram reasonably in advance of, but not less than 72 hours prior to, the bidding date.

It is stated that no condition is to be contained in the Bond purchase contract requiring the issuance and sale of the Preferred Stock, nor is any condition to be contained in the Preferred Stock purchase contract requiring the issuance and sale of the Bonds. Neither the Bonds nor the Preferred Stock will, however, be issued and sold unless I&M shall receive prior to sale one or more cash capital contributions in an aggregate amount of \$40,000,000 from AEP. The making of such cash capital contributions by

AEP is the subject of a separate application with this Commission (File No. 70-6082).

The proceeds from the sale of the Bonds and/or Preferred Stock will be used to repay unsecured short-term indebtedness and to reimburse I&M's treasury for expenditures incurred in connection with its construction program. As of December 14, 1977, I&M had approximately \$111,151,000 principal amount of short-term debt outstanding, and it is anticipated that at the time of the sale of the Bonds and/or Preferred Stock approximately \$120,000,000 principal amount of such unsecured short-term debt will be outstanding. I&M estimates its 1978 construction costs will be approximately \$181,000,000 (exclusive of construction costs of approximately \$39,600,000 of its generating subsidiary).

The fees and expenses to be incurred in connection with the proposed transactions will be supplied by amendment. It is stated that the Public Service Commission of Indiana and the Michigan Public Service Commission have jurisdiction over the proposed transactions. No other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given, that any interested person may, not later than February 7, 1978, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

## NOTICES

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

## [8010-01]

[Release No. 20382; 70-5999]

MIDDLE SOUTH UTILITIES, INC. AND  
ARKANSAS POWER & LIGHT CO.

## Post-Effective Amendment Regarding Issuance and Sale of Common Stock by Subsidiary to Holding Company

JANUARY 12, 1978.

Notice is hereby given that Middle South Utilities, Inc. ("Middle South"), 225 Baronne Street, New Orleans, La. 70112, a registered holding company, and its electric utility subsidiary company, Arkansas Power & Light Co. ("Arkansas"), First National Building, Little Rock, Ark. 72203, have filed with this Commission a post-effective amendment to the application in this proceeding pursuant to sections 6(b), 9(a), and 10 of the Public Utility Holding Company Act of 1935 ("Act") regarding the following proposed transaction. All interested persons are referred to the amended application, which is summarized below, for a complete statement of the proposed transaction.

By order in this proceeding dated May 16, 1977 (HCAR No. 20028), the Commission authorized Arkansas to issue and sell to Middle South, and Middle South to acquire from Arkansas, from time to time until December 31, 1977, at the price of \$12.50 per share, or \$30,000,000 in the aggregate, 2,400,000 presently authorized but unissued shares of the common stock of Arkansas, \$12.50 par value. At that time, Arkansas had outstanding 29,438,773 shares of common stock, \$12.50 par value, having an aggregate par value on its books of \$367,959,662.50, all of which shares were owned by Middle South.

The post-effective amendment states that, on May 18, 1977, Arkansas issued and sold to Middle South 1,200,000 shares of its common stock for a purchase price of \$15,000,000 and that, subsequently, Arkansas has not issued and sold any additional shares of common stock. Arkansas and Middle South now believe it is in their best interest that the additional 1,200,000 shares of common stock be sold and delivered by Arkansas to Middle South from time to time through and including June 30, 1978, in increments to be determined by Arkansas and Middle South.

The Arkansas Public Service Commission and the Tennessee Public Service Commission have authorized the

issuance and sale of the new common stock by Arkansas. No other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than February 8, 1978, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the applicant which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as now amended or as it may be further amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

[FR Doc. 78-1567 Filed 1-19-78; 8:45 am]

## [8010-01]

[Release No. 14371, SR-MSE-77-37]

## MIDWEST STOCK EXCHANGE, INC.

## Order Approving Proposed Rule Change

JANUARY 12, 1978.

On October 27, 1977, the Midwest Stock Exchange, Inc. ("MSE"), 120 South LaSalle Street, Chicago, Ill. 60603, filed with the Commission, pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) (the "Act"), and Rule 19b-4 thereunder, copies of a proposed rule change which makes technical changes to MSE's rule governing Withdrawal of Approval of Underlying Securities. These changes would permit the MSE to prohibit, if necessary, any opening purchase transactions in a previously opened series of options if the underlying stock does

not meet current standards for continued listing of options thereon or other Exchange requirements and would permit the MSE to make an application to the Securities and Exchange Commission to strike from trading and listing the option contracts whose underlying stock does not meet such current standards or other Exchange requirements.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 34-14232, December 5, 1977) and by publication in the FEDERAL REGISTER (42 FR 62587, December 13, 1977).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of section 6 and the rules and regulations thereunder.

It is therefore ordered, Pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and it hereby is, approved. For the Commission, by the Division of Market Regulation pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

[FR Doc. 78-1568 Filed 1-19-78; 8:45 am]

## [8010-01]

[Rel. No. 10091; 811-2400]

## PROFESSIONAL INVESTMENT CO., INC.

Filing of Application for Order Declaring That Company Has Ceased To Be an Investment Company.

JANUARY 12, 1978.

Notice is hereby given that Professional Investment Co., Inc. ("Applicant"), 1013 New York Avenue, Alamo-gordo, N. Mex. 88310, a New Mexico corporation registered as an open-end, diversified management company under the Investment Company Act of 1940 ("Act"), filed an application on November 18, 1977, pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant was organized on October 15, 1962 and registered under the Act on August 20, 1973. On February 15, 1977, Applicant's shareholders voted to dissolve the corporation and liquidate its assets. Applicant represents that the assets of the corporation were

liquidated and a liquidation dividend was paid to all shareholders of record. Applicant states that the sum of \$721.46, representing liquidation dividends and previous uncashed dividend checks for shareholders who could not be located, has been deposited with the State Treasurer of New Mexico. Applicant represents that it filed Articles of Dissolution with the New Mexico State Corporation Commission on September 23, 1977, and that it now has no stockholders, assets, liabilities, or business activities.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the effectiveness of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than February 6, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant(s) at the address(es) stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

## NATIONAL ADVISORY COMMITTEE ON UNIFORM TRAFFIC CONTROL DEVICES, SUBCOMMITTEE ON CONSTRUCTION AND MAINTENANCE

## Open Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the ad hoc Task Force on Fundamental Principles of Traffic Control for Construction Zones, Subcommittee on Construction and Maintenance, National Advisory Committee on Uniform Traffic Control Devices. This meeting will be held in Room 3442, Nassif Building, 400 7th Street SW., Washington, D.C., on February 6 and 7, 1978, beginning at 9 a.m., and will be open to the public. The Task Force will review related material and prepare recommendations for the revision of Part VI, Manual on Uniform Traffic Control Devices to include consideration of basic principles related to the safe handling of traffic through construction zones.

For further information contact R. E. Conner, Executive Director, National Advisory Committee on Uniform Traffic Control Devices, Office of Traffic Operations, Federal Highway Administration, 400 7th Street SW., Washington, D.C. 20590, 202-426-0411.

Dated: January 18, 1978.

J.J. CROWLEY,  
Director, Office of  
Traffic Operations.

(Notice No. 78-2)

**ADVISORY COMMITTEE ON EXPLOSIVES  
TAGGING**

**Closed Meeting**

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that a closed meeting of the Advisory Committee on Explosives Tagging will be held on March 1, 1978, at the Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., room 5041, beginning at 9:30 a.m. (e.s.t.).

The Advisory Committee will discuss detailed proprietary scientific and technical data concerning various candidate explosive tagging systems that can be used in the detection and identification of explosives. The information which will be presented and discussed during the meeting will constitute trade secrets and commercial or financial information obtained from a person and privileged or confidential within the ambit of Title 5, United States Code, section 552b(c)(4). Accordingly, the meeting of the Advisory Committee will, under authority of section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463), not be open to the public.

All communications regarding this Advisory Committee meeting should be addressed to the Bureau of Alcohol, Tobacco and Firearms, Washington, D.C. 20226, Attention: Mr. Robert F. Dexter, Committees Manager, Technical Services Division, Explosives Technology Branch, room 8233.

Signed: January 12, 1978.

**PROPOSED CLASS EXEMPTION TO PERMIT  
PLANS TO PURCHASE CUSTOMER NOTES  
FROM EMPLOYERS MAINTAINING PLANS**

**Hearing**

By notice published in the FEDERAL REGISTER (42 FR 55321, October 14, 1977), the Department of Labor and the Internal Revenue Service (hereinafter collectively referred to as the agencies), announced the pendency of a proposed class exemption from the restrictions of sections 406 and 407(a)

**NOTICES**

of the Employment Retirement Income Security Act of 1974, and from the taxes imposed by section 4975 (a) and (b) of the Internal Revenue Code of 1954. The proposed exemption would permit employee benefit plans to purchase certain notes from employers any of whose employees are covered by the plan where the employers receive such notes from their customers in the ordinary course of their business and other conditions of the exemption are satisfied.

A public hearing on the proposed class exemption will be held on March 9, 1978, beginning at 10 a.m. in the Internal Revenue Service Auditorium, Seventh Floor, 7100 Corridor, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, D.C. 20224.

Any interested person who desires to present oral comments at the hearing and who wishes to be assured of being heard should submit a statement to that effect, an outline of the topics to be discussed (at least six copies), and the time to be allocated to each topic by 3:30 p.m. on February 14, 1978. The statement and outline should be submitted to the Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224, Attention: E:EP:PT, Application No. D-639 Hearing.

An agenda will be prepared containing the order of presentation of oral comments and the time allotted to each commentator. Information with respect to the contents of the agenda may be obtained on or after February 24, 1978, by telephoning Charles Scaler, Washington, D.C., 202-566-3045. This is not a toll free number.

At the conclusion of oral comments by persons listed in the agenda, to the extent time permits, other persons will be permitted to make oral comments. The public hearing will be transcribed.

Persons making oral comments should be prepared to answer questions relating to the pending exemption and their comments.

Signed at Washington, D.C., this 16th day of January 1978.

ALVIN D. LURIE,  
Assistant Commissioner (Employee Plans and Exempt Organizations), Internal Revenue Service United States Department of Treasury.

IAN D. LANOFF,  
Administrator of Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

**ASSET DEPRECIATION RANGE GUIDELINES**

Study of Assets Used in Contract Construction  
(Including Offshore Oil and Gas Drilling)

The Office of Industrial Economics (OIE) of the Office of the Secretary of the Treasury has initiated a study of the guideline depreciation periods and repair allowance percentages for assets used in contract construction (including offshore oil and gas drilling). These assets are currently included in asset guideline classes 15.1 and 15.2 (Rev. Proc. 77-10, 1977-1 C.B. 548) of the Class Life Asset Depreciation Range System (IRC Secs. 167(m) and 263(e) and Reg. Sec. 1.167(a)-11).

All persons interested in this study may submit comments in writing to OIE. Information from all interested persons is solicited. All mail concerning this study should be addressed to:

Office of Industrial Economics, Contract Construction Project, P.O. Box 28018, Washington, D.C. 20005.

Dated: January 17, 1978.

Approved by:

KARL RUHE,  
Director, Office of  
Industrial Economics.

[4810-25]

**MOTORCYCLES FROM JAPAN**

Antidumping: Extension of Investigatory  
Period

AGENCY: U.S. Customs Service, Treasury Department.

ACTION: Extension of Antidumping investigatory period.

SUMMARY: This notice is to advise the public that the Secretary of the Treasury has determined that a tentative determination as to whether sales at less than fair value of motorcycles from Japan have occurred cannot reasonably be made in six months. This decision will be made in not longer than nine months from the date of the initiation of the investigation. Sales at less than fair value generally occur when the price of merchandise sold for exportation to the United States is less than the price of such or similar merchandise sold in the home market or to third countries.

EFFECTIVE DATE: January 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Edward F. Haley or Mr. Anthony L. Russo, Operations Officers, Duty Assessment Division, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C.

Avenue, NW., Washington, D.C. 20229, telephone 202-566-5492.

**SUPPLEMENTARY INFORMATION:** On June 8, 1977, information was received in proper form pursuant to sections 153.26 and 153.27, Customs Regulations (19 CFR 153.26 and 153.27), indicating that motorcycles from Japan are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was submitted by counsel acting on behalf of the Harley-Davidson Motor Co., Inc., a subsidiary of AMF, Inc. On the basis of this information and subsequent preliminary investigation by the Customs Service, an "Antidumping Proceeding Notice" was published in the FEDERAL REGISTER of July 15, 1977 (42 FR 36584).

For purposes of this notice, the term "motorcycles" means those motorcycles having engines with total piston displacement over 90 cubic centimeters, whether for use on or off the road.

Pursuant to section 201(b)(2) of the Act (19 U.S.C. 160(b)(2)), notice is hereby given that the Secretary concludes that the determination provided for in section 201(b)(1) of the Act (19 U.S.C. 160(b)(1)), cannot reasonably be made within six months. The determination under section 201(b)(1) of the Act (19 U.S.C. 160(b)(1)) will, therefore, be made within no more than nine months.

The reasons and bases for the above conclusion are as follows: The need for the collection and analysis of further information, particularly with respect to the issue of the comparability of the merchandise sold in the relevant markets and with respect to the prices of similar merchandise sold to appropriate third countries, makes it inadvisable to take tentative action at this time.

This notice is published pursuant to section 201(b)(2) of the Act (19 U.S.C. 160(b)(2)).

Dated: January 17, 1978.

ROBERT H. MUNDHEIM,  
General Counsel of the  
Treasury.

[7035-01]

[Docket No. AB-1 (Sub-No. 29)]

**CHICAGO & NORTH WESTERN  
TRANSPORTATION CO.**

**Notice of Findings**

Chicago & North Western Transportation Co. abandonment between Hayward and Bayfield, also between Ashland Junction and Ashland, all in Sawyer, Ashland, and Bayfield Counties, Wis.

## NOTICES

Notice is hereby given pursuant to section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on October 25, 1977, a finding, which is administratively final, was made by the Administrative Law Judge, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Oregon Short Line Railroad Abandonment—Goshen*, 354 ICC 76(1977) and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Chicago & North Western Transportation Co. of its line of railroad between Hayward and Ashland Junction, and between Washburn and Bayfield, Wis. A certificate of abandonment will be issued to the Chicago & North Western Transportation Co. based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and  
(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or  
(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the *FEDERAL REGISTER* on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as

well as the instructions contained in the above-referenced order.

H. G. HOMME, Jr.,  
Acting Secretary.

Chicago, Milwaukee, St. Paul & Pacific Railroad Co., 516 West Jackson Boulevard, Chicago, Ill. 60606, represented by Thomas H. Ploss, general attorney and commerce counsel; William L. Phillips, attorney; Rodger K. Johnson, general attorney; and William C. Sippel, attorney, all of 516 West Jackson Boulevard, Chicago, Ill. 60606, hereby give notice that on the 30th day of December 1977 it filed with the Interstate Commerce Commission at Washington, D.C., an application under section 5(2) of the Interstate Commerce Act for an order approving and authorizing the acquisition of trackage rights over the lines of the Chicago & North Western Transportation Co. (C&NW), between Lakeland Junction, Minn., and Bayport, Minn. (a distance of 3.38 miles), and between East St. Paul, Minn., and Eau Claire, Wis. (a distance of 87.3 miles), and over a line of the Burlington Northern, Inc. (BN), at East St. Paul, Minn. (less than 1 mile), which application is assigned Finance Docket No. 28657.

The counties through which the proposed trackage rights operations will occur are: Washington and Ramsey Counties, Minn., and St. Croix, Dunn, Chippewa, and Eau Claire Counties, Wis.

Operation over BN trackage at East St. Paul, Minn., is only necessary to provide an appropriate connection between applicant's lines and the C&NW line to Eau Claire, Wis. A trackage right agreement between applicant and BN, a constituent part of this application, is in the final stages of negotiation and will be filed with the Commission as Exhibit 9-b.

The purposes sought to be accomplished by the proposed transaction are the effectuation of economies in operation, in that Milwaukee road's own lines would require an estimated \$6,800,641 to upgrade to FRA Class 2 standards, and operations over the Winona Bridge railway and BN track-

age between Winona, Minn., and Trevino, Wis., at an annual expense of \$61,800, may be avoided through grant of the instant trackage rights application; elimination of excess facilities, in that C&NW's trackage is adequate to accommodate all traffic presently enjoyed by both C&NW and Milwaukee road in the territory involved; and improved financial viability of both Milwaukee road and C&NW, in that rail traffic will be concentrated on fewer lines, yielding future savings in maintenance and operation expenditures over those required in the maintenance and operation of separate trackage and facilities serving the same points.

This application is made contingent upon the issuance of an appropriate certificate of public convenience and necessity by the Commission in Docket No. AB-7 (Sub-No. 44) wherein the Chicago, Milwaukee, St. Paul & Pacific Railroad Co. request abandonment of operations over the line of the Winona Bridge Railway Co. extending from a point in Winona, Winona County, Minn., in an easterly direction over Mississippi River crossing to the connection with the Burlington Northern, Inc., near East Winona, Buffalo county, Wis., a distance of 1 mile; and also to discontinue its operation over the line of the Burlington Northern, Inc., extending from railroad milepost 325 near East Winona in a northeasterly direction to railroad milepost 362 near Trevino, Buffalo County, Wis., a distance of 37 miles, and AB-7 (Sub-No. 45) wherein the Chicago, Milwaukee, St. Paul & Pacific Railroad Co. request abandonment of its line of railroad known as the "St. Croix Junction to Bayport Branch" extending from railroad milepost 0.0 near St. Croix Junction in a northerly direction to railroad milepost 22.5 near Bayport, a distance of 22.5 miles, in Washington County, Minn.

In the opinion of the applicant, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the commission's regulations (49 CFR 1108.8) in Ex Parte No. 55 (Sub-No. 4), *Implementation—National Environmental Policy Act, 1969*, 352 ICC 451 (1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See *Implementation—National Environmental Policy Act, 1969*, supra, at p. 487.

Interested persons may participate formally in a proceeding by submitting

written comments regarding the application. Such submissions shall indicate the proceeding designation Finance Docket No. 28657 and the original and two copies thereof shall be filed with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, not later than 45 days after the date notice of the filing of the application is published in the *FEDERAL REGISTER*. Such written comments shall include the following: The person's position, e.g., party protestant or party in support, regarding the proposed transaction; specific reasons why approval would or would not be in the public interest; and a request for oral hearing if one is desired. Additionally, interested persons who do not intend to formally participate in a proceeding but who desire to comment thereon, may file such statements and information as they may desire, subject to the filing and service requirements specified herein. Persons submitting written comments to the Commission shall, at the same time, serve copies of such written comments upon the applicant, the Secretary of Transportation and the Attorney General.

H. G. HOMME, Jr.,  
Acting Secretary.

## FOURTH SECTION APPLICATIONS FOR RELIEF

JANUARY 17, 1978.

These applications for long- and short-haul relief have been filed with the ICC.

Protests are due at the ICC by February 6, 1978.

FSA No. 43490, Star Lines Overseas Shipping Ltd.'s No. 1, on intermodal rates on general commodities, between rail carriers terminals at U.S. Pacific and Gulf Coasts, on the one hand, and, on the other, ports on the Mediterranean Sea, or on waters adjacent or tributary thereto, in its tariffs Nos. 1 and 2, ICC Nos. 1 and 2, respectively, to become effective February 4, 1978, and later.

Grounds for relief—water competition.

FSA No. 43491, North Pacific Coast Freight Bureau, Agent's No. 78-1, on rates on barley and wheat, from stations in Montana, to Malden, Wash., in sup. 5 to its tariff 13-J, ICC 1342, to become effective February 18, 1978.

Grounds for relief—motor-truck competition.

By the Commission.

H. G. HOMME, Jr.,  
Acting Secretary.

## NOTICES

## [7035-01]

[Docket No. AB-2 (Sub-No. 16)]

## LOUISVILLE AND NASHVILLE RAILROAD CO.

Abandonment Between McKinnon and Big Sandy, Houston and Benton Counties, Tenn.; Findings

Notice is hereby given pursuant to Section 1a of the Interstate Commerce Act (49 U.S.C. 1a) that by an Certificate and Order dated December 16, 1977, a finding, which is administratively final, was made by the Commission, Division 3, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Oregon Short Line R. Co.—Abandonment—Goshen*, 354 I.C.C. 76 (1977) and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Louisville and Nashville Railroad Co. of its line of railroad beginning at milepost F-218.3 at McKinnon, Tenn., extending to milepost F-229.8 near Big Sandy, Tenn., a distance of 11.5 miles. A certificate of public convenience and necessity permitting abandonment was issued to the Louisville and Nashville Railroad Co. Since no investigation was instituted, the requirement of § 1121.38(a) of the Regulations that publication of notice of abandonment decisions in the *FEDERAL REGISTER* be made only after such a decision becomes administratively final was waived.

Upon receipt by the carrier of an actual offer of financial assistance, the carrier shall make available to the offeror the records, accounts, appraisals, working papers, and other documents used in preparing Exhibit I (§ 1121.45 of the Regulations). Such documents shall be made available during regular business hours at a time and place mutually agreeable to the parties. The offer must be filed and served no later than February 6, 1978. The offer, as filed, shall contain information required pursuant to § 1121.38(b) (2) and (3) of the regulations. If no such offer is received, the certificate of public convenience and necessity authorizing abandonment shall become effective March 6, 1978.

H. G. HOMME, Jr.,  
Acting Secretary.

## [7035-01]

[Notice No. 2TA]

## MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 6, 1977.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate

Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the *FEDERAL REGISTER* publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the *FEDERAL REGISTER*. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

## MOTOR CARRIERS OF PROPERTY

No. MC 26396 (Sub-No. 163TA), filed December 16, 1977. Applicant: POPELKA TRUCKING CO., d.b.a. THE WAGGONERS, P.O. Box 990, Livingston, Mont. 59047. Applicant's representative: Bradford E. Kistler, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from Burns Harbor and Gary, Ind., to Mills, Wyo., for 180 days. Supporting shipper: Robert W. Eckhart, Material Control Manager, Western Oil Tool & Mfg. Co., Inc., P.O. Box 260, Casper, Wyo. 82602. Send protests to: District Supervisor Paul J. Lane, Interstate Commerce Commission, 2602 First Avenue North, Billings, Mont. 59101.

No. MC 52917 (Sub-No. 65 TA), filed December 8, 1977. Applicant: CHESAPEAKE MOTOR LINES, INC., 6748 Dorsey Road, Baltimore, Md. 21740. Applicant's representative: Charles E. Creager, Esq., 1329 Pennsylvania, P.O. Box 1417, Hagerstown, Md. 21740. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs (except bananas) in vehi-*

cles equipped with temperature control, between points in Frederick, Anne Arundel, Howard, Prince George's, Washington, and Baltimore counties, Md.; Delaware; New Jersey; Baltimore, Md.; Washington, D.C.; New York, N.Y.; Nassau, Suffolk, and Westchester counties, N.Y.; points in Stafford, Prince William, and Fairfax counties, Va., west of U.S. Interstate Route 95; and points in Pennsylvania east of the Susquehanna River, restricted against the transportation of canned goods from Cheriton and Hopeton, Va., to points in New York, New Jersey, and Pennsylvania, and further restricted against the transportation of frozen foods from points in New Jersey and Pennsylvania (except Philadelphia) to points in New York, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: There are approximately (16) statements of support attached to this application which may be examined at the field office named below. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, 814-B Federal Building, Baltimore, Md. 21201.

No. MC 55896 (Sub-No. 59TA), filed December 14, 1977. Applicant: R-W SERVICE SYSTEM, INC., 20225 Goddard Road, Taylor, Mich. 48180. Applicant's representative: Martin J. Leavitt, 22375 Haggerty Road, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes. Transporting: Coke, in bulk, in dump equipment from the Toledo-Lucas County Port Authority Toledo, Ohio, to all points in Illinois, Indiana, Michigan, and Wisconsin, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Miller & Co., 55 East Monroe Street, Chicago, Ill. 60603. Elmer Olson, Materials Distribution Manager. Send protests to: Erma W. Gray, Secretary, Interstate Commerce Commission, Bureau of Operations, 604 Federal Building and U.S. Courthouse, 231 West Lafayette Boulevard, Detroit, Mich. 48226.

No. MC 80430 (Sub-No. 164TA), filed December 2, 1977. Applicant: GATEWAY TRANSPORTATION CO., INC., 455 Park Plaza Drive, P.O. Box 851, La Crosse, Wis. 54601. Applicant's representative: F. Neil Aschemeyer (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Frozen foods, from the facilities of General Foods Corp., at or near Bettendorf, Iowa, to points in Indiana, Michigan, Ohio, and points in that part of Pennsylvania on and west of a line beginning at the Pennsylvania-Maryland State line

(near Hancock, Md.), thence along U.S. Highway 522 to junction U.S. Highway 322 (near Lewiston, Pa.), thence along U.S. Highway 322 to junction Pennsylvania Highway 144 (at Potters Mills), thence along Pennsylvania Highway 144 to U.S. Highway 6, thence along U.S. Highway 6 to Pennsylvania Highway 449, thence along Pennsylvania Highway 449 to the Pennsylvania-New York State line (near Genesee, Pa.), for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: General Foods Corp., 250 North Street, White Plains, N.Y. Send protests to: Ronald A. Morken, District Supervisor, Interstate Commerce Commission, 139 West Wilson Street, Room 202, Madison, Wis. 53703.

No. MC 91811 (Sub-No. 15 TA), filed December 6, 1977. Applicant: MILTON K. MORRIS, INC., 2307 Bristol Pike, P.O. Box 56, Croydon, Pa. 19020. Applicant's representative: Gerald K. Gimmel, 4 Professional Drive, Suite 145, Gaithersburg, Md. 20760. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Such merchandise as is dealt in or used in the operations of the wholesale retail and chain store grocery business (except commodities in bulk, fresh fruits and vegetables, and frozen foods), from plantsite and storage facilities of The Clorox Co. at Jersey City, N.J., to Philadelphia, Pa., and points in its commercial zone, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: The Clorox Co., 1221 Broadway, Oakland, Calif. 94612. Send protests to: T. M. Esposito, Transportation Assistant, 600 Arch Street, Room 3238, Philadelphia, Pa. 19106.

No. MC 96697 (Sub-No. 9 TA), filed December 9, 1977. Applicant: CITY FREIGHT LINES, 22560 Lucerne Avenue, Carson, Calif. 90745. Applicant's representative: Gregory L. Owen, 22560 Lucerne Avenue, Carson, Calif. 90745. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: General commodities, except those of unusual values, household goods as defined by the Commission, commodities in the bulk, and commodities requiring special equipment. Regular route: Between all points on the following named highway: (a) State Highway 62 between Twenty-nine Palms and its junction with Interstate Highway 10 near Whitewater, including the off-route points of Desert Hot Springs and Pioneer Town. (b) Unnumbered county road between its junction with Interstate Highway 10 near Palm Springs and North Palm Springs. Irregular

route territory: All points and places within the following described territory: Beginning at the intersection of Yucalpa Boulevard and Interstate Highway 10; northwesterly along Redlands Boulevard to Barton Road; westerly along Barton Road to La Cadena Drive; southerly along La Cadena Drive to Iowa Avenue; southerly along Iowa Avenue to State Highway 60; southeasterly along State Highway 60 and U.S. Highway 395 to Nuevo Road; easterly along Nuevo Road via Nuevo and Lakeview to State Highway 79; southerly along State Highway 79 to State Highway 74; thence westerly to the corporate boundary of the City of Hemet; southerly, westerly, and northerly along said corporate boundary to The Atchison, Topeka and Santa Fe right-of-way; southerly along said right-of-way to Washington Road; southerly along Washington Road through and including the unincorporated community of Winchester to Benton Road; westerly along Benton Road to Winchester Road (State Highway 79) to Jefferson Avenue; southerly along Jefferson Avenue to U.S. Highway 395; southerly along U.S. Highway 395 to the Riverside County-San Diego County boundary line; easterly along said boundary line to U.S. Highway 99; northerly along U.S. Highway 99 to the State Highway 195; northerly and easterly on State Highway 195 to its intersection with State Highway 111 to its intersection with Interstate Highway 111 to its intersection with Interstate Highway 10 to point of beginning, for 180 days. Supporting shippers: There are approximately (18) statements of support attached to this application which may be examined at the field office named below. Send protests to: Walter W. Strakosch, Interstate Commerce Commission, Room 1321 Federal Building, 300 N. Los Angeles Street, Los Angeles, Calif. 90012.

No. MC 107403 (Sub-No. 1048TA), filed December 7, 1977. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: Martin C. Hynes, Jr. (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquid and dry fertilizers and fertilizer materials, in bulk, in tank or hopper vehicles, from Monroe, La., to Arkansas, Mississippi, and points in Texas on and east of U.S. Highway 75 from the Oklahoma line through Dallas and Houston, Tex., to the Gulf of Mexico, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: W. R. Grace & Co., South Central Division, 7018 Red Barn Road, Freeport, Tex. 77541. Send protests to: T. M. Esposito, Transportation Assistant, 600 Arch Street, Room 3238, Philadelphia, Pa. 19106.

No. MC 108393 (Sub-No. 131TA), filed December 1, 1977. Applicant: SIGNAL DELIVERY SERVICE, INC., 201 East Ogden Avenue, Hinsdale, Ill. 60521. Applicant's representative: Thomas B. Hill, 201 East Ogden Avenue, Hinsdale, Ill. 60521. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Carpet, ceiling, tile, floor covering and floor tile and materials, supplies and equipment used in the installation and maintenance of carpet, ceiling tile, floor covering and floor tile, between Marietta, Lancaster, and Landisville, Pa., on the one hand, and, on the other points in Boone, Cook, DuPage, Kankakee, Kendall, Lake, McHenry, Will, and Winnebago Counties, Ill., and Lake County, Ind., for 180 days. Supporting shipper: Whirlpool Corp., Carl R. Anderson, Director of Transportation, Administrative Center, Benton Harbor, Mich. 49022. Send protests to: Patricia A. Roscoe, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, 219 South Dearborn Street, Room 1386, Chicago, Ill. 60604.

No. MC 108449 (Sub-No. 406TA), filed December 16, 1977. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 West County Road C, St. Paul, Minn. 55113. Applicant's representative: W. A. Myllenbeck (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquid fertilizers, in bulk in tank vehicles, from Alexandria, Minn., to all points in the States of North Dakota and South Dakota, for 180 days. Supporting shipper: Agrico Chemical Co., Box 3166, Tulsa, Okla. 74101. Send protests to: Marion L. Cheney, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 414 Federal Building and U.S. Court House, 110 South Fourth Street, Minneapolis, Minn.

No. MC 109397 (Sub-No. 377TA), filed December 16, 1977. Applicant: TRI-STATE MOTOR TRANSIT CO., P.O. Box 113 (business route I-44 east), Joplin, Mo. 64801. Applicant's representative: A. N. Jacobs (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Lumber and wood products, from points in Arizona, Colorado, and Utah to points in Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, Ohio, and Wisconsin, for 180 days. Supporting shipper: Kaibab Industries, Inc., P.O. Box 20506, Phoenix, Ariz. 85036. Send protests to: John V. Barry, District Supervisor, Interstate Commerce Commission-BOP, 600 Federal Building, 911 Walnut Street, Kansas City, Mo. 64106.

No. MC 109708 (Sub-No. 78TA), filed December 13, 1977. Applicant: INDIAN RIVER RIVER TRANSPORT CO., d.b.a. INDIAN RIVER TRANSPORT, INC., P.O. Box AG, 2580 Executive Road, Dundee, Fla. 33828. Applicant's representative: Bruce A. Bullock, 530 Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Brandy, wine, neutral spirits and rum, from Lake Alfred, Fla., to Linden, Dayton, and Lawrenceville, N.J.; Peoria, Pekin, and Chicago, Ill.; Cleveland and Cincinnati, Ohio; Lawrenceburg, Ind.; Clermont and Louisville, Ky.; Cambridge and Boston, Mass.; Baltimore, Md.; Detroit and Allen Park, Mich.; and Port Sulphur, La.; (2) Brandy, wine and neutral spirits, from Auburndale, Fla.; to Peoria, Ill.; Philadelphia and Schenley, Pa.; Lawrenceville and Scobeyville, N.J.; Louisville Ky.; Detroit, Mich.; Baltimore and Relay, Md.; and Cincinnati, Ohio, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: Florida Distillers Co., Division of Tod Hunter International, Inc., 530 Dakota Avenue, P.O. Box 1447, Lake Alfred, Fla. 33850, and Jacquin Florida Distillers, Inc., 425 Recker Highway, Auburndale, Fla. 33823. Send protest to: Donna M. Jones, Transportation Assistant, Interstate Commerce Commission-BOP, Monterey Building, Suite 101, 8410 NW. 53d Terrece, Miami, Fla. 33166.

No. MC 110420 (Sub-No. 773TA), filed December 7, 1977. Applicant: QUALITY CARRIERS, INC., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: Joseph K. Reber (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Chemicals, in bulk, in tank vehicles, between Gurnee, Ill., on the one hand, and, on the other, Macon, Ga., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: The Proctor & Gamble Co., William J. Payne, P.O. Box 599, Cincinnati, Ohio 45201. Send protest to: Mrs. Gail Daugherty, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building and Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, Wis. 53202.

No. MC 110686 (Sub-No. 53TA), filed December 7, 1977. Applicant: McCORMICK DRAY LINE, INC., Route 220, Avis, Pa. 27721. Applicant's representative: Jay H. McCormick (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Buildings, building

panels, building parts, and materials, accessories and supplies used in the installation, erection, and construction of buildings, building panels, and building parts (except commodities in bulk), from the plantsite and storage facilities of Butler Manufacturing Co., at or near Annville, Lebanon County, Pa., to points in Alabama, Arkansas, Colorado, Florida, Georgia, Indiana, Illinois, Iowa, Kansas, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Dakota, Oklahoma, South Carolina, South Dakota, Texas, and Wisconsin, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Butler Manufacturing Co., 1020 South Henderson Street, Galesburg, Ill. 61401. Send protest to: Paul J. Kenworthy, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 314 U.S. Post Office Building, Scranton, Pa. 18503.

No. MC 110988 (Sub-No. 3532TA), filed December 13, 1977. Applicant: SCHNEIDER TANK LINES, INC., 4321 West College Avenue, Giltedge Building, Appleton, Wis. 54911. Applicant's representative: Paul Schneider (same address as applicant). Authority sought to operate as common carrier, by motor vehicle, over irregular routes, transporting: Chemicals, in bulk, from Terre Haute, Ind., to points in Texas, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Weston Paper & Manufacturing Co., P.O. Box 539, Terre Haute, Ind. 47808 (E. B. Weston). Send protest to: Gail Daugherty, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building & Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, Wis. 53202.

No. MC 112617 (Sub-No. 380TA), filed December 16, 1977. Applicant: LIQUID TRANSPORTERS, INC., P.O. Box 21395, 1292 Fern Valley Road, Louisville, Ky. 40221. Applicant's representative: Charles R. Dunford (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Dry fertilizers, in bulk, from the plantsite of Agrico Chemical Co., Melbourne, Ky., to points in Illinois, Indiana, Kentucky, Ohio, Virginia, Michigan, and West Virginia, for 180 days. Supporting shipper: Agrico Chemical Co., P.O. Box 3166, Tulsa, Okla. 74101. Send protests to: Linda H. Sypher, District Supervisor, Interstate Commerce Commission, 426 U.S. Post Office Building, Louisville, Ky. 40202.

No. MC 113678 (Sub-No. 711TA), filed December 14, 1977. Applicant: CURTIS, INC., 4810 Pontiac Street,

P.O. Box 16004, Stockyards Station, Commerce City (Denver), Colo. 80216. Applicant's representative: Roger M. Shander (same address as applicant). Authority sought to operate as *common carrier*, by motor vehicle, over irregular routes, transporting: *Textiles, rugs, carpets, carpeting and materials and supplies used or useful in the installation thereof* (except commodities in bulk) from (1) Winchester, Tenn., to points in California and Colorado, and (2) from Dalton, Ga., to points in California, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: E and B Carpet Mills, Inc., 901 Showalter Avenue, Dalton, Ga. 30720. Send protests to: District Supervisor, H. C. Ruoff, 492 U.S. Customs House, 721 19th Street, Denver, Colo. 80202.

No. MC 114457 (Sub-No. 342TA), filed December 14, 1977. Applicant: DART TRANSIT CO. 2102 University Avenue, St. Paul, Minn. 55114. Applicant's representative: James H. Wills (same address as applicant). Authority sought to operate as *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry dog food*, from the facilities of Sunshine Feed Mills, Inc., at Tupelo, Miss., and Red Bay, Ala., to points in Milan, Peoria, Aurora, Elgin, East St. Louis, Springfield, Skokie, Waukegan, Wheaton, and Chicago, Ill.; St. Louis, Carthage, Independence, Hazelwood, Cape Girardeau, Joplin, and Kansas City, Mo.; Detroit, Livonia, Grand Rapids, Benton Harbor, Flint, Lansing, Port Huron, and Ann Arbor, Mich., and Indianapolis, Terre Haute, Plymouth, Hammond, Michigan City, and Fort Wayne, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Sunshine Feed Mills, Inc., P.O. Drawer S, Red Bay Ala. 35882. Send protests to: Marion L. Cheney, District Supervisor, ICC, BOP, 414 Federal Building and U.S. Court House, 110 South 4th Street, Minneapolis, Minn. 55401.

No. MC 114569 (Sub-No. 204TA), filed December 5, 1977. Applicant: SHAFFER TRUCKING, INC., P.O. Box 418, New Kingstown, Pa. 17072. Applicant's representative: N. L. Cummins, P.O. Box 418, New Kingstown, Pa. 17072. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Such merchandise used by, dealt in, or distributed by wholesale or retail grocery, department, drug, and variety stores and institutional supply firms*, from Byhalia, Miss., to Alabama; Phoenix and Tucson, Ariz.; Bentonville, Little Rock, and Harrison, Ark.; California; Denver, Colo.; Florida, Georgia, Idaho, Illinois, Indiana; Bettendorf and Des Moines, Iowa; Kansas,

#### MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

DECEMBER 28, 1977.

The following are notices of filing of applications for temporary authority under section 210(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

#### MOTOR CARRIERS OF PROPERTY

No. MC 2392 (Sub-No. 108TA), filed December 8, 1977. Applicant: WHEELER TRANSPORT SERVICE, INC., 7722 F Street, P.O. Box 14248, West Omaha Station, Omaha, Nebr. 68114. Applicant's representative: Keith D.

Wheeler (same address as applicant). #### IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

##### Elimination of Gateway Letter Notices

JANUARY 13, 1978.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before January 30, 1978. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

2988

## NOTICES

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 8973 (Sub-No. E180), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street, NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment and supplies used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods, commodities in bulk, and commodities requiring special equipment), between points in Hudson County, N.J. on the one hand, and, on the other, points in that part of New York on and north of a line beginning on the New Jersey-New York State line at New Milford, thence along New York Highway 94 to New York Highway 17A, thence along New York Highway 17A to junction New York Highway 210, thence along New York Highway 210 to junction U.S. Highway 9W, thence along U.S. Highway 9W to the west bank of the Hudson River at Haverstraw, thence along the river and along Interstate Highway 87 to the east bank of the Hudson River, thence along the east bank of the river to the Bronx County-Westchester County boundary line, thence along the county line to the Long Island Sound, and points in that part of Long Island, New York on and east of a line beginning on the north shore at head of the harbor, thence along an unnumbered road to New York Highway 25A, thence along New York Highway 25A to junction New York Highway 46, thence along New York Highway 46 to the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E181), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street, NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment and supplies used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods, commodities in bulk, and commodities requiring special equipment), between points in

Hudson County, N.J., on the one hand, and, on the other, points in that part of Pennsylvania on and west of a line beginning on the New Jersey-Pennsylvania State line with Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 209, thence along U.S. Highway 209 to the Pennsylvania-Turnpike NE. Extension, thence along on the Pennsylvania Turnpike NE. Extension to Pennsylvania State Highway 895, thence along Pennsylvania State Highway 895 to junction Pennsylvania State Highway 309, thence along Pennsylvania State Highway 309 to junction Pennsylvania State Highway 143, thence along Pennsylvania State Highway 143 to junction Pennsylvania State Highway 737, thence along Pennsylvania State Highway 737 to junction Pennsylvania State Highway 73, thence along Pennsylvania State Highway 73 to junction Pennsylvania State Highway 100, thence along Pennsylvania State Highway 100 to junction Interstate Highway 202, thence along Interstate Highway 202 to the Delaware-Pennsylvania State line. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC-8973 (Sub-No. E182), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment and supplies used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods, commodities in bulk, and commodities requiring special equipment), between points in Middlesex County, N.J., on the one hand, and, on the other, points in Alabama, Arkansas, Colorado, Connecticut, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Wisconsin, restricted against the transportation of traffic originating at or destined to the facilities of Celotex Corp., and Witco Chemical, at or near Perth Amboy, N.J. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC-8973 (Sub-No. E183), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority

sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment and supplies used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods, commodities in bulk, and commodities requiring special equipment), between points in Middlesex County, N.J., on the one hand, and, on the other, points in that part of New York on and north of a line beginning on the Pennsylvania-New York State line with an unnumbered road at Cohecton, thence along the road to New York Highway 17B, thence along New York Highway 17B to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 17M, thence along New York Highway 17M to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 210, thence along New York Highway 210 to the Palisade Interstate Parkway, thence along the Palisade Interstate Parkway to junction U.S. Highway 202, thence along U.S. Highway 202 to junction New York Highway 306, thence along New York Highway 306 to the New York-New Jersey State line, thence along the New York-New Jersey State line to Interstate Highway 95, thence along Interstate Highway 95 to junction New York Highway 9A, thence along New York Highway 9A to junction 125th Street thence along 125th Street to the Bronx County-Queens County boundary line, thence along the Bronx County-Queens County line to the North Shore of Long Island, thence along the shore to Shoreham, thence along an unnumbered road to New York Highway 25A, thence along New York Highway 25A to junction New York Highway 66, thence along New York Highway 66 to Moriches Bay, thence along the Bay to the Shinnecock Inlet, thence along the Atlantic Ocean, restricted against the transportation of traffic originating at or destined to the facilities of Celotex Corp., and Witco Chemical, at or near Perth Amboy, N.J. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E184), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment and supplies used in the manufacture and sale of plastic articles (except those of

unusual value, Class A and B explosives, household goods, commodities in bulk, and commodities requiring special equipment, between points in Middlesex County, N.J., on the one hand, and, on the other, points in that part of North Carolina on, west and south of a line beginning at the Virginia-North Carolina State line with U.S. Highway 501, thence along U.S. Highway 501 to junction U.S. Highway 158, thence along U.S. Highway 158 to junction North Carolina Highway 39, thence along North Carolina Highway 39 to junction North Carolina Highway 56, thence along North Carolina Highway 56 to junction North Carolina Highway 58, thence along North Carolina Highway 58 to junction North Carolina Highway 64, thence along North Carolina Highway 64 to the Pamlico Sound, thence along the Sound to the Hatteras Inlet, thence through the Inlet to the Atlantic Ocean, restricted against the transportation of traffic originating at or destined to the facilities of Celotex Corporation and Witco Chemical Co., at or near Perth Amboy, N.J. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E185), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment and supplies used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods, commodities in bulk, and commodities requiring special equipment, between points in Middlesex County, N.J., on the one hand and, on the other, points in that part of Pennsylvania west of a line beginning on the New York-Pennsylvania State line with U.S. Highway 15, thence along U.S. Highway 15 to junction New York Highway 49, thence along New York Highway 49 to junction New York Highway 44, thence along New York Highway 44 to junction U.S. Highway Route 6, thence along U.S. Highway 6 to Pennsylvania Highway 66, thence along Pennsylvania Highway 66 to junction Pennsylvania Highway 36, thence along Pennsylvania Highway 36 to junction Pennsylvania Highway 68, thence along Pennsylvania Highway 68 to junction Pennsylvania Highway 13, thence along Pennsylvania Highway 13 to junction U.S. Highway 22, thence along U.S. Highway 22 to an unnumbered road, thence along unnumbered road to Pennsylvania Highway 231, thence along Pennsylvania Highway 231 to

junction Interstate Highway 70, thence along Interstate Highway 70 to the Ohio-Pennsylvania State line, restricted against the transportation of traffic originating at or destined to the facilities of Celotex Corporation and Witco Chemical Co., at or near Perth Amboy, N.J. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E186), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment and supplies used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between points in Middlesex County, N.J., on the one hand and, on the other, points in that part of Virginia on and west of a line beginning on the West Virginia-Virginia State line near Sweetsprings, W. Va., thence along Virginia Highway 311 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction Virginia Highway 40, thence along Virginia Highway 40 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction U.S. Highway 360, thence along U.S. Highway 360 to junction U.S. Highway 501, thence along U.S. Highway 501 to Virginia-North Carolina State line, restricted against the transportation of traffic originating at or destined to the facilities of Celotex Corporation and Witco Chemical Co., at or near Perth Amboy, N.J. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E187), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment and supplies used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between points in Middlesex County, N.J., on the one hand, and, on the other, points in that part

of West Virginia on and west of a line beginning on the Pennsylvania-West Virginia State line with West Virginia Highway 69, thence along West Virginia Highway 69 to junction U.S. Highway 250, thence along U.S. Highway 250 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction Highway 60, thence along U.S. Highway 60 to the Virginia-West Virginia State line, restricted against the transportation of traffic originating at or destined to the facilities of Celotex Corporation and Witco Chemical Co., at or near Perth Amboy, N.J. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E208), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment and supplies used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between points in Union County, N.J., on the one hand, and, on the other, points in that part of New York on and north of a line beginning on the Pennsylvania border with New York Highway 282, thence along New York Highway 282 to junction New York Highway 283, thence along New York Highway 283 to junction New York Highway 38, thence along New York Highway 38 to junction New York Highway 79, thence along New York Highway 79 to junction New York Highway 206, thence along New York Highway 206 to junction New York Highway 30, thence along New York Highway 30 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 52, thence along New York Highway 52 to the Neversink River, thence along the river to New York Highway 17, thence along New York Highway 17 to junction New York Highway 17K, thence along New York Highway 17K to junction New York Highway 416, thence along New York Highway 416 to junction New York Highway 207, thence along New York Highway 207 to junction New York Highway 208, thence along New York Highway 208 to junction New York Highway 17M, thence along New York Highway 17M to junction New York Highway 17, thence along New York Highway 17 to New York Highway 210, thence along New York Highway 210 to the Palisades Interstate Parkway, thence along the Parkway to

2989

the New York-New Jersey State line, thence along the New Jersey-New York State line to Interstate Highway 95, thence along Interstate Highway 95 to the east bank of the Hudson River, thence along the River to 125th Street, thence along 125th Street to Bronx County-Queens County Boundary line, thence along the line to Interstate Highway 678, thence along Interstate Highway 678 to the Cross Island Parkway, thence along the Parkway to Interstate Highway 78, thence along Interstate Highway 78 to junction New York Highway 495, thence along New York Highway 495 to Willis Avenue, thence along Willis Avenue to Franklin Street, thence along Franklin Street to Fulton Avenue, thence along Fulton Avenue to New York Highway 24, thence along New York Highway 24 to New York Highway 109, thence along New York Highway 109 to junction New York Highway 27A, thence along New York Highway 27A to the Robert Moses Causeway, thence along the Causeway to Fire Island Inlet, thence through the Inlet to the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E209), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment and supplies used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between points in Union County, N.J., on the one hand, and, on the other, points in that part of Pennsylvania on and west of a line beginning at the Maryland-Pennsylvania State line with U.S. Highway 220, thence along U.S. Highway 220 to Pennsylvania Highway 350, thence along Pennsylvania Highway 350 to junction Pennsylvania Highway 53, thence along Pennsylvania Highway 53 to an unnumbered road at its intersection with Interstate Highway 80, thence along the unnumbered road to Pennsylvania Highway 879, thence along Pennsylvania Highway 879 to an unnumbered road just west of Karthaus, thence along the road to Pennsylvania Highway 120, thence along Pennsylvania Highway 120 to Pennsylvania Highway 872, thence along Pennsylvania Highway 872 to an unnumbered road at Wharton, thence along the road to U.S. Highway 6 at

Galeton, thence along U.S. Highway 6 to Towanda, thence along U.S. Highway 220 to New York Highway 17, thence along New York Highway 17 to the New York-Pennsylvania State line. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E210), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment and supplies used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between points in Union County, N.J., on the one hand, and, on the other, points in that part of Virginia on and south and west of a line beginning on the Virginia-West Virginia State line with Interstate Highway 81, thence along Interstate Highway 81 to junction U.S. Highway 17, thence along U.S. Highway 17 to junction Virginia Highway 50, thence along Virginia Highway 50 to junction Interstate Highway 66, thence along Interstate Highway 66 to Virginia Highway 234, thence along Virginia Highway 234 to junction U.S. Highway 1, thence along U.S. Highway 1 to Woodbridge, the Potomac River and the Maryland-Virginia State line. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E211), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment and supplies used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between points in Union County, N.J., on the one hand, and, on the other, points in that part of West Virginia on and west of a line beginning on the West Virginia-Maryland State line with U.S. Highway 522, thence along U.S. Highway 522 to the Virginia-West Virginia State line. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E212), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment, and supplies used in the manufacture of and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between New York, N.Y., on the one hand, and, on the other, points in Alabama, Arkansas, Colorado, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Rhode Island, South Carolina, North Dakota, Tennessee, Texas, Vermont, and Wisconsin, restricted against service at the facilities of Celotex Corp. and Witco Chemical Co., at or near Perth Amboy, N.J. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E213), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment, and supplies used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between New York, N.Y., on the one hand, and, on the other, points in that part of Connecticut on and east of a line beginning on the Connecticut-Massachusetts State line with Connecticut Highway 181, thence along Connecticut Highway 181 to junction Connecticut Highway 20, thence along Connecticut Highway 20 to junction Connecticut Highway 10, thence along Connecticut Highway 10 to junction Connecticut Highway 4, thence along Connecticut Highway 4 to junction Interstate Highway 84, thence along Interstate Highway 84 to junction Connecticut Highway 72, thence along Connecticut Highway 72 to junction Connecticut Highway 66, thence along Connecticut Highway 66 to junction Connecticut Highway 9, thence along Connecticut Highway 9 to U.S. Highway 1, thence along U.S. Highway 1 to

Saybrook Manor and the Long Island Sound, restricted against service at the facilities of Celotex Corporation and Witco Chemical Co., at or near Perth Amboy, N.J. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E214), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment, and supplies used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between New York, N.Y., on the one hand, and, on the other, points in that part of Maryland on and west of a line beginning on the Pennsylvania-Maryland State line with an unnumbered road just north of Flintstone, Md., thence along the road to the Maryland-West Virginia State line, restricted against service at the facilities of Celotex Corporation and Witco Chemical Co., at or near Perth Amboy, N.J. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E215), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment, and supplies used in the manufacture and sale of plastic articles (except those of unusual value, class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between New York, N.Y. on the one hand and, on the other, points in that part of Massachusetts on and east of a line beginning on the Massachusetts-Connecticut State line with Massachusetts Highway 8, thence along Massachusetts Highway 8 to junction Massachusetts Highway 23, thence along Massachusetts Highway 23 to an unnumbered road at West Otis, thence along the road to Interstate Highway 90, thence along Interstate Highway 90 to the New York-Massachusetts State line, restricted against service at the facilities of Celotex Corp. and Witco Chemical Co., at or near Perth

Amboy, N.J. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E216), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment, and supplies used in the manufacture and sale of plastic articles (except those of unusual value, class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between New York, N.Y. on the one hand and, on the other, points in that part of New York on and south of a line beginning on the Pennsylvania-New York State line with New York Highway 52, just west of Narrowsburg, thence along New York Highway 52 to New York Highway 17B, thence along New York Highway 17B to junction New York Highway 55, thence along New York Highway 55 to an unnumbered road at Grahamsville, thence along the road to New York Highway 28A, thence north on New York Highway 28A to junction New York Highway 28, thence along New York Highway 28 to junction New York Highway 212, thence along New York Highway 212 to junction U.S. Highway 9W, thence along U.S. Highway 9W to junction New York Highway 23, thence along New York Highway 23 to New York Highway 9G, thence south on New York Highway 9G to junction New York Highway 402, thence along New York Highway 402 to the Taconic State Parkway, thence along the Parkway to Interstate Highway 90, thence along Interstate Highway 90 to the Massachusetts-New York State line, restricted against service at the facilities of Celotex Corp. and Witco Chemical Co. at or near Perth Amboy, N.J. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E217), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, N. Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment, and supplies used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between New York, N.Y. on the one hand and, on the other, points in that part of Virginia on and south of a line beginning on the West Virginia-Virginia State line with U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 340, thence along U.S. Highway 340 to junction U.S. Highway 33, thence along U.S. Highway 33 to junction Virginia Highway 54, thence along Virginia Highway 54 to junction U.S. Highway 1,

commodities in bulk, and commodities requiring special equipment), between New York, N.Y. on the one hand and, on the other, points in that part of Pennsylvania on and west of a line beginning on the Maryland-Pennsylvania State line with Pennsylvania Highway 26, thence along Pennsylvania Highway 26 to junction Pennsylvania Highway 36, thence along Pennsylvania Highway 36 to junction U.S. Highway 220, thence along U.S. Highway 220 to Pennsylvania Highway 350, thence along Pennsylvania Highway 350 to junction Pennsylvania Highway 53, thence along Pennsylvania Highway 53 to junction Pennsylvania Highway 144, thence along Pennsylvania Highway 144 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Pennsylvania Highway 287, thence along Pennsylvania Highway 287 to junction Pennsylvania Highway 414, thence along Pennsylvania Highway 414 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Pennsylvania Highway 706, thence along Pennsylvania Highway 706 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction Pennsylvania Highway 106, thence along Pennsylvania Highway 106 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Pennsylvania Highway 652, thence along Pennsylvania Highway 652 to the New York-Pennsylvania State line, restricted against service at the facilities of Celotex Corp. and Witco Chemical Co., at or near Perth Amboy, N.J. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E218), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, N. Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment, and supplies used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between New York, N.Y. on the one hand and, on the other, points in that part of Virginia on and south of a line beginning on the West Virginia-Virginia State line with U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 340, thence along U.S. Highway 340 to junction U.S. Highway 33, thence along U.S. Highway 33 to junction Virginia Highway 54, thence along Virginia Highway 54 to junction U.S. Highway 1,

thence along U.S. Highway 1 to junction Virginia Highway 30, thence along Virginia Highway 30 to junction U.S. Highway 360, thence along U.S. Highway 360 to junction Virginia Highway 684, thence along Virginia Highway 684 to junction U.S. Highway 17, thence along U.S. Highway 17, to junction Virginia Highway 640, thence along Virginia Highway 640 to the Pappahannock River, thence along the River to the Chesapeake Bay, thence across the Bay to Cape Charles, thence along Virginia Highway 184 to junction U.S. Highway 13, thence along U.S. Highway 13 to Cape Charles and the Atlantic Ocean, restricted against service at the facilities at Celotex Corp. and Witco Chemical Co., at or near Perth Amboy, N.J. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E219), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, N. Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and material, equipment, and supplies used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between New York, N.Y. on the one hand and, on the other, points in that part of West Virginia on and west of a line beginning on the Maryland-West Virginia State line with West Virginia Highway 9 at Great Cacapon, thence along West Virginia Highway 9 to the Hampshire County-Morgan County Boundary line, thence along the County line to the Virginia-West Virginia State line, restricted against service at the facilities of Celotex Corp. and Witco Chemical Co., at or near Perth Amboy, N.J. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E220), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, N. Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and materials, equipment, and supplies used in the manufacture and sale of plastic articles (except those commodities of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in

bulk, and commodities requiring special equipment), from points in Connecticut to points in Delaware and Ohio. The purpose of this filing is to eliminate the gateways of Ridgefield, N.J. and Woodbridge, N.J.

No. MC 8973 (Sub-No. E221), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, N. Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and materials, equipment, and supplies used in the manufacture and sale of plastic articles (except those commodities of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), from points in Connecticut to points in that part of New Jersey on and south of a line beginning on the New Jersey-Pennsylvania State line with U.S. Highway 22, thence along U.S. Highway 22 to Interstate Highway 78, thence along Interstate Highway 78 to junction New Jersey Secondary Highway 531, thence along New Jersey Secondary Highway 531 to junction New Jersey Highway 28, thence along New Jersey Highway 28 to an unnumbered road at Garwood, thence along the road to the Garden State Parkway, thence along the Parkway to the Union County-Middlesex County Boundary line, thence along the line to the State boundary. The purpose of this filing is to eliminate the gateways of Ridgefield, N.J. and Woodbridge, N.J.

No. MC 8973 (Sub-No. E222), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, N. Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic hose* in mixed loads with plastic pellets, in bulk, and materials, equipment, and supplies used in the manufacture and sale of plastic articles (except those commodities of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), from points in Delaware to points in Massachusetts and Rhode Island. The purpose of this filing is to eliminate the gateways of Ridgefield, N.J. and Woodbridge, N.J.

No. MC 59292 (Sub-No. E20), filed June 4, 1974. Applicant: THE MARYLAND TRANSPORTATION CO., 1111 Frankfur Avenue, Baltimore, Md. 21225. Applicant's representative: Charles J.

Braun, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, liquor requiring special permit, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between points in Montgomery County, Md. on the one hand and, on the other, points in Maryland and Pennsylvania within 150 miles of Brunswick, Md., and on and north of a line beginning near Brave, Pa. on the Pennsylvania-West Virginia State line and continuing to the Maryland-West Virginia State line to Interstate Highway 81, to junction Maryland Highway 68, to junction U.S. Highway 40, to junction U.S. Highway 15, to junction U.S. Highway 11, to junction U.S. Highway 322, to Pennsylvania Highway 39, to junction U.S. Highway 22, to junction Pennsylvania Highway 419, to junction Pennsylvania Highway 183, to junction Pennsylvania Highway 443, to junction Pennsylvania Highway 895, to junction Pennsylvania Highway 61, to junction Interstate Highway 78 to a point near Glendon, Pa., at or near the Pennsylvania-New Jersey State line. The purpose of this filing is to eliminate the gateway of Frederick, Md.

No. MC 59292 (Sub-No. E22), filed June 4, 1974. Applicant: THE MARYLAND TRANSPORTATION CO., 1111 Frankfur Avenue, Baltimore, Md. 21225. Applicant's representative: Charles J. Braun, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Silos, silo parts, and materials, and supplies* used by silo manufacturing plants, except those of unusual value, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment between points in Delaware, on the one hand, and, on the other, points in Maryland, New York, Pennsylvania, Virginia, and West Virginia on and west of a line beginning at Olcott, N.Y., York and Lake Ontario and extending along New York Highway 78 to junction New York Highway 16, to junction New York Highway 98, to junction U.S. Highway 219, to junction Pennsylvania Highway 46, to junction U.S. Highway 6, to junction Pennsylvania Highway 155, to junction Pennsylvania Highway 120, to junction U.S. Highway 219 to junction Pennsylvania Highway 729, to junction Pennsylvania Highway 53, to junction Pennsylvania Highway 253, to junction Pennsylvania Highway 453, to junction Pennsylvania Highway 45, to junction Pennsylvania Highway 350 to junction U.S. Highway 22, to junction U.S.

Highway 522, to junction U.S. Highway 30, to junction U.S. Highway 11, to junction Pennsylvania Highway 316, to junction Pennsylvania Highway 997, to junction Maryland Highway 64, to junction Maryland Highway 77, to junction Maryland Highway 550 to junction Maryland Highway 26, to junction Maryland Highway 75, to junction Maryland Highway 80 to junction Maryland Highway 85, to junction Maryland Highway 28, to junction U.S. Highway 15 to the Virginia-North Carolina State line. The purpose of this filing to eliminate the gateway of Frederick, Md.

No. MC 59292 (Sub-No. E26), filed June 4, 1974. Applicant: THE MARYLAND TRANSPORTATION CO., 1111 Frankfur Avenue, Baltimore, Md. 21225. Applicant's representative: Charles J. Braun, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, liquor requiring special permit, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading, between points in Montgomery County, Md., on the one hand, and, on the other, (1) points in Lawrence and Butler Counties, Pa. on and south of U.S. Highway 422, and (2) points in Allegheny, Washington, Greene, and Beaver Counties, Pa., restricted in (1) and (2) above, against service to points within 150 miles of Brunswick, Md. The purpose of this filing is to eliminate the gateway of Frederick, Md., and Pittsburgh, Pa.

No. MC 59292 (Sub-No. E27), filed June 4, 1974. Applicant: THE MARYLAND TRANSPORTATION CO., 1111 Frankfur Avenue, Baltimore, Md. 21225. Applicant's representative: Charles J. Braun, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such general merchandise* as is dealt in by wholesale grocery business houses, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, livestock, films, alcoholic beverages, and those injurious or contaminating to other lading, between Philadelphia, Pa., on the one hand, and, on the other, points in Maryland, Pennsylvania, and Virginia within 150 miles of Brunswick, Md., and on and west of a line beginning north of Brookville, Pa. and extending along Pennsylvania Highway 36, to junction Pennsylvania Highway 164, to junction Pennsylvania Highway 26, to junction Pennsylvania Highway 915, to junction U.S.

Highway 30, to junction U.S. Highway 522, to junction Pennsylvania Highway 16, to the Pennsylvania-Maryland State line continuing on Maryland Highway 97 to junction U.S. Highway 15 to junction Maryland Highway 76 to junction Maryland Highway 77, to junction Maryland Highway 194 to junction Maryland Highway 550, to junction Maryland Highway 26, to junction Maryland Highway 27, to junction Maryland Highway 80, to junction Maryland Highway 85, to junction Maryland Highway 28, to junction U.S. Highway 15, to junction Virginia Highway 7, to junction Virginia Highway 123, to junction Interstate Highway 66, to junction Virginia Highway 28, to junction U.S. Highway 15 to junction U.S. Highway 522 to junction U.S. Highway 33, to junction Interstate Highway 95, to junction Virginia Highway 10, to junction Virginia Highway 36, to junction Interstate Highway 95 to a point near Stony Creek, Va. The purpose of this filing is to eliminate the gateway of Frederick, Md., and Baltimore, Md.

No. MC 59292 (Sub-No. E28), filed June 4, 1974. Applicant: THE MARYLAND TRANSPORTATION CO., 1111 Frankfur Avenue, Baltimore, Md. 21225. Applicant's representative: Charles J. Braun, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such general merchandise* as is dealt in by wholesale grocery business houses, except those of unusual value, Classes B and B explosives, livestock, films, alcoholic beverages, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between Philadelphia, Pa., on the one hand, and, on the other, (1) points in Lawrence and Butler Counties, Pa., on and south of U.S. Highway 422, and (2) points in Allegheny, Washington, Greene and Beaver Counties, Pa., restricted in (1) and (2) above, against service to points within 150 miles of Brunswick, Md. The purpose of this filing is to eliminate the gateways of Baltimore, Md., Frederick, Md., and Pittsburgh, Pa.

No. MC 59292 (Sub-No. E29), filed June 4, 1974. Applicant: THE MARYLAND TRANSPORTATION CO., 1111 Frankfur Avenue, Baltimore, Md. 21225. Applicant's representative: Charles J. Braun, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, livestock, films, alcoholic beverages, household goods as defined by the Commission, commodities in bulk, those requiring special equipment and

those injurious or contaminating to other lading, between Frederick, Md., on the one hand, and, on the other, Atlantic City, N.J., Ocean City, Md., and Roebling, N.J. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 59292 (Sub-No. E30), filed June 4, 1974. Applicant: THE MARYLAND TRANSPORTATION CO., 1111 Frankfur Avenue, Baltimore, Md. 21225. Applicant's representative: Charles J. Braun, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such general merchandise* as is dealt in by wholesale grocery business houses, except those of unusual value, Classes A and B explosives, livestock, films, alcoholic beverages, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between Philadelphia, Pa., on the one hand, and, on the other, points in Pennsylvania, Maryland, Virginia, and West Virginia, within 150 miles of Brunswick, Md., on and west of a line beginning at a point near Worthington, Pa. and extending along U.S. Highway 422 to junction Pennsylvania Highway 66, to junction Pennsylvania Highway 819, to junction Interstate Highway 76, to junction U.S. Highway 219 to the Pennsylvania-Maryland State line and extending along U.S. Highway 48 to junction U.S. Highway 40, to junction Interstate Highway 70, to junction U.S. Highway 15, to junction U.S. Highway 522, to junction U.S. Highway 33, to junction Interstate Highway 95, to junction Virginia Highway 10, to junction Interstate Highway 95 to a point near Stony Creek, Va. The purpose of this filing is to eliminate the gateway of Baltimore, Md., and Brunswick, Md.

No. MC 59292 (Sub-No. E31), filed June 4, 1974. Applicant: THE MARYLAND TRANSPORTATION CO., 1111 Frankfur Avenue, Baltimore Md. 21225. Applicant's representative: Charles J. Braun, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *lumber*, except commodities of unusual value, and those commodities requiring special equipment, from Petersburg, Va., to points, in Maryland, Pennsylvania, Delaware, New Jersey, Virginia, and West Virginia within 150 miles of Brunswick, Md., and located on and north of a line beginning near Clarksburg, W. Va., and extending along U.S. Highway 50 to junction U.S. Highway 15, to junction Maryland Highway 28, to junction Maryland Highway 109, to junction Maryland Highway 75, to junction Mary-

land Highway 123, to junction Maryland Highway 122, to junction Maryland Highway 27, to junction Maryland Highway 482, to junction Maryland Highway 30, to junction Maryland Highway 88, to junction Maryland Highway 25, to junction Maryland Highway 137, to junction Interstate Highway 83, to junction Pennsylvania Highway 851, to junction Pennsylvania Highway 74, to junction Pennsylvania Highway 372, to junction Pennsylvania Highway 472, to junction U.S. Highway 1, to junction Pennsylvania Highway 41, to junction U.S. Highway 13, to junction Interstate Highway 295, to junction the Delaware River, thence along the Delaware River to a point near Bristol, Pa. The purpose of this filing is to eliminate the gateway of Brunswick, Md.

No. MC 59292 (Sub-No. E32), filed June 4, 1974. Applicant: THE MARYLAND TRANSPORTATION CO., 1111 Frankfur Avenue, Baltimore, Md. 21225. Applicant's representative: Charles J. Braun, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Lumber, except commodities of unusual value, commodities in bulk, and those requiring special equipment, for Petersburg, Va. to (1) points in Lawrence and Butler Counties, Pa., on and south of U.S. Highway 422, and (2) points in Allegheny, Washington, Greene, and Beaver Counties, Pa., restricted in (1) and (2) above, against service to points within 150 miles of Brunswick, Md. The purpose of this filing is to eliminate the gateway of Brunswick, Md., and Pittsburgh, Pa.

No. MC 59292 (Sub-No. E33), filed June 4, 1974. Applicant: THE MARYLAND TRANSPORTATION CO., 1111 Frankfur Avenue, Baltimore, Md. 21225. Applicant's representative: Charles J. Braun, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Lumber and lumber products, except commodities in bulk, those of unusual value, household goods as defined by the Commission, and those requiring special equipment from Baltimore, Md., to points in Virginia, Pennsylvania, and Maryland within 150 miles of Brunswick, Md., and located on and west of a line beginning near Eagles Mere, Pa. and extending along Pennsylvania Highway 87 to junction Pennsylvania Highway 973, thence along Pennsylvania Highway 973 to junction Pennsylvania Highway 287, thence along Pennsylvania Highway 287 to junction Pennsylvania Highway 284, thence along Pennsylvania Highway 284 to junction Pennsylvania Highway 44, thence along Pennsylvania Highway 44 to junction U.S. Highway 220,

thence along U.S. Highway 220 to junction Pennsylvania Highway 144, thence along Pennsylvania Highway 144 to junction Pennsylvania Highway 26, thence along Pennsylvania Highway 26 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction Pennsylvania Highway 641, thence along Pennsylvania Highway 641 to junction Pennsylvania Highway 433, thence along Pennsylvania Highway 433 to junction Pennsylvania Highway 533, thence along Pennsylvania Highway 533 to junction Pennsylvania Highway 696, thence along Pennsylvania Highway 696 to junction Pennsylvania Highway 997, thence along Pennsylvania Highway 997 to the Pennsylvania-Maryland State line, thence extending along Maryland Highway 64 to junction Maryland Highway 153, to junction Maryland Highway 355, to junction Maryland Highway 80, to junction Maryland Highway 85, to junction Maryland Highway 28, to junction U.S. Highway 15, to junction Virginia Highway 7, to junction Virginia Highway 659, to junction Virginia Highway 647, to junction Virginia Highway 642, to junction Virginia Highway 659, to junction U.S. Highway 50, to junction Virginia Highway 626, to junction Virginia Highway 55, to junction Virginia Highway 647, to junction U.S. Highway 522, to junction Virginia Highway 231, to junction Virginia Highway 230, to junction Virginia Highway 20, to junction Virginia Highway 604, to junction Virginia Highway 608, to junction Virginia Highway 601, to junction Virginia Highway 652, to junction Virginia Highway 719, to junction U.S. Highway 522, to junction Virginia Highway 1002, to junction Virginia Highway 13, to junction Virginia Highway 609, to a point near Blackstone, Va. The purpose of this filing is to eliminate the gateway of Frederick, Md.

No. MC 59292 (Sub-No. E34), filed June 4, 1974. Applicant: THE MARYLAND TRANSPORTATION CO., 1111 Frankfur Avenue, Baltimore, Md. 21225. Applicant's representative: Charles J. Braun, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Lumber and lumber products (except commodities in bulk, those of unusual value, household goods as defined by the Commission, and those requiring special equipment), from Washington, D.C., to points in Pennsylvania and Maryland within 150 miles of Brunswick, Md., located on and north of a line beginning at the Pennsylvania-West Virginia State line near Garrison, Pa., extending along the Pennsylvania-West Virginia State line to the Pennsylvania-Maryland State line, then continuing along the Maryland-

West Virginia State line to junction Maryland Highway 34, to junction U.S. Highway 40, thence to junction Maryland Highway 75, thence to junction Maryland Highway 26, thence to junction Maryland Highway 31, thence to junction Maryland Highway 97, thence to junction Maryland Highway 194, thence to the Maryland-Pennsylvania State line, extending along Pennsylvania Highway 194 to junction Pennsylvania Highway 216, thence to junction Pennsylvania Highway 116, thence to junction U.S. Highway 30, thence to junction Pennsylvania Highway 462, thence to junction Pennsylvania Highway 23, thence to junction Pennsylvania Highway 100, thence to junction Interstate Highway 78, thence to a point near Glendon, Pa. The purpose of this filing is to eliminate the gateway of Frederick, Md.

No. MC 59292 (Sub-No. E35), filed June 4, 1974. Applicant: THE MARYLAND TRANSPORTATION CO., 1111 Frankfur Avenue, Baltimore, Md. 21225. Applicant's representative: Charles J. Braun, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Lumber and lumber products (except commodities in bulk, those of unusual value, household goods as defined by the Commission, and those requiring special equipment), from Baltimore, Md., to (1) points in Lawrence and Butler Counties, Pa., on and south of U.S. Highway 422, and (2) points in Allegheny, Washington, Greene, and Beaver Counties, Pa., restricted in (1) and (2) above against service to points within 150 miles of Brunswick, Md. The purpose of this filing is to eliminate the gateway of Frederick, Md., and Pittsburgh, Pa.

No. MC 59292 (Sub-No. E36), filed June 4, 1974. Applicant: THE MARYLAND TRANSPORTATION CO., 1111 Frankfur Avenue, Baltimore, Md. 21225. Applicant's representative: Charles J. Braun, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Lumber and lumber products (except commodities in bulk, those of unusual value, household goods as defined by the Commission, and those requiring special equipment), from Washington, D.C., to (1) points in Lawrence and Butler Counties, Pa., which are on and south of U.S. Highway 422, and (2) points in Allegheny, Washington, Greene, and Beaver Counties, Pa., restricted in (1) and (2) above against service to points within 150 miles of Brunswick, Md. The purpose of this filing is to eliminate the gateway of Frederick, Md., and Pittsburgh, Pa.

No. MC 61825 (Sub-No. E1182), filed May 13, 1974. Applicant: ROY STONE

TRANSFER CORP., P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 16th Street, N.W., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: New furniture, from points in Henry County, Va., to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. The purpose of this filing is to eliminate the gateway of Martinsville, Va., and Elizabeth City, N.C.

No. MC 61825 (Sub-No. E1183), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORP., P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St. N.W., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Furniture parts (except commodities in bulk), from points in Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, Rhode Island, those points in Vermont on and east of a line beginning at the United States-Canadian International Boundary line, and extending along Vermont Highway 114, to junction U.S. Highway 5, to junction Vermont Highway 11, to junction U.S. Highway 7, to junction Vermont Highway 9, thence along Vermont Highway 9 to the Vermont-New York State line; those points in New York, on and east of a line beginning at the New York-Vermont State line, and extending along New York Highway 7, to junction U.S. Highway 9W, to junction New York Highway 32, to junction New York Highway 23, to junction New York Highway 30, to junction New York Highway 17, thence along New York Highway 17 to the New York-Pennsylvania State line; those points in Pennsylvania on and east of a line beginning at the Pennsylvania-New York State line, and extending along Pennsylvania Highway 370, to junction Pennsylvania Highway 247, to junction U.S. Highway 6, to junction Interstate Highway 81, to junction U.S. Highway 22, to junction U.S. Highway 11, thence along U.S. Highway 11, to the Pennsylvania-Virginia State line; those points in Virginia on and east of a line beginning at the Virginia-Pennsylvania State line, and extending along U.S. Highway 11 to junction Virginia Highway 16, to junction Virginia Highway 614, to junction Virginia Highway 749, to junction U.S. Highway 21, to junction Virginia Highway 805, to junction Virginia Highway 94, to junction U.S. Highway 58, to the Atlantic Ocean, to points in Alabama, Arizona, Arkansas, California, Idaho, Louisiana, Mississippi, Nevada, New Mexico, Oklahoma, Oregon, Texas, Utah, Washington, and points in

North Carolina, Virginia, and those points in North Dakota on and west of a line beginning at the United States-Canadian International Boundary line and extending along U.S. Highway 85 to junction North Dakota Highway 200, thence along North Dakota Highway 200 to the North Dakota-Montana State line; those points in Montana on and west of a line beginning at the Montana-North Dakota State line and extending along Montana Highway 200, to junction Montana Highway 16, to junction U.S. Highway 10, to junction U.S. Highway 312, to junction U.S. Highway 212, to junction Montana Highway 59, thence along Montana Highway 59 to the Montana-Wyoming State line; those points in Wyoming on and west of a line beginning at the Wyoming-Montana State line, and extending along Wyoming Highway 59, to junction U.S. Highway 87, thence along U.S. Highway 87 to the Wyoming-Colorado State line; those points in Colorado on and west of a line beginning at the Colorado-Wyoming State line, and extending along U.S. Highway 85 to junction U.S. Highway 34, to junction U.S. Highway 6, thence along U.S. Highway 6 to the Colorado-Nebraska State line, those points in Nebraska on and west of a line beginning at the Nebraska-Colorado State line, and extending along U.S. Highway 6 to junction U.S. Highway 83, to the Nebraska-Kansas State line; those points in Kansas on and west of a line beginning at the Kansas-Nebraska State line, and extending along U.S. Highway 83 to junction U.S. Highway 36, to junction U.S. Highway 281, to junction U.S. Highway 24, thence along U.S. Highway 24 to the Kansas-Missouri State line; those points in Missouri on and west and south of a line beginning at the Missouri-Kansas State line, and extending along Missouri Highway 7, to junction U.S. Highway 50, to junction U.S. Highway 63, to junction Missouri Highway 68, to junction Missouri Highway 8, to junction U.S. Highway 67, to junction Missouri Highway 32, to junction U.S. Highway 61, to junction Missouri Highway 51, thence along Missouri Highway 51 to the Missouri-Illinois State line; those points in Illinois on and west and south of a line beginning at the Illinois-Missouri State line, and extending along Illinois Highway 3, to junction Illinois Highway 149, to junction Illinois Highway 13, to junction U.S. Highway 51, to junction Illinois Highway 14, to junction U.S. Highway 460, thence along U.S. Highway 460 to the Illinois-Indiana State line; those points in Indiana on and south of a line beginning at the Indiana-Illinois State line, and extending along U.S. Highway 460 to junction Indiana Highway 66, to junction U.S. Highway 231, thence along U.S. Highway 231 to the Indiana-Kentucky State line; those

points in Kentucky on and south and west of a line beginning at the Kentucky-Indiana State line, and extending along Kentucky Highway 54, to junction Kentucky Highway 259, to junction Kentucky Highway 80, to junction Kentucky Highway 15, to junction U.S. Highway 119, to junction U.S. Highway 23, to junction U.S. Highway Alternate 58, to junction U.S. Highway 19, to junction U.S. Highway 19W, to junction U.S. Highway 411, to junction U.S. Highway 441, to junction U.S. Highway 64, thence along U.S. Highway 64 to the Kentucky-North Carolina State line; those points in North Carolina on and west of a line beginning at the North Carolina-Kentucky State line, and extending along North Carolina Highway 69 to junction U.S. Highway 76, thence along U.S. Highway 76 to the North Carolina-Georgia State line; those points in Georgia on and west of a line beginning at the Georgia-North Carolina State line, and extending along North Carolina Highway 69 to junction U.S. Highway 76, to junction Georgia Highway 52 to junction U.S. Highway 41, to junction Georgia Highway 53, to junction U.S. Highway 24, to the Chattahoochee River at Columbus, Ga., to the Apalachicola River, to the Gulf of Mexico.

The purpose of this filing is to eliminate the gateway of Smyth County, Va.

No. MC 61825 (Sub-No. E1184), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORP., P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St. N.W., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Furniture parts, except commodities in bulk, from points in North Carolina and Virginia on and bounded by a line beginning at Virginia Beach, Va., and extending west along U.S. Highway 58 to junction Virginia Highway 93, to junction North Carolina Highway 93, to junction U.S. Highway 21, to junction North Carolina Highway 67, to junction U.S. Highway 601, to junction North Carolina Highway 801, to junction U.S. Highway 64, to junction North Carolina Highway 8, to junction North Carolina Highway 47, to junction North Carolina Highway 109, to junction North Carolina Highway 27, to junction U.S. Highway 220, to junction North Carolina Highway 211, to junction North Carolina Highway 20, to junction North Carolina Highway 87, to junction U.S. Highway 76, to junction U.S. Highway 421, to the Atlantic Ocean, and thence north along the Atlantic Ocean Coast to the point of beginning, to points in Arizona, Arkansas, California, Colorado, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Minnesota, Missouri, Montana,

Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wisconsin, and Wyoming, and those points in Alabama, Louisiana, Mississippi, Ohio, Tennessee, Virginia and West Virginia on and west of a line beginning at the United States-Canadian International Boundary line near Sault Ste. Marie, Mich., and extending south along the eastern coast of Michigan to Lexington, Mich., thence west along Michigan Highway 90 to junction Michigan Highway 24, to junction Michigan Highway 46, to junction Michigan Highway 52, to junction Michigan Highway 57, to junction Michigan Highway 66, to junction Interstate Highway 94, to junction U.S. Highway 27, to junction U.S. Highway 12, to junction Michigan Highway 49, to junction Ohio Highway 34, to junction Ohio Highway 15, to junction Ohio Highway 65, to junction U.S. Highway 30-N, to junction Ohio Highway 235, to junction U.S. Highway 30-S, to junction Ohio Highway 31, to junction U.S. Highway 33, to junction U.S. Highway 23, to junction U.S. Highway 35, to junction West Virginia Highway 34, to junction West Virginia Highway 3, to junction West Virginia Highway 10, to junction West Virginia Highway 80, to junction West Virginia Highway 83, to junction West Virginia Highway 16, to junction Virginia Highway 16, to junction Interstate Highway 81, to junction Interstate Highway 40, to junction U.S. Highway 11, to junction U.S. Highway 72 Alternate, to junction U.S. Highway 31, to junction Alabama Highway 24, to junction Mississippi Highway 23, to junction U.S. Highway 78, to junction Mississippi Highway 6, to junction Mississippi Highway 15, to junction Mississippi Highway 19, to junction U.S. Highway 11 to New Orleans, La., and thence along the Mississippi River to the Gulf of Mexico. The purpose of this filing is to eliminate the gateway of points in Smyth County, Va.

No. MC 61825 (Sub-No. E1185), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORP., P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Furniture parts*, except commodities in bulk, from points in North Carolina, South Carolina, and Virginia on and bounded by a line beginning at the Atlantic Ocean at U.S. Highway 421, thence northwest along U.S. Highway 421 to junction U.S. Highway 76, to junction North Carolina Highway 87, to junction North Carolina Highway 20, to junction North Carolina Highway 211, to junction U.S. Highway 220,

to junction North Carolina Highway 27, to junction North Carolina Highway 109, to junction North Carolina Highway 47, to junction North Carolina Highway 8, to junction U.S. Highway 64, to junction North Carolina Highway 801, to junction U.S. Highway 601, to junction North Carolina Highway 67, to junction U.S. Highway 21, to junction North Carolina Highway 93, to junction Virginia Highway 16 to Smyth County, Va. thence in a southeast direction along Virginia Highway 16 to junction North Carolina Highway 113, to junction North Carolina Highway 18, to junction North Carolina Highway 16, to junction U.S. Highway 321, to junction U.S. Highway 21, to the Atlantic Ocean, thence northeast along the coast of South Carolina and North Carolina to the point of beginning, to points in Arizona, California, Colorado, Idaho, Iowa, Kansas, Michigan, Minnesota, Montana, Nebraska, Nevada, New Mexico, North Dakota, Ohio, Oregon, South Dakota, Utah, Washington, Wisconsin, Wyoming, and those points in Illinois, Indiana, Kentucky, Missouri, New York, Oklahoma, Pennsylvania, Texas, Virginia, and West Virginia on and west of a line beginning at the Canadian-United States International Boundary line at U.S. Highway 62, thence south along U.S. Highway 62 to junction Pennsylvania Highway 36, to junction Pennsylvania Highway 66, to junction U.S. Highway 322, to junction Pennsylvania Highway 68, to junction Pennsylvania Highway 66, to junction Interstate Highway 70, to junction Pennsylvania Highway 819, to junction U.S. Highway 119, to junction U.S. Highway 19 to Bluefield, W. Va., to junction Virginia Highway 16 to Smyth County, Va., and points west and north of a line beginning at Smyth County, Va. and extending along Virginia Highway 16 to junction U.S. Highway 460, to junction Kentucky Highway 80, to junction U.S. Highway 421, to junction Interstate Highway 75, to junction Kentucky Highway 52, to junction U.S. Highway 150, to junction U.S. Highway 62, to junction U.S. Highway 31-W, to junction U.S. Highway 60, to junction U.S. Highway 60 Bypass, to junction Kentucky Highway 56, to junction Illinois Highway 13, to junction Illinois Highway 149, to junction Illinois Highway 3, to junction Missouri Highway 51, to junction Missouri Highway 72, to junction Missouri Highway 106, to junction Missouri Highway 17, to junction Missouri Highway 38, to junction U.S. Highway 66, to junction Interstate Highway 44, to junction U.S. Highway 62, to junction U.S. Highway 87, to junction Texas Highway 349, to junction U.S. Highway 90 to the Terrell-Val Verde County line, thence south along the Terrell-Val Verde County line to the

Texas-Mexico International Boundary line. The purpose of this filing is to eliminate the gateway of points in Smyth County, Va.

No. MC 61825 (Sub-No. E1194), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORP., P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Furniture parts and furniture materials*, except commodities in bulk, those of unusual value, household goods as defined by the Commission, commodities requiring special equipment, from points in Maine on and north of a line beginning at the New Hampshire-Maine State line and extending along Maine Highway 16 to junction Maine Highway 4-16, to junction Maine Highway 4, to junction Maine Highway 142, to junction Maine Highway 16, to junction Maine Highway 6-16, to junction Maine Highway 6-155, to junction U.S. Highway 2, to junction Maine Highway 6, to junction U.S. Highway 1 to the United States-Canadian International Boundary line, to points in Mississippi. The purpose of this filing is to eliminate the gateway of points in Smyth County, Va., Lynchburg, Va., and Martinsville, Va.

No. MC 61825 (Sub-No. E1195), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORP., P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Furniture parts and furniture materials*, except commodities in bulk, those of unusual value, class A and B explosives, livestock, household goods as defined by the Commission, liquid commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, from points in Maine on and south of a line beginning at the New Hampshire-Maine State line and extending along Maine Highway 16, to junction Maine Highway 4-16, to junction Maine Highway 4, to junction Maine Highway 142, to junction Maine Highway 16, to junction Maine Highway 6-16, to junction Maine Highway 6-155, to junction U.S. Highway 2, to junction Maine Highway 6, to junction U.S. Highway 1 to the United States-Canadian International Boundary line, to points in Mississippi on, south, and west of a line beginning at the Arkansas-Mississippi State line, and extending along U.S. Highway 82 to junction U.S. Highway 51, to junction Mississippi Highway 35, to junction Mississippi Highway 28, to junction U.S. Highway 84 to the Mississippi-Al-

abama State line. The purpose of this filing is to eliminate the gateway of points in Smyth County, Va., Lynchburg, Va., and Martinsville, Va.

No. MC 78228 (Sub-No. E223), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash St., Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Alloys, ores, and silicon metals*, in dump vehicles, from points in that part of Pennsylvania on or west of a line beginning at the Pennsylvania-New York State line, thence along U.S. Highway 219 to the Pennsylvania-West Virginia State line to points in Kentucky. The purpose of this filing is to eliminate the gateway of Braddock, Pa.

No. MC 78228 (Sub-No. E224), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash St., Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Alloys, ores, and silicon metals*, in dump vehicles, from points in New York on or west of a line beginning at Lake Ontario, thence along U.S. Highway 15 to Lakeville, N.Y., thence along Alternate U.S. Highway 20 to Geneseo, N.Y., thence along New York Highway 63 to junction New York Highway 408, thence along New York Highway 408 to junction New York Highway 16, thence along New York Highway 16 to Olean, N.Y., thence along New York Highway 16A to the New York-Pennsylvania State line to points in Kentucky. The purpose of this filing is to eliminate the gateway of Braddock, Pa.

No. MC 78228 (Sub-No. E225), filed September 25, 1977. Applicant: J. MILLER EXPRESS, 152 Wabash St., Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Alloys, ores, and silicon metals*, in dump vehicles, from points in that part of West Virginia bounded by a line beginning at the Pennsylvania-West Virginia State line, thence along U.S. Highway 40 to junction West Virginia Highway 2, thence along West Virginia Highway 2 to junction West Virginia Highway 7, thence along West Virginia Highway 7 to junction U.S. Highway 250 to Fairmont, W. Va., thence along U.S. Highway 19 to Pennsylvania-West Virginia State line, thence along the Pennsylvania-West Virginia State line to the place of be-

ginning to points in Kentucky south or west of a line beginning at the Indiana-Kentucky State line, thence along Interstate Highway 65 to the Kentucky-Tennessee State line. The purpose of this filing is to eliminate the gateway of East Liverpool, Ohio.

No. MC 78228 (Sub-No. E226), Filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash St., Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Alloys, ores, and silicon metals*, in dump vehicles, from points in that part of Ohio bounded by a line beginning at Lake Erie, thence along the Lake Erie-Ohio Border to Cleveland, Ohio, thence along Ohio Highway 14 to junction Interstate Highway 77, thence along Interstate Highway 77 to junction Ohio Highway 18, thence along Ohio Highway 18 to junction Interstate Highway 77, thence along Interstate Highway 77 to Canton, Ohio, thence along U.S. Highway 30 to junction Ohio Highway 43, thence along Ohio Highway 43 to junction Ohio-West Virginia State line, thence along Ohio-West Virginia State line to junction Ohio-Pennsylvania State line, thence along Ohio-Pennsylvania State line to the place of beginning to points in Kentucky on or west of a line beginning to points in Kentucky on or west of a line beginning at the Kentucky-Indiana State line, thence along U.S. Highway 231 to junction Interstate Highway 65, thence along Interstate Highway 65 to the Kentucky-Tennessee State line. The purpose of this filing is to eliminate the gateway of East Liverpool, Ohio.

No. MC 78228 (Sub-No. E227), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash St., Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Alloys, ores, and silicon metals*, in dump vehicles, from points in that part of Pennsylvania bounded by a line beginning at the Pennsylvania-New York State line, thence along U.S. Highway 219 to the Pennsylvania-West Virginia State line, thence along the Pennsylvania-West Virginia State line to the Pennsylvania-Ohio State line, thence along the Pennsylvania-Ohio State line to junction U.S. Highway 422, thence along U.S. Highway 422 to New Castle, Pa., thence along Pennsylvania Highway 108, to junction Pennsylvania Highway 8, thence along Pennsylvania Highway 8 to Franklin, Pa., thence along U.S. Highway 62 to Warren, Pa., thence along

Pennsylvania Highway 59 to junction U.S. Highway 219, thence along U.S. Highway 219 to the place of beginning to points in Michigan on or north of a line beginning at Lake Huron, thence along Michigan Highway 32 to Lake Michigan. The purpose of this filing is to eliminate the gateway of Braddock, Pa.

No. MC 78228 (Sub-No. E228), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash Street, Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Alloys, ores, and silicon metals*, dump vehicles, from points in that part of Pennsylvania bounded by a line beginning at the Pennsylvania-Ohio State line, thence along Pennsylvania Highway 68 to Clarion, Pa., thence along Interstate Highway 80 to junction U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-West Virginia State line, thence along Pennsylvania-West Virginia State line to the Pennsylvania-Ohio State line, thence along the Pennsylvania-Ohio State line to the place of beginning to points in that part of Michigan beginning at Lake Huron, thence along Michigan Highway 21 to Flint, Mich., thence along Michigan Highway 56 to junction Michigan Highway 21, thence along Michigan Highway 21 to Grand Rapids, Mich., thence along U.S. Highway 131 to junction Interstate Highway 96, thence along Interstate Highway 96 to Lake Michigan. The purpose of this filing is to eliminate the gateway of Braddock, Pa.

No. MC 78228 (Sub-No. E229), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash Street, Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Alloys, ores, and silicon metals*, in dump vehicles, from points in Pennsylvania bounded by a line beginning at Butler, Pa., thence along Pennsylvania Highway 68 to junction Pennsylvania Highway 861, thence along Pennsylvania Highway 861 to junction Pennsylvania Highway 536, thence along Pennsylvania Highway 536 to junction Pennsylvania Highway 36, thence along Pennsylvania Highway 36 to Punxsutawney, Pa., thence along U.S. Highway 119 to Dubois, Pa., thence along U.S. Highway 219 to the Pennsylvania-West Virginia State line, thence along Pennsylvania-West Virginia State line to junction U.S. Highway 19, thence along U.S. Highway 19 to junction U.S. Highway 40, thence along U.S. Highway 40 to Washington,

The purpose of this filing is to eliminate the gateway of East Liverpool, Ohio.

No. MC 78228 (Sub-No. E242), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash Street, Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alloys, ores, and silicon metals*, in dump vehicles, from points in that part of Ohio bounded by a line beginning at the Pennsylvania-Ohio State line, thence along U.S. Highway 20 to junction Ohio Highway 44, thence along Ohio Highway 44 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Ohio Highway 39, thence along Ohio Highway 39 to the Pennsylvania-Ohio State line, thence along the Pennsylvania-Ohio State line to the place of beginning at points in West Virginia on or south of a line beginning at the West Virginia-Ohio State line, thence along U.S. Highway 50 to the West Virginia-Maryland State line. The purpose of this filing is to eliminate the gateway of East Liverpool, Ohio.

No. MC 78228 (Sub-No. E243), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash Street, Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alloys, ores, and silicon metals*, in dump vehicles, from points in that part of Pennsylvania (except Philadelphia, Pa., and points in its commercial zone) on or east of a line beginning at the Pennsylvania-New York State line, thence along U.S. Highway 219 to the Pennsylvania-

Maryland State line. The purpose of this filing is to eliminate the gateway of East Liverpool, Ohio.

No. MC 78228 (Sub-No. E244), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash Street, Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ferro alloys and silicone scrap metals*, in dump vehicles, from points in that part of Ohio south or west of a line beginning at Lake Erie, thence along U.S. Highway 322 to the Pennsylvania-Ohio State line, thence along the Pennsylvania-Ohio State line to the Ohio-West Virginia State line thence along the Ohio-West Virginia State line to the Ohio-Kentucky State line points Vermont. The purpose of this filing is to eliminate the gateway of East Liverpool, Ohio.

No. MC 78228 (Sub-No. E245), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash Street, Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ferro alloys and silicon scrap metals*, in dump vehicles, from points in that part of Ohio south or west of a line beginning at Lake Erie, thence along U.S. Highway 322 to the Pennsylvania-Ohio State line, thence along Pennsylvania-Ohio State line to the Ohio-West Virginia State line, thence along the Ohio-West Virginia State line to the Ohio-Kentucky State line to points in New Hampshire. The purpose of this filing is to eliminate the gateway of Braddock, Pa.

No. MC 78228 (Sub-No. E246), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash Street, Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ferro alloys and silicon scrap metals*, in dump vehicles, from points in that part of West Virginia on or north of a line beginning at the West Virginia-Ohio State line, thence along U.S. Highway 50 to West Virginia-Maryland State line to points in Vermont. The purpose of this filing is to eliminate the gateway of Braddock, Pa.

No. MC 78228 (Sub-No. E247), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash Street, Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate

as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ferro alloys and silicon scrap metals*, in dump vehicles, from points in that part of West Virginia on or north of a line beginning at the West Virginia-Ohio State line, thence along U.S. Highway 50 to the West Virginia-Maryland State line to points in New Hampshire. The purpose of this filing is to eliminate the gateway of Braddock, Pa.

No. MC 78228 (Sub-No. E248), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash Street, Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ferro alloys and silicon scrap metals*, in dump vehicles, from points in Vermont, to points in Michigan. The purpose of this filing is to eliminate the gateway of Braddock, Pa.

No. MC 78228 (Sub-No. E249), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash St., Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alloys, ores, and silicon metals*, in dump vehicles, from points in that part of Maine on or north of a line beginning at the Maine-New Hampshire State line, thence along U.S. Highway 2 to junction Maine Highway 26, thence along Maine Highway 26 to junction with Maine Highway 121, thence along Maine Highway 121 to Auburn, Me., thence along U.S. Highway 202 to Augusta, Me., thence along Maine Highway 9 to the International Boundary line between the United States and Canada, to points in Ohio on or west of a line beginning at or near Lake Erie, thence along Ohio Highway 19 to junction Ohio Highway 53, thence along Ohio Highway 53 to junction U.S. Highway 23, thence along U.S. Highway 23 to the Ohio-Kentucky State line. The purpose of this filing is to eliminate the gateway of Niagara Falls, N.Y.

No. MC 78228 (Sub-No. E250), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash St., Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ferro alloys and silicon scrap metals*, in dump vehicles, from points in New Hampshire to points in Michigan. The purpose of this filing is to eliminate the gateway of Braddock, Pa.

No. MC 78228 (Sub-No. E251), filed September 25, 1975. Applicant: J.

MILLER EXPRESS, 152 Wabash St., Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ferro alloys and silicon scrap metals*, in dump vehicles, from points in Vermont to points in Kentucky. The purpose of this filing is to eliminate the gateway of Braddock, Pa.

No. MC 78228 (Sub-No. E252), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash St., Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ferro alloys and silicon scrap metals*, in dump vehicles, from points in New Hampshire, to points in Kentucky. The purpose of this filing is to eliminate the gateway of Braddock, Pa.

No. MC 78228 (Sub-No. E253), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash St., Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ferro alloys and silicon scrap metals*, in dump vehicles, from points in Vermont, to points in that part of West Virginia on and west of Route 522. The purpose of this filing is to eliminate the gateway of Braddock, Pa.

No. MC 78228 (Sub-No. E254), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash St., Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ferro alloys and silicon scrap metals*, in dump vehicles, from points in New Hampshire, to points in that part of West Virginia on and west of Route 522. The purpose of this filing is to eliminate the gateway of Braddock, Pa.

No. MC 78228 (Sub-No. E255), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash St., Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alloys, ores, and silicon metals*, in dump vehicles, from points in Maine, to points in Michigan. The purpose of this filing is to eliminate the gateway of Niagara Falls, N.Y.

No. MC 78228 (Sub-No. E256), filed September 25, 1975. Applicant: J.

MILLER EXPRESS, 152 Wabash St., Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alloys, ores, and silicon metals*, (except scrap metals), in dump vehicles, from points in Maine to points in Indiana. The purpose of this filing is to eliminate the gateway of Niagara Falls, N.Y.

No. MC 78228 (Sub-No. E257), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash Street, Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alloys, ores, and silicon metals*, in dump vehicles, from points in Maine to points in that part of Kentucky north or west of a line beginning at the Kentucky-Ohio State line, thence along U.S. Highway 23 to junction Kentucky Highway 460, thence along Kentucky Highway 460 to junction Kentucky Highway 30, thence along Kentucky Highway 30 to junction Interstate Highway 75, thence along Interstate Highway 75 to the Kentucky-Tennessee State line. The purpose of this filing is to eliminate the gateway of Braddock, Pa., and Niagara Falls, N.Y.

No. MC 78228 (Sub-No. E258), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash Street, Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alloys, ores, and silicon metals*, in dump vehicles, from points in Maine to points in that part of West Virginia bounded by a line beginning at the West Virginia-Kentucky State line, thence along Interstate Highway 64 to junction U.S. Highway 119, thence along U.S. Highway 119 to Logan, W. Va., thence along West Virginia Highway 65 to the West Virginia-Kentucky State line, thence along the West Virginia-Kentucky State line to the place of beginning. The purpose of this filing is to eliminate the gateway of Niagara Falls, N.Y.

No. MC 78228 (Sub-No. E259), filed September 25, 1975. Applicant: J. MILLER EXPRESS, 152 Wabash Street, Pittsburgh, Pa. 15220. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alloys, ores, and silicon metals*, in dump vehicles, from points in Maine

to points in that part of Pennsylvania bounded by a line beginning at the Pennsylvania-Ohio State line, thence along Pennsylvania Highway 68 to Butler, Pa., thence along Pennsylvania Highway 8 to Pittsburgh, Pa., thence along U.S. Highway 19 to Washington, Pa., thence along Interstate Highway 70 to the Pennsylvania-Ohio State line, thence along the Pennsylvania-Ohio State line, to the point of beginning. The purpose of this filing is to eliminate the gateway of Niagara Falls, N.Y.

No. MC 83539 (Sub-No. E408), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment and, related machinery parts, *related contractors' materials and supplies* when moving in mixed loads with such commodities, between points in Indiana, on the one hand, and, on the other, points in New Jersey. The purpose of this filing is to eliminate the gateway of points in Pennsylvania.

No. MC 83539 (Sub-No. E409), filed May 31, 1974. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and *related machinery, parts, related contractors' materials, and supplies* when moving in mixed loads with such commodities, between points in Indiana, on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateway of points in Pennsylvania.

No. MC 83539 (Sub-No. E410), filed May 31, 1974. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and *related parts*, when moving in mixed loads with such commodities, (A) between points in that part of Indiana in, west and south of Vigo, Clay, Owen, Greene, Martin, Dubois, and Perry Counties, on the one hand, and, on the other, points in that part of North Carolina; (B) between points in that part of Indiana in and west of La Porte, Starke, Pulaski, Cass, Howard,

Tipton, Hamilton, Marion, Johnson, Bartholomew, Jackson, Scott, and Clark Counties, on the one hand, and, on the other, points in Robeson, Bladen, Columbus, Brunswick, and New Hanover Counties, N.C. The purpose of this filing is to eliminate the gateway of Kentucky and within a 50 mile radius of Nashville, Tenn.

No. MC 83539 (Sub-No. E411), filed May 31, 1974. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, between points in Indiana, on the one hand, and, on the other, points in Rhode Island. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 83539 (Sub-No. E412), filed May 31, 1974. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and related machinery, parts, when moving in mixed loads with such commodities, (A) between points in that part of Indiana in and west of Saint Joseph, Starke, Pulaski, White, Tippecanoe, Montgomery, Parke, Vigo, Sullivan, Knox, Gibson, and Vanderburgh Counties; (B) between points in that part of Indiana in, west, and north of Vanderburgh, Gibson, Pike, Davless, Greene, Monroe, Brown, Bartholomew, Decatur, and Franklin Counties, on the one hand, and, on the other, points in that part of South Carolina, in and east of York, Chester, Fairfield, Newberry, Saluda, and Edgefield Counties. The purpose of this filing is to eliminate the gateway of Kentucky within a 50 mile radius of Nashville, Tenn., and North Carolina, or Georgia.

No. MC 83539 (Sub-No. E413), filed May 31, 1977. Applicant: C & H Transportation, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III, (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and related parts, when moving in mixed loads with such commodities, between points in that part of Indiana, in and west of La Porte, Jasper, Benton, Tippecanoe, Montgomery,

Putnam, Owen, Monroe, Lawrence, Orange, and Crawford Counties, on the one hand, and, on the other, points in that part of Tennessee in and south of Tipton, Haywood, Madison, Henderson, Decatur, Perry, Hickman, Williamson, Davidson, Rutherford, Cannon, Warren, Van Buren, Bledsoe, Rhea, Meigs, McMinn and Monroe Counties. The purpose of this filing is to eliminate the gateways of Kentucky, and points within a 50-mile radius of Nashville, Tenn.

No. MC 83539 (Sub-No. E414), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III, (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment and, related machinery parts, moving in mixed loads with such commodities between points in Iowa, on the one hand, and, on the other, points in Maryland. Restrictions: (1) No service shall be performed in the stringing or picking up of any of the above commodities in connection with main or trunk pipelines. (2) No service shall be performed in the stringing or picking up of pipe in connection with oil or gas pipelines. The purpose of this filing is to eliminate the gateways of Illinois, Indiana, and Pennsylvania.

No. MC 83539 (Sub-No. E415), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and related machinery parts, when moving in mixed loads with such commodities, between points in Iowa, on the one hand, and, on the other, points in Ohio. Restrictions: (1) No service shall be performed in the stringing or picking up of any of the above commodities in connection with main or trunk pipelines. (2) No service shall be performed in the stringing or picking up of pipe in connection with oil or gas pipelines. The purpose of this filing is to eliminate the gateways of Illinois and Indiana.

No. MC 83539 (Sub-No. E416), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III, (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of

tion of which, because of size or weight, require the use of special equipment; and related machinery parts, when moving in mixed loads with such commodities, between points in Iowa, on the one hand, and, on the other, points in Virginia. Restrictions: (1) No service shall be performed in the stringing or picking up of any of the above commodities in connection with main or trunk pipelines. (2) No service shall be performed in the stringing or picking up of pipe in connection with oil or gas pipelines. The purpose of this filing is to eliminate the gateway in Illinois and Indiana.

No. MC 83539 (Sub-No. E417), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and related machinery parts, when moving in mixed loads with such commodities, between points in Iowa on the one hand and, on the other, points in West Virginia. Restrictions: (1) No service shall be performed in the stringing or picking up of any of the above commodities in connection with main or trunk pipelines. (2) no service shall be performed in the stringing or picking up of pipe in connection with oil or gas pipelines. The purpose of this filing is to eliminate the gateways of Illinois and Indiana.

Applicant: C. & H. TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and related machinery parts, when moving in mixed loads with such commodities, between points in Kansas on the one hand and, on the other, points in Ohio. Restrictions: (1) No service shall be performed in the stringing or picking up of any of the above commodities in connection with main or trunk pipelines. (2) no service shall be performed in the stringing or picking up of pipe in connection with oil or gas pipelines. The purpose of this filing is to eliminate the gateways of Missouri, Illinois, and Indiana.

No. MC 83539 (Sub-No. E419), filed May 31, 1977. Applicant: C. & H. TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of

which, because of size or weight, require the use of special equipment, and related machinery parts and related contractors' materials and supplies when moving in mixed loads with such commodities, between points in Kentucky on the one hand and, on the other, points in Maryland. The purpose of this filing is to eliminate the gateway of points in Pennsylvania.

No. MC 83539 (Sub-No. E420), filed May 31, 1977. Applicant: C. & H. TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, between points in Kentucky on the one hand and, on the other, points in Massachusetts. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 83539 (Sub-No. E421), filed May 31, 1977. Applicant: C. & H. TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, related machinery parts and supplies when moving in mixed loads with such commodities, between points in Kentucky on the one hand and, on the other, points in New Jersey. The purpose of this filing is to eliminate the gateway of points in Pennsylvania.

No. MC 83539 (Sub-No. E422), filed May 31, 1977. Applicant: C. & H. TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and related machinery parts and related contractors' materials and supplies when moving in mixed loads with such commodities, between points in Kentucky on the one hand and, on the other, points in New York. The purpose of this filing is to eliminate the gateway of points in Pennsylvania.

No. MC 83539 (Sub-No. E423), filed May 31, 1977. Applicant: C. & H. TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting:

*Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and related machinery parts when moving in mixed loads with such commodities, (A) between points in that part of Kentucky in and west of Hardin, Grayson, Edmonson, Barren, and Allen Counties on the one hand and, on the other, points in that part of North Carolina in, east, and south of Vance, Franklin, Wake, Harnett, Lee, Moore, Montgomery, Stanly, Cabarrus, and Mecklenburg Counties; (B) between points in that part of Kentucky in and west of Jefferson, Bullitt, Hardin, Grayson, Edmonson, Barren, and Allen Counties on the one hand and, on the other, points in that part of North Carolina in, east, and south of Robeson, Columbus, Pender, Onslow, Jones, Craven, Pamlico, and Carteret Counties. The purpose of this filing is to eliminate the gateway of Kentucky and points within a 50 mile radius of Nashville, Tenn.

No. MC 83539 (Sub-No. E424), filed May 31, 1977. Applicant: C. & H. TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, between points in Kentucky on the one hand and, on the other, points in Rhode Island. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 83539 (Sub-No. E425), filed May 31, 1977. Applicant: C. & H. TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and related machinery parts when moving in connection with such commodities, (A) between points in that part of Kentucky in and west of Jefferson, Bullitt, Hardin, Grayson, Edmonson, Barren, and Allen Counties on the one hand and on the other, points in South Carolina; (B) between points in Trimble and Oldham Counties, Ky. on the one hand and, on the other, points in that part of South Carolina in, east, and south of Anderson, Abbeville, Greenwood, Edgefield, Aiken, Orangeburg, Calhoun, Sumter, Florence, and Dillon Counties; (C) between points in Monroe, Metcalfe, Hart and Larue, Spencer, Nelson, Washington, Marion, Taylor, Adair, and Cumberland Counties, Ky. on the one hand and, on the other, points in

that part of South Carolina in, east, and south of Anderson, Abbeville, Greenwood, Edgefield, Ailsen, Orangeburg, Berkeley, Williamsburg, Georgetown, and Horry Counties; (D) between points in the State of Kentucky in Henry, Shelby, Russell, and Clinton Counties, Ky. on the one hand and, on the other, points in that part of South Carolina in, east, and south of Aiken, Barnwell, Bamberg, and Colleton Counties; (E) between points in Gallatin, Owen, Franklin, Anderson, Woodford, Mercer, Boyle, and Casey on the one hand and, on the other, points in that part of South Carolina in, east, and south of Aiken, Barnwell, Allendale, Hampton, and Beaufort Counties; (F) between points in Kenton, Grant, and Boone Counties, Ky. on the one hand and, on the other, points in that part of South Carolina in, east, and south of Aiken, Barnwell, Allendale, Hampton, and Beaufort Counties. Restriction: The authority granted above shall be restricted against the transportation of aircraft and missiles and parts thereof. The purpose of this filing is to eliminate the gateways of Kentucky; points within a 50-mile radius of Nashville and North Carolina or Georgia.

No. MC 83539 (Sub-No. E426), filed May 31, 1977. Applicant: C. & H. TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and related machinery parts, when moving in mixed loads with such commodities, (A) between points in Louisiana, on the one hand, and, on the other, points in that part of Minnesota in, north and east of Clay, Otter Tail, Douglas, Pope, Kandiyohi, Meeker, McLeod, Sibley, Nicollet, Blue Earth, and Faribault Counties; (B) between points in that part of Louisiana in, south, and east of Morehouse, Quachita, Caldwell, LaSalle, Rapides, Allen, Jefferson Davis, and Calcasieu Counties, on the one hand, and, on the other, points in Minnesota. Restrictions: (1) No service shall be performed in the stringing or picking up of any of the above commodities in connection with main or trunk pipelines. (2) No service shall be performed in the stringing or picking up of pipe in connection with oil or gas pipelines. The purpose of this filing is to eliminate the gateways of points in Mississippi, Kentucky, Indiana and Illinois.

No. MC 107012 (Sub-No. E286), filed May 13, 1974. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Fort Wayne, Ind. 46801. Applicant's representative: David D. Bishop and Gary M. Crist (same as

above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New commercial and institutional fixtures, uncrated*, (1) From points in Maine, to points in Alabama, Florida, and Georgia. (2) From points in Aroostook, Penobscot, Piscataquis, Somerset, Hancock, Knox, Waldo, and Washington Counties, Maine, to points in Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Swain, Transylvania, Yancey, Alexander, Alleghany, Ashe, Avery, Burke, Caldwell, Catawba, Cleveland, Gaston, Iredell, Lincoln, Mecklenburg, Surry, Watauga, Wilkes, Yadkin, Allamance, Anson, Cabarrus, Caswell, Chatham, Davidson, Davie, Durham, Forsyth, Franklin, Granville, Guilford, Lee, Montgomery, Moore, Orange, Person, Randolph, Richmond, Rockingham, Rowan, Stanly, Stokes, Union, Vance, Wake, and Warren Counties, N.C.; Allendale, Bamberg, Barnwell, Beaufort, Berkeley, Charleston, Colleton, Dorchester, Hampton, Jasper, Orangeburg, Aiken, Calhoun, Chesterfield, Darlington, Fairfield, Keeshaw, Lancaster, Lee, Lexington, Marlboro, Richland, Sumter, Abbeville, Anderson, Greenville, Ocomee, Pickens, Cherokee, Chester, Edgefield, Greenwood, Lamens, McCormick, Newberry, Saluda, Spartanburg, Union, and York Counties, S.C.; Greenbrier, McDowell, Mercer, Monroe, Pocahontas, Raleigh, Summers, Wyoming, Braxton, Clay, Fayette, Kanawha, Nicholas, and Webster Counties, W. Va. (3) From points in Androscoggin, Cumberland, Franklin, Kennebec, Lincoln, Oxford, Sagadahoc, and York Counties, Maine, to points in Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Swain, Transylvania, Yancey, Alexander, Alleghany, Ashe, Avery, Burke, Caldwell, Catawba, Cleveland, Gaston, Iredell, Lincoln, Mecklenburg, Surry, Watauga, Wilkes, and Yadkin Counties, N.C.; Aiken, Calhoun, Chesterfield, Darlington, Fairfield, Keeshaw, Lancaster, Lee, Lexington, Marlboro, Richland, Sumter, Abbeville, Anderson, Greenville, Ocomee, Pickens, Cherokee, Chester, Edgefield, Greenwood, Lamens, McCormick, Newberry, Saluda, Spartanburg, Union, and York Counties, S.C. The purpose of this filing is to eliminate the gateway of points in Kentucky and Tennessee (except points in Hamblen County, Tenn.).

No. MC 107012 (Sub-No. E287), filed May 13 1974. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Fort Wayne, Ind. 46801. Applicant's representative: David D. Bishop and Gary M. Crist (same as above). Authority sought to operate as

a common carrier, by motor vehicle, over irregular routes, transporting: *New commercial and institutional fixtures, uncrated*, (1) From points in New Hampshire, to points in Alabama, Florida, Georgia, (2) From points in Coos, Carroll, and Grafton Counties, N.H., to points in Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Swain, Transylvania, Yancey, Alexander, Alleghany, Ashe, Avery, Burke, Caldwell, Catawba, Cleveland, Gaston, Iredell, Lincoln, Mecklenburg, Surry, Watauga, Wilkes, and Yadkin Counties, N.C.; Allendale, Bamberg, Barnwell, Beaufort, Berkeley, Charleston, Colleton, Dorchester, Hampton, Jasper, Orangeburg, Aiken, Calhoun, Chesterfield, Darlington, Fairfield, Keeshaw, Lancaster, Lee, Lexington, Marlboro, Richland, Sumter, Abbeville, Anderson, Greenville, Oconee, Pickens, Cherokee, Chester, Edgefield, Greenwood, Lamens, McCormick, Newberry, Saluda, Spartanburg, Union and York Counties, S.C. (3) From points in Cheshire, Hillsboro, Sullivan, Belknap, Merrimack, Rockingham, and Strafford Counties, N.H., to points in Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Swain, Transylvania, Yancey, Alexander, Alleghany, Ashe, Avery, Burke, Caldwell, Catawba, Cleveland, Gaston, Iredell, Lincoln, Mecklenburg, Surry, Watauga, Wilkes, and Yadkin Counties, N.C.; Aiken, Calhoun, Chesterfield, Darlington, Fairfield, Keeshaw, Lancaster, Lee, Lexington, Marlboro, Richland, Sumter, Abbeville, Anderson, Greenville, Oconee, Pickens, Cherokee, Chester, Edgefield, Greenwood, Lamens, McCormick, Newberry, Saluda, Spartanburg, Union and York Counties, S.C. The purpose of this filing is to eliminate the gateway of points in Tennessee (except points in Hamblen County, Tenn.).

No. MC 107012 (Sub-No. E288), filed May 13, 1974.

Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Fort Wayne, Ind. 46801. Applicant's representative: David D. Bishop and Gary M. Crist (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New commercial and institutional fixtures, uncrated*, from points in Massachusetts, to points in Alabama, Florida, Georgia; Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Swain, Transylvania, Yancey, Alexander, Alleghany, Ashe, Avery, Burke, Caldwell, Catawba, Cleveland, Gaston, Iredell, Lincoln, Mecklenburg, Surry, Watauga, Wilkes, and Yadkin Counties, N.C.; Aiken, Cal-

houn, Chesterfield, Darlington, Fairfield, Keeshaw, Lancaster, Lee, Lexington, Marlboro, Richland, Sumter, Abbeville, Anderson, Greenville, Oconee, Pickens, Cherokee, Chester, Edgefield, Greenwood, Lamens, McCormick, Newberry, Saluda, Spartanburg, Union, and York Counties, S.C. The purpose of this filing is to eliminate the gateway of points in Tennessee (except points in Hamblen County, Tenn.).

No. MC 107012 (Sub-No. E289), filed May 13, 1974.

Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Fort Wayne, Ind. 46801. Applicant's representative: David D. Bishop and Gary M. Crist (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New commercial and institutional fixtures, uncrated*, from points in Maryland, to points in Alabama; (2) from points in Anne Arundel, Calvert, Caroline, Charles, Montgomery, Prince Georges, Queen Annes, St. Marys, and Talbot Counties, Md., to points in Fla.; Atkinson, Baker, Ben Hill, Berrien, Bibb, Bleckley, Brooks, Calhoun, Chattahoochee, Clay, Clinch, Coffee, Colquitt, Cook, Crawford, Crisp, Decatur, Dodge, Dooley, Dougherty, Early, Echols, Grady, Harris, Houston, Irwin, Jones, Lamar, Lanier, Lee, Lowndes, Macon, Marion, Meriwether, Miller, Mitchell, Monroe, Muscogee, Peach, Pike, Pulaski, Quitman, Randolph, Schley, Seminole, Stewart, Sumter, Talbot, Taylor, Telfair, Terrell, Thomas, Tift, Troup, Turner, Twiggs, Upson, Webster, Wilcox, Worth, Banks, Barrow, Butts, Cherokee, Clarke, Clayton, Cobb, Coweta, Dawson, De Kalb, Elbert, Fannin, Fayette, Forsyth, Franklin, Fulton, Gilmer, Gwinnett, Habersham, Hall, Hart, Henry, Jackson, Jasper, Lumpkin, Madison, Morgan, Newton, Oconee, Pickens, Rabun, Rockdale, Spalding, Stephens, Towns, Union, Walton, White, Baldwin, Burke, Columbia, Emanuel, Glascock, Greene, Hancock, Jefferson, Jenkins, Johnson, Laurens, Lincoln, McDuffie, Oglethorpe, Putnam, Richmond, Taliaferro, Treutlen, Warren, Washington, Wilkes, Wilkinson, Appling, Bacon, Brantley, Camden, Charlton, Glynn, Jeff Davis, Long, McIntosh, Montgomery, Pierce, Tattall, Toombs, Ware, Wayne, Wheeler, Bartow, Chattooga, Carroll, Catoosa, Dade, Douglas, Floyd, Gordon, Haralson, Heard, Murray, Paulding, Polk, Walker, and Whitfield Counties, Ga.; Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Swain, Transylvania, and Yancey Counties, N.C.; Abbeville, Anderson, Greenville, Oconee, Pickens, Cherokee, Chester, Edgefield, Greenwood, Lamens, McCormick, Newberry, Saluda, Spartanburg, Union, and York Counties, S.C.; (4) from points in Allegany, Garrett, and Washington Counties, Md., to points in Florida, Georgia; Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Swain, Transylvania, and Yancey Counties, N.C.; Abbeville, Anderson, Greenville, Oconee, Pickens, Cherokee, Chester, Edgefield, Greenwood, Lamens, McCormick, Newberry, Saluda, Spartanburg, Union, and York Counties, S.C.; (5) from points in Dorchester, Somerset, Wicomico, and Worcester Counties, Md., to points in Charlotte, De Soto, Glades, Hardee, Hendry, Highlands, Lee, Manatee, Okeechobee, Sarasota, Broward, Collier, Dade, Martin, Monroe, Palm Beach, Saint Lucie, Bay, Calhoun, Escambia, Gulf, Holmes, Jackson, Okaloosa, Santa Rosa, Walton, Washington, Columbia, Dixie, Franklin, Gadsden, Gilchrist, Hamilton, Jefferson, Lafayette, Leon, Liberty, Madi-

son, Suwannee, Taylor, and Wakulla Counties, Fla.; Atkinson, Baker, Ben Hill, Berrien, Bibb, Bleckley, Brooks, Calhoun, Chattahoochee, Clay, Clinch, Coffee, Colquitt, Cook, Crawford, Crisp, Decatur, Dodge, Dooley, Dougherty, Early, Echols, Grady, Harris, Houston, Irwin, Jones, Lamar, Lanier, Lee, Lowndes, Macon, Marion, Meriwether, Miller, Mitchell, Monroe, Muscogee, Peach, Pike, Pulaski, Quitman, Randolph, Schley, Seminole, Stewart, Sumter, Talbot, Taylor, Telfair, Terrell, Thomas, Tift, Troup, Turner, Twiggs, Upson, Webster, Wilcox, Worth, Banks, Barrow, Butts, Cherokee, Clarke, Clayton, Cobb, Coweta, Dawson, De Kalb, Elbert, Fannin, Fayette, Forsyth, Franklin, Fulton, Gilmer, Gwinnett, Habersham, Hall, Hart, Henry, Jackson, Jasper, Lumpkin, Madison, Morgan, Newton, Oconee, Pickens, Rabun, Rockdale, Spalding, Stephens, Towns, Union, Walton, White, Baldwin, Burke, Columbia, Emanuel, Glascock, Greene, Hancock, Jefferson, Jenkins, Johnson, Laurens, Lincoln, McDuffie, Oglethorpe, Putnam, Richmond, Taliaferro, Treutlen, Warren, Washington, Wilkes, Wilkinson, Appling, Bacon, Brantley, Camden, Charlton, Glynn, Jeff Davis, Long, McIntosh, Montgomery, Pierce, Tattall, Toombs, Ware, Wayne, Wheeler, Bartow, Chattooga, Carroll, Catoosa, Dade, Douglas, Floyd, Gordon, Haralson, Heard, Murray, Paulding, Polk, Walker, and Whitfield Counties, Ga.; Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Swain, Transylvania, and Yancey Counties, N.C.; Abbeville, Anderson, Greenville, Oconee, Pickens, Cherokee, Chester, Edgefield, Greenwood, Lamens, McCormick, Newberry, Saluda, Spartanburg, Union, and York Counties, S.C.; (5) from points in Dorchester, Somerset, Wicomico, and Worcester Counties, Md., to points in Charlotte, De Soto, Glades, Hardee, Hendry, Highlands, Lee, Manatee, Okeechobee, Sarasota, Broward, Collier, Dade, Martin, Monroe, Palm Beach, Saint Lucie, Bay, Calhoun, Escambia, Gulf, Holmes, Jackson, Okaloosa, Santa Rosa, Walton, Washington, Columbia, Dixie, Franklin, Gadsden, Gilchrist, Hamilton, Jefferson, Lafayette, Leon, Liberty, Madi-

son, Suwannee, Taylor, and Wakulla Counties, Fla.; Atkinson, Baker, Ben Hill, Berrien, Bibb, Bleckley, Brooks, Calhoun, Chattahoochee, Clay, Clinch, Coffee, Colquitt, Cook, Crawford, Crisp, Decatur, Dodge, Dooley, Dougherty, Early, Echols, Grady, Harris, Houston, Irwin, Jones, Lamar, Lanier, Lee, Lowndes, Macon, Marion, Meriwether, Miller, Mitchell, Monroe, Muscogee, Peach, Pike, Pulaski, Quitman, Randolph, Schley, Seminole, Stewart, Sumter, Talbot, Taylor, Telfair, Terrell, Thomas, Tift, Troup, Turner, Twiggs, Upson, Webster, Wilcox, Worth, Banks, Barrow, Butts, Cherokee, Clarke, Clayton, Cobb, Coweta, Dawson, De Kalb, Elbert, Fannin, Fayette, Forsyth, Franklin, Fulton, Gilmer, Gwinnett, Habersham, Hall, Hart, Henry, Jackson, Jasper, Lumpkin, Madison, Morgan, Newton, Oconee, Pickens, Rabun, Rockdale, Spalding, Stephens, Towns, Union, Walton, White, Bartow, Chattooga, Carroll, Catoosa, Dade, Douglas, Floyd, Gordon, Haralson, Heard, Murray, Paulding, Polk, Walker, and Whitfield Counties, Ga.; Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Swain, Transylvania, and Yancey Counties, N.C.; Abbeville, Anderson, Greenville, Oconee, and Pickens Counties, S.C. The purpose of this filing is to eliminate the gateway of points in Tennessee (except points in Hamblen County, Tenn.).

No. MC 107012 (Sub-No. E290), filed May 13, 1974. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Fort Wayne, Ind. 46801. Applicant's representative: David D. Bishop and Gary M. Crist (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New commercial and institutional fixtures, uncrated*, (1) from points in New Jersey, to points in Alabama, and Florida. (2) From points in Atlantic, Burlington, Cape May, Monmouth, Ocean, Hunterdon, Mercer, Middlesex, Somerset, and Union Counties, N.J., to points in Georgia; Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Swain, Transylvania, Yancey, Alexander, Alleghany, Ashe, Avery, Burke, Caldwell, Catawba, Cleveland, Gaston, Iredell, Lincoln, Mecklenburg, Surry, Watauga, Wilkes, and Yadkin Counties, N.C.; Abbeville, Anderson, Greenville, Oconee, Pickens, Cherokee, Chester, Edgefield, Greenwood, Lamens, McCormick, Newberry, Saluda, Spartanburg, Union, and York Counties, S.C.; (3) From points in Camden, Cumberland, Gloucester, and Salem Counties, N.J., to points in Atkinson, Baker, Ben Hill, Berrien, Bibb, Bleckley, Brooks, Calhoun, Chatta-

hoochee, Clay, Clinch, Coffee, Colquitt, Cook, Crawford, Crisp, Decatur, Dodge, Dooley, Dougherty, Early, Echols, Grady, Harris, Houston, Irwin, Jones, Lamar, Lanier, Lee, Lowndes, Macon, Marion, Meriwether, Miller, Mitchell, Monroe, Muscogee, Peach, Pike, Pulaski, Quitman, Randolph, Schley, Seminole, Stewart, Sumter, Talbot, Taylor, Telfair, Terrell, Thomas, Tift, Troup, Turner, Twiggs, Upson, Webster, Wilcox, Worth, Banks, Barrow, Butts, Cherokee, Clarke, Clayton, Cobb, Coweta, Dawson, De Kalb, Elbert, Fannin, Fayette, Forsyth, Franklin, Fulton, Gilmer, Gwinnett, Habersham, Hall, Hart, Henry, Jackson, Jasper, Lumpkin, Madison, Morgan, Newton, Oconee, Pickens, Rabun, Rockdale, Spalding, Stephens, Towns, Union, Walton, White, Bartow, Chattooga, Carroll, Catoosa, Dade, Douglas, Floyd, Gordon, Haralson, Heard, Murray, Paulding, Polk, Walker, and Whitfield Counties, Ga.; Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Swain, Transylvania, and Yancey Counties, N.C.; Abbeville, Anderson, Greenville, Oconee, Pickens, Cherokee, Chester, Edgefield, Greenwood, Lamens, McCormick, Newberry, Saluda, Spartanburg, Union and York Counties, S.C. (4) From points in Morris, Sussex, Warren, Bergen, Essex, Hudson, and Passaic Counties, N.J., to points in Georgia; Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Swain, Transylvania, Yancey, Alexander, Alleghany, Ashe, Avery, Burke, Caldwell, Catawba, Cleveland, Gaston, Iredell, Lincoln, Mecklenburg, Surry, Watauga, Wilkes, and Yadkin Counties, N.C.; Aiken, Calhoun, Chesterfield, Darlington, Fairfield, Keeshaw, Lancaster, Lee, Lexington, Marlboro, Richland, Sumter, Abbeville, Anderson, Greenville, Oconee, Pickens, Cherokee, Chester, Edgefield, Greenwood, Lamens, McCormick, Newberry, Saluda, Spartanburg, Union and York Counties, S.C. The purpose of this filing is to eliminate the gateway of points in Tennessee (except points in Hamblen County, Tenn.).

No. MC 107012 (Sub-No. E296), filed May 13, 1974. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Fort Wayne, Ind. 46801. Applicant's representative: David D.

Bishop and Gary M. Crist (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New commercial and institutional fixtures, uncrated*, (1) from points in Nevada, to points in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia. (2) From points in Clark, Lincoln, Esmeralda, Eureka, Lander, and Nye Counties, Nev., to points in Arkansas, Cleburne, Conway, Faulkner, Garland, Grant, Hot Springs, Jefferson, Lee, Lonoke, Monroe, Perry, Phillips, Prairie, Pulaski, Saline, and White Counties, Ark.; Ascension, Assumption, East Baton Rouge, East Feliciana, Iberia, Iberville, Jefferson, Lafourche, Livingston, Orleans, Plaquemines, Pointe Coupee, Saint Bernard, Saint Charles, Saint Helena, Saint James, Saint John the Baptist, Saint Martin, Saint Mary, Saint Tammany, Tangipahoa, Terrebonne, Washington, West Baton Rouge, and West Feliciana Parishes, La. #### [7035-01]

(Docket No. AB-105)

#### THE WESTERN PACIFIC RAILROAD CO.

Abandonment in the City of Stockton, San Joaquin County, Calif.

Notice is hereby given pursuant to section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on November 14, 1977, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in Oregon Short Line R. Co.—Abandonment—Goshen, 354 ICC 76, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by The Western Pacific Railroad Co. of that portion of its line known as the "North Channel Branch" which begins at engineer's station 169+85.97, milepost 96.18 of WP's main line, and extends to the end of the branch line at milepost 5.892, a total distance of 5.892 miles all in the City of Stockton, San Joaquin County, Calif. A certificate of abandonment will be issued to The Western Pacific Railroad Co. based on the above-described finding of abandonment, February 21, 1978, unless before February 21, 1978, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agree-

ment, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or

the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

N. G. HOMMER, Jr.,  
Acting Secretary.

### [6351-01]

#### COMMODITY FUTURES TRADING COMMISSION.

TIME AND DATE: 10 a.m., January 24, 1978.

PLACE: 2033 K Street NW., Washington, D.C. 5th floor hearing room.

STATUS: Open.

MATTERS TO BE CONSIDERED: Report on State Advisory Committee and Review of Bankruptcy Act.

CONTACT PERSON FOR MORE INFORMATION:

Jane Stuckey, 254-6314.

(S-130-78 Filed 1-18-78; 9:57 am)

### [6712-01]

#### FEDERAL COMMUNICATIONS COMMISSION.

TIME AND DATE: Follows 2 p.m., Special Open Meeting, Wednesday, January 18, 1978.

PLACE: Room 856, 1919 M Street NW., Washington, D.C.

STATUS: Closed Commission meeting.

MATTERS TO BE CONSIDERED:

Agenda, Item No., and Subject

General—1—Subpoena of FCC records in MCI-AT&T Anti-trust suit.

The prompt and orderly conduct of Commission business requires that less than 7-days' notice be given. This meeting may be continued the following work day to allow the Commission to complete appropriate action.

CONTACT PERSON FOR MORE INFORMATION:

Samuel M. Sharkey, FCC Public Information Officer, telephone number 202-632-7260.

Issued: January 16, 1978.

(S-135-78 Filed 1-18-78; 3:08 pm)

### [6714-01]

#### FEDERAL DEPOSIT INSURANCE CORPORATION.

TIME AND DATE: 2:30 p.m., January 25, 1978.

PLACE: Room 6135, FDIC Building, 550 17th Street NW., Washington, D.C.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

Applications for Federal deposit insurance:

Northgate Bank of Tallahassee, a proposed new bank to be located at the northwest corner of Thomasville Road and Timberlane Road, Unincorporated Leon County (P.O. Tallahassee), Fla., for Federal deposit insurance.

Citizens State Bank of Shakopee, a proposed new bank to be located at the intersection of County Roads 16 and 17, Shakopee, Minn., for Federal deposit insurance.

Citizens Bank, an operating noninsured bank located in Amsterdam, Mo., for Federal deposit insurance.

Applications for consent to establish branches:

Community State Bank, Albany, N.Y., for consent to establish branches at the northeast corner of Route 9 and Maxwell Road, Newtonville (Unincorporated Area), Town of Colonie, N.Y., and at the corner of Second Avenue and 123rd Street, North Troy, N.Y.

Request pursuant to section 19 of the Federal Deposit Insurance Act for the Corporation's consent to service of a person convicted of an offense involving dishonesty or a breach of trust as a director, officer, or employee of an insured bank:

Name of person and of bank authorized to be exempt from disclosure pursuant to the provisions of subsection (c)(6) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6)).

Applications for consent to merge and establish branches:

The Lewis State Bank, Tallahassee, Fla., an insured State nonmember bank, for consent to merge under its

charter and title with the Gulf National Bank, Tallahassee, Fla., and for consent to establish the main office and the approved but unopened branch of the Gulf National Bank as branches of the resultant bank.

Commercial Security Bank, Ogden, Utah, an insured State nonmember bank, for consent to merge under its charter and title with Commercial Security Bank of Salt Lake, Salt Lake County (P.O. Salt Lake City), Utah, and for consent to establish the two offices of the latter bank as branches of the resultant bank.

Application for consent to consolidate and establish one branch:

The Citizens Bank of Montezuma, Montezuma, Ga., an insured State nonmember bank, for consent to consolidate under a new charter, and with the title of "The Bank of Macon County," with Bank of Oglethorpe, Oglethorpe, Ga., and for consent to establish the sole office of Bank of Oglethorpe as a branch of the resultant bank.

Recommendations regarding liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 43,204-L—Northern Ohio Bank, Cleveland, Ohio.

Case No. 43,361-L—Algoma Bank, Algoma, Wis.

Case No. 43,363-NR—Swope Parkway National Bank, Kansas City, Mo.

Case No. 43,372-L—Chicopee Bank & Trust Co., Chicopee, Mass.

Memorandum re: Franklin National Bank, New York, N.Y.—in liquidation.

Recommendations with respect to the initiation or termination of cease-and-desist proceedings or termination of insurance proceedings against certain insured banks:

Names and locations of banks authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(8) and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(8) and (c)(9)(A)(ii)).

Personnel actions regarding appointments, promotions, administrative pay increases, reassignments, retirements, separations, removals, etc.:

Names of employees authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(2) and

(c)(6) of the "Government in the Sunshine Act" (5 U.S.C. 552b (c)(2), (c)(6)).

#### FEDERAL ENERGY REGULATORY COMMISSION.

Meeting—January 18, 1978

The following notice of meeting is published pursuant to section 3(a) of the Government in the Sunshine Act (Pub. L. No. 94-409), 5 U.S.C. 552b: AGENCY HOLDING MEETING: Federal Energy Regulatory Commission.

TIME AND DATE: January 25, 1978, 10 a.m.

STATUS: Open.

MATTERS TO BE CONSIDERED: Agenda. (NOTE.—Items listed on the agenda may be deleted without notice.)

CONTACT PERSON FOR MORE INFORMATION:

Lois D. Cashell, Acting Secretary, telephone 202-275-4166.

This is a list of matters to be considered by the Commission. It does not include a listing of all papers relevant to the items on the agenda; however, all public documents may be examined in the Office of Public Information, Room 1000.

GAS AGENDA, 49TH MEETING—JANUARY 25, 1978, REGULAR MEETING

## I. PIPELINE RATE MATTERS

### A. Pipeline rates (PGA)

RP-1. Docket No. RP76-148 (PGA Nos. 78-1 and 78-1a), Gas Gathering Corp.

RP-2. Docket No. RP73-35 (PGA78-1), and RP74-89, Trunkline Gas Co.

RP-3. Docket No. RP72-133 (PGA77-2), United Gas Pipe Line Co.

RP-4. Reserved.

RP-5. Reserved.

RP-6. Reserved.

### B. Pipeline rates

RP-7. Docket Nos. RP71-107, (phase II), and RP72-127 (PGA78-1), Northern Natural Gas Co.

RP-8. Docket Nos. CP75-104, et al., High Island Offshore System.

## II. PRODUCER MATTERS

### A. Small producer

CI-1. Docket No. RM76-15, regulation of small producers.

CI-2. Reserved.

CI-3. Reserved.

CI-4. Reserved.

### B. Producer rate

CI-5. Docket No. RI78-9, Curry Resources.

CI-6. Reserved.

CI-7. Reserved.

CI-8. Reserved.

### C. Special relief

CI-9. Docket No. RI77-58, Outline Oil Corp.

CI-10. Reserved.

CI-11. Reserved.

CI-12. Reserved.

### D. Producer certificate and abandonment

CI-13. Docket Nos. CI78-57 and CI78-58, Mobil Oil Corp.

CI-14. Docket No. CI78-128, Keisling Farms, Inc.

CI-15. Docket No. CI77-718, South Louisiana Production Co., Inc., (operator), et al.

## III. PIPELINE CERTIFICATE MATTERS

### A. Pipeline certificates

CP-1. Docket No. CP77-529, Delhi Gas Pipeline Corp.

CP-2. Reserved.

CP-3. Reserved.

CP-4. Reserved.

### B. Order No. 533 authorizations

CP-5. Docket No. CP76-181, Transcontinental Gas Pipe Line Corp.

CAG-1. Docket No. RP78-30, Arkansas Louisiana Gas Co.

CAG-2. Docket No. CP73-329 (PGA78-3), Chattanooga Gas Co.

CAG-3. Docket No. RP77-108, Transcontinental Gas Pipe Line Corp.

CAG-4. Docket No. RP73-48 (PGA78-2), Northern Natural Gas Co. (Peoples Division).

## SUNSHINE ACT MEETINGS

CAG-5. Docket No. RP76-31, Louisiana-Nevada Transit Co.  
CAG-6. Docket No. RP77-128 (PGA78-3), Mid Louisiana Gas Co.  
CAG-7. Docket No. G-1704, Cities Service Gas Co.

CAG-8. Docket No. CP70-239, Kansas-Nebraska Natural Gas Co. Inc. Docket No. CP70-258, Cities Service Gas Co.

CAG-9. Docket Nos. CP75-286 and CP76-106, Northwest Pipeline Corp.

CAG-10. Docket No. CP78-58, Columbia Gulf Transmission Co.

CAG-11. Docket No. CP78-83, Panhandle Eastern Pipe Line Co.

CAG-12. Docket No. CP78-81, Trunkline Gas Co.

CAG-13. Docket No. CP78-82, Panhandle Eastern Pipe Line Co.

CAG-14. Docket No. CP78-40, Northern Natural Gas Co.

CAG-15. Docket No. CP77-655, Colorado Interstate Gas Co.

CAG-16. Docket No. CP77-83, et al., Northern Natural Gas Co.

CAG-17. Docket No. CP76-500, Cities Service Gas Co.

CAG-18. Docket No. CI75-201, et al., Atlantic Richfield Co., et al.

CAG-19. Docket No. CP77-641, Natural Gas Pipeline Co. of America.

Docket No. CP78-7, Sea Robin Pipeline Co. Docket No. CP78-23, United Gas Pipe Line Co.

Miscellaneous Agenda, 49th Meeting—January 25, 1978, Regular Meeting

M-1. Docket No. RM78-2 (formerly ex parte No. 308), valuation of common carrier pipelines.

Power Agenda 49th Meeting—January 25, 1978, Regular Meeting

## I. LICENSED PROJECT MATTERS

P-1. Project No. 2506, Escanaba Paper Co.

## II. ELECTRIC RATE MATTERS

ER-1. Docket No. ER78-72, Montaup Electric Co.

ER-2. Docket No. ER78-145, Arizona Public Service Co.

ER-3. Docket No. ER78-63, Central Telephone & Utilities Corp.

ER-4. Docket No. ER77-578, Kansas Gas & Electric Co.

ER-5. Docket No. ER77-465, Oklahoma Gas and Electric Co.

ER-6. Docket No. ER78-1, Kansas Power & Light Co.

ER-7. Docket No. ER77-529, Columbus & Southern Ohio Electric Co.

ER-8. Docket Nos. E-8641, E-8476, E-8251, and E-8169, New England Power Co.

CAP-1. Project No. 2075, The Washington Water Power Co.

CAP-2. Project No. 2183, Grand River Dam Authority.

CAP-3. Docket No. ER78-132, Indianapolis Power & Light Co.

CAP-4. Docket Nos. ER77-43 and ER77-569, Montana Light & Power Co.

CAP-5. Docket No. ES78-4, Iowa Public Service Co.

CAP-6. Docket No. ES78-13, Pacific Power & Light Co.

DEPARTMENT OF LABOR

Employment Standards Administration  
MINIMUM WAGES FOR FEDERAL AND  
FEDERALLY ASSISTED CONSTRUCTION  
General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage condition and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein. Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued

NOTICES

subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDES DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedes Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedes Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedes Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C.

20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

[21 CFR Part 558]

[Docket No. 77N-0318]

NEW ANIMAL DRUGS FOR USE IN ANIMAL  
FEEDSAnimal Feeds Containing Penicillin and  
Tetracycline

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

**SUMMARY:** The Commissioner of Food and Drugs, based on the recommendations of the National Advisory Food and Drug Committee concerning evidence of the development and transfer of antibiotic resistance, is proposing to limit the distribution of animal feed premixes containing penicillin and tetracycline (chlortetracycline and oxytetracycline) to feed mills that hold approved medicated feed applications which permit the mills to manufacture such medicated feeds. He is also proposing to restrict further the distribution of such feeds to the order of a licensed veterinarian as part of the record maintenance requirements of the Federal Food, Drug, and Cosmetic Act.

**DATES:** Written comments by April 20, 1978. The Commissioner will also hold two informal public hearings in accord with the provisions of 21 CFR Part 15, to provide the opportunity for oral comments on the proposal by interested persons. The hearings will be held in agricultural areas, and the time and place of those meetings will be announced in future FEDERAL REGISTER notices.

**ADDRESS:** Comments to the hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION  
CONTACT:

Gerald B. Guest, Bureau of Veterinary Medicine (HFV-130), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4313.

## SUPPLEMENTARY INFORMATION:

## I. INTRODUCTION

## A. REGULATORY BACKGROUND

Antibacterial drugs have been used at subtherapeutic levels (lower levels than those necessary to cure disease) in animal feed for over 25 years for growth promotion, improved feed efficiency, and disease prevention.

Growth promotant benefits from this use were first observed when animals were fed the discard products from the fermentation process that was originally used in the manufacture of chlortetracycline; however, the precise mechanism of that action remains unclear.

Initially, antibiotics for use in animal feed were regulated under the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 357). Unlike the basic private licensing system applicable to new drugs, the provisions of section 507 created a public regulation or monograph system for regulating these products, in part because of the complexities in manufacturing the products and the lack of knowledge of their chemical structures. Antibiotic residues in food from food-producing animals were then regulated under the provisions of the act dealing with adulteration and misbranding. After enactment of the Food Additives Amendment of 1958 (Pub. L. 85-929), the residues were principally regulated by section 409 of the act (21 U.S.C. 348) which also establishes a public monograph system of premarket approval.

Under the antibiotic monograph procedure, the pioneer manufacturer generates and submits the basic safety and effectiveness data in a form FD-1675 (formerly FD Form 5). A regulation is subsequently published setting forth the standards of identity, strength, quality, and purity and the requirements for packaging and labeling which the product must meet. The Commissioner of Food and Drugs' approval of the same product made by another manufacturer is then conditioned solely upon a demonstration that it meets the requirements of the regulation, and this is normally accomplished by batch certification. Section 507(c) of the act, however, permits the Commissioner to exempt by regulation any drug or class of drugs from the certification requirement when he concludes that certification is unnecessary for the manufacture of the drugs. Antibiotics for use in animal feeds as feed ingredients were exempted from the certification requirement in 1951 by publication in the FEDERAL REGISTER of April 28, 1951 (16 FR 3647), and those for use as drugs were exempted in 1953 by publication in the FEDERAL REGISTER of April 22, 1953 (18 FR 2335). These are now set out in §§ 510.510 and 510.515 (21 CFR 510.510 and 510.515).

The Animal Drug Amendments (Pub. L. 90-399) consolidated the provisions of the act then dealing with the premarket approval of drugs intended for use in animals (sections 409, 505, and 507) into new section 512 (21 U.S.C. 360b), to more efficiently and effectively regulate these articles (Senate Committee on Labor and

Public Welfare, Animal Drug Amendments of 1968, S. Rep. No. 1308, 90th Cong., 2d Sess. (1968)). One side effect of this legislation brought the manufacture of antibiotics under the same private licensing system applicable to new drugs (id; Hearing on S. 1600 and H.R. 3639 Before the Subcommittee on Health of the Senate Committee on Labor and Public Welfare, 90th Cong., 2d Sess. (1968)). To efficiently accomplish this change, Pub. L. 90-399 contained a transition clause (section 108(b)) which provided that all prior approvals for the use of drugs in animals and animal feeds would continue in effect and be subject to change in accordance with the provisions of the basic act as amended. In summary, all persons legally marketing antibiotics under the provisions of sections 409, 505, and 507 of the act on August 1, 1969, the effective date of the Animal Drug Amendments of 1968, were awarded the equivalent of an approved new animal drug application (NADA); but all holders of such approvals were also subjected to all the requirements imposed by the act and regulations on such persons.

## B. SAFETY CONCERNS

The Food and Drug Administration (FDA) first became concerned about the potential for harm to man and animals associated with subtherapeutic antibiotic use in animal feed in the mid-1960's, and it began to study the effects of low-level subtherapeutic feeding of antibiotics extensively. The agency supported research, held symposia, and consulted with outside experts to review these nonmedical uses of antibiotics in animal feeds. Following a report issued by the British Government Joint Committee (the Swann Committee), "On the Use of Antibiotics in Animal Husbandry and Veterinary Medicine," the Commissioner established a Task Force of scientists, with consultants from government, universities, and industry, to review comprehensively the use of antibiotic drugs in animal feeds in April 1970.

The Task Force's conclusions were published in a February 1, 1972 (37 FR 2444) notice of proposed rulemaking which initiated the mandatory testing procedure outlined in § 558.15 (21 CFR 558.15) to resolve conclusively the issues of safety surrounding the subtherapeutic use of antibiotics in animal feeds. The Task Force's principal conclusions were the following:

(1) The use of antibiotics and sulfonamide drugs, especially in growth promotant and subtherapeutic amounts, favors the selection and development of single and multiple antibiotic resistant and R-plasmid-bearing bacteria.

(2) Animals which have received either subtherapeutic and/or therapeutic amounts of antibiotic and sulfonamide drugs in feeds may serve as a

reservoir of antibiotic resistant pathogens and nonpathogens. These reservoirs of pathogens can produce human infections.

(3) The prevalence of multiresistant R-plasmid-bearing pathogenic and nonpathogenic bacteria in animals has increased and has been related to the use of antibiotics and sulfonamide drugs.

(4) Organisms resistant to antibacterial agents have been found on meat and meat products.

(5) There has been an increase in the prevalence of antibiotic and sulfonamide resistant bacteria in man.

(6) The Task Force also identified three areas of primary concern: human health hazards, animal health hazards, and antibiotic effectiveness; and it established guidelines to measure whether use of any antibiotic or antibacterial agent in animal feed presents a hazard to human and animal health.

Principally, the February 1972 proposal announced that all currently approved subtherapeutic uses of antibiotics, nitrofurans, and sulfonamides in animal feeds would be revoked unless data were submitted to resolve conclusively the issues concerning safety to man and animals in accordance with the Task Force guidelines. The notice also proposed to establish a time table for filing commitments, conducting studies, and submitting relevant data and information. Briefly, the guidelines may be summarized as follows:

## HUMAN AND ANIMAL HEALTH SAFETY CRITERIA

1. Transfer of drug resistance: (a) An antibacterial drug fed at subtherapeutic levels to animals must be shown not to promote increased resistance to antibacterials used in human medicine. Specifically, increased multiple resistance capable of being transferred to other bacteria in animals or man should not occur. (b) If increased transferable multiple resistance is found in coliforms, studies may be done to show whether this resistance is transferable to man.

2. The *Salmonella* reservoir: The use of an antibacterial drug at subtherapeutic levels in animal feed must be shown not to result in (a) an increase in quantity, prevalence or duration of shedding of *Salmonella* in medicated animals as compared to nonmedicated controls; (b) an increase in the number of antibiotic resistant *Salmonella* or in the spectrum of antibiotic resistance; (c) disease (caused by *Salmonella* or other organisms) that is more difficult to treat with either the same medication or other drugs.

3. The use of subtherapeutic levels of an antibacterial drug should not enhance the pathogenicity of bacteria, e.g., by increasing enterotoxin production. The association of toxin-produced characteristics with transfer factors must be investigated in well-designed studies. (Final resolution of this question was not expected within the 2-year period. Drug sponsors were expected to show evidence of work underway which would lead toward answers to this question.)

4. An antibacterial drug used at subtherapeutic levels in the feed of animals shall not result in residues in food ingested by man

which may cause either increased numbers of pathogenic bacteria or an increase in the resistance of pathogens to antibacterial agents used in human medicine. Hypersensitivity to residues was to be addressed by a literature survey.

The February 1972 proposal further addressed the issue of future antibiotic use in animal feed if the Commissioner were ultimately to conclude, after evaluating the data to be submitted, that the subtherapeutic use of antibiotics in animal feeds should be curtailed. The Commissioner proposed to restrict any remaining uses of antibiotics in animal feeds to short-term therapeutic use on the order of a licensed veterinarian.

Some 380 responses were received on the proposal, and the Commissioner promulgated the final order on April 20, 1973 (38 FR 9811.) One issue specifically discussed in the preamble to the final regulations was the practicality of the veterinarian's order option. The agency's Task Force on the Use of Antibiotics in Animal Feeds initially suggested this restriction, and the Commissioner agreed with it. He concluded that adopting this restriction would insure the continued availability of useful products while at the same time limiting the improper use of products that have exhibited a safety hazard.

With the promulgation of the final order, the requirements imposed became legally binding on all firms marketing antibacterial drugs for subtherapeutic use in feed. Therefore, in the FEDERAL REGISTER of August 6, 1974 (39 FR 28393), the Commissioner proposed to withdraw all approvals held by persons who had not complied with the initial requirement of filing commitments to conduct the necessary studies, and all such approvals were withdrawn by his order issued on February 25, 1976 (41 FR 8282). Thus, only those products now listed in Part 558 (21 CFR Part 558) can be legally marketed at this time.

By April 20, 1974, the date established for the first submissions of data under § 558.15, the Bureau of Veterinary Medicine had begun a review of the data submitted for penicillin and tetracycline (chlortetracycline and oxytetracycline), which are the most significant antibiotics used both subtherapeutically in animal feeds and in human medicine, and by April 20, 1975, data concerning the safety and efficacy criteria for all antibiotic and sulfonamide drugs had been received. At the Bureau's request, the Commissioner asked FDA's National Advisory Food and Drug Committee (NAFDC) to review the data and the issues involved and to make recommendations on the future uses of subtherapeutic antibiotics in animal feeds.

The NAFDC appointed a subcommittee of three members, the Antibiot-

ics in Animal Feeds Subcommittee (AAFS), to work in conjunction with four expert consultants from disciplines related to the issue. The Bureau of Veterinary Medicine prepared detailed analyses of the evidence concerning penicillin and the tetracyclines which were presented to the AAFS during 5 days of open meetings. Comments were also heard at these meetings from the drug industry, animal scientists, and other interested parties. The Bureau prepared a comprehensive summary report for the subcommittee with tentative recommendations. Two additional meetings were held during which the subcommittee deliberated and proponents and opponents of subtherapeutic antibiotic use gave statements. In September 1976, the AAFS presented its preliminary report of the parent committee (Ref. 1). The subcommittee made general recommendations on the future uses of antibiotics in animal feed and specific recommendations on the future use of penicillin and the tetracyclines.

For penicillin, the subcommittee recommended that FDA discontinue its use in all species for growth promotion and feed efficiency. It further recommended that use of penicillin be discontinued in all species for disease prevention where effective substitutes are available.

The recommendations of the AAFS concerning continued tetracycline use were less stringent. It recommended that FDA discontinue tetracycline use for growth promotion, feed efficiency, and disease prevention in all species where effective substitutes are available. The subcommittee also recommended that the remaining subtherapeutic tetracycline uses be limited to those periods of time when a particular animal species is threatened with a specific animal disease.

The subcommittee's general recommendations were far ranging. Recognizing that a potential for harm is inherent in widespread use of antibiotics in animal feeds, it recommended that FDA establish regulatory measures to assure that antibacterial drugs are used judiciously in animal feeds by limiting sale of tetracycline- and penicillin-containing products to feed mills and producers who hold an approved medicated feed application. The subcommittee recognized that this action would remove these products from direct dispensing by veterinarians who do not own registered feed mills, and accordingly the subcommittee suggested that the order of a licensed veterinarian be incorporated into the distribution system. It further recommended careful monitoring procedures to assure compliance with the proposed use restrictions. The remaining recommendations concerned future monitoring, research, and goals.

At its January 24, 1977 meeting, the NAFDC agreed that a potential for harm exists with subtherapeutic antibiotic use in animal feed and accepted both the subcommittee's recommendation on penicillin use and the basic context of the general recommendations. But, for tetracyclines, the committee concluded that only distribution be restricted in conjunction with the conditions imposed by the general recommendations (Ref. 2). The Commissioner agreed with the NAFDC's recommendations on penicillin. However, he concluded that more stringent action against the use of tetracycline was necessary, and at the April 15, 1977 NAFDC meeting he announced that FDA would propose to discontinue all nonessential tetracycline uses in animal feed.

The Commissioner also recognized the importance of the NAFDC's general recommendations to restrict the distribution and unsupervised use of these antibiotics in animal feeds. For this reason, he announced that FDA would propose to add the requirements for an approved medicated feed application (Form FD-1800) and the veterinarian's order (1) to insure, to the extent possible, that the drugs will be placed in the hands of individuals with training and background who are qualified to administer the drug products, (2) to assist the use of the most effective level of antibiotic for the shortest time necessary to achieve the desired results, and (3) to insure that a valuable management tool, i.e., the tetracyclines, continues to be available when necessary (Ref. 3).

Since that time, FDA has initiated a series of administrative actions that ultimately propose to eliminate all uses of penicillin- and tetracycline-containing medicated animal feeds that have not been shown to be safe and effective, or for which there are safe and effective alternatives. This will assure that any potential for harm associated with the use of these products will be minimized if not eliminated.

In the FEDERAL REGISTER of May 27, 1977 (42 FR 27264), the Commissioner issued a call for data on the potential environmental impact of FDA's proposed actions. He further announced that the Bureau of Veterinary Medicine would propose (1) to terminate all subtherapeutic uses of penicillin in animal feed, (2) to restrict the use of tetracyclines to situations where there are no viable alternatives, (3) to impose restrictions on the distribution and the uses of penicillin and tetracycline in animal feed, and (4) to expedite the drug efficacy study implementation notices proposing to withdraw approval of all penicillin and tetracycline combination products that lack substantial evidence of effectiveness.

The Director of the Bureau of Veterinary Medicine, in the FEDERAL REG-

ISTER of June 10, 1977 (42 FR 2999), then issued a notice of opportunity for hearing proposing to withdraw approval of the NADA's for all penicillin-streptomycin premixes intended for use in animal feed on the ground that new information now before him indicates that they lack substantial evidence of the effectiveness that is required for their indications for use.

Next, in the FEDERAL REGISTER of August 30, 1977 (42 FR 43772), the Director issued a notice of opportunity for hearing proposing to withdraw approval of all NADA's for penicillin-containing new animal drugs intended for use in animal feed principally because the evidence surrounding this use demonstrates that they have not been shown to be safe. He issued a similar notice of opportunity for hearing concerning certain subtherapeutic uses of tetracycline in animal feed on October 21, 1977 (42 FR 56264).

## II. FUNCTION OF THIS NOTICE

The function of this notice is to provide a forum for public debate on the need to revise FDA's prior policy on the control and distribution of penicillin and tetracycline in animal feed. These products are now available without the need for a veterinarian's order, and no approved application is required to manufacture a medicated feed containing them. The Commissioner is proposing to impose regulatory procedures that will eliminate the routine and unnecessary use of antibiotics in animal feeds. The FDA Task Force on the Use of Antibiotics in Animal Feeds, the AAFS, and the NAFDC have all recommended this course of action independently from recommendations about the safety of these drugs, and the Commissioner agrees that dealing with the distribution and control issue separately is the appropriate way to proceed. As the discussion in Part III of this preamble outlines, the evidence before FDA demonstrates that a potential for harm to animals and man exists from the development of R-plasmid-mediated resistance to antibacterial agents which may be aggravated by uncontrolled subtherapeutic use of these antibiotics in animal feed. An effort must be made to assure the future utility of these life-saving products because use of the antibiotics is extensive for both humans and animals.

In 1960, the annual production of antibiotics in the United States was 4.16 million pounds, of which 2.95 million pounds were used for therapeutic purposes in human and veterinary medicine and 1.20 million pounds were added to animal feed. By 1970, 9.6 million pounds were used in human and veterinary medical pharmaceuticals, and the animal feed additive use was 7.3 million pounds. Moreover, according to "Synthetic Organic Chemicals,

United States Production and Sales (1971-1975)," U.S. International Trade Commission Publication 804, the 5-year average production of antibiotics between 1971 and 1975 was 11.16 million pounds for medicinal uses and 7.68 million pounds for nonmedicinal uses, including feed additive uses. Over those 5 years, the aggregate average of the total production for those nonmedicinal uses was 40.8 percent—but 48.6 percent in 1975. Thus the use of antibiotics in animal feeds is a considerable element in the overall use of antibiotics in this country and consequently must be considered a significant contributor to the problem of R-plasmid antibiotic resistance. Penicillin and the tetracyclines are important among the antibiotics used in animal feeds.

Several methods of restricting the use of penicillin and tetracycline in animal feed, and thereby reducing the potential for harm associated with subtherapeutic antibiotic use, are available to the Commissioner. The most drastic method is to terminate their use completely in animal feed whether intended for therapeutic or subtherapeutic use, and this could perhaps be accomplished under the imminent hazard provision of section 512(e)(1) of the act. Another approach is to withdraw approval of all therapeutic and subtherapeutic uses that have not been shown to be safe or effective or that have available substitutes, and in the Commissioner's opinion, this is the most appropriate course of action at the present time. Accordingly, FDA has embarked on the latter course.

But a third supplementary method of controlling the use of these drugs is also available. The Commissioner can minimize the potential for harm associated with the widespread use of penicillin and tetracycline in animal feed by limiting their distribution through his authority to promulgate regulations under section 701(a) of the act (21 U.S.C. 371(a)) in conjunction with his substantive authority under sections 502(f), 512 (a), (b), (d), (l), and (m) (21 U.S.C. 352(f), 360b (a), (b), (d), (l), and (m)), to the order of a licensed veterinarian from feed mills holding approved medicated feed applications permitting the manufacture of such feed. The issues involved are generic, legally severable, and essentially policy; and such action also accomplishes the three functions that are identified in the Commissioner's April statement to the NAFDC. Moreover, that action is consistent with his earlier discussions in this area (see § 58.15(f)(1) (21 CFR 558.15(f)(1))) and all the recommendations from the independent groups advising the agency of this matter. For these reasons, the Commissioner is proposing such restrictions on the distribution of animal

feeds containing penicillin and tetracycline for comment although he is not foreclosing a reevaluation of the alternatives.

## III. SCIENTIFIC BASIS FOR THE REGULATIONS

Soon after his discovery of penicillin, Sir Arthur Fleming noted that some bacterial organisms could become resistant to the antibiotic. As the use of antibiotics has increased, the numbers and types of bacterial resistance have also multiplied. There is a serious concern in the scientific and medical communities that extensive, unnecessary exposure to antibiotics will lead to their declining usefulness in the treatment of both human and animal diseases. Currently, FDA is primarily concerned with that portion of increased antibiotic resistance in the ecological system which may result from the practice of feeding subtherapeutic levels of penicillin and tetracycline in animal feed for prolonged periods because this practice provides an ideal environment for selective pressure to operate. When exposed to an antibiotic, the organisms that are drug resistant survive while the growth of other (drug-sensitive) bacteria is inhibited. Eventually, the antibiotic resistant organisms predominate in the bacterial population, and continuous pressure perpetuates this abnormal situation.

Bacterial antibiotic resistance is primarily determined by genetic elements termed "R-plasmids" (R-factors, R+). The Commissioner's specific concern, therefore, is with the health hazard that may arise through an increase in the pool of R-plasmids in the animal population and the potential transfer of R-plasmid-bearing organisms from the animal to the human population and surrounding environment. R-plasmids are small lengths of DNA that are separate from the bacterial chromosome. These R-plasmids carry transferable drug resistance genes as well as the capacity to reproduce themselves. Plasmids may determine resistance to more than one antibiotic, and resistance to several antibiotics is common. Moreover, plasmids can transfer from one bacteria to another and from nonpathogenic to pathogenic strains. Transfer occurs, although with varying frequency, between all members of the enteric bacteria and also the members of other families of bacteria. The pool of normal Gram-negative bacterial intestinal flora (largely *Escherichia coli*) serves as a reservoir of R-plasmids, and the R-plasmid-bearing bacteria interchange among animals, man, and the environment. The potential for harm increases as the R-plasmid reservoir increases because the probability of R-plasmid transfer to pathogens increases. When the Commissioner re-

quired all holders of approved NADA's for the subtherapeutic use of antibiotics (penicillin, tetracycline, etc.) in animal feed to submit data to resolve the safety questions raised, he was principally concerned with the effect of the antibiotics approved for subtherapeutic use in animal feed on the emergence of transferable drug resistance in *Salmonella* and the *E. coli* reservoir of animals.

Evidence demonstrates that the use of subtherapeutic levels of penicillin and tetracycline in animal feed contributes to the increase in antibiotic resistant *E. coli* and in the subsequent transfer of this resistance to *Salmonella*. Further, many strains of *E. coli* and *Salmonella* infect both man and animals.

There is extensive evidence showing that the use of subtherapeutic antibiotics contributes to the development of the pool of R-plasmid-bearing organisms, particularly in *E. coli* (Refs. 4 through 71). These *E. coli* contribute their R-plasmids to man through several mechanisms: through man's direct contact with animals, through man's contact with *E. coli*-contaminated food, and through the widespread presence of plasmid-bearing *E. coli* in the environment (Refs. 8 through 38). Various strains of bacteria inhabit and infect man and animals. The strains of bacteria that infect man and animals are not mutually exclusive; they overlap. In particular, the R-plasmid-bearing strains that colonize man and animals overlap. This has been shown by epidemiological investigations (Refs. 39 through 46) and direct ingestion evidence (Refs. 47 through 51). In vivo studies also show that the R-plasmids transfer from *E. coli* to pathogens, e.g., *Salmonella*, and that this actually occurs in humans (Refs. 52 through 68). Of critical importance also is the fact that plasmid transfer occurs among nongut bacteria (Refs. 151-154).

An agency study measuring the ability of R-plasmids to exist on the same bacterium suggests that human and animal bacterial populations overlap (Ref. 61). Moreover, studies using DNA-DNA hybridization techniques and restriction endonuclease activity confirm that the R-plasmids isolated from enteric organisms in man and animals are indistinguishable (Refs. 62 through 64). Studies also indicate that R-plasmid-bearing *E. coli* donate antibiotic resistance plasmids to *Salmonella*. Patterns of drug resistance seen in *E. coli* and *Salmonella* isolates from man and animals are similar and develop in a like manner. *E. coli* first develops R-plasmid-mediated antibiotic resistance, and then the *Salmonella* develop a similar and frequently identical pattern of resistance. Studies also show that the number of R-plasmid-bearing strains of pathogenic *Salmo-*

*nella* are increasing. More importantly the number of multiply resistant strains is increasing (Refs. 65 through 124).

According to the analysis of the Director of the Bureau of Veterinary Medicine, the evidence submitted pursuant to § 558.15 has failed to resolve the issues conclusively, and the potential for harm associated with the continued extensive use of subtherapeutic antibiotics in animal feeds continues to increase. Furthermore, evidence undermining the arguments that the unrestricted use of these products is safe continues to grow. For example, recent studies show that toxin production is plasmid mediated and may be transferred in conjunction with antibiotic resistance (Refs. 125 through 148). All these points are set forth in considerably more detail in the Director's notices. Accordingly, the Commissioner concludes that transmissible drug resistance is a complex phenomenon with a potential for harmful effect that is not easily understood. Therefore, he finds that these drugs are not safe for use except under the order of a licensed veterinarian, to assure that the appropriate drugs are used for the shortest term possible or other measures are employed when for example, patent disease exists in the animals.

## IV. IMPACT ON THE MEDICATED FEED INDUSTRY

The Director outlined his prima facie case in both the penicillin and tetracycline notices, and if unrebutted the Commissioner will issue an administrative summary judgment withdrawing approval of the NADA's for the affected drugs. If requests for hearing are filed that demonstrate that genuine and substantial issues of fact exist which require a formal evidentiary hearing for resolution, such a hearing will be granted to resolve those issues. But if a hearing is necessary, final resolution of the issues may take several years. Based on the evidence now before the Commissioner, he believes it appropriate at this point at least to propose to restrict the distribution and use of penicillin and tetracycline in animal feed. In his opinion, the evidence supports such action as a matter of policy, even if NADA holders demonstrate that approvals for the use of the drugs in animal feeds should not be withdrawn.

Issuing the proposal at this time accomplishes two objectives. First, although the Commissioner has previously considered the restrictive distribution alternative, this alternative has always been a minor element of the other proposals, and the Commissioner has never received focused comment on its feasibility and merit. Some contend that veterinarians lack the training, expertise, or willingness to deal with the potential for harm asso-

ciated with unbridled use of subtherapeutic antibiotics or pressures that may be applied to retain wide access to these drugs (Refs. 149, 150).

Second, the Commissioner also would like comment on the potential impact that additional recordkeeping requirements will have on feed mills.

Finally, FDA has already issued FEDERAL REGISTER notices proposing to withdraw approval of the NADA's covering the subtherapeutic use of penicillin and tetracycline in animal feeds; therefore, the Commissioner has at least two options for selecting the effective date of regulations promulgated pursuant to this informal rulemaking procedure. The Commissioner can wait until the adjudications are concluded to issue a final order, or he can issue a final order before the adjudications are completed because this is a severable policy matter. If he should opt for the latter effective date, all approved uses of penicillin and tetracycline in animal feed then would be subject to the distribution restrictions in this regulation, and if any NADA's are ultimately withdrawn, corrections for the claims would be made with the final order in the adjudication proceedings. This approach will provide a stimulus for the expeditious conduct of any hearing that may be justified, and it will further reduce the imminence of any hazard that may exist. Accordingly, the Commissioner requests comments on the most appropriate effective date for this proposal.

#### V. LEGAL BASIS FOR THIS ACTION

As noted above, the Commissioner's authority to impose controls on the distribution of new animal drugs derives from several substantive sections of the act, sections 502(f)(1); 512 (a), (b), (d), (l), and (m), in conjunction with his rulemaking authority under section 701(a). In the aggregate they permit the Commissioner to restrict the distribution of new animal drugs and to require affected parties to keep certain records and reports on both drugs and medicated animal feeds that will permit the Commissioner to determine whether the continued use of the drugs under those circumstances is safe, effective, or otherwise appropriate.

#### A. STATUTORY AUTHORITY UNDER SECTION 502(f)(1)

Historically, FDA has restricted use of certain drugs in man and animals to the order of a practitioner under section 502(f)(1) of the act, which requires drug labeling to bear adequate directions for use, and an implementing exempting regulation. Under this approach, the labeling of certain drugs intended for human use was required to contain the statement: "Caution—To be used only by or on the prescription of a physician." Because of the

dangers of incident to the use of certain drugs, only this warning could constitute adequate directions for use, and the Supreme Court has recognized this mechanism for restricting the use of drugs (*United States v. Sullivan*, 332 U.S. 689, 691, n.2 (1949)).

Subsequently, in a case decided before enactment of the Durham-Humphrey Amendment of 1951, the Ninth Circuit directly affirmed FDA's statutory authority to restrict the sale of a drug to the order of a licensed practitioner under section 502(f)(1) of the act and the companion implementing regulations:

A liberal construction of the Act, having in mind its background and purposes, requires us to sustain the action of the Administrator on the ground that he was empowered under the statute to exempt the regulation the drugs in question from the requirement that the label bear adequate directions for use, conditioned upon its bearing an inscription that it be used only on the prescription of a physician. Under such construction, the regulation is not contrary to law, arbitrary, or unreasonable. (*United States v. El-O-Pathic Pharmacy*, 192 F. 2d 62, 75 (9th Cir. 1951).)

Although Congress enacted specific legislation that in part covers FDA authority to restrict the distribution of human drugs to a physician (Durham-Humphrey Amendment of 1951; 65 Stat. 648-649 (1951)), the legislative history of that amendment makes clear that Congress intended for FDA to retain this authority to restrict certain drugs to use according to a veterinarian's order under section 502(f)(1) of the act.

In limiting prescription drugs to those intended for use by man this new subsection differs from the present law, which refers to prescription drugs to include not only those dispensed on prescription of physicians and dentists, but also those dispensed on prescription of a veterinarian. Under the committee bill, drugs intended for use under the supervision of a veterinarian will not require a prescription, although it will be possible under section 502(f) to exempt such drugs from adequate direction for use if they are to be used by or under the supervision of a veterinarian. In the absence of any exempting regulation, these drugs will be subject to the labeling and dispensing requirements of the act applicable to over-the-counter drugs. (S. Rep. No. 946, 82d Cong., 1st Sess., p. 8 (1951).)

The Commissioner promulgated such an exempting regulation for veterinary drugs under §201.105 (21 CFR 201.105), and the regulation lays out the factors to be considered in assessing whether an animal drug should be restricted to a veterinarian's order. The factors are toxicity, potentiality for harmful effect, and the safety of the method of the drug's use. Thus, both the legislative history and case law demonstrate the Commissioner's authority to restrict the use of certain animal drugs to the order of a licensed veterinarian under the authority of

section 502(f)(1) of the act, and the evidence surrounding the unrestricted use of penicillin and tetracycline in animal feed illustrates a potential for harm.

#### B. STATUTORY AUTHORITY UNDER SECTION 512 OF THE ACT

1. *Overview.* When Congress enacted the Animal Drug Amendments of 1968 and consolidated into section 512 the various provisions of the Federal Food, Drug, and Cosmetic Act governing the premarket approval of articles intended for use in animals and animal feeds, one primary force supporting the amendments was the medicated animal feed industry. (See, e.g., hearings on S. 1600 and H.R. 3639 before the Subcommittee on Health of the Senate Committee on Labor and Public Welfare, 90th Cong., 2d Sess. (1968).) Before passage of the amendments, articles intended for use in both food-producing and companion animals and in animal feed were subject to premarket review and clearance under sections 409, 505, and 507 of the act, and the consolidation incorporated the standards in those individual sections into section 512 (S. Rep. No. 1308, 90th Cong., 2d Sess. 1 (1968)).

Because new animal drugs are used extensively in food-producing animals, Congress imposed the same rigid legal standard on the intended uses of these articles that it applied to food additives. Therefore, when a new animal drug is intended for a use for which there is no approved NADA or the labeling of the new animal drug fails to conform to that in the approved NADA, the new animal drug is deemed unsafe as a matter of law (section 512(a)(1) of the act). The new animal drug is thereby adulterated per se under section 501(a)(5) of the act (21 U.S.C. 351(a)(5)), and food containing the new animal drug or conversion product thereof is also adulterated as a matter of law under section 402(a)(2)(D) of the act (21 U.S.C. 342(a)(2)(D)). Similarly, animal feed containing a new animal drug is unsafe as a matter of law under section 512(a)(2) unless the following conditions are satisfied: (a) There is an approved NADA for that specific use of the drug in animal feed; (b) there is an approved medicated feed application (FD Form 1800) under section 512(m)(1) for that use; and (c) the animal feed, its labeling, and use conform with a regulation issued under section 512(l). A medicated animal feed which does not conform with these requirements is adulterated under section 501(a)(6) of the act.

2. *Sections 512 (b) and (d).* The statutory criteria that FDA must use to evaluate the safety and effectiveness of new animal drugs are set forth in sections 512 (b) and (d) of the act and the corresponding amplifying regula-

tions under Parts 500 and 514 (21 CFR Parts 500 and 514). Unlike section 505 of the act, which covers new human drugs, section 512(d)(2) enumerates several specific factors that are to be considered by the agency in determining whether a new animal drug will be safe under its proposed conditions of use. The factors, which were taken directly from considerations associated with the safety of human food additives under section 409(c)(5) of the act, are the following:

(A) The probable consumption of such drug and of any substance formed in or on food because of the use of such drug,

(B) The cumulative effect on man or animal of such drug, taking into account any chemically or pharmacologically related substance,

(C) Safety factors which in the opinion of experts, qualified by scientific training and experience to evaluate the safety of such drugs, are appropriate for the use of animal experimentation data, and

(D) Whether the conditions of use prescribed recommended, or suggested in the proposed labeling are reasonably certain to be followed in practice.

Thus, these provisions clearly envision the exercise of FDA's authority to impose restrictions on the distribution and use of new animal drugs, particularly when the drug is intended for use in food-producing animals.

3. *Section 512(i).* Section 512(i) of the act requires FDA to publish a notice of approval for every NADA, which becomes effective as a regulation upon publication in the FEDERAL REGISTER. The function of the new animal drug regulations under this provision is analogous to the function of food additive regulations issued under section 409 of the act (hearings on S. 1600 and H.R. 3639 supra at 80; S. Rep. No. 1308 supra at 5). They are to provide public notice, particularly to manufacturers of medicated animal feeds, of the conditions and restrictions of use that are imposed on the new animal drugs. But the new animal drug regulations provide more than general notice. Section 512(i) identifies several factors that are to be addressed in the regulations in order to assure that a new animal drug will be properly used in the field. Among these factors are the specific conditions of use under which the drug has been shown to be safe and effective, any other use restriction imposed, and such other information as the agency deems necessary to assure the safe and effective use of the new animal drug. Therefore, Congress provided FDA with another statutory provision by which it can restrict the distribution of a new animal drug.

4. *Section 512(m).* Subsection (m) of section 512 of the act presents a microcosm of the entire section. Basically, this provision was added to simplify the procedural and substantive requirements of the act as they pertain

to medicated feed mills. It establishes a private licensing section for feed mills to manufacture medicated animal feeds which is substantially similar to the NADA review and approval procedures. As a condition of having the license (in this case a medicated feed application) approved, the feed mill must identify a new animal drug regulation providing for the manufacture and use of the new animal drug under the conditions or indications of use for which the mill proposes to manufacture the medicated feed.

Section 512(m)(1) of the act outlines the basic information that a feed mill must submit to FDA to obtain an approved medicated feed application for a specific medicated animal feed, and section 512(m)(3) lists the bases on which the agency can refuse to approve the application. The agency shall refuse to approve an application when it finds among other facts:

(A) That there is not in effect a regulation under subsection (l) (identified in such application) on the basis of which such application may be approved;

(B) That such animal feed (including the proposed use of any new animal drug therein or thereon) does not conform to an applicable regulation published pursuant to subsection (l) referred to in the application, or that the purposes and conditions or indications of use prescribed, recommended, or suggested in the labeling of such feed do not conform to the applicable purposes and conditions or indications of use (including warnings) published pursuant to subsection (l) or such labeling omits or fails to conform to other applicable information published pursuant to subsection (l).

Section 512(m) of the act also contains a provision for recordkeeping requirements on the feed mills, and this provision is identical to that applicable to the manufacturers of new animal drugs (sections 512(d)(2)(A); 512(1)). In addition to the normal records required by good manufacturing practice, etc., the manufacturers of medicated animal feeds must keep all records and make all such reports that the Commissioner imposes on them by general regulation when those records and reports are necessary to determine or facilitate a determination of whether the medicated animal feed may be safely, effectively, or otherwise appropriately used. And these records and reports must be available to FDA for inspection.

#### C. STATUTORY AUTHORITY UNDER SECTION 701(A) OF THE ACT

The agency's authority to promulgate substantive regulations under section 701(a) defining and explaining the operative provisions of the act and applying those provisions to particular classes of products has been consistently, if not uniformly, upheld by the courts, e.g., *National Nutritional Foods Association v. Weinberger*, 512

F. 2d 688 (2d Cir. 1974). (See also *In re Permain Basin Rate Cases*, 390 U.S. 766 (1968); *Federal Power Commission v. Texaco, Inc.* 377 U.S. 33 (1964); *Air Lines Pilots Association, International v. Quesada*, 276 F. 2d 892 (2d Cir. 1960).) Moreover, FDA's authority to determine whether a new animal drug has been shown to be safe and effective under the restrictive distribution system of a veterinarian's order is well established (*Diamond Laboratories, Inc. v. Richardson*, 452 F. 2d 803 (8th Cir. 1972)), as has its authority to restrict the use of a new animal drug to only those conditions of use that have been shown to be safe and effective (*Agri-Tech, Inc. v. Richardson*, 482 F. 2d 1148 (8th Cir. 1973)).

#### D. CONCLUSION

The agency regularly imposes distribution requirements on new animal drugs pursuant to Parts 520 through 555 (21 CFR Parts 520 through 555). Given the evidence on the unrestricted use of penicillin and tetracycline in animal feed, the Commissioner believes there is ample statutory authority for him to promulgate regulations restricting all uses of penicillin and tetracycline in animal feed to the order of a veterinarian, which order must be retained by the holder of an approved medicated feed application permitting manufacture of the feed or by other persons subsequently dispensing restricted feed obtained from the holder of the application.

#### VI. SUMMARY OF THE PROPOSAL

To implement this action, the Commissioner is proposing to amend the regulations to establish a new medicated animal feed category called restricted medicated animal feeds, which will require an approved medicated feed application for manufacture and for distribution on the order of a licensed veterinarian. This category will include, with two minor exceptions, all feeds containing penicillin, chlortetracycline, and oxytetracycline. Accordingly, he is proposing to revoke all existing waivers from the requirements of section 512(m) of the act for the manufacture of such animal feeds, and the manufacture of these animal feeds will then require an approved medicated feed application. Because veterinarians may require a form of the drug for immediate dispensing (i.e., either directly by a veterinarian or by a feed mill on the order of a licensed veterinarian) in their practices to deal with exigencies, the Commissioner is proposing an exemption from the requirements of section 512(m) for the manufacture of restricted animal feeds from a restricted article containing 2 grams per pound of the antibiotics penicillin, chlortetracycline, or oxytetracycline as the sole drug in medicated feed in 50-pound packages. He selected this

size for its convenience for dispensing and for use by livestock producers.

Proposed § 558.7(a) (21 CFR 558.7(a)) defines animal feeds containing penicillin or chlortetracycline (except feeds for laboratory mice and psittacine birds) or oxytetracycline as restricted medicated animal feeds. The Commissioner has excluded the uses of chlortetracycline in feeds for laboratory mice and psittacine birds from the restricted category because of the limited and special nature of those uses.

Proposed § 558.7(b)(1) establishes the basic requirement for the manufacturers of restricted medicated animal feeds. Under this provision, all feed mills will require an approved medicated feed application for each restricted medicated animal feed they produce. This section also contains the exemption for the manufacture of a restricted medicated animal feed under the order of a licensed veterinarian. The exemption applies only when such feed is prepared from a concentrated restricted medicated animal feed which contains 2 grams per pound of penicillin, chlortetracycline, or oxytetracycline as the sole drug in medicated feed in 50-pound packages. This permits the veterinarian to deal with urgent situations by dispensing a concentrated medicated feed directly to the livestock producer, who will be able to mix a complete feed without having an approved medicated feed application. The Commissioner will permit manufacturers 60 days from the date of publication of a final order based upon this approval to submit a medicated feed application.

Proposed § 558.7(b)(2) requires the manufacturers of intermediate premixes (proposed Type B medicated feed articles) containing penicillin, chlortetracycline, or oxytetracycline to have approved medicated feed applications for the manufacture of these products. Currently manufacturers of these intermediate premixes are exempt, under § 558.15(g) (21 CFR 558.15(g)), from having an approved NADA if the intermediate premix contains no drug ingredient whose use in or on an animal feed requires an approved medicated feed application. Since the Commissioner is proposing to revoke this exemption for the manufacture of medicated feeds containing penicillin, chlortetracycline, or oxytetracycline, codifying this requirement will simplify regulation of this area.

Ostensibly, revocation of the exemption would also require manufacturers of intermediate premixes to have approved new animal drug applications for their products. However, the Commissioner intends to issue a proposal in the near future to regulate the intermediate premixes as Type B medicated feed articles under sections

201(x) and 512(m) of the act (21 U.S.C. 321(x) and 360b(m)), for administrative and regulatory efficiency. For these reasons, the Commissioner is now proposing to regulate intermediate premixes for the restricted medicated animal feeds also under section 512(m) of the act for consistency. This will permit an orderly transition to more extensive regulation via medicated feed applications. The Commissioner will permit manufacturers of the restricted feeds 60 days from the date of publication of the final order in this procedure to submit a medicated feed application for these medicated feed articles. If these provisions are placed into effect prior to completion of the adjudication concerning penicillin and tetracycline premixes, manufacturers of intermediate premixes (or Type B medicated feed articles) may identify the appropriate provision of § 558.15 as the basis for approving their medicated feed application for those uses which have been permitted interim marketing and for which a regulation under section 512(i) of the act has not been published.

Proposed § 558.7(c)(1) requires restricted medicated animal feeds to be dispensed only if accompanied by and in accordance with the order of a licensed veterinarian. Although restricted medicated animal feeds containing 2 grams of penicillin, chlortetracycline, or oxytetracycline as the sole drug in 50-pound packages may be sold to licensed veterinarians for dispensing purposes in their practices, the feed mills must retain records for these transactions also.

Proposed § 558.7(c)(2) describes the recordkeeping requirements. The veterinarian's order must be either a signed written order or an oral order given directly to the party who is to dispense the restricted medicated animal feed and such order must be promptly reduced to writing. The order shall include the following information:

1. Veterinarian's name, address, and telephone number;
2. Client's name and address;
3. Type of feed (e.g., starter, grower, finishing ration), including the quantitative level of the drug(s) involved (e.g. grams per ton);
4. Species to be treated, and indications for use;
5. Total amount of feed to be mixed and number of refills permitted. The amount of feed prescribed shall not exceed the amount reasonably necessary to treat the number of animals involved; and
6. Date.

The records must be retained at the point of sale by the dispensing party for a period not less than 2 years because the agency has a statutory obligation to inspect every feed mill at least once every 2 years. This require-

ment is also applicable to integrated livestock producers who have approved medicated feed applications for restricted medicated animal feeds and who manufacture such feeds for their own use.

Proposed § 558.7(d) explains how FDA will regulate feed stores or other distributors of medicated animal feeds that may be restricted. These segments of the medicated animal feed industry are essentially consignees who are not the users of the articles. Under section 512(a)(1) of the act, consignors may ship new animal drugs to such consignees if they are holders of approved medicated feed applications or, if the consignees are not users, to such consignees that will ship only to holders of approved medicated feed applications. Because the mechanism of distribution by the feed stores is merely a further step in the chain, the Commissioner is proposing to permit holders of approved applications for restricted medicated animal feeds to dispense those feeds to feed stores and other distributors on the condition that those consignees supply the feed mill with a signed statement indicating that they will dispense restricted medicated animal feeds on and in accordance with the order of a licensed veterinarian, that they will maintain the required records of such dispensing for at least 2 years, and that they will permit inspection of the records at all reasonable hours by any duly authorized officer or employee of FDA or other employee acting on behalf of the Secretary of HEW. This will permit a distributor, who does not have approved medicated feed applications under section 512(m) of the act, to receive restricted medicated animal feeds and to dispense them in accord with the rationale for the regulation. Failure of holders of approved applications to comply with these requirements will result in the Commissioner's proposing to withdraw approval of the feed mill's medicated feed application for the restricted feed and to take any other appropriate legal action that is warranted.

Proposed § 558.7(e) sets forth specific label and labeling requirements for (1) articles that are to be manufactured into restricted medicated animal feeds and (2) restricted medicated animal feeds, in addition to all the other labeling requirements of the act. Articles that are to be further manufactured into restricted feed must bear the statement: "For use only in the manufacture of restricted medicated animal feeds to be used on the order of a licensed veterinarian".

For complete restricted medicated animal feeds, the label and labeling shall bear the statement "For use only on the order of a licensed veterinarian".

Proposed § 558.7(e)(3) requires that all restricted medicated animal feeds

dispensed on the order of a licensed veterinarian be appropriately labeled for use and that such use shall include only those conditions for which the article has been approved under Part 558.

Proposed § 558.7(f) provides that an animal feed which contains two or more animal drugs is a restricted medicated animal feed if any ingredient alone would cause a feed containing it to be a restricted medicated animal feed.

Finally, proposed § 558.7(g) establishes the implementation plan. A veterinarian's order will be required for the dispensing of any restricted medicated animal feed 150 days after publication of a final regulation based upon this proposal. This will permit an orderly transition period for processing medicated feed applications that form the bases for this proposal.

The Commissioner has carefully considered the environmental effects of this action, and he has concluded that an environmental impact statement is not required for this notice. A copy of the environmental impact assessment is on file with the Hearing Clerk. Moreover, in the FEDERAL REGISTER of May 27, 1977 (42 FR 27264), the Commissioner of Food and Drugs requested data concerning the potential environmental impact of a series of regulatory actions, including this one, designed to restrict the subtherapeutic use of antibacterials in animal feeds. A comprehensive environmental impact statement will be prepared, evaluating the impact of all the actions as a single program.
